**Standard & Poor's Upgrades Braskem's Corporate Credit Rating, in Brazil's National Scale**

**São Paulo, Brazil, April 07, 2006 --- Braskem** (BOVESPA: BRKM5; NYSE: BAK; LATIBEX: XBRK), leader in the thermoplastic resins segment in Latin America and one of the three largest Brazilian privately-owned industrial companies, informs the market that **Standard & Poor's has upgraded Braskem's corporate credit rating**, from brAA positive outlook to **brAA / stable outlook**, in Brazil's National Scale.

According to José Marcos Treiger, Braskem's Investor Relations Officer, the improvement in our rating was an important demonstration of confidence in the Company, as well as in its ability to continue to generate adequate cash levels and to present positive financial indicators, even amidst a more challenging scenario in terms of our costs of raw materials. The new rating also reflects our leadership position in the petrochemicals sector in Latin America, including in the polyethylene segment, which has been significantly strengthened by the recent, important acquisition of Politéno Indústria e Comércio S.A., added Treiger.

Braskem, a world-class Brazilian petrochemical company, is the leader in the thermoplastic resins segment in Latin America and is among the three largest Brazilian privately-owned industrial companies. The company operates 13 manufacturing plants located throughout Brazil and has an annual production capacity of 5.8 million tons of thermoplastic resins and other petrochemical products.
