and Independent Auditors' Report Review

Report on Review of Quarterly Information

To the Board of Directors and Shareholders

Braskem S.A.

Introduction

We have reviewed the accompanying parent company and consolidated interim accounting information of Braskem S.A., included in the Quarterly Information Form (ITR) for the quarter ended September 30, 2014, comprising the balance sheet as at that date and the statements of operations and comprehensive income for the quarter and nine-month periods then ended, and the statements of changes in equity and cash flows for the nine-month period then ended, and a summary of significant accounting policies and other explanatory information.

Management is responsible for the preparation of the parent company interim accounting information in accordance with the accounting standard CPC 21 - Interim Financial Reporting, of the Brazilian Accounting Pronouncements Committee (CPC), and of the consolidated interim accounting information in accordance with CPC 21 and International Accounting Standard (IAS) 34 - Interim Financial Reporting issued by the International Accounting Standards Board (IASB), as well as the presentation of this information in accordance with the standards issued by the Brazilian Securities Commission (CVM), applicable to the preparation of the Quarterly Information (ITR). Our responsibility is to express a conclusion on this interim accounting information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and International Standards on Reviews of Interim Financial Information (NBC TR 2410 – Review of Interim Financial Information Performed by the Independent Auditor of the Entity and ISRE 2410 – Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less

in scope than an audit conducted in accordance with Brazilian and International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the parent company interim information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying parent company interim accounting information included in the quarterly information referred to above has not been prepared, in all material respects, in accordance with CPC 21 applicable to the preparation of the Quarterly Information, and presented in accordance with the standards issued by the CVM.

Conclusion on the consolidated interim information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim accounting information included in the quarterly information referred to above has not been prepared, in all material respects, in accordance with CPC 21 and IAS 34 applicable to the preparation of the Quarterly Information, and presented in accordance with the standards issued by the CVM.

Other matters

Statements of value added

We have also reviewed the parent company and consolidated statements of value added for the nine-month period ended September 30, 2014. These statements are the responsibility of the Company's management, and are required to be presented in accordance with standards issued by the CVM applicable to the preparation of Quarterly Information (ITR) and are considered supplementary information under IFRS, which do not require the presentation of the statement of value added. These statements have been submitted to the same review procedures described above and, based on our review, nothing has come to our attention that causes us to believe that they have not been prepared, in all material respects, in a manner consistent with the parent company and consolidated interim accounting information taken as a whole.

1. Operations

Braskem S.A. (hereinafter “Parent Company”) is a public corporation headquartered in Camaçari, Bahia (“BA”), which jointly with its subsidiaries (hereinafter “Braskem” or “Company”) is controlled by Odebrecht S.A. (“Odebrecht”), which directly and indirectly holds interests of 50.11% and 38.32% in its voting and total capital, respectively.

(a) Significant corporate and operating events impacting these financial statements

On December 31, 2013, the parent company entered into a share sales agreement with Odebrecht Ambiental (“OA”), through which it sold its interest in the subsidiary Distribuidora de Águas Triunfo S.A. (“DAT”) for R\$315 million, which were received over the course of the second quarter of 2014.

The assets of DAT were shown in the balance sheet of December 31, 2013 as “non-current assets held for sale.” DAT did not register results or hold liabilities in the year ended on December 31, 2013.

On February 3, 2014, the Extraordinary Shareholders’ Meeting of DAT approved the change in its management and consequently the transfer of the management of the operations from Braskem to OA, upon the recognition of a gain of R\$277,338 (Note 24).

Other corporate events of 2013 and which did not produce significant impact on these financial statements were presented in the 2013 annual financial statements of the Company in Note 1(b).

(b) Solvay Indupa

On December 17, 2013, the Parent Company entered into a share purchase agreement (“Agreement”) with Solvay Argentina S.A. (“Solvay Argentina”), by which it committed to acquire, upon fulfillment of certain conditions envisaged in the Agreement (“Acquisition”), 70.59% of the total and voting capital of Solvay Indupa S.A.I.C. (“Solvay Indupa”), at the price of US\$0.085 per share, to be paid on the date of consummation of the acquisition. The acquisition price is based on the Enterprise Value of US\$ 290 million.

Solvay Indupa, which produces PVC and caustic soda, has two integrated production sites located in: (i) Santo André, São Paulo, with the capacity to produce 300 kton of PVC* and 170 kton of caustic soda*; and (ii) Bahía Blanca in the Province of Buenos Aires, with the capacity to produce 240 kton of PVC* and 180 kton of caustic soda*.

In turn, Solvay Indupa holds (i) 99.99% of the voting and total capital of Solvay Indupa do Brasil S.A. (“Indupa Brasil”); and (ii) 58.00% of the voting and total capital of Solalban Energía S.A. (“Solalban”).

On December 18, 2013, Braskem submitted to the Securities and Exchange Commission of Argentina (“CNV”) a proposal to carry out a public tender offer for shares representing 29.41% of the capital of Solvay Indupa traded on the Buenos Aires Stock Exchange, pursuant to applicable legislation. This initial proposal was not fully accepted by CNV, and on February 21, 2014 Braskem submitted a new proposal, which is still under analysis by CNV. Moreover, Braskem also intends to cancel the registration of Solvay Indupa do Brasil with the Securities and Exchange Commission of Brazil (“CVM”).

On June 24, 2014, the General Secretariat of Brazil’s antitrust agency (“CADE”) issued a report challenging the operation, but the report is neither final nor binding, but rather represents the first step in the process of analyzing the transaction. The plenary session of CADE will appraise the process by the end of this year.

(c) Naphtha agreement with Petrobras

On August 29, 2014, Braskem signed a new amendment to the naphtha supply agreement with Petrobras extending its term until the end of February 2015. The current terms of the agreement were maintained and the price will be adjusted retroactively to September 1, 2014, upon the signing of the new agreement.

(d) Net working capital

On September 30, 2014, the Parent Company's net working capital was negative R\$316,542 (in 2013, negative R\$564,412). On the other hand, consolidated net working capital is positive R\$2,273,195 (in 2013, R\$1,402,327). Consolidated numbers are used in the management of working capital, since the Company uses mechanisms to transfer funds between the companies efficiently without jeopardizing the fulfillment of the commitments of each of the entities forming the consolidated statements. For this reason, any analysis of the Parent Company's working capital will not reflect the actual liquidity position of the Company.

(e) Effect of foreign exchange variation

The Company is exposed to foreign exchange variation on the balances and transactions made in currencies other than its functional currencies, particularly in U.S. dollar, such as financial investments, trade accounts receivable, trade payables, borrowings and sales. In addition to the exchange effect of the U.S. dollar in relation to the Brazilian real, Braskem is also exposed to the U.S. dollar through its subsidiaries abroad, particularly those where the functional currency is the euro and the Mexican peso. The balances of assets and liabilities are translated based on the exchange rate at the end of each period, while transactions are based on the effective exchange rate on the date of each operation.

The following table shows the U.S. dollar average and end-of-period exchange rates for the periods in this report:

End of period rate

2. Summary of significant accounting policies

2.1. Basis of preparation

This Quarterly Information should be read together with the financial statements of Braskem as of December 31, 2013, which were prepared and presented in accordance with accounting practices adopted in Brazil, including the pronouncements issued by the Brazilian Accounting Pronouncements Committee (CPC), and in accordance with the International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB).

The preparation of the quarterly information requires the use of certain critical accounting estimates. It also requires the Management of the Company to exercise its judgment in the process of applying its accounting policies. There were no significant changes in the assumptions and judgments made by the Company's management in the use of estimates for the preparation of the Quarterly Information in relation to those used in the December 31, 2013 financial statements.

On September 30, 2014, the Company started to include in its balance sheet the net value, per legal entity, of the amounts related to deferred income and social contribution tax assets and liabilities on its profit, due to due legal right of each entity to offset these amounts. The balance sheet at December 31, 2013 was revised to reflect such adjustment, as shown in Note 2.1.1 (a).

2.1.1 Revised

The financial statements for the periods ended December 31, 2013 and September 30, 2013 were restated as follows:

(a) December 31, 2013 – The balance sheets and respective notes were restated to reflect deferred Income Tax (“IR”) and Social Contribution (“CSLL”) on a net basis.

Notes to the financial statements

at September 30, 2014

All amounts in thousands of reais, unless otherwise stated

2.1.2 Consolidated and parent company quarterly information

The consolidated Quarterly Information was prepared and is being presented in accordance with the pronouncements CPC 21 (R1) and IAS 34 - Interim Financial Reporting, which establish the minimum content for interim financial statements.

The parent company information was prepared and is being presented in accordance with CPC pronouncement.

2.2. Accounting policies

There were no changes in the accounting practices used in the preparation of the Quarterly Information in relation to those presented in the December 31, 2013 financial statements, except as presented in Note 2.2.1.

2.2.1 Deferred income tax and social contribution

Deferred income and social contribution tax assets and liabilities are stated at their net value in the balance sheet when there is a legal right to offset current income and social contribution tax assets and liabilities related to the same legal entity and tax authority.

2.2.2 Transaction costs with debt renegotiation

Costs incurred with debt renegotiation that meet the qualitative and quantitative criteria determined by the standards for reclassification as debt exchange, are deemed transaction costs and amortized through the maturity of the renegotiated debt, as described in Note 12 (a).

2.3. Consolidated quarterly information

The consolidated quarterly information includes the quarterly information of the Parent Company and companies in which it, directly or indirectly, maintains a controlling equity interest or controls the activities, as presented below:

(i) In a meeting held on May 7, 2014, the Board of Directors approved the termination of the long-term incentive plan. The plan had been created in September 2005 and was not based on the Company's shares. Through this plan, members of strategic programs could acquire securities issued by the Company called "Certificates of Investment Units". These securities did not entitle their holder to the status of Braskem shareholder or to any rights or privileges inherent to such status, especially voting and other political rights. The amount paid to terminate the plan was R\$14,002.

(a) Fair value hierarchy

Level 1 – fair value obtained through prices quoted (without adjustments) in active markets for identical assets or liabilities, such as the stock exchange; and

Level 2 – fair value obtained from discounted cash flow models, when the instrument is a forward purchase or sale or a swap contract, or valuation models of option contracts, such as the Black-Scholes model, when the derivative has the characteristics of an option.

(c) Non-derivative liabilities designated for export hedge accounting

On May 1, 2013, Braskem S.A. designated non-derivative financial instrument liabilities, denominated in U.S. dollars, as hedge for the flow of its highly probable future exports.

Certain liabilities that were selected as hedge instruments are protecting dollar-denominated export flows scheduled to occur after the original maturities of these liabilities. For these cases, the Company maintains a strategy to refinance, roll over or swap the liability. The column "Maturity" in the following table already presents the new maturities in

accordance with the hedged flows, considering the refinancing, rollover or swap strategy. If these events do not occur, the exchange variation equivalent to the period for which the hedge ratio was effective will be recorded under shareholders' equity through the export period.

Notes to the financial statements

at September 30, 2014

All amounts in thousands of reais, except where stated otherwise

- (i) Financial assets with no internal or external ratings and approved by the Management of the Company.
- (ii) Investment funds with no internal and external risk assessment whose portfolio is composed of assets from major financial institutions and that comply with Braskem's financial policy.

Braskem's financial policy determines "A-" as the minimum rating for financial investments.

14.3. Sensitivity analysis

Financial instruments, including derivatives, may be subject to changes in their fair value as a result of the variation in commodity prices, foreign exchange rates, interest rates, shares and share indexes, price indexes and other variables. The sensitivity of the derivative and non-derivative financial instruments to these variables are presented below:

(a) Selection of risks

On September 30, 2014, the main risks that can affect the value of Braskem's financial instruments are:

- Brazilian real/U.S. dollar exchange rate;
- U.S. dollar/Mexican peso exchange rate;
- U.S. dollar/Euro exchange rate;
- Libor floating interest rate;

- CDI interest rate; and
- TJLP interest rate.

For the purposes of the risk sensitivity analysis, Braskem presents the exposures to currencies as if they were independent, that is, without reflecting in the exposure to a foreign exchange rate the risks of the variation in other foreign exchange rates that could be directly influenced by it.

(b) Selection of scenarios

(b.1) Probable scenario

The *Market Readout* published by the Central Bank of Brazil on September 26, 2014 was used to create the probable scenario for the U.S. dollar/Brazilian real exchange rate and the CDI interest rate, using the reference date of December 31, 2014.

The *Market Readout* does not publish forecasts for the interest rates Libor and TJLP. Therefore, Braskem considered the expectations for the CDI interest rate for determining the probable scenario for those rates, given their correspondence. The probable scenario for the TJLP is an increase of 0.5% from the current rate of 5%, in line with the size of the government's most recent decisions to increase or decrease the rate, and accompanying the forecast for the cumulative increase in the CDI rate by end-2014 of 0.50%.

Braskem S.A.**Notes to the financial statements****at September 30, 2014****All amounts in thousands of reais, except where stated otherwise****(b.2) Possible and extreme adverse scenarios**

16. Ethylene XXI Project Loan

Braskem Idesa is building a plant in Mexico, called the Ethylene XXI Project and financed under the project finance modality (Note 13). The financing structure follows the ratio of 70% debt (project finance) and 30% from shareholder funds in the form of capital or subordinated debt (loan). Due to the non-controlling shareholder of Braskem Idesa, this loan will be repaid solely with the cash generated by the project.

(d) Realization of deferred income tax and social contribution

In the period ended September 30, 2014, there were no material events or circumstances that indicate any compromise of the realization of these deferred taxes.

(e) Law 12,973 of May 13, 2014

Provisional Presidential Decree 627 of November 11, 2013 was made into Law 12,973 on May 13, 2014, which, among others, revoked the Transitional Tax System (RTT) and included additional measures, notably: (i) changes in the federal tax laws related to income tax (IRPJ) and social contribution (CSLL), PIS/PASEP and COFINS taxes in order to align tax accounting with corporate accounting; (ii) provisions on the calculation of interest on equity; and (ii) considerations on investments valued using the equity accounting method. The provisions in this law are applicable from 2015, except in the event of early adoption in 2014, which is currently being assessed by the Management of the Company.

(a) Petros Plans

In October 2012, the Brazilian Private Pension Plan Superintendence (*PREVIC - Superintendência Nacional de Previdência Complementar*) approved the withdrawal of the sponsorship by Braskem of these plans, which required the payment of the mathematical reserves of the respective beneficiaries and in turn the monetization of the assets of the plans administered by Petros. In view of the unlikelihood of said monetization after almost two years since the approval by PREVIC, the Management of the Company had no alternative but to initiate the necessary procedures to resume sponsorship of the plans. This decision was formalized through a legal instrument, on April 3, 2014, to preserve Braskem's rights. The Company expects the conditions for resumption of sponsorship of the plans to be established in the coming months, based on discussions currently being held with PREVIC and Petros. Only after signing the instrument of cancelation of the withdrawal of sponsorship, and the consequent preparation of actuarial reports, will the company be able to measure and account for these plans as defined benefit plans. The provision maintained by the Company is also measured based on the criteria that adopted after the decision to withdraw sponsorship. In the first quarter, the provision was increased based on the estimated costs of past services (Note 24) and was reclassified to non-current liabilities.

20. Contingencies

The description of the main contingent liabilities of the Company was presented in the 2013 annual financial statements, in Note 28.

(a) Contingencies – Income Tax and Social Contribution (amortization of goodwill)

Braskem has been receiving tax deficiency notices from the Federal Revenue Service of Brazil for deducting expenses with amortization of goodwill originated from the acquisition of equity interests over the course of 2002, when Braskem was established. In September 2014, a new tax deficiency notice was issued by the tax authority in the amount of R\$101,301. Considering the previous notices, the updated amount of this contingency on September 30, 2014 was R\$772,973. Braskem's management considers the chances of loss in the administrative and legal spheres as possible.
