Email to Covidien Europe employees re Joe/Omar visit to Zurich

Dear All,

On September 16, Covidien Chairman, President and CEO Joe Almeida and Medtronic Chairman and CEO Omar Ishrak visited Zurich to host a Town Hall with employees, and to meet with Covidien leaders to get an overview of our business in Europe and the European Emerging Markets, Middle East and Africa. This is part of a series of visits by both CEOs to Covidien and Medtronic sites. Previous stops include Covidien's sites in New Haven, Connecticut, Plymouth, Minnesota and Miami, Florida; as well as Covidien and Medtronic sites in Colorado. The CEOs plan to visit other locations in the coming months.

The Medtronic team was enthusiastic about our business in the region, and our ability to make a positive impact on patients worldwide. They were highly engaged and asked thoughtful, in-depth questions.

Omar took time to explain the company's Mission to alleviate pain, restore health and extend life. He also underscored Medtronic's strong commitment to patients and expressed pride and excitement at the prospect of the two companies making a difference together. The feedback that I personally received from the attendees of the Town Hall was overwhelmingly positive.

Combining two companies of our size and reach is complicated and will require a defined approach and strategy to ensure a successful integration. There are two major phases of integration during an acquisition - pre-close integration planning and post-close implementation of those integration plans. Currently, we are in the **pre-close planning stage**.

Omar Ishrak outlined the following key principles for the integration planning effort:

Preserve: Focus on your business. Each company must continue to stay focused on delivering on our current commitments to customers, shareholders and patients.

Optimize: Effective integration planning requires understanding both companies' current operations and what capabilities, processes and people will best serve the combined company when the proposed acquisition closes.

Accelerate: Our goal is to conduct the assessment and implementation of the integration as quickly as possible.

Transform: Once the transaction closes, a cultural and financial transformation follows.

The main topics and questions addressed at the Town Hall focused on Medtronic's culture, strategy and structure. This information is captured in the [FAQs](#) published on the Pulse.

I'd like to thank all those that participated in the event for their active participation.

Best Regards,

Cristiano

Covidien Cautionary Statement Regarding Forward-Looking Statements

Statements contained in this communication that refer to Covidien's estimated or anticipated future results, including estimated synergies, or other non-historical facts are forward-looking statements that reflect Covidien's current perspective of existing trends and information as of the date of this communication. Forward-looking statements generally will be accompanied by words such as anticipate, believe, plan, could, should,

estimate, expect, forecast, outlook, guidance, intend, may, might, will, possible, potential, or similar words, phrases or expressions. It is important to note that Covidien's goals and expectations are not predictions of actual performance. Actual results may differ materially from Covidien's current expectations depending upon a number of factors affecting Covidien's business, Medtronic's business and risks associated with the proposed transactions. These factors include, among others, the inherent uncertainty associated with financial projections; the timing to consummate the proposed transactions; the risk that a condition to closing of the proposed transactions may not be satisfied; the risk that the required regulatory approvals for the proposed transactions are not obtained, are delayed or are subject to conditions that are not anticipated; New Medtronic's ability to achieve the synergies and value creation contemplated by the proposed transactions; the anticipated size of the markets and continued demand for Medtronic's and Covidien's products; New Medtronic's ability to promptly and effectively integrate Medtronic's and Covidien's businesses; the diversion of management time on transaction-related issues; competitive factors and market conditions in the industry in which Covidien operates; Covidien's ability to obtain regulatory approval and customer acceptance of new products, and continued customer acceptance of Covidien's existing products; and the other risks identified in Covidien's periodic filings including its Annual Report on Form 10-K for the fiscal year ended September 27, 2013, and from time to time in Covidien's other investor communications. We caution you that the foregoing list of important factors is not exclusive. In addition, in light of these risks and uncertainties, the matters referred to in Covidien's forward-looking statements may not occur. Covidien undertakes no obligation to publicly update or revise any forward-looking statement as a result of new information, future events or otherwise, except as may be required by law.
