PROXY STATEMENT

FOR

THE ANNUAL GENERAL MEETING OF SHAREHOLDERS

TO BE HELD ON MAY 3, 2013

March 22, 2013

We are furnishing this proxy statement to the shareholders of AXIS Capital Holdings Limited in connection with the solicitation of proxies by the Board of Directors (the Board) of AXIS Capital Holdings Limited to be voted at the 2013 Annual General Meeting of Shareholders to be held at AXIS Overbay Cottage, 11 Waterloo Lane, Pembroke HM 08, Bermuda, on Friday, May 3, 2013 at 8:30 a.m. local time, and at any postponements or adjournments of that meeting. Directions to the 2013 Annual General Meeting at AXIS Overbay Cottage may be obtained by contacting our Corporate Secretary at: +1.441.496.2600.

When used in this proxy statement, the terms we, us, our, the Company, AXIS and AXIS Capital refer to AXIS Capital Holdings Limited.

The approximate date on which we are first sending this proxy statement and the accompanying proxy card is March 22, 2013.

This proxy statement, our 2012 Annual Report to Shareholders and our Form 10-K for the fiscal year ended December 31, 2012 are available at <https://materials.proxyvote.com/G0692U>.

When the accompanying proxy card is properly executed and returned, the proxies named on the proxy card will vote the common shares, par value U.S. \$0.0125 per share, of AXIS Capital at the meeting as specified on the following proposals:

1. The election of the five nominees for Class III Directors as identified in this proxy statement;
2. The approval, by non-binding vote, of the compensation paid to our named executive officers;
3. The appointment of Deloitte & Touche Ltd. (Deloitte) to act as our independent registered public accounting firm for the fiscal year ending December 31, 2013 and the authorization of our Board, acting through the Audit Committee, to set the fees for the independent registered public accounting firm; and
4. Such other business as may properly come before the meeting or any postponements or adjournments thereof.

Edgar Filing: AXIS CAPITAL HOLDINGS LTD - Form DEF 14A

Shareholders of record as of the close of business on March 5, 2013, the record date, are entitled to vote at the meeting. As of March 5, 2013, there were 119,173,841 outstanding common shares entitled to vote at the meeting. Except as set forth in our bye-laws, each common share entitles the holder of record to one vote. In accordance with our bye-laws, shareholders whose shares constitute 9.5% or more of the voting power of our common shares are entitled to less than one vote for each common share held by them, but only in the event that a U.S. Shareholder, as defined in our bye-laws, owning 9.5% or more of our common shares is first determined to exist. We will notify any shareholder whose voting power is reduced prior to the meeting.

Assuming that there is a quorum consisting of two or more persons present in person and representing in person or by proxy shares representing more than fifty percent (50%) of the aggregate voting power of the Company, the affirmative vote of a majority of the votes cast at the meeting by the holders of shares represented in person or by proxy at the Annual General Meeting is required for the election of directors, the non-binding approval of the compensation paid to our named executive officers and the ratification of the appointment of

Table of Contents

Deloitte. Abstentions and instances where brokers are prohibited from exercising discretionary authority for beneficial owners who have not returned a proxy (so-called broker non-votes) will be counted for purposes of determining a quorum. In determining whether (i) a director nominee has been elected by the shareholders and (ii) the compensation paid to our named executive officers has been approved, abstentions and broker non-votes will have no effect on the outcome of any of these proposals because such shares are not considered votes cast. Under current New York Stock Exchange (NYSE) rules, the proposal to ratify the appointment of Deloitte as our independent registered public accounting firm is considered a discretionary item. This means that brokers may vote in their discretion on this matter on behalf of their clients who have not furnished voting instructions. Therefore, there will be no broker non-votes on the ratification of the appointment of Deloitte and in determining whether the proposal has received the requisite number of affirmative votes to be approved, abstentions will have no effect on such proposal because such shares are not considered votes cast. **We will count common shares held by shareholders who have signed their proxy cards or properly submitted their proxy by phone or over the Internet but have not specified how their shares are to be voted towards the presence of a quorum, and we will vote those shares in accordance with the Board s recommendations for each of the proposals contained in this proxy statement.**

Any shareholder giving a proxy has the power to revoke it prior to its exercise by sending notice of revocation to our Secretary in writing, by executing and delivering a subsequent proxy card or by voting in person at the meeting. To revoke a proxy previously submitted over the Internet or by telephone, you may simply vote again at a later date, using the same procedures, in which case your later submitted vote will be recorded and your earlier vote revoked. You may also vote in person at the Annual General Meeting.

Our financial statements for the year ended December 31, 2012 together with the report of our independent registered public accounting firm in respect of these financial statements will be presented at the meeting.

PROPOSAL 1. ELECTION OF DIRECTORS

Our Board is divided into three classes, designated Class I, Class II and Class III. The term of office for each Class III director expires at the Annual General Meeting in 2013; the term of office for each Class II director expires at the Annual General Meeting in 2014; and the term of office for each Class I director expires at the Annual General Meeting in 2015. At each annual general meeting, the successors of the class of directors whose term expires at that meeting will be elected to hold office for a term expiring at the annual general meeting to be held in the third year following the year of their election.

Five Class III directors are to be elected at the meeting to hold office until the Annual General Meeting in 2016. All of the nominees currently are directors. Our Corporate Governance and Nominating Committee recommended all of the nominees to our Board for election at the meeting. All nominees have consented to serve if elected. We do not expect that any of the nominees will become unavailable for election as a director, but if any nominee should become unavailable prior to the meeting, proxy cards authorizing the proxies to vote for the nominees will instead be voted for substitute nominees recommended by our Board.

THE BOARD RECOMMENDS THAT YOU VOTE FOR THE ELECTION OF THE FOLLOWING NOMINEES.

CORPORATE GOVERNANCE

Independence of Directors

Our Board consists of 15 directors, of which 13 are independent directors. The Board has affirmatively determined that each of Messrs. Bell, Davis, Friedman, Greene, Greetham, Keane, Large, Ramey, Smith and Zeller and Mmes. Boisseau, Lister and Young is independent as defined in the listing standards of the NYSE and in accordance with the Company's Corporate Governance Guidelines. Mr. Benchimol serves as our Chief Executive Officer and President and therefore is not independent. Similarly, because Mr. Butt was an employee of the Company until his May 3, 2012 retirement, he is not independent under the NYSE listing standards. Mr. Butt continues to serve as Chairman of the Board in his capacity as a non-management director. The Board has made these determinations based primarily on a review of the responses of the directors to questions regarding employment and compensation history, family relationships and affiliations and discussions with the directors.

With respect to Mr. Charles A. Davis, the Board reviewed his current relationship with Stone Point, assets that we currently have under management with affiliates of Stone Point and contracts for services we have with affiliates of Stone Point. The Board determined that none of these relationships constitute a material relationship with us as defined in the listing standards of the NYSE. As of February 14, 2013, neither Mr. Davis or any of the Stone Point entities are shareholders of AXIS. For more details about this relationship and transactions, see "Certain Relationships and Related Transactions" in this proxy statement.

With respect to Mr. Robert L. Friedman, who served as a Senior Managing Director of Blackstone prior to his June 2012 retirement, the Board reviewed his relationship with Blackstone and various investments held by us in Blackstone or that are managed by affiliates of Blackstone. During the year ended December 31, 2012, we were invested in several collateralized loan obligations. The collateral manager for four of these investments was Blackstone Debt Advisors L.P., which as collateral manager is entitled to management fees payable by the collateralized obligations in the ordinary course of business. In addition, during the year ended December 31, 2012, we were invested in two fund-of-funds and a credit fund managed by Blackstone Alternative Asset Management L.P., which is entitled to management fees in the ordinary course of business. Payments to Blackstone or its affiliates in connection with these services constituted less than 1% of such organization's annual consolidated gross revenues during its last completed fiscal year and were below the thresholds set forth in the Director Qualification Standards in our Corporate Governance Guidelines. Therefore, the Board determined that the transactions with affiliates of Blackstone did not constitute a material relationship with us as defined in the listing standards of the NYSE.

Board Leadership Structure

The Board believes that the decision of whether to combine or separate the positions of Chief Executive Officer and Chairman will vary company to company and depends upon a company's particular circumstances at a given point in time. For our Company, the Board currently believes that separating the Chief Executive Officer and Chairman positions is the appropriate leadership structure and is in the best interests of our shareholders. In addition, the Board also believes that AXIS's leadership structure does not affect the Board's role in risk oversight of the Company. Accordingly, Mr. Butt serves as our Chairman of the Board, while Mr. Benchimol serves as our Chief Executive Officer and President. Our Board believes that this structure best encourages the free and open dialogue of alternative views and provides for strong checks and balances. Additionally, Mr. Butt's attention to Board and committee matters allows Mr. Benchimol to focus more specifically on overseeing the Company's day-to-day operations and underwriting activities as well as strategic opportunities and planning.

In addition, the Board believes that appointing a Lead Independent Director enhances effective governance. Consequently, the Company's Corporate Governance Guidelines provide that the Board will elect a Lead Independent Director, whose duties include presiding at executive sessions of the non-management directors as well as all meetings at which the Chairman is not present. Mr. Greene served as our Lead Independent Director

Table of Contents

through May 3, 2012 and Mr. Smith has served as our Lead Independent Director since that time. Additionally, the responsibilities of the Lead Independent Director, which are set forth in the Company's Corporate Governance Guidelines, include:

providing input on meeting agendas and information that is provided to the Board;

assisting in scheduling Board meetings;

acting as a liaison between the independent directors and the Chairman;

recommending, as appropriate, that the Board retain consultants who will report directly to the Board; and

consulting and communicating with major shareholders on an as-requested basis.

The Board also believes that one of the key elements of effective, independent oversight is that the independent directors meet in executive session on a regular basis without the presence of management. In 2012, as part of the agenda for each of the five regularly-scheduled Board meetings, the independent directors met in executive session with the Lead Independent Director presiding at such meetings.

Board Committees

Our Board maintains Executive, Audit, Compensation, Corporate Governance and Nominating, Finance and Risk Committees. Current copies of the charter for each of these committees, as well as our Corporate Governance Guidelines and Code of Business Conduct, are available on our website at www.axiscapital.com.

Executive Committee. The Executive Committee is composed of Messrs. Benchimol, Butt and Davis and is chaired by Mr. Smith. This committee may exercise the authority of the Board when the entire Board is not available to meet, except in cases where the action of the entire Board is required by our memorandum of association, our bye-laws or applicable law. The Executive Committee met one time during the year ended December 31, 2012.

Audit Committee. The Audit Committee is composed of Messrs. Greene, Keane, Smith and Zeller and Mmes. Boisseau, Lister and Young and is chaired by Mr. Ramey. This committee has general responsibility for the oversight of the integrity of our financial statements, our compliance with legal and regulatory requirements, our independent auditor's qualifications and independence and the performance of our internal audit functions and independent auditors. The committee appoints, retains and determines the compensation for our independent auditors, pre-approves fees and services of the independent auditors and reviews the scope and results of their audit. The Audit Committee has been established in accordance with Section 3(a)(58)(A) of the U.S. Securities Exchange Act of 1934, as amended (the "Exchange Act"). Each member of the Audit Committee is a non-management director and is independent as defined in the listing standards of the NYSE, our Corporate Governance Guidelines and under the Exchange Act. Our Board has determined that Mr. Ramey qualifies as an audit committee financial expert pursuant to the rules and regulations of the Securities and Exchange Commission, or SEC. The Audit Committee met nine times during the year ended December 31, 2012.

that the Compensation Committee sets each year. The Compensation Committee also has the authority to approve initial offers of employment, make recommendations to the Board regarding compensation programs and policies affecting our other employees, including our executive officers, and the form and amount of director compensation. The Compensation Committee must approve all equity awards to our executive officers. The Compensation Committee is also responsible for the design of our incentive and equity compensation plans and any changes or amendments to those plans. Our Compensation Committee generally receives proposals and information from our Chief Administrative Officer and Chief Executive Officer for their consideration regarding executive compensation and also receives input from our Chief Administrative Officer, senior management and the Compensation Committee's independent consultant, as necessary, regarding director compensation. In addition, our Chief Executive Officer makes recommendations regarding salary increases, annual cash incentives and equity awards for all of our executive officers other than himself. The Compensation Committee is permitted to delegate any of its responsibilities to subcommittees in its discretion, but to date has not done so.

At the beginning of each calendar year, our Compensation Committee generally reviews the incentive plan results from the prior year, makes final determinations regarding salaries for the current year and equity awards and incentive cash payments for prior-year performance, establishes the performance goals under the incentive plan for the current year, approves the Compensation Committee's report for our proxy statement and conducts a self-assessment. Mid-year, the Compensation Committee reviews the compensation consultant's report, if any, regarding our executive compensation program and reviews our employee compensation programs. In the fall of each year, the Compensation Committee reviews our director compensation program, approves any needed changes to the director compensation program and conducts a preliminary assessment of our performance for the year. Our Compensation Committee generally meets at the end of each calendar year to make preliminary decisions regarding the salaries for the next calendar year and to determine the equity awards and incentive cash payments that will be made at the beginning of the next calendar year, subject to final year-end results.

Compensation Consultant

Our Compensation Committee has sole authority to select, retain and terminate any consultants or advisors used to provide independent advice to the Compensation Committee and evaluate executive compensation, including sole authority to approve the fees and any other retention terms for such consultant or advisor. The Compensation Committee engages Pearl Meyer & Partners (PM&P) as its independent compensation consultant to assist in establishing compensation policies and programs. During 2012, PM&P reviewed and advised the Compensation Committee on matters concerning compensation of the Chief Executive Officer and our other named executive officers. PM&P prepared formal presentations for the Compensation Committee in May and September 2012 regarding executive compensation. PM&P also reviews director compensation biennially, with its last review and formal report occurring in September 2012. PM&P and its affiliates do not provide any services to the Company or any of the Company's affiliates other than advising the Compensation Committee on director and executive officer compensation. In February of 2013, the Compensation Committee evaluated whether any work performed by PM&P raised any conflict of interest and determined that it did not.

From time-to-time, management also engages its own outside compensation consultant to advise with regard to our compensation programs generally, prepare reports that compare our compensation programs to those of peer companies and help ensure the competitiveness and appropriateness of our compensation programs. While the outside compensation consultant has acted as management's compensation consultant for general compensation programs in various capacities with respect to our employees worldwide, and assists management with regard to its compensation recommendations for our executive officers, the Compensation Committee has separately engaged PM&P as its independent compensation consultant to avoid any conflicts of interest.

Compensation Committee Interlocks and Insider Participation

During the year ended December 31, 2012, none of our executive officers served as a member of the compensation committee or as a director of another entity, one of whose executive officers served on our Compensation Committee or as one of our directors.

Meetings of the Board and its Committees

Pursuant to our Corporate Governance Guidelines, we expect directors to attend all meetings of our Board, all meetings of all committees of the Board on which they serve and each annual general meeting, absent exigent circumstances. Our Board met seven times during the year ended December 31, 2012. Additionally, our non-management directors met eight times in 2012 in connection with executive transition issues. No director attended fewer than 75% of the aggregate of the total number of meetings of the Board and the total number of meetings of all committees of the Board on which the director served (during the period that each director served on the Board or such committee(s)). All of our directors attended our 2012 Annual General Meeting. Our non-management directors meet in executive session without management at each meeting of the Board. Mr. Smith serves as the Lead Independent Director.

Board Composition

In order for the Board to satisfy its oversight responsibilities effectively, the Board seeks members who combine the highest standards of integrity with significant accomplishment in their chosen field of endeavor. The Corporate Governance and Nominating Committee is responsible for recommending qualified candidates for directorships to be filled by the Board or by our shareholders. Directors should bring a diversity of experiences, skills and perspectives to our Board. The Committee considers qualities of intelligence, honesty, perceptiveness, good judgment, high ethics and standards, integrity and fairness to be of paramount importance. It also examines experience, knowledge and skills in business judgment, leadership, strategic planning, general management practices and crisis response. In addition, the Committee looks for candidates with financial expertise and a willingness and ability to commit the time required to fully discharge their responsibilities to the Board. The Committee evaluates candidates on the basis of their qualifications and not on the basis of the manner in which they were submitted for consideration.

In addition, although the Board does not have a policy with regard to the consideration of diversity in identifying director nominees, among the many factors that the Corporate Governance and Nominating Committee carefully considers are the benefits to the Company of diversity of race, gender, ethnicity and national origin in board composition.

When considering whether the Board's directors and nominees have the experience, qualifications, attributes and skills, taken as a whole, to enable the Board to satisfy its oversight responsibilities effectively in

Risk Governance and Risk Management

The key elements of our governance framework relating specifically to risk management are described below.

Board of Directors Level

Our Board of Directors has oversight responsibility for our risk management. Our Board approves any changes to the guidelines and key principles of our risk framework. The Risk Committee of our Board, serving as a focal point for this oversight, recommends to the Board any changes to our risk tolerances, reviews the measurement of adherence to those tolerances, monitors the aggregation of risk and reviews top risk issues and exposures. The Risk Committee also reviews our general risk policies and procedures to ensure that effective systems of risk management have been established and are maintained.

The Risk Committee assesses the independence and objectivity of our Group Risk Management function (Group Risk), approves its terms of reference and reviews its ongoing activities. The Risk Committee receives regular reports from Group Risk and assesses whether significant risk issues are being addressed by management.

The Finance Committee of our Board oversees our investments and adequacy of financing facilities. This includes approval of our strategic asset allocation plan.

The Audit Committee of our Board, which is supported by our internal audit function, is responsible for overseeing internal controls and compliance procedures and also reviews with management and the Chairman of the Risk Committee the guidelines and policies regarding risk assessment and risk management.

Group Executive Level

Our management Executive Committee formulates our business objectives and risk strategy within the overall risk appetite set by our Board. It allocates capital resources and limits across our operating entities, with the objective of balancing return and risk. While the management Executive Committee is responsible overall for risk management, it has delegated some authority to various committees. Three executive level committees focus on our Group's risk exposure:

Our Risk Management Committee (RMC), has responsibility for reviewing the allocation of capital, approving individual risk limits and determining changes to our internal risk capital methodology. The RMC also reviews new business plans in the context of our risk framework and defined risk appetite. Further, the RMC reviews and advises management with respect to certain individual transactions in accordance with the quantitative and qualitative criteria outlined in our business referral guidelines.

Our Investment & Finance Committee oversees our investment activities by, among other things, monitoring market risks, the performance of our investment managers and our asset-liability management, liquidity positions and investment policies and guidelines. The Investment & Finance Committee also prepares our strategic asset allocation and presents it to the Finance Committee of the Board for approval.

Group Risk Management Level

As a general principle, management in each of our business units is responsible in the first instance for both the risks and returns of its decisions. Management is the owner of risk management processes and is responsible for managing our business within defined risk tolerances.

Our Chief Risk Officer leads our Group Risk function, which is responsible for oversight of risk taking activities and providing guidance and support for risk management practices. Group Risk is responsible for developing methods and processes for identifying, measuring, managing and reporting risk. This forms the basis for informing the Risk Committee and RMC of our risk profile. Group Risk develops our risk management framework and oversees the adherence to this framework at the group and operating entity level. Our Chief Risk Officer regularly reports risk matters to the Chief Executive Officer, the Company's management Executive Committee, RMC and the Risk Committee of the Board.

Our global risk management network also includes risk officers within our business units and investment department. These local risk units, which have regular and close interaction with Group Risk, assist with embedding the risk management framework into our business.

Internal Audit, an independent, objective function, reports to the Audit Committee of the Board on the effectiveness of our risk management framework. This includes assurance that key business risks have been adequately identified and managed appropriately and that our system of internal control is operating effectively. Internal audit also provides an independent validation of our internal capital model and coordinates risk-based audits, compliance reviews and other specific initiatives to evaluate and address risk within targeted areas of our business.

Our risk governance structure is further complemented by our Legal Department which seeks to mitigate legal and regulatory compliance risks with support from other departments. This includes ensuring that significant developments in law and regulations are observed and that we react appropriately to legislative changes and applicable court rulings.

Code of Business Conduct

We have adopted a Code of Business Conduct that applies to all of our directors, officers and employees, including our Chief Executive Officer and President, our Chief Financial Officer and our Controller. Copies of our Code of Business Conduct and our Corporate Governance Guidelines are available on our website at www.axiscapital.com. We intend to disclose on our website any required amendment to, or waiver of, a provision of the Code of Business Conduct that applies to our Chief Executive Officer and President, our Chief Financial Officer or our Controller. In addition, waivers of the Code of Business Conduct for our directors and executive officers may be made only by our Board or the Corporate Governance and Nominating Committee and will be promptly disclosed to shareholders on our website in accordance with the listing standards of the NYSE.

Shareholder Communications with the Board

Shareholders and other interested parties may send communications to our Board by sending written notice to our Secretary. The notice may specify whether the communication is directed to the entire Board, to the non-management directors, to the Lead Independent Director or to a particular Board committee or other director. Our Secretary will handle routine inquiries and requests for information or will otherwise determine whether the communication is made for a valid purpose and is relevant to the Company and its business and, if he so determines, will forward the communication to our Chairman of the Board, to the non-management directors or to the appropriate committee chairman or director. At each meeting of our Board, our Secretary presents a summary of all communications received since the last meeting that were not forwarded and makes those communications available to the directors on request.

PROPOSAL 2. NON-BINDING VOTE ON EXECUTIVE COMPENSATION

In accordance with the requirements of Section 14A of the Securities Exchange Act of 1934 (which was added by the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Dodd-Frank Act")) and the related rules of the SEC, we are including in this proxy statement a separate resolution subject to shareholder vote to approve, in a non-binding vote, the compensation paid to our named executive officers as disclosed below. The language of the resolution is as follows:

RESOLVED, that the compensation paid to the Company's named executive officers, as disclosed in this proxy statement pursuant to the rules of the SEC, including the Compensation Discussion and Analysis, compensation tables and any related narrative discussion is hereby APPROVED.

In considering their vote, shareholders may wish to review with care the information on our compensation policies and decisions regarding our named executive officers presented in the Compensation Discussion and Analysis section below as well as the discussion regarding the Compensation Committee and Compensation Committee Process above.

In particular, shareholders should note the following:

Our key metrics for measuring performance include operating return on average common equity (operating ROACE) and growth in diluted book value per share. In 2012, our business and industry continued to face a challenging, mixed underwriting market globally and the persistence of historically low interest rates. Additionally, total loss estimates for Storm Sandy are expected to exceed \$20 billion, making it one of the costliest storms in U.S. history. Against this backdrop, we finished the year with net income available to common shareholders of \$495 million, up from \$9.4 million in 2011. Also, we grew our 12 month diluted book value per share by 17.6%, as of September 30, 2012 (our annual measurement date for this metric), which puts us in the top one-third of our peer group. Based on these results, the Compensation Committee of our Board of Directors considered our 2012 performance to be above target. Nevertheless, the Committee held base salaries flat for our named executive officers, with the exception of Mr. Henry, our Chief Financial Officer, who received a 3% base salary increase.

We believe that our long term performance is outstanding. From inception in 2002 through 2012, our ROACE has averaged 13.8%. Diluted book value per common share rose at an annual compounded rate of 11.9% from 2002 through 2012 and total value creation for our common shareholders (measured by growth in diluted book value per common share plus accumulated dividends declared) increased at a 13.6% annual compounded rate for the same period.

We believe that our compensation is appropriately aligned with our long-term performance. Specifically, incentive-based compensation represents a meaningful portion of our named executive officers' target total compensation opportunity. Also, 100% of our long-term incentives consist of restricted stock or restricted stock units, which generally vest 25% per year over four years. Further, our executives are subject to stock ownership guidelines (and holding requirements) that align their long-term interests with those of our shareholders and encourage a long-term focus in managing the Company.

With regard to the 2012 total compensation reported for Mr. Benchimol, our Chief Executive Officer and President, 76% of that amount is attributable to a one-time grant of restricted stock made in connection with his appointment to Chief Executive Officer and President in May 2012. Although the vesting of 50% of the award is time-based, the remaining 50% of the award will vest only if certain performance conditions are satisfied. If the performance conditions are not satisfied, the entire 50% portion of the award that is dependent upon performance will be forfeited. This award was intended to: (a) align the long term interests of our new Chief Executive Officer and President with those of our shareholders, and (b) reward him in the event that our performance exceeds that of our peers over a three year period. The award was in lieu of an annual equity grant target that historically had been a part of the total compensation package provided to the AXIS Chief Executive Officer.

We continue to refine our compensation arrangements with recognition of the best practices for alignment of executive compensation with our shareholders' long-term best interests.

Compensation Discussion and Analysis

Executive Overview

2012 was a year of significant improvement over 2011 for AXIS and the property and casualty insurance and reinsurance industry, generally. Following 2011, one of the most challenging years in insurance history, the first three quarters of 2012 experienced relatively low levels of natural catastrophe loss activity. This changed when Storm Sandy came ashore along the New Jersey coast in October, costing the industry an estimated \$20-\$25 billion, making it one of the costliest storms in U.S. history. Despite the impact of Storm Sandy on our underwriting results in the fourth quarter and the fact that net investment income continued to be under significant pressure due to historically low interest rate yields, AXIS finished the year with net income available to common shareholders of \$495 million (\$9m in 2011), or \$4.00 per diluted common share (\$0.07 per diluted common share in 2011). Additionally, diluted book value per share increased year over year by 12.8% to \$42.97 per share and we achieved a ROACE of 9.7%.

With respect to our financial goals for the year, AXIS achieved an annual operating ROACE of 8.2%, compared to our goal of 10%, or 82% of target. In addition, we grew our 12 month diluted book value per share by 17.6% compared to 13.9% for our peer group median as of September 30, 2012 (our annual measurement date for this metric). This top one-third result translates to superior performance, or 150% of our target, for this metric. The combination of our operating ROACE performance (82% of target) and our superior performance on our diluted book value per share growth relative to our peers (150% of target) resulted in a year that was considered to be above target performance by the Compensation Committee of the Board of Directors.

Based on these results, the Compensation Committee approved the following with respect to the 2012 performance year:

No change to base salaries in 2013 for named executive officers, with the exception of a 3% salary increase for Mr. Henry;

Bonuses awarded to named executive officers ranged between 107% and 125% of target;

An overall bonus pool representing 105% of target was approved to be distributed to our employees, including our named executive officers;

Equity grants for named executive officers ranged between 100% and 129% of target; and

Total direct compensation for named executive officers, which we define as 2012 salary earned plus bonus and equity awarded for 2012 performance, increased by between 36% and 56% from the prior year, primarily because our named executive officers did not receive a bonus for the prior performance year.

Advisory Vote on Executive Compensation

The Compensation Committee considered the result of the 2012 advisory vote to approve the compensation paid to our named executive officers in connection with the discharge of its responsibilities. Because our shareholders approved the compensation programs described in our proxy statement for the 2012 Annual General Meeting by a substantial margin (92% of the votes cast), the Compensation Committee has not implemented changes to our compensation programs as a result of last year's shareholder advisory vote.

In light of the voting results with respect to the frequency of shareholder votes on executive compensation at the 2011 Annual General Meeting, the Board decided to hold an advisory vote on the compensation of named executive officers at each annual general meeting until the next required vote on the frequency of shareholder votes on executive compensation. Because the Dodd-Frank Act requires that such shareholder votes on frequency be held at least once every six years, we currently expect the next shareholder vote on frequency to occur at the Company's 2017 Annual General Meeting.

Objectives of Our Executive Compensation Program

At AXIS, our stated mission is to become the leading diversified global specialty insurance and reinsurance company as measured by quality, sustainability and profitability. Since inception, AXIS has achieved an average annual ROACE of 13.8%. To achieve superior performance in a highly cyclical business, we must ensure that our capital is adequately protected to take full advantage of market opportunities for our shareholders when they are available. To achieve this objective, it is critical that we recruit, retain and motivate the best talent in the global marketplace. Accordingly, we have designed our executive compensation program with a goal of attracting, retaining and motivating superior talent globally and maximizing shareholder value in the long-term. The overall combination of executive compensation and benefits that we pay our named executive officers is structured to reward above-median performance with above-median levels of compensation as compared to our peer companies. Although we review our competitive position annually, the primary consideration for our compensation decisions continues to be the assessment of our overall financial performance based on certain financial metrics in any given performance year. Further, our executive compensation program is designed to provide a combination of fixed and variable components of compensation so that below-median performance can be appropriately addressed with reductions in levels of compensation commensurate with such performance.

Our industry is highly cyclical in nature, largely due to fluctuations in industry capital levels. These industry capital levels are out of our named executive officers' control, but drive the overall competitive environment in our underwriting operations. As a result, flexibility is an important consideration in our compensation programs. Additionally, conditions in the broader global capital markets can significantly impact the performance of our invested assets. We believe that we should reward our named executive officers for adequately protecting our capital under difficult market conditions so that, going forward, we can participate in value creation opportunities for our shareholders. We also believe that we should reward our named executive officers for outperforming leaders of similar businesses and achieving results for our shareholders that are beneficial under varying market conditions. Therefore, our executive compensation program is designed to take into account all relevant circumstances and provide competitive compensation to attract, reward, motivate and retain our named executive officers. We generally seek to avoid creating incentive compensation plans that are inflexible or that are overly formulaic.

Individual performance also plays a role in our decisions regarding named executive officers' compensation; however, consistent with our emphasis on strategic and organizational flexibility, we do not generally have structured individual goals for our named executive officers that lead to specific, formulaic compensation amounts. Instead, our Chief Executive Officer evaluates and makes a recommendation to the Compensation Committee on the performance of the portion of our business for which the named executive officer is responsible (other than for himself). The Compensation Committee reviews the individual performance of the named executive officer, considers the opinion of our Chief Executive Officer (except with regard to his own individual performance), considers the overall performance of the Company and considers any other factors it deems relevant in evaluating the individual performance and approving the compensation recommendations for our named executive officers.

Our Chief Executive Officer's and other named executive officers' compensation is designed to reflect their significant level of responsibility and their overall contributions to our success. In addition to leading the Company's day-to-day underwriting and operating activities, our named executive officers manage and lead a team of senior professionals that we believe is one of the strongest teams in our industry. The significant diversity of our operations and successful management of these operations ultimately serve to maintain our capital and drive long-term shareholder returns. Therefore, we have designed our named executive officers' compensation to reflect this situation, both to compensate them for the functions they perform and to ensure that their compensation is connected to the successes attributable to their skills and responsibilities.

Risk Management and Compensation

The Compensation Committee believes that AXIS' s executive compensation program does not encourage inappropriate risk-taking and the Compensation Committee seeks to ensure that our executive compensation program does not encourage executives to take risks that are inconsistent with the long-term success of the Company. Specifically:

Our compensation program balances base salary, annual bonus opportunity and long-term equity and we avoid relying exclusively on formulaic approaches to our compensation plans;

The total bonus pool for the Company' s Annual Incentive Plan is tied to our (i) operating ROACE which is calculated by dividing operating income/loss (which represents after-tax operational results without consideration of after-tax net realized investment gains/losses, foreign exchange gains/losses and losses on repurchase of preferred shares for the period) by the average common shareholders' equity determined by using the common shareholders' equity balances at the beginning and end of the period, and (ii) growth in diluted book value per share relative to our peer group, which ensures that our shareholders' long-term interests are at the forefront of decision-making for our employees and named executive officers;

Our Compensation Committee retains discretion in overseeing our compensation programs, such that meaningful reductions in compensation are possible if our financial results do not meet our expectations, as was the case in 2011; and

Our stock ownership guidelines are designed to ensure that the long-term interests of our executives are aligned with those of our shareholders.

Competitive Market Analysis

Although AXIS gives careful consideration to each element of total compensation, we evaluate our competitive position with respect to our named executive officers on a total direct compensation basis, which consists of base salary, annual bonus and long-term incentives. We believe these are the most significant elements of compensation and also recognize that other elements vary greatly from company to company and are therefore difficult to compare. The Compensation Committee has engaged PM&P as an independent consultant to periodically review the appropriateness of our executive compensation program so the Committee can make any needed adjustments. PM&P provides the Committee with a competitive market perspective of total direct compensation based on an analysis of proxy disclosures of publicly-traded insurance and reinsurance companies that we consider to be our peers and/or competitors. In designing a competitive executive compensation program, we take into account the need to attract qualified executives in geographic areas where we operate, such as Bermuda, Dublin, New York, London, Singapore, Sydney and Zurich, that have a relatively higher cost of living, as well as the costs associated with relocating executives to those areas.

In May 2012, at the Compensation Committee' s request, PM&P reviewed the design of our 2011 executive compensation program and Company performance to determine if we should make changes to our compensation programs and policies. As part of this review, PM&P compared our Chief Executive Officer and Chief Financial Officer' s compensation to that of chief executive officers and chief financial officers at our peer companies. PM&P also compared one additional named executive officer' s compensation to that of executive officers at the peer companies who have the most similar positions to that of our named executive officer. However, to address in part the variation in business structures and because consistent information regarding comparable officers at other companies is difficult to obtain, PM&P also compared our named executive officers' compensation, other than our Chief Executive Officer' s and Chief Financial Officer' s, to that of the third through fifth highest-paid officers at the peer companies.

PM&P found that AXIS falls between the 67th and 70th percentiles in terms of size measures such as gross premiums written, total revenue and total assets, on a relative basis as compared to our peer group.

The review performed by PM&P also examined our performance under several growth and profitability measures as compared to that of our peer companies. PM&P's review indicated that our 2011 performance under the various growth and profitability measures, relative to our peer group, was mixed.

PM&P also reviewed our 2011 pay versus performance as compared to our peer companies based on a weighted average of growth in diluted book value per share, operating ROACE and total shareholder return. The review indicated that our one year performance dropped from the 85th percentile in 2010 to the 22nd percentile in 2011. Total cash compensation and total direct compensation for the Chief Executive Officer dropped from the 95th percentile to the 45th percentile and from the 66th percentile to the 53rd percentile, respectively, as a result of no bonus being awarded or salary increase being granted. Our other named executive officer who was reviewed experienced a reduction in total cash compensation and total direct compensation from the 100th percentile to the 46th percentile and from the 91st percentile to the 74th percentile, respectively. The Chief Financial Officer's total cash compensation and total direct compensation for his first year with AXIS was at the 54th and 47th percentile, respectively.

Because the pay and performance data presented in the PM&P review was disparate and did not suggest a compensation trend and, in light of the Company's strong historical correlation between pay and performance, the Compensation Committee opted to make no changes to the design of our compensation program for 2012. However, the Compensation Committee will continue to review the suitability of our executive compensation program and modify the design of this program as appropriate.

2012 Performance

Elements of Compensation:

Executive compensation at AXIS is primarily a combination of base salary, annual cash bonus paid under our 2004 Annual Incentive Plan (the Annual Incentive Plan), long-term incentive awards made under our 2007 Long-Term Equity Compensation Plan (2007 LTEP) and retirement programs. We also provide general employee benefits to our named executive officers.

Base Salary:

Base salaries are the most basic form of compensation and are integral to any employment arrangement. Our main consideration in determining base salaries is to remain competitive. We also seek to balance a logical salary structure within the Company globally with the demands of the market for executive talent. A competitive base salary allows us to attract individuals from other organizations and retain key staff by minimizing their need or desire to leave us to increase their level of basic compensation. In addition, base salary enables our named executive officers to maintain a sufficient standard of living in the locations where we operate and, accordingly, base salaries differ by geographic location.

AXIS uses a salary grade structure created with the assistance of an external human resources consulting firm. Each salary grade has a minimum, midpoint and maximum salary that were established with a midpoint at the 60th to 65th percentile compared to similar positions at comparable companies. The ranges of permitted salaries for each grade were established utilizing approximately the top one-third of the salary range for our industry based on the data provided by our consultant. Our named executive officers are generally in the highest salary grade because they have the highest level of responsibility among our employees, but their placement within the range of salaries in that grade is based on the individual's type of position, historical factors, geographic location, individual performance and the Compensation Committee's determination of competitiveness and appropriate levels based on the Chief Executive Officer's recommendations (except for himself).

The base salary for Mr. Benchimol was established in May 2012 when he was appointed as our Chief Executive Officer and President and is reflective of his increased level of responsibility. Mr. Benchimol's base salary was determined by the Compensation Committee, after review of peer company CEO compensation and was set at \$1.1 million per year, which is approximately 70% of the base salary of our prior Chief Executive Officer and President. Messrs. Gressier, Henry, Nichols and Reding's base salaries are governed by their employment agreements within the salary grade structure discussed above.

Base salaries are generally reviewed at the end of each calendar year. We review external salary survey data to assist in developing the total budget for salary increases company-wide. This total amount includes annual merit increases, increases due to promotions and any increases needed for market adjustments to remain competitive. A merit increase guideline is then expressed in terms of a percentage of current annual base salary for each geographic location. We expect that the merit increase guidelines will ensure that our salaries remain competitive and reflect cost of living adjustments and other pay increases for the geographic location as reported in external compensation surveys.

The Chief Executive Officer recommends annual base salary increases, if any, for our named executive officers (except for himself). The Compensation Committee reviews and approves those increases using the guidelines described above. The Compensation Committee reviews and evaluates the performance of the Chief Executive Officer and approves any changes to his base salary. Those decisions are then reviewed and ratified by the independent directors of our Board.

Table of Contents

The following table sets forth the 2012 and the 2013 base salaries for the 2012 named executive officers.

Name	2012 Base Salary	2013 Base Salary
Albert A. Benchimol	\$ 1,100,000	\$ 1,100,000
Michael A. Butt	\$ 750,000	N/A
John R. Charman	\$ 1,575,000	N/A
John W. Gressier	\$ 910,000	\$ 910,000
Joseph C. Henry	\$ 550,000	\$ 565,000
John D. Nichols	\$ 900,000	\$ 900,000
Dennis B. Reding	\$ 780,000	\$ 500,000

Under an amendment to the employment agreement for Mr. Reding effective January 1, 2013, Mr. Reding's base salary is now set at \$500,000 per year. In February 2013, the Compensation Committee elected to hold base salaries for the other named executive officers flat, with the exception of Mr. Henry who received a 3% salary increase.

Annual Incentive Compensation:

Annual incentive compensation, which we refer to as the annual bonus, for our named executive officers is provided under our Annual Incentive Plan which is described below in the narrative to the Summary Compensation Table and Grants of Plan-Based Awards in 2012 Table. The Annual Incentive Plan is a critical tool for rewarding the achievement of corporate goals while providing us with the flexibility to reduce or eliminate the incentive amount if those goals are not met.

In order to achieve a competitive total compensation package, we have established individual annual bonus targets expressed as a percentage of base salary for each salary grade. Bonus targets for our named executive officers are governed by the terms of their employment agreements. However, target amounts represent a starting point for the Compensation Committee to use in allocating bonuses among the named executive officers and are not guaranteed for named executive officers. 2012 and 2013 targets for the 2012 named executive officers are as follows:

Name	2012 Bonus Target	2013 Bonus Target
Albert A. Benchimol	175%	175%
Michael A. Butt	125%	N/A
John R. Charman	150%	N/A
John W. Gressier	125%	125%
Joseph C. Henry	100%	100%
John D. Nichols	125%	125%
Dennis B. Reding	125%	100%

Mr. Charman's bonus target is expressed as a percentage of \$1,250,000, as set forth in his employment agreement.

Under the amendment to Mr. Reding's employment agreement effective January 1, 2013, Mr. Reding's 2013 bonus target is 100% of base salary.

To further our goal of keeping the best interests of shareholders at the forefront of decision-making for our employees and executive officers, the total bonus pool is tied to our operating ROACE and our 12 month growth in diluted book value per share as compared to our peers (measured as of September 30th of each respective year). As discussed and approved in March 2012, the Compensation Committee determined that if AXIS achieved an operating ROACE of 10% for 2012 and if 12 month growth in diluted book value per share, measured as of September 30, 2012, was at or above the median for our peer group, the target bonus pool would be equal to 100% of the aggregate total target bonus amounts for all employees. This value reflects the Committee's view that our industry continues to operate in a challenging part of the market cycle with a historically low interest rate environment. The Committee believed that the targets for 2012 represented a challenging yet realistic goal as of

Table of Contents

the beginning of the year and acknowledged that the 10% operating ROACE goal was significantly above the 2012 budgeted operating ROACE that was presented by management and approved by our Board of Directors in March 2012.

The Compensation Committee in 2012 further decided to set the objective for superior results at 140% of the operating ROACE target level, which represented an increase in difficulty from prior years, when the target for superior performance ranged from 120% to 133% of the operating ROACE target level. Accordingly, if AXIS achieved an operating ROACE of 140% of 10%, or 14%, and if our 12 month growth in diluted book value per share was in the top one-third of our peer group, the annual incentive plan pool would be 150% of the aggregate target bonus amounts for all employees.

The Compensation Committee also retains the discretion to approve either a downward or upward adjustment to any bonus pool amount, in the event of performance below the target level, between the target and superior levels or above the superior level. The goal of the Compensation Committee, both in setting the targets and in retaining discretion to make adjustments based on ultimate results and the circumstances behind those results, was to establish a program that provides appropriate incentive for behavior that focuses on business decisions that are in the best interests of AXIS and our shareholders and comports with our business strategy of underwriting discipline and appropriate risk-taking.

In all cases, each of our named executive officer's actual incentive award is subject to the discretion of the Compensation Committee. Each executive may receive no bonus or a lower than target bonus for an unsatisfactory individual performance, may receive a bonus based on the level of pool funding if they meet expectations, or may receive a higher bonus at the discretion of the Compensation Committee. The amount actually awarded reduces the total bonus pool available for other executive officers and employees.

In 2012, the Compensation Committee determined that the Company's performance merited an above target bonus amount. In determining the overall bonus pool amount, the Compensation Committee took into consideration the continued competitive market for our insurance and reinsurance products, the historically low interest rate environment and the significant impact of Storm Sandy on our fourth quarter results. Despite the impact of Storm Sandy, the Company was nevertheless able to produce net income available to common shareholders of \$495 million, representing a significant increase from the prior year's \$9.4 million, and increased diluted book value per share by 12.8% year-over-year. Based on these factors, the Compensation Committee awarded an overall bonus pool that was 105% of target to be distributed to employees, including our named executive officers.

In determining the bonus amount for each of the named executive officers, the Compensation Committee considered the relative performance of each of the named executive officers, as recommended by the Chief Executive Officer, and determined that bonuses in the range of 107% to 125% of target would be awarded to the named executive officers for 2012 performance as follows: Mr. Benchimol \$2,310,000 (120% of target); Mr. Gressier \$1,250,000 (110% of target); Mr. Henry \$605,000 (110% of target); Mr. Nichols \$1,200,000 (107% of target); and Mr. Reding \$1,219,000 (125% of target). The Committee believed that these amounts accurately reflected the individual performance and contribution to the overall results that the Company achieved in 2012.

2012 Annual Incentive Plan

Metric	Target	Superior	Actual
Operating ROACE	10%	14%	8.2%
12-month growth in Diluted Book Value per Share	At or above median for peer group	Top one-third for peer group	Top one-third for peer group
Named Executive Officer Bonus Payouts	100% of individual target	150% of individual target	107% -125% of individual target

Table of Contents*Long-Term Equity Compensation:*

In 2012, we provided long-term incentive compensation through equity awards under our 2007 LTEP which previously was approved by our shareholders. Equity awards are an especially valuable tool in linking the personal interests of executive officers to those of our shareholders because the amount the executive officers will ultimately receive under these awards is determined by our stock price. A higher stock price benefits our shareholders and increases the value of the executive officers' equity awards. In addition, the vesting requirement for our equity awards is a valuable retention tool that we consider very important in a competitive industry. Furthermore, because other employers with whom we compete for executive talent grant equity as part of their compensation packages, we believe that we need to include this element as part of our executive officers' compensation in order to be competitive.

We previously established equity award guidelines for a target annual award of stock options and restricted stock for each executive. The targets are designed to provide an above median total compensation package for above median performance when compared to our industry peer group, when the equity awards are combined with base salary and annual incentive payments. Equity targets for our named executive officers are governed by the terms of their employment agreements. In 2005, we modified our practice to discontinue the granting of stock options and increased the grants of restricted stock because we desired a more effective equity vehicle for rewarding performance and retaining valuable executive talent. We believe that the use of restricted stock or units provides executive officers with the motivation to meet or exceed individual goals and make decisions that enhance longer-term shareholder value. In February 2013, the Compensation Committee approved the use of restricted stock units globally.

At the end of each fiscal year, the Compensation Committee determines the actual awards to be made in its discretion, considering competitiveness, retention needs, Company and individual performance and any other factors it deems relevant. The awards are generally granted in the first quarter of the following year.

As discussed in our proxy statement for our 2012 Annual General Meeting, in February 2012, the Compensation Committee determined that the annual awards of restricted stock as indicated below were appropriate for the named executive officers as a result of our Company performance in 2011. In February 2013, the Compensation Committee approved annual awards of restricted stock units to the named executive officers for 2012 performance as indicated below. These awards were reflective of our above target performance in 2012. The restricted stock units vest 25% per year over four years.

Because the equity awards reflecting performance for the 2011 fiscal year were granted early in 2012, they are reflected in the Summary Compensation Table and the Grants of Plan-Based Awards Table for the 2012 fiscal year. The awards reflecting the 2012 fiscal year performance granted in February 2013 will be reflected in the Summary Compensation Table and the Grants of Plan-Based Awards Table in our proxy statement for the 2013 fiscal year.

Name	2012 Target Equity Grant for 2011 Performance	Restricted Stock Awarded in February 2012 for 2011 Performance	Restricted Stock Units Awarded in February 2013 for 2012 Performance
Albert A. Benchimol	No Annual Target	52,500	
Michael A. Butt	75,000	150,000	
John R. Charman	90,000	135,000	
John W. Gressier	35,000	52,500	45,000
Joseph C. Henry	30,000	N/A	30,000
John D. Nichols	35,000	N/A	40,000
Dennis B. Reding	37,500	56,250	37,500

In addition, in connection with Mr. Benchimol's appointment as Chief Executive Officer and President in May 2012, Mr. Benchimol was granted an award of 500,000 shares of restricted stock. Under the terms of the award, 250,000 of the shares will vest in three equal installments on the first, second and third anniversary of the

Table of Contents

May 2012 date of grant, while the remaining 250,000 shares will be eligible to vest on the third anniversary of the date of grant, provided that certain performance conditions are satisfied. Also in June 2012, Mr. Henry was granted an award of 15,000 shares of restricted stock in connection with his appointment as our Chief Financial Officer. Similarly, Mr. Nichols was granted an award of 50,000 shares of restricted stock in connection with his appointment as Chief Executive Officer, AXIS Reinsurance, effective April 2012. The restricted stock granted to Messrs. Henry and Nichols vests 25% per year over four years.

Stock Ownership Guidelines:

Our minimum stock ownership guidelines require the Chief Executive Officer to hold AXIS securities with a value equal to a minimum of five times his annual base salary and require the other named executive officers and covered members of senior management to hold AXIS securities with a value equal to a minimum of two to three times their annual base salary. Individuals subject to the guidelines have five years from the later of: (a) September 2009 (the date of adoption of the guidelines), or (b) the date of promotion or appointment to a position subject to the guidelines to meet the applicable minimum requirement.

Supplemental Executive Retirement Plans:

Messrs. Charman and Butt and the Company's subsidiary, AXIS Specialty Limited, previously entered into supplemental executive retirement plans, or SERPs. The SERP with Mr. Charman required the Company to make annual payments to Mr. Charman beginning in 2009 for a period of 20 years, while the SERP with Mr. Butt provided for annual payments to Mr. Butt for a period of ten years beginning in 2010. On May 3, 2012, in connection with the senior leadership transitions discussed under Executive Officers above, the Board approved an arrangement providing for the: (i) termination of the SERPs, and (ii) accelerated payment to Mr. Charman and Mr. Butt of the present value of the benefit amounts owed and payable under the SERPs, measured as of June 30, 2012. On July 11, 2012 and July 13, 2012, the Company, AXIS Specialty Limited and Codan Trust Company Limited entered into an addendum to the SERPs with Mr. Charman and Mr. Butt, respectively, to effect the foregoing. Pursuant to the terms of the addenda, Mr. Charman was paid the present value benefit amount of \$13,846,268 and Mr. Butt was paid the present value benefit amount of \$2,368,608, in each case in lieu of the future stream of payment set forth in the SERPs. None of our other named executive officers have entered into SERPs.

Severance Benefits:

Although we do not maintain a general severance plan for our named executive officers, each of our named executive officers has rights upon termination of his employment under his employment agreement. The terms and conditions of the separation benefits and payments are described in detail in the section entitled Potential Payments Upon Termination or Change in Control. We provide these benefits in order to be competitive as an employer. We also provide various benefits in connection with a change in control, in part because a change in control situation often undermines our named executive officers' job security, and it is to the benefit of AXIS and its shareholders to encourage the named executive officers to seek out beneficial business transactions and to remain with us through the closing of the transaction, even though their futures may be uncertain as a result. As such, we structured the change in control provisions in the named executive officers' agreements with a double trigger, which requires termination of the executive without cause or termination by the executive for good reason in connection with a change in control. Because the consummation of a transaction alone would not trigger this benefit, this structure essentially places the decision of whether or not to trigger change in control benefits largely in the hands of the acquiring company.

We provide named executive officers with benefits and severance payments if we terminate them without cause and in some cases if they voluntarily leave under certain circumstances. These benefits add a level of security to the named executive officer's position. We believe that these benefits are needed to attract and retain talented executive officers in our industry. These provisions encourage individuals to move from more established firms in the industry to our firm, which has less history, and help attract individuals from outside of the industry to take a position in our industry, which is generally more volatile. In addition, we face significant

competition within our industry for experienced leaders, and we believe that these benefits are needed to remain competitive as an employer. Furthermore, we provide these benefits in part so that we can obtain valuable agreements from the named executive officers to assign to us certain intellectual property rights, not to compete with us for a certain period of time after leaving, not to solicit our employees or customers after leaving and to maintain the confidentiality of our information. Moreover, providing termination payments allows us to obtain a release of claims from the named executive officer upon their departure from AXIS, which we consider a valuable benefit to us.

In connection with our 2012 senior leadership transitions, we made a separation payment to Mr. Butt and a termination payment to Mr. Charman. Please refer to [Employment and Other Agreements with Named Executive Officers](#) below for a description of these arrangements.

Other Compensation:

Because our business is global and we are headquartered in Bermuda, many of our named executive officers are required to relocate or to maintain a second residence or travel for business in order to work for us. To reduce the likelihood that this factor will prevent talented executive officers from joining AXIS, we provide reimbursements for a certain amount of personal travel for return trips home to named executive officers who work away from their home countries and, in some cases, housing allowances to help defray the cost of maintaining a second residence or working in multiple locations. We also pay for certain U.S. tax expenses for any non-U.S. resident, Bermuda-based employee who may be subject to incremental taxes as a result of travel to the U.S. for business purposes. These payments are designed to make whole our Bermuda-based non-U.S. citizen employees who, but for required business travel, would not otherwise have incurred an obligation for U.S. taxes. We also provide certain other perquisites and benefits, as well as the general health plan and other benefits provided to all employees, which make us a competitive employer and do not represent a significant cost to us. These benefits also provide our named executive officers with the security and convenience that allows them to focus their attention on carrying out their responsibilities to AXIS.

Anti-Hedging Policy:

Our Insider Trading Policy prohibits the hedging, pledging or short-selling of AXIS securities by all executive officers and directors.

U.S. Tax Considerations:

Section 162(m) of the Internal Revenue Code of 1986, as amended ([the Internal Revenue Code](#)) generally disallows a tax deduction to public companies for compensation in excess of \$1 million paid to certain executive officers, although performance-based compensation arrangements may qualify for an exemption from the deduction limit if they satisfy various requirements under Section 162(m). For AXIS, this rule has limited effect because our Company is headquartered in Bermuda and U.S. tax law only affects a portion of our income. Therefore, although we are aware of and consider the impact of this rule when developing and implementing our executive compensation program, compliance with the requirements of Section 162(m) requires a somewhat formulaic approach, and we believe that flexibility is more important in our compensation programs. Therefore, this has not been a driving factor in the operation of our executive compensation program.

The 2007 LTEP was also amended with shareholder approval in 2012. The 2007 LTEP provides for the grant of nonqualified stock options, incentive stock options, stock appreciation rights, restricted stock awards, restricted stock units, performance units and other equity-based or equity-related awards to our employees, directors and consultants. The Compensation Committee has broad authority to administer the plan, including the authority to select plan participants, determine when awards will be made, determine the type and amount of awards, determine the exercise price of options and stock appreciation rights, determine any limitations, restrictions or conditions applicable to each award and determine the terms of any agreement or other document that evidences an award. During 2012, only restricted stock was awarded under the 2007 LTEP to our named executive officers.

Table of Contents

Restricted stock awards represent a grant of shares of our common stock, subject to restrictions on transfer of the shares, any other restrictions the Compensation Committee imposes and forfeiture of the shares if the participant terminates employment before the shares vest. Other than a single award of restricted stock to Mr. Benchimol, our Chief Executive Officer and President, that included performance vesting provisions, all of the restricted stock granted during 2012 vests (and the restrictions lapse) in four equal installments on the first, second, third and fourth anniversaries of the date of grant. Vesting is fully accelerated upon the death or permanent disability of the participant or a change in control, as described below in the section entitled Potential Payments Upon Termination or Change in Control. Holders of restricted stock receive accumulated dividends paid with respect to the underlying shares only upon vesting.

In September 2010, the Compensation Committee approved revised forms of award agreements for use by the Company for awards of restricted stock and restricted stock units made on and after January 1, 2011. Under the revised award agreements, awards continue to vest in four equal installments on the first, second, third and fourth anniversaries of the grant date. The awards also vest automatically upon the awardee's death or permanent disability. Additionally, the single trigger change of control provision was replaced with a double trigger vesting provision under which awards will automatically vest upon a change of control only if an awardee's employment is subsequently terminated: (i) by the Company without cause; or (ii) by the awardee with good reason, in each case within 24 months of the change of control.

Annual Incentive Plan

We fund annual incentive payments, under our Annual Incentive Plan, to provide performance-based cash annual bonuses for our employees. For a full description of the funding for our Annual Incentive Plan in 2012, see Compensation Discussion and Analysis 2012 Performance Annual Incentive Plan above.

Retirement Benefits

Our named executive officers participate in our International Pension Plan and our U.S. 401(k) Plan. Messrs. Charman, Butt and Gressier participated in our International Pension Plan during 2012 and Messrs. Benchimol, Henry, Nichols and Reding participated in the AXIS 401(k) Plan during 2012.

The International Pension Plan permits employees to make contributions to their own accounts in the plan, and requires us to contribute an amount equal to at least 10% of each participant's base salary each year, reduced by any amounts that we are required to contribute to another plan, although we may contribute more in our discretion. For 2012, we contributed an amount equal to 10% of base salary to the International Pension Plan for our named executive officers. Our contributions to the International Pension Plan vest fully after the employee has been in the plan for two years. Benefits are paid after termination of employment or upon death or disability either in cash or by transfer to another retirement plan or retirement product.

In the United States, we maintain the AXIS 401(k) Plan, under which employees may contribute a portion of their earnings on a tax-deferred basis and we make matching contributions. We also may make annual employer discretionary contributions. For 2012, we made matching contributions equal to 100% of each employee's contributions, subject to a maximum match of 4% of eligible earnings. We also made annual employer discretionary contributions equal to 6% of each participant's eligible earnings. For purposes of calculating the matching and employer discretionary contributions, only the first \$250,000 of each named executive officer's earnings was taken into account, due to limitations imposed by the Internal Revenue Code. Named executive officers are always fully vested in our matching contributions, and vest in our employer discretionary contributions 25% per year, with full vesting in the plan after four years of service. Benefits are distributable upon death, disability, retirement, termination of employment or upon reaching age 59-1/2.

In addition, we provide non-tax-qualified retirement programs to eligible employees, including our named executive officers, as described in detail below under the Pension Benefits Table and the Nonqualified Deferred Compensation Table.

Additional Benefits

Each of our named executive officers are encouraged to participate in our Executive Health Examination Program which entitled each of them to have a physical examination in 2012. We pay the full cost of the physical examination plus any travel-related expenses. In 2012, Mr. Reding completed a physical examination. Amounts reimbursed to Mr. Reding are included in the 2012 All Other Compensation column of the Summary Compensation Table.

In 2005, our Compensation Committee adopted a formal practice permitting personal use of corporate aircraft by certain of our executive officers. Mr. Benchimol is currently our only executive eligible for personal usage of the aircraft and his employment contract provides for up to 30 hours of personal usage per calendar year. During 2012, Mr. Butt was eligible to use the corporate aircraft for up to 12 personal trips per year and Mr. Charman was eligible to use the corporate aircraft for up to 24 trips per year, subject to a cap of \$75,000 for Mr. Butt and \$150,000 for Mr. Charman.

Messrs. Charman and Butt and the Company's subsidiary AXIS Specialty Limited, previously entered into supplemental executive retirement plans, or SERPs, each dated January 1, 2004, as amended and restated in May 2008 and, in the case of Mr. Butt, further amended in September 2008. The SERP with Mr. Butt provided for annual payments to Mr. Butt for a period of ten years beginning in 2010, while the SERP with Mr. Charman required the Company to make annual payments to Mr. Charman beginning in 2009 for a period of 20 years. On May 3, 2012, the Board approved an arrangement providing for the: (i) termination of the SERPs, and (ii) accelerated payment to Mr. Butt and Mr. Charman of the present value of the benefit amounts owed and payable under the SERPs, measured as of June 30, 2012. On July 11, 2012 and July 13, 2012, the Company, AXIS Specialty Limited and Codan Trust Company Limited entered into an addendum to the SERPs with Mr. Charman and Mr. Butt, respectively, to effect the foregoing. In the United States, we maintain the U.S. Supplemental Plan. The U.S. Supplemental Plan is designed to permit eligible employees to accumulate additional retirement income through a nonqualified deferred compensation plan that enables them to make salary deferrals of up to 100% of their salary in excess of deferrals allowed under the AXIS 401(k) Plan, to make additional deferrals from their bonus payments of up to 100% of their bonus, and to receive discretionary employer contributions. Each year, we make a discretionary contribution to all participants in the U.S. Supplemental Plan expressed as a percentage of the participant's base salary that is above the Internal Revenue Code maximum under the AXIS 401(k) Plan. For 2012, no named executive officer was eligible for participation in the U.S. Supplemental Plan.

Each named executive officer's own contributions under the U.S. Supplemental Plan are always fully vested. Our contributions vest based on the participant's years of service at a rate of 25% per year with full vesting after four years of service is completed. The named executive officer's own contributions may be distributed upon separation of employment or upon the earlier of separation of employment or a specified date in either a lump sum or over a period of annual installments between two and 10 years. Benefits will be paid immediately in a lump sum in the event of the executive's death.

Table of Contents

Internationally, we maintain the International Pension Plan. Messrs. Charman, Butt and Gressier participated in the International Pension Plan during 2012. The International Pension Plan is discussed in more detail in the narrative following the Summary Compensation Table and Grants of Plan-Based Awards in 2012 Table above.

Table of Contents

Potential Payments Upon Termination or Change in Control

This section describes payments that would be made to our named executive officers upon a change in control of AXIS or following termination of employment or upon the named executive officer's death or disability. In the first part of this section, we describe benefits under general plans that apply to any named executive officer participating in those plans. We then describe specific benefits to which each named executive officer is entitled, along with estimated amounts of benefits assuming a triggering event on December 31, 2012.

2007 Long-Term Equity Compensation Plan

Under the 2007 LTEP, as described above in the narrative to the Summary Compensation Table and the Grants of Plan-Based Awards in 2012 Table, upon the occurrence of a change in control, unless otherwise provided in the applicable award agreement or other agreement and unless provision is made in connection with the change of control for the assumption of awards previously granted or substitution for such awards of new awards covering stock of a successor corporation, executive officers receive the following benefits:

- (1) options and stock appreciation rights become immediately exercisable, and remain exercisable throughout their entire term, unless exercised, cashed out, or replaced;
- (2) performance units are paid out as if the date of the change in control were the last day of the applicable performance period and target performance levels had been attained; and
- (3) all other outstanding awards will automatically be deemed exercisable and vested and all restrictions and forfeiture provisions related to the awards will lapse.

Our current award agreements contain a double trigger vesting provision under which awards will automatically vest upon a change of control of the Company only upon an awardee's subsequent termination of employment: (a) by the Company without cause; or (b) by the awardee with good reason, in each case within 24 months of the change of control.

Under the 2007 LTEP and each of our named executive officers' employment agreements, a change in control occurs if:

- (1) a person, company, government, or political subdivision, agency, or instrumentality of a government becomes the beneficial owner of 50% or more of the combined voting power of our outstanding voting securities, except for: (a) any acquisition directly from us, (b) any acquisition by us, (c) any acquisition by one of our employee benefit plans, or (d) any acquisition that complies with clauses (a), (b) and (c) of paragraph (3) below;
- (2) our Board is no longer composed of a majority of individuals who were either members as of the date the 2003 Long-Term Equity Compensation Plan was adopted, or whose election or nomination for election was approved by a majority of the directors then comprising the incumbent Board;
- (3) a merger, sale of substantially all of the assets or other similar transaction occurs between us and another person, company, government, or political subdivision, agency, or instrumentality of a government, unless, following the transaction, (a) substantially all of the beneficial owners of our voting securities immediately before the transaction beneficially own more than 50% of the combined voting power of the successor entity, in substantially the same proportions as their ownership of our voting securities immediately prior to the transaction; (b) no person, company, government, or political subdivision, agency, or instrumentality of a government (excluding the successor entity) beneficially owns 50% or more of the outstanding shares of our common stock or the combined voting power of the successor entity, or owns all or substantially all of our assets, except to the extent that such ownership existed with respect to us before the transaction; and (c) at least a majority of the members of the board of directors of the successor entity or person that owns all or substantially all of our assets as a result of the transaction were members of our incumbent Board at the time of the execution of the initial agreement, or of the action of the Board, pursuant to which the merger or other transaction occurs; or
- (4) our shareholders approve a complete liquidation or dissolution of AXIS Capital Holdings Limited, or the sale or other disposition of all or substantially all of our assets.

Mr. Benchimol

In addition to the benefits described above for all executive officers, Mr. Benchimol is entitled to additional benefits under his employment agreement dated May 3, 2012 upon termination of his employment.

Mr. Benchimol's employment will automatically terminate upon his death, and we may terminate Mr. Benchimol's employment as a result of his disability if he is unable to work for 181 days in any 12-month period due to illness or injury. We also may terminate Mr. Benchimol's employment without cause upon twelve months' notice. Mr. Benchimol may terminate his employment upon at least twelve months' notice to us. Table of Contents

Cash Compensation

Directors who also are employees do not receive compensation for their service as directors. Pursuant to the 2012 Directors Annual Compensation Program, our non-management directors received an annual retainer of \$100,000 for service on the Board. The Chairman of the Audit Committee received an annual fee of \$30,000, the Chairman of each of the Risk Committee, Finance Committee and Compensation Committee received an annual fee of \$10,000, the Chairman of the Corporate Governance and Nominating Committee received an annual fee of \$7,500 and the Lead Independent Director received an annual fee of \$15,000. Non-management directors also receive \$1,500 for each committee meeting attended. Non-management directors who become directors after January 1 of any year are entitled to a pro-rated portion of any cash compensation and are not eligible for any equity compensation (or cash compensation in lieu thereof) until January 1 of the next year.

In addition to compensation received for service on our Board, directors who serve on the Boards of our Irish subsidiaries, AXIS Re SE and AXIS Specialty Europe SE, received an annual retainer in the amount of \$40,000 for service as director plus \$3,000 for each meeting attended.

Equity Compensation

In addition to the annual retainer, committee chairman fees and meeting fees, our director compensation program also provides that each non-management director is entitled to an annual grant of common stock under our 2007 LTEP, valued at \$100,000 based on the fair market value of our common stock on the tenth business day in January of the applicable year subject to the terms of our 2007 LTEP, which are described above in the narrative following the Summary Compensation Table and Grants of Plan-Based Awards in 2012 Table.

Deferred Compensation Plan

Prior to 2009, each non-employee director was eligible to participate in an unfunded nonqualified deferred compensation plan known as the AXIS Capital Holdings Limited 2003 Directors Deferred Compensation Plan (the Directors Deferred Plan), which was adopted by our Board and approved by our shareholders. The Directors Deferred Plan allowed participating directors to elect: (i) the amount, if any, of cash or stock received as fees for services to be deferred (expressed as a dollar amount, number of shares or percentage); and (ii) the form in which payment is to be made (lump sum or three annual installments). Directors who chose to defer fees otherwise payable in shares are credited a number of phantom stock units equal in amount to the number of shares of stock deferred. When a cash dividend is paid on the stock, the portion of the participant's deferral account denominated in phantom share units is credited with additional phantom share units (or portions thereof). Amounts deferred are 100% vested at all times. Generally, benefits are paid upon termination of service as a director. The plan was administered by our Board. Mr. Greene holds phantom stock units under the plan. As of January 1, 2009, our non-employee directors no longer have the option to defer compensation for services rendered after December 31, 2008. Amounts deferred prior to January 1, 2009 must be included as income as of the date the deferred amount is distributed or if no distribution has occurred as of the later of: (i) the last taxable year beginning before 2018; or (ii) the first taxable year that the amounts are no longer subject to a substantial risk of forfeiture.

Director Compensation for 2013

In December 2012, our Compensation Committee reviewed the director compensation program and made certain administrative changes to the director compensation program for 2013 board service. Total compensation payable to the directors remained unchanged from 2012.

We also have contracted with StoneRiver RegEd Inc., an affiliate of Stone Point, for broker and adjuster licensing, appointment and compliance services. In 2012, we paid \$412,008 to StoneRiver RegEd Inc. for these services. We also have funds invested in an account managed by SKY Harbor Capital Management, LLC, an affiliate of Stone Point. In 2012, we paid SKY Harbor \$1,090,824 in management fees for their services.

We provide insurance in the ordinary course of business to various entities that are affiliated with some of our directors and/or principal shareholders. These transactions are negotiated on an arm's-length basis.

Policies and Procedures for Transactions with Related Persons

We analyze all transactions in which AXIS participates and in which a related person may have a direct or indirect material interest, both due to the potential for a conflict of interest and to determine whether disclosure of the transaction is required under applicable SEC rules and regulations. Related persons include any of our directors, director nominees or executive officers, certain of our shareholders and their respective immediate family members. A conflict of interest occurs when an individual's private interest interferes, or appears to interfere, in any way with our interests. Our Code of Business Conduct requires all directors, officers and employees who may have a potential or apparent conflict of interest to fully disclose all the relevant facts promptly to our General Counsel. A copy of our Code of Business Conduct is available on our website at www.axiscapital.com.

In addition to the reporting requirements under the Code of Business Conduct, to identify related person transactions, each year we submit and require our directors and executive officers to complete Director and Officer Questionnaires identifying any transactions with us in which the officer or director or their family members have an interest. Any potential related person transactions are reviewed by our Corporate Governance and Nominating Committee, which pursuant to its charter is responsible for reviewing and approving any proposed transaction with any related person.

AUDIT COMMITTEE REPORT

The primary purpose of the Audit Committee is to assist our Board in its oversight of the integrity of our financial statements, our compliance with legal and regulatory requirements, the independent registered public accounting firm's qualifications, independence and performance and the performance of our internal audit function. The Audit Committee is solely responsible for the appointment, retention and compensation of our independent registered public accounting firm. It is not the responsibility of the Audit Committee to plan or conduct audits or to determine that our financial statements are complete and accurate and are in accordance with generally accepted accounting principles and applicable rules and regulations. This is the responsibility of management and the independent auditors, as appropriate.

In performing its duties, the Audit Committee:

has reviewed our audited financial statements for the year ended December 31, 2012 and had discussions with management regarding the audited financial statements;

has discussed with the independent registered public accounting firm the matters required to be discussed by the Statement on Auditing Standards No. 61, as amended (AICPA, *Professional Standards*, Vol. 1 AU Section 380) as adopted by the Public Company Accounting Oversight Board in Rule 3200T;

has received the written disclosures and the letter from independent registered public accounting firm required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent registered public accounting firm's communications with the Audit Committee concerning independence; and

has discussed with the independent registered public accounting firm their independence, the audited financial statements and other matters the Audit Committee deemed relevant and appropriate.

Based on these reviews and discussions, the Audit Committee recommended to the Board that our audited financial statements for the year ended December 31, 2012 be included in our Annual Report on Form 10-K for that year for filing with the Securities and Exchange Commission. The Board of Directors approved the Audit Committee's recommendations.

Pre-Approval Policy

In September 2003, our Board adopted a policy regarding the procurement of audit services and non-audit services. The primary purpose of the policy is to ensure that we engage public accountants as external auditors to provide only audit and non-audit services that are compatible with maintaining independence. The policy requires that the Audit Committee pre-approve all audit and non-audit services for which our auditors are engaged. The Audit Committee may delegate the authority to grant pre-approvals to the Chairman of the Audit Committee or, in the event of his non-availability, to any other Audit Committee member. The Chairman of the Audit Committee or such other Audit Committee member must present to the Audit Committee at each scheduled meeting any pre-approvals that are granted. For the years ended December 31, 2012 and 2011, 100% of the audit fees, the audit-related fees and the tax fees were pre-approved.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires our directors and executive officers and persons who own more than 10% of a registered class of our equity securities to file with the SEC and the NYSE reports on Forms 3, 4 and 5 concerning their ownership of the common shares and other equity securities of the Company. Under SEC rules, we must be furnished with copies of these reports.

Based on our review of these reports, we believe that all of our directors, executive officers and shareholders who are required to file reports filed all of such reports on a timely basis during the year ended December 31, 2012.
