Notes to Consolidated Financial Statements

(Expressed in United States dollars)

(Prepared in accordance with United States generally accepted accounting principles)

Three and six months ended June 30, 2004 and 2003 (unaudited)

Year ended December 31, 2003

1.

Basis of presentation:

The accompanying interim unaudited consolidated financial statements have been prepared in accordance with United States generally accepted accounting principles for interim financial information and with the instructions to Form 10-QSB. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for a complete set of annual consolidated financial statements. In the opinion of management, all adjustments (consisting solely of normally recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and six month periods ending June 30, 2004 are not necessarily indicative of the results that may be expected for the year ended December 31, 2004 or for any other period.

For further information, refer to the consolidated financial statements and footnotes thereto included in Unity Wireless Corporation's (the Corporation) annual report on Form 10-KSB for the year ended December 31, 2003. Except as indicated in note 2(a), the accounting policies applied in the preparation of these interim consolidated financial statements are consistent with those applied in the consolidated financial statements filed with the Corporation's annual report.

These financial statements have been prepared on the going concern basis under which an entity is considered to be able to realize its assets and satisfy its liabilities in the ordinary course of business. Operations to date have been significantly financed by long-term debt and equity transactions. At June 30, 2004, the Corporation requires additional financing to continue to operate at current levels throughout the year. Accordingly, the Corporation's future operations are dependent upon the identification and successful completion of additional long-term or permanent equity financing, the continued support of creditors and stockholders, and, ultimately, the achievement of profitable operations. There can be no assurances that the Corporation will be successful. If it is not, the Corporation will be required to reduce operations or liquidate assets. The Corporation will continue to evaluate its projected expenditures relative to its available cash and to seek additional means of financing in order to satisfy its working capital and other cash requirements. The consolidated financial statements do not include any adjustments relating to the recoverability of assets and classification of assets and liabilities that might be necessary should the Corporation be unable to continue as a going concern.

2.

Significant accounting policies:

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America using the same accounting policies and methods of application as those disclosed in the Corporation's financial statements for the year ended December 31, 2003, except for note 2(a):

(a)

Stock-based compensation:

On January 1, 2004, the Corporation adopted FASB Statement No. 148, *Accounting for Stock-Based Compensation Transition and Disclosure*, using the modified prospective method. Under the modified prospective method of adoption selected by the Corporation, the employee stock-based compensation expense recognized in the three and six month periods ended June 30, 2004 are the same as that which would have been recognized for the current three and six month periods had the recognition provision of SFAS No. 123, *Accounting for Stock-based Compensation*, been applied from its original effective date. Results for prior periods have not been restated.

Had compensation cost been retroactively determined based on the fair value at the grant dates for those options issued to employees and consultants, consistent with the method described in SFAS No. 123, the Corporation's loss and loss per common share would have been increased to the pro forma amounts indicated below.

Contingent liabilities:

(a)

The Corporation is currently a party to an action in the Supreme Court of British Columbia, Vancouver Registry, brought by an optionholder seeking a declaration that 500,000 options to purchase shares in the common stock of the Corporation held by it have a term of unlimited duration.

The Corporation provides for costs related to contingencies when a loss is probable and the amount is reasonably determinable. It is the opinion of management, based in part on advice of legal counsel, that the ultimate resolution of this contingency, to the extent not previously provided for, will not have a material adverse effect on the financial condition of the Corporation.

9.

Contingent liabilities (continued):

(b)

Contingent liability on sale of products:

(i)

Under a certain license agreement, the Corporation is committed to royalty payments based on the sales of products using certain technologies. Royalties are paid at rates between 6% to 7% of sales of licensed products sold integrating the XNN Technology into various products to a minimum of \$150,000 within twelve months subsequent to the first commercial sales of the integrated product.

(ii)

Under an agreement with the Government's National Research Council Canada IRAP (IRAP) program, the Corporation received conditionally repayable government assistance amounting to \$356,000 (CDN\$483,491) to support the development of a multi-carrier linear power amplifier. Under the terms of the agreement, an amount up to a maximum of \$534,000 (CDN\$725,236) is to be repaid at a rate of 1.5% of quarterly gross revenue commencing on September 1, 2003, on a quarterly basis. For the six months ended June 30, 2004, the Corporation recorded \$42,354 (CDN\$56,696) as royalties and nil in 2003.

(iii)

Under an agreement with the Canada Israel Industrial Research & Development Foundation, the Corporation is eligible to receive conditionally repayable government assistance amounting to \$256,744 (CDN\$350,000) to support the development of a multi-carrier linear power amplifier. To date, the Corporation claimed gross proceeds of nil in 2004 and \$163,456 (CDN\$233,333), in 2003, which have been recorded as government grant income. Under the terms of the agreement, commencing with the first commercial transaction, the assistance is repayable to the extent of 2.5% of yearly gross sales until 100% of the grant has been repaid.

The Corporation recognizes royalty obligations as determinable in accordance with agreement terms.

Item 2. Management's Discussion and Analysis or Plan of Operation

The following discussion of the financial condition, changes in financial condition, and results of operations of Unity Wireless Corporation should be read in conjunction with our most recent financial statements and notes appearing: (1) in this Form 10-QSB; (2) our Form 10-QSB for the first quarter ended March 31, 2004 filed May 17, 2004; (3) our Form SB-2/A filed May 13, 2004; and (4) the Form 10-KSB for the year ended December 31, 2003 filed on March 29, 2004.

The financial statements have been prepared on the going concern basis under which an entity is considered to be able to realize its assets and satisfy its liabilities in the ordinary course of business. Operations to date have been primarily financed by borrowing and equity transactions. Our future operations are dependent upon the identification and successful completion of additional long-term or permanent equity financing, the continued support of creditors and stockholders, and, ultimately, the achievement of profitable operations. There can be no assurances that we will be successful. If we are not, we will be required to reduce operations or liquidate assets. We will continue to evaluate our projected expenditures relative to our available cash and to seek additional means of financing in order to satisfy our working capital and other cash requirements. The auditors' report on the audited consolidated financial statements for the fiscal year ended December 31, 2003 contained in the 10-KSB filed on March 29, 2004, includes an explanatory paragraph that states that as we have suffered recurring losses from operations, substantial doubt exists about our ability to continue as a going concern. The audited consolidated financial statements or the interim quarterly unaudited consolidated financial statements included with this quarterly report do not include any adjustments relating to the recoverability of assets and classification of assets and liabilities that might be necessary should we be unable to continue as a going concern.

Forward-Looking Statements

This quarterly report contains forward-looking statements as that term is defined in the Private Securities Litigation Reform Act of 1995. These statements relate to future events or our future financial performance. In some cases, you can identify forward-looking statements by terminology such as "may", "will", "should", "expects", "plans", "anticipates", "believes", "estimates", "predicts", "potential" or "continue" or the negative of these terms or other comparable terminology. These statements are only predictions and involve known and unknown risks, uncertainties and other factors, including the risks in the section entitled "Risk Factors", that may cause our or our industry's actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements.

Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Except as required by applicable law, including the securities laws of the United States, we do not intend to update any of the forward-looking statements to conform these statements to actual results.

Our financial statements are stated in United States Dollars (US\$) and are prepared in accordance with United States Generally Accepted Accounting Principles.

In this quarterly report, unless otherwise specified, all dollar amounts are expressed in United States dollars. All references to "CDN\$" refer to Canadian dollars and all references to "common shares" refer to the common shares in our capital stock.

As used in this quarterly report, the terms "we", "us", "our", and "Unity" mean Unity Wireless Corporation, unless otherwise indicated.

General

We are in the business of designing, developing and manufacturing RF (radio frequency) subsystems including high power linear RF amplifiers and specialized integrated communications products targeting both the cellular and fixed wireless markets, referred to as wireless local loop. Wireless local loop networks are sometimes referred to as "the last mile" solution - unlike cellular phone systems which are mobile wireless networks, wireless local loop is designed to deliver voice and high speed data (e.g., Internet) services to fixed locations such as homes and small offices without the need for special wiring via wireless communication devices. Most of our products are high power amplifiers, defined as single and multi-channel power amplifiers used for sending signals from a network to a terminal such as a cell phone. Our products are used in base stations and repeaters that are used to extend coverage in cellular telephone networks. Some products are also used in base station equipment.

Results of Operations

Three months Ended June 30, 2004 and June 30, 2003

Sales

Net sales in the second quarter of 2004 increased by 21% or \$362,177, to \$2,063,198 from \$1,701,021 in the second quarter of 2003. This increase was due to the result of the realization of projects in our customer base and a general improvement in the telecommunications industry.

Cost of Goods Sold and Operating Expenses

Cost of goods sold during the second quarter of 2004 increased by 87%, or \$857,044, to \$1,846,469 from \$989,425 in the second quarter of 2003. As a percentage of revenue, cost of goods sold increased from the second quarter of 2003 to the second quarter of 2004, primarily due to production tooling and various ramp-up, expediting and additional period costs associated with initiating volume manufacturing capabilities for a Chinese customer. Cost of goods sold includes stock-based compensation expense (recovery) of \$8,201 in 2004 versus \$nil in 2003.

The gross margin of \$216,729, or 11% of net sales, for the second quarter of 2004 represented a decrease from a gross margin of \$711,596, or 42% of net sales, for the second quarter of 2003. This was again was due to production tooling and various ramp-up, expediting and additional period costs associated with initiating volume manufacturing capabilities for a customer in China.

Research and development expenses in the second quarter of 2004 increased by 308%, or \$298,735, to \$395,732 from \$96,997 in the second quarter of 2003. Net of stock-based compensation, research and development expenses increased by \$287,217. This increase was primarily due to increased research and development projects and related expenditures resulting in additional engineering personnel on staff during the second quarter of 2004 versus the second quarter of 2003. Research and development expenses include stock-based compensation expense (recovery) of \$14,769 in 2004 versus \$3,251 in 2003.

Government Grant expenses were \$nil for the second quarter 2004, a decrease of \$98,069 over (\$98,069) for the same period in 2003. The decrease was due to a lack of receivables or expenses due to the Company under any government sponsored programs in the second quarter 2004.

Royalty payments for government grants increased by \$30,948 to \$30,948 in the second quarter 2004 as compared to \$nil for the same period in 2003. The increase was due to repayable government grants becoming due in the second quarter 2004.

Sales and marketing expenses in the second quarter of 2004 increased by 107%, or \$73,973, to \$142,857 from \$68,884 in the second quarter of 2003. Net of stock-based compensation, sales and marketing expenses increased by \$54,346. The increase was primarily due to additional sales initiatives which include additional sales personnel on

staff and increased travel expenses to visit new customers. Sales and marketing expenses include stock-based compensation expense (recovery) of \$21,862 in 2004 versus \$2,235 in 2003.

Exchange (gain) loss in the second quarter of 2004 increased by \$(47,191), to an exchange gain of \$(15,682) from an exchange loss of 31,509 in the second quarter of 2003 due to fluctuations in the currency exchange rate between the U.S. and Canada. Our company's revenues are received in U.S. dollars, while the majority of expenses are incurred in Canadian dollars. Interest expense for the second quarter 2004 decreased by \$66,461 to \$3,699 from \$71,160 in the second quarter 2003. The decrease was primarily due to no interest payable to note holders of the convertible debenture issued in quarter 4 of Fiscal 2002 as it was converted in the fourth quarter 2003.

General and administrative expenses in the second quarter of 2004 increased by 41%, or \$116,676, to \$403,136 from \$286,460 in 2003. Net of stock-based compensation, general and administrative expenses decreased by \$15,677. General and administrative expenses include stock-based compensation expense (recovery) of \$138,413 in 2004 versus \$6,060 for 2003.

Accretion of interest and debt settlement for the second quarter 2004 decreased by \$38,136 to \$nil from (\$38,136) for the same period in 2003. The decrease was a result of less transactions occurring in the second quarter 2004 relating to interest accreted on convertible debentures issued and expense related to the settlement of promissory notes or other debts.

Loss in the second quarter of 2004 increased by \$963,393, to \$757,823, from earnings of \$205,570 in the second quarter of 2003. Net of stock-based compensation expense (recovery) of \$183,245 in 2004 versus \$11,546 in 2003, the loss for the 2004 period increased by \$791,694. The increase was largely the result of lower gross margins due to the manufacturing ramp-up, additional engineering personnel on staff and increased sales initiatives in the second quarter 2004 versus 2003.

Six months Ended June 30, 2004 and June 30, 2003

Sales

Net sales in the first half of 2004 increased by 38% or \$775,692, to \$2,823,580 from \$2,047,888 in the first half of 2003. This increase was due to the result of the realization of projects in our customer base and a general improvement in the telecommunications industry.

Cost of Goods Sold and Operating Expenses

Cost of goods sold during the first half of 2004 increased by 71%, or \$969,067, to \$2,339,811 from \$1,370,744 in the first half of 2003. As a percentage of revenue, cost of goods sold increased from the first half of 2003 to the first half of 2004, primarily due to production tooling and various ramp-up, expediting and additional costs associated with initiating volume manufacturing capabilities for a Chinese customer in the second quarter of 2004. Cost of goods sold includes stock-based compensation expense (recovery) of \$9,120 in 2004 versus \$nil in 2003.

The gross margin of \$483,769, or 17% of net sales, for the first half of 2004 represented a decrease from a gross margin of \$677,144, or 33% of net sales, for the first half of 2003. This was again was due to production tooling and various ramp-up, expediting and additional period costs associated with initiating volume manufacturing capabilities for a customer in China in the second quarter 2004.

Research and development expenses in the first half of 2004 increased by 118%, or \$351,184, to \$648,105 from \$296,921 in the first half of 2003. Net of stock-based compensation, research and development expenses increased by \$315,625. This increase was primarily due to increased research and development projects and related expenditures resulting in additional engineering personnel on staff during the first half of 2004 versus the first half of 2003.

Edgar Filing: UNITY WIRELESS CORP - Form 10QSB

Research and development expenses include stock-based compensation expense (recovery) of \$21,573 in 2004 versus \$(13,986) in 2003.

Government Grant expenses were \$nil for the first half of 2004, a decrease of \$171,442 over (\$171,442) for the same period in 2003. The decrease was due to a lack of receivables or expenses due to the Company under any government sponsored programs in the first half of 2004.

Royalty payments for government grants increased by \$42,354 to \$42,354 in the second quarter 2004 as compared to \$nil for the same period in 2003. The increase was due to repayable government grants becoming due in the first half 2004.

Sales and marketing expenses in the first half of 2004 increased by 73%, or \$116,961, to \$277,264 from \$160,303 in the first half of 2003. Net of stock-based compensation, sales and marketing expenses increased by \$51,944. The increase was primarily due to additional sales initiatives which include additional sales personnel on staff, increased travel expenses to visit new customers and additional trade show exhibition expenses. Sales and marketing expenses include stock-based compensation expense (recovery) of \$47,446 in 2004 versus \$(17,571) in 2003.

Exchange (gain) loss in the first half of 2004 increased by \$(21,927), to an exchange gain of \$(1,349) from an exchange loss of 20,578 in the first half of 2003 due to fluctuations in the currency exchange rate between the U.S. and Canada. Our company's revenues are received in U.S. dollars, while the majority of expenses are incurred in Canadian dollars.

Interest expense for the first half of 2004 decreased by \$67,384 to \$17,796 from \$85,180 in the first half of 2003. The decrease was primarily due to no interest payable to note holders of the convertible debenture issued in quarter 4 of Fiscal 2002 as it was converted in the fourth quarter 2003.

General and administrative expenses in the first half of 2004 increased by 99%, or \$435,616, to \$873,775 from \$438,159 in 2003. Net of stock-based compensation, general and administrative expenses increased by \$13,507. General and administrative expenses include stock-based compensation expense (recovery) of \$399,129 in 2004 versus \$(22,980) for 2003.

Accretion of interest and debt settlement for the first half of 2004 decreased by \$29,804 to (\$37,393) from (\$67,197) for the same period in 2003. The decrease was a result of less transactions occurring in the first half of 2004 relating to interest accreted on convertible debentures issued and expense related to the settlement of promissory notes or other debts.

Loss in the first half of 2004 increased by 558%, or \$1,204,941, to \$1,420,725, from \$215,784 in the first half of 2003. Net of stock-based compensation expense (recovery) of \$477,268 in 2004 versus \$(54,537) in 2003, the loss for the 2004 period increased by \$673,136. The increase was largely the result of lower gross margins due to the manufacturing ramp-up, additional engineering personnel on staff and increased sales initiatives in the first half of 2004 versus 2003.

Liquidity and Capital Resources

Since our inception, we have been dependent on investment capital as our primary source of liquidity. We had an accumulated deficit at June 30, 2004 of \$(19,923,805). During the six months ended June 30, 2004, we incurred a net loss, including stock-based compensation expenses of \$477,268, of \$(1,420,725).

During the three and six month periods ended June 30, 2004, our cash position decreased slightly. The primary use of cash was for our continued operations with an increase in accounts receivable reflecting our receipt of cash from certain shareholders exercising warrants to purchase common shares of the Company. We currently are in various

stages of discussion with our suppliers regarding extended payment terms for their respective outstanding June 30, 2004 accounts payable balances.

During the three and six months periods ended June 30, 2004, we had no material investing activities.

During the three month period ended June 30, 2004, we issued 5,847,326 common shares upon exercise of warrants for cash proceeds of \$837,487 and 144,917 common shares upon exercise of options for cash proceeds of \$22,832.

During the six month period ended June 30, 2004, we issued 113,405 common shares in settlement of \$27,262 of accounts payable, 11,879,476 common shares upon exercise of warrants for cash proceeds of \$1,440,702, 219,917 common shares upon exercise of options for cash proceeds of \$34,774, 1,016,105 common shares upon private placement for cash proceeds of \$152,416.

Other than operating loan commitments and a commitment under existing leases for an aggregate of \$386,000 through 2009, we have no material commitments, including capital commitments, outstanding at June 30, 2004.

Our capital requirements are difficult to plan in light of our current strategy to expand our customer base and to develop new products and technologies. Our operations to date have been primarily financed by sales of our equity securities. As of June 30, 2004, we had working capital of \$223,356.

Our operations presently are generating negative cash flow, and we do not expect positive cash flow from operations in the near term. Our ability to continue as a going concern is dependent upon obtaining further financing, successful and sufficient market acceptance of our current products and any new product offerings that we may introduce, the continuing successful development of our products and related technologies, and, finally, achieving a profitable level of operations. The issuance of additional equity securities by us could result in a significant dilution in the equity interests of our current stockholders. Obtaining commercial loans, assuming those loans would be available, will increase our liabilities and future cash commitments.

Inflation

We do not believe that inflation has had a significant impact on our consolidated results of operations or financial condition.

RISK FACTORS

For information on risk factors refer to Unity Wireless Corporation's SB-2/A registration statement filed May 13, 2004 and the Company's annual report on Form 10-KSB for the year ended December 31, 2003.

Item 3. Controls and Procedures

An evaluation has been carried out under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and the operation of our "disclosure controls and procedures" (as such term is defined in Rules 13a-15(e) under the Securities Exchange Act of 1934). Based on such evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that the disclosure controls and procedures are reasonably designed and effective to ensure that (i) information required to be disclosed by us in the reports we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and (ii) such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

PART II - OTHER INFORMATION

Item 1. Legal proceedings

Other than as set forth below, we know of no material, active or pending legal proceedings against our company, nor are we involved as a plaintiff in any material proceeding or pending litigation. There are no proceedings in which any of our directors, officers or affiliates, or any registered or beneficial shareholder, is an adverse party or has a material interest adverse to our interest.

We, along with Sonic Systems Corporation and M&M Realty Incorporated, have been sued in the Supreme Court of British Columbia, Canada, by Integrated Global Financial Corporation. The lawsuit was commenced on January 5, 2001. Integrated Global alleges it has options to purchase 500,000 shares, with no expiry date, at an alleged exercise price of \$1.00 per share, plus unspecified damages. We dispute the allegations and are defending the claim. A trial date has been set in September 2004. No Examinations for Discovery have been conducted or have been scheduled. The matter is at a very preliminary stage. It is our view that the claim has little, if any, merit and we do not expect the proceeding to have any material adverse effect on us. It is our position that these options have expired and we have not included such options in our outstanding options at June 30, 2004.

Item 2. Changes in Securities

During the three month period ended June 30, 2004, we issued 5,847,326 common shares upon exercise of warrants for cash proceeds of \$837,487 and 144,917 common shares upon exercise of options for cash proceeds of \$22,832. An additional 2,585,192 share purchase warrants exercisable at \$0.50 were issued to certain warrant holders upon exercise of the warrants mentioned above.

On May 30, 2004, the stockholders of the Company approved an amendment to the Company's Certificate of Incorporation increasing the authorized common share capital from 100,000,000 to 150,000,000.

Exhibit 10.27

STATE OF DELAWARE
CERTIFICATE OF AMENDMENT
OF CERTIFICATE OF INCORPORATION

UNITY WIRELESS CORPORATION, a corporation duly organized and existing under and by virtue of the General Corporation Law of the State of Delaware.

DOES HEREBY CERTIFY:

FIRST, The Board of Directors unanimously adopted a resolution authorizing an amendment to the Company's Certificate of Incorporation (the "Certificate") to increase the total number of Unity Wireless Corporation's authorized shares of Common Stock from 100,000,000 shares to 150,000,000 shares, \$0.001 par value.

RESOLVED, The proposed amendment will change the first paragraph of Article Fourth of the Certificate of Incorporation that ends with the words "per share (Preferred Stock)" to read as follows:

FOURTH: The total number of shares of stock which this corporation is authorized to issue is: 155,000,000 shares, which shall consist of 150,000,000 shares of common stock, \$.001 par value per share ("Common Stock") and 5,000,000 shares of preferred stock, \$.001 par value per share ("Preferred Stock").

SECOND, That thereafter, pursuant to resolution of its Board of Directors, an annual meeting of stockholders of said corporation was duly called and held upon notice in accordance with Section 222 of the General Corporation Law of the State of Delaware at which meeting the necessary number of shares as required by statute were voted in favor of the amendment.

THIRD, That the said amendment was duly adopted in accordance with the provisions of Section 242 of the General Corporation Law of the State of Delaware.

FOURTH, That the capital of said corporation shall not be reduced under or by reason of said amendment.

IN WITNESS WHEREOF, said UNITY WIRELESS CORPORATION has caused this certificate to be signed by ILAN KENIG, an Authorized Officer, this 5th day of August, 2004.
