EXECUTIVE COMPENSATION PROGRAMS

Our Executive Compensation Programs are Designed to Attract and Retain Talent and Align the Interests of Our Executives with Our Shareholders By Paying for Performance

Our compensation philosophy is to provide market-competitive programs, with pay directly linked to the achievement of short- and long-term business results.

The Compensation Committee has a practice of reviewing the program components, targets and payouts on an annual basis, to ensure the strength of our pay for performance alignment. Our performance is evaluated against short-term goals that support the Company's long-term business strategy and long-term goals that measure the creation of long-term shareholder value.

Our Executive Compensation Programs Incorporate Strong Governance Features

Committee assesses the pay and performance alignment of our incentive plans

Long-term and short-term awards are performance-based

No single-trigger benefits on change of control and no excise tax gross ups

Clawback policy in place for all NEOs
Stock ownership guidelines for named executive officers (or NEOs) and independent directors

The Compensation Committee has engaged an independent compensation consultant

Limited perquisites and no income tax gross ups

The Company received strong shareholder support for its Fiscal 2013 executive compensation program with 98% of votes cast approving our advisory resolution in June 2013. As in prior years, the Committee considered this input from our shareholders as well as input from other stakeholders as part of its annual review of the executive compensation program. Following this review and based on the Committee's assessment of the program, the Compensation Committee continued to apply the same principles in determining the amounts and types of executive compensation for Fiscal 2014.

Please see the Compensation Discussion and Analysis section beginning on page 29 of this Proxy Statement for a detailed description of our executive compensation.

Table of Contents**Proposal 2: Appointment of Independent Auditor** *(Item 2 on the Proxy Card)*

Proposal 2 is to appoint KPMG LLP (KPMG) as independent auditor to the Company until the end of the next Annual General Meeting and to authorize the Audit Committee of the Board to determine its compensation.

The Audit Committee has selected KPMG, the U.S. member firm of KPMG International, as the independent registered public accounting firm to audit the Company's financial statements and effectiveness of internal control over financial reporting of the Company until the end of the Company's Annual General Meeting in 2015. While the Shareholders are required to appoint the independent auditor pursuant to Bermuda law, the Audit Committee is responsible for recommending which independent auditors should be appointed.

A representative of KPMG will be in attendance at the Annual General Meeting to respond to appropriate questions raised by Shareholders and will be afforded the opportunity to make a statement at the Meeting, if he or she desires to do so.

FEES AND SERVICES OF KPMG

The Audit Committee has adopted a policy requiring advance approval of the Company's independent registered public accounting firm's fees and services by the Audit Committee. The Audit Committee reviews all approved services and fees at subsequent meetings. This policy also prohibits the Company's independent registered public accounting firm from performing certain non-audit services for the Company including: (i) bookkeeping, (ii) systems design and implementation, (iii) appraisals or valuations, (iv) actuarial services, (v) internal audit, (vi) management or human resources services, (vii) investment advice or investment banking, (viii) legal services and (ix) expert services unrelated to the audit. All fees paid by the Company to KPMG for Fiscal 2014 and Fiscal 2013 as shown in the table below were approved by the Audit Committee pursuant to this policy.

The following table presents fees for professional audit services provided by KPMG for Fiscal 2014 and for the fiscal year ended February 2, 2013 (Fiscal 2013) for their respective audits of the Company's consolidated financial

statements and the effectiveness of internal control over financial reporting for Fiscal 2014 and Fiscal 2013, and for their respective reviews of the Company's unaudited condensed consolidated interim financial statements. Proposal 3: Vote to Approve, on a Non-Binding Advisory Basis, the Compensation of Named Executive Officers as Disclosed in the Proxy Statement *(Item 3 on the Proxy Card)*

Shareholders are being asked to vote, on a non-binding advisory basis, on the compensation of our named executive officers, as disclosed pursuant to the compensation disclosure rules of the SEC, including the Compensation Discussion and Analysis (CDA), the Fiscal 2014 Summary Compensation Table and related tables and narrative discussion contained in this Proxy Statement.

EXPLANATION

Our Board of Directors recognizes the interest our Shareholders have in the compensation of our executives. In recognition of that interest and as required by the Dodd-Frank Act, we are providing our Shareholders with the opportunity to cast a vote, on a non-binding advisory basis, on the compensation of our named executive officers as disclosed pursuant to the compensation disclosure rules of the SEC as set forth in this Proxy Statement (also referred to as Say-on-Pay).

As described in our CDA, Signet's compensation philosophy has been designed to deliver competitive total compensation upon the achievement of annual and long-term financial goals that will attract, motivate and retain leaders who will drive the creation of Shareholder value. Total compensation is targeted at approximately the median of a customized group of comparator companies.

The Committee believes that our executive compensation programs, executive officer pay levels and individual pay actions approved for our executive officers, including our named executive officers, are directly aligned with our executive compensation philosophy, fully support its goals and provide an appropriate balance between risk and incentives. (Shareholders are urged to read the CDA section of this Proxy Statement, which discusses in greater detail how our compensation policies and procedures implement our executive compensation philosophy.)

We are asking our Shareholders to indicate their support for our named executive officer compensation as described in this Proxy Statement. This vote is not intended to address any specific item of compensation, but rather the overall compensation of our named executive officers and the philosophy, policies and practices described in this Proxy Statement. Accordingly, we will ask our Shareholders to vote FOR the following resolution at the Annual General Meeting:

RESOLVED, that the compensation paid to Signet's named executive officers, as disclosed pursuant to Item 402 of Regulation S-K, including the Compensation Disclosure and Analysis, compensation tables and narrative discussion is hereby APPROVED.

Shareholders should note that the vote is advisory and not binding on the Company and its Board of Directors or Compensation Committee. Our Board of Directors and Compensation Committee value the opinion of our Shareholders, and to the extent there is any significant vote against the named executive officer compensation as disclosed in our Proxy Statement, we will consider our Shareholders' concerns and the Compensation Committee will evaluate whether any actions are necessary to address those concerns.

THE BOARD OF DIRECTORS RECOMMENDS THAT SHAREHOLDERS VOTE "FOR" THE APPROVAL OF THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS AS DISCLOSED PURSUANT TO THE COMPENSATION DISCLOSURE RULES OF THE U.S. SECURITIES AND EXCHANGE COMMISSION.

Proposal 4: Re-Approval of the Material Terms of the Performance Goals Under the Signet Jewelers Limited Omnibus Incentive Plan *(Item 4 on the Proxy Card)*

Shareholders are being asked to vote to re-approve the material terms of the performance goals under the Signet Jewelers Limited Omnibus Incentive Plan that was previously approved by shareholders on June 16, 2009.

Background

On March 23, 2009, the Board adopted and the shareholders subsequently approved the Signet Jewelers Limited Omnibus Incentive Plan (the Omnibus Plan), including the list of potential performance goals and related provisions set forth in such plan for awards that are intended to qualify for the performance-based compensation exception to Section 162(m) of the Internal Revenue Code of 1986 (the Code) (Section 162(m)). The Board is asking the shareholders to re-approve the material terms of the performance goals under the Omnibus Plan. For purposes of Section 162(m) and this Proposal 4, the material terms of the performance goals under the Omnibus Plan include: (1) the employees eligible to receive compensation; (2) a description of the business criteria on which the performance goals are based; and (3) the maximum amount of compensation that could be paid to any employee under the Omnibus Plan during a specified period if the performance goals are satisfied. This proposal does not seek any amendment of the existing provisions of, or performance goals contained within, the Omnibus Plan. Rather, this proposal is being presented to shareholders solely to address the periodic approval requirements of Section 162(m) described below.

A copy of the Omnibus Plan, which is identical to the version approved by shareholders in Fiscal 2010, is attached to this Proxy Statement as Exhibit A. The description of the Omnibus Plan herein is qualified in its entirety by the actual terms of the Omnibus Plan, as set forth in Exhibit A. Shareholders are urged to read the Omnibus Plan before determining how to vote on this Proposal.

Section 162(m) Approval

Section 162(m) imposes an annual deduction limit of \$1 million on the amount of compensation paid to each of the principal executive officer and the next three most highly compensated employees (other than the principal financial officer). The deduction limit does not apply to performance-based compensation that satisfies the requirements of Section 162(m). Section 162(m) requires generally that (1) amounts

be paid pursuant to an objective formula; (2) the compensation committee certifies that the performance goals in the formula have been satisfied; and (3) the shareholders approve the material terms of the Plan. The material terms of the performance goals of the Omnibus Plan were previously approved by the shareholders in Fiscal 2010 and the Omnibus Plan preserved the authority of the Compensation Committee to change the targets under a performance goal.

Section 162(m) provides that if a compensation committee has authority to change the targets under a performance goal after shareholder approval of the material terms of the performance goals, then the material terms of the performance goals must be disclosed to and re-approved by shareholders no later than the first shareholder meeting that occurs in the fifth year following the year in which shareholders previously approved the material terms of the performance goals. Shareholder approval of this Proposal is intended to constitute re-approval of the material terms of the performance goals under the Omnibus Plan for purposes of the approval requirements of Section 162(m).

There have been no changes to the material terms of the performance goals under the Omnibus Plan since the approval of such goals by the Shareholders in Fiscal 2010. In order to continue to provide the Company with the ability to grant performance-based compensation awards under the Omnibus Plan, the Company is submitting the material terms of the performance goals of the Omnibus Plan to the Shareholders for re-approval.

Purpose of the Omnibus Plan

Edgar Filing: SIGNET JEWELERS LTD - Form PREM14A

The Omnibus Plan is intended to attract, retain and motivate officers, employees, and non-employee directors providing services to the Company, any of its subsidiaries or affiliates and to promote the success of the Company's business by providing the participants with appropriate incentives.

New Plan Benefits

The benefits or amounts that individuals will receive in the future under the Omnibus Plan are not determinable. In Fiscal

Table of Contents

2014, the named executive officers were granted awards as set forth in the Grants of Plan-Based Awards table on page 41 of this Proxy Statement. In Fiscal 2014, the executive officers as a group were granted awards for 171,261 shares (consisting of 57,087 time-based restricted shares and 114,174 performance-based restricted share units), non-executive officer employees as a group were granted awards for 153,699 shares (consisting of 51,233 time-based restricted shares and 102,466 performance-based restricted share units), and non-employee directors as a group were granted awards for 14,313 shares.

Omnibus Plan Description

Administration

The Omnibus Plan is administered by the Compensation Committee, or any other committee designated by the Board. The Compensation Committee has broad discretion and authority to interpret and administer the Omnibus Plan, select individuals to receive awards, determine the type and amount of awards and the terms and conditions of each award, and waive or modify any terms or conditions of any award, in each case, subject to certain limitations set forth in the Omnibus Plan and below (see *Amendment and Termination*). To the extent applicable, the Compensation Committee shall have at least two members, each of whom is intended to constitute an outside director within the meaning of Section 162(m), a non-employee director within the meaning of Rule 16b-3 of the Exchange Act and an independent director within the meaning of the listing requirements of any exchange on which the Company is listed. All actions taken and all interpretations and determinations made by the Compensation Committee or by the Board in respect of the Omnibus Plan shall be final and binding upon all interested individuals.

Eligibility

Officers, employees and directors of the Company, its subsidiaries and affiliates who are selected from time to time by the Compensation Committee may be granted awards under the Omnibus Plan. The receipt of an award in one year under the Omnibus Plan will not confer upon any individual the right to receive additional awards in any other year. As of April 29, 2014, the Company had approximately 350 officers and employees, and 10 directors who were eligible to receive awards under the Omnibus Plan. At this time, the number of officers, employees and directors that will participate in the Omnibus Plan cannot be determined precisely, nor can the benefits or amounts that will be received by or allocated to participating employees, officers and directors.

Shares Subject to Omnibus Plan

Subject to adjustment upon certain corporate events described below, the total number of Common Shares (or shares) that may be issued to participants under the Omnibus Plan is 7,000,000 shares. As of April 29, 2014, 5,529,997 shares remain available to be awarded, plus any additional shares underlying outstanding awards that may again become available for award pursuant to the terms of the Omnibus Plan.

Maximum Awards

The maximum number of shares with respect to awards denominated in shares that may be granted to any participant in any fiscal year of the Company is 1,300,000 shares (subject to permissible adjustments under the Omnibus Plan), and the maximum value of cash payable with respect to awards denominated in cash or property that may be granted to any participant in any fiscal year of the Company is \$5,000,000 (subject to permissible adjustments under the Omnibus Plan). The Omnibus Plan enables the grant of stock options, stock appreciation rights, restricted stock, other stock-based awards (including, without limitation, restricted stock units and phantom awards) and performance-based compensation. Under the Omnibus Plan, the fair market value of a share generally means, as of any date (and in accordance with applicable provisions of Section 409A of the Code), the average of the high and low trading price on the New York Stock Exchange or any other recognized stock exchange or any established over-the-counter trading system on which dealings take place or, in the absence of such an established market, the fair market value shall be determined by the Compensation Committee in good faith.

Stock Options and Stock Appreciation Rights

A stock option granted under the Omnibus Plan permits a participant to buy from the Company a stated number of shares at a stated exercise price. Stock options awarded under the Omnibus Plan may be nonqualified stock options or incentive stock options. An incentive stock option is a stock option intended to meet the requirements of Sections 421 and 422 of the Code, and a nonqualified stock option is any stock option that is not an incentive stock option. Stock appreciation rights entitle a participant to receive an amount (in cash or shares or a combination of cash and shares) by which the fair market value of a specified number of shares on the exercise date exceeds the grant price established by the

Edgar Filing: SIGNET JEWELERS LTD - Form PREM14A

Compensation Committee. Stock appreciation rights may be awarded either alone or in tandem with stock options. The Compensation Committee will set the exercise or grant price at the time of grant, which will be no less than the fair market value of a

Notice of Annual General Meeting of Shareholders and 2014 Proxy Statement 15

share as of the date of grant (or, in the case of an incentive stock option granted to a ten percent shareholder, not less than 110% of the fair market value of a share on the date of grant). Stock options and stock appreciation rights granted under the Omnibus Plan will be subject to other terms and conditions as determined by the Compensation Committee, including vesting restrictions (such as time vesting and/or performance vesting), term, and exercisability. No stock option or stock appreciation right shall have a term of more than ten years from the date of grant.

Restricted Stock

A restricted stock award is a grant of a specified number of shares to the participant, which shares are subject to forfeiture upon certain events, including without limitation termination of employment under certain circumstances during the restricted period and/or failure to meet performance goals. The Compensation Committee will fix the terms and conditions applicable to awards of restricted stock (including number of shares, conditions under which restricted stock may be forfeited, voting rights, dividend rights and any other terms and conditions that the Compensation Committee may determine). The period that the restricted stock is generally subject to forfeiture shall be no less than three years for restricted stock with time-based vesting and no less than one year for restricted stock with performance-based vesting. However, up to 10% of shares available for issuance under the Omnibus Plan may be granted pursuant to restricted stock and other stock-based awards absent any minimum vesting period.

Other Stock-Based Awards

The Compensation Committee may grant awards that are valued by reference to, or are otherwise based on, the fair market value of shares. The Compensation Committee shall determine terms and conditions of such awards, including the right to receive one or more shares (or the equivalent cash value of such shares) upon the completion of a specified period of service, the occurrence of an event, and/or the attainment of performance objectives. The period that such awards are generally subject to vesting shall be no less than three years for an award with time-based vesting and no less than one year for an award with performance-based vesting. However, up to 10% of shares available for issuance under the Omnibus Plan may be granted pursuant to restricted stock and other stock-based awards absent any minimum vesting period.

Performance Goals

The Compensation Committee may structure any award under the Omnibus Plan to qualify as qualified performance-based compensation within the meaning of Section 162(m) so that the Company may generally deduct amounts paid to participants pursuant to such awards. Stock options and stock appreciation rights awarded under the Omnibus Plan are expected to qualify as performance-based compensation under Section 162(m). For any other award to so qualify, it shall be granted in accordance with Section 162(m), including, without limitation, that vesting, crediting and/or payment shall be conditioned on achievement of objective performance goals established by the Compensation Committee not later than 90 days after the commencement of a performance period (but in no event after 25% of the performance period has elapsed) and at a time the outcome of such performance goals is substantially uncertain, and that the Compensation Committee shall certify in writing that the performance goals or other material terms have been satisfied prior to vesting, crediting, and/or payment, as applicable, of any award.

The performance goals shall be based on one or more of the following criteria set forth in the Omnibus Plan: (i) consolidated earnings before or after taxes (including earnings before interest, taxes, depreciation and amortization); (ii) net income; (iii) operating income; (iv) earnings per share; (v) book value per share; (vi) return on shareholders' equity; (vii) expense management; (viii) return on investment; (ix) improvements in capital structure; (x) profitability of an identifiable business unit or product; (xi) maintenance or improvement of profit margins; (xii) stock price; (xiii) market share; (xiv) revenues or sales; (xv) costs; (xvi) cash flow; (xvii) working capital; (xviii) return on assets; (xix) store openings and refurbishment plans; (xx) staff training; and (xxi) corporate social responsibility policy implementation. The foregoing criteria may be (i) used to measure the performance of the Company and/or any of its subsidiaries or affiliates as a whole, any business unit thereof or any combination thereof against any goal including past performance or (ii) compared to the performance of a group of comparable companies or a published or special index, in each case that the Compensation Committee, in its sole discretion, deems appropriate. Subject to Section 162(m), the Compensation Committee may adjust the performance goals (including to prorate goals and payments for a partial Signet fiscal year) in the event of non-recurring events, mergers and acquisitions and financing transactions.

Table of Contents

Adjustments

In the event of any corporate event or transaction involving the Company, its subsidiary, and/or its affiliate such as a merger, consolidation, reorganization, recapitalization, separation, stock dividend, stock split, reverse stock split, split up, spin-off, combination of shares, exchange of shares, dividend in kind, amalgamation, or other like change in capital structure (other than normal cash dividends), or any similar corporate event or transaction, the Compensation Committee shall make any appropriate adjustments or substitutions to awards to prevent dilution or enlargement of the benefits or potential benefits available under the Omnibus Plan. The Compensation Committee shall substitute or adjust, in its sole discretion, the number and kind of shares or other property that may be issued under the Omnibus Plan or under awards, the number and kind of shares or other property subject to outstanding awards, the exercise or grant price applicable to outstanding awards, the annual award limits, and/or other value determinations applicable to the Omnibus Plan or outstanding awards.

Change of Control

If a Change of Control (as defined in the Omnibus Plan) occurs, unless otherwise prohibited by applicable law, or unless the Compensation Committee otherwise shall determine in an award agreement, the Compensation Committee may (but is not required to) make adjustments in the terms of outstanding awards, such as: (i) continuation or assumption by the surviving company or its parent; (ii) substitution by the surviving company or its parent of awards with substantially the same terms; (iii) accelerated exercisability, vesting and/or lapse of restrictions immediately prior to the occurrence of such event; (iv) upon written notice, provision for mandatory exercise of any outstanding awards, to the extent then exercisable, during a certain period (contingent on the consummation of the Change of Control) at the end of which the awards terminate; and (v) cancellation of all or any portion for fair value (as determined by the Compensation Committee). While it is the Compensation Committee's intention in the event of a Change of Control to make adjustments in the terms of outstanding awards in accordance with (i) and (ii) above, as the Compensation Committee is unable to predict the exact circumstance of any Change of Control, it is considered prudent to reserve to itself the discretion of considering alternatives (iii), (iv) and (v) if the circumstances warrant it.

Amendment and Termination

The Compensation Committee may amend or terminate the Omnibus Plan or any award at any time. However, no such

amendment or termination generally can be made (other than under circumstances specified in the Omnibus Plan) (i) without shareholder approval (A) if such approval is necessary to comply with any tax or regulatory requirement applicable to the Omnibus Plan, (B) if such amendment or termination increases the number of shares available under the Omnibus Plan, (C) if such amendment or termination results in a material increase in benefits permitted under the Omnibus Plan (but excluding increases that are immaterial and to benefit the administration of the Omnibus Plan, to take account of any changes in legislation, or to obtain or maintain favorable tax or regulatory treatment) or a change in eligibility requirements under the Omnibus Plan, or (D) for any amendment or termination that results in a reduction of the exercise price per share of any outstanding options or stock appreciation rights or cancellation of any outstanding options or stock appreciation rights in exchange for cash or for other awards with an exercise price per share that is less than such price of the original options or stock appreciation rights and (ii) without the written consent of the affected participant if such amendment or termination would materially diminish the rights of such participant under an outstanding award. However, the Compensation Committee may amend or terminate the Omnibus Plan or an award absent the consent of any participant to comply with applicable laws. Unless sooner terminated by the Compensation Committee, the Omnibus Plan shall terminate on the tenth anniversary of the date of its adoption by the Board.

Awards to Non-U.S. Employees or Directors

In order to comply with the laws in countries other than the U.S. in which the Company or any of its subsidiaries or affiliates operates or has employees or directors, the Compensation Committee, in its sole discretion, may grant awards to employees or directors in such countries that comply with applicable law and any necessary or advisable regulatory exemptions or approvals.

Other Terms

The Omnibus Plan and each award agreement shall be governed by the laws of the State of New York. Unless otherwise determined by the Compensation Committee, an award shall not be transferable or assignable by the participant except in the event of his death (subject to the applicable laws of descent and distribution). In any case, no transfer will be permitted for value or consideration. Each participant waives all and any rights to compensation or damages in consequence of the termination of his service with the Company, its subsidiary or its affiliate for any

reason whatsoever, whether lawfully or otherwise, insofar as those

Table of Contents

rights arise or may arise from his ceasing to have rights under the Omnibus Plan as a result of such termination, or from the loss or diminution in value of such rights. The Omnibus Plan is not funded and is not subject to any provision of the Employee Retirement Income Security Act of 1974, as amended, nor is it a qualified employee benefit plan under Section 401(a) of the Code.

Federal Income Tax Consequences for Awards Granted Pursuant to the Omnibus Plan

The following is a brief summary of the current material US federal income tax consequences that will generally apply to participants who are granted awards under the Omnibus Plan and are subject to US income tax. This summary does not describe state, local or foreign tax consequences or any tax consequences related to awards other than stock options, stock appreciation rights, restricted stock or other stock-based awards. Because the US federal income tax rules governing awards are subject to change and depend on individual circumstances, **participants should consult their tax advisors before receiving or exercising awards or disposing of stock acquired pursuant to awards.**

Nonqualified Stock Options and Stock Appreciation Rights. A participant will not recognize any income at the time a nonqualified stock option or stock appreciation right is granted, and the Company will not be entitled to a deduction at that time. When a nonqualified stock option or a stock appreciation right is exercised, the participant will recognize ordinary income in an amount equal to the excess of the fair market value of the shares received as of the date of exercise over the exercise price. The Company will generally be entitled to a tax deduction with respect to a nonqualified stock option or stock appreciation right at the same time and in the same amount as the participant recognizes income, subject to the possible limitations on deductibility under Sections 280G and 162(m) of the Code for compensation paid to executives designated in those Sections. The participant's subsequent disposition of the shares generally will give rise to capital gain or loss equal to the difference between the (i) sale price and (ii) the sum of the exercise price the participant paid for the shares, plus the ordinary income the participant recognized upon exercise. Such capital gain (or loss) will be taxable as long-term capital gain (or loss) if the participant has held the shares for more than one year following exercise, and short-term capital gain (or loss) if the participant has held the shares for one year or less following exercise.

Incentive Stock Options. Incentive stock options (ISOs) are intended to qualify for treatment under Sections 421 and 422 of the Code. A participant will not recognize any income at the time an ISO is granted or at the time an ISO is exercised, and the Company will not be entitled to a deduction. However, the excess of the fair market value of the shares on the date of exercise over the exercise price paid is treated as an adjustment item in determining the participant's alternative minimum tax. If a participant disposes of the shares acquired on exercise of an ISO after two years after the date of grant of the ISO and one year after the date of exercise of the ISO (the holding period), the excess of the sale price over the option exercise price will be long-term capital gain subject to the applicable tax rates. If the participant disposes of the shares prior to the end of the holding period, the participant will recognize ordinary income in the year of the disposition equal to the lesser of (i) the fair market value of the shares on the date of exercise over the exercise price, or (ii) the amount received for the shares over the exercise price. Any further gain or loss will be treated as long-term or short-term capital gain or loss. The Company will generally be entitled to a deduction at the same time and in the same amount as the participant recognizes ordinary income upon a disqualifying disposition, subject to the possible limitations on deductibility under Sections 280G and 162(m) of the Code for compensation paid to executives designated in those Sections. It is not the Committee's intention at this time to grant ISOs but the Committee feels it is prudent to retain the discretion to do so in the event that circumstances warrant doing so.

Restricted Stock. A participant will generally recognize ordinary income equal to the fair market value of the shares received at the first time the restricted shares vest (i.e., become transferable or are not subject to a substantial risk of forfeiture, whichever occurs earlier). However, a participant may make an election under Section 83(b) of the Code within 30 days after the grant date to be taxed at the time of grant, rather than at the time of vesting. If a participant makes such an election and subsequently forfeits such shares prior to vesting, (i) the participant will not be allowed a deduction for the amount the participant included as ordinary income after making such election, and (ii) the participant may recognize a capital loss in the amount, if any, by which the price that the participant paid (if any) exceeds the amount the participant received upon such forfeiture of shares. The Company generally will be entitled to a

Table of Contents

deduction at the same time and in an amount equal to the ordinary income recognized by the participant, subject to the possible limitations on deductibility under Sections 280G and 162(m) of the Code for compensation paid to executives designated in those Sections. Any otherwise taxable disposition of the restricted stock after vesting will result in a capital gain or loss (long-term or short-term, depending on the holding period). Dividends paid in cash and received by a participant prior to the time of vesting will constitute ordinary income to the participant in the year paid, and the Company will generally be entitled to a corresponding deduction for such dividends. Any dividends paid in stock will be subject to the tax treatment described herein.

Other Stock-Based Awards. The Committee may grant awards that are based on the fair market value of shares. Such awards may include restricted stock units, performance units, phantom stock, or deferred stock units. Upon receipt of cash and/or shares, a participant will recognize ordinary income equal to the amount of cash and/or the fair market value of the shares received, and the Company will be entitled to a corresponding deduction in the same amount and at the same time, subject to the possible limitations on deductibility under Sections 280G and 162(m) of the Code for compensation paid to executives designated in those Sections. If such awards are settled in whole or in part in shares, upon the participant's subsequent disposition of the shares the participant will recognize a capital gain or loss (long-term or short-term, depending on the holding period) equal to the difference between the amount realized upon disposition and the participant's tax basis in the shares.

Section 162(m) of the Code. Section 162(m) of the Code generally denies a federal income tax deduction to the Company for compensation in excess of \$1 million per year paid to the principal executive officer and the next three most highly compensated officers (other than the principal financial officer). This denial of deduction is subject to an exception for qualified performance-based compensation. Although the

Compensation Committee has designed the Omnibus Plan with tax considerations in mind, the Compensation Committee retains the flexibility to authorize compensation that may not be deductible if the Committee believes doing so is in the best interests of the Company.

Section 409A of the Code. Section 409A of the Code (Section 409A) applies to certain nonqualified deferred compensation and would impose adverse consequences if an award under the Omnibus Plan is neither exempt from, nor compliant with, the requirements of Section 409A. Such adverse consequences include, but are not limited to, immediate income inclusion of the ordinary income that would be recognized if the rights are exercised at the date of vesting, a 20% tax on the amount required to be included in income, and interest at a penalty rate. The Company intends that any awards granted under the Omnibus Plan be exempt from or structured to comply with Section 409A. However, if an award is subject to Section 409A, absent the participant's consent, the Committee may amend the Omnibus Plan and such award, or take any other actions necessary to comply with, or exempt, such award from Section 409A.

Federal Income Tax Consequences of Failure to Approve Proposal

Section 162(m) generally denies a federal income tax deduction to the Company for compensation in excess of \$1 million per year paid to the principal executive officer and the next three most highly compensated officers (other than the principal financial officer). If this Proposal 4 is not approved by the Shareholders of the Company, amounts payable under the Omnibus Plan would be subject to this deduction limitation, which could have an adverse effect on the Company's net income. In addition, even if this Proposal is approved by Shareholders, nothing in this Proposal precludes the Company from granting awards that are not intended to be qualified performance-based compensation under Section 162(m), if deemed appropriate by the Compensation Committee.

Proposal 5: Approval of the Amendments to the Bye-laws of the Company *(Item 5 on the Proxy Card)*

On February 24, 2014, the Board of Directors voted to approve and to recommend to the Company's shareholders that they approve a proposal to amend the current Bye-laws so as to remove restrictions to holding Board meetings in the United Kingdom.

EXPLANATION

Currently, the Bye-laws of the Company (a) do not allow the Board to hold meetings in the United Kingdom, (b) do not allow Directors to participate in Board meetings via telephone if they are located physically in the UK, and (c) provide that no UK resident can be an Alternate Director. As the Company has operations in the UK, the Board determined that it should have the flexibility to hold meetings in the UK in the future,

and to allow directors to telephonically participate in Board meetings at times when those directors are physically present in the UK. Several minor amendments to the Company's Bye-laws are required to provide the Board with this flexibility to determine the most efficient manner in which to hold its meetings and to remove the impediment to participation in Board meetings by directors who are physically present in and/or resident in the UK.

TEXT OF AMENDMENT

We are asking our Shareholders to vote FOR the following resolution at the Annual General Meeting:

RESOLVED, that Bye-law 43.5 of the Company's Bye-laws, which provides that No resident of the United Kingdom may be elected or appointed as an Alternate Director to act in the alternative to a Director who is not resident in the United Kingdom, shall be deleted in its entirety; further

RESOLVED, that Bye-laws 57 and 59 of the Company's Bye-laws shall be deleted in their entirety and replaced with the following:

Words that have been struck out will be deleted from Bye-laws 57 and 59.

57. Board Meetings

The Board may meet for the transaction of business, adjourn and otherwise regulate its meetings as it sees fit ~~provided that no meeting of the Board shall be held in the United Kingdom~~. Subject to these Bye-laws, a resolution put to the vote at a meeting of the Board shall be carried by the affirmative votes of a majority of the votes cast and in the case of an equality of votes the resolution shall fail.

59. Electronic Participation in Meetings

Directors may participate in any meeting by such electronic means as permit all persons participating in the meeting to communicate with each other simultaneously and instantaneously, and participation in such a meeting shall constitute presence in person at such meeting. Such a meeting shall be considered to take place where the chairman of the meeting establishes that the meeting is held. ~~No Director shall participate in any meeting of the Board by electronic means if at the time of such participation such Director is physically located in the United Kingdom.~~

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THIS PROPOSAL.

Table of Contents

The Role of the Board

The Board is currently comprised of ten members. The Board's prime objective is the sustainable enhancement of business performance and Shareholder value. It is responsible for determining all major policies, ensuring that effective strategies and management are in place, assessing Signet's performance and that of its senior management, reviewing the systems of internal control and providing oversight in relation to policy relating to social, ethical, environmental and other matters.

SEPARATE AND INDEPENDENT CHAIRMAN

The Company has a Chairman of the Board who is separate from its Chief Executive Officer and whom the Board has determined to be independent under the NYSE Listing Standards. The Board considers it to be important for its effectiveness and efficiency to maintain a clear division of responsibilities between the leadership of the Board and the executive responsible for the day to day operations of the Company's business; therefore the Board has determined that separating roles of Chairman and Chief Executive Officer is in the best interests of the Company at the present time.

The division of responsibilities between the Chairman and the Chief Executive Officer has been specifically determined by the Board.

In summary, the Chairman is responsible for:

effective running of the Board, including evaluating its performance and that of individual Directors, and the Board's compliance with corporate governance requirements and best practice;

consulting with and advising executive management about planned presentations to the Board, involving but not limited to, topics of longer term strategy, medium term plans, annual budgeting or, at his discretion, any other significant matters;

consulting with and advising the Chief Executive Officer on contemplated executive management personnel selections, organizational alignment and responsibilities, and compensation recommendations;

maintaining contact with major Shareholders to understand directly their issues and concerns;

keeping the other independent Directors appropriately informed of developments within the business and Shareholders' attitude toward the Company; and

safeguarding Signet's reputation, and representing it both internally and externally.

CHIEF EXECUTIVE OFFICER

In summary the Board has determined that the Chief Executive Officer is responsible for:

the executive leadership of the business;

developing and presenting to the Board, strategy, medium term plans and annual budgets;

within this framework, the performance of the business;

complying with legal and corporate governance requirements, together with the social, ethical and environmental principles of Signet; and

making recommendations on the appointment and compensation of senior executive officers and management development.

EXECUTIVE SESSIONS OF INDEPENDENT DIRECTORS

Independent Directors meet regularly in executive session without management participation. At those meetings the Chairman presides. In addition, at least once per year the independent Directors, excluding the Chairman, meet separately in executive session to consider the independent Chairman's performance. At those meetings, Russell Walls, Chairman of the Nomination and Corporate Governance Committee, presides.

INDEPENDENT DIRECTORS CONSTITUTE A MAJORITY OF THE BOARD

The Board currently comprises one executive Director and 9 independent Directors including the Chairman. The Board has affirmatively determined that each of the following Directors is independent under the NYSE Listing Standards: Todd Stitzer, Virginia Drosos, Dale Hilpert, Helen McCluskey, Marianne Miller Parrs, Thomas Plaskett, Robert Stack, Russell Walls and Eugenia Ulasewicz. In considering independence the Board considers any commercial, consulting, legal, accounting, charitable or any other business or non-business relationships that a Director or his or her immediate family may have with the Company. No such relationship exists for any of the independent Directors.

BOARD SELF-EVALUATION

The Directors conduct an annual evaluation of the workings and efficiency of the Board and of each of the Board committees on which they serve and make recommendations for change, if required.

DIRECTOR ATTENDANCE AT ANNUAL GENERAL MEETINGS

All of the Directors are required to attend Annual General Meetings. The Board schedules a Board meeting on the date of the Annual General Meeting of Shareholders to facilitate attendance at the Annual General Meeting by the Directors. All of the Directors who were in office at the time attended the Annual General Meeting held in June 2013.

MEETINGS AND ATTENDANCE DURING FISCAL 2014

In Fiscal 2014, the Board met eleven times (including meetings by telephone). All incumbent Directors attended at least 98.5% of the aggregate number of meetings of the Board and those Board committees on which they served during their period of service in Fiscal 2014.

Jenkins, Signet Company Secretary, c/o Signet Group Services Limited, at 110 Cannon Street, London EC4N 6EU, UK. All such communications will be reviewed promptly by the Signet Company Secretary and, where considered appropriate, sent to the director(s) or Committee Chair with a copy to the Chairman.

TRANSACTIONS WITH RELATED PERSONS

The Board has adopted written policies and procedures for the review, approval or ratification of transactions in which the Company participates and in which any Director or executive officer, any nominee for election as a Director, or any five percent holder of the Company's securities, or any immediate family member of such an officer, Director or nominee or security holder, has a direct or indirect material interest. In determining whether to approve or ratify any such transaction, the Board, on the recommendation of the Nomination and Corporate Governance Committee and/or the Audit Committee (dependent upon the nature of the transaction), would consider whether, based on the specific facts and circumstances of the transaction, such a transaction would be in the best interests of the Company. Any transaction considered to jeopardize the independence of the Director, be

contrary to law or regulation, or potentially create or give the appearance of a conflict of interest (also required to be avoided pursuant to the Code of Ethics for Senior Officers and the Code of Conduct) would be prohibited.

The Company did not participate in any related person transactions in Fiscal 2014.

RISK MANAGEMENT AND ROLE OF THE BOARD IN RISK OVERSIGHT

The identification of major business risks is carried out in conjunction with operational management and appropriate steps are taken to monitor and mitigate risks. The Signet Vice President, Internal Audit & Risk Management, who is not a named executive officer of the Company, co-ordinates the collection of risk management information and is responsible for assessing Signet's day to day risk management processes and internal control structure, ensuring such processes satisfy the applicable standards at both divisional and corporate levels. His findings are reported to the Audit Committee.

The Risk Management Committee (the RMC), which is chaired by the Signet Vice President, Internal Audit & Risk Management, has a written charter approved by the Board; its members include the Company's Chief Financial Officer, the Signet Controller, the Divisional Chief Financial Officers and the Divisional Heads of Risk. The RMC meets at least four times a year and reviews Signet's risk management processes, the consolidated principal risks identified by the Company, emerging issues and new regulations. The Signet Vice President, Internal Audit & Risk Management and the Chairman of the Audit Committee meet periodically to discuss key matters arising from Signet's risk management process and as appropriate, reports are made to the Board. Risk and control committees also have been established at both divisional and corporate

levels. Each divisional committee is chaired by the US divisional Chief Executive Officer or UK Managing Director, respectively, and the corporate committee is chaired by the Chief Financial Officer. Each committee has a written charter and requires participation by the executive management teams. The Signet Vice President, Internal Audit & Risk Management, attends all divisional and corporate risk management committee meetings to provide a consistent approach and additional review.

In its role in providing oversight of risk management, the Board will: annually agree on the prioritized risks impacting the Board and associated responsibilities; periodically invite the US divisional Chief Executive Officer or UK Managing Director, respectively, to present to the Board their prioritized

risks impacting the Company and strategies for risk mitigation; and review Signet's internal controls and risk governance framework and developments thereof. In addition, on a periodic basis, the Board reviews risk and internal audit updates provided by the Chairman of the Audit Committee and on a quarterly basis it reviews and discusses reports provided by the Signet Vice President, Internal Audit & Risk Management, on divisional risk management activity.

COMPENSATION POLICIES AND RISK TAKING

Policies and Risk Taking

The Compensation Committee has evaluated the Company's policies and practices of compensating its employees and has determined that they are not reasonably likely to have a material adverse effect on the Company. The Compensation Committee has reached this conclusion based in part on a review conducted by its independent consultant that analyzed the Company's compensation policies and practices for all employees, including executive officers. The Compensation Committee noted several aspects of the compensation programs that reduce the likelihood of excessive risk-taking:

Compensation for the executive officers is a mix of fixed and variable awards, with an appropriate weighting of share-based compensation that vests based on time and performance criteria;

The executive annual incentive plan is predominantly based on operating profit, which the Committee believes is closely tied to the creation of long-term shareholder value. Targets, which are reviewed and approved by the Compensation Committee, are set in advance and potential payouts are stress tested to ensure a reasonable sharing of value created between management and shareholders. Financial performance is verified by Signet's external auditors before amounts are paid out under the annual incentive plan;

The combination of annually granted restricted stock and performance restricted share units (performance RSUs) that both cliff vest at the end of 3 years provides overlapping vesting periods. This approach addresses longer tail risks as participants remain exposed to the risks associated with their decisions through their ongoing unvested awards;

Recent decisions to award long-term incentives in the form of whole share awards (rather than options) drive long-term share value creation, rather than reward share price volatility;

The Chief Executive Officer has been subject to ownership requirements since he was hired. In addition, since the beginning of Fiscal 2014, other executive officers, including all named executive officers, have been subject to share ownership requirements;

The Company prohibits hedging of, and speculation in, Signet shares by employees or Directors;

The Company has a clawback policy that applies to all employees who receive incentive awards and to all short- and long-term incentives. Certain repayment obligations are triggered if there is a material restatement of the financial statements. In the event of an overpayment, the Company will seek to recover the difference balancing the amount to be recovered against the cost of doing so. Similarly in the interest of fairness, should a restatement result in an under payment of incentive compensation, the Company will make up any difference;

Edgar Filing: SIGNET JEWELERS LTD - Form PREM14A

The Compensation Committee is comprised entirely of independent Directors and has engaged an independent consultant to review the risks associated with its compensation programs; it reviews the payouts under the annual incentive program; and it regularly benchmarks executive compensation against a carefully reviewed peer group; and

There is member overlap in the Audit and Compensation Committees. This crossover gives the Compensation Committee awareness of Signet's enterprise risks when making its decisions with respect to compensation.

CORPORATE GOVERNANCE GUIDELINES AND CODES OF CONDUCT AND ETHICS

The Company has adopted a set of corporate governance guidelines that address a number of corporate governance matters in accordance with NYSE rules and are available at www.signetjewelers.com/guidelines. The Company strives to act in accordance with the laws and customs of each country in which it operates; to adopt proper standards of business practice and procedure; to operate with integrity; and to observe and respect the culture of each country in which it operates. To that end, Signet has adopted a statement of social, ethical and environmental principles and supporting policies applicable to all officers and employees of the Company and complies with the requirements of the NYSE. In addition, Signet has a policy on business integrity, as well as more detailed guidance and regulations as part of Signet's staff induction, training and operational procedures. These policies include a code of business conduct and ethics that is applicable to all directors, officers and employees, as

well as a Code of Ethics for the Chairman, CEO, Directors and senior officers.

Copies of these codes are available from www.signetjewelers.com/ethics.

INTERNAL CONTROLS AND RISK MANAGEMENT SYSTEMS

The internal controls system is designed to safeguard Shareholders' investments and Signet's assets, both tangible and intangible, including the reputation of Signet with its various stakeholders. Procedures are in place to ensure the maintenance of proper accounting records, the reliability of the financial information used within the business or for publication and the determination of disclosure obligations. These procedures also cover public disclosure on a timely basis of certain information to the investment markets. However, such procedures are designed to manage rather than wholly eliminate certain risks of failure to achieve business objectives and can provide only reasonable, not absolute, assurance against material misstatement or loss.

Signet's disclosure control procedures are designed to help ensure that processes and procedures for information management are in place at all levels of Signet. The disclosure control procedures aim to provide reasonable assurance that any information disclosed by Signet is recorded, processed, verified, and summarized appropriately and on a consistent basis. The procedures are also designed to provide reasonable assurance that information is accumulated and communicated to management to allow timely decisions to be made regarding required disclosure. Signet's Disclosure Control Committee has formalized terms of reference and consults with Signet's external advisers and auditor, as necessary. These procedures are designed to enable Signet to make timely, appropriate and accurate public disclosures. The activities and findings of the Disclosure Control Committee are reported to the Audit Committee and are subject to periodic internal audit review.

Key procedures designed to provide effective internal controls are:

Control environment control is exercised through an organizational structure with clearly defined levels of responsibility and authority together with appropriate reporting procedures, particularly with respect to financial information, capital expenditure, investment, granting of guarantees and the use of treasury products, as well as health, safety, environmental and customer service issues;

Reporting and information systems Signet has a comprehensive budgeting and strategic planning system with an annual budget and strategic plan approved by the Board. Reported monthly trading results and balance sheets include the corresponding figures for the budget or revised forecast and for the previous year. Any significant variances are examined by divisional operating management and discussed with senior management, with action being taken as appropriate. The senior executives regularly report to the Board on the development of the business, the competitive environment and any material breaches of procedure. These mechanisms, are designed to continually monitor Signet's performance, identify risks in a timely manner, and evaluate the implications of the information;

Control procedures each operating division maintains documented financial and operating controls as well as procedures appropriate to its own business environment and in conformity with Signet's guidelines. Each of the operating divisions has an internal audit function which primarily reviews the processes in the store operations but also reviews central service functions. The work of internal audit is monitored by senior divisional executives, and/or Signet management, the RMC and the Audit Committee. The head of Internal Audit reports to the Audit Committee and Signet's Chief Financial Officer on an operational basis; and

Reviews of effectiveness the Board, in addition to receiving summaries of the RMC reports, annually reviews the effectiveness of the internal controls system on the basis of a report from, and the recommendation of, the Audit Committee. Signet's Disclosure Control Committee reports to the Audit Committee on a quarterly basis as to the effectiveness of the disclosure controls and procedures.

BOARD COMMITTEES

Certain matters are delegated to Board Committees, each with a written charter setting forth each committee's purpose, procedures, responsibilities and powers. The principal committees are the Audit, Compensation, and Nomination and Corporate Governance Committees. Meridian's services to the Company are limited to advising the Compensation Committee on executive and director compensation; Meridian does no other work for the Company. The Compensation Committee reviews and evaluates the independence of its consultant each year and has the final authority to hire and terminate the consultant. In considering Meridian's independence, numerous factors were reviewed relating to Meridian and the individuals employed by Meridian who provided services to Signet, including those factors required to be considered pursuant to SEC and NYSE rules. Based on a review of these factors, the Compensation Committee has determined that Meridian is independent and that its work has not raised any conflict of interest.

The candidate must also possess the highest level of personal and professional ethics and integrity and be prepared to commit to the time and effort on a consistent basis that are necessary to fulfill the duties and responsibilities of the position.

Compensation Discussion and Analysis

Overview

This Compensation Discussion and Analysis (CDA) describes the objectives and the role of the Compensation Committee and discusses the philosophy upon which the Compensation Committee bases its decisions in its endeavors to meet these objectives. It also describes the Company s executive compensation policies and the material elements of compensation awarded to, earned by, or paid to the named executive officers (each, sometimes referred to as an NEO).

EXECUTIVE SUMMARY

Signet s compensation program is designed to enable it to attract, incentivize and retain the executive talent needed to achieve Signet s business objective of consistently outperforming the specialty retail jewelry market segment and delivering superior returns to shareholders.

While we generally performed well during Fiscal 2014 and continued to deliver value to our shareholders, we fell short of our target expectations for operating income growth and comparable store sales growth both of which were set at levels that required stretch performance. Accordingly, the Company s annual incentive plan for Fiscal 2014 paid well-below target. However, our performance-based restricted share units, granted in Fiscal 2012 were determined to have vested at 200% of target based on the Company s cumulative operating income performance for Fiscal 2012 through Fiscal 2014. More information with respect to both of these elements of our compensation program is provided on page 34.

Table of Contents

To accomplish our corporate goals, we must employ, motivate and retain superior management. Therefore, we target total compensation at approximately the median of a customized group of comparator companies. Those companies have been specifically chosen to reflect various attributes similar to ours and also because they may pose a potential threat as to solicitation of our executives if compensation is not competitive. Executives are paid in a range around the median that is dependent upon, among other things, the executive's experience, internal equity considerations and proven ability to consistently deliver superior performance.

The total aggregate compensation at target performance for the named executive officers for Fiscal 2014 fell below the comparator company median.

The principles underlying our executive compensation decisions are as follows:

1. The compensation program must align the interests of senior management with those of Shareholders. This is achieved by delivering a significant portion of total compensation for named executive officers as incentives dependent on factors that should reflect long-term growth in shareholder value.
2. The only element of guaranteed pay is base salary with the percentage of at risk compensation increasing in line with the responsibility and experience of each executive.
3. Elements of compensation that are at risk should reward annual and multi-year exceptional performance.
4. Compensation should include a retention component to encourage high performing executives to remain with the Company.
5. The compensation program should be constructed so that the named executive officers understand the performance required to receive various levels of payments and therefore remain motivated.
6. The compensation program should encourage all senior executives to build a substantial holding of the Company's shares.

CONSIDERATION OF SAY ON PAY VOTE

The Compensation Committee considered the result of the 2013 non-binding shareholder vote regarding executive compensation in evaluating the Company's Fiscal 2013 executive compensation program. In light of the fact that 98.2% of votes cast approved the executive compensation program described in the Company's Proxy Statement for the 2013 Annual General Meeting, the Compensation Committee believes that shareholders support the Company's executive compensation philosophy and continued to apply the same principles in determining the amounts and types of executive compensation for Fiscal 2014.

TARGET NEO PAY MIX

The following charts illustrate the target total compensation mix for our Chief Executive Officer and the average target compensation mix for our other named executive officers, but does not reflect actual compensation mix for Fiscal 2014, as discussed below, because a smaller actual bonus was paid for Fiscal 2014 performance. These charts illustrate that the Company aims to align pay levels for its NEOs with the Company's performance. Approximately 80% of the CEO's target total compensation, and approximately 60% of the average target total compensation of our other NEOs, is based on performance and/or alignment with Shareholder interests over the long-term.

THE ROLE OF THE COMPENSATION COMMITTEE

The Compensation Committee's role is to set the compensation for Signet's named executive officers to motivate them to achieve Signet's business objectives and ensure that they are fairly rewarded for their individual contributions to Signet's performance, having due regard to the interests of shareholders, the financial and commercial health of the business and pay and other conditions throughout Signet. It is also the role of the Committee to ensure that Signet's compensation remains competitive as discussed earlier.

THE ROLE OF EXECUTIVES

Our CEO provides the Compensation Committee with a performance assessment for each of the other NEOs and makes recommendations for their target compensation levels, including salaries, target bonus levels, and equity awards. The Compensation Committee uses these assessments, along with other information, to determine final NEO compensation. Our CFO and Senior Vice President of Human Resources regularly attend Compensation Committee meetings at the request of the Committee, but are not present for the executive sessions or for any discussion of their own compensation.

THE ROLE OF COMPENSATION CONSULTANTS

The Compensation Committee regularly uses external independent advice. Meridian performs the following services on behalf of the Committee:

Competitive market pay analyses for executive positions and non-employee directors;

Market trends in executive and non-employee director compensation;
Pay for performance analyses and review of risk in the Company's pay programs;

Ongoing support with regard to the latest relevant regulatory, governance, technical, and/or financial considerations impacting executive compensation and benefit programs;

Assistance with the design of executive compensation or benefit programs, as needed;

Annual review of the compensation benchmarking peer group; and

Other items as determined appropriate by the Chair of the Committee.
For more information on the Committee's independent compensation consultant, Meridian, please refer to pages 25 and 26.

COMPETITIVE BENCHMARKING ANALYSIS

In analyzing the market data provided by Meridian, the Compensation Committee focuses on an established peer group of companies for benchmarking purposes where possible. The Compensation Committee annually reviews the composition of the peer group in order to assess its continued appropriateness. The Fiscal 2014 peer group had the following characteristics:

Retailers with international operations;

Retailers headquartered in the US and traded on a US stock exchange;

Table of Contents

Overall median sales approximated those of Signet s; and

Most peer companies have revenue that ranges from half to twice the Company s revenue.

The Fiscal 2014 group consisted of:

Abercrombie & Fitch Co., American Eagle Outfitters Inc., ANN INC, Coach Inc., Collective Brands Inc., Estee Lauder Companies Inc., Foot Locker Inc., L Brands Inc., Nordstrom Inc., PVH Corp., Pier 1 Imports Inc.,

Ralph Lauren Corp., Saks Inc., Tiffany & Co., Urban Outfitters Inc., Williams-Sonoma, Inc., and Zale Corp.

The Fiscal 2015 peer group remained largely unchanged except that Estee Lauder Companies Inc. was removed due to their lack of retail presence and Collective Brands was removed due to its acquisition.

This peer group was the primary source of market data for the Chief Executive Officer, Chief Financial Officer, and the Chief Executive Officer of the US division. For the COO of the US division, a broader retail company survey was used for benchmarking as there was not sufficient data available from our peer group. For the Chief Financial Officer of the US Division, Meridian and management determined an appropriate market benchmark was unavailable due to the

unique role responsibilities of the executive. Therefore, the position was benchmarked using internal comparisons rather than by using external references. For the former UK Chief Executive Officer, Meridian used data from a UK general industry survey covering 99 companies with median revenues of £493 million.

DETERMINING EXECUTIVE COMPENSATION

The Compensation Committee s objective is to deliver and maintain competitive executive compensation in accordance with its compensation principles.

The Compensation Committee believes that the greater the responsibility and direct influence over the Company s performance an executive officer has, the more his or her total compensation will be weighted toward incentive payments. The Compensation Committee considers the annual compensation benchmarking data described earlier, along with other factors such as an executive officer s level of experience, the Company s desire to retain the executive, the availability of replacement personnel, as well as the individual s responsibilities and actual performance when setting target compensation levels.

COMPENSATION OVERVIEW, OBJECTIVES AND KEY FEATURES

The Compensation Committee also reviews tally sheets covering all elements of compensation and contingent payments upon all termination events.

The Compensation Committee has established an executive compensation plan that contains the following key components:

Component	Objective	Key Features
Base salary	Provides a fixed level of pay that is not at risk and reflects individual experience and	Designed to retain key executive officers by being competitive but is not considered to be the primary

Annual bonus	ongoing contribution and performance. Motivate and reward achievement of annual financial results against established annual goals of the Company.	means of incentivizing or recognizing performance. Cash payments dependent on the degree of achievement against an annual performance target. This element is payable in the fiscal year following the fiscal year in which it was earned.
Long-term incentives (time and performance-based restricted shares and units)	Align management with long-term Shareholder interests; retain executive officers; motivate and reward achievement of sustainable earnings growth and returns.	Time-based restricted share awards vest upon the continuance of service; performance-based restricted share units require achievement of Company financial goals over a three-year performance period and require continued service.

Table of Contents

An additional component of the compensation program is the benefits package, which includes retirement benefits and health and life insurance. This package has the objective of retaining executive officers over the course of their careers.

ELEMENTS OF EXECUTIVE COMPENSATION**(a) Base salary**

Each named executive officer receives a fixed level of base annual salary as compensation for services rendered during the fiscal year. The CEO recommends base salaries for the named executive officers, other than himself, which are subject to approval by the Compensation Committee.

Separately the Compensation Committee establishes the CEO's base salary. Base salary ranges are monitored to support the executive compensation program's objectives of attracting and retaining management and motivating superior performance.

For Fiscal 2014, the Compensation Committee made adjustments to the base salary level for the continuing NEOs. This was done to more closely reflect market and competitive practices, in consideration of certain benefit reductions made in 2013 and 2014 and based upon the Committee's evaluation of the factors described above.

Named Executive Officer	Fiscal 2014	Increase over
	Salary	Fiscal 2013
Michael W. Barnes	\$ 1,054,000	0.4%
Ronald Ristau	\$ 744,000	4.1%
Mark Light	\$ 944,000	0.4%
Edward Hrabak	\$ 534,000	4.7%
Robert Trabucco	\$ 581,000	3.7%
Robert Anderson	\$ 615,200	0.0%

(b) Annual bonus

Annual bonus performance targets and actual bonuses to be paid in light of Signet's performance are reviewed and approved by the Compensation Committee each year. The Compensation Committee will review and approve any changes to target bonus levels recommended by the CEO for the named executive officers other than himself, and will separately review and approve the CEO's target bonus, which is solely determined by the Compensation Committee. In determining the performance target at the commencement of each year, the Compensation Committee gives consideration to relevant market data, including market position and the relative positioning of the Company's performance in its sector, as well as its current business plans. There is a maximum bonus level set each year on such awards, which is twice the target level, and a threshold performance level, below which no payments are made. The percentage earned for performance between the threshold level and the target level in any performance period will be interpolated on a straight line basis between 0% and 100% of the target level, and the percentage earned for performance between the target level and the maximum level in any performance period will be interpolated on a straight line basis between 100% and 200% of the target level.

This incentive program focuses management on the achievement of each year's performance objectives. The annual bonus is based on a pre-determined formula either on a divisional basis or Company-wide basis, depending upon the named executive officer's particular responsibilities. The Company's performance formula measures each division's performance separately. Therefore, if one division under-performs, the Company-wide goal cannot be met through over achievement by the other division. A bonus may still be payable where one division's performance exceeds the threshold level for the respective division. The annual incentives for Mr. Barnes and Mr. Ristau are based upon Company performance, while the annual incentives for Mr. Light, Mr. Hrabak and Mr. Trabucco are based solely on the performance of the US division. The annual incentive for Mr. Anderson was based solely upon the performance of the UK division.

Annual Bonus Fiscal 2014

Edgar Filing: SIGNET JEWELERS LTD - Form PREM14A

In setting the performance criteria for Fiscal 2014, the Compensation Committee agreed the annual bonus would be based on operating income (80% weighting) and comparable store sales (20% weighting) in order to focus on revenue growth and driving profit.

Notice of Annual General Meeting of Shareholders and 2014 Proxy Statement 33

Table of Contents

The bonus targets and potential maximum bonus as a percentage of base salary for Fiscal 2014 were set as follows:

Executive	Position	Target Bonus as a percentage of Base Salary	Maximum Bonus as a percentage of Base Salary
Michael Barnes	Chief Executive Officer	130%	260%
Ronald Ristau	Chief Financial Officer	70%	140%
Mark Light	Chief Executive Officer, US Division	65%	130%
Edward Hrabak	Chief Operating Officer, US Division	50%	100%
Robert Trabucco	Chief Financial Officer, US Division	50%	100%
Robert Anderson	Chief Executive Officer, UK Division	50%	100%

At threshold performance levels, nothing is paid to executives. They must exceed threshold performance to earn any bonus, which is paid on a linear basis from zero to 100% of the target bonus amounts shown above.

Performance targets for each measure were set at the beginning of the performance period. The Company wide performance for the CEO and the CFO was determined using a weighting of 92% on the US and 8% on the UK for

operating income, and weighting of 83% on the US and 17% on the UK for comparable store sales. These weightings reflected the relative operating income and sales for each division. As discussed above, the annual bonuses for the CEO, COO and CFO of the US divisions are based solely on the performance of the US division. The threshold (the level at which bonus will start to accrue), target, maximum and actual operating numbers for Fiscal 2014 were as follows:

	Threshold	Operating Income		Actual Achieved
		Target	Max	
US Criteria	\$547,800,000	\$585,800,000	\$636,000,000	\$551,600,000
UK Criteria	£28,000,000	£33,000,000	£38,000,000	£25,500,000

	Threshold	Comparable Store Sales		Actual Achieved
		Target	Max	
US Criteria	4.0%	6.0%	8.0%	5.2%
UK Criteria	1.0%	2.0%	5.0%	1.0%

Table of Contents

Having reviewed the performance achieved against the performance criteria set by the Compensation Committee at the beginning of Fiscal 2014, the Committee determined, as part of the Fiscal 2014 year-end process in March 2014 that the US division results were below target performance level resulting in a 20.0% payout to the US-based named executive officers and the UK division results were below threshold performance level resulting in no payout to the UK-based named executive officer. Based on the weighting shown above, these performance levels resulted in a 17.3% payout for the CEO and CFO. Accordingly, the Committee approved bonus payments as follows:

Annual Bonus Fiscal 2015

In setting the performance criteria for the fiscal year ending January 31, 2015 (Fiscal 2015), the Compensation Committee approved the same performance measures that had been employed for Fiscal 2014 as they were still considered appropriate. Therefore, for Fiscal 2015, the annual bonus will continue to be based on operating income (80% weighting) and comparable store sales (20% weighting).

The annual bonuses for Fiscal 2015 for the corporate executive officers will also be calculated on the same basis as for Fiscal 2014, namely proportionately on the divisional results calculated at a constant exchange rate basis as appropriate.

(c) Long-Term Incentive Plans

The Compensation Committee believes that long-term share based incentives are appropriate and necessary measures to properly focus the executive officers on long term results and align their interests with those of Shareholders.

Long-Term Incentive Grants in Fiscal 2014

Long-term incentive compensation granted in Fiscal 2014 was split equally between time-based restricted share grants and performance-based restricted share units granted under the Omnibus Plan.

Generally long-term incentive grants are made at the same time as the annual compensation reviews. The value delivered through long-term incentives is determined holistically in the context of total compensation levels. This process, as described above, considers benchmarking data, retention needs, level of responsibility, and individual performance. The number of long term restricted shares and performance-based restricted share units granted to NEOs in Fiscal 2014 was based upon an award methodology using a share price calculated by using the average closing price of a Common Share on the 20 trading days commencing on March 29, 2013, the day after the Fiscal 2013 results announcement. The grant date was April 26, 2013. The number of time-based restricted shares and performance-based restricted share units granted to executive officers in Fiscal 2014 based upon this award methodology can be seen in the Grants of Plan-Based Awards table below.

Performance-Based Restricted Share Units

Consistent with the previous year, the Committee determined the restricted share unit performance targets for Fiscal 2014 grants would cover a three-year performance period and be based upon the achievement of overall Company performance for all participants, including divisional executives. The Committee believes that the focus of this award should be split between cumulative operating profit with an 80% weighting and return on capital employed (ROCE) with a 20% weighting. ROCE is a non-GAAP measure and is described in Item 6 Selected Consolidated Financial Data in the Company s Annual Report on Form 10-K for Fiscal 2014. These measures were chosen because the Compensation Committee believes that the appropriate combination of growth and return drive long-term shareholder value. Named executive officers can earn between 0% and 200% of their share award depending on performance results over the three-year period.

Table of Contents

For grants made in Fiscal 2014, the level of achievement for operating profit between approximately 96% and 104% of the three-year cumulative performance target will determine the amount vesting for this portion of the award. The Committee believes the target requires stretch performance since it requires compound annual growth in excess of 9% at target and 11% at maximum. The actual target will be disclosed at the end of the performance period.

The target ROCE over the period is 26%, with a minimum threshold of 25% and maximum of 27%.

Time-Based Restricted Shares

The time-based restricted share grants cliff vest at the end of the three-year period based on continued service with the Company.

Beginning in Fiscal 2013, time-based restricted stock awards have been granted pursuant to an award pool formula established by the Compensation Committee based on performance in the prior fiscal year. This award pool formula is intended to comply with the qualified performance-based compensation requirements under section 162(m) of the Internal Revenue Code. For time-based restricted stock awards granted in Fiscal 2014, the pool was based on attaining an operating profit performance hurdle for Fiscal 2013. The actual share awards granted from the pool were determined using the process described under Long-Term Incentive Grants in Fiscal 2014 on page 35 of this CDA. The Committee retains the flexibility to make additional non-qualifying grants (see Limitation under Section 162(m) of the Internal Revenue Code).

Prior Performance-Based Long-Term Awards

In March 2014, the Committee concluded that the pre-determined conditions relating to the performance-based long-term incentive awards made in Fiscal 2012 covering the performance period of Fiscal 2012 through Fiscal 2014 had vested at maximum levels. Below are further details of this vesting:

	3-Year		
	Cumulative	3-Year	3-Year
	Threshold	Cumulative Target	Cumulative Maximum
Signet Operating Income	\$ 1,281m	\$ 1,331m	\$ 1,380m

	3-Year		
	3-Year Cumulative Actual	Cumulative Achievement	Share Award Vesting
Signet Operating Income	\$ 1,648m	Maximum achieved	200%

(d) Retirement & Deferred Compensation

The Company provides retirement and deferred compensation benefits to named executive officers and employees, both as a retention mechanism and as a means to provide a degree of financial security post retirement.

In the US, there are two defined contribution savings vehicles. The primary retirement vehicle is the company sponsored Sterling Jewelers Inc. 401(k) Retirement Savings Plan (the 401(k) Plan), which is a qualified plan under Federal guidelines.

Currently the company matches 50% of an employee's elective salary deferral up to a maximum of 6% of the employee's eligible compensation in order to be market competitive. The annual elective salary deferral for each employee is subject to certain maximum statutory limitations.

Under Federal guidelines, the 401(k) Plan contributions by senior management may be reduced based on the participation levels of lower paid employees. Therefore, a supplemental plan, the Deferred Compensation Plan (the DCP), an unfunded, non-qualified plan under Federal guidelines, was established for senior management to assist with pre-tax retirement savings in addition to the 401(k) Plan. The Company provides a discretionary 50% matching contribution under the DCP for each participant's annual deferral, up to 10% of the participant's annual

Edgar Filing: SIGNET JEWELERS LTD - Form PREM14A

eligible compensation. Although the DCP also permits additional employer discretionary contributions, the Company did not make any additional discretionary contribution in Fiscal 2014.

36 [Notice of Annual General Meeting of Shareholders and 2014 Proxy Statement](#)

Table of Contents

Prior to establishing the DCP, in 1996 the Company established an unfunded, non-qualified deferred compensation plan under Federal guidelines for senior management which was frozen in 2004 to new participants and new deferrals for tax purposes (the "Frozen DCP").

Messrs. Ristau, Light, Hrabak and Trabucco have benefits provided via the 401(k) Plan and the DCP. Messrs. Light, Hrabak and Trabucco also have benefits provided via the Frozen DCP.

In the UK, Mr. Anderson participated in the Signet Group Pension Scheme, which is a funded, HM Revenue & Customs registered, occupational pension plan.

For service before February 1, 2013, this plan provides a benefit of 1/60th of Final Pensionable Salary for each year of credited service payable from age 60. For service after February 1, 2013, this plan provides 1/60th of Career Average Revalued Earnings for each year of credited service payable from age 65. Other benefits include life insurance coverage of three times Pensionable Salary and a spouse's pension on death.

(e) Health & Welfare

Named executive officers participate in various health and welfare programs, as well as life insurance and long-term disability plans, which are generally available to other executive officers of the Company. Up until January 1, 2013, these supplemental programs included a medical reimbursement plan and enhanced long-term disability coverage. In addition, the Company paid the premiums for the named executives officers medical and life insurance coverages. However, starting January 1, 2013, the Company discontinued the medical reimbursements plan. The remaining supplemental benefits are provided to give the Company a competitive edge in recruiting executive talent.

(f) Perquisites

The Company does not provide perquisites to our U.S. based executives other than the benefits described above. However, in limited circumstances, where it is appropriate that spouses attend business related functions, Signet reimburses named executive officers for the travel expenses of spouses. The Company does not provide any tax gross-up payments for any perquisites other than for relocation benefits where applicable. During Fiscal 2014, Mr. Anderson received a car and fuel allowance in line with UK practice.

(g) Employment Agreements

Generally, employment agreements are provided to the named executive officers to entice them to join the Company and to contribute to the long-term success of the business. Employment agreements in effect may all be terminated upon notice of one year or less. The principal terms of the employment agreements with Mr. Barnes, Mr. Ristau, Mr. Light, Mr. Hrabak, Mr. Trabucco and Mr. Anderson are set forth under "Employment Agreements" below on page 46.

(h) Termination for Cause and Violation of Non-Compete and Non-Solicitation Covenants

Share options outstanding under the Company's previous employee incentive plans may not be exercised after a termination for cause. Performance-based restricted share units and time-based restricted shares will not vest if termination for cause occurs before the conclusion of the three-year performance or vesting period. All executive officer employment agreements contain a non-competition covenant that has between a 9 and 12 month post-employment term, as well as a non-solicitation covenant that has between a 12 month and 2 year post-employment term. Violation of the non-compete covenants will result in potential litigation and the Company's ability to seek injunctive relief and damages. For more information concerning the named executive officers employment agreements, see "Employment Agreements" below beginning on page 46.

(i) Limitation under Section 162(m) of the Internal Revenue Code

Section 162(m) of the Internal Revenue Code generally denies a federal income tax deduction to the Company for compensation in excess of \$1 million per year paid to the principal executive officer and the next three most highly compensated officers (other than the principal financial officer). This denial of deduction is subject to an exception for "qualified performance-based compensation". Although the Compensation Committee has designed the executive compensation program with tax considerations in mind, the Compensation Committee retains the flexibility to authorize compensation that may not be deductible if the Committee believes doing so is in the best interests of the Company.

(j) Clawback

Recognizing that the SEC has yet to publish regulations on clawback policies as mandated by the Dodd-Frank Wall Street Reform and Consumer Protection Act (the Dodd-Frank Act), the Compensation Committee considered it to be

Notice of Annual General Meeting of Shareholders and 2014 Proxy Statement 37

Table of Contents

appropriate to adopt an interim clawback policy. The policy provides that in the event of a material restatement of the Company's financial results, the Compensation Committee will recalculate incentive compensation based on the restated results. In the event of an overpayment, the Company will seek to recover the difference, balancing the amount to be recovered against the cost of doing so. Similarly in the interest of fairness, should a restatement result in an under payment of incentive compensation, the Company will make up any difference.

(k) Share Ownership Policy

It is the Company's policy that Signet's executive officers build a holding of Common Shares as follows:

Five times annual base salary Signet Chief Executive Officer

Two times annual base salary Signet Chief Financial Officer, US Chief Executive Officer, UK Managing Director;

One times annual base salary Signet Company Secretary and Chief Legal Officer, US Chief Financial Officer, UK Finance Director, US Chief Operating Officer.

All executives are required to hold 50% of net after-taxes shares received upon vesting or payout until these requirements are met. Once achieved at any given share price, the requirement is considered to have been met notwithstanding any subsequent change in share price. Once achieved, the holding is to be maintained while the individual remains an officer of the Company.

l) Anti-Hedging and Pledging Policies

It is the Company's policy to prohibit hedging or monetization transactions that would allow an officer, director or employee who is a security holder to engage in transactions that would separate the risks and rewards of ownership of Company securities from actual ownership of those securities. In addition, the Company prohibits any pledging of Company stock by any officer, director or employee of the Company.

(1) Annual salaries as disclosed on page 33 are based on a 52 week period.

No contributions were made for Mr. Barnes to the DCP in Fiscal 2014. To the extent Mr. Barnes elects to participate in the DCP, he is contractually entitled to receive the Company's matching contribution.

The main features of the DCP are:

Participation is open to NEOs, as well as other members of management of the Company located in the US;

Participants may defer up to 100% of their salary and annual cash bonus;

In Fiscal 2014, the Company made a discretionary 50% matching contribution based on the participant's annual remuneration deferral, up to 10% of the participant's eligible compensation under the DCP. The DCP also permits additional employer discretionary contributions. No such additional contributions were made in Fiscal 2014;

Deferred compensation is notionally invested by Signet in trust-owned life insurance policies and money market funds;

Edgar Filing: SIGNET JEWELERS LTD - Form PREM14A

Earnings in the participant's account (and Signet's responsibility for payment) is measured by the crediting rate of interest declared for each plan year which was 3% in Fiscal 2014;

During annual enrollment in advance of a plan year, participants must elect when to receive the amount they elect to defer (including any Company matching contribution) for such plan year, including credited interest. Elected distributions may occur on in-service short-term payment dates selected by the participant (which must be a minimum of five years subsequent to the applicable plan year), upon retirement, or a combination of the two. Amounts deferred in a plan year may be distributed prior to the elected distribution date in the event of a participant's separation from service or disability.

Certain participants, including all executive officers, will generally not receive any distribution from the plan that is payable upon termination of service until six months following termination.

- (iii) a lump sum payment equal to the cost of the COBRA premium for 12 months of coverage at the same level as in effect immediately prior to the date of termination.

If Mr. Hrabak's employment agreement is terminated by the Company for cause or if he resigns, Mr. Hrabak will be entitled to any accrued but unpaid benefits or obligations as of the date of termination.

The agreement also includes other terms, including severance payments upon termination by reason of death or disability (as

Mr. Hrabak's entitlement to any share options or share awards is governed by the terms of the relevant plan. During the term of his employment and for specified periods thereafter, Mr. Hrabak is subject to confidentiality, non-solicitation and noncompetition restrictions.

In the case of termination by the Company other than for cause (as defined in the employment agreement) or if Mr. Trabucco terminates his employment for good reason or due to constructive termination, in addition to any accrued but

unpaid benefits or obligations as of the date of termination, Mr. Trabucco will be entitled to:

(i) continued payment of base salary for 12 months from the date of termination payable in accordance with the Company's payroll practices, and

(ii) a pro-rata portion of the annual bonus for which he was then eligible for the fiscal year in which the date of termination occurs. If Mr. Trabucco's employment agreement is terminated by the Company for cause or if he terminates his employment for any reason other than good reason or constructive termination, Mr. Trabucco will be entitled to any accrued but unpaid benefits or obligations as of the date of termination. The agreement also includes other terms, including severance payments upon termination by reason of death or disability (as defined in the employment agreement) equal to the pro-rata portion of the annual bonus for which he was then eligible through the date of termination for the fiscal year in which the date of termination occurs, as well as, upon death, continued payment to Mr. Trabucco's estate of base salary then in effect for six months.

Mr. Trabucco's entitlement to any share options or share awards is governed by the terms of the relevant plan. During the term of his employment and for specified periods thereafter, Mr. Trabucco is subject to confidentiality, non-solicitation and non-competition restrictions.

If Mr. Anderson is terminated on less than one year's notice other than due to summary termination (as defined in his employment agreement), in addition to any accrued but unpaid benefits or obligations as of the date of termination, Mr. Anderson will be entitled to continued payment of base salary for the balance of the one-year notice period, payable in accordance with the Company's payroll practice.

Table of Contents

The agreement also includes other terms, including in respect of Mr. Anderson's absence by reason of incapacity (as defined in his employment agreement) continued payment of base salary in respect of the first six months' absence, whether or not continuous in any period of 12 months.

Mr. Anderson's entitlement to any share options or share awards is governed by the terms of the relevant plan.

During the term of his employment and for specified periods thereafter, Mr. Anderson is subject to confidentiality, non-solicitation and non-competition restrictions.

On July 9, 2013, the Company announced that Mr. Anderson has advised the Company that he will resign from his position as Chief Executive Officer of Signet's UK division, effective July 31, 2013. Company to ensure the smooth transition. Up until the Departure Date, Mr. Anderson will continue to receive his normal salary and all other benefits associated with his employment by the Company. In addition, the Company shall pay Mr. Anderson such bonus, if any, as may be due to him for the current bonus year in respect of the period through August 1, 2013.

The Compromise Agreement also provides for a lump sum severance amount and the payment of basic salary and pension supplement in lieu of notice for the period May 1, 2014 until June 30, 2014, as well as continued vesting through the Departure Date of the restricted stock units awarded to Mr. Anderson on April 12, 2011. (2) Includes rationalization charges of \$0.3 million and \$0.8 million for the three months ended June 30, 2016 and 2015, respectively, and \$0.4 million and \$1.1 million for the six months ended June 30, 2016 and 2015, respectively.

(3) Includes rationalization charges of \$0.7 million and \$0.2 million for the three months ended June 30, 2016 and 2015, respectively, and \$1.7 million and \$0.5 million for the six months ended June 30, 2016 and 2015, respectively.

Three Months Ended June 30, 2016 Compared with Three Months Ended June 30, 2015

Overview. Consolidated net sales were \$874.6 million in the second quarter of 2016, representing a 4.3 percent decrease as compared to the second quarter of 2015 due primarily to the pass through of lower raw material costs across all businesses and lower unit volumes in the metal and plastic container businesses, partially offset by a favorable mix of products sold in the metal container business, an increase in unit volumes in the closures business and slightly favorable foreign currency translation. Income from operations for the second quarter of 2016 decreased by \$10.6 million, or 13.5 percent, as compared to the same period in 2015 primarily due to start-up costs related to the new manufacturing facilities, higher rationalization charges, higher incremental costs and inefficiencies incurred to service customers during the footprint optimization program in the plastic container business, lower unit volumes in the metal and plastic container businesses and the unfavorable impact from the lagged pass through of changes in resin costs in the plastic container and closures businesses. These decreases were partially offset by better operating performance in the metal container and closures businesses, a favorable mix of products sold in the metal container business and higher unit volumes in the closures business. Rationalization charges were \$5.0 million for the second quarter of 2016 as compared to \$1.0 million for the same period in 2015. Net income for the second quarter of 2016 was \$33.3 million as compared to \$42.2 million for the same period in 2015. Net income per diluted share for the second quarter of 2016 was \$0.55 as compared to \$0.70 for the same period in 2015.

Net Sales. The \$39.6 million decrease in consolidated net sales in the second quarter of 2016 as compared to the second quarter of 2015 was the result of lower net sales across all businesses.

Net sales for the metal container business decreased \$24.1 million, or 4.4 percent, in the second quarter of 2016 as compared to the same period in 2015. This decrease was primarily the result of the pass through of lower raw material costs and a decrease in unit volumes of approximately 2 percent, partially offset by a favorable mix of products sold and the impact of slightly favorable foreign currency translation. The decrease in unit volumes was primarily the result of a stronger start to the midwest vegetable pack in the U.S. in the prior year quarter and a slower start to this year's seasonal vegetable pack in Europe due to cool and wet conditions.

Net sales for the closures business decreased \$0.6 million, or 0.3 percent, in the second quarter of 2016 as compared to the same period in 2015. This decrease was primarily the result of the pass through of lower raw material costs, largely offset by an increase in unit volumes of approximately 3 percent and the impact of slightly favorable foreign currency translation. The increase in unit volumes was primarily due to continued strong demand from U.S. beverage markets.

Net sales for the plastic container business decreased \$14.9 million, or 9.7 percent, in the second quarter of 2016 as compared to the same period in 2015. This decrease was principally due to lower unit volumes of approximately 5 percent as a result of the continued rebalancing of the customer portfolio in conjunction with the footprint optimization program, the pass through of lower raw material costs and the impact of slightly unfavorable foreign currency translation.

Gross Profit. Gross profit margin remained unchanged at 14.6 percent in the second quarter of 2016 as compared to the same period in 2015.

Selling, General and Administrative Expenses. Selling, general and administrative expenses as a percentage of consolidated net sales increased 0.4 percentage points to 6.3 percent for the second quarter of 2016 as compared to 5.9 percent for the same period in 2015. Selling, general and administrative expenses increased \$0.6 million to \$55.0 million for the second quarter of 2016 as compared to \$54.4 million for the same period in 2015.

Income from Operations. Income from operations for the second quarter of 2016 decreased by \$10.6 million, or 13.5 percent, as compared to the second quarter of 2015, and operating margin decreased to 7.7 percent from 8.6 percent over the same periods.

Income from operations of the metal container business for the second quarter of 2016 decreased \$2.4 million, or 5.0 percent, as compared to the same period in 2015, while operating margin remained constant at 8.7 percent over the same periods. The decrease in income from operations was primarily attributable to rationalization charges related to the shutdown of the LaPorte, Indiana manufacturing facility, start-up costs related to the new can manufacturing facility in Iowa and lower unit volumes, partially offset by a favorable mix of products sold and better operating performance than in the prior year quarter. Rationalization charges were \$4.0 million for the second quarter of 2016.

Income from operations of the closures business for the second quarter of 2016 increased \$0.7 million, or 2.8 percent, as compared to the same period in 2015, and operating margin increased to 12.3 percent from 11.9 percent over the same periods. The increase in income from operations was primarily due to higher unit volumes and strong operating performance, partially offset by the unfavorable impact from the lagged pass through of increases in resin costs.

-20-

Income from operations of the plastic container business for the second quarter of 2016 decreased \$8.4 million as compared to the same period in 2015, and operating margin decreased to 0.7 percent from 6.1 percent over the same periods. The decrease in income from operations was primarily attributable to higher incremental costs and inefficiencies incurred to service customers during the footprint optimization program, lower unit volumes, start-up costs related to the new manufacturing facilities in Pennsylvania and Missouri and the favorable impact in the prior year period from the lagged pass through of decreases in resin costs.

Interest and Other Debt Expense. Interest and other debt expense for the second quarter of 2016 increased slightly to \$16.9 million as compared to \$16.8 million in the same period in 2015.

Provision for Income Taxes. The effective tax rate for the second quarter of 2016 was 34.4 percent as compared to 31.3 percent for the same period in 2015. The effective tax rate in the second quarter of 2015 benefitted from higher income in lower tax jurisdictions.

Six Months Ended June 30, 2016 Compared with Six Months Ended June 30, 2015

Overview. Consolidated net sales were \$1.67 billion in the first six months of 2016, representing a 3.7 percent decrease as compared to the first six months of 2015 primarily as a result of the pass through of lower raw material costs across all businesses and lower unit volumes and the impact of unfavorable foreign currency translation in the plastic container business, partially offset by an increase in unit volumes in the closures business and a favorable mix of products sold in the metal container business. Income from operations for the first six months of 2016 decreased by \$20.3 million, or 14.0 percent, as compared to the same period in 2015 primarily as a result of higher manufacturing costs in the metal and plastic container businesses including start-up costs related to the new manufacturing facilities, the unfavorable impact from the lagged pass through of changes in resin costs in the closures and plastic container businesses as compared to the prior year period, higher rationalization charges, lower unit volumes in the plastic container business and foreign currency transaction losses in the current year period as compared to foreign currency transaction gains in the prior year period. These decreases were partially offset by an increase in unit volumes and manufacturing efficiencies in the closures business and a favorable mix of products sold in the metal container business. Rationalization charges were \$6.1 million for the first six months of 2016 as compared to \$1.7 million for the same period in 2015. Net income was \$59.9 million for the first six months of 2016 as compared to \$75.5 million for the same period in 2015. Net income per diluted share for the first six months of 2016 was \$0.98 as compared to \$1.22 for the same period in 2015.

Net Sales. The \$63.4 million decrease in consolidated net sales in the first six months of 2016 as compared to the first six months of 2015 was the result of lower net sales across all businesses.

Net sales for the metal container business decreased \$29.5 million, or 2.9 percent, in the first six months of 2016 as compared to the same period in 2015. This decrease was primarily the result of the pass through of lower raw material costs, partially offset by a favorable mix of products sold.

Net sales for the closures business decreased \$2.6 million, or 0.6 percent, in the first six months of 2016 as compared to the same period in 2015. This decrease was primarily the result of the pass through of lower raw material costs, partially offset by an increase in unit volumes of approximately 4 percent. The increase in unit volumes was primarily due to strong demand from U.S. beverage markets.

Net sales for the plastic container business decreased \$31.3 million, or 10 percent, in the first six months of 2016 as compared to the same period in 2015. This decrease was principally due to the pass through of lower raw material

costs, lower unit volumes of approximately 3 percent primarily as a result of the continued rebalancing of the customer portfolio in conjunction with the footprint optimization program and the impact of unfavorable foreign currency translation of approximately \$4.5 million.

Gross Profit. Gross profit margin decreased 0.3 percentage points to 14.5 percent in the first six months of 2016 as compared to the same period in 2015 for the reasons discussed below in "Income from Operations."

Selling, General and Administrative Expenses. Selling, general and administrative expenses as a percentage of consolidated net sales increased 0.3 percentage points to 6.6 percent for the first six months of 2016 as compared to 6.3 percent for the same period in 2015. Selling, general and administrative expenses increased \$1.5 million to \$110.4 million for the first six months of 2016 as compared to \$108.9 million for the same period in 2015.

Income from Operations. Income from operations for the first six months of 2016 decreased by \$20.3 million, or 14.0 percent, as compared to the first six months of 2015, and operating margin decreased to 7.5 percent from 8.4 percent over the same periods.

-21-

Income from operations of the metal container business for the first six months of 2016 decreased \$5.5 million, or 6.2 percent, as compared to the same period in 2015, and operating margin decreased to 8.5 percent from 8.8 percent over the same periods. The decrease in income from operations was primarily due to higher manufacturing costs including start-up costs related to the new can manufacturing facility, higher rationalization charges related to the shutdown of the LaPorte, Indiana manufacturing facility and foreign currency transaction gains in the prior year period, partially offset by a more favorable mix of products sold. Rationalization charges were \$4.0 million for the first six months of 2016.

Income from operations of the closures business for the first six months of 2016 increased \$3.6 million, or 7.8 percent, as compared to the same period in 2015, and operating margin increased to 12.4 percent from 11.4 percent over the same periods. The increase in income from operations was primarily due to higher unit volumes and manufacturing efficiencies, partially offset by the unfavorable impact from the lagged pass through of changes in resin costs.

Income from operations of the plastic container business for the first six months of 2016 decreased \$17.5 million, as compared to the same period in 2015, and operating margin decreased to 0.4 percent from 5.9 percent over the same periods. The decrease in income from operations was primarily attributable to higher incremental costs and inefficiencies incurred to service customers during the footprint optimization program, start-up costs related to the new manufacturing facilities, lower unit volumes, the favorable impact in the prior year period from the lagged pass through of decreases in resin costs, higher rationalization charges and foreign currency transaction losses. Rationalization charges were \$1.7 million and \$0.5 million for the six months ended June 30, 2016 and 2015, respectively.

Interest and Other Debt Expense. Interest and other debt expense for the first six months of 2016 increased slightly to \$33.3 million as compared to \$33.2 million in the same period in 2015.

Provision for Income Taxes. The effective tax rate for the first six months of 2016 was 34.7 percent as compared to 32.6 percent in the same period in 2015. The effective tax rate in 2016 was unfavorably impacted by the cumulative adjustment of a change in tax law in a certain foreign jurisdiction, partially offset by higher income in more favorable tax jurisdictions. The effective tax rate in 2015 benefitted from higher income in more favorable tax jurisdictions.

CAPITAL RESOURCES AND LIQUIDITY

Our principal sources of liquidity have been net cash from operating activities and borrowings under our debt instruments, including our senior secured credit facility. Our liquidity requirements arise from our obligations under the indebtedness incurred in connection with our acquisitions and the refinancing of that indebtedness, capital investment in new and existing equipment, the funding of our seasonal working capital needs and other general corporate uses.

For the six months ended June 30, 2016, we used net borrowings of revolving loans of \$417.3 million to fund cash used in operations of \$162.6 million, decreases in outstanding checks of \$101.8 million, net capital expenditures of \$102.9 million, dividends paid on our common stock of \$20.9 million, the repayment of \$6.4 million of long-term debt and repurchases of common stock under the stock plan of \$2.2 million and to increase cash and cash equivalents by \$20.5 million.

For the six months ended June 30, 2015, we used net borrowings of revolving loans of \$416.1 million, cash and cash equivalents of \$95.9 million and proceeds from the issuance of long-term debt of \$4.0 million to fund repurchases of

our common stock of \$170.1 million, cash used in operations of \$136.0 million, decreases in outstanding checks of \$82.8 million, net capital expenditures of \$98.1 million, dividends paid on our common stock of \$20.1 million, the repayment of \$5.6 million of long-term debt, repurchases of common stock under the stock plan of \$2.6 million and the purchase of a business for \$0.7 million.

At June 30, 2016, we had \$416.5 million of revolving loans outstanding under the Credit Agreement. After taking into account outstanding letters of credit, the available portion of revolving loans under the Credit Agreement at June 30, 2016 was \$551.1 million and Cdn \$15.0 million.

Because we sell metal containers and closures used in fruit and vegetable pack processing, we have seasonal sales. As is common in the industry, we must utilize working capital to build inventory and then carry accounts receivable for some customers beyond the end of the packing season. Due to our seasonal requirements, which generally peak sometime in the summer or early fall, we may incur short-term indebtedness to finance our working capital requirements. Our peak seasonal working capital requirements have historically averaged approximately \$350 million. We fund seasonal working capital requirements through revolving loans under the Credit Agreement, other foreign bank loans and cash on hand. We may use the available portion of revolving loans under

-22-

the Credit Agreement, after taking into account our seasonal needs and outstanding letters of credit, for other general corporate purposes including acquisitions, capital expenditures, dividends, stock repurchases and to refinance or repurchase other debt.

We believe that cash generated from operations and funds from borrowings available under the Credit Agreement and other foreign bank loans will be sufficient to meet our expected operating needs, planned capital expenditures, debt service, tax obligations, pension benefit plan contributions, share repurchases and common stock dividends for the foreseeable future. We continue to evaluate acquisition opportunities in the consumer goods packaging market and may incur additional indebtedness, including indebtedness under the Credit Agreement, to finance any such acquisition.

We are in compliance with all financial and operating covenants contained in our financing agreements and believe that we will continue to be in compliance during 2016 with all of these covenants.

Rationalization Charges

We continually evaluate cost reduction opportunities across each of our businesses, including rationalizations of our existing facilities through plant closings and downsizings. We use a disciplined approach to identify opportunities that generate attractive cash returns. Under our rationalization plans, we made cash payments of \$3.7 million and \$4.3 million for the six months ended June 30, 2016 and 2015, respectively. Additional cash spending under our rationalization plans of approximately \$8.2 million is expected primarily within the next twelve months.

Recently Adopted Accounting Pronouncements

In July 2015, the FASB issued an ASU that amends existing guidance for measuring inventories. This amendment requires us to measure inventories recorded using the first-in, first-out method and the average cost method at the lower of cost and net realizable value. This amendment did not change the methodology for measuring inventories recorded using the last-in, first-out method. As permitted, we have adopted this amendment early, effective January 1, 2016, and have applied it prospectively. The adoption of this amendment did not have a material effect on our financial position, results of operations or cash flows.

In March 2016, the FASB issued an ASU that amends the guidance for stock compensation accounting. This amendment (i) requires all income tax effects of stock-based compensation awards to be recognized in the statement of income when such awards vest or are settled, (ii) allows an employer to repurchase more of an employee's shares upon the vesting or settlement of an award than it could have previously for tax withholding purposes without triggering liability accounting, (iii) allows an employer to make a policy election to recognize forfeitures in respect of awards as they occur and (iv) specifies certain classifications on the statement of cash flows related to excess tax benefits and shares repurchased from employees for tax withholding purposes. As permitted, we have adopted this amendment early, effective January 1, 2016, and have applied it (i) prospectively as it related to recognizing income tax effects of awards in the statement of income, (ii) using the modified retrospective method as it related to classifying certain awards as equity rather than liabilities and recognizing forfeitures as they occur, and (iii) using the retrospective method as it related to classifying excess tax benefits on the statement of cash flows. The adoption of this amendment did not have a material effect on our financial position, results of operations or cash flows.

Recently Issued Accounting Pronouncements

In May 2014, the FASB issued an ASU that amends the guidance for revenue recognition. This amendment contains principles that will require an entity to recognize revenue to depict the transfer of goods and services to customers at an amount that an entity expects to be entitled to in exchange for those goods or services. This amendment permits the use of one of two retrospective transition methods. This amendment will be effective for us on January 1, 2018, with early adoption permitted up to one year prior to the effective date. We have not yet selected a transition method and are currently evaluating the impact of this amendment on our financial position, results of operations and cash flows.

In February 2016, the FASB issued an ASU that amends existing guidance for certain leases by lessees. This amendment will require us to recognize assets and liabilities on the balance sheet for the rights and obligations created by long-term leases and to disclose additional quantitative and qualitative information about leasing arrangements. In addition, this amendment clarifies the presentation requirements of the effects of leases in the statement of income and statement of cash flows. This amendment will be effective for us on January 1, 2019. Early adoption is permitted. This amendment is required to be adopted using a modified retrospective approach. We are currently evaluating the impact of this amendment on our financial position, results of operations and cash flows.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risks relating to our operations result primarily from changes in interest rates and, with respect to our international metal container and closures operations and our Canadian plastic container operations, from foreign currency exchange rates. In the normal course of business, we also have risk related to commodity price changes for items such as natural gas. We employ established policies and procedures to manage our exposure to these risks. Interest rate, foreign currency and commodity pricing transactions are used only to the extent considered necessary to meet our objectives. We do not utilize derivative financial instruments for trading or other speculative purposes.

Information regarding our interest rate risk, foreign currency exchange rate risk and commodity pricing risk has been disclosed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2015. Since such filing, there has not been a material change to our interest rate risk, foreign currency exchange rate risk or commodity pricing risk or to our policies and procedures to manage our exposure to these risks.

You should also read Notes 5 and 6 to our Condensed Consolidated Financial Statements for the three and six months ended June 30, 2016 included elsewhere in this Quarterly Report.

Item 4. CONTROLS AND PROCEDURES

As required by Rule 13a-15(e) of the Securities Exchange Act of 1934, as amended, or the Exchange Act, we carried out an evaluation, under the supervision and with the participation of management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures. Based upon that evaluation, as of the end of the period covered by this Quarterly Report, our Chief Executive Officer and Chief Financial Officer concluded that the disclosure controls and procedures were effective to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms, and that our disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports we file or submit under the Exchange Act is accumulated and communicated to our management, including the Principal Executive Officer and the Principal Financial Officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

There were no changes in our internal controls over financial reporting during the period covered by this Quarterly Report that have materially affected, or are reasonably likely to materially affect, these internal controls.
