In the 1Q11, net operating revenues totaled R\$ 2.3 billion, 6.1% growth related to 1Q10. Costs and expenses, including construction costs, in the amount of R\$ 1.9 billion, presented a decrease of 27.2% related to 1Q10. EBITDA decreased from R\$ 837.8 million in 1Q10 to R\$ 654.3 million in 1Q11, a reduction of 21.9%. EBITDA margin in the 1Q11 reached 28.5% as compared to 38.7% in the same period last year.

EBIT decreased 38.7%, from R\$ 694.8 million in 1Q10 to R\$ 426.2 million in 1Q11.

The 1Q11 result was particularly affected by the accounting record of R\$ 230.9 million corresponding to the following factors:

Treasury Shares

- Complement to the actuarial liability related to the complement of Retirement and Pension Benefits granted by State Law nr 4819/58 (Plan G0) in the amount of R\$ 157.5 million with impact on January 1st, 2011;
- Adjustment of the amortization period of the intangible assets for the lower between the useful life of the item and the effectiveness of the contract, in the amount of R\$ 73.4 million.

Discounting the effect from the adjustment of the complement of the actuarial liability, EBITDA would go from R\$ 654.3 million to R\$ 811.8 million, with margin going from 28.5% to 35.4%.

Page: 16

ITR - Quarterly Information 03/31/2011 CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO

Net Income would go from R\$ 182.8 million to R\$ 388.8 million if the two factors above had been disregarded.

2. Gross operating revenue

Gross operating revenue, including revenue from construction, reached R\$ 2.4 billion, corresponding to 6.2% increase related to the previous year.

Gross operating revenue related to the rendering of water supply and sewage collection services presented an increase of R\$ 145.3 billion, or 7.9%, from R\$ 1.8 billion in 1Q10 to R\$ 2.0 billion in 1Q11. The increase mainly relates to: growth in invoiced volume of 2.6% in water and 3.1% in sewage and tariff adjustment of 4.05% applied in September, 2010.

A number of factors as the expansion of the quantity of connections, the wholesale supply of water for the Municipality of Sumaré, the entrance into an operation with a penitentiary unit in the Municipality of Hortolândia, as well as the resume of growth post 2009 crisis in the industrial category, altogether, have contributed to the increase in the volume invoiced.

3. Revenue from construction

Revenue from construction presented a R\$ 2.0 million decrease, or 0.4%, when compared to 1Q10, from R\$ 452.2 million to R\$ 450.2 million, resulting from lower investment in the period.

4. Volume invoiced

In the following charts are demonstrated the volumes invoiced of water and sewage, according to the category of use and region, in the 1T10 and 1T11.

5.1. Salaries and payroll charges

In the 1Q11 there was an increase of R\$ 199.2 million or 55.8% in salaries and payroll charges, going from R\$ 357.3 million to R\$ 556.5 million as a result of the following factors:

ITR - Quarterly Information 03/31/2011 CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO

- 5.05% of salary adjustment as of May, 2010;
- Complement to actuarial liability in the amount of R\$ 157.5 million, referring to the actuarial calculation made in December 31, 2010 related to the Plan G0; non-recurring to upcoming quarters;
- Variance in the provision for Profit Sharing in the amount of R\$ 7.2 million as a consequence of the reversal of the amounts accrued in 1Q10.

5.2. General Supplies

In the 1Q11 there was a decrease of R\$ 2.8 million, or 8.1%, when compared to the same period in the previous year, from R\$ 34.4 million to R\$ 37.2 million. The main factors that caused this variance were greater expenses with maintenance materials in the producers and adductor systems, water and sewage treatment stations and elevation stations in the Metropolitan Region of Sao Paulo – RMSP, in the amount of R\$ 2.5 million.

5.3. Treatment Materials

The expenditures in 1Q11 were higher than in 1Q10 by R\$ 9.5 million, or 26.3%, going from R\$ 36.1 million to R\$ 45.6 million. This variance is related to the following factors:

- Increase of R\$ 5.4 million in the consumption of ferric sulfide and aluminum poly-chloride in replacement of aluminum sulfide caused by the worsening in the quality of water in the Water Treatment Station of Alto da Boa Vista, Rio Claro and Botucatu; and
- Increase of R\$ 3.6 million due to higher consumption of copper sulfide and activated charcoal, extremely seasonal products, which consumption varies according to the climate physical conditions of the reservoirs, caused by the proliferation of algae, flavor and smell in reservoirs that serve the producing system of Alto Tiete.

The consumption verified in 1Q10 was below normal, in function of the quality of water at that time, that is, there was a rupture in the trend of expenditures with treatment material. Therefore, the comparison with 1Q11 results is an apparently large evolution. Had this rupture not occurred, the evolution would have been 7.8%. Considering an average inflation of 6.1%, the real increase would be 1.6%.

5.4. Services

In 1Q11, this item presented an increase of R\$ 16.0 million or 7.4%, from R\$ 215.4 million to R\$ 231.4 million. The main factors that contributed to such variation were:

- Agreement with Sao Paulo City Hall

ITR - Quarterly Information 03/31/2011 CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO

- ü Increase of R\$ 12.8 million in the provision made in 1Q11, referring to the actions established;
- ü Actions for control to loss of water in the amount of R\$ 5.9 million resulting mainly from the maintenance of networks and connections of water and sewage and increase in fraud prevention actions; and

- ü Increase of R\$ 0.6 million resulting from the transportation of sediments of Lake Parque do Ibirapuera and Parque da Aclimação;

- Expenditures with risky contracts for the recovery of credits, in the amount of R\$ 2.2 million due to the increase of collection actions;

- Postal charges in the amount of R\$ 2.0 million related to the delivery of water bills in some Business Units due to judicial order;

- Hydrometer reading and delivery of bills in the amount of R\$ 2.0 million due to the implementation of the Regional Systems of new technologies in several municipalities that allow higher security and agility in reading and issuance of bills, in addition to the increase in the number of connections and enhancement of actions to control losses in the RMSP; and

- Contracting of freight and transportation services in the amount of R\$ 1.0 million as a result of outsourcing of transportation of chemical products.

ITR - Quarterly Information 03/31/2011 CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO

5.7 Depreciation and Amortization

This item presented an increase of R\$ 85.1 million or 59.5%, from R\$ 143.0 million to R\$ 228.1 million, resulting from the adjustment of the amortization period for the lower between the useful life of the item or the effectiveness of the contract.

5.8. Credit Write-offs

In 1Q11, the credit write off presented an increase of R\$ 22.7 million, varying from R\$ 10.4 million to R\$ 33.1 million, mainly due to the need to complement the provision on the invoicing of Public Entities, not made in 1Q10, as well as the lower credit recovery through the receipt of private customers related to the same period in 2010.

- The interests on internal loans and financings presented an increase of R\$ 38.6 million, due to new funding such as: (i) the 12th issuance of debentures occurred in June, 2010, (ii) 13th issuance of debentures occurred in January, 2011 and (iii) the disbursements with loan agreements already executed.

7. Income and expenses with monetary variation

| | R\$ million | | | |

7.1. Expenses with monetary variation

The effect of foreign exchange income in the 1Q11 was R\$ 96.6 million lower to the same period of 1Q10. This variance is due to:

- The foreign exchange on external loans and financings generated a negative impact in the amount of R\$ 93.3 million resulting from the 2.3% devaluation of the U.S. dollar in the 1Q11 versus a 2.3% appreciation in the 1Q10.
- Monetary variations on internal loans and financings decreased R\$ 6.2 million, mainly due to the reduction of R\$ 8.3 million resulting from the IGPM variation in 2.43% in 1Q11, as compared to the variation of 2.77% in 1Q10; and the increase of R\$ 2.1 million due to the higher variation of the TR in 1Q11 of 0.25%, as compared to 1Q10 of 0.08%; and

- Other monetary variances on indemnification of judicial law suits with an increase of R\$ 2.9 million.

7.2. Income from monetary variance

The income from monetary variation presented a decrease of R\$ 11.2 million. This result arose mainly from updating installment agreements and restatement of deposits referring to judicial suits occurred in 1Q10.

However, as the ratio is a 12-month moving average, the effects of such actions have not yet been impacted.

3. Financial Risk Management

3.1 Financial Risk Factors

Page : 28

ITR - Quarterly Information 03/31/2011 CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO

The Company's operations are affected by the Brazilian economic scenario, exposing it to market risk, such as foreign currency risk, interest rate risk, credit risk and liquidity risk.

The Company has not used derivative financial instruments, even being able to contract forward foreign exchange contracts and financing in Reais to reduce the foreign currency risk.

(a) Market Risk**Foreign Currency Risk**

This risk arises from the possibility that the Company may incur in losses due to exchange rate fluctuations, which would increase the liability balances of foreign currency-denominated loans and financing obtained in the market and the related financial expenses. The Company does not have hedge or swap contracts to hedge against this risk, in view of the amounts, costs involved and opportunities. However, when possible, it makes advance purchases of foreign currencies and obtains funding in local currency, as a way to protect itself against exchange rate fluctuations.

A significant part of the Company's financial debt was denominated in U.S. dollar and in Yen, in the total amount of R\$ 2,556,642 on March 31, 2011 (R\$ 2,244,635 on December 31, 2010). The Company's exposure to foreign currency risk is the following:

| | March, 31 2011 | | December, 31 2010 | |
|----------------------------|------------------|-----------|-------------------|-----------|
| | Foreign currency | R\$ | Foreign currency | R\$ |
| Loans and financing – US\$ | 1,082,277 | 1,762,705 | 1,084,898 | 1,807,657 |
| Loans and financing – Yen | 40,489,000 | 793,989 | 21,316,000 | 436,978 |

On March 31, 2011, had the Real appreciated or devaluated in approximately 10% as compared to the dollar and the Yen with all other variables constant, the effect on the income after taxes for the period would have been R\$ 170,001 (2010 – R\$ 148,146), lower or higher, mainly as a result of the foreign currency gains or losses with the conversion of loans to foreign currency.

| Simulation of appreciation/depreciation of the Real by 10% | <u>March, 31 2011</u> | <u>December, 31 2010</u> |
|--|-----------------------|--------------------------|
| Loans in foreign currency | 2,575,765 | 2,244,635 |
| Variation of Dollar/Yen | 10% | 10% |
| Appreciation or depreciation of the Real | 257,577 | 224,464 |
| Income Tax/Social Contribution Tax Rate | 34% | 34% |
| Income tax / Social contribution | 87,576 | 76,318 |
| Appreciation or depreciation of the Real, net of taxes. | 170,001 | 148,146 |

ITR - Quarterly Information 03/31/2011 CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO**Interest rate risk**

This risk arises from the possibility that the Company may incur losses due to interest rate fluctuations and indices that increase their interest expenses on loans and financing.

The Company has not entered into any derivative contract to hedge against this risk; however, it continually monitors market interest rates, in order to evaluate the possible need to replace its debt.

The table below shows the Company's loans and financings expressed in Reais subject to variable interest rate:

| | March, 31 2011 | December, 31 2010 |
|---|----------------|-------------------|
| UPR ⁽ⁱ⁾ | 2,434,452 | 2,529,398 |
| CDI ⁽ⁱⁱ⁾ | 1,965,254 | 2,009,391 |
| IGP-M ⁽ⁱⁱⁱ⁾ | 519,102 | 493,869 |
| TJLP ^(iv) | 693,238 | 703,710 |
| IPCA ^(v) | 235,413 | 223,996 |
| Total loans and financings in local currency. | 5,847,459 | 5,960,364 |

(i) UPR - Reference Standard Unit

(ii) CDI - Interbank Certificate of Deposit

(iii) IGP-M - General Index of Market Prices

(iv) TJLP - Long Term Interest Rate

(v) IPCA - National Wide Consumer Price Index

Another risk faced by the Company is the lack of correlation between the monetary adjustment indices of its debt and those of its receivables. Water supply and sewage treatment tariffs do not necessarily follow the increases in the interest rates affecting the Company's debt.

On March 31, 2011, had the interest rates on loans kept in reais varied around 1% higher or lower, with all other variables constant, the effect on the income after taxes would have been R\$ 38,593 (2010 – R\$ 39,338) higher or lower, mainly as a result of lower or higher interest expenses in loans with variable rates.

(b) Credit risk

The credit risk results from cash equivalents, bank deposits and financial institutions, as well as credit exposure to customers, including outstanding accounts receivable. The Company must, by law, invest its excess cash exclusively with Banco do Brasil (rating AA+(bra)). The credit risks are mitigated due to sale to a widely spread out customer base.

The maximum exposure to credit risk at the date of presentation of the report is the carrying amount of securities classified as cash equivalents, deposits in Banks and financial institutions and accounts receivable from customers at the date of the balance sheet. Notes 4.3 (e), 8, 9 and 10.

ITR - Quarterly Information 03/31/2011 CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO

(c) Liquidity Risk.

The Company's liquidity depends mainly on the cash generated by the operating activities, loans from financial institutions of the state and federal government and financings in the local and international markets. The liquidity risk management considers the assessment of liquidity requirements to ensure that the Company has enough cash to meet its operating and capital expenditures.

The table below analyzes the Company's financial liabilities, by maturity dates, including the portion of principal and interests to be paid in accordance with contractual clauses.

value using the market future interest rates, published by ANBIMA in the secondary market, as of March 31, 2011 and the Company's securities traded in the Brazilian market.

Therefore, the Company has elected to disclose as the market value the carrying amount recorded on March 31, 2011.

(i) Water and sewage services

The Company provides water supply and collection of sewage to the State Government and other Companies related to it, under terms and conditions considered by Management as normal in the market, except as to the form of settlement of the credits, that may be realized under the conditions mentioned in items (iii), (iv) and (v).

(ii) Reimbursement of additional retirement and pension benefits paid

Page : 38

ITR - Quarterly Information 03/31/2011 CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO

It refers to amounts of complementary benefits of retirement and pension plan provided by State of Sao Paulo's Law nr. 4819/58 ("Benefits") paid by the Company to former employees or retirees.

Under the terms of the Agreement referred on (iii), GESP recognizes to be responsible for the charges resulting from the Benefits, provided that the payment criteria set forth by the Department of Personnel Expenditures of the State – DDPE are met, founded on the legal guidelines set by the Legal Consulting of the Secretary of Finance and the State Attorney General's Office – PGE.

As explained in item (vi) during the validation by GESP of the amounts due to the Company for the Benefits, there were divergences as to the calculation criteria and eligibility of the Benefit applied by the Company.

On March 31, 2011 and December 31, 2010, 2,520 and 2,554 retirees, respectively, received retirement complements. In the quarters ended on March 31, 2011 and December 31, 2010, the Company paid R\$ 26,750 and R\$ 37,102, respectively. There were 25 active employees who will be eligible to these benefits as a result of their retirement, compared to 32 on December 31, 2010.

In January, 2004, the payments of retirement and pension complement were transferred to the Secretary of Finance, and would be made in accordance with the calculation criteria defined by the PGE. By judicial order, the responsibility for the payments returned to SABESP, as originally established.

(iii) GESP Agreement

On December 11, 2001, the Company, GESP (through the State Department of Finance Affairs, currently the Department of Finance) and the Department of Waters and Electric Energy – DAEE, with the intermediation of the State Department of Sanitation and Energy (former Department of Water Resources, Sanitation and Construction Works), entered into the Term of Recognition and Consolidation of Obligations, Payment Commitment and Other Covenants ("GESP Agreement") with the purpose to settle the existing dispute between GESP and the Company related to the water and sewage services and to the Benefits.

In view of the strategic importance of the reservoirs of Taiacupeba, Jundiai, Biritiba, Paraitinga and Ponte Nova (“Reservoirs”), for the assurance of the maintenance of volume of water of Alto Tiete, the Company agreed to receive them as part of the reimbursement referring to the Benefits. The Reservoirs would be transferred to the Company by the DAEE in return to the amounts owned by GESP. However, the Attorney General’s Office of the State of Sao Paulo questioned the legal validity of this agreement, which main argument is the absence of specific legislative authorization for the alienation of DAEE’s assets. The Company’s legal counsels assess the risk of loss of this suit as probable, in case it does not obtain the referred legislative authorization, which would prevent the transfer of the respective reservoirs as partial amortization of the balance receivable.

(iv) First Amendment to the GESP Agreement

Page : 39

ITR - Quarterly Information 03/31/2011 CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO

On March 22, 2004, the Company and the State Government amended the terms of the original GESP Agreement, (1) consolidating and recognizing the amounts due by the State Government for water supply and sewage collection services provided, monetarily adjusted until February 2004; (2) formally authorizing the offset of amounts due by the State Government with interest on shareholders' equity declared by the Company and any other debit existing with the State Government as of December 31, 2003, monetarily adjusted until February 2004; and (3) defining the payment conditions of the remaining liabilities of the State Government for the receipt of the water supply and sewage collection services.

(v) Second Amendment to the GESP Agreement

On December 28, 2007, the Company and the State of São Paulo, intermediated by the Secretary of Treasury, signed the second amendment to the terms of the original GESP agreement, agreeing upon the payment in installments of the remaining balance of the First Amendment, amounting R\$ 133,709 at November 30, 2007, to be paid in 60 monthly and consecutive installments of the same amount, beginning on January 02, 2008. The amount of the installments will be monetarily adjusted according to the variation of the IPCA-IBGE, plus interest of 0.5% per month.

The State and SABESP agreed to resume immediately the compliance with their mutual obligations under new assumptions: (a) implementation of an electronic account management system to facilitate and speed up the monitoring of payment processes and budget management procedures; (b) structuring of the Rational Water Use Program (PURA) to rationalize the consumption of water and the amount of the water and sewage bills under the responsibility of the State; (c) establishment, by the State, of criteria for budgeting so as to avoid the reallocation of amounts to a specific water and sewage accounts as from 2008; (d) possibility of registering state bodies and entities in a delinquency system or reference file; (e) possibility of interrupting water supply to state bodies and entities in the case of nonpayment of water and sewage bills.

(vi) Third Amendment to GESP Agreement

On November 17, 2008, GESP, SABESP and DAEE, entered into the Third Amendment to the Term of Agreement of Payment Commitment, and Other Agreements, where the State recognizes to owe SABESP the amount of R\$ 915,251, monetarily adjusted until September, 2008 by the IPCA-IBGE, corresponding to the Uncontroversial Amount, calculated by FIPECAFI. SABESP accepts temporarily the Reservoirs as part of the payment of the Uncontroversial Amount and offers to the State a temporary settlement, constituting a financial credit of R\$ 696,283, corresponding to the value of the Reservoirs. The definitive settlement will only occur with the effective transfer of property in the relevant real estate notary. The Company did not recognize the receivable amount of R\$ 696,283

related to the reservoirs, as it not virtually certain that will be transferred by the State. The remaining balance of R\$ 218,967 is being paid in 114 monthly and consecutive installments, in the amount of R\$ 1,920 each, restated annually by the IPCA/FIPE, added by interests of 0.5% p.m., the first installment became due on November 25, 2008.

SABESP and the Government of the State of São Paulo are working together in order to obtain the legislative authorization in order to make viable the transfer of the Reservoirs to SABESP, overcoming, therefore, the legal uncertainty caused by the Public Civil action is challenging the lack of specific legislation for the transfer of the ownership of the reservoirs.

ITR - Quarterly Information 03/31/2011 CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO

The Third Amendment also provides for the regularization of the monthly flow of benefits. While SABESP is responsible for the monthly payments, the State shall reimburse the Company based on criteria identical to those applied in the calculation of the Uncontroversial Amount. With no longer an impeditive judicial decision, the State will directly assume the monthly payment flow of the portion considered uncontroversial.

(vii) Controversial Amount of Benefits

As mentioned before, on November 17, 2008, the Company and the State executed the Third Amendment to the GESP Agreement, in such occasion the amounts denominated as controversial and uncontroversial were quantified. In this amendment, the efforts to settle what was called the Controversial Amount is represented by the difference between the Uncontroversial Amount and the amount effectively paid by the Company as Benefits of retirement and pension complement provided by Law 4819/58, of original responsibility of the State but paid by SABESP by judicial decision.

By entering into the Third Amendment, it was provided for the reappreciation by the PGE the divergences that caused the controversial amount of the benefits provided by Law 4819/58. At the time, this expectation was based on the PGE's intention to re-appreciate the question and also in the implied right of the Company to the reimbursement, inclusively based on external technical legal opinions.

However, new opinions issued by the PGE and received on September 4 and 22, 2009 and January 4, 2010, denied the reimbursement of the portion previously defined as controversial amount.

Even though the negotiations with the State are still being maintained, it is no longer possible to ensure that the Company will recover the credits related to the Controversial Amount without dispute.

As part of the actions intended to recover the receivables that Management understands as due by the Government of the State, related to the divergences about the reimbursement of the benefits of retirement and pension complement paid by the Company, SABESP: (i) addressed, on March 24, 2010, the message to the Controlling Shareholder, forwarding the office memorandum released by the Collegiate Directors, proposing judicial action to be forwarded to the Arbitration Chamber of Bovespa (Sao Paulo Stock Exchange); (ii) in June, 2010, it forwarded to the Secretary of Finance a proposal for agreement aiming the settlement of the referred controversies. This proposal did not succeed; (iii) on November 9, 2010, it filed a judicial action against the State of Sao Paulo pleading the full reimbursement of the amounts paid as benefits provided by State Law nr. 4819/58 to finalize the discussion between the Company and GESP. Despite the judicial action, the Company will insist in reaching an agreement during the progress of the

judicial action, understanding that a reasonable agreement is better to the company and its shareholders than waiting the end of the judicial demand.

Transitional Tax Regime – RTT

For the purposes of calculation of income tax and social contribution on net income of the years of 2009 and 2008, the Company and its subsidiaries adopted the RTT, which allows the legal entity to eliminate the accounting effects of the Law 11638/07 and the Provisional Measure 449/08, converted into Law 11941/09, by the registers in the fiscal books - LALUR and auxiliary controls, without any changes in the accounting books.

In 2011, the Company also adopted the same tax practices adopted in 2008, 2009 and 2010, since the RTT shall be in force until the enacting of the Law that rules the tax effects of the new accounting standards, seeking the tax neutrality.

In March 31, 2011, the Company had a net actuarial obligation of R\$ 498,932 (Dec/10 – R\$ 487,332) that represents the difference between the present value of the Company’s obligations related to the participants that are employees, retirees and pensioners and the fair value of the related assets, and unrecognized actuarial gains.

The amounts related to lawsuits in the sentence execution stage, recorded in current liabilities, under the caption "Provisions", of R\$ 780,801 (Dec/2010 - R\$ 766,603), and the amounts recorded in non-current liabilities, under the caption "Provisions", of R\$ 699,828 (Dec/2010 - R\$ 693,227). The amount paid in the first quarter of 2011 was R \$ 33,458.

(i) Customers - Approximately 1,590 lawsuits were filed by commercial customers, which claim that their tariffs should be equal to the tariffs of another consumer category, and therefore claim the refund of the amounts collected by SABESP. The Company was granted both favorable and unfavorable final decisions at several courts, and recognized provisions when the likelihood of loss is considered probable.

(ii) Suppliers - Suppliers' claims include lawsuits filed by some building companies alleging an underpayment of monetary adjustments, withholding of amounts related to the understatement of official inflation rates after the Real economic plan, and the economic and financial imbalance of the agreements. These lawsuits are in progress at different courts and a provision is recognized when the likelihood of loss is considered probable.

(iii) Other civil lawsuits - refer mainly to indemnity claims for property damage, pain and suffering, and loss of profits allegedly caused to third parties, filed at different court levels, duly accrued when classified as probable losses.

(iv) Tax lawsuits - the provision for tax contingencies refers mainly to issues related to tax collections challenged due to differences in the interpretation of legislation by the Company's legal counsel, duly accrued when classified as probable losses.

(v) Labor lawsuits - the Company is a party to labor lawsuits, involving issues such as overtime, health hazard premium and hazardous duty premium, prior notice, change of function, salary equalization, and other. Part of the amount involved is in provisional or final execution at various court levels, and thus is classified as a probable loss and accordingly a provision was recognized.

ITR - Quarterly Information 03/31/2011 CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO

(vi) Environmental lawsuits - refer to several administrative proceedings and lawsuits filed by government entities, including Companhia de Tecnologia de Saneamento Ambiental - Cetesb and the São Paulo State Public Prosecution Office for the imposition of fines for environmental damages allegedly caused by the Company. The amounts recognized in provision do not always represent the final amount to be disbursed as indemnity of alleged damages, in view of the current stage in which such lawsuits are and Management's impossibility to reasonably estimate the amounts of future disbursements.

Lawsuits with possible likelihood of loss

The Company is a party to lawsuits and administrative proceedings related to environmental, tax, civil and labor lawsuits, which are considered by its legal counsel as possible losses, and are not recorded in the books. The amount attributed to these lawsuits and proceedings is approximately R\$ 2,420,700 as of March 31, 2011 (Dec/2010 - R\$ 2,297,900).
