Chairman K.S. "Bud" Adams, Jr., attributed a substantial portion of the fourth quarter 2005 earnings increase to certain non-recurring items within the Company's marketing segment. During the current quarter, the Company reduced expenses by an after tax amount totaling \$2,210,000 from the reversal of previously recorded accrual items following the final "true-up" of the accounting for such items. Further, the Company collected and recognized as a reduction in after-tax expenses some \$1,011,000 of previously disputed and fully reserved items. In addition, income from discontinued operations included a net after tax gain of \$601,000 following the sale of certain oil and gas properties. The Company does not anticipate the recurrence of similar such items in 2006. The Company also benefited from improved earnings in its oil and gas segment during the fourth quarter of 2005 due to increased prices for crude oil and natural gas.

The information in this release includes certain forward-looking statements that are based on assumptions that in the future may prove not to have been accurate. A number of factors could cause actual results or events to differ materially from those anticipated. Such factors include, among others, (a) general economic conditions, (b) fluctuations in hydrocarbon prices and margins, (c) variations between crude oil and natural gas contract volumes and actual delivery volumes, (d) unanticipated environmental liabilities or regulatory changes, (e) counterparty credit default, (f) inability to obtain bank and/or trade credit support, (g) availability and cost of insurance, (h) changes in tax laws, and (i) the availability of capital, (j) changes in regulations, (k) results of current items of litigation, (l) uninsured items of litigation or losses, (m) uncertainty in reserve estimates and cash flows, (n) ability to replace oil and gas reserves, (o) security issues related to drivers and terminal facilities, (p) commodity price volatility and (q) successful completion of drilling activity. These and other risks are described in the Company's reports that are on file with the Securities and Exchange Commission.
