Item 2.02 Results of Operations and Financial Condition.

On April 21, 2008, Ferro Corporation (the Company) issued a press release announcing updated estimates for sales and earnings per share for the first three months of 2008. The Company now expects sales for the quarter of approximately \$600 million compared with a previously announced estimate of \$550 million to \$575 million. Furthermore, the Company now expects earnings to be in the range of 16 to 18 cents per share, including 10 cents in special charges.

The increased sales are due to better than expected sales volume, product pricing actions and favorable changes in foreign exchange rates. The improved earnings outlook is primarily the result of better than forecasted results from the Company's Inorganic Specialties Group and lower than anticipated selling, general and administrative expenses.

The Company will provide details of its first-quarter 2008 financial results in a press release and conference call on Wednesday, May 7, 2008. Detailed instructions for accessing the conference call will be announced shortly.

A copy of the press release is attached, hereto, as Exhibit 99.1

Item 9.01 Financial Statements and Exhibits.
