Item 2.02 Results of Operations and Financial Condition

On July 24, 2013, Ingram Micro Inc. (the Company or Ingram Micro) issued a press release reporting financial results for the fiscal second quarter that ended June 29, 2013. The press release is attached hereto as Exhibit 99.1 and incorporated herein by reference.

The information included herein and in Exhibit 99.1 shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the Exchange Act), nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such a filing, nor shall it be deemed to form a part of the Company s public disclosure in the United States or otherwise.

GAAP to Non-GAAP Reconciliation

The attached press release includes financial results prepared in accordance with generally accepted accounting principles (GAAP). In addition to GAAP results, Ingram Micro is reporting non-GAAP adjusted operating income, adjusted operating margin, adjusted net income and adjusted earnings per diluted share. These non-GAAP measures exclude the amortization of intangible assets and items not expected to recur, including charges associated with restructuring, integration and transition costs and other expense reduction programs. Adjusted net income and adjusted earnings per diluted share also exclude the benefit or impact of foreign exchange gains or losses related to the translation effect on Euro-based inventory purchases in Ingram Micro s pan-European entity and a discrete tax benefit recognized in the first quarter of 2012 associated with the write-off of the historical tax basis of the investment we had maintained in one of our Latin American subsidiary holding companies.

Adjusted operating income, adjusted operating margin, adjusted net income and adjusted earnings per diluted share are primary indicators that Ingram Micro s management uses internally to conduct and measure its business and evaluate the performance of its consolidated operations and operating segments. Ingram Micro s management believes these non-GAAP financial measures are useful because they provide meaningful comparisons to prior periods and an alternate view of the impact of acquired businesses. These non-GAAP financial measures are used in addition to and in conjunction with results presented in accordance with GAAP. These non-GAAP financial measures reflect an additional way of viewing aspects of our operations that, when viewed with our GAAP results and the accompanying reconciliations to corresponding GAAP financial measures, provide a more complete understanding of factors and trends affecting Ingram Micro s business. A material limitation associated with the use of these non-GAAP measures as compared to the GAAP measures is that they may not be comparable to other companies with similar items that present related charges

Edgar Filing: INGRAM MICRO INC - Form 8-K

differently. In this regard, the non-GAAP measures should be considered as a supplement to, and not as a substitute for or superior to, the corresponding measures calculated in accordance with GAAP and may not be comparable to similarly titled measures used by other companies.

Reconciliations of GAAP to non-GAAP financial measures for the second quarters of 2013 and 2012 and the first six months of 2013 and 2012 appear in the financial statements portion of the attached press release under the heading Supplementary Information Income from Operations Reconciliation of GAAP to Non-GAAP Financial Information and Supplementary Information Reconciliation of GAAP to Non-GAAP Financial Measures.

Item 9.01 Financial Statements and Exhibits.
