Ratio of Earnings to Fixed Charges

Our consolidated ratio of earnings to fixed charges is as follows for the periods indicated:

August 25, 2007	August 30, 2008	Fiscal Year Ended		August 28, 2010	August 27, 2011	Twenty-Four Weeks Ended	
		August 29, 2009	August 28, 2010			February 12, 2011	February 11, 2012
6.5x	6.8x	6.1x	6.2x	6.5x	5.6x	6.1x	

We have computed the ratio of earnings to fixed charges by dividing earnings by fixed charges. For this purpose, earnings consist of income before income taxes plus fixed charges (excluding capitalized interest), and fixed charges consist of interest expense on all indebtedness, capitalized interest, amortization of debt issuance costs and the portion of rent expense on operating leases deemed representative of interest.

Table of Contents

Lack of a Public Market for the Notes

We do not intend to apply to list the notes on any securities exchange. There are no existing trading markets for the notes, and there can be no assurance regarding:

any future development or liquidity of a trading market for the notes;

your ability to sell your notes at all; or

the prices at which you may be able to sell your notes.

Form and Denominations

We will issue the notes in the form of one or more fully registered global notes registered in the name of the nominee of The Depository Trust Company, or DTC. Beneficial interests in the notes will be represented through book-entry accounts of financial institutions acting on behalf of beneficial owners as direct and indirect participants in DTC. Clearstream Banking, société anonyme, and Euroclear Bank S.A./N.V., as operator of the Euroclear System, will hold interests on behalf of their participants through their respective U.S. depositories, which in turn will hold such interests in accounts as participants of DTC. Except in the limited circumstances described in this prospectus supplement, owners of beneficial interests in the notes will not be entitled to have notes registered in their names, will not receive or be entitled to receive notes in definitive form and will not be considered holders of notes under the indenture. The notes will be issued only in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess thereof.

Use of Proceeds

We intend to use the net proceeds from this offering for general corporate purposes, which may include repaying, redeeming or repurchasing existing debt, including commercial paper, for working capital, capital expenditures, new store openings, repurchases of common stock under our stock repurchase program or acquisitions. See Use of Proceeds in this prospectus supplement.

Further Issues

We may, without the consent of the holders of the notes, create and issue additional notes of such series ranking pari passu with the notes and otherwise identical to the notes in all respects. These additional notes, if any, will form a single series with the notes offered hereby and will have the same terms as to status, redemption or otherwise as such notes.

Governing Law

The indenture and the notes provide that they will be governed by, and construed in accordance with, the laws of the State of New York.

Table of Contents

RISK FACTORS

An investment in the notes involves a degree of risk. You should carefully consider the risks and uncertainties described below and other information contained in this prospectus supplement and the accompanying prospectus and incorporated by reference herein before you decide whether to invest in the notes. In particular, we urge you to consider carefully the factors set forth under Risk Factors in our Annual Report on Form 10-K for the fiscal year ended August 27, 2011, incorporated by reference herein, as such may be updated in any future filings we make under the Exchange Act. If any of the risk factors were to occur, our business, financial condition, results of operations and liquidity could be materially adversely affected. This may affect our ability to pay interest on the notes or repay the principal when due, and you may lose part or all of your investment.

Risks Related to the Notes

The notes will not be guaranteed by any of our subsidiaries and will be structurally subordinated to the debt and other liabilities and any preferred equity of our subsidiaries, which means that creditors and preferred equity holders of our subsidiaries will be paid from their assets before holders of the notes would have any claims to those assets.

The notes are exclusively obligations of AutoZone, Inc. Because most of our operations are currently conducted through subsidiaries, our cash flow and our consequent ability to service our debt, including the notes, are dependent upon the earnings of our subsidiaries and the distribution of those earnings to us or upon loans or other payments of funds by those subsidiaries to us. Our subsidiaries are separate and distinct legal entities and have no obligation, contingent or otherwise, to pay any amounts due pursuant to the notes or to make any funds available for such payments, whether by dividends, loans or otherwise. In addition, the payment of dividends and the making of loans and advances to us by our subsidiaries may be subject to statutory or contractual restrictions, are contingent upon the earnings of those subsidiaries and are subject to various business considerations.

The notes will be effectively subordinated to all indebtedness and other liabilities, including current liabilities and commitments under leases, if any, of our subsidiaries. Any right we have to receive assets of any of our subsidiaries upon the liquidation or reorganization of a subsidiary (and the consequent right of the holders of the notes to participate in those assets) will be effectively subordinated to the claims of that subsidiary's creditors (including trade creditors), except to the extent that we are recognized as a creditor of such subsidiary, in which case our claims would still be subordinated to any security interests in the assets of such subsidiary and any indebtedness of such subsidiary senior to any of the indebtedness held by us.

Your right to receive payments on the notes is effectively subordinated to the rights of secured creditors.

Holders of our secured indebtedness and the secured indebtedness of any future guarantors will have claims that are prior to your claims as holders of the notes to the extent of the value of the assets securing that other indebtedness. The notes will be effectively subordinated to all of our secured indebtedness to the extent of the assets securing such debt. In the event of any distribution or payment of our assets or any pledged capital stock in any foreclosure, dissolution, winding-up, liquidation, reorganization or other bankruptcy proceeding, holders of secured indebtedness will have prior claim to those of our assets and any pledged capital stock that constitute their collateral. Holders of the notes will participate ratably in our remaining assets with all holders of our unsecured indebtedness that is deemed to be of the same class as the notes, and potentially with all of our other general creditors, based upon the respective amounts owed to each holder or creditor. In any of the foregoing events, we cannot assure you that there will be sufficient assets to pay amounts due on the notes. As a result, holders of notes may receive less, ratably, than holders of secured indebtedness.

If we default on our obligations to pay our other indebtedness, we may not be able to make payments on the notes.

Any default under the agreements governing our indebtedness, including a default under any credit facility to which we may be a party that is not waived by the required lenders, and the remedies sought by the holders of such indebtedness could make us unable to pay principal, premium, if any, and interest on the notes and substantially

Table of Contents

decrease the market value of the notes. If we are unable to generate sufficient cash flow and are otherwise unable to obtain funds necessary to meet required payments of principal, premium, if any, and interest on our indebtedness, or if we otherwise fail to comply with the various covenants, including financial and operating covenants, in the instruments governing our indebtedness (including our existing credit facility), we could be in default under the terms of the agreements governing such indebtedness. In the event of such default, the holders of such indebtedness could elect to declare all the funds borrowed thereunder to be due and payable, together with accrued and unpaid interest, the lenders under any credit facility could elect to terminate their commitments, cease making further loans and institute foreclosure proceedings against our assets, and we could be forced into bankruptcy or liquidation. If our operating performance declines, we may in the future need to seek to obtain waivers from the required lenders under any credit facility or other debt that we may incur in the future to avoid being in default. If we breach our covenants under any credit facility and seek a waiver, we may not be able to obtain a waiver from the required lenders. If this occurs, we would be in default under any credit facility, the lenders could exercise their rights as described above, and we could be forced into bankruptcy or liquidation. If we are unable to repay debt, lenders having secured obligations could proceed against the collateral securing the debt. Because the indenture governing the notes, the indentures governing our notes that are currently outstanding and the agreements governing any credit facility will have customary cross-default provisions, if the indebtedness under the notes or under any credit facility or any of our other facilities is accelerated, we may be unable to repay or finance the amounts due. See Description of Notes.

If an active trading market does not develop for these notes you may not be able to resell them.

Prior to this offering, there was no public market for these notes and we cannot assure you that an active trading market will develop for the notes. We do not intend to apply to list the notes on any securities exchange. If no active trading market develops, you may not be able to resell your notes at their fair market value or at all. Future trading prices of the notes will depend on many factors, including, among other things, prevailing interest rates, our operating results and the market for similar securities. We have been informed by the underwriters that they currently intend to make a market in these notes after this offering is completed. However, the underwriters may cease their market-making at any time.

The indenture does not restrict the amount of additional debt that we may incur.

The notes and indenture under which the notes will be issued do not place any limitation on the amount of unsecured debt that may be incurred by us. Our incurrence of additional debt may have important consequences for you as a holder of the notes, including making it more difficult for us to satisfy our obligations with respect to the notes, a loss in the trading value of your notes, if any, and a risk that the credit rating of the notes is lowered or withdrawn.

Our credit ratings may not reflect all risks of your investments in the notes.

Our credit ratings are an assessment by rating agencies of our ability to pay our debts when due. Consequently, real or anticipated changes in our credit ratings will generally affect the market value of the notes. These credit ratings may not reflect the potential impact of risks relating to structure or marketing of the notes. Agency ratings are not a recommendation to buy, sell or hold any security, and may be revised or withdrawn at any time by the issuing organization. Each agency's rating should be evaluated independently of any other agency's rating.

We may not be able to repurchase the notes upon a change of control triggering event.

Upon the occurrence of specific kinds of change of control triggering events, unless we have exercised our right to redeem the notes, each holder of the notes will have the right to require us to repurchase all or any part of such holder's notes at a price equal to 101% of their principal amount, plus accrued and unpaid interest, if any, to the date of repurchase. If we experience a Change of Control Triggering Event, there can be no assurance that we

Table of Contents

would have sufficient financial resources available to satisfy our obligations to repurchase the notes and any other indebtedness that may be required to be repaid or repurchased as a result of such event. Our failure to purchase the notes as required under the indenture governing the notes would result in a default under the indenture, which could have material adverse consequences for us and the holders of the notes. See Description of Notes Change of Control.

Under clause (4) of the definition of Change of Control described under Description of Notes Change of Control, a change of control will occur when a majority of our directors are not continuing directors. In a decision in connection with a proxy contest, the Court of Chancery of Delaware has suggested that the occurrence of a change of control under an indenture provision similar to ours may nevertheless be avoided if the existing directors were to approve the slate of new director nominees (who would constitute a majority of the new board) as continuing directors solely for purposes of avoiding the triggering of such change of control clause, provided the incumbent directors give their approval in the good faith exercise of their fiduciary duties. The Court also suggested that there may be a possibility that an issuer's obligation to repurchase its outstanding debt securities upon a change of control triggered by a failure to have a majority of continuing directors may be unenforceable on public policy grounds. There is no Nevada case law addressing this issue, but the United States District Court in Nevada has, on prior occasion when applying Nevada law, found persuasive authority in Delaware case law in the absence of Nevada statutory or case law on point for an issue of corporate law.

USE OF PROCEEDS

We expect the net proceeds from the sale of the notes in this offering will be approximately \$496 million, after deducting the underwriting discount and estimated offering expenses payable by us.

We intend to use the net proceeds from this offering for general corporate purposes, which may include repaying, redeeming or repurchasing existing debt, including commercial paper, for working capital, capital expenditures, new store openings, repurchases of common stock under our stock repurchase program or acquisitions. We may invest funds not required immediately for these purposes in short-term, interest-bearing or other investment-grade securities.

DESCRIPTION OF NOTES

The following description of the terms and provisions of the notes supplements the description in the accompanying prospectus of the general terms and provisions of the debt securities, to which description reference is hereby made. In this section entitled Description of Notes, references to we, us, our, and AutoZone, Inc. include only AutoZone, Inc. and not any of its subsidiaries.

General

The aggregate principal amount of the notes offered hereby will initially be limited to \$500 million, subject to increase as set forth under Further Issues below. The notes will mature on April 15, 2022 and will bear interest at a rate of 3.700% per year.

The notes will be issued under an indenture dated as of August 8, 2003, between us and The Bank of New York Mellon Trust Company, N.A. (successor to Bank One Trust Company, N.A.), as trustee, as supplemented by an officers certificate dated April 24, 2012, setting forth the terms and conditions of the notes. We refer to the indenture, as supplemented by the officers certificate dated April 24, 2012, as the indenture.

Table of Contents

Interest on the notes will accrue from April 24, 2012 and will be payable semiannually in arrears on April 15 and October 15 of each year, beginning on October 15, 2012, to the persons in whose names the notes are registered at the close of business on April 1 and October 1 (whether or not a business day) preceding the respective interest payment dates. If any interest payment date is not a business day, then payment of interest will be made on the next business day, but without any interest on the amount so payable for the period from and after the applicable interest payment date to the next business day. Interest will be computed on the notes on the basis of a 360-day year of twelve 30-day months.

The notes will not be subject to any sinking fund.

The notes will be represented by one or more registered notes in global form, but in certain limited circumstances may be represented by notes in definitive form. See Description of Notes Book-Entry Delivery and Settlement Global Notes. The notes will be issued only in minimum denominations of \$2,000, and integral multiples of \$1,000 in excess thereof.

Ranking

The notes will be senior unsecured obligations of AutoZone, Inc. and will rank equally and ratably with all other unsecured and unsubordinated indebtedness of AutoZone, Inc. from time to time outstanding. The notes are exclusively obligations of AutoZone, Inc. Because most of our operations are currently conducted through subsidiaries, our cash flow and our consequent ability to service our debt, including the notes, are dependent upon the earnings of our subsidiaries and the distribution of those earnings to us or upon loans or other payments of funds by those subsidiaries to us. Our subsidiaries are separate and distinct legal entities and have no obligation, contingent or otherwise, to pay any amounts due pursuant to the notes or to make any funds available for such payments, whether by dividends, loans or otherwise. In addition, the payment of dividends and the making of loans and advances to us by our subsidiaries may be subject to statutory or contractual restrictions, are contingent upon the earnings of those subsidiaries and are subject to various business considerations.

The notes will be effectively subordinated to all indebtedness and other liabilities, including current liabilities and commitments under leases, if any, of our subsidiaries. Any right we have to receive assets of any of our subsidiaries upon the liquidation or reorganization of a subsidiary (and the consequent right of the holders of the notes to participate in those assets) will be effectively subordinated to the claims of that subsidiary's creditors (including trade creditors), except to the extent that we are recognized as a creditor of such subsidiary, in which case our claims would still be subordinated to any security interests in the assets of such subsidiary and any indebtedness of such subsidiary senior to any of the indebtedness held by us. See Risk Factors Risks Related to the Notes The notes will not be guaranteed by any of our subsidiaries and will be structurally subordinated to the debt and other liabilities and any preferred equity of our subsidiaries, which means that creditors and preferred equity holders of our subsidiaries will be paid from their assets before holders of the notes would have any claims to those assets.

Optional Redemption

The notes will be redeemable at our option at any time in whole or from time to time in part. If the notes are redeemed before January 15, 2022 (three months prior to the maturity date of the notes), the redemption price will equal the greater of:

100% of the principal amount of the notes to be redeemed; and

the sum of the present values of the remaining scheduled payments of principal and interest on the notes to be redeemed (not including any portion of such payments of interest accrued to the date of redemption) discounted to the date of redemption on a semiannual basis (assuming a 360-day year consisting of twelve 30-day months) at the Adjusted Treasury Rate, plus 30 basis points, as determined in good faith by us.

Table of Contents

If the notes are redeemed on or after January 15, 2022 (three months prior to the maturity date of the notes), the redemption price for the notes will equal 100% of the principal amount of the notes.

The redemption price for the notes will include, in each case, accrued interest on the notes being redeemed to the date of redemption.

Notice of any redemption will be mailed at least 30 days but not more than 60 days before the date of redemption to each holder of the notes to be redeemed. Notwithstanding anything to the contrary in Section 4.4 of the indenture, notice of any redemption of notes before January 15, 2022 need not set forth the redemption price but only the manner of calculation thereof. We will give the trustee notice of the amount of the redemption price for any such redemption promptly after the calculation thereof and the trustee shall have no responsibility for such calculation. Unless we default in payment of the redemption price, on and after the date of redemption, interest will cease to accrue on the notes or portions of the notes called for redemption.

For purposes of determining the optional redemption price for any notes redeemed before January 15, 2022, the following definitions are applicable.

Adjusted Treasury Rate means, with respect to any date of redemption, the rate per year equal to the semiannual equivalent yield to maturity of the Comparable Treasury Issue, assuming a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for that date of redemption.

Comparable Treasury Issue means the United States Treasury security selected by the Quotation Agent as having a maturity comparable to the remaining term of the notes to be redeemed that would be used, at the time of selection and under customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of the notes.

Comparable Treasury Price means, with respect to any date of redemption, the average of the Reference Treasury Dealer Quotations for the date of redemption, after excluding the highest and lowest Reference Treasury Dealer Quotations, or if the Quotation Agent obtains fewer than four Reference Treasury Dealer Quotations, the average of all Reference Treasury Dealer Quotations.

Quotation Agent means one of the Reference Treasury Dealers appointed by us.

Reference Treasury Dealer means each of J.P. Morgan Securities LLC, a Primary Treasury Dealer (defined herein) selected by U.S. Bancorp Investments, Inc. and a Primary Treasury Dealer selected by Wells Fargo Securities, LLC and their respective successors and any other primary U.S. government securities dealers in New York City we select (each, a Primary Treasury Dealer). If any of the foregoing ceases to be a Primary Treasury Dealer, we must substitute another Primary Treasury Dealer.

Reference Treasury Dealer Quotations means, with respect to each Reference Treasury Dealer and any date of redemption, the average, as determined by the Quotation Agent, of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing by the Reference Treasury Dealer at 5:00 p.m., New York City time, on the third business day before the date of redemption.

Change of Control

If a Change of Control Triggering Event occurs with respect to the notes, unless we have exercised our option to redeem such notes as described above, holders of the notes will have the right to require us to make an offer (a Change of Control Offer) to each holder of the notes to repurchase all or any part (equal to \$2,000 or

Table of Contents

an integral multiple of \$1,000 in excess thereof) of that holder's notes on the terms set forth in such notes. In a Change of Control Offer, we will be required to offer payment in cash equal to 101% of the aggregate principal amount of notes repurchased, plus accrued and unpaid interest, if any, on the notes repurchased to the date of repurchase (a Change of Control Payment). Within 30 days following any Change of Control Triggering Event or, at our option, prior to any Change of Control, but after public announcement of the transaction that constitutes or may constitute the Change of Control, a notice will be mailed to holders of the notes, describing the transaction that constitutes or may constitute the Change of Control Triggering Event and offering to repurchase such notes on the date specified in the applicable notice, which date will be no earlier than 30 days and no later than 60 days from the date such notice is mailed (a Change of Control Payment Date). The notice will, if mailed prior to the date of consummation of the Change of Control, state that the Change of Control Offer is conditioned on the Change of Control Triggering Event occurring on or prior to the applicable Change of Control Payment Date.

On each Change of Control Payment Date, we will, to the extent lawful:

accept for payment all notes or portions of notes properly tendered pursuant to the applicable Change of Control Offer;

deposit with the paying agent an amount equal to the Change of Control Payment in respect of all notes or portions of notes properly tendered; and

deliver or cause to be delivered to the trustee the notes properly accepted together with an officers' certificate stating the aggregate principal amount of notes or portions of notes being repurchased.

We will not be required to make a Change of Control Offer upon the occurrence of a Change of Control Triggering Event if a third party makes such an offer in the manner, at the times and otherwise in compliance with the requirements for an offer made by us and the third party repurchases all notes properly tendered and not withdrawn under its offer. In addition, we will not repurchase any notes if there has occurred and is continuing on the Change of Control Payment Date an event of default under the indenture, other than a default in the payment of the Change of Control Payment upon a Change of Control Triggering Event.

We will comply with the requirements of Rule 14e-1 under the Exchange Act, and any other securities laws and regulations thereunder to the extent those laws and regulations are applicable in connection with the repurchase of the notes as a result of a Change of Control Triggering Event. To the extent that the provisions of any such securities laws or regulations conflict with the Change of Control Offer provisions of the notes, we will comply with those securities laws and regulations and will not be deemed to have breached our obligations under the Change of Control Offer provisions of the notes by virtue of any such conflict.

For purposes of the foregoing discussion of the repurchase of the notes at the option of the holders, the following definitions are applicable.

Capital Stock of a corporation means the capital stock of every class whether now or hereafter authorized, regardless of whether such capital stock shall be limited to a fixed sum or percentage with respect to the rights of the holders thereof to participate in dividends and in the distribution of assets upon the voluntary or involuntary liquidation, dissolution or winding up of such corporation.

Change of Control means the occurrence of any of the following: (1) the direct or indirect sale, lease, transfer, conveyance or other disposition (other than by way of merger or consolidation), in one or more series of related transactions, of all or substantially all of our assets and the assets of our subsidiaries, taken as a whole, to any Person, other than AutoZone, Inc. or one of our subsidiaries; (2) the consummation of any transaction (including, without limitation, any merger or consolidation) the result of which is that any Person becomes the beneficial owner (as defined in Rules 13d-3 and 13d-5 under the Exchange Act), directly or indirectly, of more than 50% of our outstanding Voting Stock or other Voting Stock into which our Voting Stock is reclassified,

Rating Agencies means (1) each of Fitch, Moody's and S&P; and (2) if any of Fitch, Moody's or S&P ceases to rate the notes or fails to make a rating of the notes publicly available for reasons outside of our control, a nationally recognized statistical rating organization within the meaning of Rule 15c3-1(c)(2)(vi)(F) under the Exchange Act selected by us (as certified by a resolution of our Board of Directors) as a replacement agency for Fitch, Moody's or S&P, or all of them, as the case may be.

Rating Event means the rating on the notes is lowered by at least two of the three Rating Agencies and the notes are rated below an Investment Grade Rating by at least two of the three Rating Agencies on any day during the period (which period will be extended so long as the rating of the notes is under publicly announced consideration for a possible downgrade by any of the Rating Agencies) commencing 60 days prior to the first public notice of the occurrence of a Change of Control or our intention to effect a Change of Control and ending 60 days following consummation of such Change of Control.

within 12 months after the receipt of the proceeds of the sale or transfer, we or any subsidiary apply an amount equal to the greater of the net proceeds of the sale or transfer or the fair value of such Property at the time of such sale or transfer to the prepayment or retirement (other than any mandatory prepayment or retirement) of Senior Funded Debt; or

immediately after giving effect to the transaction, no event of default, and no event which, after notice or lapse of time, or both, would become an event of default, shall have occurred and be continuing under the indenture; and

certain other conditions are met.

Notwithstanding the foregoing, any of our subsidiaries may consolidate with, merge into or transfer all or part of its properties and assets to us or any of our direct or indirect wholly owned subsidiaries.
