PRICING SUPPLEMENT No. WF-22 dated January 5, 2017

(To Prospectus Supplement dated April 30, 2015

and Prospectus dated April 30, 2015)

**Canadian Imperial Bank of Commerce**  
**Senior Global Medium-Term Notes (Structured Notes)**  
**Market Linked Securities Leveraged Upside Participation to aCap and Fixed Percentage Buffered Downside**  
**Principal at Risk Securities Linked to the MSCI Emerging Markets Index due January 4, 2018**

Linked to the MSCI Emerging Markets Index

Unlike ordinary debt securities, the securities do not pay interest at a specified rate or repay a fixed amount of principal at maturity. Instead, the securities provide for a payment at maturity that may be greater than, equal to or less than the principal amount of the securities, depending on the performance of the Index from its starting level to its ending level. The payment at maturity will reflect the following terms:

If the level of the Index increases, you will receive the principal amount plus 200% participation in the upside performance of the Index, subject to a maximum total return at maturity of 14.70% of the principal amount

If the level of the Index decreases but the decrease is not more than 7.50%, you will be repaid the principal amount

If the level of the Index decreases by more than 7.50%, you will receive less than the principal amount and have 1-to-1 downside exposure to the decrease in the level of the Index in excess of 7.50%

Investors may lose up to 92.50% of the principal amount

All payments on the securities are subject to the credit risk of Canadian Imperial Bank of Commerce and you will have no ability to pursue any securities included in the Index for payment; if Canadian Imperial Bank of Commerce defaults on its obligations, you could lose all or some of your investment

No periodic interest payments or dividends

No exchange listing; designed to be held to maturity

**The securities have complex features and investing in the securities involves risks not associated with an investment in conventional debt securities. See Risk Factors herein on page PRS-10.**

**The securities are unsecured obligations of Canadian Imperial Bank of Commerce and all payments on the securities are subject to the credit risk of Canadian Imperial Bank of Commerce. The securities will not constitute deposits insured by the Canada Deposit Insurance Corporation, the U.S. Federal Deposit Insurance Corporation or any other government agency or instrumentality of Canada, the United States or any other jurisdiction.**

**Neither the Securities and Exchange Commission (the SEC) nor any state or provincial securities commission has approved or disapproved of these securities or determined if this pricing supplement or the accompanying prospectus supplement and prospectus is truthful or complete. Any representation to the contrary is a criminal offense.**

	Principal amount <sup>(1)</sup>	Underwriting Discount and Commission <sup>(2)</sup>	Proceeds to Canadian Imperial Bank of Commerce
<b>Per Security</b>	\$1,000.00	\$2.40	\$997.60
<b>Total</b>	\$4,482,000.00	\$10,756.80	\$4,471,243.20

(1)

Our estimated value of the securities on the pricing date, based on our internal pricing models, is \$982.40 per security. The estimated value is less than the principal amount of the securities. See The Estimated Value of the Securities on page PRS-32 of this Pricing Supplement.

- (2) The agent, Wells Fargo Securities, LLC, will receive an underwriting discount of \$2.40 per security. The agent may resell the securities to other securities dealers at the principal amount less a concession not in excess of \$1.40 per security. Such securities dealers may include Wells Fargo Advisors ( WFA ) (the trade name of the retail brokerage business of Wells Fargo Clearing Services, LLC and Wells Fargo Advisors Financial Network, LLC, each an affiliate of Wells Fargo Securities). See Use of Proceeds and Hedging and Supplemental Plan of Distribution in this pricing supplement for information regarding how we may hedge our obligations under the securities.

**ABOUT THIS PRICING SUPPLEMENT**

You should read this pricing supplement together with the prospectus dated April 30, 2015 and the prospectus supplement dated April 30, 2015, relating to our Senior Global Medium-Term Notes (Structured Notes), of which these securities are a part, for additional information about the securities. Information included in this pricing supplement supersedes information in the prospectus supplement and prospectus to the extent it is different from that information. Certain defined terms used but not defined herein have the meanings set forth in the prospectus supplement.

You should rely only on the information contained in or incorporated by reference in this pricing supplement, the accompanying prospectus supplement and the accompanying prospectus. This pricing supplement may be used only for the purpose for which it has been prepared. No one is authorized to give information other than that contained in this pricing supplement, the accompanying prospectus supplement and the accompanying prospectus, and in the documents referred to in this pricing supplement, the prospectus supplement and the prospectus and which are made available to the public. We have not, and Wells Fargo Securities, LLC ( Wells Fargo Securities ) has not, authorized any other person to provide you with different or additional information. If anyone provides you with different or additional information, you should not rely on it.

We are not, and Wells Fargo Securities is not, making an offer to sell the securities in any jurisdiction where the offer or sale is not permitted. You should not assume that the information contained in or incorporated by reference in this pricing supplement, the accompanying prospectus supplement or the accompanying prospectus is accurate as of any date other than the date of the applicable document. Our business, financial condition, results of operations and prospects may have changed since that date. Neither this pricing supplement, nor the accompanying prospectus supplement, nor the accompanying prospectus constitutes an offer, or an invitation on our behalf or on behalf of Wells Fargo Securities, to subscribe for and purchase any of the securities and may not be used for or in connection with an offer or solicitation by anyone in any jurisdiction in which such an offer or solicitation is not authorized or to any person to whom it is unlawful to make such an offer or solicitation.

References to CIBC, the Issuer, the Bank, we, us and our in this pricing supplement are references to Canadian Imperial Bank of Commerce and not to any of our subsidiaries, unless we state otherwise or the context otherwise requires.

PRS-2

**Market Linked Securities Leveraged Upside Participation**

**to a Cap and Fixed Percentage Buffered Downside**

**Principal at Risk Securities Linked to the MSCI Emerging Markets Index due January 4, 2018**

**INVESTMENT DESCRIPTION**

The Principal at Risk Securities Linked to the MSCI Emerging Markets Index due January 4, 2018 (the securities ) are senior unsecured debt securities of Canadian Imperial Bank of Commerce that do not pay interest at a specified rate or repay a fixed amount of principal at maturity. Instead, the securities provide for a payment at maturity that may be greater than, equal to or less than the principal amount of the securities depending on the performance of the MSCI Emerging Markets Index (the Index ) from its starting level on the pricing date to its ending level on the calculation date. The securities provide:

- (i) the possibility of a leveraged return at maturity if the level of the Index increases from its starting level to its ending level, provided that the total return at maturity of the securities will not exceed the maximum total return of 14.70% of the principal amount;
- (ii) repayment of principal if, and only if, the ending level of the Index is not less than the starting level by more than 7.50%; and
- (iii) exposure to decreases in the level of the Index if and to the extent the ending level is less than the starting level by more than 7.50%.

**If the ending level is less than the starting level by more than 7.50%, you will receive at maturity less, and up to 92.50% less, than the principal amount of your securities.** All payments on the securities are subject to the credit risk of Canadian Imperial Bank of Commerce.

The Index is designed to track the performance of a representation of emerging markets in 23 countries.

The Index was developed by MSCI, Inc. and is calculated, maintained and published by MSCI, Inc. CIBC or one of its affiliates has entered into a non-exclusive license agreement with MSCI, Inc. whereby CIBC and certain of its affiliates, in exchange for a fee, are permitted to use the MSCI indices in connection with certain securities, including the securities. The securities are not sponsored, endorsed, sold, or promoted by MSCI, Inc. and MSCI, Inc. makes no representation regarding the advisability of investing in the securities. See The MSCI Emerging Markets Index in this pricing supplement for additional information.

**Market Linked Securities Leveraged Upside Participation**

**to a Cap and Fixed Percentage Buffered Downside**

**Principal at Risk Securities Linked to the MSCI Emerging Markets Index due January 4, 2018**

**INVESTOR CONSIDERATIONS**

We have designed the securities for investors who:

seek 200% leveraged exposure to any upside performance of the Index if the ending level is greater than the starting level, subject to the maximum total return at maturity of 14.70% of the principal amount;

desire to limit downside exposure to the Index through the 7.50% buffer;

understand that if the ending level is less than the starting level by more than 7.50%, they will receive at maturity less, and up to 92.50% less, than the principal amount per security;

are willing to forgo periodic interest payments on the securities and dividends on securities included in the Index; and

are willing to hold the securities until maturity.

The securities are not designed for, and may not be a suitable investment for, investors who:

seek a liquid investment or are unable or unwilling to hold the securities to maturity;

are unwilling to accept the risk that the ending level of the Index may decrease by more than 7.50% from the starting level;

seek uncapped exposure to the upside performance of the Index;

seek full return at maturity of the principal amount of the securities;

are unwilling to purchase securities with an estimated value as of the pricing date that is lower than the principal amount;

seek current income;

are unwilling to accept the risk of exposure to the emerging markets and international securities markets;

seek exposure to the Index but are unwilling to accept the risk/return trade-offs inherent in the payment at stated maturity for the securities;

are unwilling to accept the credit risk of Canadian Imperial Bank of Commerce to obtain exposure to the Index generally, or to the exposure to the Index that the securities provide specifically; or

prefer the lower risk of fixed income investments with comparable maturities issued by companies with comparable credit ratings.

**Market Linked Securities Leveraged Upside Participation**

**to a Cap and Fixed Percentage Buffered Downside**

**Principal at Risk Securities Linked to the MSCI Emerging Markets Index due January 4, 2018**

**TERMS OF THE SECURITIES**

The information in this Summary section is qualified by the more detailed information set forth in this pricing supplement, the prospectus supplement dated April 30, 2015 and the prospectus dated April 30, 2015, each filed with the SEC. See Investment Description in this pricing supplement.

<b>Market Measure:</b>	MSCI Emerging Markets Index (Bloomberg ticker symbol <code>MXEF</code> )
<b>Pricing Date:</b>	January 5, 2017
<b>Issue Date:</b>	January 11, 2017
<b>Principal amount:</b>	<p>\$1,000 per security. References in this pricing supplement to a security are to a security with a principal amount of \$1,000.</p> <p>On the stated maturity date, you will be entitled to receive a cash payment per security in U.S. dollars equal to the redemption amount. The redemption amount per security will equal:</p>
<b>Redemption Amount:</b>	<p>if the ending level is greater than the starting level: the lesser of:</p> <p>(i) \$1,000 <i>plus</i>:</p> <p style="margin-left: 40px;">\$1,000 x _____ x Participation Rate ; and</p>

ending level starting level

starting level

(ii) the capped value;

if the ending level is less than or equal to the starting level, but greater than or equal to the threshold level:

\$1,000; or

if the ending level is less than the threshold level: \$1,000 *minus*:

$$\$1,000 \times \frac{\text{threshold level} - \text{ending level}}{\text{starting level}}$$

**If the ending level is less than the threshold level, you will receive at stated maturity less, and up to 92.50% less, than the principal amount of your securities.**

January 4, 2018. If a market disruption event occurs and is continuing on the calculation date, the stated maturity date will be postponed until the later of (i) January 4, 2018 and (ii) three business days after the ending level is determined. See Additional Terms of the Securities Market Disruption Events. The securities are not subject to redemption at the option of Canadian Imperial Bank of Commerce or repayment at the option of any holder of the securities prior to the stated maturity date.

**Stated Maturity**

**Date:**

**Market Linked Securities Leveraged Upside Participation**

**to a Cap and Fixed Percentage Buffered Downside**

**Principal at Risk Securities Linked to the MSCI Emerging Markets Index due January 4, 2018**

<b>Starting Level:</b>	881.72, the closing level of the Index on the pricing date. The closing level of the Index on any trading day means the official closing level of the Index as reported by the Index sponsor on such trading day.
<b>Ending Level:</b>	The ending level will be the closing level of the Index on the calculation date.
<b>Capped Value:</b>	The capped value is 114.70% of the principal amount per security (\$1,147.00 per security). As a result of the capped value, the maximum total return at maturity of the securities will be 14.70% of the principal amount.
<b>Threshold Level:</b>	815.591, which is equal to 92.50% of the starting level.
<b>Participation Rate:</b>	200%
<b>Calculation Date:</b>	December 29, 2017 or, if such day is not a trading day, the next succeeding trading day. The calculation date is subject to postponement due to the occurrence of a market disruption event. See Additional Terms of the Securities Market Disruption Events. A trading day means a day, as determined by the calculation agent, on which (i) the Index sponsor is scheduled to publish the level of the Index and (ii) each related futures or options exchange is scheduled to be open for trading for its regular trading session. The relevant stock exchange for any security underlying the Index means the primary exchange or quotation system on which such security is traded, as determined by the calculation agent. The related futures or options exchange for the Index means an exchange or quotation system where trading has a material effect (as

determined by the calculation agent) on the overall market for futures or options contracts relating to the Index.

**Calculation Agent:**

Canadian Imperial Bank of Commerce. We may appoint a different calculation agent without your consent and without notifying you.

All determinations made by the calculation agent will be at the sole discretion of it, and, in the absence of manifest error, will be conclusive for all purposes and binding on us and you. All percentages and other amounts resulting from any calculation with respect to the securities will be rounded at the calculation agent's discretion. The calculation agent will have no liability for its determinations.

**Business Day:**

A Monday, Tuesday, Wednesday, Thursday or Friday that is neither a legal holiday nor a day on which banking institutions are authorized or obligated by law, regulation or order to close in New York or Toronto.

**No Listing:**

The securities will not be listed on any securities exchange or quoted on any automated quotation system.

PRS-6

**Market Linked Securities Leveraged Upside Participation**

**to a Cap and Fixed Percentage Buffered Downside**

**Principal at Risk Securities Linked to the MSCI Emerging Markets Index due January 4, 2018**

**Clearance and**

The Depository Trust Company ( DTC )

**Settlement:**

**Material U.S. Tax Consequences:**

By purchasing the securities, each holder agrees to treat them as pre-paid cash-settled derivative contracts for U.S. federal income tax purposes. Assuming this treatment is respected, gain or loss recognized on the securities should be treated as short-term capital gain or loss. However, if the Internal Revenue Service were successful in asserting an alternative treatment of the securities, the tax consequences of the ownership and disposition of the securities might be materially and adversely affected. As described below under United States Federal Income Tax Considerations, the U.S. Treasury Department and the Internal Revenue Service released a notice requesting comments on various issues regarding the U.S. federal income tax treatment of prepaid forward contracts and similar instruments. Any Treasury regulations or other guidance promulgated after consideration of these issues could materially and adversely affect the tax consequences of an investment in the securities, including the character and timing of income or loss and the degree, if any, to which income realized by non-U.S. persons should be subject to withholding tax, possibly with retroactive effect. Both U.S. and non-U.S. persons considering an investment in the securities should review carefully the section of this pricing supplement entitled United States Federal Income Tax Considerations and consult their tax advisers regarding the U.S. federal tax consequences of an investment in the securities (including possible alternative treatments and the issues presented by the notice), as well as tax consequences arising under the laws of any state, local or non-U.S. taxing jurisdiction.

**Agent:**

Wells Fargo Securities. The agent may resell the securities to other securities dealers, including securities dealers acting as custodians, at the principal amount of the securities less a concession not in excess of \$1.40 per security. Such securities dealers may include Wells Fargo Advisors ( WFA ) (the trade name of the retail brokerage business of Wells Fargo Clearing Services, LLC and Wells Fargo Advisors Financial Network, LLC, each an affiliate of Wells Fargo Securities).

**Denominations:**

\$1,000 and any integral multiple of \$1,000.

**CUSIP / ISIN:** 13605WCB5 / US13605WCB54

PRS-8

**Market Linked Securities Leveraged Upside Participation**

**to a Cap and Fixed Percentage Buffered Downside**

**Principal at Risk Securities Linked to the MSCI Emerging Markets Index due January 4, 2018**

**HYPOTHETICAL PAYOUT PROFILE**

The following profile is based on a hypothetical capped value of 114.70% or \$1,147.00 per security, a participation rate of 200% and a threshold level equal to 92.50% of the starting level. This graph has been prepared for purposes of illustration only. Your actual return will depend on the actual ending level and whether you hold your securities to maturity.

PRS-9

**Market Linked Securities Leveraged Upside Participation**

**to a Cap and Fixed Percentage Buffered Downside**

**Principal at Risk Securities Linked to the MSCI Emerging Markets Index due January 4, 2018**

**RISK FACTORS**

The securities have complex features and investing in the securities will involve risks not associated with an investment in conventional debt securities or in the Index. You should carefully consider the risk factors set forth below as well as the other information contained in this pricing supplement and the accompanying prospectus supplement and prospectus, including the documents they incorporate by reference. As described in more detail below, the value of the securities may vary considerably before the stated maturity date due to events that are difficult to predict and are beyond our control. You should reach an investment decision only after you have carefully considered with your advisors the suitability of an investment in the securities in light of your particular circumstances.

**If The Ending Level Is Less Than The Threshold Level, You Will Receive At Maturity Less, And Up To 92.50% Less, Than The Principal Amount Of Your Securities.**

We will not repay you a fixed amount on the securities on the stated maturity date. The redemption amount will depend on the direction of and percentage change in the ending level of the Index relative to the starting level, the capped value and the other terms of the securities. Because the level of the Index will be subject to market fluctuations, the redemption amount you receive may be more or less, and possibly significantly less, than the principal amount of your securities.

If the ending level is less than the threshold level, the redemption amount that you receive at stated maturity will be reduced by an amount equal to the decline in the level of the Index to the extent it is below the threshold level (expressed as a percentage of the starting level). The threshold level is 92.50% of the starting level. As a result, you may receive less, and up to 92.50% less, than the principal amount per security at maturity even if the level of the Index is greater than or equal to the starting level or the threshold level at certain times during the term of the securities.

Even if the ending level is greater than the starting level, the amount you receive at stated maturity may only be slightly greater than the principal amount, and your yield on the securities may be less than the yield you would earn if you bought a traditional interest-bearing debt security of Canadian Imperial Bank of Commerce or another issuer with a similar credit rating with the same stated maturity date.

**Your Return Will Be Limited By The Capped Value And May Be Lower Than The Return On A Direct Investment In The Index.**

The opportunity to participate in the possible increases in the level of the Index through an investment in the securities will be limited because the redemption amount will not exceed the capped value. Furthermore, the effect of the participation rate will be progressively reduced for all ending levels exceeding the ending level at which the capped value is reached.

**Your Return On The Securities Could Be Less Than If You Owned Securities Included In The Index.**

Your return on the securities will not reflect the return you would realize if you actually owned the securities included in the Index and received the dividends and other payments paid on those securities. This is in part because the redemption amount payable at stated maturity will be determined by reference to the ending level of the Index, which will be calculated by reference to the prices of the securities in the Index without taking into consideration the value of dividends and other payments paid on those securities. In addition, the redemption amount will not be greater than the capped value.

**No Periodic Interest Will Be Paid On The Securities.**

No periodic interest will be paid on the securities. However, because it is possible that the securities may be classified for U.S. federal income tax purposes as contingent payment debt instruments rather than prepaid forward contracts, you may be required to accrue interest income over the term of your securities. See United States Federal Income Tax Considerations.

**The Securities Are Subject To The Credit Risk Of Canadian Imperial Bank of Commerce.**

The securities are our obligations exclusively and are not, either directly or indirectly, an obligation of any third party. Any amounts payable under the securities are subject to our creditworthiness, and you will have no ability to pursue any securities included in the Index for payment. As a result, our actual and perceived creditworthiness and actual or anticipated decreases in our credit ratings may affect the value of the securities and, in the event we were to default on our obligations, you may not receive any amounts owed to you under the terms of the securities.

PRS-10

**Market Linked Securities Leveraged Upside Participation**

**to a Cap and Fixed Percentage Buffered Downside**

**Principal at Risk Securities Linked to the MSCI Emerging Markets Index due January 4, 2018**

**The Estimated Value Of The Securities Is Not An Indication Of The Price, If Any, At Which Wells Fargo Securities Or Any Other Person May Be Willing To Buy The Securities From You In The Secondary Market.**

The price, if any, at which Wells Fargo Securities or any of its affiliates may purchase the securities in the secondary market will be based on Wells Fargo Securities' s proprietary pricing models and will fluctuate over the term of the securities as a result of changes in the market and other factors described in the next risk factor. Any such secondary market price for the securities will also be reduced by a bid-offer spread, which may vary depending on the aggregate principal amount of the securities to be purchased in the secondary market transaction, and the expected cost of unwinding any related hedging transactions. Unless the factors described in the next risk factor change significantly in your favor, any such secondary market price for the securities will likely be less than the principal amount.

If Wells Fargo Securities or any of its affiliates makes a secondary market in the securities at any time up to the issue date or during the six-month period following the issue date, the secondary market price offered by Wells Fargo Securities or any of its affiliates will be increased by an amount reflecting a portion of the costs associated with selling, structuring, hedging and issuing the securities that are included in the principal amount. Because this portion of the costs is not fully deducted upon issuance, any secondary market price offered by Wells Fargo Securities or any of its affiliates during this period will be higher than it would be if it were based solely on Wells Fargo Securities' s proprietary pricing models less the bid-offer spread and hedging unwind costs described above. The amount of this increase in the secondary market price will decline steadily to zero over this six-month period. If you hold the securities through an account at Wells Fargo Securities or one of its affiliates, we expect that this increase will also be reflected in the value indicated for the securities on your brokerage account statement. If you hold your securities through an account at a broker-dealer other than Wells Fargo Securities or any of its affiliates, the value of the securities on your brokerage account statement may be different than if you held your securities at Wells Fargo Securities or any of its affiliates.

**The Value Of The Securities Prior To Stated Maturity Will Be Affected By Numerous Factors, Some Of Which Are Related In Complex Ways.**

The value of the securities prior to stated maturity will be affected by the level of the Index at that time, interest rates at that time and a number of other factors, some of which are interrelated in complex ways. The effect of any one factor may be offset or magnified by the effect of another factor. The following factors, among others, are expected to affect the value of the securities. When we refer to the value of your security, we mean the value you could receive for your security if you are able to sell it in the open market before the stated maturity date.

**Index Performance.** The value of the securities prior to maturity will depend substantially on the level of the Index. The price at which you may be able to sell the securities before stated maturity may be at a discount, which could be substantial, from their principal amount, if the level of the Index at such time is less than, equal to or not sufficiently above its starting level.

**Capped Value.** We anticipate that the value of the securities will always be at a discount to the capped value.

**Interest Rates.** The value of the securities may be affected by changes in the interest rates in the U.S. markets.

**Volatility Of The Index.** Volatility is the term used to describe the size and frequency of market fluctuations. The value of the securities may be affected if the volatility of the Index changes.

**Time Remaining To Maturity.** The value of the securities at any given time prior to maturity will likely be different from that which would be expected based on the then-current level of the Index. This difference will most likely reflect a discount due to expectations and uncertainty concerning the level of the Index during the period of time still remaining to the maturity date. In general, as the time remaining to maturity decreases, the value of the securities will approach the amount that could be payable at maturity based on the then-current level of the Index.

**Dividend Yields On Securities Included In The Index.** The value of the securities may be affected by the dividend yields on securities included in the Index.

PRS-11

**Market Linked Securities Leveraged Upside Participation**

**to a Cap and Fixed Percentage Buffered Downside**

**Principal at Risk Securities Linked to the MSCI Emerging Markets Index due January 4, 2018**

**Events Involving Companies Included In The Index.** General economic conditions and earnings results of the companies whose stocks are included in the Index and real or anticipated changes in those conditions or results may affect the value of the securities. Additionally, as a result of a merger or acquisition, one or more of the stocks in the Index may be replaced with a surviving or acquiring entity's securities. The surviving or acquiring entity's securities may not have the same characteristics as the stock originally included in the Index.

**Our Credit Ratings, Financial Condition And Results Of Operation.** Actual or anticipated changes in our credit ratings, financial condition or results of operation may affect the value of the securities. However, because the return on the securities is dependent upon factors in addition to our ability to pay our obligations under the securities, such as the level of the Index, an improvement in our credit ratings, financial condition or results of operation will not reduce the other investment risks related to the securities.

You should understand that the impact of one of the factors specified above, such as a change in interest rates, may offset some or all of any change in the value of the securities attributable to another factor, such as a change in the level of the Index.

**Our Estimated Value Of The Securities Is Lower Than The Principal Amount Of The Securities.**

Our estimated value is only an estimate using several factors. The principal amount of the securities exceeds our estimated value because costs associated with selling and structuring the securities, as well as hedging the securities, are included in the principal amount of the securities. See "The Estimated Value of the Securities" in this pricing supplement.

**Our Estimated Value Does Not Represent Future Values Of The Securities And May Differ From Others Estimates.**

Our estimated value of the securities was determined by reference to our internal pricing models when the terms of the securities were set. This estimated value was based on market conditions and other relevant factors existing at that time and our assumptions about market parameters, which can include volatility, dividend rates, interest rates and other factors. Different pricing models and assumptions could provide valuations for the securities that are greater than or less than our estimated value. In addition, market conditions and other relevant factors in the future may change, and any assumptions may prove to be incorrect. On future dates, the value of the securities could change significantly based on, among other things, changes in market conditions, our creditworthiness, interest rate movements and other relevant factors, which may impact the price, if any, at which Wells Fargo Securities or any other person would be willing to buy securities from you in secondary market transactions. See "The Estimated Value of the Securities" in this pricing supplement.

**Our Estimated Value Was Not Determined By Reference To Credit Spreads For Our Conventional Fixed-Rate Debt.**

The internal funding rate used in the determination of our estimated value generally represents a discount from the credit spreads for our conventional fixed-rate debt. If we were to have used the interest rate implied by our

conventional fixed-rate credit spreads, we would expect the economic terms of the securities to be more favorable to you. Consequently, our use of an internal funding rate had an adverse effect on the terms of the securities and could have an adverse effect on any secondary market prices of the securities. See "The Estimated Value of the Securities" in this pricing supplement.

**The Securities Will Not Be Listed On Any Securities Exchange And We Do Not Expect A Trading Market For The Securities To Develop.**

The securities will not be listed or displayed on any securities exchange or any automated quotation system. Although Wells Fargo Securities and/or its affiliates may purchase the securities from holders, they are not obligated to do so and are not required to make a market for the securities. There can be no assurance that a secondary market will develop. Because we do not expect that any market makers will participate in a secondary market for the securities, the price at which you may be able to sell your securities is likely to depend on the price, if any, at which Wells Fargo Securities and/or its affiliates are willing to buy your securities.

If a secondary market does exist, it may be limited. Accordingly, there may be a limited number of buyers if you decide to sell your securities prior to stated maturity. This may affect the price you receive upon such sale. Consequently, you should be willing to hold the securities to stated maturity.

PRS-12

**Market Linked Securities Leveraged Upside Participation**

**to a Cap and Fixed Percentage Buffered Downside**

**Principal at Risk Securities Linked to the MSCI Emerging Markets Index due January 4, 2018**

**Historical Levels Of The Index Should Not Be Taken As An Indication Of The Future Performance Of The Index During The Term Of The Securities.**

The trading prices of the securities included in the Index will determine the redemption amount payable at maturity to you. As a result, it is impossible to predict whether the ending level of the Index will fall or rise compared to its starting level. Trading prices of the securities included in the Index will be influenced by complex and interrelated political, economic, financial and other factors that can affect the markets in which those securities are traded and the values of those securities themselves. Accordingly, any historical levels of the Index do not provide an indication of the future performance of the Index.

**Changes That Affect The Index May Adversely Affect The Value Of The Securities And The Amount You Will Receive At Stated Maturity.**

The policies of the Index sponsor concerning the calculation of the Index and the addition, deletion or substitution of securities comprising the Index and the manner in which the Index sponsor takes account of certain changes affecting such securities may affect the level of the Index and, therefore, may affect the value of the securities and the redemption amount payable at maturity. The Index sponsor may discontinue or suspend calculation or dissemination of the Index or materially alter the methodology by which it calculates the Index. Any such actions could adversely affect the value of the securities.

**We Cannot Control Actions By Any Of The Unaffiliated Companies Whose Securities Are Included In The Index.**

Actions by any company whose securities are included in the Index may have an adverse effect on the price of its security, the ending level and the value of the securities. These companies will not be involved in the offering of the securities and will have no obligations with respect to the securities, including any obligation to take our or your interests into consideration for any reason. These companies will not receive any of the proceeds of the offering of the securities and will not be responsible for, and will not have participated in, the determination of the timing of, prices for, or quantities of, the securities to be issued. These companies will not be involved with the administration, marketing or trading of the securities and will have no obligations with respect to the redemption amount to be paid to you at maturity.

**We, Wells Fargo Securities And Our Respective Affiliates Have No Affiliation With The Index Sponsor And Have Not Independently Verified Its Public Disclosure Of Information.**

We, Wells Fargo Securities and our respective affiliates are not affiliated in any way with the Index sponsor and have no ability to control or predict its actions, including any errors in or discontinuation of disclosure regarding the methods or policies relating to the calculation of the Index. We have derived the information about the Index sponsor and the Index contained herein from publicly available information, without independent verification. You, as an investor in the securities, should make your own investigation into the Index and the Index sponsor. The Index sponsor is not involved in the offering of the securities made hereby in any way and has no obligation to consider your interest as an owner of securities in taking any actions that might affect the value of the securities.

**An Investment In The Securities Is Subject To Risks Associated With Investing In International Securities Markets.**

Your return on these securities and the value of these securities may be affected by factors affecting the international securities markets.

A foreign stock exchange may impose trading limitations intended to prevent extreme fluctuations in individual security prices and may suspend trading in certain circumstances. These actions could limit variations in the closing level of the Index, which could, in turn, adversely affect the value of the securities. Investments in securities linked to the value of foreign equity securities involve particular risks. The foreign securities markets whose stocks comprise the Index may have less liquidity and may be more volatile than U.S. or other securities markets and market developments may affect foreign markets differently from U.S. or other securities markets. Direct or indirect government intervention to stabilize the foreign securities markets, as well as cross-shareholdings in foreign companies, may affect trading prices and volumes in those markets. Also, there is generally less publicly available information about foreign companies than about those U.S. companies that are subject to the reporting requirements of the U.S. Securities and Exchange Commission, and foreign companies are subject to accounting, auditing and financial reporting standards and requirements that differ from those applicable to U.S. reporting companies.

Securities prices in foreign countries are subject to political, economic, financial and social factors that apply in those geographical regions. These factors, which could negatively affect those securities markets, include the possibility of recent or future changes in a foreign government's economic and fiscal policies, the possible imposition of, or changes in, currency exchange laws or other laws or restrictions applicable to foreign companies or investments in foreign equity securities and the possibility of fluctuations in the rate of exchange between currencies, the possibility of outbreaks of hostility and political instability and the possibility of natural disasters or

PRS-13

**Market Linked Securities Leveraged Upside Participation**

**to a Cap and Fixed Percentage Buffered Downside**

**Principal at Risk Securities Linked to the MSCI Emerging Markets Index due January 4, 2018**

adverse public health developments in the region. Moreover, foreign economies may differ favorably or unfavorably from the U.S. economy in important respects such as growth of gross national product, rate of inflation, capital reinvestment, resources and self-sufficiency. The level of the Index may be adversely affected by general exchange rate movements in the market.

**There Are Risks Associated With Emerging Markets.**

An investment in the securities will involve risks not generally associated with investments which have no emerging market component. In particular, many emerging nations are undergoing rapid change, involving the restructuring of economic, political, financial and legal systems. Regulatory and tax environments may be subject to change without review or appeal. Many emerging markets suffer from underdevelopment of capital markets and tax regulation. The risk of expropriation and nationalization remains a threat. Guarding against such risks is made more difficult by low levels of corporate disclosure and unreliability of economic and financial data.

**The Stated Maturity Date May Be Postponed In Certain Circumstances.**

The determination of the ending level will be postponed if the originally scheduled calculation day is not a trading day or if the calculation agent determines that a market disruption event has occurred or is continuing on that day. If such a postponement occurs, the stated maturity date will be postponed until the later of (i) three business days after the ending level is determined and (ii) the initial stated maturity date.

**We Or One Of Our Affiliates Will Be The Calculation Agent And, As A Result, Potential Conflicts Of Interest Could Arise.**

We or one of our affiliates will be the calculation agent for purposes of determining, among other things, the starting level and the ending level, calculating the redemption amount, determining whether adjustments should be made to the ending level, determining whether a market disruption event has occurred and, if publication of the Index is discontinued, selecting a successor or, if no successor is available, determining the closing level. Although the calculation agent will exercise its judgment in good faith when performing its functions, potential conflicts of interest may exist between the calculation agent and you.

**Our Economic Interests And Those Of Any Dealer Participating In The Offering Of Securities Will Potentially Be Adverse To Your Interests.**

You should be aware of the following ways in which our economic interests and those of any dealer participating in the distribution of the securities, which we refer to as a participating dealer, will potentially be adverse to your interests as an investor in the securities. In engaging in certain of the activities described below, our affiliates or any participating dealer or its affiliates may take actions that may adversely affect the value of and your return on the securities, and in so doing they will have no obligation to consider your interests as an investor in the securities. Our affiliates or any participating dealer or its affiliates may realize a profit from these activities even if investors do not receive a favorable investment return on the securities.

***Research reports by our affiliates or any participating dealer or its affiliates may be inconsistent with an investment in the securities and may adversely affect the level of the Index.*** Our affiliates or any dealer participating in the offering of the securities or its affiliates may, at present or in the future, publish research reports on the Index or the companies whose securities are included in the Index. This research will be modified from time to time without notice and may, at present or in the future, express opinions or provide recommendations that are inconsistent with purchasing or holding the securities. Any research reports on the Index or the companies whose securities are included in the Index could adversely affect the level of the Index and, therefore, adversely affect the value of and your return on the securities. You are encouraged to derive information concerning the Index from multiple sources and should not rely on the views expressed by us or our affiliates or any participating dealer or its affiliates. In addition, any research reports on the Index or the companies whose securities are included in the Index published on or prior to the pricing date could result in an increase in the level of the Index on the pricing date, which would adversely affect investors in the securities by increasing the level at which the Index must close on the calculation day in order for investors in the securities to receive a favorable return.

***Business activities of our affiliates or any participating dealer or its affiliates with the companies whose securities are included in the Index may adversely affect the level of the Index.*** Our affiliates or any participating dealer or its affiliates may, at present or in the future, engage in business with the companies whose securities are included in the Index, including making loans to those companies (including exercising creditors' remedies with respect to such loans),

PRS-14

## **Market Linked Securities Leveraged Upside Participation**

### **to a Cap and Fixed Percentage Buffered Downside**

#### **Principal at Risk Securities Linked to the MSCI Emerging Markets Index due January 4, 2018**

making equity investments in those companies or providing investment banking, asset management or other advisory services to those companies. These business activities could adversely affect the level of the Index and, therefore, adversely affect the value of and your return on the securities. In addition, in the course of these business activities, our affiliates or any participating dealer or its affiliates may acquire non-public information about one or more of the companies whose securities are included in the Index. If our affiliates or any participating dealer or its affiliates do acquire such non-public information, we and they are not obligated to disclose such non-public information to you.

***Hedging activities by our affiliates or any participating dealer or its affiliates may adversely affect the level of the Index.*** We expect to hedge our obligations under the securities through one or more hedge counterparties, which may include our affiliates or any participating dealer or its affiliates. Pursuant to such hedging activities, our hedge counterparty may acquire securities included in the Index or listed or over-the-counter derivative or synthetic instruments related to the Index or such securities. Depending on, among other things, future market conditions, the aggregate amount and the composition of such positions are likely to vary over time. To the extent that our hedge counterparty has a long hedge position in any of the securities included in the Index, or derivative or synthetic instruments related to the Index or such securities, they may liquidate a portion of such holdings at or about the time of the calculation date or at or about the time of a change in the securities included in the Index. These hedging activities could potentially adversely affect the level of the Index and, therefore, adversely affect the value of and your return on the securities.

***Trading activities by our affiliates or any participating dealer or its affiliates may adversely affect the level of the Index.*** Our affiliates or any participating dealer or its affiliates may engage in trading in the securities included in the Index and other instruments relating to the Index or such securities on a regular basis as part of their general broker-dealer and other businesses. Any of these trading activities could potentially adversely affect the prices of the securities included in the Index and, therefore, adversely affect the value of and your return on the securities.

***A participating dealer or its affiliates may realize hedging profits projected by its proprietary pricing models in addition to any selling concession or any distribution expense fee, creating a further incentive for the participating dealer to sell the securities to you.*** If any participating dealer or any of its affiliates conducts hedging activities for us in connection with the securities, that participating dealer or its affiliates will expect to realize a projected profit from such hedging activities, and this projected profit will be in addition to any concession or distribution expense fee that the participating dealer receives for the sale of the securities to you. This additional projected profit may create a further incentive for the participating dealer to sell the securities to you.

#### **The U.S. Federal Tax Consequences Of An Investment In The Securities Are Unclear.**

There is no direct legal authority regarding the proper U.S. federal tax treatment of the securities, and we do not plan to request a ruling from the Internal Revenue Service. Consequently, significant aspects of the tax treatment of the securities are uncertain, and the Internal Revenue Service or a court might not agree with the treatment of the securities as pre-paid cash-settled derivative contracts. If the Internal Revenue Service were successful in asserting an alternative treatment of the securities, the tax consequences of the ownership and disposition of the securities might be materially and adversely affected. As described below under United States Federal Income Tax Considerations, the U.S. Treasury Department and the Internal Revenue Service released a notice requesting comments on various issues

regarding the U.S. federal income tax treatment of prepaid forward contracts and similar instruments. Any Treasury regulations or other guidance promulgated after consideration of these issues could materially and adversely affect the tax consequences of an investment in the securities, including the character and timing of income or loss and the degree, if any, to which income realized by non-U.S. persons should be subject to withholding tax, possibly with retroactive effect.

Furthermore, Section 871(m) of the Internal Revenue Code imposes a withholding tax of up to 30% on dividend equivalents paid to non-U.S. investors in respect of certain financial instruments linked to U.S. equities. In light of an IRS notice providing a general exemption for non-delta-one financial instruments issued in 2017, as of the date of this pricing supplement the securities should not be subject to withholding under Section 871(m). However, the IRS could challenge this conclusion.

Both U.S. and non-U.S. persons considering an investment in the securities should review carefully the section of this pricing supplement entitled United States Federal Income Tax Considerations and consult their tax advisers regarding the U.S. federal tax consequences of an investment in the securities (including possible alternative treatments and the issues presented by the notice), as well as tax consequences arising under the laws of any state, local or non-U.S. taxing jurisdiction.

**Principal at Risk Securities Linked to the MSCI Emerging Markets Index due January 4, 2018**

**There Can Be No Assurance That The Canadian Federal Income Tax Consequences Of An Investment In The Securities Will Not Change In The Future.**

There can be no assurance that Canadian federal income tax laws, the judicial interpretation thereof, or the administrative policies and assessing practices of the Canada Revenue Agency will not be changed in a manner that adversely affects investors. For a discussion of the Canadian federal income tax consequences of investing in the securities, please read the section entitled "Certain Canadian Federal Income Tax Considerations" in this pricing supplement as well as the section entitled "Certain Income Tax Consequences" Certain Canadian Income Tax Considerations in the accompanying prospectus supplement dated April 30, 2015. You should consult your tax advisor with respect to your own particular situation.

**The Securities May Be Subject To A Bail-in Conversion.**

The Canada Deposit Insurance Corporation ( CDIC ) has the power to convert, or cause CIBC to convert, in whole or in part, by means of a transaction or series of transactions and in one or more steps, the prescribed liabilities of CIBC into the common shares of CIBC or any of its affiliates ( Bail-in Conversion ), if the Governor in Council (Canada) makes an order under paragraph 39.13(1)(d) of the *Canada Deposit Insurance Corporation Act* (Canada) in respect of CIBC. Regulations prescribing the liabilities of CIBC that may be subject to a Bail-in Conversion (the CDIC Act Regulations ) have not been introduced as of the date of this document. However, on August 1, 2014, the Department of Finance (Canada) issued a Taxpayer Protection and Bank Recapitalization Regime: Consultation Paper (the Consultation Paper ), which, among other things, proposed that only senior unsecured tradable and transferable debt with an original term to maturity of at least 400 days that is issued or renegotiated by a Canadian domestic systemically important bank, such as CIBC, after the Consultation Paper implementation date ( Proposed Scope ) will be subject to a Bail-in Conversion. If the CDIC Act Regulations provide that only liabilities falling within the Proposed Scope may be subject to a Bail-in Conversion, the securities will not be subject to a Bail-in Conversion, because the securities are expected to be issued before the implementation date, which has not been determined as of the date of this document. However, we cannot assure you that the CDIC Act Regulations will adopt the proposals of the Consultation Paper in their entirety. If the CDIC Act Regulations provide otherwise and the securities are subject to a Bail-in Conversion, the market value of the securities may be adversely affected.

**Market Linked Securities Leveraged Upside Participation****to a Cap and Fixed Percentage Buffered Downside****Principal at Risk Securities Linked to the MSCI Emerging Markets Index due January 4, 2018****HYPOTHETICAL RETURNS**

The following table illustrates, for a capped value of 114.70% or \$1,147.00 per security, a starting level of 881.72, a participation rate of 200%, a term to maturity of approximately 1 year and a range of hypothetical ending levels of the Index:

the hypothetical percentage change from the starting level to the hypothetical ending level;

the hypothetical redemption amount payable at stated maturity per security;

the hypothetical total pre-tax rate of return; and

the hypothetical pre-tax annualized rate of return.

(1) The annualized rates of return are calculated on a semi-annual bond equivalent basis with compounding.

(2) The starting level.

The above figures are for purposes of illustration only and may have been rounded for ease of analysis. The actual amount you receive at stated maturity and the resulting pre-tax rates of return will depend on the actual ending level.

PRS-17

**Market Linked Securities Leveraged Upside Participation**

**to a Cap and Fixed Percentage Buffered Downside**

**Principal at Risk Securities Linked to the MSCI Emerging Markets Index due January 4, 2018**

**HYPOTHETICAL PAYMENTS AT STATED MATURITY**

Set forth below are four examples of payment at stated maturity calculations (rounded to two decimal places), reflecting a capped value of 114.70% or \$1,147.00 per security, a starting level of 881.72, a participation rate of 200% and assuming hypothetical ending levels as indicated in the examples.

**Example 1. Redemption amount is greater than the principal amount but less than the capped value:**

Hypothetical ending level: 925.81

Since the hypothetical ending level is greater than the starting level, the redemption amount would equal:

$$\$1,000 + \$1,000 \times \frac{925.81 - 881.72}{881.72} \times 200\% = \$1,100.00$$

On the stated maturity date you would receive \$1,100.00 per security.

**Example 2. Redemption amount is equal to the capped value:**

Hypothetical ending level: 1322.58

The redemption amount would be equal to the capped value since the capped value is less than:

$$\$1,000 + \$1,000 \times \frac{1322.58 - 881.72}{881.72} \times 200\% = \$2,000.00$$

On the stated maturity date you would receive \$1,147.00 per security.

In addition to limiting your return on the securities, the capped value limits the positive effect of the participation rate. If the ending level is greater than the starting level, you will participate in the performance of the Index at a rate of 200% up to a certain point. However, the effect of the participation rate will be progressively reduced for ending levels that are greater than approximately 107.35% of the starting level since your return on the securities for any

ending level greater than approximately 107.35% of the starting level will be limited to the capped value.

**Example 3. Redemption amount is equal to the principal amount:**

Hypothetical ending level: 837.63

Threshold level: 815.591, which is 92.50% of the starting level

Since the hypothetical ending level is less than the starting level, but not by more than 7.50%, you would not lose any of the principal amount of your securities.

On the stated maturity date you would receive \$1,000.00 per security.

**Example 4. Redemption amount is less than the principal amount:**

Hypothetical ending level: 440.86

Threshold level: 815.591, which is 92.50% of the starting level

PRS-18

**Market Linked Securities Leveraged Upside Participation**

**to a Cap and Fixed Percentage Buffered Downside**

**Principal at Risk Securities Linked to the MSCI Emerging Markets Index due January 4, 2018**

Since the hypothetical ending level is less than the starting level by more than 7.50%, you would lose a portion of the principal amount of your securities and receive the redemption amount equal to:

$$\begin{array}{r r r r r} \$1,000 - & \$1,000 \times & \frac{815.591 - 440.86}{881.72} & & = \$575.00 \end{array}$$

On the stated maturity date you would receive \$575.00 per security.

To the extent that the actual ending level differs from the values assumed above, the results indicated above would be different.

PRS-19

**Market Linked Securities Leveraged Upside Participation**

**to a Cap and Fixed Percentage Buffered Downside**

**Principal at Risk Securities Linked to the MSCI Emerging Markets Index due January 4, 2018**

**ADDITIONAL TERMS OF THE SECURITIES**

Canadian Imperial Bank of Commerce will issue the securities as part of a series of senior unsecured debt securities entitled Senior Global Medium-Term Notes (Structured Notes), which is more fully described in the accompanying prospectus supplement and prospectus. Information included in this pricing supplement supersedes information in the prospectus supplement and prospectus to the extent that it is different from that information.

**Payment of Redemption Amount**

In the event that the stated maturity date is not a business day, then the redemption amount will be paid on the next business day ( Following Business Day Convention ).

**Market Disruption Events**

If a market disruption event occurs or is continuing on any calculation day, then such calculation day will be postponed to the first succeeding trading day on which a market disruption event has not occurred and is not continuing; however, if such first succeeding trading day has not occurred as of the eighth trading day after the originally scheduled calculation day, that eighth trading day shall be deemed to be the calculation day. If a calculation day has been postponed to that eighth day and a market disruption event occurs or is continuing with respect to the Index on that eighth day, the calculation agent will determine the closing level of the Index on that day in accordance with the formula for and method of calculating the closing level of the Index last in effect prior to commencement of the market disruption event, using the closing price (or, with respect to any relevant security, if a market disruption event has occurred with respect to such security, its good faith estimate of the value of such security at the time at which the official closing level of the Index is calculated and published by the Index sponsor) on that day of each security included in the Index. As used herein, closing price means, with respect to any security on any date, the relevant stock exchange traded or quoted price of such security as of the time at which the official closing level of the Index is calculated and published by the Index sponsor. No interest will accrue as a result of delayed payment.

A market disruption event means any of (A), (B), (C), (D) or (E) below, as determined by the calculation agent in its sole discretion:

- (A) Any of the following events occurs or exists with respect to any security included in the Index or any successor equity index, and the aggregate of all securities included in the Index or successor equity index with respect to which any such event occurs comprise 20% or more of the level of the Index or successor equity index:

- a material suspension of or limitation imposed on trading by the relevant stock exchange for such security or otherwise at any time during the one-hour period that ends at the scheduled closing time for the relevant stock exchange for such security on that day, whether by reason of movements in

price exceeding limits permitted by the relevant stock exchange or otherwise;

any event, other than an early closure, that materially disrupts or impairs the ability of market participants in general to effect transactions in, or obtain market values for, such security on its relevant stock exchange at any time during the one-hour period that ends at the scheduled closing time for the relevant stock exchange for such security on that day; or

the closure on any exchange business day of the relevant stock exchange for such security prior to its scheduled closing time unless the earlier closing is announced by such relevant stock exchange at least one hour prior to the earlier of (i) the actual closing time for the regular trading session on such relevant stock exchange and (ii) the submission deadline for orders to be entered into the relevant stock exchange system for execution at the scheduled closing time for such relevant stock exchange on that day.

(B) Any of the following events occurs or exists with respect to futures or options contracts relating to the Index or any successor equity index:

a material suspension of or limitation imposed on trading by any related futures or options exchange or otherwise at any time during the one-hour period that ends at the close of trading on such related futures or options exchange on that day, whether by reason of movements in price exceeding limits permitted by the related futures or options exchange or otherwise;

PRS-20

**Market Linked Securities Leveraged Upside Participation**

**to a Cap and Fixed Percentage Buffered Downside**

**Principal at Risk Securities Linked to the MSCI Emerging Markets Index due January 4, 2018**

any event, other than an early closure, that materially disrupts or impairs the ability of market participants in general to effect transactions in, or obtain market values for, futures or options contracts relating to the Index or successor equity index on any related futures or options exchange at any time during the one-hour period that ends at the close of trading on such related futures or options exchange on that day; or

the closure on any exchange business day of any related futures or options exchange prior to its scheduled closing time unless the earlier closing time is announced by such related futures or options exchange at least one hour prior to the earlier of (i) the actual closing time for the regular trading session on such related futures or options exchange and (ii) the submission deadline for orders to be entered into the related futures or options exchange system for execution at the close of trading for such related futures or options exchange on that day.

- (C) The relevant index sponsor fails to publish the level of the Index or any successor equity index (other than as a result of the relevant index sponsor having discontinued publication of the Index or successor equity Index and no successor index being available).
- (D) Any related futures or options exchange fails to open for trading during its regular trading session.
- (E) any other event, if the calculation agent determines that the event materially interferes with our ability or the ability of any of our affiliates to unwind all or a portion of a hedge with respect to the securities that we or our affiliates have effected or may effect as described below under "Use of Proceeds and Hedging" in this pricing supplement.

For purposes of determining whether a market disruption event has occurred:

- (1) the relevant percentage contribution of a security included in the Index or any successor equity index to the level of the Index will be based on a comparison of (x) the portion of the level of the Index attributable to that security to (y) the overall level of the Index, in each case using the official opening weightings as published by the relevant index sponsor as part of the market opening data;
- (2) the scheduled closing time of any relevant stock exchange or related futures or options exchange on any trading day means the scheduled weekday closing time of such relevant stock exchange or related futures or options exchange on such trading day, without regard to after hours or any other trading outside the regular

trading session hours; and

- (3) an exchange business day means any trading day on which (i) the relevant index sponsor publishes the level of the Index or any successor equity index and (ii) each related futures or options exchange is open for trading during its regular trading session, notwithstanding any related futures or options exchange closing prior to its scheduled closing time.

#### **Adjustments to the Index**

If at any time a sponsor or publisher of the Index (the Index sponsor ) makes a material change in the formula for or the method of calculating the Index, or in any other way materially modifies the Index (other than a modification prescribed in that formula or method to maintain the Index in the event of changes in constituent stock and capitalization and other routine events), then, from and after that time, the calculation agent will, at the close of business in New York, New York, on each date that the closing level of the Index is to be calculated, calculate a substitute closing level of the Index in accordance with the formula for and method of calculating the Index last in effect prior to the change, but using only those securities that comprised the Index immediately prior to that change. Accordingly, if the method of calculating the Index is modified so that the level of the Index is a fraction or a multiple of what it would have been if it had not been modified, then the calculation agent will adjust the Index in order to arrive at a level of the Index as if it had not been modified.

#### **Discontinuance of the Index**

If the Index sponsor discontinues publication of the Index, and such Index sponsor or another entity publishes a successor or substitute equity index that the calculation agent determines, in its sole discretion, to be comparable to the Index (a successor equity index ), then, upon the calculation agent's notification of that determination to the trustee and Canadian Imperial Bank of Commerce, the calculation agent will substitute the successor equity index as calculated by the relevant Index sponsor or any other entity and calculate the ending level as described above. Upon any selection by the calculation agent of a successor equity index, Canadian Imperial Bank of Commerce will cause notice to be given to holders of the securities.

PRS-21

## **Market Linked Securities Leveraged Upside Participation**

### **to a Cap and Fixed Percentage Buffered Downside**

#### **Principal at Risk Securities Linked to the MSCI Emerging Markets Index due January 4, 2018**

In the event that the Index sponsor discontinues publication of the Index prior to, and the discontinuance is continuing on, the calculation date and the calculation agent determines that no successor equity index is available at such time, the calculation agent will calculate a substitute closing level for the Index in accordance with the formula for and method of calculating the Index last in effect prior to the discontinuance, but using only those securities that comprised the Index immediately prior to that discontinuance. If a successor equity index is selected or the calculation agent calculates a level as a substitute for the Index, the successor equity index or level will be used as a substitute for the Index for all purposes, including the purpose of determining whether a market disruption event exists.

If on the calculation date the Index sponsor fails to calculate and announce the level of the Index, the calculation agent will calculate a substitute closing level of the Index in accordance with the formula for and method of calculating the Index last in effect prior to the failure, but using only those securities that comprised the Index immediately prior to that failure; *provided* that, if a market disruption event occurs or is continuing on such day, then the provisions set forth above under **Market Disruption Events** shall apply in lieu of the foregoing.

Notwithstanding these alternative arrangements, discontinuance of the publication of, or the failure by the Index sponsor to calculate and announce the level of, the Index may adversely affect the value of the securities.

#### **Calculation Agent**

We or one of our affiliates will act as calculation agent for the securities and may appoint agents to assist it in the performance of its duties. See **Risk Factors We Or One Of Our Affiliates Will Be The Calculation Agent And, As A Result, Potential Conflicts Of Interest Could Arise.** We may appoint a different calculation agent without your consent and without notifying you.

The calculation agent will determine the redemption amount you receive at stated maturity. In addition, the calculation agent will, among other things:

determine whether a market disruption event has occurred;

determine if adjustments are required to the closing level of the Index under various circumstances; and

if publication of the Index is discontinued, select a successor equity index or, if no successor equity index is available, determine the closing level of the Index.

All determinations made by the calculation agent will be at the sole discretion of the calculation agent and, in the absence of manifest error, will be conclusive for all purposes and binding on us and you. All percentages and other amounts resulting from any calculation with respect to the securities will be rounded at the calculation agent's discretion. The calculation agent will have no liability for its determinations.

### **Appointment of Independent Calculation Experts**

If a calculation or valuation described above under Additional Terms of the Securities Market Disruption Events or Additional Terms of the Securities Discontinuance of the Index contemplated to be made by the calculation agent involves the application of material discretion and is not based on information or calculation methodologies compiled or utilized by, or derived from, independent third party sources, we will appoint one or more calculation experts to confirm such calculation or valuation. Such calculation experts will be independent from us and active participants in the financial markets in the relevant jurisdiction in which futures or options contracts on the Index are traded. Calculation experts will not assume any obligation or duty to, or any relationship of agency or trust for or with, the holders of the securities or us. Holders of the securities will be entitled to rely on any valuation or calculations made by such calculation experts and such valuations or calculations will (except in the case of manifest error) be final and binding on us, the calculation agent and the holders of the securities. Calculation experts will not be responsible for good faith errors or omissions in the making of any such valuations or calculations. Calculation experts may, with the consent of us, delegate any of their obligations and functions to a third party as they deem appropriate, but acting honestly and reasonably at all times. The valuations and calculations of calculation experts will be made available to the holders of the securities upon request.

**Market Linked Securities Leveraged Upside Participation**

**to a Cap and Fixed Percentage Buffered Downside**

**Principal at Risk Securities Linked to the MSCI Emerging Markets Index due January 4, 2018**

**Events of Default and Acceleration**

If the securities have become immediately due and payable following an event of default (as defined in the section Description of Senior Debt Securities Events of Default in the accompanying prospectus) with respect to the securities, the amount payable on the securities will be equal to the redemption amount, calculated as though the date of acceleration were the calculation date.

If the securities have become immediately due and payable following an event of default, you will not be entitled to any payments with respect to the securities in addition to the redemption amount, calculated as set forth in the preceding paragraph. For more information, see Description of Senior Debt Securities Events of Default beginning on page 9 of the accompanying prospectus.

**Withholding**

We or the applicable paying agent will deduct or withhold from a payment on a security any present or future tax, duty, assessment or other governmental charge that we determine is required by law or the interpretation or administration thereof to be deducted or withheld. Payments on a security will not be increased by any amount to offset such deduction or withholding.

**THE MSCI EMERGING MARKETS INDEX**

**General**

Included in the following pages is a brief description of the MSCI Emerging Markets Index (the Index). This information has been obtained from publicly available sources.

Information from outside sources is not incorporated by reference in, and should not be considered part of, this pricing supplement or the accompanying prospectus or prospectus supplement. We have not independently verified any of the information herein obtained from outside sources.

This pricing supplement relates only to the securities offered hereby and does not relate to the Index or the securities that make up the Index.

All information regarding the Index set forth in this pricing supplement reflects the policies of, and is subject to change by, MSCI, Inc. (MSCI), the Index sponsor. The Index was developed by MSCI and is calculated, maintained and published by MSCI. The Index is reported by MSCI on Bloomberg page MXEF.

Additional information on the Index is available on the following website: <http://www.msci.com>. No information on the website shall be deemed to be included or incorporated by reference in this pricing supplement.

The MXEF offers a representation of emerging markets based on the following countries: Brazil, Chile, China, Colombia, the Czech Republic, Egypt, Greece, Hungary, India, Indonesia, Malaysia, Mexico, Peru, the Philippines, Poland, Qatar, Russia, South Africa, South Korea, Taiwan, Thailand, Turkey and the United Arab Emirates. With 832 constituents, the MXEF covers approximately 85% of the free float-adjusted market capitalization in each country. It is based on the Global Investable Market Indices methodology which emphasizes index liquidity, investability and replicability. The MXEF has a base value of 100.00 and a base date of December 31, 1987. As of December 30, 2016, the five largest country weights were China (26.52%), South Korea (14.42%), Taiwan (12.20%), India (8.33%), and Brazil (7.69%) and the five largest sector weights were Financials (24.42%), Information Technology (23.26%), Consumer Discretionary (10.28%), Energy (7.88%), and Consumer Staples (7.19%).

The MXEF is part of the MSCI Market Cap Weighted Indexes series and is an MSCI Global Investable Market Index.

The MSCI indices were founded in 1969 by Capital International as the first international performance benchmarks constructed to facilitate accurate comparison of world markets. Morgan Stanley acquired the rights to license the MSCI indices in 1986. In November 1998, Morgan Stanley transferred all rights to the MSCI indices to MSCI, a Delaware corporation formed and operated jointly by Morgan Stanley and Capital International. In 2004, MSCI acquired Barra, Inc., a provider of risk analytics, and firm-wide investment risk management systems and services and merged this with MSCI. In 2007, MSCI completed an initial public offering and was listed on the New York Stock Exchange, with Morgan Stanley retaining a controlling interest. In 2009, MSCI and Morgan Stanley fully separated. The MSCI single country standard equity indices have covered the world's developed markets since 1969, and in 1988, MSCI commenced coverage of the emerging markets.

MSCI provides global equity indices intended to measure equity performance in international markets and the MSCI indices are designed to serve as global equity performance benchmarks. In constructing these indices, MSCI applies its index construction and maintenance methodology across developed, emerging and frontier markets.

MSCI enhanced the methodology used in its international equity indices. The MSCI Standard and MSCI Small Cap Indices, along with the other MSCI equity indices based on them, transitioned to the Global Investable Market Indexes methodology described below. The transition was completed at the end of May 2008. The enhanced MSCI Standard Indices are composed of the MSCI Large Cap and Mid Cap Indices. The MSCI Global Small Cap Index transitioned to the MSCI Small Cap Index resulting from the Global Investable Market Indexes methodology and contains no overlap with constituents of the transitioned MSCI Standard Indices. Together, the relevant MSCI Large Cap, Mid Cap, and Small Cap Indices will make up the MSCI investable market index for each country, composite, sector, and style index that MSCI offers.

**Principal at Risk Securities Linked to the MSCI Emerging Markets Index due January 4, 2018**

***Index Construction***

MSCI undertakes an index construction process for the MSCI Global Investable Market Indexes, which involves:

defining the equity universe;

determining the market investable equity universe for each market;

determining market capitalization size segments for each market;

applying index continuity rules for the MSCI Standard Index;

creating style segments within each size segment within each market; and

classifying securities under the Global Industry Classification Standard (the GICS).

*Defining the Equity Universe.* The equity universe is defined by:

**Identifying Eligible Equity Securities:** all listed equity securities, including Real Estate Investment Trusts (REITs) and certain income trusts listed in Canada are eligible for inclusion in the equity universe. Limited partnerships, limited liability companies, and business trusts, which are listed in the United States and are not structured to be taxed as limited partnerships, are likewise eligible for inclusion in the equity universe. Conversely, mutual funds, ETFs, equity derivatives, and most investment trusts are not eligible for inclusion in the equity universe.

**Classifying Eligible Securities into the Appropriate Country:** each company and its securities (i.e., share classes) are classified in only one country. Countries will be classified as Developed Markets ( DM ), Emerging Markets ( EM ) or Frontier Markets ( FM ).

**Determining the Market Investable Equity Universes.** A market investable equity universe for a market is derived by identifying eligible listings for each security in the equity universe and applying investability screens to individual companies and securities in the equity universe that are classified in that market. A market is equivalent to a single country, except in DM Europe, where all DM countries in Europe are aggregated into a single market for index construction purposes. Subsequently, individual DM Europe country indices within the MSCI Europe Index are

derived from the constituents of the MSCI Europe Index under the Global Investable Market Indexes methodology.

In identifying eligible listings, a security may have a listing in the country where it is classified (*i.e.*, local listing ) and/or in a different country (*i.e.*, foreign listing ). Securities may be represented by either a local listing or a foreign listing (including a depository receipt) in the equity universe. A security may be represented by a foreign listing only if the following conditions are met:

The security is classified in a country that meets the Foreign Listing Materiality Requirement, and

The security's foreign listing is traded on an eligible stock exchange of: (a) a DM country if the security is classified in a DM country; (b) a DM or an EM country if the security is classified in an EM country; or (c) a DM, EM or FM country if the security is classified in an FM country.

The investability screens used to determine the investable equity universe in each market are as follows:

**Equity Universe Minimum Size Requirement:** this investability screen is applied at the company level. In order to be included in a market investable equity universe, a company must have the required minimum full market capitalization.

**Equity Universe Minimum Free Float-Adjusted Market Capitalization Requirement:** this investability screen is applied at the individual security level. To be eligible for inclusion in a market investable equity universe, a security must have a free float-adjusted market capitalization equal to or higher than 50% of the equity universe minimum size requirement.

**DM and EM Minimum Liquidity Requirement:** this investability screen is applied at the individual security level. To be eligible for inclusion in a market investable equity universe, a security must have adequate liquidity. The twelve-month and three-month Annual Traded Value Ratio ( ATVR ), a measure that screens out extreme daily trading volumes and takes into account the free float-adjusted market capitalization of securities, together with the three-month frequency of trading are used to measure liquidity. In the calculation of the ATVR, the trading volumes in depository receipts associated with that security, such as ADRs or GDRs, are also considered. A minimum liquidity level of 20% of three- and twelve-month ATVR and 90% of three-month frequency of trading over the last four

## **Market Linked Securities Leveraged Upside Participation**

### **to a Cap and Fixed Percentage Buffered Downside**

#### **Principal at Risk Securities Linked to the MSCI Emerging Markets Index due January 4, 2018**

consecutive quarters are required for inclusion of a security in a market investable equity universe of a DM, and a minimum liquidity level of 15% of three- and twelve-month ATVR and 80% of three-month frequency of trading over the last four consecutive quarters are required for inclusion of a security in a market investable equity universe of an EM.

**Global Minimum Foreign Inclusion Factor Requirement:** this investability screen is applied at the individual security level. To be eligible for inclusion in a market investable equity universe, a security's Foreign Inclusion Factor ( FIF ) must reach a certain threshold. The FIF of a security is defined as the proportion of shares outstanding that is available for purchase in the public equity markets by international investors. This proportion accounts for the available free float of and/or the foreign ownership limits applicable to a specific security (or company). In general, a security must have an FIF equal to or larger than 0.15 to be eligible for inclusion in a market investable equity universe.

**Minimum Length of Trading Requirement:** this investability screen is applied at the individual security level. For an initial public offering ( IPO ) to be eligible for inclusion in a market investable equity universe, the new issue must have started trading at least four months before the implementation of the initial construction of the index or at least three months before the implementation of a semi-annual index review (as described below). This requirement is applicable to small new issues in all markets. Large IPOs are not subject to the minimum length of trading requirement and may be included in a market investable equity universe and the MSCI Standard Index outside of a Quarterly or Semi-Annual Index Review (as defined below).

**Minimum Foreign Room Requirement:** this investability screen is applied at the individual security level. For a security that is subject to a Foreign Ownership Limit ( FOL ) to be eligible for inclusion in a market investable equity universe, the proportion of shares still available to foreign investors relative to the maximum allowed (referred to as "foreign room" ) must be at least 15%.

*Defining Market Capitalization Size Segments for Each Market.* Once a market investable equity universe is defined, it is segmented into the following size-based indices:

Investable Market Index (Large + Mid + Small);

Standard Index (Large + Mid);

Large Cap Index;

Mid Cap Index; or

Small Cap Index.

Creating the size segment indices in each market involves the following steps:

defining the market coverage target range for each size segment;

determining the global minimum size range for each size segment;

determining the market size segment cutoffs and associated segment number of companies;

assigning companies to the size segments; and

applying final size segment investability requirements.

*Index Continuity Rules for the Standard Indices.* In order to achieve index continuity, as well as to provide some basic level of diversification within a market index, and notwithstanding the effect of other index construction rules described in this section, a minimum number of five constituents will be maintained for a DM Standard Index and a minimum number of three constituents will be maintained for an EM Standard Index.

*Creating Style Indices within Each Size Segment.* All securities in the investable equity universe are classified into value or growth segments using the MSCI Global Value and Growth methodology.

*Classifying Securities under the Global Industry Classification Standard.* All securities in the global investable equity universe are assigned to the industry that best describes their business activities. To this end, MSCI has designed, in conjunction with Standard & Poor's, the GICS. Under the GICS, each company is assigned to one sub-industry according to its principal business activity. Therefore, a company can belong to only one industry grouping at each of the four levels of the GICS.

**Market Linked Securities Leveraged Upside Participation**

**to a Cap and Fixed Percentage Buffered Downside**

**Principal at Risk Securities Linked to the MSCI Emerging Markets Index due January 4, 2018**

***Index Maintenance***

The MSCI Global Investable Market Indexes are maintained with the objective of reflecting the evolution of the underlying equity markets and segments on a timely basis, while seeking to achieve index continuity, continuous investability of constituents and replicability of the indices, index stability and low index turnover. In particular, index maintenance involves:

(i) Semi Annual Index Reviews ( SAIRs ) in May and November of the Size Segment and Global Value and Growth Indices which include:

updating the indices on the basis of a fully refreshed equity universe;

taking buffer rules into consideration for migration of securities across size and style segments; and

updating FIFs and Number of Shares ( NOS ).

(ii) Quarterly Index Reviews ( QIRs ) in February and August of the Size Segment Indices aimed at:

including significant new eligible securities (such as IPOs that were not eligible for earlier inclusion) in the index;

allowing for significant moves of companies within the Size Segment Indices, using wider buffers than in the SAIR; and

reflecting the impact of significant market events on FIFs and updating NOS.

(iii) Ongoing Event-Related Changes: changes of this type are generally implemented in the indices as they occur. Significantly large IPOs are included in the indices after the close of the company's tenth day of trading.

***Calculation of the Index***

The MSCI equity indices are free float-adjusted market capitalization indices that are designed to measure the market performance, including price performance, of the equity securities in an index. The MSCI equity indices are calculated using the Laspeyres' concept of a weighted arithmetic average together with the concept of chain-linking. Each index component is included at a weight that reflects the ratio of its free float-adjusted market capitalization (i.e., free public float multiplied by price) to the free float-adjusted market capitalization of all the components included in the index.

MSCI defines the free float of a security as the proportion of shares outstanding that is deemed to be available for purchase in the public equity markets by international investors.

Each MSCI Global Investable Market Index is calculated in the relevant local currency as well as in U.S. dollars, with price, gross and net returns.

Neither we nor any of our affiliates accepts any responsibility for the calculation, maintenance, or publication of, or for any error, omission, or disruption in, the Index. MSCI does not guarantee the accuracy or the completeness of the MSCI indices or any data included in the MSCI indices. MSCI assumes no liability for any errors, omissions, or disruption in the calculation and dissemination of the MSCI indices. MSCI disclaims all responsibility for any errors or omissions in the calculation and dissemination of the MSCI indices or the manner in which the MSCI indices are applied in determining the amount payable on the notes at maturity.

### **Prices and Exchange Rates**

*Prices.* The prices used to calculate the Index are the official exchange closing prices or those figures accepted as such. MSCI reserves the right to use an alternative pricing source on any given day.

*Exchange Rates.* MSCI uses the closing spot rates published by WM/Reuters at 4:00 p.m., London time. MSCI uses WM/Reuters rates for all countries for which it provides indices.

In case WM/Reuters does not provide rates for specific markets on given days (for example Christmas Day and New Year's Day), the previous business day's rates are used. MSCI independently monitors the exchange rates on all its indices and may, under exceptional

## **Market Linked Securities Leveraged Upside Participation**

### **to a Cap and Fixed Percentage Buffered Downside**

#### **Principal at Risk Securities Linked to the MSCI Emerging Markets Index due January 4, 2018**

circumstances, elect to use an alternative exchange rate if the WM/Reuters rates are not available, or if MSCI determines that the WM / Reuters rates are not reflective of market circumstances for a given currency on a particular day. In such circumstances, an announcement would be sent to clients with the related information. If appropriate, MSCI may conduct a consultation with the investment community to gather feedback on the most relevant exchange rate.

#### **License Agreement**

CIBC or one of its affiliates has entered into a non-exclusive license agreement with MSCI whereby CIBC and certain of its affiliates, in exchange for a fee, are permitted to use the MSCI indices in connection with certain securities, including the securities. We are not affiliated with MSCI, the only relationship between MSCI and us is any licensing of the use of MSCI's indices and trademarks relating to them.

The license agreement provides that the following language must be set forth herein:

THE SECURITIES ARE NOT SPONSORED, ENDORSED, SOLD OR PROMOTED BY MSCI, ANY AFFILIATE OF MSCI OR ANY OTHER PARTY INVOLVED IN, OR RELATED TO, MAKING OR COMPILING ANY MSCI INDEX. THE MSCI INDEXES ARE THE EXCLUSIVE PROPERTY OF MSCI. MSCI AND THE MSCI INDEX NAMES ARE SERVICE MARK(S) OF MSCI OR ITS AFFILIATES AND HAVE BEEN LICENSED FOR USE FOR CERTAIN PURPOSES BY CIBC. NEITHER MSCI, ANY OF ITS AFFILIATES NOR ANY OTHER PARTY INVOLVED IN, OR RELATED TO, MAKING OR COMPILING ANY MSCI INDEX MAKES ANY REPRESENTATION OR WARRANTY, EXPRESS OR IMPLIED, TO THE OWNERS OF THE SECURITIES PARTICULARLY OR THE ABILITY OF ANY MSCI INDEX TO TRACK CORRESPONDING STOCK MARKET PERFORMANCE. MSCI OR ITS AFFILIATES ARE THE LICENSORS OF CERTAIN TRADEMARKS, SERVICE MARKS AND TRADE NAMES AND OF THE MSCI INDEXES WHICH ARE DETERMINED, COMPOSED AND CALCULATED BY MSCI WITHOUT REGARD TO THE SECURITIES OR THE ISSUER OR OWNER OF THE SECURITIES. NEITHER MSCI, ANY OF ITS AFFILIATES NOR ANY OTHER PARTY INVOLVED IN, OR RELATED TO, MAKING OR COMPILING ANY MSCI INDEX HAS ANY OBLIGATION TO TAKE THE NEEDS OF THE ISSUERS OR OWNERS OF THE SECURITIES INTO CONSIDERATION IN THE DETERMINATION OF THE TIMING OF, PRICES AT, OR QUANTITIES OF THE SECURITIES TO BE ISSUED OR IN THE DETERMINATION OR CALCULATION OF THE EQUATION BY WHICH THE SECURITIES ARE REDEEMABLE FOR CASH. NEITHER MSCI, ANY OF ITS AFFILIATES NOR ANY OTHER PARTY INVOLVED IN, OR RELATED TO, THE MAKING OR COMPILING ANY MSCI INDEX HAS ANY OBLIGATION OR LIABILITY TO THE OWNERS OF THE SECURITIES IN CONNECTION WITH THE ADMINISTRATION, MARKETING OR OFFERING OF THE SECURITIES.

ALTHOUGH MSCI SHALL OBTAIN INFORMATION FOR INCLUSION IN OR FOR USE IN THE CALCULATION OF THE MSCI INDEXES FROM SOURCES WHICH MSCI CONSIDERS RELIABLE, NEITHER MSCI, ANY OF ITS AFFILIATES NOR ANY OTHER PARTY INVOLVED IN, OR RELATED TO MAKING OR COMPILING ANY MSCI INDEX WARRANTS OR GUARANTEES THE ORIGINALITY, ACCURACY AND/OR THE PARTY INVOLVED IN, OR RELATED TO, MAKING OR COMPILING ANY MSCI INDEX MAKES ANY WARRANTY, EXPRESS OR IMPLIED, AS TO RESULTS TO BE OBTAINED BY A

LICENSEE, LICENSEE'S CUSTOMERS OR COUNTERPARTIES, ISSUERS OF THE SECURITIES, OWNERS OF THE SECURITIES, OR ANY OTHER PERSON OR ENTITY, FROM THE USE OF ANY MSCI INDEX OR ANY DATA INCLUDED THEREIN IN CONNECTION WITH THE RIGHTS LICENSED HEREUNDER OR FOR ANY OTHER USE. MSCI, ALL OF ITS AFFILIATES AND ANY OTHER PARTY INVOLVED IN, OR RELATED TO, MAKING OR COMPILING ANY MSCI INDEX HEREBY EXPRESSLY DISCLAIM ALL WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, WITH RESPECT TO ANY MSCI INDEX AND ANY DATA INCLUDED THEREIN. WITHOUT LIMITING ANY OF THE FOREGOING, IN NO EVENT SHALL MSCI, ANY OF ITS AFFILIATES OR ANY OTHER PARTY INVOLVED IN, OR RELATED TO, MAKING OR COMPILING ANY MSCI INDEX HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, SPECIAL, PUNITIVE, CONSEQUENTIAL OR ANY OTHER DAMAGES (INCLUDING LOST PROFITS) EVEN IF NOTIFIED OF THE POSSIBILITY OF SUCH DAMAGES.

No purchaser, seller or holder of the securities, or any other person or entity, should use or refer to any MSCI trade name, trademark or service mark to sponsor, endorse, market or promote the securities without first contacting MSCI to determine whether MSCI's permission is required. Under no circumstances may any person or entity claim any affiliation with MSCI without the prior written permission of MSCI.

**Market Linked Securities Leveraged Upside Participation**

**to a Cap and Fixed Percentage Buffered Downside**

**Principal at Risk Securities Linked to the MSCI Emerging Markets Index due January 4, 2018**

**USE OF PROCEEDS AND HEDGING**

The net proceeds from the sale of the securities will be used as described under "Use of Proceeds" in the accompanying prospectus supplement and the prospectus and to hedge our market risks associated with our obligation to pay at maturity the redemption amount of the securities.

We may hedge our obligations under the securities by, among other things, purchasing securities, futures, options or other derivative instruments with returns linked or related to changes in the value of the Index and/or securities underlying the Index, and we may adjust these hedges by, among other things, purchasing or selling securities, futures, options or other derivative instruments at any time. Our cost of hedging will include the projected profit that our counterparty expects to realize in consideration for assuming the risks inherent in hedging our obligations under the securities. Because hedging our obligations entails risk and may be influenced by market forces beyond our or our counterparty's control, such hedging may result in a profit that is more or less than expected, or could result in a loss. It is possible that we could receive substantial returns from these hedging activities while the value of the securities declines.

We expect to hedge our obligations under the securities through one of our affiliates and/or another unaffiliated counterparty.

We have no obligation to engage in any manner of hedging activity and we will do so solely at our discretion and for our own account. No holder of the securities will have any rights or interest in our hedging activity or any positions we or any unaffiliated counterparty may take in connection with our hedging activity. The hedging activity discussed above may adversely affect the value of the securities from time to time. See "Risk Factors" "The Estimated Value of the Securities Is Not An Indication Of The Price, If Any, At Which Wells Fargo Securities Or Any Other Person May Be Willing To Buy The Securities From You In The Secondary Market" and "Our Economic Interests And Those of Any Dealer Participating In The Offering Of Securities Will Potentially Be Adverse To Your Interests," for a discussion of these adverse effects.

**Market Linked Securities Leveraged Upside Participation**

**to a Cap and Fixed Percentage Buffered Downside**

**Principal at Risk Securities Linked to the MSCI Emerging Markets Index due January 4, 2018**

**THE ESTIMATED VALUE OF THE SECURITIES**

The estimated value of the securities set forth on the cover of this pricing supplement is equal to the sum of the values of the following hypothetical components: (1) a fixed-income debt component with the same maturity as the securities, valued using our internal funding rate for structured debt described below, and (2) the derivative or derivatives underlying the economic terms of the securities. The estimated value does not represent a minimum price at which Wells Fargo Securities or any other person would be willing to buy your securities in any secondary market (if any exists) at any time. The internal funding rate used in the determination of the Bank's estimated value generally represents a discount from the credit spreads for our conventional fixed-rate debt. The discount is based on, among other things, our view of the funding value of the securities as well as the higher issuance, operational and ongoing liability management costs of the securities in comparison to those costs for our conventional fixed-rate debt. For additional information, see Risk Factors Our Estimated Value Was Not Determined By Reference To Credit Spreads For Our Conventional Fixed-Rate Debt. The value of the derivative or derivatives underlying the economic terms of the securities is derived from the Bank's or a third party hedge provider's internal pricing models. These models are dependent on inputs such as the traded market prices of comparable derivative instruments and on various other inputs, some of which are market-observable, and which can include volatility, dividend rates, interest rates and other factors, as well as assumptions about future market events and/or environments. Accordingly, the Bank's estimated value of the securities is determined when the terms of the securities are set based on market conditions and other relevant factors and assumptions existing at that time. See Risk Factors Our Estimated Value Does Not Represent Future Values Of The Securities And May Differ From Others Estimates.

The Bank's estimated value of the securities will be lower than the principal amount of the securities because costs associated with selling, structuring and hedging the securities are included in the principal amount of the securities. These costs include the selling commissions paid to affiliated or unaffiliated dealers, the projected profits that our hedge counterparties, which may include our affiliates, expect to realize for assuming risks inherent in hedging our obligations under the securities and the estimated cost of hedging our obligations under the securities. Because hedging our obligations entails risk and may be influenced by market forces beyond our control, this hedging may result in a profit that is more or less than expected, or it may result in a loss. We or one or more of our affiliates will retain any profits realized in hedging our obligations under the securities. See Risk Factors Our Estimated Value of the Securities Is Lower Than The Principal Amount Of The Securities in this pricing supplement.

**Principal at Risk Securities Linked to the MSCI Emerging Markets Index due January 4, 2018**

**SUPPLEMENTAL PLAN OF DISTRIBUTION**

The securities are being purchased by Wells Fargo Securities as principal, pursuant to a distribution agreement between Wells Fargo Securities and us. We have agreed to pay certain of Wells Fargo Securities' expenses in connection with the offering of the securities.

From time to time, Wells Fargo Securities and its affiliates have engaged, and in the future may engage, in transactions with and performance of services for us for which they have been, and may be, paid customary fees. In particular, Wells Fargo Securities or one of its affiliates may be our swap counterparty for a hedge relating to our obligations under the securities.

In the future, Wells Fargo Securities and its affiliates may repurchase and resell the offered securities in market-making transactions, with resales being made at prices related to prevailing market prices at the time of resale or otherwise. Unless you are informed otherwise in the confirmation of sale, this pricing supplement and the accompanying prospectus supplement and prospectus are being used in connection with the initial distribution of the securities and not in a market-making transaction.

Wells Fargo Securities has committed to purchase all of these securities in the initial public offering of the securities if any are purchased.

Wells Fargo Securities proposes to offer the securities to certain securities dealers, including securities dealers acting as custodians, at the principal amount of the securities less a concession not in excess of \$1.40 per security. Such securities dealers may include WFA (the trade name of the retail brokerage business of Wells Fargo Clearing Services, LLC and Wells Fargo Advisors Financial Network, LLC, each an affiliate of Wells Fargo Securities).

The principal amount of the securities includes the underwriting discount received by Wells Fargo Securities and the projected profit that our hedge counterparties expect to realize in consideration for assuming the risks inherent in hedging our obligations under the securities. We expect to hedge our obligations through an affiliate of Wells Fargo Securities, one of our affiliates and/or another unaffiliated counterparty. Because hedging our obligations entails risks and may be influenced by market forces beyond the counterparties' control, such hedging may result in a profit that is more or less than expected, or could result in a loss. The underwriting discount and projected profit of our hedge counterparties reduce the economic terms of the securities. In addition, the fact that the principal amount includes these items is expected to adversely affect the secondary market prices of the securities. These secondary market prices are also likely to be reduced by the cost of unwinding the related hedging transaction. See "Use of Proceeds and Hedging" on page PRS-31.

The securities are a new issue of securities with no established trading market. The securities will not be listed on a national securities exchange. Wells Fargo Securities may make a market for the securities, as applicable laws and regulations permit, but is not obligated to do so and may discontinue making a market at any time without notice. No assurance can be given as to the liquidity of any trading market for the securities.

Settlement for the securities will be made in immediately available funds. The securities will be in the Same Day Funds Settlement System at DTC and, to the extent any secondary market trading in the securities is effected through the facilities of such depository, such trades will be settled in immediately available funds.

Canadian Imperial Bank of Commerce has agreed to indemnify Wells Fargo Securities against certain liabilities, including liabilities under the Securities Act of 1933.

No action has been or will be taken by Canadian Imperial Bank of Commerce, Wells Fargo Securities or any broker-dealer affiliates of either Canadian Imperial Bank of Commerce or Wells Fargo Securities that would permit a public offering of the securities or possession or distribution of this pricing supplement or the accompanying prospectus and prospectus supplement in any jurisdiction, other than the United States, where action for that purpose is required. No offers, sales or deliveries of the securities, or distribution of this pricing supplement or the accompanying prospectus supplement and prospectus, may be made in or from any jurisdiction except in circumstances which will result in compliance with any applicable laws and regulations and will not impose any obligations on Canadian Imperial Bank of Commerce, Wells Fargo Securities or any broker-dealer affiliates of either Canadian Imperial Bank of Commerce or Wells Fargo Securities.

**Principal at Risk Securities Linked to the MSCI Emerging Markets Index due January 4, 2018**

For the following jurisdictions, please note specifically:

**Argentina**

Canadian Imperial Bank of Commerce's Senior Global Medium-Term Notes (Structured Notes) program and the related offer of securities and the sale of securities under the terms and conditions provided herein does not constitute a public offering in Argentina. Consequently, no public offering approval has been requested or granted by the Comisión Nacional de Valores, nor has any listing authorization of the securities been requested on any stock market in Argentina.

**Brazil**

The securities may not be offered or sold to the public in Brazil. Accordingly, this pricing supplement and the accompanying prospectus supplement and prospectus have not been submitted to the Comissão de Valores Mobiliários for approval. Documents relating to this offering may not be supplied to the public as a public offering in Brazil or be used in connection with any offer for subscription or sale to the public in Brazil.

**Chile**

The securities have not been registered with the Superintendencia de Valores y Seguros in Chile and may not be offered or sold publicly in Chile. No offer, sales or deliveries of the securities, or distribution of this pricing supplement or the accompanying prospectus supplement and prospectus, may be made in or from Chile except in circumstances that will result in compliance with any applicable Chilean laws and regulations.

**Mexico**

The securities have not been registered with the National Registry of Securities maintained by the Mexican National Banking and Securities Commission and may not be offered or sold publicly in Mexico. This pricing supplement and the accompanying prospectus supplement and prospectus may not be publicly distributed in Mexico.

**Paraguay**

This is a private and personal offering. The securities offered have not been approved by or registered with the National Securities Commission (Comisión Nacional de Valores) and are not part of a public offering as defined by the Paraguayan Securities Law. The information contained herein is for informational and marketing purposes only and should not be taken as an investment advice.

**Taiwan**

The securities may be made available outside Taiwan for purchase by Taiwan residents outside Taiwan but may not be offered or sold in Taiwan.

**BENEFIT PLAN INVESTOR CONSIDERATIONS**

Each fiduciary of a pension, profit-sharing or other employee benefit plan to which Title I of the Employee Retirement Income Security Act of 1974, as amended ( ERISA ), applies (a plan ), should consider the fiduciary standards of ERISA in the context of the plan s particular circumstances before authorizing an investment in the securities. Accordingly, among other factors, the fiduciary should consider whether the investment would satisfy the prudence and diversification requirements of ERISA and would be consistent with the documents and instruments governing the plan. When we use the term holder in this section, we are referring to a beneficial owner of the securities and not the record holder.

Section 406 of ERISA and Section 4975 of the Internal Revenue Code of 1986, as amended (the Code ) prohibit plans, as well as individual retirement accounts and Keogh plans to which Section 4975 of the Code applies (also plans ), from engaging in specified transactions involving plan assets with persons who are parties in interest under ERISA or disqualified persons under the Code (collectively, parties in interest ) with respect to such plan. A violation of those prohibited transaction rules may result in an excise tax or other liabilities under ERISA and/or Section 4975 of the Code for such persons, unless statutory or administrative exemptive relief is available. Therefore, a fiduciary of a plan should also consider whether an investment in the securities might constitute or give rise to a prohibited transaction under ERISA and the Code.

Employee benefit plans that are governmental plans, as defined in Section 3(32) of ERISA, certain church plans, as defined in Section 3(33) of ERISA, and foreign plans, as described in Section 4(b)(4) of ERISA (collectively, Non-ERISA Arrangements ), are not subject to the requirements of ERISA, or Section 4975 of the Code, but may be subject to similar rules under other applicable laws or regulations ( Similar Laws ).

We and our affiliates may each be considered a party in interest with respect to many plans. Special caution should be exercised, therefore, before the securities are purchased by a plan. In particular, the fiduciary of the plan should consider whether statutory or administrative exemptive relief is available. The U.S. Department of Labor has issued five prohibited transaction class exemptions ( PTCEs ) that may provide exemptive relief for direct or indirect prohibited transactions resulting from the purchase or holding of the securities. Those class exemptions are:

PTCE 96-23, for specified transactions determined by in-house asset managers;

PTCE 95-60, for specified transactions involving insurance company general accounts;

PTCE 91-38, for specified transactions involving bank collective investment funds;

PTCE 90-1, for specified transactions involving insurance company separate accounts; and

PTCE 84-14, for specified transactions determined by independent qualified professional asset managers. In addition, Section 408(b)(17) of ERISA and Section 4975(d)(20) of the Code provide an exemption for transactions between a plan and a person who is a party in interest (other than a fiduciary who has or exercises any discretionary authority or control with respect to investment of the plan assets involved in the transaction or renders investment advice with respect thereto) solely by reason of providing services to the plan (or by reason of a relationship to such a service provider), if in connection with the transaction of the plan receives no less, and pays no more, than adequate consideration (within the meaning of Section 408(b)(17) of ERISA).

Any purchaser or holder of the securities or any interest in the securities will be deemed to have represented by its purchase and holding that either:

no portion of the assets used by such purchaser or holder to acquire or purchase the securities constitutes assets of any plan or Non-ERISA Arrangement; or

an administrative or statutory exemption applies to their purchase and holding of the securities and the purchase and holding of the securities by such purchaser or holder will not constitute a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code or a similar violation under any Similar Law.

PRS-35

**Market Linked Securities Leveraged Upside Participation**

**to a Cap and Fixed Percentage Buffered Downside**

**Principal at Risk Securities Linked to the MSCI Emerging Markets Index due January 4, 2018**

Due to the complexity of these rules and the penalties that may be imposed upon persons involved in non-exempt prohibited transactions, it is particularly important that fiduciaries or other persons considering purchasing the securities on behalf of or with plan assets of any plan consult with their counsel regarding the potential consequences under ERISA and the Code of the acquisition of the securities and the availability of exemptive relief.

The securities are contractual financial instruments. The financial exposure provided by the securities is not a substitute or proxy for, and is not intended as a substitute or proxy for, individualized investment management or advice for the benefit of any purchaser or holder of the securities. The securities have not been designed and will not be administered in a manner intended to reflect the individualized needs and objectives of any purchaser or holder of the securities.

Each purchaser or holder of the securities acknowledges and agrees that:

- (i) the purchaser or holder or its fiduciary has made and shall make all investment decisions for the purchaser or holder and the purchaser or holder has not relied and shall not rely in any way upon us or our affiliates to act as a fiduciary or adviser of the purchaser or holder with respect to (a) the design and terms of the securities, (b) the purchaser or holder's investment in the securities, or (c) the exercise of or failure to exercise any rights we have under or with respect to the securities;
- (ii) we and our affiliates have acted and will act solely for our own account in connection with (a) all transactions relating to the securities and (b) all hedging transactions in connection with our obligations under the securities;
- (iii) any and all assets and positions relating to hedging transactions by us or our affiliates are assets and positions of those entities and are not assets and positions held for the benefit of the purchaser or holder;
- (iv) our interests may be adverse to the interests of the purchaser or holder; and
- (v) neither we nor any of our affiliates is a fiduciary or adviser of the purchaser or holder in connection with any such assets, positions or transactions, and any information that we or any of our affiliates may provide is not intended to be impartial investment advice.

Purchasers of the securities have the exclusive responsibility for ensuring that their purchase, holding and subsequent disposition of the securities does not violate the fiduciary or prohibited transaction rules of ERISA, the Code or any Similar Laws. Nothing herein shall be construed as a representation that an investment in the securities would be appropriate for, or would meet any or all of the relevant legal requirements with respect to investments by, plans or Non-ERISA Arrangements generally or any particular plan or Non-ERISA Arrangement.

**UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS**

The following discussion supplements the discussion in the section called "Certain Income Tax Consequences - United States Taxation" in the accompanying prospectus supplement, and is subject to the limitations and exceptions set forth therein. Capitalized terms used in this section without definition shall have the respective meanings given such terms in the accompanying prospectus supplement.

The following summary describes certain U.S. federal income tax consequences relevant to the purchase, ownership, and disposition of the securities. This summary applies only to holders that acquire their securities in this offering for a price equal to the principal amount, which we understand will be at par, and hold such securities as capital assets, within the meaning of Section 1221 of the U.S. Internal Revenue Code of 1986, as amended (the "Code"). This summary does not apply to any holder that is subject to special rules, such as:

a dealer in securities,

a trader in securities that elects to use a mark-to-market method of accounting for your securities holdings,

a bank,

a life insurance company,

a tax-exempt organization,

a person that owns the notes as part of a straddle or a hedging or conversion transaction for tax purposes,

a person that purchases or sells the notes as part of a wash sale for tax purposes,

a regulated investment company or real estate investment trust

a U.S. holder (as defined in the accompanying Prospectus Supplement) whose functional currency for tax purposes is not the U.S. dollar

a U.S. holder subject to the alternative minimum tax, or

U.S. expatriates.

This discussion is based upon current provisions of the Code, existing and proposed Treasury Regulations thereunder, current administrative rulings, judicial decisions and other applicable authorities. All of the foregoing are subject to change, which change may apply retroactively and could affect the continued validity of this summary. This summary does not describe any tax consequences arising under the laws of any state, locality or taxing jurisdiction other than the U.S. federal government. This discussion also does not purport to be a complete analysis of all tax considerations relating to the securities.

**You should consult your tax advisor concerning the U.S. federal income tax and other tax consequences of your investment in the securities in your particular circumstances, including the application of state, local or other tax laws and the possible effects of changes in federal or other tax laws.**

If a partnership holds the securities, the U.S. federal income tax treatment of a partner will generally depend on the status of the partner and the tax treatment of the partnership. You should consult your tax advisor concerning the U.S. federal income tax and other tax consequences of your investment in the securities if you are a partner in a partnership holding the securities.

### **General**

As the law applicable to the U.S. federal taxation of instruments such as the securities is technical and complex, the discussion below necessarily represents only a general summary. The U.S. federal income tax consequences of your investment in the securities are uncertain. No statutory, judicial or administrative authority directly discusses how the securities should be treated for U.S. federal income tax purposes.

PRS-37

## **Market Linked Securities Leveraged Upside Participation**

### **to a Cap and Fixed Percentage Buffered Downside**

### **Principal at Risk Securities Linked to the MSCI Emerging Markets Index due January 4, 2018**

In the opinion of our counsel, Mayer Brown LLP, it would be generally reasonable to treat the securities as pre-paid cash-settled derivative contracts. The terms of the securities will provide that you agree to treat the securities in this manner for all U.S. federal income tax purposes.

Unless otherwise stated, the following discussion is based on the characterization described above. The discussion in this section reflects the opinion of Mayer Brown that there is a significant possibility of a significant loss of principal on an investment in the securities.

#### **Tax Consequences to U.S. Holders**

You should generally recognize capital gain or loss upon the sale, exchange or payment on maturity in an amount equal to the difference between the amount you receive at such time and your tax basis in the securities. In general, your tax basis in the securities will be equal to the price you paid for them. Capital gain recognized by an individual U.S. holder is generally taxed at ordinary income rates where the property is held for one year or less. The deductibility of capital losses is subject to limitations. The holding period for securities of a U.S. holder who acquires the securities upon issuance will generally begin on the date after the issue date (i.e., the settlement date) of the securities. If the securities are held by the same U.S. holder until maturity, that holder's holding period will generally include the maturity date.

#### ***Possible Alternative Tax Treatments of an Investment in the Securities***

As noted above, there is no judicial or administrative authority discussing how the securities should be treated for U.S. federal income tax purposes. Therefore, other treatments would also be reasonable and the Internal Revenue Service might assert that treatment other than that described above is more appropriate.

The U.S. Treasury Department and the Internal Revenue Service released a notice that may affect the taxation of holders of the securities. According to the notice, the Internal Revenue Service and the U.S. Treasury are actively considering whether the holder of an instrument such as the securities should be required to accrue ordinary income on a current basis, and they are seeking taxpayer comments on the subject. The notice also states that the Internal Revenue Service and the Treasury Department are also considering other relevant issues, including whether gain or loss from such instruments should be treated as ordinary or capital and whether the special constructive ownership rules of Section 1260 of the Code might be applied to such instruments. Similarly, the Internal Revenue Service and the Treasury Department have current projects open with regard to the tax treatment of pre-paid forward contracts and contingent notional principal contracts. While it is not clear whether the securities would be viewed as similar to instruments discussed in such notice, it is possible that any future guidance could materially and adversely affect the tax consequences of an investment in the securities, possibly with retroactive effect.

Similarly, the Internal Revenue Service might assert, and a possible alternative treatment with respect to the securities would be, to treat the securities as a single debt instrument. Such a debt instrument may be subject to the special tax rules governing contingent payment debt instruments.

If the securities are subject to such special rules applicable to contingent payment debt instruments, the amount of interest U.S. holders are required to take into account for each accrual period will be determined by constructing a projected payment schedule for the securities and applying rules similar to those for accruing original issue discount or OID on a hypothetical noncontingent debt instrument with that projected payment schedule. In addition to accruing interest income in accordance with the comparable yield, a U.S. holder will be required to make adjustments if the actual amounts that holder receives in any taxable year differs from the projected payment schedule. These rules could possibly have the effect of requiring U.S. holders to include amounts in income in respect of the securities prior to receipt of cash attributable to that income.

U.S. holders will recognize gain or loss on the sale, redemption or maturity of securities treated as contingent payment debt instruments in an amount equal to the difference, if any, between the amount of cash received at that time and their adjusted basis in the securities. In general, a U.S. holder's adjusted basis in such securities will equal the amount the holder paid for the securities, increased by the amount of interest that was previously accrued with respect to the securities. Any such gain will generally be ordinary income and any such loss that will generally be ordinary loss to the extent the interest included as income in the current or previous taxable years, and thereafter will be capital loss.

### **to a Cap and Fixed Percentage Buffered Downside**

### **Principal at Risk Securities Linked to the MSCI Emerging Markets Index due January 4, 2018**

#### **Information Reporting and Backup Withholding**

The proceeds received from a sale, exchange or retirement of the securities may be subject to information reporting and, if the holder fails to provide certain identifying information (such as an accurate taxpayer identification number in the case of a U.S. holder) or meet certain other conditions, may also be subject to backup withholding at the rate specified in the Code. A non-U.S. holder (or financial institution holding the securities on behalf of the non-U.S. holder) that provides the applicable withholding agent with the appropriate Internal Revenue Service Form W-8 will generally establish an exemption from backup withholding. Amounts withheld under the backup withholding rules are not additional taxes and may be refunded or credited against the holder's U.S. federal income tax liability, provided the relevant information is timely furnished to the Internal Revenue Service.

**You are urged to consult your tax advisors concerning the significance, and the potential impact, of the above considerations.**

#### **Additional Information for U.S. Holders.**

For information regarding backup withholding and information reporting considerations with respect to the securities, please see the discussion under "Certain Income Tax Consequences—United States Taxation—U.S. Backup Withholding and Information Reporting" in the accompanying prospectus supplement.

#### **Tax Consequences to Non-U.S. Holders**

For purposes of this discussion, the term "non-U.S. holder" means a beneficial owner of a security that is not a partnership or other entity treated as a partnership and is not a U.S. holder. If you are a non-U.S. holder, you generally will not be subject to U.S. federal income or withholding tax for amounts paid in respect of the securities, provided that the payment is not effectively connected with your conduct of a U.S. trade or business. Notwithstanding the foregoing, gain from the sale or exchange of the securities or their settlement at maturity may be subject to U.S. federal income tax if you are a nonresident alien individual and are present in the U.S. for 183 days or more during the taxable year of the settlement at maturity, sale or exchange and certain other conditions are satisfied.

If you are engaged in the conduct of a trade or business within the U.S. and if gain realized on the settlement at maturity, sale or exchange of the securities, is effectively connected with the conduct of such trade or business (and, if certain tax treaties apply, is attributable to a permanent establishment maintained by the non-U.S. holder in the U.S.), you generally will be subject to U.S. federal income tax on such gain on a net income basis in the same manner as if you were a U.S. holder as described under the heading "Tax Consequences to U.S. Holders," above. In addition, non-U.S. holders that are foreign corporations, may also be subject to a branch profits tax equal to 30% (or such lower rate provided by any applicable tax treaty) of a portion of their earnings and profits that are withdrawn from the U.S. for the taxable year that are effectively connected with their conduct of a trade or business in the U.S., subject to certain adjustments.

Notwithstanding the above, if we determine that there is a material risk that we will be required to withhold on any payments on the securities, we may withhold on any such payment to a non-U.S. holder at a 30% rate, unless such

non-U.S. holder has provided to us (i) a valid Internal Revenue Service Form W-8ECI or (ii) a valid Internal Revenue Service Form W-8BEN or Internal Revenue Service Form W-8BEN-E claiming tax treaty benefits that reduce or eliminate withholding. If we elect to withhold and such non-U.S. holder has provided us with a valid Internal Revenue Service Form W-8BEN or Internal Revenue Service Form W-8BEN-E claiming tax treaty benefits that reduce or eliminate withholding, we may nevertheless withhold up to 30% on any payments if there is any possible characterization of the payments that would not be exempt from withholding under the treaty.

Section 871(m) of the Code and Treasury regulations promulgated thereunder ( Section 871(m) ) generally impose a 30% withholding tax on dividend equivalents paid or deemed paid to non-U.S. holders with respect to certain financial instruments linked to U.S. equities or indices that include U.S. equities (such equities and indices, U.S. Underlying Equities ). Section 871(m) generally applies to instruments that substantially replicate the economic performance of one or more U.S. Underlying Equities, as determined upon issuance, based on tests set forth in the applicable Treasury regulations (a Specified Security ). Specifically, and subject to the 2017 exemption described in the next paragraph, Section 871(m) will apply if, at issuance, a financial instrument either meets (i) a delta test, if it is a simple contract, or (ii) a substantial equivalence test, if it is a complex contract. Section 871(m) provides certain exceptions to this withholding regime, in particular for instruments linked to certain broad-based indices that meet requirements set forth in the applicable Treasury regulations as well as securities that track such indices.

In Notice 2016-76 (the Notice ), the U.S. Treasury Department and the IRS announced that revised regulations under Section 871(m) would exempt financial instruments issued in 2017 that are not delta-one. Based on the terms of the securities and representations provided by us, our counsel is of the opinion that the MSCI Emerging Markets Index is a qualified index and that securities should not be delta-one transactions within the meaning of the Notice and, therefore, should not be Specified Securities subject to withholding tax under Section 871(m).

**Market Linked Securities Leveraged Upside Participation**

**to a Cap and Fixed Percentage Buffered Downside**

**Principal at Risk Securities Linked to the MSCI Emerging Markets Index due January 4, 2018**

A determination that the securities are not subject to Section 871(m) is not binding on the IRS, and the IRS may disagree with this treatment. Moreover, Section 871(m) is complex and its application may depend on your particular circumstances. For example, if you enter into other transactions relating to the Index, you could be subject to withholding tax or income tax liability under Section 871(m) even if the securities are not Specified Securities subject to Section 871(m) as a general matter. You should consult your tax adviser regarding the potential application of Section 871(m) to the securities.

As discussed above, alternative characterizations of the securities for U.S. federal income tax purposes are possible. Should an alternative characterization, by reason of change or clarification of the law, by regulation or otherwise, cause payments as to the securities to become subject to withholding tax, we will withhold tax at the applicable statutory rate. Additionally, as discussed above, the Internal Revenue Service has indicated that it is considering whether income in respect of instruments such as the securities should be subject to withholding tax. Prospective non-U.S. holders of the securities should consult their own tax advisors in this regard.

The gross estate of a non-U.S. holder domiciled outside the United States includes only property situated in the United States. A security may be subject to U.S. federal estate tax if an individual non-U.S. holder holds the security at the time of his or her death. Individual non-U.S. holders should consult their tax advisors regarding the U.S. federal estate tax consequences of holding the securities at death.

**Additional Information for Investors**

For information regarding the applicability of FATCA to the securities, please see the discussion under **Certain Income Tax Consequences United States Taxation Recent Legislative Developments** in the accompanying prospectus supplement. FATCA may impose a 30% withholding tax on payments of gross proceeds from the sale, exchange or redemption of property that gives rise to U.S.-source dividends or interest. The Internal Revenue Service recently announced in published guidance its intent to amend the regulations to extend the effective date of withholding on gross proceeds to 1 January 2019. Similarly, the Internal Revenue Service announced its intention to delay the effective date of withholding tax on foreign passthru payments to the later of 1 January 2019 or the date of publication of final U.S. Treasury regulations defining such term.

**Market Linked Securities Leveraged Upside Participation**

**to a Cap and Fixed Percentage Buffered Downside**

**Principal at Risk Securities Linked to the MSCI Emerging Markets Index due January 4, 2018**

**CERTAIN CANADIAN FEDERAL INCOME TAX CONSIDERATIONS**

In the opinion of Blake, Cassels & Graydon LLP, our Canadian tax counsel, the following summary describes the principal Canadian federal income tax considerations under the *Income Tax Act* (Canada) (the Canadian Tax Act) generally applicable at the date hereof to an investor who acquires beneficial ownership of a security pursuant to this pricing supplement and who for the purposes of the Canadian Tax Act and at all relevant times: (a) is neither resident nor deemed to be resident in Canada; (b) deals at arm's length with the Issuer and any transferee resident (or deemed to be resident) in Canada to whom the investor disposes of the security; (c) does not use or hold the security in, or in the course of, carrying on a business in Canada; (d) is entitled to receive all payments (including any interest and principal) made on the security, and (e) is not a, and deals at arm's length with any, specified shareholder of the Issuer for purposes of the thin capitalization rules in the Canadian Tax Act (a Non-Resident Holder). A specified shareholder for these purposes generally includes a person who (either alone or together with persons with whom that person is not dealing at arm's length for the purposes of the Canadian Tax Act) owns or has the right to acquire or control or is otherwise deemed to own 25% or more of the Issuer's shares determined on a votes or fair market value basis. Special rules which apply to non-resident insurers carrying on business in Canada and elsewhere are not discussed in this summary.

This summary is supplemental to and should be read together with the description of material Canadian federal income tax considerations relevant to a Non-Resident Holder owning securities under Certain Income Tax Consequences Certain Canadian Income Tax Considerations in the accompanying prospectus supplement and a Non-Resident Holder should carefully read that description as well.

**This summary is of a general nature only and is not intended to be, nor should it be construed to be, legal or tax advice to any particular Non-Resident Holder. Non-Resident Holders are advised to consult with their own tax advisors with respect to their particular circumstances.**

Based on Canadian tax counsel's understanding of the Canada Revenue Agency's administrative policies, and having regard to the terms of the securities, interest payable on the securities should not be considered to be participating debt interest as defined in the Canadian Tax Act and accordingly, a Non-Resident Holder should not be subject to Canadian non-resident withholding tax in respect of amounts paid or credited or deemed to have been paid or credited by the Issuer on a security as, on account of or in lieu of payment of, or in satisfaction of, interest.

Non-Resident Holders should consult their own tax advisors regarding the consequences to them of a disposition of the securities to a person with whom they are not dealing at arm's length for purposes of the Canadian Tax Act. In addition, it is not clear whether recent amendments to the Canadian Tax Act originally announced in the 2016 Canadian Federal Budget could impact the Canadian tax consequences of a transfer or assignment of a security by a Non-Resident Holder to a transferee resident in Canada for purposes of the Canadian Tax Act, and in particular, whether Canadian withholding tax could apply in respect of such a transfer or assignment, regardless of whether such security is an excluded obligation as described under Certain Income Tax Consequences Certain Canadian Income Tax Considerations in the accompanying prospectus supplement. Non-Resident Holders should consult with their own tax advisors in this regard.

**VALIDITY OF THE SECURITIES**

In the opinion of Blake, Cassels & Graydon LLP, as Canadian counsel to the Bank, the issue and sale of the securities has been duly authorized by all necessary corporate action of the Bank in conformity with the Indenture, and when the securities have been duly executed, authenticated and issued in accordance with the Indenture, the securities will be validly issued and, to the extent validity of the securities is a matter governed by the laws of the Province of Ontario or the federal laws of Canada applicable therein, will be valid obligations of the Bank, subject to applicable bankruptcy, insolvency and other laws of general application affecting creditors' rights, equitable principles, and subject to limitations as to the currency in which judgments in Canada may be rendered, as prescribed by the *Currency Act* (Canada), and subject to any bail-in conversion requirements under the *Canada Deposit Insurance Corporation Act* (Canada). This opinion is given as of the date hereof and is limited to the laws of the Province of Ontario and the federal laws of Canada applicable therein. In addition, this opinion is subject to customary assumptions about the Trustee's authorization, execution and delivery of the Indenture and the genuineness of signature, and to such counsel's reliance on the Bank and other sources as to certain factual matters, all as stated in the opinion letter of such counsel dated October 2, 2015, which has been filed as Exhibit 5.2 to the Bank's Form 6-K filed with the SEC on October 2, 2015.

In the opinion of Mayer Brown LLP, when the securities have been duly completed in accordance with the Indenture and issued and sold as contemplated by the prospectus supplement and the prospectus, the securities will constitute valid and binding obligations of the Bank, entitled to the benefits of the Indenture, subject to bankruptcy, insolvency, fraudulent transfer, reorganization, moratorium and similar laws of general applicability relating to or affecting creditors' rights and to general equity principles. This opinion is given as of the date hereof and is limited to the laws of the State of New York. This opinion is subject to customary assumptions about the Trustee's authorization, execution and delivery of the Indenture and such counsel's reliance on the Bank and other sources as to certain factual matters, all as stated in the legal opinion dated October 2, 2015, which has been filed as Exhibit 5.1 to the Bank's Form 6-K filed on October 2, 2015.

PRS-42
