NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL INFORMATION FOR THE NINE MONTHS ENDED 30 SEPTEMBER 2015

1. GENERAL INFORMATION

China Unicom (Hong Kong) Limited (the Company) was incorporated as a limited liability company in the Hong Kong Special Administrative Region (Hong Kong), the People's Republic of China (the PRC) on 8 February 2000. The principal activity of the Company is investment holding. The principal activities of the Company's subsidiaries are the provision of cellular and fixed-line voice and related value-added services, broadband and other Internet-related services, information communications technology services, and business and data communications services in the PRC. The GSM cellular voice, WCDMA cellular voice, TD-LTE cellular voice, LTE FDD cellular voice and related value-added services are referred to as the mobile business. The services aforementioned other than the mobile business are hereinafter collectively referred to as the fixed-line business. The Company and its subsidiaries are hereinafter referred to as the Group.

2. BASIS OF PREPARATION

Going Concern Assumption

As at 30 September 2015, current liabilities of the Group exceeded current assets by approximately RMB227.7 billion (31 December 2014: approximately RMB235.3 billion). Given the current global economic conditions and the Group's expected capital expenditures in the foreseeable future, management has comprehensively considered the Group's available sources of funds as follows:

The Group's continuous net cash inflow from operating activities;

Approximately RMB332.0 billion of revolving banking facilities and registered quota of commercial papers, promissory notes and corporate bonds, of which approximately RMB201.5 billion was unutilised as at 30 September 2015; and

Other available sources of financing from domestic banks and other financial institutions given the Group's credit history.

In addition, the Group believes it has the ability to raise funds from the short, medium and long-term perspectives and maintain reasonable financing costs through appropriate financing portfolio.

Based on the above considerations, the Board of Directors is of the opinion that the Group has sufficient funds to meet its working capital requirements and debt obligations. As a result, the unaudited condensed consolidated financial information of the Group for the nine months ended 30 September 2015 has been prepared on a going concern basis.

Table of Contents**3. EARNINGS PER SHARE**

OTHER INFORMATION

The supplementary financial indicators are summarised as follow (All amounts in RMB millions):

	Nine months ended 30 September	
	2015	2014
Total service revenue from mobile business	109,517	119,103
Total service revenue from fixed-line business	69,203	66,924
Other service revenue	1,031	811
Total service revenue	179,751	186,838

Profit for the period	8,181	10,563
EBITDA	74,249	72,004
EBITDA as a percentage of service revenue	41.3%	38.5%

Table of Contents

For the first three quarters of 2015, service revenue was RMB179.8 billion, down by 3.8% as compared to the same period of last year. The decrease in service revenue was mainly attributed to the impact of output value-added tax (VAT) which arose from the replacement of business tax with VAT (VAT Reform) and the transformation of sales and marketing mode etc., but revenue structure continued to optimise.

For the first three quarters of 2015, profit for the period was RMB8.18 billion, down by 22.6% as compared to the same period of last year as a result of VAT Reform and other factors. EBITDA² was RMB74.25 billion for the first three quarters of 2015, up by 3.1% as compared to the same period of last year. EBITDA as a percentage of service revenue was 41.3% for the first three quarters of 2015, up by 2.8 percentage points compared to the same period of last year.

According to the announcement *Mobile Data Carry-over Policy* made by the Company on 29 September 2015, the Company allowed the unused monthly data under the monthly package committed by the handset subscribers (hereinafter referred to as *unused monthly data*) to be carried over for use till the end of the following month starting from 1 October 2015. The mentioned policy will defer the revenue recognition for the corresponding unused monthly data, and hence affect the revenue and profit of the Company for the fourth quarter of 2015.

According to the announcement *Major Transaction Disposal of Telecommunications Towers and Related Assets* made by the Company on 14 October 2015, the Company entered into the agreement with, among others, China Tower Corporation Limited (hereinafter referred to as the *Tower Company*), to sell certain telecommunications towers and related assets (the *Related Assets*) held by the Company to the Tower Company, the Completion Date will be 31 October 2015. The Company intends to lease the Related Assets from the Tower Company following Completion, and the parties are in the process of finalising the terms of such lease. The operating expense of the Company will increase if the lease expense for the Related Assets is set at a high level, even some of the increase in the expense may be returned to the Company through the investment income from the Tower Company.

Note 1: The replacement of business tax with VAT implemented nationwide for the telecommunications industry from 1 June 2014.

Note 2: EBITDA represents profit for the period before finance costs, interest income, shares of loss of associates, other income-net, income tax, depreciation and amortisation. As the telecommunications business is a capital intensive industry, capital expenditures and finance costs may have a significant impact on the net profit of the companies with similar operating results. Therefore, the Company believes that EBITDA may be helpful in analysing the operating results of a telecommunications service operator like the Group.
