HPEV, INC.
(a Nevada Corporation)
Notes to the Condensed Consolidated Financial Statements
June 30, 2013
(Unaudited and Unreviewed)

The accompanying condensed consolidated financial statements of HPEV, Inc. (“HPEV” or the “Company”) are unaudited and unreviewed, but in the opinion of management, reflect all adjustments (consisting only of normal recurring adjustments) necessary to fairly state the Company’s financial position, results of operations, and cash flows as of and for the dates and periods presented. The financial statements of the Company are prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information.

These unaudited and unreviewed condensed consolidated financial statements should be read in conjunction with the Company’s audited financial statements and footnotes included in the Company’s Annual Report on Form 10-K for the twelve months ended December 31, 2012, filed with the Securities and Exchange Commission (the “Commission”). The results of operations for the three and six months ended June 30, 2013 are not necessarily indicative of the results that may be expected for the entire year ending December 31, 2013 or for any future period.

NOTE 1 – DESCRIPTION OF BUSINESS

HPEV, Inc., a Nevada corporation (formerly known as Bibb Corporation and Z3 Enterprises) (hereinafter referred to as “HPEV” or “The Company”), was incorporated in the State of Nevada on July 22, 2002.

The Company’s principal operations were to produce fully integrated multi-media products targeting the marginally literate. The Company changed its focus to educational entertainment and reality show programming; feature films and special event marketing upon entering into a Joint Venture Agreement (the “Joint Venture Agreement”) with Phoenix Productions and Entertainment Group (PPEG) in September 2010.

From September 2010 through March 2011, Z3E pursued business opportunities, but agreements were never fulfilled and the entertainment projects have been terminated.

On March 24, 2011, Z3 Enterprises entered into a Share Exchange Agreement to acquire 100 shares, constituting all of the issued and outstanding shares of HPEV Inc. (“HPEV”) in consideration for the issuance of 22,000,000 shares of Z3E common stock. Upon closing of the Share Exchange on April 15, 2011, HPEV became a wholly owned subsidiary of Z3.

The terms of the Share Exchange Agreement required the current board of directors of Z3E (the “Board”) to designate Quentin Ponder and Timothy Hassett as directors of Z3E, as well as two other directors to be named later by HPEV.

On April 5, 2012, the Company amended its Articles of Incorporation to change its name from Z3 Enterprises, Inc. to HPEV, Inc. On the same date, the board appointed Timothy Hassett as Chief Executive Officer, Quentin Ponder as Chief Financial Officer (he remains Treasurer), Theodore Banzhaf as President and Judson Bibb as Vice President (he remains Secretary).

On April 6, 2012, the Board of Directors amended the bylaws. Specifically, they voted to increase the number of directors, to enable the filling of vacancies on the board of directors by majority vote of the remaining directors or director and to appoint Timothy Hassett and Quentin Ponder to serve as Chairman of the Board and Vice Chairman, respectively.

HPEV, INC.
(a Nevada Corporation)
Notes to the Condensed Consolidated Financial Statements
June 30, 2013
(Unaudited and Unreviewed)

Control of Z3E changed hands on April 15, 2011 with the issuance of 21,880,000 shares of Z3E common stock to the original shareholders of HPEV pursuant to the terms of the as amended Share Exchange Agreement. An additional 120,000 shares were issued on December 14, 2011 which completed the issuance of 22,000,000 shares of Z3E common stock to HPEV, Inc. under the terms of the as amended Share Exchange Agreement.

For accounting purposes, the acquisition of HPEV, Inc. by Z3 Enterprises, Inc. has been recorded as a reverse acquisition of a public company and recapitalization of Z3 Enterprises, Inc. based on factors demonstrating that HPEV represents the accounting acquirer.

HPEV was incorporated under the laws of the State of Delaware on March 25, 2011 to commercialize the technology from patents developed by two of its shareholders. Activities during its start-up stage were nominal.

Subsequent to the closing of the Share Exchange, Z3E changed its business focus to attempting to commercialize the HPEV technologies in a variety of markets by licensing its heat pipe technologies to electric motor, generator and vehicle component manufacturers. The Company also plans to license its hybrid conversion system to fleet owners and service centers

Effective April 23, 2012, the Financial Industry Regulatory Authority (“FINRA”) approved the Company’s name change and the symbol change from BIBB to WARM.

Pursuant to the Securities Purchase Agreement with Spirit Bear Limited, (See Note 5), Jay Palmer and Carrie Dwyer were appointed to our board of directors effective February 20, 2013 and Donica Holt was appointed to our board of directors on March 7, 2013.

On May 5, 2011, a total of 7 patents (1 granted, 6 pending) were assigned to HPEV by Thermal Motors Innovations, LLC, a company controlled by the developers of the patents. Since then, additional patents have been awarded and filed. Therefore, as of August 15, 2013, our subsidiary, HPEV, owns the rights to five patents, and five patent-applications pending with two remaining to be assigned. See Note 7 – Intellectual Property.

The patents and patents-pending owned by HPEV cover composite heat pipes and their applications, a parallel power platform and a parallel power gearing system. The utilization of composite heat pipes should increase the horsepower of electric motors and enhance the lifespan and effectiveness of heat-producing vehicle components. The parallel power platform enables vehicles to alternate between two sources of power and forms the basis of the electric load assist delivered to the engine. The parallel power input gearing unit enables vehicles run an on-board generator to deliver mobile electric power.

The Company intends to license heat pipe technology to manufacturers of electric motors and generators as well as vehicle parts such as brakes, resistors and calipers. It also plans to commercialize the patents by implementing and licensing a plug-in hybrid electric vehicle conversion system based on the parallel vehicle platform.

The Company is currently sourcing or commissioning the components to perform its initial conversion. The conversion, if successful, will be used to showcase the effectiveness of the technology, generate data and function as a marketing tool to generate orders. The target markets include commercial and fleet vehicles ranging from heavy duty

pick-ups to tractor-trailer trucks and buses.

HPEV, INC.

Notes to the Condensed Consolidated Financial Statements
June 30, 2013
(Unaudited and Unreviewed)

The parallel power input gearing unit forms the basis of the Company's Mobile Generator (MG) system. The Company is currently negotiating with a number of fleet owners and manufacturers to install the MG system into their work vehicles.

To facilitate the incorporation of the Company's heat pipe technology in industrial electric motors and generators, the Company has signed product development agreements with two multi-national manufacturers.

To prove the effectiveness of heat pipe technology under extreme conditions, the Company has signed agreements with racing teams to test its technology in high performance vehicle components.

As operations have consisted of general administrative and pre-production activities, HPEV, Inc. is considered a development stage company in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 915.

On December 9, 2011, Z3E and PPEG mutually agreed to dissolve their Joint Venture Agreement. The reason was due to a change in business direction by Z3 as a result of its acquisition of HPEV, Inc. The Joint Venture Agreement did not provide for any termination penalties.

NOTE 2 - GOING CONCERN

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates the recoverability of assets and the satisfaction of liabilities in the normal course of business. The Company incurred net losses of approximately \$6,780,794 during the period from March 24, 2011 (Date of Inception) through June 30, 2013 and has not fully commenced its operations. The Company is still in the development stages, raising substantial doubt about the Company's ability to continue as a going concern. The Company's ability to continue as a going concern is dependent upon its ability to generate future profitable operations and/or to obtain the necessary financing from shareholders or other sources to meet its obligations and repay its liabilities arising from normal business operations when they come due. At this time, the Company is seeking additional sources of capital through the issuance of debt, equity, or joint venture agreements, but there can be no assurance the Company will be successful in accomplishing its objectives.

These financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts, or amounts and classification of liabilities that might result from this uncertainty.

It is possible management may decide that the Company cannot continue with its business operations as outlined in the current business plan because of a lack of financial resources and may be forced to seek other potential business opportunities that may be available.

NOTE 3 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies of HPEV, Inc. is presented to assist in understanding the Company's condensed financial statements. The condensed, consolidated financial statements and notes are representations of the Company's management, who are responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America, and have been consistently applied in the preparation of the condensed financial statements.

Accounting Method

The Company's condensed financial statements are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Principles of Consolidation

These consolidated financial statements include the accounts of the subsidiary HPEV and its parent HPEV (formerly known as Z3 Enterprises). On April 20, 2012, the Company officially changed its name to HPEV, Inc.

All significant inter-company transactions and balances have been eliminated.

Year end

The Company's year-end is December 31.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Company considers all highly liquid investments and short-term debt instruments with original maturities of three months or less to be cash equivalents.

Revenue Recognition

The Company recognizes revenue on arrangements in accordance with Securities and Exchange Commission Staff Accounting Bulletin No. 101, "Revenue Recognition in Financial Statements" and No. 104, "Revenue Recognition". In all cases, revenue is recognized only when the price is fixed or determinable, persuasive evidence of an arrangement exists, the service is performed and collectability is reasonably assured. For the periods ended June 30, 2013 and 2012, and for the period from inception to June 30, 2013, the Company did not report any revenues.

Earnings Per Share

The Company has adopted the Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC") 260-10 which provides for calculation of "basic" and "diluted" earnings per share. Basic earnings per share includes no dilution and is computed by dividing net income or loss available to common stockholders by the weighted average common shares outstanding for the period. Diluted earnings per share reflect the potential dilution

of securities that could share in the earnings of an entity. Basic and diluted losses per share were the same at the reporting dates as there were no common stock equivalents outstanding at June 30, 2013 and 2012 and the inclusion would be considered anti-dilutive.

Fair Value of Financial Instruments

The fair value of the Company's assets and liabilities, which qualify as financial instruments under Financial Accounting Standards Board (FASB) guidance regarding disclosures about fair value of financial instruments, approximate the carrying amounts presented in the accompanying consolidated balance sheets.

Effective January 1, 2008, the Company adopted Statement of Financial Accounting Standards ("SFAS") No. 157 Fair Value Measurements ("SFAS 157"), superseded by ASC 820-10, which defines fair value, establishes a framework for measuring fair value and expands required disclosure about fair value measurements of assets and liabilities. The impact of adopting ASC 820-10 was not significant to the Company's condensed financial statements. ASC 820-10 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820-10 also establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1 – Valuation based on quoted market prices in active markets for identical assets or liabilities.

Level 2 – Valuation based on quoted market prices for similar assets and liabilities in active markets.

Level 3 – Valuation based on unobservable inputs that are supported by little or no market activity, therefore requiring management's best estimate of what market participants would use as fair value.

In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety. Our assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability. The valuation of our derivative liability is determined using Level 1 inputs, which consider (i) time value, (ii) current market and (iii) contractual prices.

Fair value estimates discussed herein are based upon certain market assumptions and pertinent information available to management as of June 30, 2013 and 2012. The respective carrying value of certain on-balance-sheet financial instruments approximated their fair values due to the short-term nature of these instruments. These financial instruments include cash, accounts payable and accrued expenses, loan payable and notes payable – related party.

Income Taxes

The Company provides for federal and state income taxes payable, as well as for those deferred because of the timing differences between reporting income and expenses for financial statement purposes versus tax purposes. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the carrying amount of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Deferred tax assets and liabilities are measured using the enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recoverable or settled. The effect of a change in tax rates is recognized as income or expense in the period of the change. A valuation allowance is established, when necessary, to reduce deferred income tax assets to the amount that is more likely than not to be realized.

Upon inception, the Company adopted the provisions of FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes ("FIN 48"), superseded by ASC 740-10. The Company did not recognize a liability as a result of the implementation of ASC 740-10. A reconciliation of the beginning and ending amount of unrecognized tax benefits has not been provided since there is no unrecognized benefit as of the date of adoption. The Company did not recognize interest expense or penalties as a result of the implementation of ASC 740-10. If there were an unrecognized tax benefit, the Company would recognize interest related to unrecognized tax benefits in interest expense and penalties in other operating expenses.

Management believes the Company will have a net operating loss carryover to be used for future years. Such losses may not be fully deductible due to the significant amounts of non-cash service costs as well as restrictions on carryovers resulting from reverse mergers. The Company has established a valuation allowance for the full tax benefit of the applicable operating loss carryovers.

Current tax laws limit the amount of loss available to be offset against future taxable income when a substantial change in ownership occurs. Therefore, the amount available to offset future taxable income may be limited.

Employee Stock Based Compensation

The FASB issued SFAS No.123 (revised 2004), Share-Based Payment, which was superseded by ASC 718-10. ASC 718-10 provides investors and other users of financial statements with more complete and neutral financial information, by requiring that the compensation cost relating to share-based payment transactions be recognized in financial statements. That cost will be measured based on the fair value of the equity or liability instruments issued. ASC 718-10 covers a wide range of share-based compensation arrangements, including share options, restricted share plans, performance-based awards, share appreciation rights and employee share purchase plans. As of June 30, 2013, the Company has not implemented an employee stock based compensation plan.

Non-Employee Stock Based Compensation

The Company accounts for stock based compensation awards issued to non-employees for services, as prescribed by ASC 718-10, at either the fair value of the services rendered or the instruments issued in exchange for such services, whichever is more readily determinable, using the measurement date guidelines enumerated in EITF 96-18,

Accounting for Equity Instruments That Are Issued to Other Than Employees for Acquiring, or in Conjunction with Selling, Goods or Services, which was superseded by ASC 505-50. The Company issues compensatory shares for services including, but not limited to, executive, management, accounting, operations, corporate communication, financial and administrative consulting services.

NOTE 5 – CAPITAL STOCK

Preferred Stock

The Company has 15,000,000 preferred shares authorized and 200, issued and outstanding as of June 30, 2013.

On December 14, 2012, the Company entered into a Securities Purchase Agreement with Spirit Bear Limited (“Spirit Bear”) pursuant to which it sold to Spirit Bear 200 shares of the Company’s Series A Convertible Preferred Stock. Each share of the Preferred Stock is convertible into 20,000 shares of Company’s common stock and, under certain circumstances, the Preferred Stock is convertible into Senior Convertible Notes. The Conversion Price of the Preferred Stock is equal to the \$2,500.

In addition to the preferred stock, the Securities Purchase Agreement included warrants to purchase (i) 2,000,000 shares of the Company’s common stock at an exercise price of \$0.35 per share (subject to adjustment as provided in the warrant); (ii) 2,000,000 shares of the Company’s common stock at an exercise price of \$.50 per share (subject to adjustment as provided in the warrant); (iii) 2,000,000 shares of the Company’s common stock at an exercise of \$.75 per share (subject to adjustment as provided in the warrant). The purchase price for sale of the preferred stock and warrants was \$500,000, of which \$313,777.62 was paid in cash and \$186,222.38 was paid by cancelation of \$186,222.38 in outstanding indebtedness held by the Purchaser.

The Company and the Purchaser also entered into a Registration Rights Agreement, dated December 14, 2012. Pursuant to the Registration Rights Agreement, the Company shall file a registration statement to register the shares issuable upon conversion of the Preferred Stock and the Debenture (described below) and the shares issuable upon the exercise of the Warrants. If the Registration Statement was not filed within thirty days of the Closing Date, then the number of Warrant Shares would be increased by 500,000 to 6,500,000. If the Securities and Exchange Commission had not declared the Registration Statement effective within 120 days of the Closing Date, then the Company would have to pay to each holder of Preferred Shares an amount in cash per Preferred Share held equal to the product of (i) \$5,000 multiplied by (ii) the product of (A) .02 multiplied by (B) the number of months after the Effectiveness Deadline that the Registration Statement is not declared effective by the SEC.

In connection with the sale of the Preferred Stock, on December 17, 2012, the Company filed with the Secretary of State of the State of Nevada a Certificate of Designations of the Rights, Preferences, Privileges and Restrictions, which have not been set forth in the Certificate of Incorporation of the Series A Convertible Preferred Stock (the “Certificate of Designations”).

The Preferred Stock has rights as if each share of Series A Convertible Preferred Stock were converted into twenty thousand (20,000) shares of Common Stock.

The holders of each share of Preferred Stock then outstanding shall be entitled to be paid, out of the Available Funds and Assets (as defined in the "Certificate of Designations"), and prior and in preference to any payment or distribution (or any setting apart of any payment or distribution) of any Available Funds and Assets (as defined in the "Certificate of Designations") on any shares of Common Stock, an amount per share equal to the Liquidation Price (\$2,500 per share of the Preferred Stock) of the Series A Convertible Preferred Stock.

In the event a Registration Statement has not been declared effective by the United States Securities Exchange Commission within 180 calendar days from and after the Closing Date, the holders of at least two-thirds (2/3) of the then outstanding shares of Series A Convertible Preferred Stock may deliver a written notice to the Company electing the conversion of all Series A Convertible Preferred Stock to Debentures. Upon receipt of such notice, the outstanding shares of Series A Convertible Preferred Stock shall be converted to Debentures and as a result the Company would issue Debentures having a principal amount of up to \$1,000,000.

The warrants may be exercised on a cashless basis in which the holder may be entitled to obtain a certificate of shares of the Company's common stock equal to the quotient obtained by dividing [(A-B) (X)] by (A), where:

(A) = the average of the daily VWAPs for the three (3) Trading Days immediately preceding the date of such election;

(B) = the Exercise Price of this Warrant, as adjusted; and

(X) = the number of Warrant Shares issuable upon exercise of this Warrant in accordance with the terms of this Warrant by means of a cash exercise rather than a cashless exercise.

Pursuant to the Securities Purchase Agreement, the Company may sell the Purchaser up to 200 additional shares of Preferred Stock and warrants to purchase up to 6,000,000 shares of the Company's common stock. The Company shall have the option to require Purchaser to purchase up to these additional Two Hundred (200) Preferred Shares and associated Warrants at a Subsequent Closing in the event that written certification ("Certification Notice") shall have been received by the Company from a federally licensed testing facility reasonably acceptable to Purchaser, evidencing that four (4) motors incorporating the Company's technology have been comprehensively tested in accordance with applicable NEMA, ANSI and IEEE standards and that the results of these tests meet or exceed the minimum requirements for certification under those standards; that those same four (4) motors incorporating the Company's technology have passed tests with respect to (i) IEEE 112 in Methods E, E1, F or F1 with a maximum horsepower of 4,000 for F or F1, (ii) sound pressure testing to IEEE 85 and NEMA MG1 20 standards, (iii) bearing temperature testing, (iv) speed versus torque/current testing, (v) polarization index testing per IEEE 45 standards, and (vi) IEEE 112 Method B for full efficiency; and that testing evidences an improvement in power density of at least Twelve Percent (12.00%) compared to the same motor not incorporating HPEV technology. In the event the Company shall not have received the Certification Notice within one hundred eighty (180) calendar days after the date of the initial Closing Date, Purchaser shall have a twelve (12) month option, exercisable during such period at its sole discretion by delivery of written notice to the Company, to purchase the additional Two Hundred (200) Preferred Shares and associated Warrants in a Subsequent Closing to be held within seven (7) days of such notice.

In connection with the sale of the Preferred Stock and Warrants, the Company and the Purchaser entered into a Patent and Securities Agreement. Pursuant to the Patent and Security Agreement, the Company may, under certain circumstances, grant to the Purchaser a security interest in certain patents set forth in the Patent and Security Agreement.

Pursuant to the Securities Purchase Agreement (the "SPA") with Spirit Bear Limited ("Spirit Bear"), the agreement stipulated several covenants which were to occur prior to closing. The Company's Board of Directors, irrespective of the number of members, for three years after closing has to be composed of an even number of members of which at least 50% shall be designated by Spirit Bear. Additionally, the Bylaws were to be amended as agreed upon in the SPA. As of December 31, 2012 these items stated above had not yet been delivered in part because Spirit Bear had designated two of their three allotted nominees as of such date.

On February 6, 2013, the Company received a letter from Spirit Bear which stated that the Company was in default of the Stock Purchase Agreement. According to Spirit Bear, the Company had not acted promptly to make 50% of the board of directors Spirit Bear designees. In addition, Spirit Bear stated that the company had not amended its bylaws with respect to Special Meetings and Meeting Adjournments nor had it provided a certified copy of its Articles of Incorporation within 10 days of the closing of the Stock Purchase Agreement. Pursuant to the Securities Purchase Agreement with Spirit Bear Limited, ("Spirit Bear"), the bylaws relating to Special Meetings and Meeting Adjournments were amended verbatim with what was required in the agreement effective February 20, 2013. Jay Palmer and Carrie Dwyer were appointed to the board of directors on the same date and Donica Holt was appointed to the board of directors on March 7, 2013.

On February 20, 2013, the Board of Directors voted to decrease the milestone prices of the five options to purchase one million shares that would be granted to the President, Mr. Banzhaf, assuming the respective milestone prices are achieved. The milestone stock prices were reduced to \$2.00, \$3.00, \$4.00, \$4.50 and \$5.00 for 20 consecutive trading days each. These milestone stock prices have been changed from \$2.00, \$3.00, \$5.00, \$7.50 and \$10.00. Once the stock has traded at or above these prices for 20 consecutive trading days, Mr. Banzhaf has the right to exercise an option to purchase 1,000,000 shares of common stock at the closing price on the first day after the stock has traded for 20 consecutive days at or above each milestone stock price. These options expire one year after Mr. Banzhaf has been terminated without cause.

The board also granted Judson Bibb an option to purchase 2,000,000 shares of the Company's common stock, at a purchase price of par value or \$0.001 per share. The options expire one year after Mr. Bibb has been terminated without cause. The options can be exercised on a cashless basis.

Despite electing two new board members at the first board meeting subsequent to the date the SPA was closed, the Company received another letter from counsel to Spirit Bear on March 7, 2013 indicating that the Company was still in default of its obligations under the SPA and the compensation authorized by the Board on February 20, 2013 (as disclosed in the Current Report on Form 8-K filed February 26, 2013) was self-dealing and resulted in the anti-dilution provision provided for in the SPA.

On March 21, 2013, the Company and Judson Bibb signed an agreement rescinding the options granted.

On March 24, 2013, the Company and Ted Banzhaf signed an agreement rescinding the decrease in the milestone price of the five options to purchase one million shares as well as the cashless exercise thereof awarded to the President.

On April 12, 2013, the Company and Spirit Bear Limited reached agreement regarding the settlement of allegations that the Company did not perform certain obligations pursuant to the Securities Purchase Agreement dated December 14, 2012 with Spirit Bear, and with respect to certain actions taken by the Company with respect to providing compensation to its management. Spirit Bear agreed to discharge the Company from all claims Spirit Bear may have had as well as to forgo all actions of any kind related to those claims which existed on or prior to April 12, 2013. Both parties also agreed that the signing of the agreement did not constitute an admission of wrongdoing or liability.

To satisfy the allegations, the Company and Spirit Bear agreed to amend the Certificate of Designation to provide that each share of Series A Convertible Preferred Stock can be converted into 50,000 shares of common stock and have the voting rights equal to 50,000 shares.

The Company and Spirit Bear also agreed to change the terms of the option provided to Spirit Bear in the Securities Purchase Agreement. The new language provides that the Company can sell up to 200 additional preferred shares and warrants to Spirit Bear or other qualified investors designated by Spirit Bear, if before December 14, 2013, the Company's technology incorporated in (i) three motors or alternators or (ii) two motors and one auxiliary mobile power system is comprehensively tested in accordance with applicable standards and the results of those tests meet or exceed minimum requirements for certification under those standards. If the milestones are not met prior to such date, Spirit Bear retains its right to purchase 200 additional preferred shares and warrants until December 14, 2014.

On June 24, 2013, as contemplated by the Settlement Agreement, an Amendment to the Certificate of Designation was filed with the Secretary of State of the State of Nevada. The amendment effectuated the change (i) to the conversion rate of each share of Series A Preferred Stock from being convertible at the rate of 20,000 shares to 50,000 shares of common stock and (ii) to the voting right of each share of Series A Preferred Stock from 20,000 shares to 50,000 shares of the common stock. There are currently 200 shares of Series A Preferred Stock issued and outstanding, all which are held by Spirit Bear Limited and its assignees.

The Company and the holders of the Series A Preferred Stock also amended the bylaws of the Company to provide that the Board shall, irrespective of the number of members, at all times be composed of an even number of members of which at least 50% shall be individuals designated by Spirit Bear. If Spirit Bear does not respond to a written request to designate one or more nominees to the Board within 10 days, this right shall no longer have any effect until the number of directors of the Board shall change thereafter (whether by resignation, appointment, removal or otherwise). This right survives until the earlier of December 14, 2015 and the date that Spirit Bear ceases to be an affiliate of the Company.

NOTE 7 – RELATED PARTY TRANSACTIONS

As a consequence of the reverse merger, HPEV took over the obligations of Z3E consisting of accounts payable of \$11,637 (non-related party) and a note payable balance of \$313,687 due to Phoenix Productions and Entertainment Group, Inc., a significant shareholder of the Company's common stock. The terms of the loan agreement do not require payment of interest and repayment of the loan is to begin 15 days after receipt of initial revenues related to projects funded by PPEG loans. Maturity of the loan is perpetual or upon mutual agreement of both parties or if conditions are breached or default.

Subsequent to the reverse merger, Phoenix Productions and Entertainment Group, Inc. made loans to the Company of \$598,207 leaving a balance due as of December 11, 2012 of \$911,894. On that date, the Company signed a debt settlement agreement and the loan was forgiven. (See Note 5).

Beginning on January 15, 2013, compensations of (i) \$13,500 per month for Timothy Hassett, the Chairman and Chief Executive Officer, (ii) \$10,000 per month for Quentin Ponder, the Chief Financial Officer and Treasurer, (iii) \$12,500 per month for Theodore Banzhaf, the President, (iv) \$14,500 per month for a still undesignated Chief Technical Officer and (v) \$8,000 per month for Judson Bibb, the Vice-President and Secretary began to accrue.

With the exception of \$70,000 in accrued consulting fee forgiven by two officers on December 17, 2012, the accruals for all unpaid consulting fees dating back to May 2012 are reflected in the Consolidated Balance Sheets under "Short term loans - related party".

During the period from inception (March 24, 2011) to June 30, 2013, Judson Bibb, Director, advanced \$22,910 in interest free, unsecured, due on demand funds. Spirit Bear agreed to discharge the Company from all claims Spirit Bear may have had as well as to forgo all actions of any kind related to those claims which existed on or prior to April 12, 2013. Both parties also agreed that the signing of the agreement did not constitute an admission of wrongdoing or liability.

To satisfy the allegations, the Company and Spirit Bear agreed to amend the Certificate of Designation to provide that each share of Series A Convertible Preferred Stock can be converted into 50,000 shares of common stock and have the voting rights equal to 50,000 shares.

The Company and Spirit Bear also agreed to change the terms of the option provided to Spirit Bear in the Securities Purchase Agreement. The new language provides that the Company can sell up to 200 additional preferred shares and warrants to Spirit Bear or other qualified investors designated by Spirit Bear, if before December 14, 2013, the Company's technology incorporated in (i) three motors or alternators or (ii) two motors and one auxiliary mobile power system is comprehensively tested in accordance with applicable standards and the results of those tests meet or exceed minimum requirements for certification under those standards. If the milestones are not met prior to such date, Spirit Bear retains its right to purchase 200 additional preferred shares and warrants until December 14, 2014.

On June 24, 2013, as contemplated by the Settlement Agreement, an Amendment to the Certificate of Designation was filed with the Secretary of State of the State of Nevada. The amendment effectuated the change (i) to the conversion rate of each share of Series A Preferred Stock from being convertible at the rate of 20,000 shares to 50,000 shares of common stock and (ii) to the voting right of each share of Series A Preferred Stock from 20,000 shares to 50,000 shares of the common stock. There are currently 200 shares of Series A Preferred Stock issued and outstanding, all which are held by Spirit Bear Limited and its assignees.

The Company and the holders of the Series A Preferred Stock also amended the bylaws of the Company to provide that the Board shall, irrespective of the number of members, at all times be composed of an even number of members of which at least 50% shall be individuals designated by Spirit Bear. If Spirit Bear does not respond to a written request to designate one or more nominees to the Board within 10 days, this right shall no longer have any effect until the number of directors of the Board shall change thereafter (whether by resignation, appointment, removal or otherwise). This right survives until the earlier of December 14, 2015 and the date that Spirit Bear ceases to be an affiliate of the Company.

In connection with the sale of the Preferred Stock, on December 17, 2012, the Company filed with the Secretary of State of the State of Nevada a Certificate of Designations of the Rights, Preferences, Privileges and Restrictions, which have not been set forth in the Certificate of Incorporation of the Series A Convertible Preferred Stock (the "Certificate of Designations").

The Preferred Stock has rights as if each share of Series A Convertible Preferred Stock were converted into twenty thousand (20,000) shares of Common Stock.

The holders of each share of Preferred Stock then outstanding shall be entitled to be paid, out of the Available Funds and Assets (as defined in the "Certificate of Designations"), and prior and in preference to any payment or distribution (or any setting apart of any payment or distribution) of any Available Funds and Assets (as defined in the "Certificate of Designations") on any shares of Common Stock, an amount per share equal to the Liquidation Price (\$2,500 per share of the Preferred Stock) of the Series A Convertible Preferred Stock.

In the event a Registration Statement has not been declared effective by the United States Securities Exchange Commission within 180 calendar days from and after the Closing Date, the holders of at least two-thirds (2/3) of the then outstanding shares of Series A Convertible Preferred Stock may deliver a written notice to the Company electing the conversion of all Series A Convertible Preferred Stock to Debentures. Upon receipt of such notice, the outstanding shares of Series A Convertible Preferred Stock shall be converted to Debentures and as a result the Company would issue Debentures having a principal amount of up to \$1,000,000.

The warrants may be exercised on a cashless basis in which the holder may be entitled to obtain a certificate of shares of the Company's common stock equal to the quotient obtained by dividing [(A-B) (X)] by (A), where:

(A) = the average of the daily VWAPs for the three (3) Trading Days immediately preceding the date of such election;

(B) = the Exercise Price of this Warrant, as adjusted; and

(X) = the number of Warrant Shares issuable upon exercise of this Warrant in accordance with the terms of this Warrant by means of a cash exercise rather than a cashless exercise.

Pursuant to the Securities Purchase Agreement, the Company may sell the Purchaser up to 200 additional shares of Preferred Stock and warrants to purchase up to 6,000,000 shares of the Company's common stock. The Company shall have the option to require Purchaser to purchase up to these additional Two Hundred (200) Preferred Shares and associated Warrants at a Subsequent Closing in the event that written certification ("Certification Notice") shall have been received by the Company from a federally licensed testing facility reasonably acceptable to Purchaser, evidencing that four (4) motors incorporating the Company's technology have been comprehensively tested in accordance with applicable NEMA, ANSI and IEEE standards and that the results of these tests meet or exceed the minimum requirements for certification under those standards; that those same four (4) motors incorporating the Company's technology have passed tests with respect to (i) IEEE 112 in Methods E, E1, F or F1 with a maximum horsepower of 4,000 for F or F1, (ii) sound pressure testing to IEEE 85 and NEMA MG1 20 standards, (iii) bearing temperature testing, (iv) speed versus torque/current testing, (v) polarization index testing per IEEE 45 standards, and (vi) IEEE 112 Method B for full efficiency; and that testing evidences an improvement in power density of at least Twelve Percent (12.00%) compared to the same motor not incorporating HPEV technology. In the event the Company shall not have received the Certification Notice within one hundred eighty (180) calendar days after the date of the initial Closing Date, Purchaser shall have a twelve (12) month option, exercisable during such period at its sole discretion by delivery of written notice to the Company, to purchase the additional Two Hundred (200) Preferred Shares and associated Warrants in a Subsequent Closing to be held within seven (7) days of such notice.

In connection with the sale of the Preferred Stock and Warrants, the Company and the Purchaser entered into a Patent and Securities Agreement. Pursuant to the Patent and Security Agreement, the Company may, under certain circumstances, grant to the Purchaser a security interest in certain patents set forth in the Patent and Security Agreement.

On February 6, 2013, the Company received a letter from Spirit Bear which stated that the Company was in default of the Stock Purchase Agreement. According to Spirit Bear, the Company had not acted promptly to make 50% of the board of directors Spirit Bear designees. In addition, Spirit Bear stated that the company had not amended its bylaws with respect to Special Meetings and Meeting Adjournments nor had it provided a certified copy of its Articles of Incorporation within 10 days of the closing of the Stock Purchase Agreement. Pursuant to the Securities Purchase Agreement with Spirit Bear Limited, (“Spirit Bear”), the bylaws relating to Special Meetings and Meeting Adjournments were amended, effective February 20, 2013, verbatim with what was required in the Stock Purchase Agreement. Jay Palmer and Carrie Dwyer were appointed to the board of directors on the same date and Donica Holt was appointed to the board of directors on March 7, 2013.

On February 20, 2013, the Board of Directors voted to decrease the milestone prices of the five options to purchase one million shares that would be granted to the President, Mr. Banzhaf, assuming the respective milestone prices are achieved. The milestone stock prices were reduced to \$2.00, \$3.00, \$4.00, \$4.50 and \$5.00 for 20 consecutive trading days each. These milestone stock prices have been changed from \$2.00, \$3.00, \$5.00, \$7.50 and \$10.00. Once the stock has traded at or above these prices for 20 consecutive trading days, Mr. Banzhaf has the right to exercise an option to purchase 1,000,000 shares of common stock at the closing price on the first day after the stock has traded for 20 consecutive days at or above each milestone stock price. These options expire one year after Mr. Banzhaf has been terminated without cause.

The board also granted Judson Bibb an option to purchase 2,000,000 shares of the Company’s common stock, at a purchase price of par value or \$0.001 per share. The options expire one year after Mr. Bibb has been terminated without cause. The options can be exercised on a cashless basis.

Despite electing two new board members at the first board meeting subsequent to the date the SPA was closed, the Company received another letter from counsel to Spirit Bear on March 7, 2013 indicating that the Company was still in default of its obligations under the SPA and the compensation authorized by the Board on February 20, 2013 (as disclosed in the Current Report on Form 8-K filed February 26, 2013) was self-dealing and resulted in the anti-dilution provision provided for in the SPA.

On March 21, 2013, the Company and Judson Bibb signed an agreement rescinding the options granted.

On March 24, 2013, the Company and Ted Banzhaf signed an agreement rescinding the decrease in the milestone price of the five options to purchase one million shares as well as the cashless exercise thereof awarded to the President.

On April 12, 2013, the Company and Spirit Bear Limited reached agreement regarding the settlement of allegations that the Company did not perform certain obligations pursuant to the Securities Purchase Agreement dated December 14, 2012 with Spirit Bear, and with respect to certain actions taken by the Company with respect to providing compensation to its management. Spirit Bear agreed to discharge the Company from all claims Spirit Bear may have had as well as to forgo all actions of any kind related to those claims which existed on or prior to April 12, 2013. Both parties also agreed that the signing of the agreement did not constitute an admission of wrongdoing or liability.

To satisfy the allegations, the Company and Spirit Bear agreed to amend the Certificate of Designation to provide that each share of Series A Convertible Preferred Stock can be converted into 50,000 shares of common stock and have the voting rights equal to 50,000 shares.

The Company and Spirit Bear also agreed to change the terms of the option provided to Spirit Bear in the Securities Purchase Agreement. The new language provides that the Company can sell up to 200 additional preferred shares and warrants to Spirit Bear or other qualified investors designated by Spirit Bear, if before December 14, 2013, the Company's technology incorporated in (i) three motors or alternators or (ii) two motors and one auxiliary mobile power system is comprehensively tested in accordance with applicable standards and the results of those tests meet or exceed minimum requirements for certification under those standards. If the milestones are not met prior to such date, Spirit Bear retains its right to purchase 200 additional preferred shares and warrants until December 14, 2014.

On June 24, 2013, an Amendment to the Certificate of Designation of Rights, Preferences, Privileges and Restrictions of the Series A Convertible Preferred Stock (the "Certificate of Designation") issued by the Company was filed with the Secretary of State of the State of Nevada. The amendment effectuated the change (i) to the conversion rate of each share of Series A Convertible Preferred Stock from being convertible at the rate of 20,000 shares of common stock of the Company to 50,000 and (ii) to the voting right of each share of Preferred Stock from 20,000 to 50,000 shares of the common stock of the Company. There are currently 200 shares of the Preferred Stock issued and outstanding, all which are held by Spirit Bear Limited and its assignees.

The amendment to the Certificate of Designation was contemplated as a result of the Settlement Agreement entered into on April 12, 2013 between the Company and Spirit Bear Limited.

On June 24, 2013, the Company and the holders of the Preferred Stock also amended the bylaws of the Company to provide that the Board of Directors of the Company shall, irrespective of the number of members, at all times be composed of an even number of members of which at least 50% shall be individuals designated by Spirit Bear Limited. Such amendment was contemplated by the Securities Purchase Agreement entered into between Spirit Bear Limited and the Company December 14, 2012.

The amendment to the Bylaws provides that Spirit Bear Limited shall have the right to nominate half of the members of the Board, which shall consist of an even number of directors. If Spirit Bear Limited does not respond to a written request to designate one or more nominees to the Board within 10 days, this right shall no longer have any effect until the number of directors of the Board shall change thereafter (whether by resignation, appointment, removal or otherwise). This right survives until the earlier of December 14, 2015 and the date that Spirit Bear Limited ceases to be an affiliate of the corporation.

Pursuant to a letter agreement, dated August 7, 2013, Spirit Bear agreed to waive its rights to purchase an additional 500,000 shares under the warrant exercisable at \$0.35 per share in the event the registration statement's effectiveness was not maintained. If a Post Effective Amendment was filed within three days of the filing of the Form 10-Q.

In connection with the foregoing, the Company relied upon the exemption from securities registration afforded by Rule 506 of Regulation D as promulgated by the United States Securities and Exchange Commission under the Securities Act of 1933, as amended (the "Securities Act") and/or Section 4(2) of the Securities Act. No advertising or

general solicitation was employed in offering the securities. The offerings and sales were made to one investor who is an accredited investor, and transfer was restricted by the Company in accordance with the requirements of the Securities Act.

ITEM Management's Discussion and Analysis of Financial Condition and Results of Operations

2

Our Management's Discussion and Analysis contains not only statements that are historical facts, but also statements that are forward-looking (within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934). Forward-looking statements are, by their very nature, uncertain and risky. These risks and uncertainties include international, national and local general economic and market conditions; demographic changes; our ability to sustain, manage, or forecast growth; our ability to successfully make and integrate acquisitions; raw material costs and availability; new product development and introduction; existing government regulations and changes in, or the failure to comply with, government regulations; adverse publicity; competition; the loss of significant customers or suppliers; fluctuations and difficulty in forecasting operating results; changes in business strategy or development plans; business disruptions; the ability to attract and retain qualified personnel; the ability to protect technology; and other risks that might be detailed from time to time in our filings with the Securities and Exchange Commission.

Although the forward-looking statements in this Quarterly Statement reflect the good faith judgment of our management, such statements can only be based on facts and factors currently known by them. Consequently, and because forward-looking statements are inherently subject to risks and uncertainties, the actual results and outcomes may differ materially from the results and outcomes discussed in the forward-looking statements. You are urged to carefully review and consider the various disclosures made by us in this report and in our other reports as we attempt to advise interested parties of the risks and factors that may affect our business, financial condition, and results of operations and prospects.

The following discussion and analysis of financial condition and results of operations of the Company is based upon, and should be read in conjunction with, its unaudited and unreviewed financial statements and related notes elsewhere in this Form 10-Q, which have been prepared in accordance with accounting principles generally accepted in the United States.

Background

We have not generated any revenues to date. We expect to begin to generate revenues in the last quarter 2013, and anticipate that we will be cash flow positive in the first quarter of 2014.

We have developed and intend to commercialize thermal dispersion technologies in various product platforms, a parallel power input gearbox around which we have designed a mobile auxiliary power system and an electric load assist technology around which we have designed a vehicle retrofit system. In preparation, we have applied for trademarks for some of our technologies and their acronyms including 'Totally Enclosed Heat Pipe Cooled', 'TEHPC', 'Electric Load Assist', 'ELA', 'Mobile Auxiliary Power' and 'MAP'.

We believe that our proprietary technologies, including our patent portfolio and trade secrets, can help increase the efficiency and change the manufacturing cost structure in several large industries beginning with fleet vehicles and the motor/generator industries.

The markets for products utilizing our technology include consumer, industrial and military markets, both in the U.S. and worldwide. Our initial target markets include those involved in moving materials and moving people, such as:

- Motors/Generators,
- Mobile Auxiliary Power
 - Compressors,

Edgar Filing: HPEV, INC. - Form 10-Q

- Turbines (Wind, Micro),
 - Bearings,
- Electric Vehicles: rail, off-highway, mining, delivery, refuse,

- Brakes/rotors/calipers,
 - Pumps/fans,
- Passenger vehicles: auto, bus, train, aircraft,
- Commercial vehicles: SUV, light truck, tram,
- Military: boats, Humvee, truck, aircraft, and
- Marine: boats ranging in size from 30 feet to 120 feet and beyond.

Our Technologies

Our technologies are divided into three distinct but complementary categories: heat dispersion technology, mobile electric power and electric load assist technology.

Heat Dispersion Technology

Heat is an undesirable byproduct of anything that moves, especially motors and generators. Historically, a large percentage of the cost of manufacturing any motor has been in the technology necessary to remove heat during its operation to prevent failure and increase power. Heat can destroy motors, generators and many other types of machinery, and the energy necessary to remove heat can limit output.

Our thermal dispersion technology removes heat via patented heat pipe technologies. Heat pipes have been utilized for more than 50 years, but we have a proprietary process and design technology that makes our heat pipes usable in many applications that have previously not been effective. The key is that our heat pipes move heat in ANY direction in a system that requires little or no maintenance and can be applied to almost any motor, generator or industrial product. This allows for more efficient, smaller, and higher output machines, resulting in cooler motors and a longer operating life.

Our patent portfolio covers the application and integration of our heat pipes into various cooling schemes for enhanced heat removal in motors, generators and numerous other industrial applications including marine, aviation and military. We believe that our technologies have the potential to deliver power output increases and cost reductions, depending on the machine type or motor/generator size, as follows:

1. Increase power density of current motor platforms by 20% to 50%,
2. Reduce total product cost by 12.5% to 25%,
3. Increase motor and generator efficiency by 1% to 2%, and
4. Increase motor and generator life.

We believe that products produced with our technologies have the potential to deliver operational savings as well, including:

1. Savings from reduced maintenance costs,
2. Savings from the standardization of multiple platforms down to a single platform,
3. Savings from the standardization of drawings and data around existing platforms,
4. Savings from the ability to use standard designs and standard insulation systems vs. custom, and
5. Savings from the ability to integrate and produce on existing production lines with no retooling and no additional or minimum capital investment.

Our revenue model for the heat dispersion technology is to license the technology in exchange for royalties.

We have entered into product development and commercialization agreements with manufacturing partners. We anticipate that we will begin to enter into license agreements, subject to successful completion of our initial product development, when the product is ready to be manufactured on the licensee's regular production line, after all development and testing has been completed.

We currently expect to begin to generate revenues from our heat dispersion technology business in the first quarter of 2014.

Mobile Electric Power

A proprietary gearing system the Company developed for our electric load assist (see below) can also be used to power an on-board generator with the result that commercial vehicles no longer need to tow a mobile generator to a work site. Management believes it has uncovered an immediate need for on-board, continuous generation of up to 250 kW of power to remote jobsites as well as the mobile generation of emergency power in the event of an outage or disaster. Consequently, we intend to offer an on-board generator installation kit as a stand-alone (Mobile Generator) and as part of a hybrid conversion (the Ultimate Work Truck).

We currently expect to begin to generate revenues from our heat dispersion technology business in the first quarter of 2014.

Electric Load Assist (ELA) Technology

We have also developed proprietary Electric Load Assist (ELA) technology. The technology is the centerpiece of our vehicle retrofit system (separate and apart from our heat pipe technology and heat dispersion product development partnerships), which also relies on the benefits of heat removal and is protected by patents and patents-pending.

With ELA, a vehicle engine does not have to work as hard, as some of the work that was done by the engine is now performed by an electric motor running in parallel. The vehicle still drives and feels the same, and our ELA controller allows full acceleration and braking control; however, the engine runs much more efficiently and burns significantly less fossil fuel. The ELA controller enables the vehicle operator to determine the amount of load assist during operation, ranging from all-fuel to all-electric. We believe that our ELA system will provide a significant difference and improvement from, and competitive advantage over, current market offerings such as the Toyota Prius. If either the electrical system or the internal combustion engine fails, the ELA vehicle can operate on the remaining system. In current market offerings, if either system fails, the vehicle fails.

Our ELA technology is compatible with any manufacturer as well as any power source, including traditional gasoline/diesel engines, compressed natural gas, batteries and fuel cells. We also believe that our technology will have a wide range of marine, aviation, industrial and military applications.

Initially, our ELA system business will implement a simple version of its technology for on-board mobile auxiliary power and we hope to generate revenue from transport companies and other businesses which own and/or manage fleets of Class 2, 3, 4 and 6 vehicles or light to medium-duty trucks. Our revenue model for the ELA technology will be to license the technology in exchange for royalties based on fuel savings.

We expect to begin to generate revenues from our ELA technology business in the first half of 2014.

The Company also plans to incorporate composite heat pipes in vehicle components which generate heat such as brake calipers, resistors and rotors. The new brake components should be incorporated in the initial conversion vehicle and the Company has granted two racing teams a one-year non-exclusive, revocable license to test its patented cooling

technology's performance in their racing cars.

Going Concern

As a result of our financial condition, we have received a report from our independent registered public accounting firm for our financial statements for the period from March 24, 2011 (Inception) to December 31, 2012 that includes an explanatory paragraph describing the uncertainty as to our ability to continue as a going concern. In order to continue as a going concern we must effectively balance many factors and begin to generate revenue so that we can fund our operations from our sales and revenues. If we are not able to do this, we may not be able to continue as an operating company.

Results of Operations for the Three and Six Months Ended June 30, 2013

We had no revenues for the three month period ended June 30, 2013. Our operating expenses were \$464,018, consisting entirely of consulting fees, professional fees, research and development, and general and administrative expenses as we created proposals and negotiated memoranda of understanding with global manufacturers as well as continued to raise capital to fund operations and secure the machinery necessary to implement the requirements of the memoranda.

We had no revenues for the six month period ended June 30, 2013. Our operating expenses were \$960,222, consisting entirely of consulting fees, professional fees, research and development, and general and administrative expenses as we filed new patents, created proposals and negotiated memoranda of understanding with global manufacturers as well as continued to raise capital to fund operations and secure the machinery necessary to implement the requirements of the memoranda.

Revenues and Net Operating Income (Loss)

Our revenues, operating expenses, and net operating income (loss) for the three months ended June 30, 2013 were as follows:

Research and Development	87,700
General & administrative	144,490

Comparison of Operating Results for the Three Months ended June 30, 2013 and 2012

REVENUE AND OPERATING EXPENSES:

For the three months ended June 30, 2013 and 2012, we had no revenues.

As mentioned above, we have tried to minimize our operating expenses. The expenses for the second quarter of 2013 consisted primarily of payments to independent contractors and general and administrative expenses. For the three months ended June 30, 2013 and 2012, our total operating expenses were \$464,018 and \$890,546, respectively. The majority of the decrease in operating expenses was due to reduced spending on independent contractors and professional fees. On the other hand, general and administrative expenses increased as the Company began to pay consulting fees instead of deferring them as was done in the second quarter of 2012. Our total operating expenses for all of 2012 were \$52,311 which includes a director's stock compensation expense of \$2,650,000 which was rescinded on April 13, 2012.

For the three months ended June 30, 2013, we had a net loss of \$464,018. For the three months ended June 30, 2012, we incurred a net loss of \$1,090,519. Our net loss for 2012 was \$696,357 including the director's stock compensation expense.

Our loss per share during the second quarter of 2013 was nominal. During the second quarter half of 2012, it was nominal and from Inception (March 24, 2011) to December 31, 2012, it was nominal as well.

Comparison of the Operating Results for the Six Months ended June 30, 2013 and 2012

For the six months ended June 30, 2013 and June 30, 2012, we had no revenues.

We incurred total operating expenses (income) of \$960,222 for the six month period ended June 30, 2013, as compared to total operating expenses (income) of (\$992,191) for the six month period ended June 30, 2012.

The increase in net operating loss for 2013 is due primarily to the offset of the director's stock compensation of \$2,650,000 in 2012. The reductions in 2013 of consulting fees as well as research and development of \$317,882 and \$359,431, respectively, was the result of budget tightening and the shift in focus from planning and engineering for our initial hybrid conversion to the incorporation of our thermal technology into electric motors manufactured by two different companies. Otherwise, professional fees decreased by \$157,964 due to new legal representation and the resignation of our auditors whereas general and administrative costs rose by \$137,690 as the company began to pay consulting fees instead of deferring them.

For the six month period ended June 30, 2013, we incurred a net loss of \$960,222 or \$0.02 per share as compared to a net income of \$791,437 (due to the director's stock compensation offset), or \$0.02 per share, for the six month period ended June 30, 2012.

Liquidity and Capital Resources

Introduction

During the three months ended June 30, 2013, because we did not generate any revenues, we had negative operating cash flows. Our cash on hand as of June 30, 2013 was \$49,134, which came primarily from the issuance of notes payable to a related party. Our monthly cash flow burn rate is approximately \$115,000. As a result, we have significant cash needs. We anticipate that these needs will be satisfied through the sale of our securities until such time as our cash flows from operations will satisfy our cash flow needs.

Our cash, current assets, total assets, current liabilities, and total liabilities as of June 30, 2013 and December 31, 2012, respectively, are as follows:

	June 30, 2013 (Unaudited)	December 31, 2012	Change
Cash	\$ 49,134	\$ 194,721	\$ -145,587
Total Current Assets	49,134	568,400	-519,266
Total Assets	143,941	641,982	-498,041
Total Current Liabilities	349,017	263,695	85,322
Total Liabilities	\$ 349,017	\$ 263,695	\$ 85,322

Our cash decreased by \$145,587 as of June 30, 2013 as compared to December 31, 2012 due to the purchases of electric motors. Our total current assets, and total assets, decreased by \$598,266 and \$498,041, respectively, during the same period, partly because of our decrease in cash, but also as a result of prepaid expenses that were reduced to \$0.

Our current liabilities increased by \$85,322 as of June 30, 2013 as compared to December 31, 2012 primarily because of short term loans from a related party of \$162,750. Our total liabilities increased by the same \$85,322 for the same reasons.

In order to repay our obligations in full or in part when due, we will be required to raise significant capital from other sources. There is no assurance, however, that we will be successful in these efforts.

Cash Requirements

Our cash on hand as of June 30, 2013 was \$49,134, which came primarily from the sales of equity securities to accredited investors, and our monthly cash flow burn rate is approximately \$115,000. As a result, we have significant cash needs. We anticipate that these needs will be satisfied through the sale of our securities until such time as our cash flows from operations will satisfy our cash flow needs.

Sources and Uses of Cash

Operations

Our net cash used by operating activities for the six month period ended June 30, 2013 was \$469,046 which consisted of our net loss from operations of \$960,222 and a decrease in accounts payable- related party of \$52,305 offset by financing provided by deferred compensation of \$72,000, stock issued for services of \$373,679 and an increase in accounts payable of \$97,802.

Investments

We had no activity related to cash flows from investing activities.

Financing

Our net cash provided by financing activities for the three month period ended June 30, 2013 was \$350,000, which consisted of proceeds from the sales of equity securities to two accredited investors.

ITEM Quantitative and Qualitative Disclosures About Market Risk

3

As a smaller reporting company, we are not required to provide the information required by this Item.

ITEM Controls and Procedures

4

The Company's management does not expect that its internal controls over financial reporting will prevent all error and all fraud. Control systems, no matter how well conceived and managed, can provide only reasonable assurance that the objectives of the control system are met. The design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake.

Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, control may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

(a) Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of our disclosure controls and procedures, as such term is defined under Rule 13a-15(e) and Rule 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended, as of June 30, 2012. Based on this evaluation, our principal executive officer and principal financial officer have concluded that, based on the material weaknesses discussed below, our disclosure controls and procedures were not effective to ensure that information required to be disclosed by us in reports filed or submitted under the Securities Exchange Act were recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Act Commission's rules and forms and that our disclosure controls are not effectively designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act is accumulated and communicated to management, including our principal executive officer and principal financial officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

(b) Management's Quarterly Report on Internal Control Over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rule 13a-15(f) of the Exchange Act.

Internal control over financial reporting is defined under the Exchange Act as a process designed by, or under the supervision of, our CEO and CFO and effected by our board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles and includes those policies and procedures that:

-- Pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of our assets;

--

Edgar Filing: HPEV, INC. - Form 10-Q

Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors; and

- Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the financial statements.

Because we have only four officers, the Company's internal controls are not effective for the following reasons, (1) there are no entity level controls because of the limited time and abilities of the four officers, and (2) there is no separate audit committee. As a result, the Company's internal controls have an inherent weakness which may increase the risks of errors in financial reporting under current operations and accordingly are not effective as evaluated against the criteria set forth in the Internal Control – Integrated Framework issued by the committee of Sponsoring Organizations of the Treadway Commission. Based on our evaluation, our management concluded that our internal controls over financial reporting were not effective as of June 30, 2013.

Even though there are inherent weaknesses, management has taken steps to minimize the risk. As for bank cash, an outside accountant reconciled the bank accounts and they were found to be accurate. The uses of the infusion of cash from the investments of accredited investors were accounted for by the outside accountant and were appropriate under GAAP. A certified fraud examiner or forensic accountant reviewed the financials and agreed they fairly represented the financial results in the first and second quarters.

(c) Remediation of Material Weaknesses

To remediate the material weakness in our documentation, evaluation and testing of internal controls we hope to engage a third-party firm to assist us in remedying this material weakness. Because of financial restraints, we have not started our remediation as of the date hereof.

(d) Changes in Internal Control over Financial Reporting

There were no changes in our internal controls over the financial reporting during our second quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

ITEM Legal Proceedings

1

On August 16, 2013, the Company received a Demand for Documents and Demand to Cease and Assist from Nevada counsel representing Spirit Bear Limited (“Spirit Bear”) and Mr. Jay Palmer, one of the three directors of the Company who was appointed by Spirit Bear. Such notice requires the Company to provide Mr. Palmer all books and records regarding all equity or debt issued by the Company since January 1, 2013 and an accounting of all compensation disbursed to Company executive officers since such date. Spirit Bear contends that management of the Company issued equity or debt without authority and paid salaries to its officers in violation of its agreements with Spirit Bear and its public filings.

Management of the Company does not consider these allegations to have any validity and intends to vigorously defend these allegations. The board of directors executed a unanimous written consent on February 20, 2013 with very specific milestones to be achieved in connection with the compensation to be accrued and paid to its management team. Although Spirit Bear and its three nominees to the board of the Company had an opportunity to discuss and/or revisit the board authorized compensation prior to the execution of the settlement agreement with Spirit Bear executed on April 12, 2013, said compensation was not part of said settlement. Furthermore, the disclosure provided by the Company in its SEC filings regarding executive compensation has consistently provided the details of the executive compensation approved on February 20, 2013.

Notwithstanding, management has incurred a significant amount of time and effort attempting to resolve this matter with Mr. Palmer, its board member nominated by Spirit bear. Accordingly, management intends to respond to this Demand and consider affirmative actions against Spirit Bear and its nominees to ensure that such situation does not continuously occur, particularly since it seemingly occurs in connection with the preparation of filings necessary to be made by the Company to remain in compliance with its reporting obligations to the SEC.

As a result of the foregoing, the three nominees of Spirit Bear have not approved the filing of this Quarterly Report on Form 10-Q.
