This quarterly report on Form 10-Q contains forward-looking statements which involve risks and uncertainties. You can identify forward-looking statements because they contain words such as believes, expects, may, should, seeks, approximately, intends, plans, or anticipates or similar expressions that relate to our strategy, plans or intentions. All statements we make relating to our estimated and projected earnings, margins, revenues, costs, expenditures, cash flows, growth rates and financial results or to our expectations regarding future industry trends are forward-looking statements. In addition, we, through our senior management, from time to time make forward-looking public statements concerning our expected future operations and performance and other developments. These forward-looking statements are subject to risks and uncertainties that may change at any time, and, therefore, our actual results may differ materially from those that we expected. We derive many of our forward-looking statements from our operating budgets and forecasts, which are based upon certain assumptions. While we believe that our assumptions are reasonable, we caution that it is very difficult to predict the impact of known factors, and it is impossible for us to anticipate all factors that could affect our actual results. All forward-looking statements are based upon information available to us on, and speak only as of, the date of this report.

Important factors that could cause actual results to differ materially from our expectations, which we refer to as cautionary statements, are discussed in detail in Part I, Item 1A. All forward-looking information in this quarterly report and subsequent written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by the cautionary statements. Some of the factors that we believe could affect our results include without limitation:

our ability to protect our intellectual property;

In addition, in light of these risks and uncertainties, the matters referred to in the forward-looking statements contained in this quarterly report may not in fact occur. Accordingly, investors should not place undue reliance on those statements. We undertake no obligation to publicly update or revise any forward-looking statement as a result of new information, future events or otherwise, except as otherwise required by law.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2012

(Unaudited)

NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Company

Bankrate, Inc. and its subsidiaries (Bankrate or the Company, we, us, our) own and operate an Internet-based consumer banking and personal finance network (Online Network). Our flagship website, Bankrate.com, is one of the Internet's leading aggregators of information on more than 300 financial products and fees, including mortgages, deposits, insurance, credit cards, and other personal finance categories. Additionally, we provide financial applications and information to a network of distribution partners and through national and state publications.

2011 Merger and Recapitalization

On June 21, 2011, Bankrate's parent company, BEN Holdings, Inc. (Holdings), a majority owned subsidiary of Ben Holdings S.à.r.l, merged with and into the Company with the Company surviving the merger (2011 Merger). In connection with the 2011 Merger, Holdings underwent an internal recapitalization in which all preferred and common shares of Holdings were exchanged for shares of a single series of common stock of Holdings (the Recapitalization). As a result of the Recapitalization and 2011 Merger, all preferred and common stock (other than restricted stock) of the Company were cancelled and all shares of common stock of Holdings were converted into common stock of the Company. Immediately following the Recapitalization and 2011 Merger, the Company had 87,500,000 shares of common stock issued and outstanding, including 120,135 shares of restricted stock. The surviving corporation in the 2011 Merger retained the name Bankrate, Inc. The 2011 Merger was accounted for as a common control merger and in a manner similar to a pooling of interests. Accordingly, Holdings and Bankrate were consolidated retroactively to the earliest period presented, using the historical cost basis of each entity. The common stock, per common share, and increase in authorized share amounts in these unaudited condensed consolidated financial statements and notes to condensed consolidated financial statements have been presented to retroactively reflect these transactions to the earliest period presented.

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements include the accounts of Bankrate, Inc., and subsidiaries NetQuote Holdings, Inc., NetQuote Inc., CreditCards.com, Inc., CCRD Operating Company, Inc., CreditCards.com Limited (United Kingdom), Freedom Marketing Limited (United Kingdom), and Rate Holding Company (100% owner of Bankrate Information Consulting (Beijing) Co., Ltd.) after elimination of all intercompany accounts and transactions.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for the fair statement of our results have been included. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent gains and losses at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. Operating results for the three and six months ended June 30, 2012 are not necessarily indicative of the results that may be expected for the year ending December 31, 2012, for any other interim period or for any other future year.

The accompanying unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto contained in the Company's 2011 Annual Report on Form 10-K filed with the Securities and Exchange Commission (SEC) on March 12, 2012.

There have been no significant changes in the Company's accounting policies from those disclosed in the Company's 2011 Annual Report on Form 10-K filed with the SEC on March 12, 2012.

Reclassification

Certain reclassifications have been made to the Condensed Consolidated Statements of Comprehensive Income for the three and six months ended June 30, 2011 and to the Condensed Consolidated Statement of Cash Flows for the six months ended June 30, 2011 to conform to the presentation for the three and six months ended June 30, 2012.

New Accounting Pronouncements***Recently Adopted Pronouncements***

In May 2011, the FASB issued ASU 2011-04, Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in US GAAP and IFRS's. ASU 2011-04 amends Topic 820, Fair Value Measurement to change the wording used to describe the requirements in GAAP for measuring fair value and for disclosing information about fair value measurements. The amendments include wording changes that clarify the FASB's intent about the application of existing fair value measurement and disclosure requirements and those that change a particular principle or requirement for measuring fair value or for disclosing information about fair value measurements. The adoption of ASU 2011-04 as of January 1, 2012 did not have a material impact on the Company's consolidated financial statements.

In June 2011, the FASB issued ASU 2011-05, Comprehensive Income (Topic 220): Presentation of Comprehensive Income. ASU 2011-05 amends Topic 220, Comprehensive Income, to give an entity the option for presenting the total of comprehensive income, the components of net income and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. The amendment in this update is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011 and should be applied retrospectively. In December 2011, the FASB issued ASU 2011-12, Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in ASU 2011-05. The amendments in this update defers only those changes in ASU 2011-05 that relate to the presentation of reclassification adjustments. The adoption of ASU 2011-05 and subsequent amendment in ASU 2011-12 as of January 1, 2012 did not have a material impact on the Company's consolidated financial statements and the deferred changes in ASU 2011-12 are not expected to have a material impact upon adoption.

Recently Issued Pronouncements, Not Adopted as of June 30, 2012

In December 2011, the FASB issued ASU 2011-11, Balance Sheet (Topic 210): Disclosures about Offsetting Assets and Liabilities. This amendment requires entities to disclose both gross information and net information about both instruments and transactions eligible for offset in the statement of financial position and instruments and transactions subject to an agreement similar to a master netting arrangement. The amendment is effective for annual reporting periods beginning on or after January 1, 2013, and interim periods within those annual periods. An entity should provide the disclosures required by those amendments retrospectively for all comparative periods presented. The adoption of ASU 2011-11 is not expected to have a material impact on the Company's consolidated financial statements.

NOTE 6 FAIR VALUE MEASUREMENT

The carrying amounts of cash, accounts receivable and accrued interest approximate estimated fair value. The U.S. Treasury securities, classified as cash equivalents, are measured using quoted market prices available on active markets. In measuring the fair value of the Senior Secured Notes, the Company used market information. These estimates require considerable judgment in interpreting market data, and changes in assumptions or estimation methods could significantly affect the fair value estimates.

The following table presents estimated fair value, and related carrying amounts, as of June 30, 2012 and December 31, 2011:

NOTE 7 STOCK-BASED COMPENSATION

In June 2011, the Company established the 2011 Equity Compensation Plan (the 2011 Plan) to grant stock-based awards for up to 12,120,000 shares of our common stock. Under the 2011 Plan, the Board of Directors or its delegate has the sole authority to determine who receives such grants, the type, size and timing of such grants, and to specify the terms of any non-competition agreements relating to the grants. The purpose of the 2011 Plan is to advance our interests by providing eligible participants in the Plan with the opportunity to receive equity-based or cash incentive awards, thereby aligning their economic interests with those of our stockholders. As of June 30, 2012, 6,999,215 shares were available for future issuance under the 2011 plan.

During the three months ended June 30, 2012, the Company updated its calculation of stock-based compensation expense to use a higher forfeiture rate based on actual forfeitures during the previous twelve months rather than the forfeiture rate estimated in June 2011 based on historical experience. The result of this change in estimate to increase the forfeiture rate was recognized as a cumulative catch up adjustment to reduce stock-based compensation expense by \$724,000.

Pursuant to the income tax provisions of ASC 718, we follow the long-haul method of computing our hypothetical additional paid-in capital, or APIC, pool. Approximately 1.1 million stock options vested during the six months ended June 30, 2012.

The aggregate intrinsic value of stock options outstanding in the table above is calculated as the difference between the closing price of Bankrate's common stock on the last trading day of the reporting period (\$18.39) and the exercise price of the stock options multiplied by the number of shares.

As of June 30, 2012, approximately \$26.7 million of total unrecognized compensation costs, net of forfeitures, related to non-vested stock option awards is expected to be recognized over a weighted average period of 3.03 years.

NOTE 8 INCOME TAXES

We calculate our income tax provision for interim periods based on two components: 1) the estimate of the annual effective tax rate and 2) the addition of any required period (i.e., discreet) events. The difference between income tax expense computed at the statutory rate and the reported income tax expense is primarily due to the discreet benefit recognized as a result of the 2009 IRS exam settlement during the six months ended June 30, 2012.

We have approximately \$9.6 million and \$14.3 million of unrecognized tax benefits as of June 30, 2012 and December 31, 2011, respectively. The decrease from the beginning of the year was the result of the positions ultimately settled in the 2009 IRS examination.

We are subject to income taxes in the U.S. federal jurisdiction, various states, and foreign jurisdictions. Tax regulations within each jurisdiction are subject to the interpretation of the related tax laws and regulations and require significant judgment to apply. With few exceptions, we are no longer subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities for the years before 2008.

We reversed \$191,000 and accrued \$112,000 for the payment of interest and penalties for the respective six month periods ended June 30, 2012 and 2011, which was recorded as an income tax (benefit) expense during the respective six month periods ended June 30, 2012 and 2011.

On April 5, 2012, the Company reached an agreement with the IRS to settle its examination of the 2009 tax year. The Company recorded a total tax benefit of \$6.8 million during the three and six months ended June 30, 2012 related to the IRS settlement.

NOTE 10 COMMITMENTS AND CONTINGENCIES***Legal Proceedings******Lower Fees, Inc. Litigation***

In November 2008, Lower Fees, Inc. ("LF") filed a civil action in Florida circuit court (the "First LF Lawsuit") against the Company and the Company's Chief Executive Officer and Chief Financial Officer, alleging fraud in the inducement by the defendants in respect of the Company having entered into an asset purchase agreement with LF in February 2008 (the "Asset Purchase Agreement"). Pursuant to the Asset Purchase Agreement, the Company purchased certain assets and assumed certain liabilities of LF and made a cash payment of the consideration specified in the agreement. In March 2009 the court dismissed the complaint. In April 2009, LF filed an amended complaint, omitting the claim against the Company's Chief Financial Officer, which was dismissed in October 2009. LF filed another amended complaint in November 2009, which sought relief in the form of rescission of the transaction and attorneys' fees and which was dismissed with prejudice in March 2010. LF appealed the dismissal and in October 2011 the Florida appellate court reversed the trial court's dismissal of the complaint and directed the trial court to proceed with the case. After the Company's motion for rehearing was denied, the case was remanded to the trial court for further proceedings. The Company has answered the complaint.

Edgar Filing: Bankrate, Inc. - Form 10-Q

In April 2010, LF sent a letter to the Company asking for indemnification under the Asset Purchase Agreement for the same alleged misrepresentations it had alleged in the First LF Lawsuit. The letter claimed damages of \$8.2 million. The letter also asked for payment of \$900,000 and \$180,000 to one of the owners of LF in respect of his former employment with the Company. In May 2010, the Company responded to the letter denying the allegations in full.

In March 2011, LF filed a civil action in Florida circuit court against the Company styled: Lower Fees, Inc., Plaintiff, vs. Bankrate, Inc., Defendant (the Second LF Lawsuit). In the Second LF Lawsuit, LF alleges that the Company breached a duty of good faith to operate a website transferred under the Asset Purchase Agreement to generate revenues that would have resulted in the Company having to pay LF certain earn-out payments under the Asset Purchase Agreement. LF seeks relief in the form of unspecified damages suffered, pre-judgment interest, attorneys' fees, and costs. The Company filed a motion for summary judgment and a motion to dismiss, both of which have been denied. The Company has now answered the complaint.

The Company will continue to vigorously defend the First LF Lawsuit and the Second LF Lawsuit. The Company cannot presently estimate the amount of loss, if any, that would result from an adverse resolution of these matters.

BanxCorp Litigation

In July 2007, BanxCorp, an online publisher of rate information provided by financial institutions with respect to various financial products, filed suit against the Company in the United States District Court for the District of New Jersey alleging violations of Federal and New Jersey State antitrust laws, including the Sherman Act and the Clayton Act. In the complaint, BanxCorp sought injunctive relief, treble damages in an unspecified amount, and attorneys' fees and costs. BanxCorp alleged that it has been injured as a result of monopolistic and otherwise anticompetitive conduct on the part of the Company. Specifically, BanxCorp alleged that the Company engaged in illegal predatory pricing, vendor lock-in, exclusionary product and distribution bundling and tie-in arrangements, anticompetitive acquisitions and market division agreements. In response to motions by the Company to dismiss for failure to state a claim, the court has permitted BanxCorp to file amended complaints, in which BanxCorp has added new causes of action under the Sherman Act, including an allegation that the Company conspired with some 90 online media outlets to fix prices in connection with the publication of certain rate information tables.

The plaintiff filed a Fifth Amended Complaint in January 2012 alleging violations of Section 1 and 2 of the Sherman Act, Section 7 of the Clayton Act, and the New Jersey antitrust statutes. The Company moved to dismiss certain of the claims in the Fifth Amended Complaint and on July 30, 2012 the court dismissed certain claims under Section 1 of the Sherman Act without prejudice and dismissed the Section 1 predatory pricing conspiracy claim with prejudice. On August 6, 2012, the plaintiff filed a Sixth Amended Complaint. The Company will continue to vigorously defend this lawsuit. The Company cannot presently estimate the amount of loss, if any, that would result from an adverse resolution of this matter.

Mortgage Grader Lawsuit

In October 2010, an action was commenced in the United States District Court for the Central District of California entitled *Mortgage Grader, Inc. v. Lenderfi, Inc., et al.*, in which the Company was one of nine defendants. The complaint alleged that the plaintiff is the owner of a patent relating to a computer-implemented system for enabling borrowers to anonymously shop for loan packages offered by a plurality of lenders and that the patent is being infringed by each of the defendants. In March 2012, the Company settled with the plaintiff for an immaterial amount. All of these claims have been paid and are now resolved.

Revolving Credit Facilities

On June 10, 2011, we entered into Revolving Credit Facilities in an aggregate amount of \$100.0 million, consisting of two tranches, tranche A for \$30.0 million which matures on July 15, 2015 and tranche B for \$70.0 million which matures on April 15, 2015 ("Revolving Credit Facilities"). Our obligations under the Revolving Credit Facilities are guaranteed by each direct and indirect, existing and future, domestic restricted subsidiary that guarantees our obligations under the Senior Secured Notes. The obligations under such credit facilities are equally and ratably secured by liens on the same collateral that secures our Senior Secured Notes (it being understood that upon any enforcement of remedies resulting in the realization of proceeds from such collateral, up to \$30.0 million of revolving tranche A loans under the tranche A facility would be paid in full first before applying any such amount to pay the Notes and the tranche B revolving loans under the tranche B credit facility on a pari passu basis). The agreements governing such credit facilities contain terms generally commensurate with issuers of the same debt rating, and our ability to draw down any such credit facilities is subject to certain limitations, including that at the time of and immediately after giving effect to such drawing and the application proceeds thereof the Consolidated Secured Debt Ratio (as defined in the revolving credit facilities) on a pro forma basis shall not exceed 3.50:1.00.

At the Company's election, the interest rate per annum applicable to the loans under the Revolving Credit Facilities is based on a fluctuating rate of interest determined by reference to either (i) a base rate determined by reference to the higher of (a) the prime rate quoted in the print edition of *The Wall Street Journal*, Money Rates Section as the prime rate and (b) the federal funds effective rate plus 0.50%, plus an applicable margin equal to 2.00%, or (ii) a Eurodollar rate determined by reference to LIBOR, adjusted for statutory reserve requirements, plus an applicable margin equal to 3.00%; provided, however, that at any time less than \$20,000,000 in aggregate principal amount of loans are drawn under the tranche A credit facility, the applicable margin with respect to loans under the tranche B credit facility at the base rate will be 2.25% and the applicable margin with respect to loans under the tranche B credit facility at the Eurodollar rate will be 3.25%.

Interest accrues daily and is payable in arrears for both base rate and Eurodollar loans. For base rate loans, interest is payable on the last business day of March, June, September and December. For Eurodollar loans interest is payable on electable periods of one, two, three or six months (or, if each affected lender so agrees, nine or twelve months). As of June 30, 2012 and December 31, 2011, the Company had \$100.0 million available for borrowing under the Revolving Credit Facilities and there were no amounts outstanding. During the three and six months ended June 30, 2012, the Company amortized \$189,000 and \$377,000 of deferred loan fees, respectively, which is included in interest expense on the accompanying consolidated statements of comprehensive income. The Revolving Credit Agreement contains customary financial and other covenants, including maximum consolidated leverage ratio of 4.50:1.00 and in certain instances 4.25:1.00. In addition, the Company is subject to covenants limiting incurrence of debt, liens on properties, investments, loans and advances, mergers and consolidations, asset sales, dividends and transactions with affiliates. Introduction

Our Company

We are a leading publisher, aggregator and distributor of personal finance content on the Internet. We provide consumers with proprietary, fully researched, comprehensive, independent and objective personal finance editorial content across multiple vertical categories including mortgages, deposits, insurance, credit cards, and other personal finance categories.

Our sources of revenue include display advertising, performance-based advertising, lead generation, distribution arrangements and traditional media avenues, such as syndication of editorial content and subscriptions.

We generate revenue through the sale of leads in the mortgage, credit card and insurance vertical categories. Through our Bankrate Select brand we sell leads to mortgage lenders. Through our Nationwide Card Services, *CreditCardGuide.com*, and *CreditCards.com* brands, we sell leads to credit card issuers. Through our InsWeb, *InsureMe.com* and NetQuote brands, we sell leads to insurance agents and insurance carriers. We generate revenue on a per-lead basis based on the actual number of qualified insurance leads generated, and on a per-action basis for credit card applications (i.e., upon approval or completion of an application). Leads are generated not only organically within the Bankrate network of websites, but also through our various affiliate networks, via co-brands, and through display advertisements. We sell to advertisers targeting a specific audience in a city or state and also to national advertisers targeting the entire country.

Advertisers that are listed in our mortgage and deposit rate tables have the opportunity to hyperlink their listings. Additionally, advertisers can buy hyperlinked placement within our qualified insurance listings. By clicking on the hyperlink, users are taken to the advertiser's website. We typically sell our hyperlinks on a per-click pricing model. Under this arrangement, advertisers pay Bankrate a specific, pre-determined cost each time a consumer clicks on that advertiser's hyperlink or phone icon (usually found under the advertiser's name in the rate or insurance table listings). All clicks are screened for fraudulent characteristics by an independent third party vendor and then charged to the advertiser's account.

We provide a variety of digital display formats. Our most common digital display advertisement sizes are leader boards and banners, which are prominently displayed at the top or bottom of a page, as well as skyscrapers, islands, and posters. We charge for these advertisements based on the number of times the advertisement is displayed or based on a fixed amount for a campaign. Advertising rates may vary depending upon the product areas targeted, geo-targeting, the quantity of advertisements purchased by an advertiser, and the length of time an advertiser runs an advertisement on our online network. We sell to advertisers targeting a specific audience in a city or state and also to national advertisers targeting the entire country.

Lead generation, display advertisements and hyperlink listings, which we refer to as online revenue, represented approximately 98% of our revenue for the three and six months ended June 30, 2012 and 2011. We also derive revenue through the sale of print advertisements and the distribution (or syndication) of our editorial content, which we refer to as print publishing and licensing revenue.

2011 Merger and Recapitalization

On June 21, 2011, Holdings merged with and into the Company with the Company surviving the merger (2011 Merger). In connection with the 2011 Merger, Holdings underwent an internal recapitalization in which all preferred and common shares of Holdings were exchanged for shares of a single series of common stock of Holdings (the Recapitalization). As a result of the Recapitalization and 2011 Merger, all preferred and common stock (other than restricted stock) of the Company were cancelled and all shares of common stock of Holdings were converted into common stock of the Company. Immediately following the Recapitalization and 2011 Merger, the Company had 87,500,000 shares of common stock issued and outstanding, including 120,135 shares of restricted stock. The surviving corporation in the 2011 Merger retained the name Bankrate, Inc. The 2011 Merger was accounted for as a common control merger and in a manner similar to a pooling of interests. Accordingly, Holdings and Bankrate were consolidated retroactively to the earliest period presented, using the historical cost basis of each entity. The common stock, per common share, and increase in authorized share amounts in these consolidated financial statements and notes to consolidated financial statements have been presented to retroactively reflect these transactions to the earliest period presented.

Certain Trends Influencing Our Business

Our business benefits from the secular shift toward consumer use of the Internet to research and shop for personal finance products coupled with increased consumer interest in comparison shopping for such products, and the related shift by advertiser demand from offline to online and targeting of in-market consumers. Our ability to benefit from these trends depends on the strength of our position in the personal finance services markets driven by our brands, proprietary and aggregated content, breadth and depth of personal finance products, distribution, position in algorithmic search results and monetization capabilities. The key drivers of our business include the number of ready-to-transact consumers visiting our online network, including the number of page views they generate, the availability of financial products and the demand of our online network advertisers, each of which are correlated to general macroeconomic conditions in the United States. We believe that increases in housing activity and general consumer financial activity and fluctuations in interest rates positively impact these drivers while decreases in these areas may have a negative impact on these drivers.

From 2008 through mid-2010, our business was negatively affected by market turmoil and tightening of credit which led to an increased level of consumer and commercial credit delinquencies, low interest rates, lack of consumer confidence, increased market volatility and widespread reduction of business activity generally. During this period, uncertainty for our financial services advertisers caused their advertising budgets to decline. Since mid-2010, we have experienced increased activity by consumers in the form of increased visits to our websites and page views, as well as more demand for our advertising products by our advertising customers. Although economic times remain uncertain and markets for some of our products tied to credit remain tight, we continue to see strong consumer and advertiser activity on our platform through 2012 to date and we believe we continue to be well positioned to take advantage of these activities should the macroeconomic environment and financial services industry continue to improve.

Key Initiatives

We are focused on several key initiatives to drive our business:

increasing the visitor traffic to our online network of websites;

optimizing the revenue of our cost-per-thousand-impressions and cost-per-click models on our online network including the integration of the new acquisitions;

revenue optimization associated with the new look, design and functionality of our mortgage and deposit cost-per-click as well as cost-per-call initiatives;

enhancing search engine marketing and keyword buying to drive targeted impressions into our online network;

Edgar Filing: Bankrate, Inc. - Form 10-Q

expanding our co-brand and affiliate footprint;

broadening the breadth and depth of the personal finance content and products that we offer on our online network;

transition to a higher conversion lead model with a greater percentage of owned and operated traffic from a high volume third party lead model,

containing our costs and expenses; and

continuing to integrate our recent acquisitions to maximize synergies and efficiencies.

Table of Contents

Revenue

The amount of advertising we sell is a function of (1) the number of visitors to our online network and our affiliates' websites, (2) the number of ad pages we serve to those visitors, (3) the click through rate of visitors on hyperlinks, (4) the number of advertisements per page, (5) the rate at which consumers apply for financial product offerings, and (6) advertiser demand.

Display Advertising Revenue

We sell display advertisements on our online network consisting primarily of leaderboards, banners, badges, islands, posters, and skyscraper advertisements. We typically charge for these advertisements based on the number of times the advertisement is displayed.

Hyperlink Revenue

We also sell hyperlinks (e.g., in our interest rate or insurance table listings) on our online network on a cost-per-click basis. Advertisers pay us each time a visitor to our online network clicks on a hyperlink in a rate or insurance table listing, net of invalid clicks. We also sell text links on our rate pages to advertisers on a cost-per-click basis. Advertisers enter an auction bidding process on a third-party website for placement of their text link based on the amount they are willing to pay for each click through to their website.

Lead Generation Revenue

We also generate revenue by delivering measurable online marketing results to our clients in the credit card, personal insurance and mortgage vertical categories. These results are typically in the form of qualified leads or clicks, the outcomes of customers submitting an application for a credit card or mortgage, or customers being contacted regarding a quote for a personal insurance product. These qualified leads are generated from our marketing activities on our websites or on third party websites with whom we have relationships.

Print Publishing and Licensing Revenue

Print publishing and licensing revenue represent advertising revenue from the sale of advertising in our *Mortgage Guide* (formerly called the *Consumer Mortgage Guide*) and *CD & Deposit Guide*, rate tables, newsletter subscriptions, and licensing of research information.

We also earn fees from distributing editorial rate tables that are published in newspapers and magazines across the United States, from paid subscriptions to three newsletters, and from providing rate surveys to institutions and government agencies. In addition, we license research data under agreements that permit the use of rate information we develop to advertise the licensee's products in print, radio, television, and website promotions.

Cost of Revenue (excludes depreciation and amortization)

Cost of revenue represents expenses directly associated with the creation of revenue. These costs include contractual revenue sharing obligations resulting from our distribution arrangements (distribution payments), salaries, editorial costs, market analysis and research costs, stock-based compensation expense, and allocated overhead. Distribution payments are made to website operators for visitors directed to our online network as well as to affiliates for leads directed to our online network and lead generation websites. These costs increase proportionately with gains related to revenue from our online network and lead generation websites. Editorial costs relate to writers and editors who create original content for our online publications and associates who build web pages. These costs have increased as we have added online publications and co-branded versions of *Bankrate.com* under distribution arrangements. These websites must be maintained on a daily basis. Research costs include expenses related to gathering data on banking and credit products and consist primarily of compensation and benefits along with allocated overhead.

We are also involved in revenue sharing arrangements with our online partners where the consumer uses co-branded websites to which we provide web services. Revenue is effectively allocated to each partner based on the revenue earned from each website. The allocated revenue is shared according to distribution agreements.

Three Months Ended June 30, 2012 Compared to Three Months Ended June 30, 2011**Revenue**

Total revenue was \$122.1 million and \$98.4 million for the three months ended June 30, 2012 and 2011, respectively, representing an increase of 24.0%, due to the reasons set forth below.

Display advertising revenue increased by \$2.1 million for the three months ended June 30, 2012 compared to the same period in 2011, which was driven by the increase in page views (\$906,000 impact), and an increase in cost per impressions yield per page (\$1.2 million impact).

Hyperlink revenue increased by \$16.2 million for the three months ended June 30, 2012 compared to the same period in 2011, due to an increase in the number of clicks (\$7.5 million impact) and an increase in the overall rate (\$8.7 million impact). The growth in click volume was across all products: insurance, mortgage, deposit, investment and auto. The increase in the overall rate is driven by increased rates in mortgage and deposit products.

Per approved lead and per application lead generation revenue combined increased by \$5.3 million for the three months ended June 30, 2012 compared to the same period in 2011. Our lead quality initiative has resulted in better monetization of higher quality leads while we have restricted distributing low quality leads. The increase in revenue is muted by the lack of price increases which we expect to achieve over the near and mid-term as a result of the quality initiative.

Cost of Revenue (excludes depreciation and amortization) and Gross Margin

Cost of revenue for the three months ended June 30, 2012 of \$37.6 million was \$2.3 million higher than the same period in 2011. Our gross margin for the three months ended June 30, 2012 was 69%, compared to 64% for the same period in 2011, increasing

primarily due to higher share of direct traffic to insurance lead business and growth in margin in cost per click and display business.

Our principal ongoing source of operating liquidity is the cash generated by our business operations. We consider all highly liquid debt investments purchased with an original maturity of less than three months to be cash equivalents.

Our primary uses of cash have been to fund our working capital and capital expenditure needs, fund acquisitions, and service our debt obligations. We believe that we can generate sufficient cash flows from operations to fund our operating and capital expenditure requirements, as well as to service our debt obligations, for the next 12 months. In the event we experience a significant adverse change in our business operations, we would likely need to secure additional sources of financing.

As of June 30, 2012, we had working capital of \$111.3 million and our primary commitments were normal working capital requirements and \$10.6 million in accrued interest for the Senior Secured Notes. In addition, we have commitments for potential earn out obligations related to past acquisitions totaling \$15.1 million as of June 30, 2012.

As of December 31, 2011, we had working capital of \$87.7 million and our primary commitments were normal working capital requirements and \$10.6 million in accrued interest for the Senior Secured Notes.

We assess acquisition opportunities as they arise. Financing may be required if we decide to make additional acquisitions or if we are required to make any earn-out payments to which the former owners of our acquired businesses may be entitled. There can be no assurance, however, that any such opportunities may arise, or that any such acquisitions may be consummated. Additional financing may not be available on satisfactory terms or at all when required.

Debt Financing*Revolving Credit Facilities*

We have certain Revolving Credit Facilities in an aggregate amount of \$100.0 million, consisting of two tranches, tranche A for \$30.0 million which matures on July 15, 2015 and tranche B for \$70.0 million which matures on April 15, 2015 (*Revolving Credit Facilities*). Our obligations under the Revolving Credit Facilities are guaranteed by each direct and indirect, existing and future, domestic restricted subsidiary that guarantees our obligations under the Senior Secured Notes.

As of June 30, 2012, we had no amount outstanding under the Revolving Credit facilities and we were in compliance with all required covenants.

Senior Secured Notes

Edgar Filing: Bankrate, Inc. - Form 10-Q

As of June 30, 2012, we had approximately \$193.8 million in Senior Secured Notes outstanding for which interest is accrued daily on the outstanding principal amount at $11\frac{3}{4}\%$ and is payable semi-annually, in arrears, on July 15 and January 15, beginning on January 15, 2011, in cash. The Senior Secured Notes are due July 15, 2015. Accrued interest on the Senior Secured Notes as of June 30, 2012 is approximately \$10.6 million. During the six months ended June 30, 2011, we used \$18.9 million of cash in operating activities, including \$23.5 million in interest payments on the Senior Secured Notes, \$36.2 million in acquisition expenses and related party fees related to the 2010 acquisitions of NetQuote and CreditCards and the Initial Public Offering and related merger and recapitalization of the Company. The remaining use of cash was primarily the result of funding working capital to drive the significant growth we experienced during the six months ended June 30, 2011. Our net loss of \$34.6 million was adjusted for depreciation and amortization of \$21.7 million, bad debt expense of \$1.2 million, amortization of deferred financing costs and original issue discount of \$1.2 million, stock-based compensation expense of \$418,000, loss on redemption of Senior Secured Notes of \$16.6 million and a net negative change in the components of operating assets and liabilities of \$25.4 million. This negative change in operating assets and liabilities resulted in part from a \$15.8 million increase in prepaid expenses and other assets, a \$10.5 million increase in accrued expenses, a \$20.0 million increase in accounts receivable, a \$2.9 million decrease in deferred revenue, and a \$2.8 million increase in accounts payable and other liabilities primarily due to interest accrued less interest paid on the Senior Secured Notes.

OFF-BALANCE SHEET ARRANGEMENTS

Off-balance sheet arrangements include the following four categories: obligations under certain guarantees or contracts; retained or contingent interests in assets transferred to an unconsolidated entity or similar arrangements; obligations under certain derivative arrangements; and obligations under material variable interests.

Besides the offering of the Senior Secured Notes, we have not entered into any material arrangements which would fall under any of these four categories and which would be reasonably likely to have a current or future material effect on our results of operations, liquidity or financial condition.

Item 3. Quantitative and Qualitative Disclosures About Market Risk **Interest Rate Risk**

The primary objective of our investment strategy is to preserve principal while maximizing the income we receive from investments without significantly increasing risk. To minimize this risk, to date we have maintained our portfolio of cash equivalents in short-term and overnight investments that are not subject to market risk, as the interest paid on such investments fluctuates with the prevailing interest rates. As of June 30, 2012, all of our cash equivalents mature in less than three months.

None of our outstanding debt as of June 30, 2012 was subject to variable interest rates as we did not have an outstanding balance for borrowed money under our Revolving Credit Facilities as of June 30, 2012. Interest under the Revolving Credit Facilities accrues at variable rates based, at our option, on the Alternate Base Rate (as defined in the Revolving Credit Facilities) plus a margin of between 2% and 2.25%, or at the LIBOR rate plus a margin of between 3.00% and 3.25%, depending on certain criteria. Our fixed interest rate debt includes \$193.8 million of the Senior Secured Notes in the aggregate principal amount.

Exchange Rate Sensitivity

Our exposure to exchange rate risk is primarily that of a net receiver of currencies other than the US dollar. Accordingly, changes in exchange rates, and in particular a strengthening of the U.S. dollar, will negatively affect the Company's net sales and gross margins as expressed in U.S. dollars. Additionally, we have not engaged in any derivative or hedging transactions to date.

Item 4. Controls and Procedures **Disclosure Controls and Procedures**

We have established disclosure controls and procedures to ensure that material information relating to the Company is made known to the officers who certify the Company's financial reports and to other members of senior management and the board of directors.

Based on their evaluation as of June 30, 2012, the principal executive officer and principal financial officer of the Company have concluded that the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) are effective to ensure that the information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC rules and forms and to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is accumulated and communicated to our management, including our principal executive and principal financial officers, as appropriate, to allow timely decisions regarding required disclosure.

Management, including our chief executive officer and chief financial officer, does not expect our disclosure controls and procedures will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected.

Changes in Internal Controls over Financial Reporting

There has not been any change in our internal control over financial reporting that occurred during the quarter ended June 30, 2012 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
