NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
NINE MONTHS ENDED SEPTEMBER 30, 2015 AND 2014**

Note 1 - Basis of Presentation, Organization and Other Matters

Headquartered in Garden City, N.Y., Data Storage Corporation (“DSC” or the “Company”) offers its solutions and services to businesses within the healthcare, banking and finance, distribution services, manufacturing, construction, education, and government sectors.

DSC derives revenues from long term subscription services and professional services related to the implementation of subscription services that provide businesses in the education, government and healthcare industries protection of critical computerized data. In 2009, the Company’s revenues consisted primarily of offsite data backup, de-duplication, continuous data protection and Cloud Disaster Recovery solutions and protecting information for our clients. In 2010, DSC expanded its solutions based on the asset acquisition of SafeData. In 2012, DSC continued to assimilate organizations, expanded its technology as well as its technical group and positioned the new organization for growth. In October 2012, DSC purchased the software and assets of Message Logic.

DSC maintains equipment for cloud storage and cloud computing in our data centers in Illinois, Massachusetts, Rhode Island, and New York. DSC delivers its solutions over highly reliable, redundant and secure fiber optic networks with separate and diverse routes to the Internet. DSC’s network and geographical diversity is important to clients seeking storage hosting and disaster recovery solutions, ensuring protection of data and continuity of business in the case of a network interruption.

Consolidated Financial Statements

The accompanying unaudited financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and with the instructions to Form 10-Q. The results of operations for the three and nine months ended September 30, 2015 are not necessarily indicative of the results of operations for the full year. The consolidated balance sheet at December 31, 2014 was derived from audited consolidated financial statements but does not include all disclosures required by accounting principles generally accepted in the United States of America. The other information in these consolidated financial statements is unaudited but, in the opinion of management, reflects all adjustments necessary for a fair presentation of the results for the periods covered. All such adjustments are of a normal recurring nature unless disclosed otherwise. These consolidated financial statements, including notes, have been prepared in accordance with the applicable rules of the Securities and Exchange Commission and do not include all of the information and disclosures required by

accounting principles generally accepted in the United States of America for complete financial statements. These consolidated financial statements should be read in conjunction with the consolidated financial statements and additional information as contained in our Annual Report on Form 10-K for the year ended December 31, 2014.

Liquidity

The financial statements have been prepared using accounting principles generally accepted in the United States of America applicable for a going concern, which assumes that the Company will realize its assets and discharge its liabilities in the ordinary course of business. For the nine months ended September 30, 2015, the Company has generated revenues of \$2,988,503 but has incurred a net loss attributable to common shareholders of \$586,693. Its ability to continue as a going concern is dependent upon achieving sales growth, reduction of operation expenses and ability of the Company to obtain the necessary financing to meet its obligations and pay its liabilities arising from normal business operations when they come due, and upon profitable operations. The Company has been funded by the Mr. Charles M. Piluso, the Company's Chief Executive Officer ("CEO") and largest shareholder since inception as well as several Directors. It is the intention of Mr. Piluso to continue to fund the Company on an as needed basis.

Note 2 - Summary of Significant Accounting Policies

Stock-Based Compensation

The Company follows the requirements of FASB ASC 718-10-10, *Share-Based Payments* with regard to stock-based compensation issued to employees. The Company has stock-based incentives for consultants and employees that over achieve. This plan is discretionary. The expense for this stock-based compensation is equal to the fair value of the stock that was determined by using closing price on the day the stock was awarded multiplied by the number of shares awarded. The Company records its options at fair value using the Black-Scholes valuation model.

Recently Issued and Newly Adopted Accounting Pronouncements

In May 2014, FASB issued Accounting Standards Update (ASU) No. 2014-09, Revenue from Contracts with Customers. The revenue recognition standard affects all entities that have contracts with customers, except for certain items. The new revenue recognition standard eliminates the transaction and industry-specific revenue recognition guidance under current GAAP and replaces it with a principle-based approach for determining revenue recognition. On July 9th the effective date was delayed one year by a vote by the FASB. Public business entities, certain not-for-profit entities, and certain employee benefit plans would apply the guidance in ASU 2014-09 to annual reporting periods beginning after December 15, 2017, including interim reporting periods within that reporting period. Earlier application would be permitted only as of annual reporting periods beginning after December 15, 2016, including interim reporting periods within that reporting period. The Company has reviewed the applicable ASU and has not, at the current time, quantified the effects of this pronouncement, however it believes that there will be no material effect on the consolidated financial statements.

In June 2014, FASB issued Accounting Standards Update (ASU) No. 2014-12 Compensation - Stock Compensation (Topic 718), Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period. A performance target in a share-based payment that affects vesting and that could be achieved after the requisite service period should be accounted for as a performance condition under Accounting Standards Codification (ASC) 718, Compensation - Stock Compensation. As a result, the target is not reflected in the estimation of the award's grant date fair value. Compensation cost would be recognized over the required service period, if it is probable that the performance condition will be achieved. The guidance is effective for annual periods beginning after December 15, 2015 and interim periods within those annual periods. Early adoption is permitted. Management has reviewed the ASU and believes that they currently account for these awards in a manner consistent with the new guidance; therefore there is no anticipation of any effect to the consolidated financial statements.

On August 2014, FASB issued Accounting Standards Update No. 2014-15, Presentation of Financial Statements - Going Concerns (Subtopic 205-40): Disclosures of Uncertainties about an Entity's Ability to continue as a Going Concern. The amendments require management to assess an entity's ability to continue as a going concern by incorporating and expanding upon certain principles that are currently in U.S. auditing standards. Specifically, the amendments (1) provide a definition of the term substantial doubt, (2) require an evaluation every reporting period including interim periods, (3) provide principles for considering the mitigating effect of management's plans, (4) require certain disclosures when substantial doubt is alleviated as a result of consideration of management's plans, (5) require an express statement and other disclosures when substantial doubt is not alleviated, and (6) require an assessment for a period of one year after the date that the financial statements are issued (or available to be issued). The amendments in this Update are effective for the annual period ending after December 15, 2016, and for annual periods and interim periods thereafter. Early application is permitted. The adoption of ASU 2014-15 is not expected to have a material impact on our financial position or results of operations.

In April 2015, the Financial Accounting Standards Board (FASB) issued ASU 2015-05, "Customer's Accounting for Fees Paid in a Cloud Computing Arrangement." This ASU provides clarification on whether a cloud computing arrangement includes a software license. If a software license is included, the customer should account for the license consistent with its accounting of other software licenses. If a software license is not included, the arrangement should be accounted for as a service contract. This ASU is effective for annual reporting periods beginning after December 15, 2015, and interim periods within those years. Early adoption is permitted. The Company is currently evaluating the provisions of this guidance.

We have reviewed all FASB issued Accounting Standards Update ("ASU") accounting pronouncements and interpretations thereof that have effectiveness dates during the periods reported and in future periods. The Company has carefully considered the new pronouncements that alter previous generally accepted accounting principles and does not believe that any new or modified principles will have a material impact on the corporation's reported financial position or operations in the near term. The applicability of any standard is subject to the formal review of our financial management and certain standards are under consideration.

Management does not believe there would have been a material effect on the accompanying consolidated financial statements had any other recently issued, but not yet effective, accounting standards been adopted in the current period.

Principles of Consolidation

The consolidated financial statements include the accounts of the Company. All significant inter-company transactions and balances have been eliminated in consolidation.

Equity Investments

Equity investments in which the Company exercises significant influence but does not control and is not the primary beneficiary are accounted for using the equity method. The Company's share of its equity method investee's earnings or losses is included in other income in the accompanying Consolidated Statements of Operations.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from these estimates.

Estimated Fair Value of Financial Instruments

The Company's financial instruments include cash, accounts receivable, accounts payable, line of credit and due to related parties. Management believes the estimated fair value of these accounts at September 30, 2015 approximates their carrying value as reflected in the balance sheets due to the short-term nature of these instruments or the use of market interest rates for debt instruments. The carrying values of certain of the Company's notes payable and capital lease obligations approximate their fair values based upon a comparison of the interest rate and terms of such debt given the level of risk to the rates and terms of similar debt currently available to the Company in the marketplace.

Cash, Cash Equivalents and Short-Term Investments

The Company considers all highly liquid investments with an original maturity or remaining maturity at the time of purchase, of three months or less to be cash equivalents.

Concentration of Credit Risk and Other Risks and Uncertainties

Financial instruments and assets subjecting the Company to concentration of credit risk consist primarily of cash and cash equivalents, short-term investments and trade accounts receivable. The Company's cash and cash equivalents are maintained at major U.S. financial institutions. Deposits in these institutions may exceed the amount of insurance provided on such deposits.

The Company's customers are primarily concentrated in the United States.

The Company provides credit in the normal course of business. The Company performs ongoing credit evaluations of its customers and maintains allowances for doubtful accounts on factors surrounding the credit risk of specific customers, historical trends, and other information.

For the three and nine months ended September 30, 2015 and 2014 DSC did not have any customer concentrations.

Accounts Receivable/Allowance for Doubtful Accounts

The Company sells its services to customers on an open credit basis. Accounts receivable are uncollateralized, non-interest-bearing customer obligations. Accounts receivables are due within 30 days. The allowance for doubtful accounts reflects the estimated accounts receivable that will not be collected due to credit losses and allowances. Provisions for estimated uncollectible accounts receivable are made for individual accounts based upon specific facts and circumstances including criteria such as their age, amount, and customer standing. Provisions are also made for other accounts receivable not specifically reviewed based upon historical experience. Clients are invoiced in advance for services as reflected in deferred revenue on the Company's balance sheet.

Property and Equipment

Property and equipment is recorded at cost and depreciated over the estimated useful lives or the term of the lease using the straight-line method for financial statement purposes. Estimated useful lives in years for depreciation are 5 to 7 years for property and equipment. Additions, betterments and replacements are capitalized, while expenditures for repairs and maintenance are charged to operations when incurred. As units of property are sold or retired, the related cost and accumulated depreciation are removed from the accounts, and any resulting gain or loss is recognized in income.

Income Taxes

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carry forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. At September 30, 2015, the Company had a full valuation allowance against its deferred tax assets.

Goodwill and Other Intangibles

In accordance with GAAP, the Company tests goodwill and other intangible assets for impairment on at least an annual basis. Goodwill impairment exists if the net book value of a reporting unit exceeds its estimated fair value. The impairment testing is performed in two steps: (i) the Company determines impairment by comparing the fair value of a reporting unit with its carrying value, and (ii) if there is an impairment, the Company measures the amount of impairment loss by comparing the implied fair value of goodwill with the carrying amount of that goodwill. To determine the fair value of these intangible assets, the Company uses many assumptions and estimates using a market participant approach that directly impact the results of the testing. In making these assumptions and estimates, the Company uses industry accepted valuation models and set criteria that are reviewed and approved by various levels of management.

In September 2011, the Financial Accounting Standards Board (the "FASB") issued Accounting Standards Update ("ASU") 2011-08, "Intangibles-Goodwill and Other (Topic 350): Testing Goodwill for Impairment", to allow entities to use a qualitative approach to test goodwill for impairment. ASU 2011-08 permits an entity to first perform a qualitative assessment to determine whether it is more likely than not that the fair value of a reporting unit is less than

its carrying value. If it is concluded that this is the case, it is necessary to perform the currently prescribed two-step goodwill impairment test. Otherwise, the two-step goodwill impairment test is not required. The Company adopted ASU 2011-08 in fiscal 2013 and has performed qualitative assessments since that date.

Revenue Recognition

The Company's revenues consist principally of cloud storage and cloud computing revenues, SaaS and IaaS. Storage revenues consist of monthly charges related to the storage of materials or data (generally on a per unit basis). Sales are generally recorded in the month the service is provided. For customers who are billed on an annual basis, deferred revenue is recorded and amortized over the life of the contract. Set up fees charged in connection with storage contracts are deferred and recognized on a straight line basis over the life of the contract.

Impairment of Long-Lived Assets

In accordance with FASB ASC 360-10-35, we review our long-lived assets for impairment whenever events and circumstances indicate that the carrying value of an asset might not be recoverable. An impairment loss, measured as the amount by which the carrying value exceeds the fair value, is recognized if the carrying amount exceeds estimated undiscounted future cash flows.

Advertising Costs

The Company expenses the costs associated with advertising as they are incurred. The Company incurred \$27,325 and \$71,394 for advertising costs for the nine months ended September 30, 2015 and 2014, respectively.

Net Income (Loss) Per Common Share

In accordance with FASB ASC 260-10-5 Earnings Per Share, basic income (loss) per share is computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding during the period. Diluted earnings per share is computed by dividing net income (loss) adjusted for income or loss that would result from the assumed conversion of potential common shares from contracts that may be settled in stock or cash by the weighted average number of shares of common stock, common stock equivalents and potentially dilutive securities outstanding during each period. The inclusion of the potential common shares to be issued would have an anti-dilutive effect on diluted loss per share and therefore they are not included in the calculation. Potentially dilutive securities at September 30, 2015 include 6,221,222 options and 133,334 warrants.

Note 3 - Property and Equipment

Property and equipment, at cost, consist of the following:

	September 30, 2015	December 31, 2014
Storage equipment	\$2,205,243	\$2,205,243

Amortization expense for the nine months ended September 30, 2015 and 2014 was \$91,184 and \$164,629 respectively.

Note 5 – Investment in Joint Venture under the Equity Method

The Company has a 50% non-controlling ownership interest in Secure Infrastructure & Services, LLC who provides infrastructure-as-a-Service (IaaS) for IBM iSeries and AIX v7 systems, Power HA services and network infrastructure hardware and services as needed to support the IaaS and PowerHA implementation and ongoing needs for customers and services sold under the Company. ASC 810 requires the Company to evaluate non-consolidated entities periodically and as circumstances change to determine if an implied controlling interest exists. The Company has evaluated this equity investment during 2013 and concluded that this is a variable interest entity and the Company is not the primary beneficiary. Secure Infrastructure & Services, LLC's fiscal year end is December 31.

The following presents unaudited summary financial information for Secure Infrastructure & Services, LLC. Common Stock Options

2008 Equity Incentive Plan

In October 2008, the Company's board of directors (the "Board") adopted the 2008 Equity Incentive Plan (the "2008 Plan"). Under the 2008 Plan, we may grant options (including incentive stock options) to purchase our common stock or restricted stock awards to our employees, consultants or non-employee directors. The 2008 Plan is administered by the Board. Awards may be granted pursuant to the 2008 Plan for 10 years from the date the Board approved the 2008 Plan. Any grant under the 2008 Plan may be repriced, replaced or regranted at the discretion of the Board. From time to time, we may issue awards pursuant to the 2008 Plan.

The material terms of options granted under the 2008 Plan (all of which have been nonqualified stock options) are consistent with the terms described in the footnotes to the "Outstanding Equity Awards at Fiscal Year-End December 31, 2011", including five year graded vesting schedules and exercise prices equal to the fair market value of our common stock on the date of grant. Stock grants made under the 2008 Plan have not been subject to vesting requirements. The 2008 Plan was terminated with respect to the issuance of new awards as of February 3, 2012. There are 2,235,599 options outstanding under this plan as of September 30, 2015.

2010 Incentive Award Plan

The Company has reserved 2,000,000 shares of common stock for issuance under the terms of the Data Storage Corporation 2010 Incentive Award Plan (the “2010 Plan”). The 2010 Plan is intended to promote the interests of the Company by attracting and retaining exceptional employees, consultants, directors, officers and independent contractors (collectively referred to as the “Participants”), and enabling such Participants to participate in the long-term growth and financial success of the Company. Under the 2010 Plan, the Company may grant stock options, which are intended to qualify as “incentive stock options” under Section 422 of the Internal Revenue Code of 1986, as amended, non-qualified stock options, stock appreciation rights and restricted stock awards, which are restricted shares of common stock (collectively referred to as “Incentive Awards”). Incentive Awards may be granted pursuant to the 2010 Plan for 10 years from the Effective Date. From time to time, we may issue Incentive Awards pursuant to the 2010 Plan. Each of the awards will be evidenced by and issued under a written agreement.

On April 23, 2012, the Board of Directors of the Company amended and restated the Data Storage Corporation 2010 Plan. The 2010 Plan, as amended and restated, has been renamed the “Amended and Restated Data Storage Corporation Incentive Award Plan”. The new plan provides for flexibility in vesting periods and includes a limit of \$100,000 per employee per year for incentive stock options.

There are 3,985,623 options outstanding under this plan as of September 30, 2015. There were 1,154,854 shares available for future grants under the plan.

A summary of the Company's option activity and related information follows:

	Number of Shares	Range of Option Price Per Share	Weighted Average Exercise Price
Options Outstanding at January 1, 2015	6,280,560	\$ 0.02 - 0.46	\$ 0.27
Options Granted	—	—	—
Options Exercised	—	—	—
Options Expired	(59,338) 0.02	0.02
Options Outstanding at September 30, 2015	6,221,222	\$ 0.02 - 0.41	\$ 0.27
Options Exercisable at September 30, 2015	5,912,562	0.02 - 0.41	\$ 0.28

Share-based compensation expense for options totaling \$73,833 and \$111,423 was recognized in the nine months ended September 30, 2015 and 2014, respectively.

The valuation methodology used to determine the fair value of the options issued during the year was the Black-Scholes option-pricing model. The Black-Scholes model requires the use of a number of assumptions including volatility of the stock price, the average risk-free interest rate, and the weighted average expected life of the options.

The risk-free interest rate assumption is based upon observed interest rates on zero coupon U.S. Treasury bonds whose maturity period is appropriate for the term of the Warrants and is calculated by using the average daily historical stock prices through the day preceding the grant date.

Estimated volatility is a measure of the amount by which the Company's stock price is expected to fluctuate each year during the expected life of the award. The Company's estimated volatility is an average of the historical volatility of peer entities whose stock prices were publicly available. The Company's calculation of estimated volatility is based on historical stock prices of these peer entities over a period equal to the expected life of the awards. The Company uses the historical volatility of peer entities due to the lack of sufficient historical data of its stock price.

As of September 30, 2015, there was \$133,027 of total unrecognized compensation expense related to unvested employee options granted under the Company's share based compensation plans that is expected to be recognized over a weighted average period of approximately 1.7 years.

Note 12 - Litigation

The Company has been named as a defendant in a lawsuit filed in New York State Supreme Court, Nassau County, by Richard Rebeti, the Company's former Chief Operating Officer. In the lawsuit, Rebeti v. Data Storage Corp. and Charles M. Piluso, Rebeti asserted claims for unpaid wages in the amount of \$67,392 plus statutory damages and counsel fees. This litigation has been settled in accordance with a confidential agreement and a stipulation of discontinuance has been filed.

Note 13 – Subsequent Events

On October 16, 2015, the Company's Board of Directors approved and authorized the issuance of 69,240 stock options to a vendor. The options are exercisable at \$0.65 per share for a period of 10 years. The Board also approved a compensation plan for Stephen Catanzano providing for certain cash and equity compensation subject to certain M&A milestones being met.

LIQUIDITY AND CAPITAL RESOURCES

The consolidated financial statements have been prepared using generally accepted accounting principles in the United States of America (“GAAP”) applicable for a going concern, which assumes that DSC will realize its assets and discharge its liabilities in the ordinary course of business. DSC has been funded by Mr. Charles M Piluso, DSC’s Chief Executive Officer and largest shareholder combined with private placements of DSC’s common stock. DSC has been successful in raising money as needed. Further it is the intention of management to continue to raise money through stock issuances and to fund DSC on an as needed basis. In 2015, we intend to continue to work to increase our presence in the IBM marketplace utilizing our increased technical expertise, capacity for data storage and managed services with our asset acquisition of SafeData.

To the extent we are successful in growing our business, identifying potential acquisition targets and negotiating the terms of such acquisition, and the purchase price includes a cash component, we plan to use our working capital and the proceeds of any financing to finance such acquisition costs. Our opinion concerning our liquidity is based on current information. If this information proves to be inaccurate, or if circumstances change, we may not be able to meet our liquidity needs.

During the nine months ended September 30, 2015 the Company’s cash decreased \$72,363 to \$38,085, from \$110,448 at December 31, 2014. Net cash of 22,957 was provided by the Company’s operating activities and cash of \$0 was used in investing activities. Net cash of \$95,320 was used in the Company’s financing activities, primarily due to the repayment of lease obligations and the issuance of \$80,000 of convertible debt.

The Company’s working capital deficit was \$2,972,918 at September 30, 2015, increasing \$421,529 or 16.5% from \$2,551,389 at December 31, 2014.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Interest Rate Sensitivity

Interest due on DSC's loans is based upon the applicable stated fixed contractual rate with the lender. Interest earned on DSC's bank accounts is linked to the applicable base interest rate. For the nine months ended September 30, 2015 and nine months ended September 30, 2014, DSC had interest expense including amortization of debt discounts and expense, net of interest income, of \$191,853 and \$138,547, respectively. DSC believes that its results of operations are not materially affected by changes in interest rates.

DSC's exposure to market risk is confined to its cash and cash equivalents, all of which have maturities of less than three months and bear and pay interest in U.S. dollars. Since DSC invests in highly liquid, relatively low yield investments, we do not believe interest rate changes would have a material impact on us.

DSC does not hold any derivative instruments and does not engage in any hedging activities.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures.

As of the end of the period covered by this Report, under the supervision and with the participation of DSC's management, including its principal executive officer and principal financial officer, DSC conducted an evaluation of its disclosure controls and procedures, as such term is defined under Rule 13a-15(e) and Rule 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Based on this evaluation, DSC's principal executive officer and principal financial officers have concluded that DSC's disclosure controls and procedures are not effective to ensure that information required to be disclosed by DSC in the reports it files or submits under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's (the "SEC") rules based on the material weakness described below.

The material weaknesses identified during management's assessment were (i) a lack of sufficient internal accounting expertise to provide reasonable assurance that our financial statements and notes thereto are prepared in accordance

with GAAP and (ii) a lack of segregation of duties to ensure adequate review of financial statement preparation. In light of these material weaknesses, management has concluded that, as of September 30, 2015, DSC did not maintain effective internal control over financial reporting. As defined by the Public Company Accounting Oversight Board Auditing Standard No. 5, a material weakness is a deficiency or a combination of deficiencies, such that there is a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected. In order to ensure the effectiveness of DSC's disclosure controls in the future DSC intends on adding financial staff resources to our accounting and finance department.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

Changes in Internal Control Over Financial Reporting.

There have been no changes in our internal control over financial reporting that occurred during the last fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings.

We are currently not involved in any litigation that we believe could have a materially adverse effect on our financial condition or results of operations. There is no action, suit, proceeding, inquiry or investigation before or by any court, public board, government agency, self-regulatory organization or body pending or, to the knowledge of the executive officers of our company or any of our subsidiaries, threatened against or affecting DSC, its common stock, any of its subsidiaries or of DSC's or DSC's subsidiaries' officers or directors in their capacities as such, in which an adverse decision could have a material adverse effect.

Item 1A. Risk Factors.

As a smaller reporting company, as defined in Rule 12b-2 of the Exchange Act, we are not required to provide the information required by this Item.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

On July 6, 2015, Hal Schwartz was appointed to serve as a director of the Company.

There is no understanding or arrangement between Mr. Schwartz and any other person pursuant to which he was appointed as a director. Mr. Schwartz does not have any family relationship with any director, executive officer or person nominated or chosen by us to become a director. Mr. Schwartz has not had direct or indirect material interest in any transaction or proposed transaction, in which the Company was or is a proposed participant, exceeding \$120,000.

Since 1995, Mr. Schwartz has served as vice president of ABC Services, Inc., which he co-founded, where he is responsible for the strategic direction of the company, operations, business development, and sales. Over the past two decades, Mr. Schwartz has honed his expertise in IBM business systems, business continuity and helping organizations increase IT performance while reducing costs. In addition, Mr. Schwartz is the founder of Systems Trading Incorporated, a technology leasing company established in 1997, where Mr. Schwartz serves as the company's CEO and president. Prior to founding these two businesses, Mr. Schwartz was with CAC Leasing for six years, where he started a lease asset sales division in 1991. This division was established shortly after Mr. Schwartz earned his bachelor's degree in business from California State University in San Bernardino. Since 2010, Mr. Schwartz has served on the Board of Advisors for Data Storage Corporation.
