CHAIRMAN'S STATEMENT (Unaudited)

Dear Stockholders,

As we approach the end of the calendar year we can reflect on a 2013 that has been a period of consolidation for China. In the early part of the year, the market held much hope for the reform initiatives outlined by the new leadership and at the same time was wary of any potential missteps from the new regime in managing domestic and foreign affairs. The reforms that were highly anticipated in some quarters have largely been rolled out at a very measured pace. The resulting lack of a significant spike to the economy and stock prices might have disappointed some market participants. If tempering unrealistic expectations was the aim then they have succeeded on that score.

On the policy front, Xi Jinping and his party members' focus appears to be on dealing with domestic issues such as the welfare of migrant workers. While the pace of change is again slow, it does point to a step in the right direction towards addressing social issues. This is a critical matter as the government seeks to pre-empt any possibility of civil unrest. At the time of writing the Party announced that it will disclose a full transcript of a key policy document signed off at the third plenum session. This is a departure from what has previously been a rather opaque process.

Since my last message our investment manager has continued to do well for the shareholders. Details of the Fund's performance and strategy can be found in the Investment Manager's Statement. Suffice it to say that we are pleased with the job they and our other service providers have done.

At the meeting of the Board of Directors in September we welcomed Mr. Gary French as our newest Director. Mr. French brings over 30 years of investment management industry experience to the Board. As was noted in our Semi-Annual report, in March we welcomed Professor Li Jin to the Board. We are confident that the experience and wealth of knowledge that these new directors bring to the board will be of great benefit to the stockholders.

Finally, I wish you all the very best for the holiday season and may you and your family have a prosperous New Year.

Yours sincerely,

Joe O. Rogers

Chairman

INVESTMENT MANAGER'S STATEMENT (Unaudited)

REVIEW OF LISTED AND DIRECT INVESTMENTS

Market Review

China/Hong Kong

In the fourth quarter of 2012, the Chinese and Hong Kong equity markets rose strongly as a result of continued fund inflows and the sharp China on-shore equity rally. Led by the housing market recovery, dissipating effects of destocking and accelerated infrastructure project approvals by the Chinese government since the third quarter of 2012, the Chinese economy showed some early signs of stabilization. Subsequently in the first quarter of 2013, the Chinese and Hong Kong equity markets consolidated.

In the second quarter of 2013, the equity markets suffered a sharp sell-off across the board in late June. Investors were skeptical about the Chinese economy with renewed concerns over a hard landing scenario after weak macroeconomic data. In addition, Chinese domestic short-term liquidity remained very tight after the Dragon Boat festival resulting in a spike of short term inter-bank rates in late June.

However, the markets rebounded in the third quarter of 2013 as investors turned more positive on China, encouraged by the better than expected macroeconomic numbers and on expectations that the meeting of the Communist Party's Central Committee in November would endorse a series of major economic reforms.

Taiwan

Although positive, the Taiwan market was comparatively one of the worst performers in the region for the fourth quarter of 2012. In the domestic market, consumer sentiment and retail sales growth remained weak. However, the export sector showed some improvement in the last quarter of 2012.

Taiwan's import and export growth surged in January 2013, before dropping sharply in February 2013, reflecting the continued external uncertainties of the recovery in China and the European debt crisis. The economy expanded at a faster-than-expected pace in the second quarter of 2013 as domestic consumption improved. However, a slowdown in China was still a major risk to the Taiwan economy as overall external demand remained lackluster.

Early in the third quarter, multiple technology and telecom names weighed negatively on the market. In particular, the technology sector reacted negatively to the globally weak technology sentiment and company specific issues. In the middle of the third quarter, the macroeconomic indicators such as industrial production and gross domestic product came in above market expectations and showed signs of improvement in industrial activity.

Performance

The Fund outperformed its benchmark, the MSCI Golden Dragon index for the year ending October 31, 2013. During this period the Fund posted a 21.38% increase in net asset value per share compared with a 13.27% increase for the index.

INVESTMENT MANAGER'S STATEMENT (continued) (Unaudited)

REVIEW OF LISTED AND DIRECT INVESTMENTS

During the period, the Fund exercised the option to sell the shares for one of our direct investments, China Bright, back to its parent. The proceeds of this sale of approximately US\$30 million was to be paid in three installments with a 15% interest rate per annum. The final installment is to be paid before the end of 2013. The initial investment of US\$15 million was made in August 2010.

With respect to the listed assets, the top contributor was China Everbright International, the share price of which was re-rated as a result of the favorable government policies on environmental protection. The company continued to secure new projects and its revenue stream is becoming increasingly service revenue driven, making it an attractive, high-growth utility. Another key active contributor was Hand Enterprise. The company provides information technology consultation services to corporations and this is a secular growth industry. The company delivered decent growth in sales and profits, which supported the strong performance in share price over the period under review.

On the negative side, Digital China was the top detractor. The stock underperformed on concerns over weak personal computer demand as well as a slowdown in corporate information technology spending, partly due to change in political leadership and worries over an economic downturn in China. However, it is a key beneficiary from the rollout of smart city projects in China.

Outlook

Expectations of reform initiatives will continue to underpin Chinese equities in the short term. While most of the areas of potential reforms have been well anticipated by the market, any upside surprises will have to come from detailed and broad based policies in these reform areas. In particular, the market will react positively to any policy initiatives in reforming the state-owned enterprise sector as well as fostering the development of private enterprises.

In Taiwan, we maintain our view that the second half 2013 will be better than the first one, but we have lowered our expectations on the strength and pace of the recovery, due to weaker than expected domestic consumption and exports. However, Taiwan will still be a major beneficiary from the expected recovery of the US and European economies.

THE CHINA FUND, INC.

NOTES TO FINANCIAL STATEMENTS

OCTOBER 31, 2013

NOTE A SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The China Fund, Inc. (the Fund) was incorporated under the laws of the State of Maryland on April 28, 1992, and is a non-diversified, closed-end management investment company registered under the Investment Company Act of 1940, as amended (the 1940 Act). The Fund's investment objective is long-term capital appreciation which it seeks to achieve by investing primarily in equity securities (i) of companies for which the principal securities trading market is the People's Republic of China (China), (ii) of companies for which the principal securities trading market is outside of China, or constituting direct equity investments in companies organized outside of China, that in both cases derive at least 50% of their revenues from goods and services sold or produced, or have at least 50% of their assets, in China and (iii) constituting direct equity investments in companies organized in China. The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

Use of estimates: The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expenses for the period. Actual results could differ from these estimates. The significant estimates made as of, and for the year ended October 31, 2013, relate to Direct Investments and other Level 3 securities.

Security valuation: Portfolio securities listed on recognized United States or foreign security exchanges are valued at the last quoted sales price in the principal market where they are traded. Listed securities with no such sales price and unlisted securities are valued at the mean between the current bid and asked prices, if any, from brokers. Short-term investments having maturities of sixty days or less are valued at amortized cost (original purchase cost as adjusted for amortization of premium or accretion of discount) which when combined with accrued interest approximates market value. Securities for which market quotations are not readily available or are deemed unreliable are valued at fair value in good faith by or at the direction of the Board of Directors considering relevant factors, data and information including, if relevant, the market value of freely tradable securities of the same class in the principal market on which such securities are normally traded. Direct Investments are valued at fair value as determined by or at the direction of the Board of Directors based on financial and other information supplied by the Direct Investment Manager regarding each Direct Investment. Forward currency contracts are valued at the current cost of offsetting the contract. Equity linked securities are valued at fair value primarily based on the value(s) of the underlying security (or securities), which normally follows the same methodology as the valuation of securities listed on recognized exchanges.

Factors used in determining fair value may include, but are not limited to, the type of security, the size of the holding, the initial cost of the security, the existence of any contractual restrictions on the security's disposition, the price and extent of public trading in similar securities of the issuer or of comparable companies, the availability of quotations from broker-dealers, the availability of values of third parties other than the Investment Manager or Direct Investment Manager, information obtained from the issuer, analysts, and/or the appropriate stock exchange (if available), an analysis of the company's financial statements, an evaluation of the forces that influence the issuer and the market(s) in which the security is purchased and sold and with respect to debt securities, the maturity, coupon, creditworthiness, currency denomination, and the movement of the market in which they trade.

Table of Contents**NOTES TO FINANCIAL STATEMENTS (continued)**

Repurchase Agreements: In connection with transactions in repurchase agreements, it is the Fund's policy that its custodian take possession of the underlying collateral securities, the fair value of which exceeds the principal amount of the repurchase transaction, including accrued interest, at all times. If the seller defaults, and the fair value of the collateral declines, realization of the collateral by the Fund may be delayed or limited.

Securities Lending: The Fund may lend up to 33 1/3% of the Fund's total assets held by State Street Bank and Trust Company (State Street) as custodian to certain qualified brokers, except those securities which the Fund or the Investment Manager specifically identifies as not being available. By lending its investment securities, the Fund attempts to increase its net investment income through the receipt of interest on the loan. Any gain or loss in the market price of the securities loaned that might occur and any interest or dividends declared during the term of the loan would accrue to the account of the Fund. Risks of delay in recovery of the securities or even loss of rights in the collateral may occur should the borrower of the securities fail financially. Risks may also arise to the extent that the value of the collateral decreases below the value of the securities loaned. Upon entering into a securities lending transaction, the Fund receives cash or other securities as collateral in an amount equal to or exceeding 100% of the current market value of the loaned securities with respect to securities of the U.S. government or its agencies, 102% of the current market value of the loaned securities with respect to U.S. securities and 105% of the current market value of the loaned securities with respect to foreign securities. Any cash received as collateral is generally invested by State Street, acting in its capacity as securities lending agent (the Agent), in the State Street Navigator Securities Lending Prime Portfolio. Non-cash collateral is not disclosed in the Funds' Statement of Assets and Liabilities as it is held by the lending agent on behalf of the Fund and the Fund does not have the ability to re-hypothecate those securities. A portion of the dividends received on the collateral is rebated to the borrower of the securities and the remainder is split between the Agent and the Fund.

As of October 31, 2013, the Fund had loaned securities which were collateralized by cash, short term investments, long term bonds and equities. The value of the securities on loan and the value of the related collateral were as follows:

Value of Securities	Value of Cash Collateral	Value of Non-Cash Collateral*	Total Collateral
\$46,708,197	\$ 30,573,681	\$ 23,465,437	\$ 54,039,118

* Fund cannot repledge or dispose of this collateral, nor does the Fund earn any income or receive dividends with respect to this collateral.

Foreign currency translations: The records of the Fund are maintained in U.S. dollars. Foreign currencies, investments and other assets and liabilities are translated into U.S. dollars at the current exchange rates. Purchases and sales of investment securities and income and expenses are translated on the respective dates of such transactions. Net realized gains and losses on foreign currency transactions represent net gains and losses from the disposition of foreign currencies, currency gains and losses realized between the trade dates and settlement dates of security transactions, and the difference between the amount of net investment income accrued and the U.S. dollar amount actually received. The effects of changes in foreign currency exchange rates on investments in securities are not segregated in the Statement of Operations from the effects of changes in market prices of those securities, but are included in realized and unrealized gain or loss on investments. Net unrealized foreign currency gains and losses

Table of Contents

NOTES TO FINANCIAL STATEMENTS (continued)

arise from changes in the value of assets and liabilities, other than investments in securities, as a result of changes in exchange rates.

Forward Foreign Currency Contracts: The Fund may enter into forward foreign currency contracts to hedge against foreign currency exchange rate risks. A forward currency contract is an agreement between two parties to buy or sell currency at a set price on a future date. Upon entering into these contracts, risks may arise from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of the foreign currency relative to the U.S. dollar. The U.S. dollar value of forward currency contracts is determined using forward exchange rates provided by quotation services. Daily fluctuations in the value of such contracts are recorded as unrealized gain or loss on the Statement of Assets and Liabilities. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the value at the time it was opened and the value at the time it was closed. Such gain or loss is disclosed in the realized and unrealized gain or loss on foreign currency in the Fund's accompanying Statement of Operations. At October 31, 2013, the Fund did not hold forward foreign currency contracts.

Option Contracts: The Fund may purchase and write (sell) call options and put options provided the transactions are for hedging purposes and the initial margin and premiums do not exceed 5% of total assets. Option contracts are valued daily and unrealized gains or losses are recorded on the Statement of Assets and Liabilities based upon the last sales price on the principal exchange on which the options are traded. The Fund will realize a gain or loss upon the expiration or closing of the option contract. Such gain or loss is disclosed in the realized and unrealized gain or loss on options in the Fund's accompanying Statement of Operations. When an option is exercised, the proceeds on sales of the underlying security for a written call option, the purchase cost of the security for a written put option, or the cost of the security for a purchased put or call option is adjusted by the amount of premium received or paid.

The risk in writing a call option is that the Fund gives up the opportunity for profit if the market price of the security increases and the option is exercised. The risk in writing a put option is that the Fund may incur a loss if the market price of the security decreases and the option is exercised. The risk in buying an option is that the Fund pays a premium whether or not the option is exercised. Risks may also arise from an illiquid secondary market or from the inability of counter parties to meet the terms of the contract. At the end of the year, the Fund did not hold any option contracts.

Equity-Linked Securities: The Fund may invest in equity-linked securities such as linked participation notes, equity swaps and zero-strike options and securities warrants. Equity-linked securities currently held by the Fund are privately issued securities whose investment results are designed to correspond generally to the performance of a specified stock index or basket of stocks, or a single stock. Equity-linked securities may be used by the Fund to gain exposure to countries that place restrictions on investments by foreigners. To the extent that the Fund invests in equity-linked securities whose return corresponds to the performance of a foreign securities index or one or more foreign stocks, investing in equity-linked securities will involve risks similar to the risks of investing in foreign securities. In addition, the Fund bears the risk that the issuer of any equity-linked securities may default on its obligation under the terms of the arrangement with the counterparty. Equity-linked securities are often used for

Table of Contents**NOTES TO FINANCIAL STATEMENTS (continued)**

many of the same purposes as, and share many of the same risks with, derivative instruments. In addition, equity-linked securities may be considered illiquid.

At October 31, 2013, the Fund held equity-linked securities, in the form of warrants issued by Credit Lyonnais and Citigroup Global Markets Holdings (the Issuers). Under the terms of the agreements, each warrant entitles the Fund to receive from the related Issuer an amount in U.S. dollars linked to the performance of specific equity shares. Under these agreements, the Fund has agreed to pay or provide reimbursement for any taxes imposed on the China A Share investments underlying the equity-linked securities. Non-resident corporate investors in China, such as the Issuers of the equity-linked securities, are subject to a statutory 10% withholding tax on both dividend and interest income sourced from China, absent an applicable tax treaty; however to date China has not implemented procedures to collect the tax. There can be no assurance that in the future China will not implement such procedures and also subject capital gains to taxation. If China does implement such procedures the Fund may be required to pay or reimburse for any taxes that the Issuers of the equity-linked securities became subject to under those procedures.

Direct Investments: The Fund may invest up to 25% of the net proceeds from its offering of its outstanding common stock in direct investments; however, the Board of Directors of the Fund has suspended additional investments in direct investments. Direct investments are generally restricted and do not have a readily available resale market. Because of the absence of any public trading market for these investments, the Fund may take longer to liquidate these positions than would be the case for publicly traded securities. Although these securities may be resold in privately negotiated transactions, the prices on these sales could be less than those originally paid by the Fund. Issuers whose securities are not publicly traded may not be subject to public disclosure and other investor protections requirements applicable to publicly traded securities. The value of these securities at October 31, 2013 was \$6,007,700 or 1.5% of the Fund's net assets. The table below details the acquisition date, cost, and value of the Fund's direct investments as determined by the Board of Directors of the Fund. The Fund does not have the right to demand that such securities be registered.

Security	Acquisition Date(s)	Cost	Value
Golden Meditech Holdings, Ltd.	11/16/2012*	\$ 7,509,916	\$ 6,007,700
Zong Su Foods	09/21/2010	15,000,034	
		\$ 22,509,950	\$ 6,007,700

*The Fund made a direct investment in China Bright in August 2010. This investment included a put option, which the Fund exercised. The acquisition date reflects the date on which Golden Meditech Holdings, Ltd., the primary stockholder of China Bright, paid the first installment of the put price and agreed to pay the balance in two additional installments, one, which has been paid.

Indemnification Obligations: Under the Fund's organizational documents, its Officers and Directors are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, in the normal course of business the Fund enters into contracts that provide general indemnifications to other parties. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred.

Table of Contents

NOTES TO FINANCIAL STATEMENTS (continued)

Security transactions and investment income: Security transactions are recorded as of the trade date. Realized gains and losses from securities sold are recorded on the identified cost basis. Dividend income is recorded on the ex-dividend date, or, in the case of dividend income on foreign securities, on the ex-dividend date or when the Fund becomes aware of its declaration. Interest income is recorded on the accrual basis. All premiums and discounts are amortized/accreted for both financial reporting and federal income tax purposes.

Dividend and interest income generated in Taiwan is subject to a 20% withholding tax. Stock dividends received are taxable at 20% of the par value of the stock dividends received. The Fund records the taxes paid on stock dividends as an operating expense.

Dividends and distributions: The Fund intends to distribute to its stockholders, at least annually, substantially all of its net investment income and any net realized capital gains. Distributions to stockholders are recorded on the ex-dividend date. Income and capital gains distributions are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles. Certain capital accounts in the financial statements are periodically adjusted for permanent differences in order to reflect their tax character. These adjustments have no impact on net assets or net asset value per share. Temporary differences which arise from recognizing certain items of income, expense, gain or loss in different periods for financial statement and tax purposes will reverse at some time in the future. The Board of Directors has determined that if the Fund makes any distributions of capital gains realized during the fiscal year ended October 31, 2013, that distribution will be paid in cash, except with respect to stockholders that have elected to participate in the Fund's dividend reinvestment program.

Federal Taxes: It is the Fund's policy to qualify each year as a regulated investment company under Subchapter M of the Internal Revenue Code, as amended (Code) and to distribute to stockholders each year substantially all of its income. Accordingly, no provision for federal income tax is necessary. As of and during the year ended October 31, 2013, the Fund did not have a liability for any uncertain tax positions. The Fund recognizes interest and penalties, if any, related to tax liabilities as income tax expense in the Statement of Operations. For the previous three years the Fund remains subject to examination by the Fund's major tax jurisdictions, which include the United States of America and the State of Maryland. The Fund may be subject to taxes imposed by governments of countries in which it invests. Such taxes are generally based on either income or gains earned or repatriated. The Fund accrues and applies such taxes to net investment income, net realized gains and net unrealized gains as income and/or gains are earned.

The tax character of distributions the Fund made during the year ended October 31, 2013 was \$5,533,326 from ordinary income and \$46,274,085 from long-term capital gains. For the year ended October 31, 2012 the Fund distributed \$3,969,199 from ordinary income and \$64,294,073 from long-term capital gains.

Tax components of distributable earnings are determined in accordance with income tax regulations which may differ from the composition of net assets reported under GAAP. Accordingly, for the year ended October 31, 2013, the effects of certain differences were reclassified. The Fund increased undistributed net investment income by \$32,615 and decreased accumulated net realized gain by \$32,615. These differences were primarily due to the

Table of Contents

NOTES TO FINANCIAL STATEMENTS (continued)

differing tax treatment of foreign currency. Net assets of the Fund were unaffected by the reclassifications and the calculation of net investment income per share in the Financial Highlights excludes these adjustments.

As of October 31, 2013, the components of distributable earnings on a tax basis were \$6,878,512 of undistributed ordinary income, \$45,069,702 of undistributed capital gains and \$60,329,299 of net unrealized appreciation resulting in a total of \$112,277,513. Permanent book/tax differences relate to foreign currency gains and losses and defaulted bond adjustments.

At October 31, 2013, the cost of investments for federal income tax purposes was \$356,437,197. Gross unrealized appreciation of investments was \$98,322,114 while gross unrealized depreciation of investments was \$38,557,154, resulting in net unrealized appreciation of investments of \$59,764,960.

The Fund recognizes the tax benefits of uncertain tax positions only where the position is more likely than not to be sustained assuming examination by tax authorities. Management has analyzed the Fund's tax positions for the open tax years as of October 31, 2013 and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns for the prior three fiscal years. The Fund identifies its major tax jurisdictions as U.S. Federal, Maryland and China where the Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next twelve months.

NOTE B ADVISORY FEE AND OTHER TRANSACTIONS

RCM Asia Pacific Limited (RCM) is the Investment Manager for the Fund's listed assets (the Listed Assets). RCM receives a fee, computed weekly and payable monthly, at the following annual rates: 0.70% of the first US\$315 million of the Fund's average weekly net assets invested in Listed Assets; and 0.50% of the Fund's average weekly net assets invested in Listed Assets in excess of US\$315 million. RCM is the Investment Manager for the Fund's direct investments. RCM receives a fee computed weekly and payable monthly, at an annual rate of 1.50% of the average weekly value of the Fund's assets invested in direct investments.

No director, officer or employee of the Investment Manager or Direct Investment Manager or any affiliates of those entities will receive any compensation from the Fund for serving as an officer or director of the Fund. The Fund pays the Chairman of the Board and each of the directors (who is not a director, officer or employee of the Investment Manager or Direct Investment Manager or any affiliate thereof) an annual fee of \$35,000 and \$20,000 respectively, plus \$3,000 for each Board of Directors meeting or Audit and Nominating Committee meeting attended and \$3,000 for each telephonic meeting attended. In addition, the Fund will reimburse each of the directors for travel and out-of-pocket expenses incurred in connection with attending Board of Directors meetings.

State Street provides, or arranges for the provision of certain administrative services for the Fund, including preparing certain reports and other documents required by federal and/or state laws and regulations. The Fund pays State Street a fee that is calculated daily and paid monthly at an annual rate based on aggregate average daily assets of the Fund. The Fund also pays State Street an annual fee for certain legal administration services, including corporate secretarial services and preparing regulatory filings.

Table of Contents**NOTES TO FINANCIAL STATEMENTS (continued)**

The Fund has also contracted with State Street to provide custody and fund accounting services to the Fund. For these services, the Fund pays State Street asset-based fees that vary according to the number of positions and transactions plus out-of-pocket expenses.

NOTE C FUND SHARES

At October 31, 2013, there were 100,000,000 shares of \$0.01 par value capital stock authorized, of which 15,682,029 were issued and outstanding.

	For Year Ended October 31, 2013
Shares outstanding at beginning of year	16,169,099
Shares repurchased (See Note D)	(487,070)
Shares outstanding at end of year	15,682,029

NOTE D DISCOUNT MANAGEMENT PROGRAM

On March 15, 2013, the Fund announced that the Board had voted to discontinue the operation of the Fund's Discount Management Program (the Program) effective at the close of business on March 15, 2013. Prior to March 16, 2013, under the Program, the Fund repurchased its common shares in the open market on any day that the Fund's shares were trading at a discount of 8% or more from net asset value the prior day and there was a daily average discount of 8% or more from net asset value over the five-day period ending the prior day. On each day that shares were repurchased, the Fund repurchased its shares to the maximum extent permitted by law. On each day that shares were repurchased, in addition to the limits set forth above, the Fund repurchased shares only at such times that the market price represented a discount of 8% or more from the Fund's closing net asset value on the prior day. Under the program, the Fund was authorized to repurchase in each twelve month period ended October 31 up to 10% of its common shares outstanding as of October 31 of the prior year.

During the year ended October 31, 2013, the Fund repurchased 487,070 of its shares at an average price of \$22.01 per share (including brokerage commissions) at a weighted average discount of 8.62%. These repurchases had a total of cost of \$10,719,839.

NOTE E TENDER OFFER

On March 28, 2012, the Fund announced that the Board had approved in principle a tender offer (the Tender Offer). The Tender Offer commenced on June 22, 2012 and expired on July 23, 2012. The Tender Offer was oversubscribed and, pursuant to the terms of the Tender Offer, tendered shares were accepted for payment on a prorata basis. The Fund accepted 5,662,664 shares for payment on July 24, 2012 at \$23.12 per share, which was equal to 99% of the Fund's net asset value per share as of the close of regular trading on the New York Stock Exchange on July 24, 2012. The 5,662,664 shares totaling \$130,920,792 represented 25% of the Fund's outstanding shares. On a pro rated basis, approximately 45.6% of the shares so tendered were accepted for payment.

NOTE G INVESTMENTS IN CHINA

The Fund's investments in Chinese companies involve certain risks not typically associated with investments in securities of U.S. companies or the U.S. Government, including risks relating to (1) social, economic and political uncertainty; (2) price volatility, lesser liquidity and smaller market capitalization of securities markets in which securities of Chinese companies trade; (3) currency exchange fluctuations, currency blockage and higher rates of inflation; (4) controls on foreign investment and limitations on repatriation of invested capital and on the Fund's ability to exchange local currencies for U.S. dollars; (5) governmental involvement in and control over the economy; (6) risk of nationalization or expropriation of assets; (7) the nature of the smaller, less seasoned and newly organized Chinese companies, particularly in China; and (8) the absence of uniform accounting, auditing and financial reporting standards, practices and disclosure requirements and less government supervision and regulation.

valuation techniques used to develop the measurements of fair value and a discussion of changes in valuation techniques and related inputs during the period. These inputs are summarized in the three broad levels listed below:

Level 1 Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access at the measurement date;

Level 2 Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly, including inputs in markets that are not considered to be active;

Level 3 Inputs that are unobservable.

The following is a summary of the inputs used as of October 31, 2013 in valuing the Fund's investments carried at value:

**REPORT OF INDEPENDENT
REGISTERED PUBLIC ACCOUNTING FIRM**

To the Shareholders and The Board of Directors of

The China Fund, Inc.

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of The China Fund, Inc. (the Fund), as of October 31, 2013 and the related statement of operations for the year then ended, the statements of changes in net assets and the financial highlights for each of the two years in the period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits. The financial highlights for each of the three years in the period ended October 31, 2011 have been audited by other auditors whose report dated December 23, 2011 expressed an unqualified opinion on such financial highlights.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of October 31, 2013, by correspondence with the custodian and brokers or through other appropriate auditing procedures where replies from brokers were unable to be obtained. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provides a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of The China Fund, Inc. as of October 31, 2013, the results of its operations for the year then ended, the changes in its net assets and the financial highlights for each of the two years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

DIVIDENDS AND DISTRIBUTIONS:

SUMMARY OF DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN

The Fund will distribute to stockholders, at least annually, substantially all of its net investment income from dividends and interest earnings and expects to distribute any net realized capital gains annually. Pursuant to the Dividend Reinvestment and Cash Purchase Plan (the "Plan"), adopted by the Fund, each stockholder will automatically be a participant (a "Participant") in the Plan unless Computershare Trust Company, N.A., the Plan Agent, is otherwise instructed by the stockholder in writing, to have all distributions, net of any applicable U.S. withholding tax, paid in cash. Stockholders who do not participate in the Plan will receive all distributions in cash paid by check in U.S. dollars mailed directly to the stockholder by Computershare Trust Company, N.A., as paying agent. Stockholders who do not wish to have distributions automatically reinvested should notify the Fund by contacting Computershare Trust Company, N.A. c/o The China Fund, Inc. at P.O. Box 43078, Providence, Rhode Island 02940-3078, by telephone at 1-800-426-5523 or via the Internet at www.computershare.com/investor.

The Plan will operate whenever a dividend or distribution is declared payable only in cash or in cash or shares of the Fund's common stock, but it will not operate with respect to a dividend or distribution declared payable only in shares of the Fund's common stock (including such a declaration that provides an option to receive cash).

Computershare Trust Company, N.A. ("Computershare" or the "Plan Agent") act as Plan Agent. If the Directors of the Fund declare an income dividend or a capital gains distribution payable either in the Fund's Common Stock or in cash, non-participants in the Plan will receive cash and participants in the Plan will receive Common Stock. The shares of common stock issued by the Fund will be valued at net asset value or, if the net asset value is less than 95% of the market price on the valuation date, then shares will be valued at 95% of the market price. If the net asset value per share of the common stock on the valuation date exceeds the market price, participants will be issued shares at market price. The valuation date will be the dividend or distribution payment date or, if that date is not a trading day on the exchange on which the Fund's shares are then listed, the next preceding trading day. If the Fund should declare a dividend or capital gains distribution payable only in cash, the Plan Agent will, as purchasing agent for the participants, buy shares of common stock in the open market, on the New York Stock Exchange or elsewhere, with the cash in respect of such dividend or distribution, for the participant's accounts on, or shortly after, the payment date.

Participants in the Plan have the option of making additional payments to the Plan Agent annually, in any amount from \$100 to \$3,000 for investment in the Fund's Common Stock. The Plan Agent will use all funds received from participants (as well as any dividends and capital gains distributions received in cash) to purchase Fund shares in the open market on January 15 of each year or the next trading day if January 15th is not a trading day. Participants may make voluntary cash payments by sending a check (in U.S. dollars and drawn on a U.S. Bank) made payable to Computershare along with a completed transaction form which is attached to each statement a Participant receives. The Plan Agent will not accept cash, traveler's checks, money orders or third party checks. Any voluntary cash payments received more than thirty-five days prior to such date will be returned by the Plan Agent, and interest will not be paid on any such amounts. To avoid unnecessary cash accumulations, and also to allow ample time for receipt and processing by the Plan Agent, participants should send in voluntary cash payments to be received by the Plan Agent approximately two days before January 15. A participant may withdraw a voluntary cash payment by written notice, if the notice is received by the Plan Agent not less than 48 hours before such payment is to be

invested. In the event that a Participant's check for a voluntary cash payment is returned unpaid for any reason, the Plan Agent will consider the request for investment of such funds null and void, and shall immediately remove from the Participant's account those shares, if any, purchased upon the prior credit of such funds. The Plan Agent shall be entitled to sell shares to satisfy any uncollected amount plus any applicable fees. If the net proceeds of the sale of such shares are insufficient to satisfy the balance of such uncollected amounts, the Plan Agent shall be entitled to sell such additional shares from the Participant's account as may be necessary to satisfy the uncollected balance.

The Plan Agent will confirm in writing, each trade for a Participant's account and each share deposit or share transfer promptly after the account activity occurs. The statement will show the number of shares held, the number of shares for which dividends are being reinvested, any cash received for purchase of shares, the price per share for any purchases or sales, and any applicable fees for each transaction charged the Participant. In the event the only activity in a Participant's account is the reinvestment of dividends, this activity will be confirmed in a statement on at least a quarterly basis. If the Fund pays an annual dividend and the only activity in a Participant's account for the calendar year is the reinvestment of such dividend, the Participant will receive an annual statement. These statements are a Participant's continuing record of the cost basis of purchases and should be retained for income tax purposes.

The Plan Agent will hold shares of common stock acquired pursuant to the Plan in non-certificated form in the name of the Participant for whom such shares are being held and each Participant's proxy will include those shares of common stock held pursuant to the Plan. The Plan Agent will forward to each Participant any proxy solicitation material received by it. In the case of stockholders, such as banks, brokers or nominees, which hold shares for others who are the beneficial owners, the Plan Agent will administer the Plan on the basis of the number of shares certified from time to time by the stockholder as representing the total amount registered in the name of such Participants and held for the account of beneficial owners who participate in the Plan. Upon a Participant's Internet, telephone or written request, the Plan Agent will deliver to her or him, without charge, a certificate or certificates representing all full shares of common stock held by the Plan Agent pursuant to the Plan for the benefit of such Participant.

Participants will not be charged a fee in connection with the reinvestment of dividends or capital gains distributions. The Plan Agent's transaction fees for the handling of the reinvestment of dividends and distributions will be paid by the Fund. However, Participants will be charged a per share fee (currently \$0.05) incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of dividends or capital gains distributions and with purchases from voluntary cash payments made by the Participant. A \$2.50 transaction fee and a per share fee of \$0.15 will also be charged by the Plan Agent upon any request for sale. Per share fees include any brokerage commissions the Plan Agent is required to pay.

The automatic reinvestment of dividends and distributions will not relieve participants of any income tax which may be payable on such dividends and distributions. Participants will receive tax information annually for their personal records and to help them prepare their federal income tax return. For further information as to tax consequences of participation in the Plan, Participants should consult with their own tax advisors.

SUMMARY OF DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN (continued)

These terms and conditions may be amended or supplemented by the Plan Agent or the Fund at any time or times but, except when necessary or appropriate to comply with applicable law or the rules or policies of the Securities and Exchange Commission or any other regulatory authority, only by mailing to the Stockholders appropriate written notice at least 30 days prior to the effective date thereof. The amendment or supplement shall be deemed to be accepted by the Participants unless, prior to the effective date thereof, the Plan Agent receives written notice of the termination of a Participant's account under the Plan. Any such amendment may include an appointment by the Plan Agent in its place and stead of a successor Plan Agent under these terms and conditions, with full power and authority to perform all or any of the acts to be performed by the Plan Agent under these terms and conditions. Upon any such appointment of a successor Plan Agent for the purposes of receiving dividends and distributions, the Fund will be authorized to pay to such successor Plan Agent, for the Participants' accounts, all dividends and distributions payable on the shares of common stock held in the Participants' name or under the Plan for retention or application by such successor Plan Agent as provided in these terms and conditions.

Requests for copies of the Plan, which sets forth all of the terms of the Plan, and all correspondence concerning the Plan should be directed to Computershare Trust Company, N.A., the Plan Agent for The China Fund, Inc., in writing at P.O. Item 8. Portfolio Managers of Closed-End Management Investment Companies.

(a)(1) As of October 31, 2013, the portfolio manager of the registrant is as follows:

Christina Chung

**RCM Asia Pacific Limited (RCM)
Managing Director, Senior Portfolio Manager**

Investment experience: 24 Years

Christina joined RCM in 1998 and has been a managing director since January 2010. She is head of the Greater China Equity Team and lead manager of the Hong Kong, China, China A-shares and Greater China equity mandates. The Hong Kong and China Funds that she manages have won industry recognition and awards for consistent strong performance. She has 24 years' experience in managing Asian regional and single country portfolios for both institutional and retail accounts. Before joining the Group, she was a senior portfolio manager with Royal Bank of Canada Investment Management. Prior to that, she was a portfolio manager with Search International and an economist with HSBC Asset Management. Christina was educated in Canada. She attained a Bachelor of Administration from Brock University, followed by an M.A. in Economics from the University of Alberta. She became a Certified Management Accountant in 1992 and qualified as a chartered financial analyst, AIMR, in 1995.

(a)(2)

Christina Chung

As of October 31, 2013, Ms. Chung managed and advised ten mutual funds with a total of approximately US\$2,129.61 million in assets and 13 other accounts with a total of approximately US\$1,773.47 million in assets. Of these other accounts, two accounts, with a total of approximately US\$216.82 million in assets, are entitled to performance based fees.

Ms. Chung is also the co-manager of two other accounts with a total of approximately US\$366.28 million in assets.

Conflicts of Interest:

Equitable treatment of client monies is a fundamental principle of RCM's investment management business. RCM believes that the management of potential conflicts of interest is germane to the business, regardless of its client mix and fund types.

Table of Contents

Ms. Chung's simultaneous management of the Fund and the other accounts noted above may present actual or apparent conflicts of interest with respect to the allocation and aggregation of securities orders placed on behalf of the Fund and the other accounts. RCM has adopted procedures and methodology to demonstrate effective conflict management. It believes that sufficient controls, policies and systems are in place to address such conflicts.

Its suite of compliance and investment policies are designed to address those practices within RCM that could cause conflicts of interest across all client funds. RCM has policies, systems and controls in place to identify potential conflicts between itself and its clients, as well as between one client and another, to achieve consistent treatment of conflicts of interest throughout its business. It aims to manage conflicts of interest that may arise with an aim, as far as practicable, that such conflicts do not adversely affect the interests of its clients.

RCM reviews its internal policies regularly and will notify clients of any material changes, as and when they occur.

Compensation:

RCM's compensation system is designed to support our corporate values and culture. While RCM acknowledges the importance of financial incentives and seek to pay top quartile remuneration for top quartile performance, it also believes that compensation is only one of a number of critically important elements that allow the emergence of a strong, winning culture that attracts, retains and motivates talented investors and teams.

The primary components of compensation are the base salary and an annual discretionary variable compensation payment. This variable compensation component typically comprises a cash bonus that pays out immediately as well as a deferred component, for members of staff whose variable compensation exceeds a certain threshold. The deferred component for most recipients would be a notional award of the Long Term Incentive Programme (LTIP); for members of staff whose variable compensation exceeds an additional threshold, the deferred compensation is itself split 50%/50% between the aforementioned LTIP and a Deferral into Funds programme (DIF). Currently, the marginal rate of deferral of the variable compensation can reach 42% for those in the highest variable compensation bracket. Overall awards, splits and components are regularly reviewed to ensure they meet industry best practice and, where applicable, at a minimum comply with regulatory standards.

Base salary typically reflects scope, responsibilities and experience required in a particular role, be it on the investment side or any other function in our company. Base compensation is regularly reviewed against peers with the help of compensation survey data. Base compensation is typically a greater percentage of total compensation for more junior positions, while for the most senior roles it will be a comparatively small component, often capped and only adjusted every few years.

Discretionary variable compensation is primarily designed to reflect the achievements of an individual against set goals, over a certain time period. For an investment professional these goals will typically be 70% quantitative and 30% qualitative. The former will reflect a weighted average of investment performance over a three-year rolling time period (one-year (25%) and three year (75%) results) and the latter reflects contributions to broader team goals, contributions made to client review meetings, product development or product refinement initiatives. Portfolio managers have their performance metric aligned with the benchmarks of the client portfolios they manage.

Table of Contents

The LTIP element of the variable compensation, cliff vests three years after each (typically annual) award. Its value is directly tied to the operating result of Allianz Global Investors over the three year period of the award.

The DIF element of the variable compensation, cliff vests three years after each (typically annual) award and enables these members of staff to invest in a range of Allianz Global Investors funds (Investment Professionals are encouraged to invest into their own funds or funds where they may be influential from a research or product group relationship perspective). Again, the value of the DIF awards is determined by the growth of the fund(s) value over the three year period covering each award.

Assuming an annual deferral of 33% over a three year period, a typical member of staff will have roughly one year's variable compensation (3x33%) as a deferred component in the bank. Three years after the first award, and for as long as deferred components were awarded without break, cash payments in each year will consist of the annual cash bonus for that current year's performance as well as a pay-out from LTIP/DIF commensurate with the prior cumulative three-year performance.

There exists a small number of revenue sharing arrangements that generate variable compensation for specialist investment teams, as well as commission payments for a limited number of members of staff in distribution. These payments are subject to the same deferral rules and deferred instruments as described above for the discretionary compensation scheme.

Ownership of Securities: The following table sets forth, for each portfolio manager, the aggregate dollar range of the registrant's equity securities beneficially owned as of October 31, 2013.

The Fund implemented a Discount Management Program (the Program) in June 2012. Under the Program, the Fund is authorized to repurchase in each twelve-month period ending October 31 up to 10% of its common shares outstanding as of October 31 of the prior year. All of the purchases listed above were under the Program. The Program terminated as of March 15, 2013.

Item 10. Submission of Matters to a Vote of Security Holders.

There have been no material changes to the procedures by which shareholders may recommend nominees to the registrant's Board of Directors during the period covered by this Form N-CSR filing.

Item 11. Controls and Procedures.

- (a) The registrant's principal executive and principal financial officers have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the 1940 Act) (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of this Form N-CSR based on their evaluation of these controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the 1934 Act (17 CFR 240.13a-15(b) or 240.15d-15(b)).

- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d))) that occurred during the registrant's second fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.
