2010, with an unaffiliated third party buyer, for a negotiated settlement price of \$59,156,000 payable by the reporting person. The funds for such termination were obtained, in part, by the reporting person entering into a new prepaid variable forward sale contract (see Footnotes 4, 5 and 6 below). The contract obligated the reporting person to deliver to the buyer up to 9,200,000 shares of PulteGroup, Inc. ("PHM") common stock (or, at the reporting person's election, an equivalent amount of cash based on the market price of PHM common stock at that time) on the third day following the maturity date of the contract (January 5, 2012). (continued in Footnote 2).

On December 6, 2011, the reporting person terminated a prepaid variable forward sale contract that was entered into on December 22,

Date

In exchange for assuming this obligation, the reporting person received a cash payment of \$55,265,158. The reporting person pledged 9,200,000 shares of PHM common stock (the "Pledged Shares") to secure his obligations under the contract, and retained voting and certain dividend rights in the Pledged Shares during the term of the pledge. The contract provided that the number of shares of PHM

- (2) common stock to be delivered to the buyer on the maturity date would be determined as follows: (a) if the average of the closing prices of PHM common stock on each of the twenty (20) NYSE trading days ending on and including January 5, 2012 (the "Settlement Price") would be less than or equal to \$7.5847 (the "Floor Price"), the reporting person would deliver to the buyer all of the Pledged Shares; (continued in Footnote 3)
- (3) (b) if the Settlement Price would be between the Floor Price and \$37.9235 (the "Cap Price"), the reporting person would deliver to the buyer a number of shares of PHM common stock equal to 9,200,000 shares multiplied by a fraction, the numerator of which would be the Floor Price and the denominator of which would be the Settlement Price; and (c) if the Settlement Price would be greater than the Cap Price, the reporting person would deliver to the buyer the number of shares of PHM common stock equal to 9,200,000 shares multiplied by a fraction, the numerator of which would be the Floor Price plus the excess of the Settlement Price over the Cap Price, and the

denominator of which would be the Settlement Price.

In a separate transaction on December 6, 2011, solely for the purpose of replacing the contract described in Footnotes 1, 2 and 3 above, the reporting person entered into another prepaid variable forward sale contract with a different and unrelated third party buyer. This new contract obligates the reporting person to deliver to the buyer up to 1,840,000 shares of PHM common stock (or, at the reporting person's election, an equivalent amount of cash based on the market price of PHM common stock at that time) on each of January 4, 7, 8, 9 and 10, 2013 (each, a "Maturity Date"). In exchange for assuming this obligation, the reporting person will receive a cash payment of \$49,117,226.80. The reporting person pledged 9,200,000 shares of PHM common stock (the "New Pledged Shares") to secure his obligations under the contract, and retained voting and certain dividend rights in the New Pledged Shares during the term of the pledge. (continued in Footnote 5)

The contract provides that the number of shares of PHM common stock to be delivered to the buyer with respect to each Maturity Date is to be determined as follows: (a) if the closing price of PHM common stock on such Maturity Date (the "New Settlement Price") is less than or equal to \$6.43 (the "Floor Level"), the reporting person will deliver to the buyer 1,840,000 shares of PHM common stock; (b) if the New Settlement Price is between the Floor Level and \$9.645 (the "Cap Level"), the reporting person will deliver to the buyer a number of shares of PHM common stock equal to 1,840,000 multiplied by a fraction, the numerator of which is the Floor Level and the denominator of which is the New Settlement Price; and (continued in Footnote 6)

(c) if the New Settlement Price is greater than the Cap Level, the reporting person will deliver to the buyer the number of shares of PHM(6) common stock equal to 1,840,000 shares multiplied by a fraction, the numerator of which is the Floor Level plus the excess of the New Settlement Price over the Cap Level, and the denominator of which is the New Settlement Price.
