Item 8.01 Other Events.

This Current Report on Form 8-K ("Current Report") is being filed by Caterpillar Inc. (herein referred to as "Caterpillar," "we," "us," "our," or the "Company") to retrospectively adjust certain financial information and related disclosures contained in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2015, filed on February 16, 2016 ("2015 Form 10-K"), as described below.

Change in Accounting Principle

As we disclosed in our 2015 Form 10-K, effective January 1, 2016, we changed our accounting principle for recognizing actuarial gains and losses and expected returns on plan assets for our defined benefit pension and other postretirement benefit plans. Prior to 2016, actuarial gains and losses were recognized as a component of Accumulated other comprehensive income (loss) and were generally amortized into earnings in future periods. Under the new principle, actuarial gains and losses will be immediately recognized through net benefit cost upon the annual remeasurement in the fourth quarter, or on an interim basis as triggering events warrant remeasurement. In addition, we have changed our policy for recognizing the expected returns on plan assets from a market-related value method (based on a three-year smoothing of asset returns) to a fair value method. We believe these changes are preferable as they accelerate the recognition of changes in fair value of plan assets and actuarial gains and losses in our Consolidated Statement of Results of Operations, provide greater transparency of our economic obligations in accounting results and better align with the fair value principles by recognizing the effects of economic and interest rate changes on pension and other postretirement benefit assets and liabilities in the year in which the gains and losses are incurred. These changes have been applied retrospectively to all periods presented.

Change in Segment Reporting

Effective January 1, 2016, we made the following changes to our segment reporting to reflect changes in organizational accountabilities and refinements to our internal reporting.

Responsibility for remanufacturing of Cat engines and components and responsibility for on-highway vocational trucks moved from the All Other operating segments to Energy & Transportation.

Responsibility for forestry and paving products moved from All Other operating segments to Construction Industries.

Responsibility for industrial and waste products moved from All Other operating segments to Resource Industries.

Internal charges for component manufacturing and logistics services provided by All Other operating segments to Construction Industries, Resource Industries and Energy & Transportation in excess of cost have been adjusted to approximate cost, resulting in a reduction in profit in the All Other operating segments and corresponding increases in profit in the other three segments.

Costs that previously had been included in Machinery, Energy & Transportation (ME&T) Corporate costs, primarily for company-wide strategies such as information technology and manufacturing process transformation, have been included in the ME&T operating segments that benefit from the costs.

Segment information for all periods presented has been retrospectively adjusted to conform to the 2016 presentation.

Adoption of New Accounting Guidance

Edgar Filing: CATERPILLAR INC - Form 8-K

In addition, effective January 1, 2016, the Company adopted Financial Accounting Standards Board Accounting Standards Update (ASU) No. 2015-03 "Interest - Imputation of Interest (Topic 835-30): Simplifying the Presentation of Debt Issuance Costs," No. 2015-07 "Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)" and early adopted ASU No. 2015-17 "Income Taxes (Topic 740): Balance Sheet Classification of Deferred Taxes," and applied the changes retrospectively to all periods presented.
