Net Mobile Revenues climbed 3.9% in 4Q17 over 4Q16, due to higher Mobile Services Revenues (+3.8% y-o-y), driven by growing Data and Digital Services Revenue. On the other hand, lower Voice Revenue and the effect of the MTR reduction in February 2017 negatively affected revenue growth. Excluding the regulatory effect, Mobile Services Revenues would have increased +6.7% y-o-y.

Outgoing voice Revenue fell 34.9% from 4Q16, mainly reflecting the migration to data services and data consumption. In addition, the prepaid segment continued to be influenced by lower top-ups

volume in annual comparison, mainly due to macroeconomic conditions, whose improvement has not yet been reflected in the segment.

4

Data and Digital Services Revenue rose 25.0% y-o-y, accounting for 75.0% of Mobile Services Revenue in 4Q17

Data and Digital Services Revenue rose 25.0% in 4Q17 over 4Q16 and continued to be the Company's main source of revenue growth, reflecting our strategy focused on data. This performance was influenced by the upselling of data bundles, particularly in postpaid offers, growth in family plans and a strong upturn of our Digital Services Revenue. In 4Q17, Data and Digital Services revenue increased 12.7 p.p. y-o-y, to 75.0% of Net Mobile Services Revenue.

SMS (P2P Messaging) revenue fell 6.0% y-o-y in 4Q17, reflecting the lower consumption of this service due to its maturity.

Mobile Internet Revenue grew 8.0% y-o-y, accounting for 66.1% of data and Digital Services Revenue in 4Q17. This performance was directly linked to the growth of postpaid data accesses, particularly in 4G plans, which boosted the consumption, and the expansion of the smartphone customer base. In December 2017, 82.7% of our customer base already had smartphones, 3.7 p.p. more than in December 2016.

Digital Services Revenue climbed 133.9% in 4Q17 over 4Q16, mainly due to the inclusion of value-added services in the hybrid and prepaid segments in the third quarter and in the postpaid segment in the fourth quarter of 2017.

Other Services Revenue rose R\$17.0 million over 4Q16, mainly as a result of adjustments of the portfolio related to the adherence to and use of our loyalty program, *Vivo Valoriza*.

Mobile Handset Revenue increased 7.4% over 4Q16, due to the change in the Company's strategy, placing greater emphasis on handset sales as of 4Q17.

1) Broadband revenue includes residential clients and SMEs.

2) Non-voice revenue includes revenue from Broadband, Corporate Data and IT, Pay TV and Other Services.

Net Revenue from the Fixed Business fell 2.3% y-o-y in 4Q17, impacted by lower Voice Revenue and fixed-to-mobile tariff (VC) and fixed interconnection tariff (TU-RL and TU-RIU) reductions in February 2017, partially offset by the increase in Broadband Revenue. Excluding the negative effect of tariff reductions, Net Fixed Services Revenue would have decrease 1.1%.

Non-Voice Revenue accounted for 60.3% of Fixed Net Revenue in 4Q17

Voice Revenue fell 14.4% y-o-y in 4Q17, mainly due to the maturity of the service and fixed-to-mobile substitution. Excluding VC reductions (-17.7%), voice revenue fell 12.2% y-o-y.

UBB and IPTV Revenues grew 22.4% and 64.6% y-o-y in 4Q17, respectively

Interconnection Revenue decreased 26.2% y-o-y in 4Q17, due to the reduction in TU-RL (-35.3%) and TU-RIU (-50.9%) in February 2017. Excluding this effect, Interconnection Revenue fell 11.4%, due to lower incoming traffic.

Broadband Revenue rose 22.7% in 4Q17 over 4Q16, fueled by the increase in ultra-broadband revenue, which accounted for approximately 60.2% of this line in

the period and grew 22.4% over the previous year, reflecting the Company's efforts to expand the base and client migration to higher speeds, fueling fiber accesses, whose ARPU is higher, as well as the expansion of the FTTH network to 16 new municipalities in 2017.

Corporate Data and IT revenue dropped 4.4% y-o-y in 4Q17, due to the volatility arising from the negotiation of major wholesale contracts and agreements with large companies.

Pay TV Revenue fell 2.7% y-o-y in 4Q17. The Company continued with its selective strategy for this service, focusing on higher-value products, such as IPTV, whose revenue grew 64.6% y-o-y, in order to improve customer experience and increase profitability.
