Today's Discussion

2

2014 has been a good year

From an industry standpoint, 2014 is finishing with challenges that will continue in 2015

Targa is well positioned to handle the challenges

(that includes position after Targa/Atlas close)

Preliminary Summary of Performance vs 2014 Business Priorities

2014 Business Priorities

Execute on all business dimensions, including  
2014 guidance for EBITDA and distribution/dividend  
growth as furnished from time to time

Continue to control all costs operating, capital  
and G&A

Continue to attract and retain the operational and

professional talent needed in our businesses  
Continue to manage tightly credit, inventory,  
interest rate and commodity price exposures  
Pursue commercial and financial approaches to  
achieve maximum value and manage risks  
Execute on major capital and development  
projects finalizing negotiations, completing projects  
on time and on budget, and optimizing economics  
and capital funding  
Pursue selected growth opportunities including  
G&P build outs, fee-based capex projects, and  
potential  
purchases  
of  
strategic  
assets  
Continue the expansion of system capabilities and  
the commercialization of our Bakken shale  
midstream business including volume targets for  
2014  
Continue priority emphasis and strong performance  
relative to a safe workplace  
Reinforce business philosophy and mindset that  
promotes compliance in all aspects of our business  
including environmental and regulatory compliance  
3  
Continued strong HS&E track record and performance, industry recognition  
> 1700 contractor FTEs at our facilities with no significant safety incidents  
Execution and performance across our businesses  
2014 continues transformation that was underway in 2013 to a diversified mid-stream  
company with increased scale  
Each reportable segment at or above Plan  
Distribution/dividend growth  
Fractionation and export volumes  
Balance sheet management and credit ratings  
Major project execution  
Capital markets execution, including equity  
ATM  
Expense control  
~  
Most business units above plan  
Credit, inventory, hedging  
Execution on capital projects continues long-term organic growth  
CBF Train 5  
Low Ethane Exports Phase 2  
High Plains / Longhorn Plant Startups  
Midland County Pipeline  
Little Missouri 40 & 200 MMcf/d Plants  
300 MMcf/d Winkler County Plant  
Condensate Splitter

Continued development of potential expansion project portfolio

Ethane Exports

Additional Condensate Splitter

CBF Trains 6 and 7

Additional G&P and Badlands Expansions

Targa/Atlas merger agreement structuring, negotiation and execution

Adds attractive positions in active basins

Increases scale and enhances credit profile

Adds significant growth opportunities

Creates significant long-term value

**Strong Execution Sustains Current and Long-Term Value**

Strong execution of business priorities combined with a disciplined growth strategy generate unitholder and shareholder value in the near-term, over the long-term and position Targa for the future

4

2014 Finishing with Challenges that Continue in 2015

5

Beginning in Q4, significant drop and significant uncertainty in commodity prices impacting producers and therefore impacting

Targa and other midstream companies

Difficulty for producers to predict, plan and adjust to lower, uncertain prices

and therefore difficulty for Targa and other midstream companies

Likely continued uncertainties associated with prices, future activity levels and future volume levels

Resulting need for flexibility, cost control and capital expenditure efficiency

Targa + Atlas: Strategic Highlights  
Attractive Positions in Active Basins  
Creates World-Class Permian Footprint  
Complementary Assets with Significant Growth Opportunities  
Enhances  
Credit Profile  
Significant Long-Term Value Creation

Increased Size and Scale

General Principals and Governing Thoughts for the Combination

14

The overall philosophy in preparing for closing of the Atlas Mergers is to keep both organizations in place and motivated to continue to execute

Continue execution of Targa and APL business strategies and growth plans without disruption

Retain a talented midstream G&P organization with different geographic locations

Manage

the

acquired  
businesses  
through  
Tulsa  
and  
through  
a  
Tulsa  
leadership  
team

Minimize the potential burdens and distractions for the Targa team in connection with the merger

Our goal is to keep all the talent we can across companies and locations

The APL leadership team in Tulsa has agreed to remain in place

Pat McDonie reporting to Mike Heim

Trey Karlovich reporting to Matt Meloy

Jack Wygle reporting to Jeff McParland

Jerry Shrader reporting to Paul Chung

Both organizations are short people and fully loaded managing and executing business growth and business performance

Obviously, some corporate and technical functions will need to coordinate to establish common policies and philosophies

But  
please  
note  
that  
coordination  
is  
not  
the  
same  
as  
integration  
or  
consolidation

Conclusions

15

Once the Targa/Atlas Mergers close, Targa will be a larger, more diversified midstream company

About 40% larger in enterprise value and headcount

One of larger, more diversified MLPs

Great presence in more producing basins with more potential Y-grade supply

Stronger position to continue to grow; stronger position to withstand cycles

Investment grade sooner

Targa is well positioned to handle the challenges associated with commodity prices

(that includes position after Atlas close)
