POTBELLY CORPORATION AND SUBSIDIARIES

Notes to Unaudited Condensed Consolidated Financial Statements

(1) Organization and Other Matters

Business

Potbelly Corporation (the Company or Potbelly), through its wholly-owned subsidiaries, operates Potbelly Sandwich Works sandwich shops in 27 states and the District of Columbia. As of March 29, 2015 and March 30, 2014, the Company had 339 and 305 company-operated shops, respectively. During the 13 weeks ended March 29, 2015, the Company opened seven new company-operated shops and closed two shops. During the 13 weeks ended March 30, 2014, the Company opened nine new company-operated shops and closed no shops.

The Company also sells and administers franchises of Potbelly Sandwich Works sandwich shops. The first domestic and international franchise locations administered by the Company opened during February 2011. As of March 29, 2015, 17 franchised shops were in operation domestically and 12 franchised shops were in operation internationally. During the 13 weeks ended March 29, 2015, the Company did not open or close any franchised shops. During the 13 weeks ended March 30, 2014, the Company opened two franchised shops and closed no franchised shops.

Basis of Presentation

The unaudited condensed consolidated financial statements and notes herein should be read in conjunction with the audited consolidated financial statements of Potbelly Corporation and its subsidiaries and the notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 28, 2014. The unaudited condensed consolidated financial statements included herein have been prepared by the Company without audit, pursuant to the rules and regulations of the SEC regarding interim financial reporting. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) have been condensed or omitted pursuant to the SEC's rules and regulations. In the opinion of management, all adjustments, which are of a normal and recurring nature (except as otherwise noted), that are necessary to present fairly the Company's financial position as of December 28, 2014 and March 29, 2015, its statement of operations for the 13 weeks ended March 30, 2014 and March 29, 2015 and its statement of cash flows for the 13 weeks ended March 30, 2014 and March 29, 2015 have been included. The consolidated statements of operations for the interim periods presented herein are not necessarily indicative of the results to be expected for the full year.

The Company does not have any components of other comprehensive income (loss) recorded within its consolidated financial statements, and, therefore, does not separately present a statement of comprehensive income (loss) in its consolidated financial statements.

Principles of Consolidation

The unaudited condensed consolidated financial statements include the accounts of Potbelly Corporation; its wholly owned subsidiary, Potbelly Illinois, Inc. (PII); PII's wholly owned subsidiaries, Potbelly Franchising, LLC and Potbelly Sandwich Works LLC (LSW) and 18 of LSW's wholly owned subsidiaries and the LSW's three joint ventures, collectively, the Company. All significant intercompany balances and transactions have been eliminated in consolidation. For consolidated joint ventures, non-controlling interest represents a non-controlling partner's share of the assets, liabilities and operations related to the three joint venture investments. The Company has ownership

interests ranging from 65-80% in these consolidated joint ventures.

Fiscal Year

The Company uses a 52/53-week fiscal year that ends on the last Sunday of the calendar period. Approximately every five or six years a 53rd week is added. Fiscal years 2014 and 2015 each consist of 52 weeks. The fiscal quarters ended March 30, 2014 and March 29, 2015 each consisted of 13 weeks.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions, primarily related to the long-lived assets and income taxes, that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Table of Contents

POTBELLY CORPORATION AND SUBSIDIARIES

Notes to Unaudited Condensed Consolidated Financial Statements

(2) Fair Value Measurement

The carrying amounts of cash and cash equivalents, accounts receivable, accounts payable and all other current liabilities approximate fair values due to the short maturities of these balances.

The Company assesses potential impairments to its long-lived assets, which includes property and equipment, whenever events or circumstances indicate that the carrying amount of an asset may not be recoverable. Shop-level assets are grouped at the individual shop-level for the purpose of the impairment assessment. Recoverability of an asset is measured by a comparison of the carrying amount of an asset to its estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of the asset group exceeds its estimated undiscounted future cash flows, an impairment charge is recognized as the amount by which the carrying amount of the asset exceeds the fair value of the asset. After performing a periodic review of our shops during the first fiscal quarter of 2015, it was determined that indicators of impairment were present for certain shops as a result of continued underperformance of shop profitability. We performed an impairment analysis related to these shops and recorded impairment charges of \$0.3 million for the 13 weeks ended March 29, 2015 related to the excess of the carrying amounts recorded on our balance sheet over the identified shops' estimated fair values. The fair value of the shop assets was determined using the discounted future cash flow method of anticipated cash flows through the shop's lease-end date using fair value measurement inputs classified as Level 3. Level 3 inputs are derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

In fiscal 2014, the Company established a non-qualified deferred compensation plan, Potbelly Non-Qualified Deferred Compensation Plan, which allows highly compensated employees to defer a portion of their base salary and variable compensation each plan year. The Company maintains a rabbi trust to fund obligations under the deferred compensation plan. Amounts in the rabbi trust are invested in mutual funds. The investments in the rabbi trust are designated as trading securities and carried at fair value. Fair market value of investments in the rabbi trust is measured using Level 1 inputs (quoted prices for identical assets in active markets). As of March 29, 2015, the fair value of the investments in the rabbi trust was \$53 thousand, which is included in other assets in the condensed consolidated balance sheet. The associated liability is recorded within other long-term liabilities in the condensed consolidated balance sheet. The Company records trading gains and losses in general and administrative expenses in the condensed consolidated statement of operations, along with the offsetting amount related to the increase or decrease in deferred compensation to reflect its exposure to liabilities for payment under the deferred plan. For the three months ended March 29, 2015, the Company recorded an immaterial amount of unrealized losses on investments held in the rabbi trust.

(3) Earnings per share

Basic and diluted income (loss) per share are calculated using the weighted average number of shares outstanding for the period as follows:

For the 13 Weeks Ended

	March 29, 2015	March 30, 2014
Net income (loss) attributable to Potbelly Corporation	\$ 531	\$ (301)
Weighted average common shares outstanding-basic	28,905,084	29,150,824
Plus: Effect of potential stock options exercise	710,280	
Plus: Effect of potential warrant exercise	59,668	
Weighted average common shares outstanding-diluted	29,675,032	29,150,824
Income (loss) per share available to common stockholders-basic	\$ 0.02	\$ (0.01)
Income (loss) per share available to common stockholders-diluted	\$ 0.02	\$ (0.01)
<u>Potentially dilutive shares that are considered anti-dilutive:</u>		
Common share options	726,673	5,238,508
Warrants		241,704

(4) Income Taxes

The Company recognized income tax expense of \$0.4 million on pre-tax income of \$0.9 million, or an effective tax rate of 39.6%, for the 13 weeks ended March 29, 2015, compared to an income tax benefit of \$0.2 million on pre-tax loss of \$0.5 million, or an effective tax rate of 39.5%, for the 13 weeks ended March 30, 2014. The difference between the statutory rate and the effective tax rate is primarily attributable to state income taxes offset by certain federal and state tax credits.

Table of Contents**POTBELLY CORPORATION AND SUBSIDIARIES****Notes to Unaudited Condensed Consolidated Financial Statements****(5) Capital Stock**

On August 1, 2014, the Company's Board of Directors authorized a share repurchase program of up to \$35.0 million of the Company's common stock. Under this program, the Company may, from time to time, purchase shares in the open market (including in pre-arranged stock trading plans in accordance with the guidelines specified in Rule 10b5-1 under the Securities Exchange Act of 1934, as amended) or in privately negotiated transactions. During the 13 weeks ended March 29, 2015, the Company repurchased 334,686 shares of its common stock for approximately \$4.4 million in open market transactions. As of March 29, 2015, the remaining dollar value of authorization under the share repurchase program was \$20.4 million. Repurchased shares are included as treasury stock in the Condensed Consolidated Balance Sheets and the Condensed Consolidated Statement of Equity.

(6) Stock-Based Compensation

Throughout the 13 weeks ending March 29, 2015, the Company issued 253,479 stock options under the 2013 Long-Term Incentive Plan to eligible employees and key executives. The fair value of the options was determined using the Black-Scholes option pricing model. The weighted average fair value of options granted during the 13 weeks ended March 29, 2015 was \$6.37 per share, as estimated using the following weighted average assumptions: expected life of options seven years; volatility- 45.65%; risk-free interest rate 1.90%; and dividend yield 0.00%. The Company used the simplified method for determining the expected life of the options. Due to the lack of historical data as a newly public company, the Company calculated the specific stock price volatility using a blended volatility rate based on comparable publicly traded companies.

A summary of activity for the 13 weeks ended March 29, 2015 is as follows:

Options	Shares (Thousands)	Weighted Average Exercise Price	Aggregate Intrinsic Value (Thousands)	Weighted Average Remaining Term (Years)
Outstanding December 28, 2014	4,613	\$ 10.10	\$ 12,731	5.62
Granted	253	12.98		
Exercised	(110)	9.74		
Canceled	(116)	14.63		
Outstanding March 29, 2015	4,640	10.15	\$ 18,607	5.61
Exercisable March 29, 2015	3,570	9.29	\$ 16,669	4.68

In accordance with ASC Topic 718, *Compensation - Stock Compensation*, stock-based compensation is measured at the grant date, based on the calculated fair value of the award, and is recognized as an expense over the requisite employee service period, which is generally the vesting period of the grant, with a corresponding increase to additional paid-in-capital. For each of the 13 weeks ended March 29, 2015 and March 30, 2014, the Company recognized stock-based compensation expense of \$0.5 million. As of March 29, 2015, the unrecognized stock-based compensation expense was \$6.1 million, which will be recognized through fiscal year 2019. The Company records stock-based compensation expense within general and administrative expenses in the consolidated statements of operations.

Table of Contents**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.****Forward-Looking Statements**

The following discussion of our financial condition and results of operations should be read in conjunction with the unaudited condensed consolidated financial statements and the notes thereto included elsewhere in this Quarterly Report on Form 10-Q and with our audited consolidated financial statements included in our Annual Report on Form 10-K for the fiscal year ended December 28, 2014. This discussion contains forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act), and involves numerous risks and uncertainties. Forward-looking statements can be identified by the fact that they do not relate strictly to historical or current facts and generally contain words such as believes, expects, may, will, should, seeks, intends, plans, strives, goal, estimates, forecasts, projects or anticipates or similar expressions. Our forward-looking statements are subject to risks and uncertainties, which may cause actual results to differ materially from those projected or implied by the forward-looking statement. Forward-looking statements are based on current expectations and assumptions and currently available data and are neither predictions nor guarantees of future events or performance. You should not place undue reliance on forward-looking statements, which speak only as of the date hereof. See Risk Factors and Cautionary Note Regarding Forward-Looking Statements included in our Annual Report on Form 10-K for the fiscal year ended December 28, 2014, for a discussion of factors that could cause our actual results to differ from those expressed or implied by forward-looking statements.

Overview

Potbelly is a fast-growing neighborhood sandwich concept offering toasty warm sandwiches, signature salads and other fresh menu items served by engaging people in an environment that reflects the Potbelly brand. Our combination of product, people and place is how we deliver on our passion to be The Best Place for Lunch. Our sandwiches, salads and hand-dipped milkshakes are all made fresh to order and our cookies are baked fresh each day. Our employees are trained to engage with our customers in a genuine way to provide a personalized experience. Our shops feature vintage design elements and locally-themed décor inspired by the neighborhood that we believe create a lively atmosphere. Through this combination, we believe we are creating a devoted base of Potbelly fans that return again and again and that we are expanding one sandwich shop at a time.

We believe that a key to our past and future success is our culture. It is embodied in *The Potbelly Advantage*, which is an expression of our Vision, Mission, Passion and Values, and the foundation of everything we do. Our Vision is for our customers to feel that we are their Neighborhood Sandwich Shop and to tell others about their great experience. Our Mission is to make people really happy, to make more money and to improve every day. Our Passion is to be The Best Place for Lunch. Our Values embody both how we lead and how we behave, and form the cornerstone of our culture. We use simple language that resonates from the frontline associate to the most senior levels of the organization, creating shared expectations and accountabilities in how we approach our day-to-day activities. We strive to be a fun, friendly and hardworking group of people who enjoy taking care of our customers, while at the same time taking care of each other.

* Amount is less than 0.1%

Revenues

Total revenues increased by \$11.9 million, or 16.1%, to \$85.8 million during the 13 weeks ended March 29, 2015, from \$73.9 million during the 13 weeks ended March 30, 2014. The increase in revenues primarily consisted of an increase of \$8.1 million in sales from shops not yet in our company-operated comparable store sales base and a \$3.8 million, or 5.4%, increase in company-operated comparable store sales. The increase in company-operated comparable store sales resulted from increases in average check from certain menu price increases and menu mix, delivery income as well as traffic.

Cost of Goods Sold

Cost of goods sold increased by \$3.2 million, or 15.5%, to \$24.3 million during the 13 weeks ended March 29, 2015, compared to \$21.1 million during the 13 weeks ended March 30, 2014, primarily due to the increase in revenues. As a percentage of revenues, cost of goods sold decreased to 28.4% during the 13 weeks ended March 29, 2015, from 28.5% during the 13 weeks ended March 30, 2014, primarily driven by certain menu price increases.

Labor and Related Expenses

Labor and related expenses increased by \$3.1 million, or 14.6%, to \$24.6 million during the 13 weeks ended March 29, 2015, from \$21.5 million during the 13 weeks ended March 30, 2014, primarily due to new shop openings. As a percentage of revenues, labor and related expenses decreased to 28.7% during the 13 weeks ended March 29, 2015, from 29.0% during the 13 weeks ended March 30, 2014, primarily driven by lower manager labor, partially offset by higher associate labor, performance-based manager bonuses and an additional field incentive program to reward employees for tenure and development of others.

Table of Contents***Occupancy Expenses***

Occupancy expenses increased by \$1.3 million, or 13.7%, to \$11.3 million during the 13 weeks ended March 29, 2015, from \$10.0 million during the 13 weeks ended March 30, 2014, primarily due to new shop openings. As a percentage of revenues, occupancy expenses decreased to 13.2% during the 13 weeks ended March 29, 2015, from 13.5% during the 13 weeks ended March 30, 2014, primarily due to sales leverage (i.e., the ability to spread certain expenses over a higher revenue base).

Other Operating Expenses

Other operating expenses increased by \$1.5 million, or 18.4%, to \$9.7 million during the 13 weeks ended March 29, 2015, from \$8.2 million during the 13 weeks ended March 30, 2014. The increase is attributable to new shop openings, increased marketing spend as well as increased fees associated with credit card usage in our shops. As a percentage of revenues, other operating expenses increased to 11.3% during the 13 weeks ended March 29, 2015, from 11.0% during the 13 weeks ended March 30, 2014, primarily due to increased marketing spend as well as costs associated with various other operating expenses.

General and Administrative Expenses

General and administrative expenses increased by \$1.0 million, or 12.9%, to \$8.8 million during the 13 weeks ended March 29, 2015, from \$7.8 million during the 13 weeks ended March 30, 2014. The net increase is driven primarily by an increase in our performance-based incentives and higher labor-related costs, as well as increased spending on advertising. As a percentage of revenues, general and administrative expenses decreased to 10.3% during the 13 weeks ended March 29, 2015, from 10.6% during the 13 weeks ended March 30, 2014, driven by the factors above, coupled with sales leverage (i.e., the ability to spread certain costs over a higher revenue base).

Depreciation Expense

Depreciation expense increased by \$0.5 million, or 9.2%, to \$5.2 million during the 13 weeks ended March 29, 2015, from \$4.7 million during the 13 weeks ended March 30, 2014, primarily due to a higher depreciable base related to new shops and existing shop capital investments. As a percentage of revenues, depreciation decreased to 6.0% during the 13 weeks ended March 29, 2015, from 6.4% during the 13 weeks ended March 30, 2014, driven by lower depreciation associated with new shops with lower build-out costs and longer expected useful lives for leasehold improvements, as well as leasehold improvements at legacy shops with higher build-out costs and shorter expected useful lives being fully depreciated.

Pre-Opening Costs

Pre-opening costs increased by \$0.2 million, or 114.7%, to \$0.5 million during the 13 weeks ended March 29, 2015, from \$0.3 million during the 13 weeks ended March 30, 2014, primarily due to timing of new shop openings during the 13 weeks ended March 29, 2015 compared to the 13 weeks ended March 30, 2014.

Impairment and Loss on Disposal of Property and Equipment

Impairment and loss on disposal of property and equipment decreased to \$0.3 million during the 13 weeks ended March 29, 2015, from \$0.8 million during the 13 weeks ended March 30, 2014. After performing a periodic review of our shops during the first quarter of 2015, it was determined that indicators of impairment were present for certain shops as a result of continued underperformance of shop profitability. We performed an impairment analysis related to

these shops and recorded an impairment charge of \$0.3 million related to the excess of the carrying amounts recorded on our balance sheet over the identified shops' estimated fair values.

Interest Expense, net

Interest expense increased by \$19 thousand, or 45.2%, to \$61 thousand during the 13 weeks ended March 29, 2015, from \$42 thousand during the 13 weeks ended March 30, 2014, primarily due to the accretion of certain occupancy-related interest costs. Interest expense for the 13 weeks ended March 29, 2015 is attributable to interest on the note payable, unused commitment fees, occupancy-related interest costs and deferred financing fees, partially offset by interest income related to money market funds.

Income Tax Expense

Income tax expense increased by \$0.6 million to \$0.4 million for the 13 weeks ended March 29, 2015, from a \$0.2 million benefit during the 13 weeks ended March 30, 2014. For the 13 weeks ended March 29, 2015, our effective tax rate was 39.6%, compared to 39.5% for the 13 weeks ended March 30, 2014.

Table of Contents**Liquidity and Capital Resources*****General***

Our primary sources of liquidity and capital resources are cash provided from operating activities, existing cash and cash equivalents and our credit facility. Our primary requirements for liquidity and capital are new shop openings, existing shop capital investments (maintenance and improvements), principal and interest payments on our debt, lease obligations, repurchases of our common stock and working capital and general corporate needs. Our requirement for working capital is not significant since our customers pay for their food and beverage purchases in cash or payment cards (credit or debit) at the time of sale. Thus, we are able to sell certain inventory items before we have to pay our suppliers for such items. Our shops do not require significant inventories or receivables. We believe that these sources of liquidity and capital will be sufficient to finance our continued operations and expansion plans for at least the next twelve months.

The following table presents summary cash flow information for the periods indicated (in thousands):

	For the 13 Weeks Ended	
	March 29, 2015	March 30, 2014
Net cash provided by (used in):		
Operating activities	\$ 10,153	\$ 6,516
Investing activities	(8,163)	(6,536)
Financing activities	(3,269)	(12)
Net (decrease) in cash	\$ (1,279)	\$ (32)

Operating Activities

Net cash provided by operating activities increased to \$10.2 million for the 13 weeks ended March 29, 2015, from \$6.5 million for the 13 weeks ended March 30, 2014. The \$3.7 million increase is primarily attributable to an increase of \$2.6 million in net shop-level profits as well as timing of the payment of working capital accounts partially offset by lower impairment expense.

Investing Activities

Net cash used in investing activities increased to \$8.2 million for the 13 weeks ended March 29, 2015, from \$6.5 million for the 13 weeks ended March 30, 2014. The increase was primarily due to capital expenditures for future shop openings, maintaining our existing shops and certain other projects, including costs associated with our plans to move our Company headquarters during the 13 weeks ended March 29, 2015 as compared to the same period in 2014.

Financing Activities

Net cash used in financing activities was \$3.3 million for the 13 weeks ended March 29, 2015, compared to \$12 thousand for the 13 weeks ended March 30, 2014. The increase in net cash used was driven by the \$4.4 million of treasury stock repurchased during the 13 weeks ended March 29, 2015, with no comparable transactions during the 13 weeks ended March 30, 2014, offset by \$1.1 million in cash proceeds received by us related to the exercise of stock options, net of payroll taxes paid, during the 13 weeks ended March 29, 2015, compared to \$8 thousand in cash

proceeds received during the 13 weeks ended March 30, 2014.

Stock Repurchase Program

On August 1, 2014, our Board of Directors authorized a share repurchase program of up to \$35.0 million of the Company's common stock. Under this program, we may, from time to time, purchase shares in the open market (including in pre-arranged stock trading plans in accordance with the guidelines specified in Rule 10b5-1 under the Exchange Act) or in privately negotiated transactions. During the 13 weeks ended March 29, 2015, we repurchased 334,686 shares of common stock for approximately \$4.4 million in open market transactions. At March 29, 2015, the remaining dollar value of authorization under the share repurchase program was \$20.4 million.

Credit Facility

On September 21, 2012, we entered into a five-year revolving credit facility agreement with JPMorgan Chase Bank, N.A. that expires in September 2017 and provides for borrowings up to \$35.0 million to fund capital expenditures for new shops, renovations

Table of Contents

and maintenance of existing shops, and to provide ongoing working capital for other general and corporate purposes. We will be entitled to incur additional incremental increases in the revolving credit facility of up to \$25.0 million that will be included in the credit facility if no event of default exists and certain other requirements are met. The credit facility contains customary representations, warranties, negative and affirmative covenants, including a requirement to maintain a maximum leverage ratio, as defined, of 2.25:1 and a minimum debt service coverage ratio, as defined, of 1.5:1. The credit facility also limits the restricted payments (primarily distributions and equity repurchases) that we may make, unless we obtain certain waivers or amendments from our lender. We were in compliance with these restrictions and conditions as of March 29, 2015. The credit facility is secured by substantially all assets of the Company. Borrowings under the credit facility bear interest at our option at either (i) a Eurocurrency rate determined by reference to the applicable LIBOR rate plus an applicable margin or (ii) a prime rate as announced by JPMorgan Chase plus an applicable margin. As of March 29, 2015, we had no amounts outstanding under the credit facility.

Critical Accounting Policies and Estimates

Our discussion and analysis of our financial condition and results of operations are based on our consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of our consolidated financial statements requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Critical accounting policies are those that management believes are both most important to the portrayal of our financial condition and operating results, and require management's most difficult, subjective or complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain. We base our estimates on historical experience and other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Judgments and uncertainties affecting the application of those policies may result in materially different amounts being reported under different conditions or using different assumptions. We had no significant changes in our critical accounting estimates since our last annual report. Our critical accounting estimates are identified and described in our annual consolidated financial statements and related notes.

Off-Balance Sheet Arrangements

As of March 29, 2015, we do not have any off-balance sheet arrangements, synthetic leases, investments in special purpose entities or undisclosed borrowings or debt that would be required to be disclosed pursuant to Item 303 of Regulation S-K under the Exchange Act.

New and Revised Financial Accounting Standards

We qualify as an emerging growth company pursuant to the provisions of the Jumpstart Our Business Startups Act of 2012, or the JOBS Act, enacted on April 5, 2012. Section 102 of the JOBS Act provides that an emerging growth company can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. However, we are choosing to opt out of such extended transition period, and as a result, we will comply with new or revised accounting standards on the relevant dates on which adoption of such standards is required for non-emerging growth companies. Our decision to opt out of the extended transition period is irrevocable.

In April 2014, the Financial Accounting Standards Board (FASB) issued ASU No. 2014-08, Presentation of Financial Statements (Topic 205) and Property, Plant and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity. The pronouncement changes the criteria for reporting

discontinued operations while enhancing disclosures in this area. Pursuant to ASU 2014-08, only disposals representing a strategic shift, such as a major line of business, a major geographical area or a major equity investment, which were not expected to have continuing cash flows should be presented as a discontinued operation. If the disposal does qualify as a discontinued operation under ASU 2014-08, the entity will be required to provide expanded disclosures. ASU 2014-08 is effective for fiscal and interim periods beginning on or after December 15, 2014. Early adoption is permitted. The adoption of ASU 2014-08 is not expected to have a significant impact on our consolidated financial statements or disclosures.

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers. The pronouncement was issued to clarify the principles for recognizing revenue and to develop a common revenue standard and disclosure requirements for U.S. GAAP and IFRS. The pronouncement is effective for reporting period beginning after December 15, 2016. We are evaluating the expected adoption method of ASU 2014-09 and the adoption is not expected to have a significant impact on our consolidated balance sheet or consolidated statement of operations.

Table of Contents

In August 2014, the FASB issued ASU No. 2014-15, Presentation of Financial Statements – Going Concern (Subtopic 205-40) – Disclosure of Uncertainties about an Entity’s Ability to Continue as a Going Concern. The pronouncement requires our management to evaluate whether there is substantial doubt about our ability to continue as a going concern. The pronouncement is effective for the annual period ending after December 15, 2016, and for annual periods and interim periods thereafter. Early adoption is permitted. The adoption of ASU 2014-15 is not expected to have a material effect on our consolidated balance sheet or consolidated statement of operations.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For quantitative and qualitative disclosures about market risk, see Item 7A, Quantitative and Qualitative Disclosures About Market Risk, of our Annual Report on Form 10-K for the fiscal year ended December 28, 2014. Our exposures to market risk have not changed materially since December 28, 2014.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (Exchange Act)) as of March 29, 2015. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of March 29, 2015, our disclosure controls and procedures were effective in ensuring that information required to be disclosed in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission (the SEC) and is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that occurred during our fiscal quarter ended March 29, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

The certifications required by Section 302 of the Sarbanes-Oxley Act of 2002 are filed as exhibits 31.1 and 31.2 to this Quarterly Report on Form 10-Q.

Table of Contents**PART II. OTHER INFORMATION****ITEM 1. LEGAL PROCEEDINGS**

We are subject to legal proceedings, claims and liabilities, such as employment-related claims and slip and fall cases, which arise in the ordinary course of business and are generally covered by insurance. In the opinion of management, the amount of ultimate liability with respect to those actions should not have a material adverse impact on our financial position or results of operations and cash flows.

ITEM 1A. RISK FACTORS

A description of the risk factors associated with our business is contained in Item 1A, Risk Factors of our Annual Report on Form 10-K for the fiscal year ended December 28, 2014. There have been no material changes to our Risk Factors as previously reported.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table contains information regarding purchases of our common stock made by or on behalf of Potbelly Corporation during the 13 weeks ended March 29, 2015:

Period	Total Number of Shares Purchased	Average Price Paid per Share (1)	Total Number of Shares Purchased		Maximum Value of Shares that May Yet be Purchased Under the Program (2)
			Part of Announced Programs (2)	Publicly Announced Programs (2)	
December 29, 2014	65,386	\$ 13.29	65,386		\$ 23,915,021
January 26, 2015	34,400	\$ 13.97	34,400		\$ 23,435,353
February 23, 2015	234,900	\$ 13.06	234,900		\$ 20,371,123
Total:	334,686		334,686		

(1) Average price paid per share excludes commissions.

(2) On August 5, 2014, we announced that our Board of Directors approved a new share repurchase program, authorizing us to repurchase up to \$35.0 million of our common stock. Such repurchases may take place from time to time in the open market (including in pre-arranged stock trading plans in accordance with the guidelines specified in Rule 10b5-1 under the Exchange Act) or in privately negotiated transactions.

ITEM 6. EXHIBITS

The following exhibits are either provided with this Quarterly Report on Form 10-Q or are incorporated herein by reference.

Exhibit No.	Description
31.1	Certification of Chief Executive Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
