04.01 - EXPLANATORY NOTES

(In thousands of reais, except, as otherwise indicated)

1. OPERATING CONTEXT

Companhia Siderúrgica Nacional ("CSN") is engaged in the production of flat steel products, its main industrial complexes being the Presidente Vargas Mill in the City of Volta Redonda, State of Rio de Janeiro, and the processing unit in the City of Araucaria, State of Paraná.

CSN is engaged in the mining of iron ore, limestone and dolomite in the State of Minas Gerais, to cater for the needs of the Presidente Vargas Mill. To improve its activities, the Company also maintains strategic investments in railroad, electricity and ports.

For the purpose of establishing a closer approach to its customers and winning additional markets on a global level, the Company has a steel distributor with service and distribution centers extending from the Northeast to the South of Brazil, a two-piece steel can plant geared to the Northeastern beverage industry, and also, a rolling mill in the United States and a 50% stake in another rolling mill in Portugal.

2. PRESENTATION OF THE FINANCIAL STATEMENTS

Hereunder the configuration of the Quarterly Information form, the Parent Company's and Consolidated Statements of Changes in Financial Position and Cash Flow is presented on table Other Information considered material by the Company.

3. SIGNIFICANT ACCOUNTING POLICIES

The Financial Statements were prepared in conformity with the accounting practices adopted in Brazil, as well as with the accounting standards and pronouncements established by CVM - the Brazilian Securities Commission and IBRACON - Brazilian Institute of Accountants.

(a) Income statement

The results of operations are determined on an annual accrual basis. The Company decided to defer the net exchange variation incurred during fiscal year 2001, as detailed in Note 13.

(b) Marketable securities

Securities are recorded at cost plus yields accrued through the balance sheet date, and do not exceed the market value.

(c) Allowance for doubtful accounts

The allowance for doubtful accounts has been set up in an amount which, in the opinion of Management, suffices to absorb any losses that might be incurred in realizing accounts receivable.

(d) Inventories

Inventories are stated at the lower of the average production/purchase cost and net realization value or replacement cost, except in the case of imports in process, which are stated at their identified cost.

(e) Other current and long-term assets

Other current and long-term assets are stated at their realization value, including, when applicable, income earned to the balance sheet date or, in the case of prepaid expenses, at cost.

(f) Investments

Investments in subsidiaries and jointly owned subsidiary companies are recorded by the equity accounting method, plus any goodwill or deducted from amortizable negative goodwill, if applicable.

The other permanent investments are recorded at acquisition cost.

Edgar Filing: NATIONAL STEEL CO - Form 6-K

(g) Property, plant and equipment

The property, plant and equipment of the Parent Company is presented at market or replacement values, based on appraisal reports (refer to note 11) conducted by independent expert appraisers firms, as permitted by Deliberation No. 288 issued by the Brazilian Securities Commission ("CVM") on December 3, 1998. Depreciation is computed by the straight-line method at the rates, shown in the same note, based on the remaining economic useful lives of the assets after revaluation. Iron mines Casa de Pedra depletion is calculated on the basis of the quantity of iron ore extracted. Interest charges related to capital funding for construction in progress are capitalized for as long as the projects remain uncompleted.

(h) Deferred charges

The deferred charges are basically comprised of expenses incurred for development and implantation of projects that should generate a payback to the Company in the next few years, being the amortization applied on a straight-line basis will follow the period foreseen for the economic return on the above projects. The charges also include a non-amortized balance net of the foreign exchange variations related to the year 2001.

(i) Current and long-term liabilities

These are stated at their known or estimated values, including, when applicable, accrued charges, monetary and foreign exchange variation incurred through the balance sheet date.

(j) Employees Benefit

In accordance with Deliberation No. 371, issued by the Brazilian Securities Commission (CVM), of December 13, 2000, the Company decided to record the respective actuarial liabilities as from January 1, 2002, in accordance with the above -mentioned reported deliberation and based on by independent actuarial studies (see note 25 item d).

(k) Income Tax and Social Contribution on Net Income

Income tax and social contribution on net income are calculated based on their effective tax rates and consider the tax loss carryforward and negative basis of social contribution limited to 30%, to compute the tax liability. Tax credits are set up for deferred taxes on tax losses, negative basis of social contribution on net income and on temporary differences as well as income tax and social contribution tax debts on the 2001 deferred exchange variation and other temporary differences.

(l) Derivatives

The derivatives operations are recorded in accordance with the characteristics of the financial instruments. Swap operations are recorded based on the operations net results, which are booked monthly as for the contractual conditions.

(m) Treasury Shares

As established by CVM Instruction No. 10/80, treasury shares were recorded at the acquisition cost.

The Financial Statements prepared in US dollars and in Euros were translated at the exchange rate in effect on September 30, 2004 R\$/US\$2.8586 (R\$/US\$3.1075 on June 30, 2004) and EUR/US\$1.2442 (EUR/US\$1.22131 on June 30, 2004).

The gains/losses originated by this translation were accounted for in the income statements of the related periods, as equity accounting in the parent company and exchange variation in the consolidated. These Financial Statements were prepared applying the same accounting principles as those applied by the Parent Company.

All consolidated intercompany balances and transactions have been eliminated in the preparation of the consolidated Financial Statements.

The year-end closing dates for the subsidiaries and jointly-owned subsidiaries coincide with those of the parent company.

Consistent with the Financial Statements for the year ended December 31, 2003, the Company did not consolidate the investee MRS Logística S.A., due to the fact that it does not represent any relevant change to the consolidated economic unit. As of September 30, 2004 and June 30,

Edgar Filing: NATIONAL STEEL CO - Form 6-K

2004, the Company held 32.22% of participation in the total capital stock and 18.72% in the investee voting capital stock.

The participation in Itá Energética S.A. is shown as investment available for sale in long-term assets; therefore, was not consolidated. (See note 10)

The reconciliation between shareholders equity and net income for the year of the Parent Company and consolidated is as follows:

	Shareholders equity		Net profit

- c) Additional Information on the Investees

● GalvaSud S.A.

Incorporated on May 26, 1998, through a partnership between CSN (51.0%) and Thyssen-Krupp Stahl AG (49.0%), it initiated its operational activities in December 2000. It has as objective the operation of a galvanization line for hot immersion and weld laser lines to produce welded blanques directed to the automobile industry.

On June 22, 2004, the subsidiary CSN I S.A. subscribed 8,262,865,920 common shares of Galvasud s capital, paid with credits related to the full payment of all GalvaSud S.A. financial debts, and also acquired the totality of shares held by Thyssen-Krupp Stahl AG.

After the acquisition, CSN became the holder of a 15.29% stake on a direct basis and of a 84.71%. stake on an indirect basis of GalvaSud s capital stock, by means of its wholly-owned subsidiary CSN I S.A.

● Indústria Nacional de Aços Laminados INAL S.A.

As of April 30, 2003, in continuing the process of corporate reorganization, the merger of INAL into CISA was approved and followed by the change of its corporate name from CISA CSN Indústria de Aços Revestidos S.A. to Indústria Nacional de Aços Laminados INAL S.A.

The Company aims to be CSN s arm in the trading and reprocessing of steel products, acting as a service and distribution center.

● Cia Metalic Nordeste

The objective of Cia. Metalic Nordeste, incorporated on November 27, 2002, based at Maracanaú, in the state of Ceará, is the manufacture of steel packages and the holding of interests in other companies.

The goodwill of R\$125,759, recorded upon acquisition of the investment, has its economical foundation based by the future profitability of the company s assets, as Metalic is the only manufacturer in Brazil of two pieces steel can, holding a 6.8% market share. This material is an alternative to aluminum, due to its lower cost and better performance, both for the filling aspect as for lithography. To September 30, 2004, the Company amortized R\$23,056 of this goodwill, of which R\$9,431 in 2004 (R\$13,625 up to December 31, 2003).

● FEM

Edgar Filing: NATIONAL STEEL CO - Form 6-K

- MRS Logística S.A.

Incorporated on September 20, 1996, through a privatization auction, the Company's main objective is to explore and develop cargo railroad transport public service at the Southeast network.

MRS transports the iron ore from Casa de Pedra to UPV Mill in Volta Redonda and imported raw material through Sepetiba Port. It also links the Presidente Vargas Mill to the Ports of Rio de Janeiro and Santos and also to the cargo terminals in the State of São Paulo, CSN principal market.

- CFN

Participation acquired on July 18, 1997, through a privatization auction, it has as main objective the exploration and development of the cargo railroad transport public service at the Northeast network.

- Sepetiba Tecon S.A.

Investment made on September 3, 1998, through a privatization auction. The objective is to exploit the No.1 Containers Terminal of the Sepetiba Port, located in Sepetiba, State of Rio de Janeiro.

On November 7, 2003, CSN and Companhia Vale do Rio Doce - CVRD entered into a contract for the purchase and sale of investments that provided the Company with the full control of Sepetiba Tecon through the acquisition of 62.5% stake in its controlling company CSN Aceros, S.A..

- CSN Energia S.A.

Company incorporated on October 27, 1999, with the main objective of distributing and trading the excess of electric energy generated by CSN and by companies, consortiums or other entities in which CSN holds interest in.

d) Goodwill, negative goodwill and other indirect participations

As of September 30, 2004, the Company and its subsidiaries maintained on their consolidated balance sheet the net amount of R\$156,746 of investment goodwill, negative goodwill and other indirect interest, as follows: Lusosider Projectos Siderúrgicos S.A. negative goodwill of R\$52,031 based on the expectation of future losses; GalvaSud S.A. goodwill of R\$132,244, recorded on the wholly-owned subsidiary, CSN I S/A, based on the expectation of future gains with amortization defined for five years; Tangua Inc. goodwill of R\$70,282 based on the expectation of future profits with amortization defined for five years; Indústria Nacional de Aços Laminados INAL S.A. goodwill of R\$6,203 based on the expectation of future profits with the amortization defined for five years and R\$48 of other indirect interest.

e) Additional Information on indirect interest abroad.

- CSN LLC

The Company was incorporated in 2001 with the assets and liabilities of the extinguished Heartland Steel Inc. located in Terre Haute, State of Indiana USA and it is a complex comprising cold rolling, hot coil pickled line and galvanization line.

On October 13, 2003, CSN, through its subsidiary CSN Panama, S.A., recorded an increase in the capital of Tangua Inc. with the capitalization of account receivables amounting to US\$175 million and became the holder of 100% of its capital stock. Tangua Inc., through its subsidiaries CSN LLC Holding, directly, and CSN LCC Partner, indirectly, is the holder of all of CSN LLC shares.

- Lusosider

Lusosider Aços Planos S.A. was incorporated in 1996, providing continuity to Siderurgia Nacional flat products company, privatized on that date by the Portuguese Government. The company is located in Seixal, Portugal and is engaged in galvanization line and tin plates.

On June 18, 2003, the Company, through its subsidiary CSN Steel Corp., acquired from Banco Espírito Santo de Investimentos S.A. 912,500 shares issued by Lusosider Projectos Siderúrgicos S.A., holder of Lusosider Aços Planos S.A., which represents 50% of the total capital of

15. DEBENTURES

(a) First Issue

As approved at the Extraordinary General Meeting and ratified at the Board of Directors Meeting, held on January 10, 2002 and February 20, 2002, respectively, the Company issued on February 1st, 2002, 69,000 nominative and non-convertible debentures, with no guarantee or preference, in two series, being R\$10 of unit nominal value. 54,000 debentures were issued in the first series and 15,000 in the second series, with a total nominal amount of R\$690,000. However, the credit from negotiation with financial institutions, occurred on March 01, 2002 in the amount of R\$699,227. The difference of R\$9,277, resulting from the unit price variation between the issued date and the transaction date, is recorded in Shareholders' Equity as Capital Reserve.

The nominal unit value is being monetarily restated, added by the respective remuneration *pro-rata temporis*, being the first issue adjusted by Interbank Deposit Certificate CDI, plus 2.75% p.a. and the second issue by General Market Price Index (IGP-M) plus 13.25% interest p.a.. The maturity is expected for 02/01/2005 (First Series) and 02/01/2006 (Second Series), with the option of advance redemption (total or partial) by the issuer.

In conformity with the provisions of Private Deed for Issuance of Non-convertible unsecured Debentures of Companhia Siderúrgica Nacional's First Issuance as of January 10, 2002, and in compliance with the provisions of CVM instruction No. 358, the Company's Board of Directors approved at the meeting held on January 7, 2004 the redemption of all second series debentures, covered by the deed, representing a total of fifteen thousand (15,000) debentures, which was carried out on February 9, 2004 and on August 31, 2004, it approved the redemption of all first series debentures, representing a total of 54,000 debentures (see Note 26).

On September 30, 2004 and June 30, 2004, the Company held in treasury 2,345 debentures of the first series.

(b) Second Issue

As approved at the Board of Directors Meeting held on October 21 and ratified at the meeting held on December 5, 2003, the Company issued, on December 1, 2003, 40,000 nominative, non-convertible debentures, unsecured and without preference in one single series, for the nominal unit value of R\$10. The referred debentures were issued for the total amount of R\$400,000, whereas the credits generated in the negotiations with the financial institutions were received on December 09 and 10, 2003, amounting to R\$401,805. The difference of R\$1,805, resulting from the unit price variation between the date of issue and of the effective negotiation is recorded in the Shareholders' Equity as Capital Reserve.

The nominal unit amount is monetarily updated, plus the related remuneration calculated on a *pro rata temporis* basis, adjusted by 107% of the Cetip's (Clearing House for the Custody and Financial Settlement of Securities) CDI. Maturity is foreseen for December 1, 2006.

(c) Third issue

As approved at the Board of Directors Meeting held on December 11, 2003 and ratified at the December 18, 2003 meeting, the Company issued on December 1, 2003, 50,000 nominative and non-convertible debentures, unsecured and without preference in two series, for the nominal unit value of R\$10. Such debentures were issued for the total value of R\$500,000, being the credits arose from the negotiations with the financial

Edgar Filing: NATIONAL STEEL CO - Form 6-K

institutions were received on December 22 and 23, 2003, amounting to R\$505,029. The difference of R\$5,029, resulting from the variation of the unit price between the date of issue and of the effective negotiation is recorded in Shareholders' Equity as Capital Reserve.

The nominal amount of the 1st series is monetarily restated, plus the related pro rata temporis remuneration, adjusted by 106.5% of Cetip's CDI and the 2nd series by the IGP-M plus 10% p.a.. The maturity of the 1st series is foreseen for December 1, 2006 and of the 2nd series for December 1, 2008.

The deeds for the issue of these three series of debentures have certain restrictive covenants, which have been duly complied with.

16. FINANCIAL INSTRUMENTS

General Considerations

The Company's business includes especially flat steel products to supply domestic and foreign market and mining of iron ore, limestone and dolomite to supply the Presidente Vargas Mill needs. The main market risk factors that can affect the Company business are shown as follows:

(a) Exchange Rate Risk

Although most of the revenues of the Company are in Brazilian Reals, as of September 30, 2004, R\$7,014,979 of the Company's consolidated debt were denominated in foreign currency (R\$6,919,952 as of June 30, 2004). As a consequence, the Company is subject to changes in exchange rates and manages the risk of these rates fluctuations which affects the value in Brazilian Reals that will be necessary to pay the liabilities in foreign currency, using derivative financial instruments, mainly futures contracts, swaps and forward contracts, as well as investing of a great part of its cash and funds available in securities remunerated by U.S. dollar exchange variation.

(b) Credit Risk

The credit risk exposure with financial instruments is managed through the restriction of counterparts in derivative instruments to large financial institutions with high quality of credit. Thus, management believes that the risk of non-compliance by the counterparts is insignificant. The Company neither maintains nor issues financial instruments with commercial aims. The selection of clients as well as the diversification of its accounts receivable and the control on sales financing terms by business segment are procedures that CSN adopts to minimize occasioned problems with its commercial partners.

The financial instruments recorded in the Parent Company's balance sheet accounts as of September 30, 2004, in which market value differs from the book value, are as follows:

	Book Value	Market Value
Investment and goodwill in jointly-owned subsidiary - INEPAR	3,727	1,511
Loans and financings (short and long term)	10,232,080	10,432,366

On September 30, 2004 the consolidated position of outstanding derivative agreements was as follows:

	Agreement			
	Date	Maturity	Reference value	Market value
Foreign Exchange Swap	Sundry	7/01/2004 to 1/12/2005	US\$ 227,932 thousand	(R\$96,007)
Equity Swap (*)	Sundry	5/2/2005	US\$ 49,223 thousand	R\$90,916
"Cap" Interest Options (6-month Libor)	3/28/2001	12/31/2004	US\$ 100,000 thousand	

(*) Refers to no cash swap which, at the end of the contract, the counterpart shall remunerate at the variation of equity assets, in as much the Company's subsidiary, CSN Overseas, undertakes to remunerate the same notional updated value at the pre-fixed rate of 11.5% per annum. Considering the loss position in the exchange and interest derivatives, the Company recorded its respective market values.

(c) Market Value

The amounts presented as market value were calculated according to the conditions that were used in local and foreign markets on September 30, 2004, for financial transactions with identical features, such as: volume and term of the transaction and maturity dates. Mathematical

Edgar Filing: NATIONAL STEEL CO - Form 6-K

methods are used presuming there is no arbitrage between the markets and the financial assets. Finally, all the transactions carried out in non-organized markets (over-the-counter market) are contracted with financial institutions previously approved by the Company's Board of Directors.

17. COLLATERAL SIGNATURE AND GUARANTEES

With respect to its wholly owned and jointly-owned subsidiaries, the Company has expressed in their original currency - the following responsibilities for guarantees provided (collateral signature and/or guarantees):

The provision for contingencies estimated by the Company's Management was substantially based on the appraisal of its tax and legal advisors. Such provision is only recorded for lawsuits classified as probable losses, as well as in relation to the amounts of taxes under litigation.

a) Labor litigation dispute:

As of September 30, 2004, CSN was the defendant in approximately 5,108 labor claims (4,189 claims on June 30, 2004), which required a provision in the amount of R\$89,201 up to September 30, 2004 (R\$61,434 on June 30, 2004). Most of the lawsuits are related to joint and/or subsidiary responsibility, wages equalization, additional payment for unhealthy and hazardous activities, overtime and differences related to the 40% fine over FGTS (severance pay), and due to government's economic policies.

The lawsuits related to subsidiary responsibility are originated from the non-payment by the contracted companies of their labor obligations, which results in the inclusion of CSN in the lawsuits, as defendant, to honor on a subsidiary basis the payment of such obligations.

The most recent lawsuits originated from subsidiary responsibility have been reducing due to the procedures adopted by the Company in order to inspect and assure compliance with the wages and social charges payments, through the creation of the Contract Follow-up Centers since 2000.

The higher increase in labor claims has been originated from the demand for the difference between the 40% fine over FGTS and the deposited FGTS amount, as a result of understated inflation imposed by government's economic plans. This is a still controversial issue, waiting for unified understanding.

b) Civil Actions:

These are, mainly, claims for indemnities among the civil judicial processes in which the Company is involved. Such proceedings, in general, are originated from occupational accident and diseases related to industrial activities of the Company. For all these disputes, as of 30 September, 2004 the Company accrued the amount of R\$73,064 (R\$53,920 on June 30, 2004).

c) Tax Litigation Dispute:

- Income Tax and Social Contribution

(i) The Company claims recognition of the financial and tax effects on the calculation of the income tax and social contribution on net income, related to Consumer Price Index - IPC understated inflation, occurred in 1989, by a percentage of 51.87%.

In September 2004, the proceeding has reached its end, and judgment was made final and unappealable, granting to the CSN the right to apply the indexes of 42.72% (Jan/89) and 10.14% (Feb/89). Said proceeding is under phase of calculating the award, and an accounting expert thereof shall occur.

As of September 30, 2004 and June 30, 2004, the Company has recorded R\$218,381 as court deposit and a provision of R\$71,165 (R\$62,470 on June 30, 2004).

(ii) In February 2003, the tax authorities assessed the Company for the calculation of prior years - IRPJ and CSL. On August 21, 2003 a decision was rendered by the 2nd Panel of the Federal Revenue Office in Rio de Janeiro that cancelled such tax assessment, being the Company assessed again, by the tax authorities, for the same matter, in November 2003. As of September 30, 2004, the Company set up the provision for contingencies in the amount of R\$383,731 (R\$377,195 as of June 30, 2004).

(iii) The Company filed an action questioning the assessment of Social Contribution on Income over export revenues, based on the Constitutional Amendment No. 33/01.

On March 10, the Company obtained initial decision authorizing the exclusion of export revenues from said calculation basis, as well as the offsetting of amounts paid on these revenues from 2001. On September 30, the provision referring to the non-paid and offsetting amounts based on the referred proceeding was R\$ 201,762 (R\$ 39,352 on June 30, 2004).

- PIS (Social Integration Program)/COFINS (Contribution for Social Security Financing) - Law 9,718/99

Edgar Filing: NATIONAL STEEL CO - Form 6-K

CSN is questioning the legality of Law 9,718/99, which increases the PIS and COFINS calculation basis, including, the financial revenue of the Company. Provision amounts to R\$253,443 as of September 30, 2004 (R\$245,138 on June 30,2004), which includes legal charges.

The Company obtained a favorable decision in the lower court decision and the proceeding is under compulsory re-examination by the 2nd Regional Federal Court.

- CPMF (Provisional Contribution on Financial Transactions)

The Company is questioning the CPMF taxation since the promulgation of the Constitutional Amendment No. 21/99. The amount of this provision as of September 30, 2004 is R\$256,180 (R\$235,270 on June 30, 2004), which includes legal charges.

The lower court decision was favorable and the proceeding is being judged by the 2nd Regional Federal Court. However, we emphasize that the most recent court decisions have not been favorable to the taxpayers.

- CIDE Contribution for Intervention in the Economic Domain

CSN disputes the legal validity of Law 10,168/00, which established the collection of the intervention contribution in the economic domain over the amounts paid, credited or remitted to non-resident beneficiaries of the country, as royalties or remuneration of supply contracts, technical assistance, trademark license agreement and exploration of patents.

The Company recorded court deposits and its corresponding provision in the amount of R\$22,190 on September 30, 2004 (R\$22,051 on June 30, 2004), includes legal charges.

The lower court decision was unfavorable and the proceeding is currently under judgment of the 2nd Regional Federal Court. Although there are no consolidated former court decisions, due to the fact that the issue is very recent, the Company's lawyers consider as possible the chances of success. Nevertheless, the Company decided to set-up the respective provision.

- Educational Salary

The Company discusses the unconstitutionality of the Educational-Salary and the possible recovery of the amounts paid in the period from January 5, 1989 to October 16, 1996.

The provision as of September 30, 2004 amounts to R\$35,439 (R\$33,145 on June 30, 2004), which include legal charges.

TRF maintained the unfavorable decision to CSN, judgment made final and unappealable. We are arranging the payment/settlement of amount due as a result of non-payment based on this proceeding.

- SAT Workers Compensation Insurance

The Company understands that it must pay the SAT at the rate of 1% in all of its establishments, and not 3%, as determined by the current legislation. The amount provisioned on September 30,2004 totals R\$53,605 (R\$49,489 on June 30, 2004), including legal charges.

The lower court decision was unfavorable and the proceeding is under judgment of TRF of the 2nd Region. Although there was so far no judgment of the matter by the Brazilian Supreme Court, the Company's lawyers deem as possible the chances of success. Anyway, the Company decided to set-up the respective provision.

- IPI (Excise Tax) presumed credit on inputs

The company brought an action pleading the right to the IPI presumed credit over the acquisition of exempted, immune, non-taxed inputs, or taxed at zero rate. An initial decision was obtained authorizing the use of said credits.

On September 30,2004, the provision related to the total credits already offset amounted to R\$ 337,335 (R\$ 66,082 on June 30, 2004), updated by Selic (Special System for Settlement and Custody).

- Others

The Company also provided for several other lawsuits in respect of FGTS LC 110, Drawback and Freight Surcharge for Renovation of Merchant Marine (AFRMM), whose amount as of September 30, 2004 aggregated R\$17,278 (R\$10,969 on June 30, 2004) including legal additions.

(a) Paid-in capital stock

At the Annual and Extraordinary General Meetings held on April 29, 2004, CSN approved the proposal made by the Board of Directors on March 30, 2004, for splitting the shares representing the capital stock, operation by which each share of the capital stock is now represented by 4 shares, followed by the reverse split of these shares in the proportion of 1,000 shares for 1 share, which resulted in the reverse splitting of 250 shares into 1, as well as the change in the share-to-ADR ratio of 1 share to 1 ADR.

Consequently the Company's capital stock on September 30, 2004 and June 30, 2004 was comprised of 286,917,045 common shares, all of them non par book-entry common shares. Each common share entitles the owner to one vote at the General Meetings resolutions.

(b) Treasury Shares

On July 27, 2004 the Board of Directors approved the purchase of up to 7,200,000 shares issued by the Company to be held in treasury and subsequent sale and/or cancellation. The period for the acquisition is 3 months starting on August 02, 2004.

The Board of Directors had already authorized, on April 27, 2004, the acquisition of up to 4,705,880 shares issued by the Company to be held in treasury and further sale and/or cancellation. The acquisition term was also of 3 months from April 28, 2004.

Treasury shares position as of September 30, 2004 is as follows:

Number of shares purchased (in units)	Total value paid for shares	Share unit cost			Market value of shares
		Minimum	Maximum	Average	
4,748,399	181,938	33.30	46.10	38.32	208,977

While held in treasury, the shares will have no proprietorship or political rights.

(c) Revaluation reserve

This heading covers revaluations of the Company's fixed assets approved by the Shareholder's Extraordinary General Meeting held December 19, 2002 and April 29, 2003, which were intended for determining adequate amounts for the Company's fixed assets at market value, pursuant to the CVM Deliberation No. 288, dated December 03, 1998. The objective of such procedure is for the financial statements to reflect assets value closer to their replacement value.

Pursuant to the provisions of CVM Deliberation No. 273, as of August 20, 1998, a provision for social contribution and income tax was set up on the balance of revaluation reserve (except land), classified as a long-term liability.

The realized portion of the revaluation reserve, net of income tax and social contribution, is included for purposes of calculating the mandatory minimum dividend.

(d) Ownership structure

On September 30, 2004, the capital was comprised as follows:

	Number of shares (In thousands)	
	Common	%
Vicunha Siderurgia S.A.	133,348	47.26%
Caixa Beneficente dos Empregados da CSN - CBS	10,420	3.69%

Outstanding shares	282,169	100.00%
Treasury shares	4,748	
Total shares	286,917	

(e) Investment policy and payment of interest on own capital/dividends

On December 13, 2000, CSN's Board of Directors decided to adopt a policy of profit distribution, which, by observing the provisions of Law No. 6,404/76, altered by Law No. 9,457/97 implies the distribution of all Company's net profit to the shareholders, as long as the following priorities are preserved irrespective of their order: (i) corporate strategy, (ii) compliance with the obligations, (iii) making the necessary investments and (iv) maintenance of a good financial situation of the Company.

(f) Interim dividends

On June 14, 2004, CSN's Board of Directors, in accordance with Article 17, item VIII of the Company's By-Laws and Article 204, paragraphs 1 and 2 of Law No. 6,404/76, approved the payment of interim dividends to shareholders to the income account for the year ended March 31, 2004, in the amount of R\$35,000, representing payments of R\$0.1228 per capital stock outstanding, excluding those 2,087 thousand treasury shares at that date, and not requiring the withholding of income tax, as established by legislation in force.

25. EMPLOYEES' PENSION FUND

(a) Private Pension Administration

The Company is the principal sponsor of the CSN Employees' Pension Fund ("CBS"), a private non-profit pension fund established in July 1960, as legal entity of social security end, with no lucrative end and authorized to function by the deliberation No.1964, of December 28, 1979, from the Ministry of Social Security. CBS congregates CSN employees, of CSN related companies and entity itself, and provided they sign the adhesion agreement and its activities are conducted by the Supplementary Law No.109, as of May 29, 2001.

(b) Characteristics of the Plans

CBS has three benefit plans:

35% of Average Salary Plan

It is a defined benefit plan, which began on 02/01/1966, with the objective of paying retirements (related to length of service, special, disability or old-age) on a life-long basis, equivalent to 35% of the participant's salaries for the 12 last salaries. The plan also guarantees the payment of sickness assistance to the licensed by the Official Pension Plan (Previdência Oficial). It also guarantees the payment of funeral grant and pension. The participants (active and retired) and the sponsors make 13 contributions per year, being the same number of benefits paid per year. This plan is in process of extinction, becoming inactive on 10/31/1977, when the new benefit plan began.

Supplementary Average Salary Plan

Edgar Filing: NATIONAL STEEL CO - Form 6-K

It is a defined benefit plan, which began on 11/01/1977. The purpose of this plan is to complement the difference between the 12 last average salaries and the Official Pension Plan (Previdência Oficial) benefit, to the retired, and also on a life-long basis. As with the 35% Average Salary Plan, there is sickness assistance, funeral grant and pension coverage. Thirteen contributions and payment of benefits are made per year. It became inactive since 12/26/1995, because of the combined supplementary benefits plan creation.

Combined Supplementary Benefits Plan

This plan began in 12/27/1995. It is a mixed plan, being a defined contribution, related to the retirement and a defined benefit, in relation to other benefits (pension in activity, disability and sickness benefit). In this plan, the retirement benefit is calculated based on the sponsor and participants contributions, totaling 13 per year. Upon retirement of the participant, the plan becomes a defined benefit plan and 13 benefits are paid per year.

As of September 30, 2004 and June 30, 2004, the plans are presented as follows:

	9/30/2004	6/30/2004
Members	18,623	18,713
In activity	7,401	7,399
Retired employees	11,222	11,314

Supplementary average salary plan	1,176	1,169
Combined supplementary benefits plan	47	45
Total members / beneficiaries	24,042	24,139

(c) Insufficiency of Reserve Equalization

On January 25, 1996, the Supplementary Social Security Secretariat SPC (Secretaria de Previdencia Complementar), through letter No. 55 SPC/CGOF/COJ approved a proposal to equalize the insufficiency of reserves based on value determined on September 30, 1995, monetarily update to December 31, 1995.

Through letter No. 1555/SPC/GAB/COA, of August 22, 2002, confirmed by letter No. 1598/SPC/GAB/COA of August 28, 2002 new proposal was approved for refinancing of reserves to amortize, the sponsors' responsibility in 240 monthly and successive installments being the 1st to 12th in the amount of R\$958 and from 13th to 240th on R\$3,133, monetarily indexed (INPC + 6% p.a.), starting June 28, 2002. The contract also foresees the installments anticipation in case of cash necessity in defined benefit plan and the incorporating to the updated debit balance the

Edgar Filing: NATIONAL STEEL CO - Form 6-K

occasioned deficits/surplus under the sponsors responsibility, so as to preserve the plans balance without exceeding the maximum period of amortization.

(d) Actuarial Liabilities

As provided by CVM Deliberation No. 371, as of December 13, 2000, approving the NPC 26 of IBRACON Employee s Benefit Accounting that established new calculation and disclosure accounting practices, the management of the Company and its external actuaries, assessed the effects arising from this new practice, in conformity with the report dated January 30, 2004.

Actuarial Liability Recognition

The Company s Administration decided to recognize the actuarial liability adjustment in the results for the period of five years, from January 1, 2002, being appropriated up to September 2004 the amount of R\$22,609 (R\$51,287 up to September 2003) in accordance with paragraphs 83 and 84 of NPC 26 of IBRACON and CVM Deliberation No. 371/2000, which, added to related disbursements, totaled R\$55,552(R\$84,921 up to September 2003).

With respect to the recognition of the actuarial liability, the amortizing contribution related to the amount for the participants for determination of the reserve insufficiency was deducted from the present value of total actuarial obligation of the respective plans. A number of participants are disputing in court this amortizing contribution; The Company, however, based on its legal and actuarial advisers understands that such contribution was duly approved by the Complementary Social Security SPC and consequently, is legally due by the participants.

In addition, in the case of Plano Milênio (Mixed Plan of Supplementary Benefit), of defined contribution, which shows net asset and where the sponsor s contribution corresponds to an equal counterpart of the participants contribution, the understanding of the actuary is that up to 50% of the net actuarial asset may be used for reduction of the sponsor s contribution. As a result, the sponsor opted for recognizing 50% of such asset on its books, in the amount foreseen of R\$2,385 in 2004 (R\$1,455 in 2003).

Main actuarial assumptions adopted in the actuarial liability calculation

Methodology Used	Projected Credit Unit Method
Nominal discount rate for actuarial obligation	13.4% p.a.. (8% actual and 5% inflation)
Expected rate of return on plan assets	13.4% p.a.. (8% actual and 5% inflation)
Index for estimated salary increase	INPC + 1 % (6.05%)
Index for estimated benefit increases	INPC + 0% (5.00%)
Estimated long-term inflation rate	IN PC + 0% (5.00%)
Biometrical mortality table	UP84 with 3-year aggravation and divided by sex
Biometrical disability table	Mercer Table for entering disability
Expected turnover rate	1% p.a.
Probability of entering retirement	The first time the participant qualifies for a benefit

CSN does not have obligations on other after-labor benefits.

26.SUBSEQUENT EVENTS

- Debenture redemption

In compliance with the provisions in the Private Deed for Issuance of Non-convertible unsecured Debentures of Companhia Siderúrgica Nacional s First Issuance as of January 10, 2002, and in compliance with CVM Instruction No. 358, the Company s Board of Directors approved at the meeting held on August 31, 2004 the redemption of all first series debentures, covered by the deed, representing fifty-four thousand (54,000) debentures, which occurred on October 4, 2004.

- Repurchase of shares

On October 26, 2004, the Board of Directors approved a new purchase of up to 6,357,000 shares issued by the Company to be held in treasury for subsequent sale and/or cancellation, in conformity with Article 3 of CVM Instruction No. 10/80, through trading at the São Paulo Stock Exchange (Bovespa), within three (3) months from November 12, 2004 until February 11, 2005.

Edgar Filing: NATIONAL STEEL CO - Form 6-K

- Issuance of debentures cancellation

The Board of Directors at the meeting held on October 26, 2004, decided to cancel the issuance of debentures authorized on July 27, 2004 and re-ratified in the Board of Directors meeting held on August 31, 2004.

05.01 COMMENTS ON THE COMPANY'S PERFORMANCE IN THE QUARTER

Production and Production Costs

- Production

Output volumes¹ in the third quarter of 2004 totaled 1.4 million tons of crude steel and 1.3 million tons of rolled finished products. In the first 9 months of 2004, the production of crude steel reached 4.1 million tons, up by 4%, while rolled finished products increased by 6% against the same period of 2003, totaling 3.7 million tons. These increases are the result of the Company's continuous efforts to improve productivity.

- Production Costs (Parent Company)

In 2004, total production costs were 37% higher on a third quarter basis, and 36% higher on a 9-month basis. The increase in production costs was mainly due to higher imported raw materials prices as a result of the supply and demand imbalance in the international market, driven by increased internal consumption in China. Raw material now represents 51% of total costs, compared to only 40% in 3Q03.

In the first 9 months of 2004, coal and coke costs were R\$450 million higher from the comparable period in 2003. In 3Q04, the percentage of total costs declined by 1 percentage point (p.p.), for these inputs, compared to 2Q04, but increased by 12 p.p. compared to 3Q03, accounting for 33% of total costs.

Another highlight was the decline of outsourced hot coils, which no longer pertain to the Company's commercial strategy.

Costs remained constant compared to 2Q04 given the impact of the Real appreciation on imported or dollar-linked raw material, which remained at 47% of total cash costs.

Higher crude steel output in 2004 also contributed to an increase in our need for raw materials in general. Lastly, the non-cash effect of asset revaluation and CSN Paraná's start-up increased the depreciation in the beginning of 2004 by R\$97 million.

Net Revenues

In the third quarter of 2004, sales volumes of finished products and slabs reached 1.2 million tons, decreasing by 8%, from the same period in the prior year, due to the reduction of outsourced hot coils. Domestic market increased by 40% in the quarter, reflecting a 37% growth on flat steel demand in Brazil and a slight market share increase. Export sales, however, decreased by 55%, when compared the same periods, and accounted for 24% of total sales. In the 9-month period, sales volumes grew by 5%, highlighting the 19% growth of domestic sales, with domestic demand increasing by 15% due to the economic recovery.

Consolidated net revenues in 3Q04 were 56% higher, reaching R\$2,780 million. This performance was mainly due to a 68% increase in average prices, resulting from price increases in the domestic market, as well as in the international markets, especially in the United States. Since export prices in the period remained higher, domestic sales accounted for 73% of the quarter's total net revenues, below the 76% of total volumes. In the 9-month period the domestic market represents 68% of net revenues and 69% of total volumes, since export prices were higher than domestic prices.

Exports for the parent company were largely to the United States and Europe, which represented 39% and 35% of total exports, respectively. This mainly reflects our operations with CSN LLC (USA) and Lusosider (Portugal). Exports to Asia and Latin America amounted for 13% and 10%, respectively. Since CSN LLC and Lusosider sales are made in their respective regions, CSN consolidated sales show substantially the same distribution worldwide.

Gross Profit, Operational Income and EBITDA

- Gross Profit

Edgar Filing: NATIONAL STEEL CO - Form 6-K

Gross profit in the 3Q04 increased by R\$571 million compared to 3Q03 and R\$146 million compared to 2Q04. Gross margin grew by 5 p.p. compared to the same period of the previous year as a result of higher steel prices. Compared to the previous quarter, gross margin had a 2 p.p. increase. In the 9-month period, gross income was 45% higher, while the gross margin remained flat at 47%.

● Operational Income

In 3Q04, operating income reached R\$1.1 billion, compared to R\$939 million in 2Q04. This R\$192 million increase reflects the higher gross income and the reduction in selling expenses, due to smaller export volume. Operating income in the 9-month period grew by 55%, reflecting the increase in gross income.

EBITDA

EBITDA in the third quarter totaled R\$1,361 million, an 82% increase compared to the R\$747 million reported in 3Q03. EBITDA margin was 49%, or 7 p.p. and 3 p.p. above 3Q03 and 2Q04, respectively. In the 9-month period, EBITDA increased by 49%, reaching R\$3.4 billion with a 47% margin. This figure surpasses the 2003 FYE EBITDA by R\$372 million.

Financial and Equity Results

● Financial Results

Financial results (which include financial revenues and expenses as well as results from net exchange and monetary variation, but exclude amortization of deferred exchange losses) amounted to negative R\$11 million in the quarter, compared to negative R\$242 million in 3Q03, due to lower cost of net debt in the period. However, in the first nine months of 2004, financial results were R\$630 million, compared to negative R\$557 million in the same period of 2003. For a breakdown of the financial results, please refer to table on page 6.

Deferred Exchange Losses: Total amortization of deferred exchanges losses due to the real devaluation in 2001 was R\$25 million in 3Q04, compared to R\$33 million in 3Q03. The balance to be amortized in 2004 is R\$25 million.

● Equity Results

Equity results were negative R\$4 million in 3Q04, which represented a R\$28 million variation when compared to 3Q03. Although the gains related to the stake at MRS were stable, the Company registered a R\$9 million higher loss related to Itasa in 2004. In addition, the Company started to amortize goodwill related to the investments in GalvaSud (R\$7 million) and Tangua (CSN LLC controlling shareholder- R\$4 million) in 2Q04 and 4Q03, respectively.

Net Income

In 3Q04, the Company recorded R\$386 million in provisions for Income Tax and Social Contribution (IT/SC), compared to a R\$70 million provision in 2Q04. The main reasons for this difference are higher results before taxes and a reversal in the previous quarter of part of provision related to the Summer Plan. In relation of 3Q03, the R\$317 million variation is mainly due to a higher result before taxes in 2004.

As a result of the items previously mentioned, the Company's consolidated net income in 3Q04 reached R\$694 million, 242% higher than the R\$203 million recorded in the same period of the previous year, and 64% higher than in 2Q04. In the 9-month period, net income reached R\$1.45 billion, up by R\$735 million.

Net Debt/EBITDA = 1.1 x

On September 30, 2004, consolidated net debt amounted to R\$5,123 million, R\$875 million lower than on June 30, 2004. This reduction reflects high cash flow generation and lower financial costs, partially offset by higher raw material inventories that increased our working capital needs. Current net debt /annualized accumulated EBITDA ratio was at 1.1x, within the previously announced estimates.

The cost of net debt for the first nine months of 2004 was equivalent to 92% of the CDI. As the Company's hedging strategy contemplates financial and operational assets and liabilities denominated in foreign currency, the derivatives amount to approximately US\$1 billion. For the year, the Company expects the financial cost to remain around 100% of Cetip's CDI.

Capex

Edgar Filing: NATIONAL STEEL CO - Form 6-K

In the first 9 months of 2004, total capex reached R\$ 646 million. The main expenditure, once again, was related to CSN Paraná, in addition to projects related to maintaining the operating and technological excellence of the facilities, as well as the acquisition of the remaining capital of GalvaSud, which amounted to R\$306 million.

17.01 INDEPENDENT ACCOUNTANTS SPECIAL REVIEW REPORT - QUALIFIED

(Convenience Translation into English from the Original Previously Issued in Portuguese)

Independent Accountants Special Review Report

To the Stockholders and Management of
Companhia Siderúrgica Nacional
Rio de Janeiro RJ

1. We have conducted a special review of the quarterly report (ITRs) of COMPANHIA SIDERÚRGICA NACIONAL (a Brazilian corporation), which includes the individual (Parent Company) and consolidated balance sheets as of September 30, 2004, the related statements of income for the quarter and the nine month period then ended, the performance report and the relevant information, presented in accordance with the accounting principles generally accepted in Brazil, prepared under the responsibility of the Company's management.

2. Except for the matter presented in paragraph (3), our review was conducted in accordance with specific standards established by the Brazilian Institute of Accountants - IBRACON, together with the Federal Accounting Council (CFC), and mainly comprised: (a) inquiries and discussions with the Company's management responsible for the accounting, financial and operating areas as to the principal criteria adopted in the preparation of the quarterly information; and (b) review of the information and subsequent events that had or may have significant effects on the Company's and its subsidiaries financial position and operations.

3. As described in Note 13 to the quarterly financial information, the Company and its affiliate MRS Logística S.A. and its subsidiary Galvasud S.A. elected to defer net losses arising from exchange variations in the year 2001, in conformity with Provisional Measure no.3/2001 and Deliberations no.404/2001 and 409/2001 of the Brazilian Securities Commission - CVM. The accounting practices adopted in Brazil require the recognition in income of the effects of exchange rate variations during the period in which they occurred. As a result, as of September 30, 2004 the stockholders' equity is overstated by approximately R\$18 million (R\$36 million on June 30, 2004) and the net income for the quarter and nine month period ended September 30, 2004, is understated by approximately R\$18 million and R\$57 million respectively, net of tax effects.

4. Based on our special review, except for the effects of the matter mentioned in paragraph 3, we are not aware of any material modification that should be made to the quarterly report referred to in paragraph (1) above for it to be in accordance with the accounting practices adopted in Brazil, applied in compliance with the standards laid down by CVM (Brazilian Securities Commission), specifically applicable to the preparation of the quarterly information.

5. As described in Note 7 to the Quarterly Information, as of September 30, 2004, the Company and its subsidiaries had recorded in current assets, accounts receivable in the amount of R\$76 million, related to the sale of energy in the Wholesale Electric Energy Market - MAE, for the period between September 2000 to September 2002. These amounts are subject to changes, depending on the decision in the judicial process under way filed by companies in the electric energy sector, related to the interpretation of market regulation in effect for that period.

6. The individual and consolidated financial statements as of June 30, 2004 presented for comparative purposes, were reviewed by us, and our report, dated July 23, 2004 included a qualification with respect to the deferral of net negative exchange variations for the year 2001 and an emphasis paragraph with respect to the realization of accounts receivable related to the sale of energy on the Wholesale Electric Energy Market MAE for the period of September 2000 to September 2002. The individual and consolidated statements of income for the quarter and nine month period ended September 30, 2003, presented for comparative purposes, were reviewed by us, and our report, dated October 31, 2003, contains a qualification with respect to the absence of review of the September 30, 2003 financial statements of the jointly controlled subsidiary Lusosider Projectos Siderurgicos S.A. by us or other independent auditors, deferral of net negative exchange variations in the year 2001 and an emphasis paragraph with respect to the realization of accounts receivable related to the sale of energy on the MAE.

7. Our special review was conducted for the purpose of issuing a report on the Quarterly Information referred to in paragraph (1) above, taken as a whole. The Supplementary Information related to the Value-added Statement, presented in Note 23, the EBITDA Statement included in Note 24, and the Statements of Changes in Financial Position and of Cash Flows presented in Attachment 16.01 to the Quarterly Information are presented for the purposes of allowing additional analyses and are not required as part of the basic quarterly report. This information was reviewed by us according to the review procedures mentioned in paragraph (2) above, and based on our special review, except for the matter mentioned in paragraph (3), is fairly stated, in all material respects, in relation to the Quarterly Information taken as a whole.
