**Item 2.05 Costs Associated with Exit or Disposal Activities.**

On March 2, 2007, Fremont General Corporation (the "Company") announced that it intends to sell or exit its sub-prime residential real estate loan origination operations conducted by its wholly-owned industrial bank, Fremont Investment & Loan (FIL). In light of recent legislative and regulatory events, as well as changing competitive dynamics in the sub-prime residential real estate loan market, management and the board of directors have entered into discussions with various third parties regarding the sale of this business. To assist in the identification and evaluation of its alternatives, the Company has retained Credit Suisse Securities LLC as its financial advisor. No agreement has yet been reached regarding the sale of this business and there is no assurance that the Company will be able to enter into any transaction involving its sub-prime residential real estate loan origination operations. The Company intends to continue to originate commercial real estate loans, as well as maintain its retail deposit franchise and its residential real estate loan servicing operation.

Because the Company has not committed to any specific alternative, it is unable to estimate (i) the total amount or range of amounts of costs expected to be incurred in connection with the exit from the sub-prime loan origination operations, or (ii) the total amount or range of amounts of the charge that will result in future cash expenditures, if any, that might be required in connection with selling or exiting its sub-prime loan origination operations.

**Item 2.06 Material Impairments.**

See the discussion above under "Item 2.05. Costs Associated with Exit or Disposal Activities."
