NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

NOTE 1 CONDENSED FOOTNOTES

As contemplated by the Securities and Exchange Commission (the Commission) instructions to Form 10-Q, the following footnotes have been condensed and, therefore, do not contain all disclosures required in connection with annual financial statements. Reference should be made to the Company's year-end financial statements and notes thereto contained in its Annual Report on Form 10-K for the fiscal year ended December 30, 2012, as filed with the Commission.

The financial information included in this report has been prepared by the Company, without audit. In the opinion of management, the financial information included in this report contains all adjustments (all of which are normal and recurring) necessary for a fair presentation of the results for the interim periods. Nevertheless, the results shown for interim periods are not necessarily indicative of results to be expected for the full year. The December 30, 2012 consolidated condensed balance sheet data was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States.

As described below in Note 8, the Company has sold its Bentley Prince Street business segment. The results of operations and related disposal costs, gains and losses for this business are classified as discontinued operations, where applicable.

Certain prior period amounts have been reclassified to conform to the current period presentation.

NOTE 2 INVENTORIES

Inventories are summarized as follows:

	March 31, 2013	December 30, 2012
	<i>(In thousands)</i>	
Finished Goods	\$ 99,850	\$ 87,094

Raw Materials	48,267	47,052
	\$ 157,519	\$ 141,176

NOTE 3 EARNINGS PER SHARE

The Company computes basic earnings per share (EPS) by dividing net income (loss), by the weighted-average common shares outstanding, including participating securities outstanding, during the period as discussed below. Diluted EPS reflects the potential dilution beyond shares for basic EPS that could occur if securities or other contracts to issue common stock were exercised, converted into common stock or resulted in the issuance of common stock that would have shared in the Company's earnings.

Table of Contents

The Company includes all unvested stock awards which contain non-forfeitable rights to dividends or dividend equivalents, whether paid or unpaid, in the number of shares outstanding in our basic and diluted EPS calculations when the inclusion of these shares would be dilutive. Unvested share-based awards of restricted stock are paid dividends equally with all other shares of common stock. As a result, the Company includes all outstanding restricted stock awards in the calculation of basic and diluted EPS when the Company is in an income position. Distributed earnings include common stock dividends and dividends earned on unvested share-based payment awards. Undistributed earnings represent earnings that were available for distribution but were not distributed. The following tables show distributed and undistributed earnings:

	Three Months Ended	
	March 31, 2013	April 1, 2012

Dilutive Effect of Stock Options	158	0
Shares for Diluted Earnings Per Share	66,274	63,443

For the three months ended April 1, 2012, options to purchase 535,000 shares of common stock were not included in the computation of diluted EPS as their impact would be anti-dilutive. For the three months ended April 1, 2012, 2,009,000 shares of participating securities were excluded from the computation of EPS as their impact would be anti-dilutive.

NOTE 4 LONG-TERM DEBT

7 5/8% Senior Notes

As of both March 31, 2013, and April 1, 2012, the Company had outstanding \$275 million in 7 5/8% Senior Notes due 2018 (the 7 5/8% Senior Notes). The estimated fair value of the 7 5/8% Senior Notes as of March 31, 2013, and April 1, 2012, based on then current market prices, was \$297.0 and \$296.7 million, respectively.

11 3/8% Senior Secured Notes

As of March 31, 2013, and April 1, 2012, the Company had outstanding \$8.1 million and \$8.0 million in 11 3/8% Senior Secured Notes due 2013 (the 11 3/8% Senior Secured Notes), respectively. The estimated fair value of the 11 3/8% Senior Secured Notes as of both March 31, 2013, and April 1, 2012, based on then current market prices, was \$8.1 million.

Credit Facilities

The Company maintains a domestic revolving credit agreement (the Facility) that provides a maximum aggregate amount of \$100 million of loans and letters of credit available to us at any one time (subject to a borrowing base) with an option for us to increase that maximum aggregate amount to \$150 million (upon the satisfaction of certain conditions, and subject to a borrowing base). The Company is presently in compliance with all covenants under the Facility and anticipates that it will remain in compliance with the covenants for the foreseeable future. As of March 31, 2013, there were zero borrowings and \$3.6 million in letters of credit outstanding under the Facility. As of March 31, 2013, the Company could have incurred \$57.1 million of additional borrowings under the Facility.

Interface Europe B.V. (the Company's modular carpet subsidiary based in the Netherlands) and certain of its subsidiaries maintain a Credit Agreement with The Royal Bank of Scotland N.V. (RBS). Under this Credit Agreement, RBS provides a credit facility, until further notice, for borrowings and bank guarantees of 20 million. As of March 31, 2013, there were no borrowings outstanding under this facility, and the Company could have incurred 20 million (approximately \$25.6 million) of additional borrowings under the facility.

Other non-U.S. subsidiaries of the Company have an aggregate of the equivalent of \$18.8 million of lines of credit available. As of March 31, 2013 there were no borrowings outstanding under these lines of credit.

NOTE 5 STOCK-BASED COMPENSATION

Stock Option Awards

In accordance with accounting standards, the Company measures the cost of employee services received in exchange for an award of equity instruments based on the grant date fair value of the award. That cost will be recognized over the period in which the employee is required to provide the services the requisite service period (usually the vesting period) in exchange for the award. The grant date fair value for options and similar instruments will be estimated using option pricing models. Under accounting standards, the Company is required to select a valuation technique or option pricing model that meets the criteria as stated in the standard. The Company uses the Black-Scholes model. Accounting standards require that the Company estimate forfeitures for stock options and reduce compensation expense accordingly. The Company has reduced its stock compensation expense by the assumed forfeiture rate and will evaluate experience against this forfeiture rate going forward.

During the first three months of 2013 and 2012, the Company recognized stock option compensation costs of \$0.1 million and \$0.2 million, respectively. The remaining unrecognized compensation cost related to unvested awards at March 31, 2013, approximated \$0.1 million, and the weighted average period of time over which this cost will be recognized is approximately one year.

Table of Contents

There were no stock options granted during the first three months of fiscal year 2013 or 2012. The following table summarizes stock options outstanding as of March 31, 2013, as well as activity during the three months then ended:

	Shares	Weighted Average Exercise Price
Outstanding at December 30, 2012	393,500	\$ 8.49
Granted	0	0
Exercised	81,000	9.73
Forfeited or canceled	5,500	2.71
Outstanding at March 31, 2013	307,000	\$ 8.35
Exercisable at March 31, 2013	302,000	\$ 8.27

At March 31, 2013, the aggregate intrinsic value of in-the-money options outstanding and options exercisable was \$3.3 million and \$3.3 million, respectively (the intrinsic value of a stock option is the amount by which the market value of the underlying stock exceeds the exercise price of the option).

Cash proceeds and intrinsic value related to total stock options exercised during the first three months of 2013 and 2012 are provided in the following table:

	Three Months Ended	
	March 31, 2013	April 1, 2012
	<i>(In thousands)</i>	
Proceeds from stock options exercised	\$ 868	\$ 131
Intrinsic value of stock options exercised	\$ 581	\$ 179

The Company did not recognize any significant tax benefit with regard to stock options in either period presented.

Restricted Stock Awards

During the three months ended March 31, 2013 and April 1, 2012, the Company granted restricted stock awards for 584,000 and 557,500 shares of common stock, respectively. Awards of restricted stock (or a portion thereof) vest with respect to each recipient over a two to five-year period from the date of grant, provided the individual remains in the employment or service of the Company as of the vesting date. Additionally, awards (or a portion thereof) could vest earlier upon the attainment of certain performance criteria, in the event of a change in control of the Company, or upon involuntary termination without cause.

Compensation expense related to restricted stock grants was \$0.6 million and \$1.3 million for the three months ended March 31, 2013, and April 1, 2012, respectively. Accounting standards require that the Company estimate forfeitures for restricted stock and reduce compensation expense accordingly. The Company has reduced its expense by the assumed forfeiture rate and will evaluate experience against this forfeiture rate going forward.

The following table summarizes restricted stock outstanding as of March 31, 2013, as well as activity during the three months then ended:

	Shares	Weighted Average Grant Date Fair Value
Outstanding at December 30, 2012	1,973,500	\$ 14.79
Granted	584,000	16.06

Edgar Filing: INTERFACE INC - Form 10-Q

Vested	372,000	14.63
Forfeited or canceled	475,500	14.04
Outstanding at March 31, 2013	1,710,000	\$ 15.45

As of March 31, 2013, the unrecognized total compensation cost related to unvested restricted stock was \$16.6 million. That cost is expected to be recognized by the end of 2016.

The Company did not recognize any significant tax benefit with regard to restricted stock in either period presented.

NOTE 7 RESTRUCTURING CHARGES

2012 Restructuring Charge

In the first quarter of 2012, the Company committed to a restructuring plan in its continuing efforts to reduce costs across its worldwide operations and more closely align its operations with reduced demand levels in certain markets. The plan primarily consisted of ceasing manufacturing and warehousing operations at its facility in Shelf, England. In connection with this restructuring plan, the Company incurred a pre-tax restructuring and asset impairment charge in the first quarter of 2012 in an amount of \$16.3 million. The charge was comprised of employee severance expenses of \$5.4 million, other related exit costs of \$1.6 million, and a charge for impairment of assets of approximately \$9.3 million. Approximately \$7 million of the charge will result in cash expenditures, primarily severance expense. In the third and fourth quarters of 2012, the Company recorded additional charges of \$0.8 million and \$2.3 million, respectively, of cash severance expenses related to the finalization of this plan for its European operations. As a result of these 2012 restructuring charges, a reduction of approximately 145 employees occurred.

A summary of these restructuring activities is presented below:

	Total Restructuring Charge	Costs Incurred in 2012	Costs Incurred in 2013	Balance at March 31, 2013
	<i>(In thousands)</i>			
Workforce Reduction	\$ 8,465	\$ 5,205	\$ 2,566	\$ 694
Fixed Asset Impairment	9,364	9,364	0	0
Other Related Exit Costs	1,596	1,168	75	353

Table of Contents*2011 Restructuring Charge*

In the fourth quarter of 2011, the Company committed to a restructuring plan intended to reduce costs across its worldwide operations and more closely align its operations with reduced demand in certain markets. As a result of this plan, the Company incurred pre-tax restructuring and asset impairment charges of \$5.8 million in the fourth quarter of 2011. The majority of this charge (\$5.0 million) related to the severance of approximately 90 employees in Europe, Asia and the United States. The remainder of the charge (\$0.8 million) related to contract termination and fixed asset impairment costs. Approximately \$5.0 million of this charge will result in cash expenditures, primarily severance expenses. Actions and expenses related to this plan were substantially completed by the end of 2011.

A summary of these restructuring activities is presented below:

	Restructuring Charge	Costs Incurred in 2011	Costs Incurred in 2012	Costs Incurred in 2013	Balance at March 31, 2013
			<i>(In thousands)</i>		
Workforce Reduction	\$ 4,979	\$ 867	\$ 3,450	\$ 101	\$ 561
Fixed Asset Impairment	776	776	0	0	0

NOTE 8 DISCONTINUED OPERATIONS

In the third quarter of 2012, the Company sold its Bentley Prince Street business segment, which is now reported in the results of operations as discontinued operations, where applicable.

Summary operating results for discontinued operations were as follows:

	Three Months Ended	
	March 31, 2013	April 2, 2012
	<i>(In thousands)</i>	
Net sales	\$ 0	\$ 22,744
Income (Loss) on operations before taxes on income	0	251
Tax expense (benefit)	0	88
Income (Loss) on operations, net of tax	0	163

As of March 31, 2013 and December 30, 2012, there were no assets or liabilities related to the above-described discontinued operations that were held for sale.

NOTE 9 SUPPLEMENTAL CASH FLOW INFORMATION

Cash payments for interest amounted to \$0.3 million and \$0.8 million for the three month periods ended March 31, 2013, and April 1, 2012, respectively. Income tax payments amounted to \$1.6 million and \$3.0 million for the three month periods ended March 31, 2013, and April 1, 2012, respectively.

NOTE 10 RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In February 2013, the Financial Accounting Standards Board (FASB) issued an accounting standard which requires entities to present information about significant items reclassified out of accumulated other comprehensive income (loss) by component either on the face of the statement where net income is presented or as a separate disclosure in the notes to the financial statements. The standard was effective for the Company in the first quarter of fiscal year 2013. As this standard impacts presentation only, the adoption did not have any impact on the Company's consolidated financial statements.

Table of Contents

NOTE 11 INCOME TAXES

In the first quarter of 2013, the Company executed advance pricing agreements for tax years 2006 through 2011 with the Canada Revenue Agency and the U.S. Internal Revenue Service in relation to the U.S. bilateral advanced pricing agreement filed in 2008. As a result of executing the advance pricing agreements, the Company was able to reduce its liability for unrecognized tax benefits in the first quarter of 2013 by \$2.0 million. This benefit has been included in the Income Tax Expense (Benefit) line of the Company's consolidated condensed statement of operations for the three months ended March 31, 2013.

Accounting standards require that all tax positions be analyzed using a two-step approach. The first step requires an entity to determine if a tax position is more-likely-than-not to be sustained upon examination. In the second step, the tax benefit is measured as the largest amount of benefit, determined on a cumulative probability basis, that is more-likely-than-not to be realized upon ultimate settlement. In the first three months of 2013, due largely to the resolution of the bilateral advanced pricing agreement discussed above, the Company decreased its liability for unrecognized tax benefits by \$2.3 million. As of March 31, 2013, the Company had accrued approximately \$22.9 million for unrecognized tax benefits.

NOTE 12 FIRE AT AUSTRALIAN MANUFACTURING FACILITY

On July 20, 2012, a fire occurred at the Company's manufacturing facility in Picton, Australia. The facility's carpet production line, primarily comprised of tufting and backing machinery, sustained extensive damage and was rendered inoperable. The Picton facility served the Company's customers throughout Australia and New Zealand. It represented approximately 7% of the Company's total annual production, 10% of its net sales, and 13% of its operating income. Since the fire, the Company has utilized adequate production capacity at its manufacturing facilities in Thailand, China and elsewhere to meet customer demand typically serviced from Picton. The Company has business interruption and property damage insurance. The Company is in the process of building a new manufacturing facility in Minto, Australia and expects it to become operational in late 2013.

Since the fire, the Company has recorded charges of approximately \$24.3 million (\$2.0 million in the first quarter of 2013) for impairment of fixed assets related to the fire, and has incurred approximately \$23.1 million of excess production costs related to the fire, as it has utilized other facilities to service customers in the Australia and New Zealand markets. As of March 31, 2013, the Company has determined that the receipt of reimbursement of these expenses from its insurer is probable in accordance with its insurance policies and has therefore recorded a receivable for these items. As of March 31, 2013, the Company had received \$20.7 million of reimbursement from the insurance company related to the fire at the Picton facility. The table below details the nature of expenses as well as insurance receivables and amounts already received related to the fire:

	<i>(in millions)</i>
Impairment of fixed assets at the Picton Facility	\$ 24.3
Incremental payroll costs	4.2
Incremental shipping costs	17.6
Other incremental costs	1.3
Total incurred costs through December 30, 2012	\$ 47.4
Insurance recovery receivable	\$ 26.7
Insurance recoveries already received	\$ 20.7

The Company also has made an additional claim for loss of profits related to the fire. The amount of this claim is approximately \$5.2 million and relates to loss of profits from the date of the fire through the end of 2012. The Company continues to gather information related to additional insurance claims for loss of profits as a result of the fire. As of March 31, 2013, the Company had not recorded any receivables or amounts for loss of profits, but expects to do so at a later date as information and analysis become more complete and recovery becomes probable.

NOTE 13 ITEMS RECLASSIFIED FROM OTHER COMPREHENSIVE INCOME

During the first quarter of 2013, the Company did not reclassify any significant amounts out of accumulated other comprehensive income. The reclassifications that occurred in that period were primarily comprised of \$0.3 million related to the Company's defined retirement benefit plan and salary continuation plan. These reclassifications were included in the selling, general and administrative expenses line item of the Company's consolidated condensed statement of operations.

NOTE 14 SUPPLEMENTAL CONDENSED CONSOLIDATING GUARANTOR FINANCIAL STATEMENTS

The Guarantor Subsidiaries, which consist of the Company's principal domestic subsidiaries, are guarantors of the Company's 11 3/8% Senior Secured Notes due 2013 and its 7 5/8% Senior Notes due 2018. These guarantees are full and unconditional. The Supplemental Guarantor Financial Statements are presented herein pursuant to requirements of the Commission.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Our discussions below in this Item 2 are based upon the more detailed discussions about our business, operations and financial condition included in our Annual Report on Form 10-K for the fiscal year ended December 30, 2012, under Item 7 of that Form 10-K. Our discussions here focus on our results during the quarter ended, or as of, March 31, 2013, and the comparable period of 2012 for comparison purposes, and, to the extent applicable, any material changes from the information discussed in that Form 10-K or other important intervening developments or information since that time. These discussions should be read in conjunction with that Form 10-K for more detailed and background information.

Forward-Looking Statements

This report contains statements which may constitute forward-looking statements within the meaning of the Securities Act of 1933, as amended, and the Securities Exchange Act of 1934, as amended by the Private Securities Litigation Reform Act of 1995. Important factors currently known to management that could cause actual results to differ materially from those in forward-looking statements include risks and uncertainties associated with economic conditions in the commercial interiors industry as well as the risks and uncertainties discussed under the heading Risk Factors included in Item 1A of the Company's Annual Report on Form 10-K for the fiscal year ended December 30, 2012, which discussion is hereby incorporated by reference. The Company undertakes no obligation to update or revise forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes to future operating results over time.

2012 Restructuring Charge

In the first quarter of 2012, we committed to a new restructuring plan in our continuing efforts to reduce costs across our worldwide operations and more closely align our operations with reduced demand levels in certain markets. The plan primarily consisted of ceasing manufacturing and warehousing operations at our facility in Shelf, England. In connection with this restructuring plan, we incurred a pre-tax restructuring and asset impairment charge in the first quarter of 2012 in an amount of \$16.3 million, as well as additional related charges of \$0.8 million in the third quarter of 2012 and \$2.3 million in the fourth quarter of 2012. These charges were comprised of severance expenses of \$8.5 million for a reduction of 145 employees, other related exit costs of \$1.6 million, and impairment of assets of \$9.4 million. Approximately \$10.1 million of the charge will result in cash expenditures, primarily severance expense.

Fire at Australia Facility

In July 2012, a fire occurred at our manufacturing facility in Picton, Australia. The fire caused extensive damage to the facility, as well as disruption to business activity in the region. We have taken steps towards re-adapting our supply chain with product from our manufacturing facilities in China, Thailand, the U.S. and Europe. While this is being executed with success, there were, as expected, delays in shipments that affected sales following the fire. At this time, it is difficult to quantify the financial impacts of the fire, but we believe it negatively affected net sales by approximately \$2.5-\$3.0 million during the first quarter of 2013. For additional information on the fire, please see Note 12, entitled Fire at Australian Manufacturing Facility, in Part I, Item 1 of this Report.

Discontinued Operations

In 2012, we sold our Bentley Prince Street business segment. In accordance with applicable accounting standards, we have reported the results of operations for the former Bentley Prince Street business segment as discontinued operations, where applicable.

Our discontinued operations had no net sales and no net income or loss in the three-month period ended March 31, 2013. For the three-month period ended April 1, 2012, our discontinued operations had net sales of \$22.7 million and net income of \$0.2 million.

Table of Contents

General

During the quarter ended March 31, 2013, we had net sales of \$210.4 million, compared with net sales of \$210.0 million in the first quarter last year. Fluctuations in currency exchange rates had a slightly negative impact (less than 1%) for the 2013 first quarter compared with the prior year period.

During the first quarter of 2013, we had net income of \$7.0 million, or \$0.11 per share, compared with a net loss of \$5.9 million, or \$0.09 per share, in the first quarter last year. Included in the results for the first quarter of 2013 was a one-time tax dispute resolution benefit of \$2.0 million related to the execution of bilateral pricing agreements. See the discussion in Note 11 of Part I, Item 1 of this Report, entitled "Income Taxes," for further information. As discussed above, results for the first quarter of 2012 included a restructuring and asset impairment charge of \$16.3 million.

Results of Operations

The following table presents, as a percentage of net sales, certain items included in our Consolidated Condensed Statements of Operations for the three-month periods ended March 31, 2013, and April 1, 2012, respectively:

Table of Contents

For the quarter ended March 31, 2013, net sales increased \$0.3 million (0.2%) versus the comparable period in 2012. On a geographic basis, we experienced a sales increase in the Americas (up 9%) which was almost entirely offset by decreases in Europe (down 9% in U.S. dollars, or 10% in local currency) and Asia-Pacific (down 8%). In the Americas, sales growth was due to increases in the corporate office segment (up 21%), as well as smaller increases in the residential (up 24%) and hospitality (up 68%) segments. The increase in the residential segment is a direct result of the continued expansion of our FLOR store channel. As of the end of the first quarter of 2013, we had 19 FLOR stores open, compared with eight stores as of the end of the first quarter of 2012. The increase in the hospitality segment was due to the continued successful penetration of this market as we further build our sales presence in the hospitality market. These increases in the Americas were partially offset by a decrease in the retail segment (down 31%). The sales decline in Europe was driven by the continued economic uncertainty in that region that has negatively impacted buying decisions by our customers, as well as unusually bad weather in the U.K. at the end of March that delayed shipments. Aside from an increase in the hospitality segment (up 14%), all market segments in Europe showed declines compared with the first quarter of 2012. The most significant decline was in the corporate office segment (down 8%), which comprises the majority of the region's customers and was most impacted by an economic slow down. In Asia-Pacific, the sales decline was primarily due to the continued effects of the fire that destroyed our plant in Australia in July of 2012. The absence of a plant in Australia has impacted sales in the region despite our continued imports from our other manufacturing facilities. With the commissioning of our new plant in Australia in late 2013, we believe sales will improve in the region going forward. The sales decline in Australia was partially offset by increases in other parts of the Asia-Pacific region, notably Southeast Asia. The overall decline in Asia-Pacific was led by the corporate office segment (down 11%) as well as the healthcare segment (down 38%). These declines were partially mitigated by increases in the retail (up 31%) and hospitality (up 28%) segments.

Cost and Expenses

The following table presents our overall cost of sales and selling, general and administrative expenses for the three-month periods ended March 31, 2013, and April 1, 2012, respectively:

Cost and Expenses	Three Months Ended		Percentage Change
	March 31, 2013	April 1, 2012	
	<i>(In thousands)</i>		
Cost of sales	\$ 139,117	\$ 139,498	(0.3%)
Selling, general and administrative expenses	57,258	53,901	6.2%
Total	\$ 196,375	\$ 193,399	1.5%

For the quarter ended March 31, 2013, our cost of sales decreased \$0.4 million (0.3%) versus the comparable period in 2012. Currency translation did not have a significant impact on the comparison between the periods. As a percentage of sales, cost of sales decreased to 66.1% for the quarter ended March 31, 2013, versus 66.4% in the comparable period of 2012. This decrease was due to improvements in gross margin in the Americas due to increased absorption of fixed overhead costs associated with higher production volumes, offset by lower margins in Europe as a result of lesser production at our facilities in that region. Raw material prices for the first quarter of 2013 remained relatively stable versus the first quarter of 2012.

For the quarter ended March 31, 2013, our selling, general and administrative expenses increased \$3.4 million (6.2%) versus the comparable period in 2012. Fluctuations in currency exchange rates did not have a significant impact on the comparison between the two periods. The primary components of this increase were additional selling costs, particularly in the Americas group where there were additional sales personnel added to better serve the growing market (approximately \$1.3 million of the increase) as well as approximately \$1.7 million of additional selling costs related to the additional FLOR retail stores we have opened. Due to these increased expenses, as well as the lower sales volumes discussed above, as a percentage of net sales, selling, general and administrative expenses increased to 27.2% for the first three months of 2013 versus 25.7% in the corresponding period of 2012. We believe that the expansion of our sales channels will continue to provide benefits and we expect to see selling, general and administrative costs decline as a percentage of net sales in future periods.

Interest Expense

For the three-month period ended March 31, 2013, interest expense decreased by approximately \$0.5 million to \$6.2 million, versus \$6.7 million for three-month period ended April 1, 2012. The primary reason for this decrease was the redemption of the remaining \$11.5 million of our 9.5% Senior Subordinated Notes early in the second quarter of 2012.

Table of Contents

Liquidity and Capital Resources

General

At March 31, 2013, we had \$65.1 million in cash. At that date, we had no borrowings and \$3.6 million in letters of credit outstanding under our domestic revolving credit facility, and no borrowings outstanding under our European credit facility. As of March 31, 2013, we could have incurred \$57.1 million of additional borrowings under our domestic revolving credit facility, and 20 million (approximately \$25.6 million) of additional borrowings under our European credit facility. In addition, we could have incurred an additional \$18.8 million of borrowings under our other credit facilities in place at other non-U.S. subsidiaries.

Analysis of Cash Flows

Our primary sources of cash during the three months ended March 31, 2013 were (1) \$21.9 million due to reductions in accounts receivable, and (2) \$0.9 million from the exercise of stock options under our employee stock plan. Our primary uses of cash during this period were (1) \$18.6 million due to a decrease in accounts payable and accrued expenses, (2) \$17.1 million for increased inventory levels, and (3) \$14.9 million for capital expenditures.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our discussion below in this Item 3 is based upon the more detailed discussions of our market risk and related matters included in our Annual Report on Form 10-K for the fiscal year ended December 30, 2012, under Item 7A of that Form 10-K. Our discussion here focuses on the quarter ended March 31, 2013, and any material changes from (or other important intervening developments since the time of) the information discussed in that Form 10-K. This discussion should be read in conjunction with that Form 10-K for more detailed and background information.

At March 31, 2013, we recognized a \$6.2 million decrease in our foreign currency translation adjustment account compared to December 30, 2012, primarily because of the strengthening of the U.S. dollar against certain foreign currencies.

Sensitivity Analysis. For purposes of specific risk analysis, we use sensitivity analysis to measure the impact that market risk may have on the fair values of our market sensitive instruments.

To perform sensitivity analysis, we assess the risk of loss in fair values associated with the impact of hypothetical changes in interest rates and foreign currency exchange rates on market sensitive instruments. The market value of instruments affected by interest rate and foreign currency exchange rate risk is computed based on the present value of future cash flows as impacted by the changes in the rates attributable to the market risk being measured. The discount rates used for the present value computations were selected based on market interest and foreign currency exchange rates in effect at March 31, 2013. The values that result from these computations are compared with the market values of these financial instruments at March 31, 2013. The differences in this comparison are the hypothetical gains or losses associated with each type of risk.

As of March 31, 2013, based on a hypothetical immediate 150 basis point increase in interest rates, with all other variables held constant, the market value of our fixed rate long-term debt would experience a net decrease of approximately \$10.1 million. Conversely, a 150 basis point decrease in interest rates would result in a net increase in the market value of our fixed rate long-term debt of approximately \$7.1 million.

As of March 31, 2013, a 10% decrease or increase in the levels of foreign currency exchange rates against the U.S. dollar, with all other variables held constant, would result in a decrease in the fair value of our financial instruments of \$6.8 million or an increase in the fair value of our financial instruments of \$5.6 million, respectively. As the impact of offsetting changes in the fair market value of our net foreign investments is not included in the sensitivity model, these results are not indicative of our actual exposure to foreign currency exchange risk.

ITEM 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this Quarterly Report on Form 10-Q, an evaluation was performed under the supervision and with the participation of our management, including our President and Chief Executive Officer and our Senior Vice President and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934 (the Act), pursuant to Rule 13a-14(c) under the Act. Based on that evaluation, our President and Chief Executive Officer and our Senior Vice President and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this Quarterly Report.

There were no changes in our internal control over financial reporting that occurred during our last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are subject to various legal proceedings in the ordinary course of business, none of which is required to be disclosed under this Item 1.

ITEM 1A. RISK FACTORS

There are no material changes in risk factors in the first quarter of 2013. For a discussion of risk factors, see Part I, Item 1A, Risk Factors, in our Annual Report on Form 10-K for the fiscal year 2012.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table contains information with respect to purchases made by or on behalf of the Company, or any affiliated purchaser (as defined in Rule 10b-18(a)(3) under the Securities Exchange Act of 1934), of our common stock during our first quarter ended March 31, 2013:

Period ⁽¹⁾	Total Number of Shares Purchased ⁽²⁾	Average Price Paid Per Share ⁽³⁾	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ⁽⁴⁾	Maximum Number (or Approximate Dollar Value) of Shares that May Yet Be Purchased Under the Plans or Programs ⁽⁴⁾

March 1 - March 31, 2013	33,000	\$ 19.12	0	0
Total	374,474	\$ 17.09	0	0

(1) The monthly periods identified above correspond to the Company's fiscal first quarter of 2013, which commenced December 31, 2012 and ended March 31, 2013.

(2) The referenced shares were acquired by the Company from certain of our employees to satisfy income tax withholding obligations in connection with the vesting, in the first quarter of 2013, of certain previous grants of restricted stock shares.

(3) The referenced price paid per share represents the fair market value of all shares acquired from employees on the date the shares vested, which is equal to the closing price of the Company's common stock on the NASDAQ stock exchange on the day preceding the vesting date.

Edgar Filing: INTERFACE INC - Form 10-Q

The total represents the weighted average price paid per share.

- (4) We do not currently have a publicly announced stock repurchase program in place.
