D. Major Businesses

(1) Wireless business

The Company provides wireless telecommunications services, characterized by its competitive strengths in handheld devices, affordable pricing, network coverage and an extensive contents library. Since the introduction of services employing LTE technology in July 2011, the telecommunications market for such services has grown as demand for fast data transfer speeds and differentiated services has increased. Having reached one million subscribers by January 2012 and over 10 million subscribers by April 2013, the Company has solidified its leadership position in LTE services as it has done with its 3G services. In June 2013, the Company became the first telecommunications service provider in the world to provide commercial LTE-Advanced (LTE-A) services using carrier aggregation technology, and in June 2014, the Company reaffirmed its technological leadership by becoming the first to provide commercial 225 Mbps wideband LTE-A services, which is three times faster than LTE. In December 2014, the Company launched tri-band LTE-A, which is four times faster than LTE.

The Company also launched unlimited LTE data plans and other innovative data plans such as Rush hour / Subway Free plans that are unlimited data plans based on time, place and occasion (or, TPO), reflecting the data pattern usage of customers and their lifestyles. T-outdoor and T Kids Phone Joon, introduced in 2014, are customer-focused products that create additional value for customers. In addition, the Company released Pet Fit, a smart healthcare device for pets in April 2015 and T-Pet, which provides a variety of services such as a pet's live location information through a device embedded with USIM and positioning modules in May 2015. The Company expects that these products will have a lock-in effect on existing customers.

The Company plans to increase its profitability by strengthening its retention policy, which is the fundamental basis of competitiveness for telecommunication companies in this data-intensive era. The Company will lead the information and communication technology (ICT) trend by providing products through which customers can have a distinctive experience and by providing innovative services, such as the T-Phone, to transition to service-based competition.

In the business-to-business (B2B) area, the Company has strengthened its solutions business through the implementation of Smart Store, Smart Work, Smart Cloud, Green & Safety and M Ad & Payment. Since the commercial launch of its mobile IPTV services, B tv Mobile, in October 2012, the Company has gained over one million paying subscribers as of March 2014. The Company is the first telecommunications services provider in the world to provide full high definition streaming services using its LTE-A network. In its first year (2014), the number of its mobile IPTV service subscribers increased by 1.56 million to reach 2.37 million subscribers by the end of the year and as of March 31, 2016, the number of subscribers was 4.79 million.

In the area of healthcare, the Company achieved several tangible milestones: point-of-care diagnostic devices manufactured by a company of which the Company is the largest shareholder received approval from the U.S. Food and Drug Administration; the Company entered the Chinese healthcare market; and the Company was the first Korean company to export medical information systems. The Company plans to continue to find and develop new growth engines in the mid- to long-term. The Company also plans to seek out new growth engines in existing businesses, including the intelligence business, by utilizing its technologies relating to big data.

In order to strengthen its sales channels, the Company has been offering a variety of fixed-line and wireless telecommunication convergence products to its customers through PS&Marketing Co., Ltd. (PS&Marketing), one of its subsidiaries. Through Service Ace Co., Ltd., another subsidiary, the Company operates customer service centers in Seoul and provides telemarketing services. Furthermore, Network O&S Co., Ltd., the Company's subsidiary responsible for the operation of the Company's 2G to 4G networks (including its CDMA, WCDMA and LTE networks), provides customers with quality network services and provides the Company with technological know-how in network operations.

(2) Fixed-line business

SK Broadband Co., Ltd. (SK Broadband) is engaged in providing telecommunications, broadcasting and new media services and various other services that are permitted to be carried out by SK Broadband under relevant regulations, as well as business activities that are directly or indirectly related to providing those services. In 1999, SK Broadband launched its high-speed Internet service in Seoul, Busan, Incheon and Ulsan and currently provides such services nationwide. SK Broadband also commercialized its TV-Portal service in July 2006 and its IPTV service in January 2009 upon receipt of permit in September 2008.

(3) Other businesses

The Company is continuing to grow its commerce platform business as a leading player in Korea through 11th Street, an open marketplace platform service that connects various sellers and purchasers through its online and mobile platforms. Through Shocking Deal, which is a mobile commerce curation service, the Company is continuing to increase its market share in this business. In the commerce marketing platform business area, the Company is leading the online-to-offline commerce business and offers OK Cashbag, Korea's largest loyalty mileage program, Syrup, which offers smart shopping services utilizing OK Cashbag's existing network of business partners and information technology such as big data, and Syrup Store, which provides integrated marketing solutions to business partners.

In the advertising business area, the Company is engaged in advertisement production, promotion services and research and consulting services as a business idea creator to substantively help businesses increase their value in a rapidly evolving business environment.

In the global business area, the Company has expanded its online marketplace business globally to Turkey, Indonesia and Malaysia and has rapidly grown into one of the leading market players in these regions. The Company intends to continue its efforts to secure the market leading position in these markets.

In the location-based services business area, the Company provides real time traffic information and various local information through its T-Map Navigation service. In the digital contents business area, the Company provides high-quality digital contents in its leading mobile contents marketplace, T Store.

In the media business area, the Company provides the optimum environment for subscribers to access multimedia contents according to personal taste and preference through oksusu, available on various digital devices such as personal computers and mobile devices.

The Company provides integrated Internet portal services through NATE and instant messaging services through NATE-ON. In the portal service business area, key sources of revenue are display advertising, search engine-based advertising, and contents and other services. Display advertising consists of image, video and flash-based multimedia advertising carried on NATE and NATE-ON and aims to give greater exposure to the advertiser's brand name to the public. The increased effectiveness of online media as an advertising outlet has resulted in a greatly expanded advertiser base, and the increasing variety in the format of advertising has contributed to the growth of display advertising. Search engine-based advertising refers to the type of advertising that embeds advertisements within search results produced by searches of certain keywords on the NATE portal site. Search engine-based advertising has a certain appeal to small and medium-sized advertisers.
