1. OPERATIONS

Companhia de Saneamento Básico do Estado de São Paulo - Sabesp (the Sabesp or Company) is a mixed-capital company headquartered in São Paulo, controlled by the São Paulo State Government. The Company is engaged in the provision of basic and environmental sanitation services, as well as suppling treated water on a bulk basis and providing sewage treatment services for another six municipalities of the Greater São Paulo Metropolitan Area.

In addition to providing basic sanitation services in the State of São Paulo, SABESP may perform these activities in other states and countries, and can operate in drainage, urban cleaning, solid waste handling and energy markets. The new Sabesp vision sets forth as its objective to be recognized as the company that has universalized the Sanitation services in its area of operation, with focus on the customer, in a sustainable and competitive way, with excellence in environmental solutions.

The Company provides water and sewage services in 365 municipalities in the State of São Paulo. It should be highlighted noted that the operations of the municipalities of Itapira, Araçoiaba da Serra, Iperó and Cajobi have ceased temporarily due to judicial orders still in progress. On June 30, 2010, the assets referring to these four municipalities were R\$16,470. Nearly all of these assets are result of concessions granted by the municipalities which most of them

have a 30-year term. Up to June 30, 2010, 78 concessions were expired and all of them are being negotiated with the municipalities. Between 2010 and 2030, 65 concessions will expire. The remaining concessions are for undetermined period. Up to June 30, 2010 198 program contracts were signed.

Management expects that the referred concessions will be renewed or extended, thus there will not be a discontinuity of the water supply and sewage collection in these municipalities. On June 30, 2010 the net book value of the property, plant and equipment used in the 78 municipalities where the concessions are under negotiation totals R\$2,086 million and the net revenues for the period ended on June 30, 2010 totals R\$463 million.

In the municipality of Santos, in the Santista lowland region, which has a significant population, the Company operates supported by a public authorization deed. A similar situation occurs in other municipalities in that region as well as the Ribeira valley region. The Company started to operate after the merger of the companies that formed it.

The important changes in regulation of the sanitation sector occurred in 2007 and generated new challenges and opportunities for Sabesp. The regulatory milestone has consolidated the integration between the investments of the service provider and the priorities set forth by the holder of the services, it made the provision of accounts more effective and transparent and increased the security for investments.

The Company s shares have been listed on the Novo Mercado (New Market) segment of the BOVESPA (São Paulo Stock Exchange) since April 2002, and on the New York Stock Exchange (NYSE) as ADRs since May 2002.

(ii) Consolidated Financial Statements

The consolidated financial statements include the financial statements of Sabesp and its subsidiary Sesamm, which has been included in proportion to the Company s equity interest. The Company maintains the joint shareholder control of the subsidiary, as detailed in Note 7. Fiscal year ends and accounting practices are aligned with the contracting company.

Although Sabesp s equity interest in Sesamm capital stock is not majority interest, the shareholders agreement provides for the vetoing power on certain management matters together with OHL Meio Ambiente, Inima S.A.U. Unipersonal (Inima) indicating shared control on Sesamm. In light of this, the Financial Statements have been presented on a consolidated basis.

The consolidation process of the balance sheet and income statement accounts adds up the balances of the assets, liabilities, revenues and expenses according to their nature, complemented by the elimination of the equity interest of the holding company in the capital stock and retained earnings of the subsidiary.

(i) Water and sewage services

The Company provides water supply and sewage collection services to the State Government and other Companies related to it, under terms and conditions considered by Management as normal in the market, with the exception as to the form of settlement of the trade receivables, that may be settled under the conditions mentioned in items (iii), (iv) and (v).

(ii) Reimbursement of additional retirement and pension benefits paid

It refers to amounts of supplemental benefits of retirement and pension plan provided by State of Sao Paulo s Law nr. 4819/58 (Benefits) paid by the Company to former employees or retirees.

(iii) Second Amendment to the Gesp Agreement

On December 28, 2007, the Company and the State of São Paulo, by means of the Secretary of Treasury signed the second amendment to the terms of the original Gesp agreement, (1) agreeing with the payment of the remaining balance of the First Amendment, (R\$133,709 as at November 30, 2007) to be paid in 60 equal, monthly and consecutive installments, the first one maturing on January 02, 2008. The value of the installments is monetarily adjusted according to the variation of the IPCA-IBGE, added by simple interests of 0.5% per month. Within the balance of this agreement, which installments have been paid monthly up to this point, there is an amount of R\$46,244 that the State does not recognize as due. Sabesp has an understanding different from the State regarding this amount, and is not admitting the review of these previously agreed upon values, without the substantiated unequivocal demonstration, of the lack of correspondence between the amounts presented by Sabesp and the services effectively provided. (2) with regards to the overdue and unpaid accounts in the period from March, 2004 to October, 2007, resulting from the provision of water and collection of sewage services in the total of R\$256,608, R\$236,126 have been received with R\$8,093 were transferred to Other Debtors and R\$12,389, object of discrepancies about the validation were submitted to ARSESP and are under analysis. At present, differences as to the debtor have been identified, although not regarding the amount of the debt. In case of reclassification of the person responsible for

paying the bill, Sabesp transferred the collection to the corresponding Entity. (3) the interests on shareholders equity due by Sabesp to the State, referring to the period from March, 2004 to December,

Page: 30

2006, in the amount of R\$400,823, restated from June, 2007 to November, 2007 by the Selic rate, were paid in the period from January to March, 2008, (4) the State and Sabesp agreed upon the prompt resumption of the fulfillment of their reciprocal obligations, under the new premises: (a) implementation of the electronic accounts management system to facilitate and speed up the follow-up of the payment processes and the procures of budgeting management; (b) structuring of the Programa of Uso Racional de Agua - PURA, to rationalize the consumption of water and the amount of the water and sewage bills of the responsibility of the State; (c) the establishment, by the State, of criteria in the budgeting of a way to avoid the displacement of amounts in the specific line of water and sewage bills as of 2008; (d) possibility of registration of state entities and bodies in a default system or master file; (e) possibility of interruption of the supply of water to the state entities in case of default in the payment of water and sewage bills.

Out of the invoicing of the months of November, 2007 to March, 2010, approximately 95% of the accounts have already been paid by the State Government.

(iv) Third Amendment to Gesp Agreement

Gesp, Sabesp and DAEE, on November 17, 2008, entered into the Third Amendment to the Term of Agreement of Payment Commitment, and Other Agreements, where the State confesses to owe Sabesp the amount of R\$915,251, monetarily adjusted until September, 2008 by the IPCA-IBGE, corresponding to the Uncontroversial Amount, calculated by FIPECAFI. Sabesp accepts temporarily the Reservoirs as part of the payment of the Uncontroversial Amount and offers to the State a temporary settlement, constituting a financial credit of R\$696,283, corresponding to the value of the Reservoirs. The definitive settlement will only occur with the effective transfer of property in the relevant real estate notary. The remaining balance of R\$218,967 is being paid in 114 monthly and consecutive installments, in the amount of R\$1,920 each, restated annually by the IPCA/FIPE, added by interests of 0.5% p.m., the first installment became due on November 25, 2008.

Sabesp and the State are working together on obtaining a legislative authorization in order to make viable the transfer of the Reservoirs to Sabesp, thus overcoming the juridical uncertainty caused by the Public Civil Action, mentioned in item (iii). After publication of the legislative authorization, the transfer of the Reservoirs to Sabesp will occur.

The Third Amendment also provides for the regularization of the monthly flow of benefits. While Sabesp is responsible for the monthly payments, by judicial decision, the State reimburses the Company based on criteria identical to those applied to the Uncontroversial Amount. In the absence of an impeditive judicial decision, the State will directly assume the flow of the portion of monthly payments of the part considered uncontroversial.

(v) As mentioned before, on November 17, 2008 the Company and the State executed the 3rd Amendment to GESP Agreement, in such occasion that the amounts called controversial and uncontroversial have been quantified. In such Amendment, efforts have been made to resolve what was called the Controversial Amount of Benefits. According to the fourth clause of this instrument, the Controversial Amount is represented by the difference between the Uncontroversial Amount and the amount effectively paid by the Company as supplemental retirement and pension benefits provided for Law 4819/58, under the original responsibility of the State of Sao Paulo, in the Company s understanding, although paid by Sabesp until May, 2008, due to judicial order.

In executing the Third Amendment, an appreciation of the differences that gave rise to the Controversial Amount of the Benefits provided by Law 4819/58 has been provided. Such expectation was, at that time,

Page: 31

based on the PGE s will to reanalyze the matter and also, in the Company s understanding, to the reimbursement based on external legal opinions.

However, recent opinions issued by PGE and received on September 4th and 22nd, 2009 and on January 4th, 2010, once again denied the reimbursement of the larger portion of this amount. As a consequence, the management s understanding has been changed about receiving the Controversial Amount upon a direct negotiation with the State.

Although the negotiations with the State are still underway, it is no longer possible to ensure that the Company will recover, in an entirely amicable way, the debts related to the Controversial Amount.

Sabesp will not waive the debt that it considers to be legitimately held against the State. In this sense, it shall exhaust all possibilities to resolve the question at a technical and legal level. If the difference persists, the Company shall adopt all necessary measures to safeguard the Company s interests.

In this context, the Company s management decided to recognize in the 2008 results a provision for losses on the outstanding balance of the controversial amount. This provision, in June 30, 2010 was R\$496,084. As a consequence of the recognition of this provision, it was also recorded the obligation related to the actuarial commitment kept with the beneficial owners, which right has been denied by the State, under the way it is paid by Sabesp. On June 30, 2010, the amount of this obligation was R\$507,772 (March 31, 2010 R\$520,055). The details of the actuarial obligation are presented in the explanatory note nr. 13.

(b) Cash and cash equivalents

The Company s bank short-term investments accounts with financial institutions controlled by the State Government was R\$1,009,639 and R\$813,594 on June 30, 2010 and March 31, 2010, respectively. The financial income from such investments was R\$28,517 and R\$47,308 in the first quarter of 2010 and 2009, respectively. The Company, due to State Decree n° 55,357 of January 18, 2010, must invest its excess resources with financial institutions controlled by the State Government.

(c) Agreement for the use of reservoirs

In its operations, the Company uses the Guarapiranga and Billings reservoirs; should these reservoirs not be available for use to the Company, there could be the need to collect water in more distant places. The Company does not pay any fee for the use of these reservoirs but it is responsible for their maintenance and operating costs.

(d) Agreements with lower tariffs with State and Municipal Government Entities that joined the Rational Water Use Program (PURA).

The Company has contracts signed with public entities linked to the State Government and to the municipalities served involving approximately 6.500 properties, which are benefited with a 25% reduction in the tariffs of the services of water supply and sewage collection, when not in default. The contracts provide for the implementation of the rational use of water program, which considers a reduction in the consumption of water.

6. INDEMNIFICATIONS RECEIVABLE

Indemnities receivable are a non-current asset that represents amounts receivable from the Municipalities of Diadema and Mauá as an indemnity for their unilateral termination of the concessions for water supply and sewage collection services of the Company in 1995. As of June 30, 2010 and March 31, 2010, this asset amounted to R\$146,213 (nominal amounts).

Due to these concession agreements, the Company invested in the construction of water and sewage systems in those municipalities in order to meet its concession service commitments. For the unilateral termination of the Diadema and Mauá concessions, the municipalities assumed the responsibility of supplying water and sewage services in those regions. At that time, the Company reclassified the balances of property, plant and equipment related to the assets used in those municipalities to non-current assets (indemnities receivable).

The net book value of the items of property, plant and equipment related to the Municipality of Diadema, reclassified in December, 1996, was R\$75,231, and the balance of the indemnifications receivable from the Municipality was R\$60,295.

The net book value of the items of property, plant and equipment related to the Municipality of Maua, reclassified in December, 1999, was R\$103,763, and the balance of the indemnifications receivable from the Municipality was R\$85,918.

The Company s rights to the recovery of these amounts are being judicially discussed by the municipalities.

Sabesp filed lawsuits to collect the amounts due by the municipalities. With regards to Diadema, the execution of the agreement entered with Diadema s Mayor Office and the Companhia de Saneamento de Diadema Saned, has started for the payment of the indemnification, the judge of first level accepted the appeals of the Mayor s Office and extinguished the execution. Sabesp filed an appeal against such sentence and, in December, 2005, partial approval to this appeal was granted to declare the validity of the agreement and determine that the appeals to the execution were once again judged in first level. On December 2007, the decision that accepted the execution of the Saned was rendered, ordering this company to be summoned to pay the full amount of the debt within 15 days under the penalty of fine. The realization of the pledge in cash was approved on Saned s bank accounts and financial investments (online pledge) up to 10% of the restated amount of the debit, being blocked and withdrawn the amount of R\$2,919 in March 3rd, 2009. Later, the Court of Justice determined that the pledge be made upon weekly deposit by Saned of the amount corresponding to 20% on all it receives in its bank accounts and financial investments, such decision still being subject of appeal. Regarding Diadema Mayor s Office, a new sentence was given to the appeals to the execution, on October, 2009, recognizing the existence of the right to claim the debt, and affirming that the execution against the Municipality shall be made upon precatory notes (and not by pledge). Sabesp and the Mayor s Office have appealed against such judgment.

On December 29, 2008, Saned and the municipality of Diadema entered into, with the State of Sao Paulo and Sabesp, a Memorandum of Intent with the purpose to prepare studies and conduct negotiations to instruct decisions of Diadema and Sabesp, aiming at the exclusive provision of water and sewage services in the municipality of Diadema.

Page: 34

The parties agreed that the search for a negotiated solution for the currently existing conflicts among the companies is fundamental so that the public service of water supply, sewage collection and treatment have their proper development in Diadema.

On January, 2009 the parties presented joint petition requesting the suspension of new pledges for the period of three months in order to try to make an agreement viable. The suspension was granted by the Judge of Public Treasury and, successively renewed, being the last renewal occurred on April, 2010 in face of negotiations for agreement.

With regards to Mauá, a first level decision was given determining that the Municipality pays the amount of R\$153.2 million as compensation for the damages caused and for loss of profits. The Maua s City Hall appealed against this decision. On July 2006, the decision was converted in diligence consisting of an expert clarification on the amount of the indemnity for loss of profits and the expert confirmed the amount of the loss of profits determined by the lower court. In August, 2008, the appeal was judged, having fully maintained the conviction imposed in the first level. The Maua Mayor s Office filed special and extraordinary appeals against the sentence that confirmed its conviction to indemnify Sabesp. Both appeals were not accepted by the Court of Justice, causing the filing of appeals to the Superior Court of Justice and to the Supreme Court. Superior Court of Justice has already denied acceptance to the appeal and confirmed the non admissibility of the special appeal.

Based on the opinion of the legal counsels, Management continues to affirm that the Company has legal right to receive the amounts corresponding the indemnification and it continues to monitor the situation of the lawsuits.
