Pursuant to its charter, the Human Resources Committee has the responsibility of recommending to the Board of Directors the compensation for Board members, such as retainers, committee Chairman fees, stock options and other similar items, as appropriate. In performing this task, the Human Resources Committee considers recommendations by the Company's Chief Executive and Chief Financial Officers as to Director compensation. The Chief Executive and Chief Financial Officers evaluate the compensation paid to directors of other regional public company boards in forming their recommendation and make adjustments given the relative size of the Company as compared with others. The Human Resources Committee does not engage the services of any third-party consultants in determining the Director compensation.

Committees

The Board of Directors has standing Audit, Human Resources and Nominating Committees. The Audit Committee is composed of Messrs. Corcoran, Helmkamp and LeGrand (Chairman). The Human Resources Committee is composed of Messrs. Clark, Corcoran and Thomas (Chairman). The Nominating Committee is composed of Messrs. Clark, Corcoran and Thomas (Chairman).

The Board has determined in its business judgment that each of the following Directors and Director nominees is independent, as such term is defined in the NYSE Amex listing standards as set forth in the NYSE Amex Company Guide: Messrs. Clark, Corcoran, Helmkamp, LeGrand and Thomas. In addition, each of the members of the Audit Committee meets the more stringent independence standards and the financial literacy standards set forth in the rules of the United States Securities and Exchange Commission ("SEC") and the NYSE Amex listing standards. The Board has made an affirmative determination as to each independent Director that no relationships exist that, in the opinion of the Board, would interfere with the exercise of independent judgment in carrying out the responsibilities of a Director. In making these determinations, the Directors reviewed and discussed information provided by the Directors and the Company with regard to each Director's business and personal activities as they may relate to the Company and management.

Audit Committee

The Audit Committee, which met four times in fiscal 2009, oversees the Company's accounting and financial reporting processes, audits of the Company's financial statements and internal control matters, and appoints the independent registered public accountants to audit the Company's financial statements. The Committee's report on its activities for fiscal 2009 is on pages 18 and 19. Fees paid to the independent registered public accountants in fiscal 2009 are provided on page 17. The Committee's charter is available on the Company's Web site at www.labarge.com.

Nominating Committee

The Nominating Committee, which did not meet in fiscal 2009, is responsible for identifying individuals qualified to become members of the Board of Directors, recommending Director nominees for each Annual Meeting and nominees to fill Board vacancies and to address related matters. The Committee's charter is available on the Company's Web site at www.labarge.com.

Human Resources Committee

Edgar Filing: LABARGE INC - Form DEF 14A

The Human Resources Committee, which met two times in fiscal 2009, serves as the Board's compensation committee. The Committee's charter is available on the Company's Web site at www.labarge.com.

The Human Resources Committee oversees compensation for the Company's Chief Executive Officer and other senior executives. In doing so, the Committee is responsible for considering and approving the annual salary and incentive compensation, including performance awards under the 2004 Long Term Incentive Plan, and other benefits of executive management.

Compensation Committee Interlocks and Insider Participation

During the 2009 fiscal year, Messrs. Clark, Corcoran and Thomas served as members of the Human Resources Committee. None of the Company's executive officers serves as a director or member of the compensation committee, or other committee serving an equivalent function, for any other entity that has one or more of its executive officers serving as a member of the Company's Board of Directors or the Human Resources Committee. None of Messrs. Clark, Corcoran or Thomas has ever been an officer or employee of the Company or any of its subsidiaries.

Communication with the Board of Directors

Stockholders may communicate with any and all members of the Company's Board of Directors by transmitting correspondence by mail addressed to one or more Directors by name (or to the Chief Executive Officer, for a communication addressed to the entire Board of Directors) at the following address and fax number: Name of the Director(s), c/o Corporate Secretary, LaBarge, Inc., 9900 Clayton Road, St. Louis, Missouri 63124, fax number: 314-812-9438. Communications from the Company's Stockholders to one or more Directors will be monitored by the Company's Corporate Secretary and the Chief Executive Officer, who will bring any significant issues to the attention of the appropriate Board members.

Director Nominations

Director candidates are nominated by the Board. The Nominating Committee recommends Director nominees to the Board. The Nominating Committee investigates and assesses the background and skills of potential candidates for Directors. The Committee seeks to create a Board that will bring a broad range of experience, knowledge and judgment to the Company. The Committee does not have specific minimum qualifications that must be met by a candidate for election to the Board of Directors in order to be considered for nomination by the Committee. When the Committee reviews a potential new candidate, the Committee looks specifically at the candidate's qualifications in light of the needs of the Board and the Company at that time given the current mix of Director attributes.

Upon identifying a candidate for serious consideration, one or more members of the Nominating Committee initially interview the candidate. If a candidate merits further consideration, all other Committee members (individually or as a group) interview the candidate, and the candidate meets the Company's executive officers and ultimately meets many of the other Directors. The Nominating Committee elicits feedback from all persons who met the candidate and then determines whether or not to nominate the candidate. The process is the same whether the candidate is recommended by a Stockholder, another Director, management or otherwise. The Company does not pay a fee to any third party for the identification or evaluation of candidates.

Stockholders who wish to recommend Director candidates for consideration by the Nominating Committee for the next Annual Meeting of Stockholders should notify the Nominating Committee no later than March 16, 2010. Submissions are to be addressed to the Nominating Committee, c/o Corporate Secretary, LaBarge, Inc., 9900 Clayton Road, St. Louis, Missouri 63124, which submissions will then be forwarded to the Committee. The Nominating Committee would then evaluate the possible nominee using the criteria established by it and would consider such person in comparison to all other candidates. The Nominating Committee is not obligated to nominate any such individual for election. No Stockholder nominations have been received by the Company for this year's Annual Meeting. Accordingly, no rejections or refusals of such candidates have been made by the Company.

Compensation Discussion and Analysis

Executive Compensation Objectives and Philosophy

The fundamental objectives of our executive compensation program are to attract and retain talented executives; align executive compensation with the interests of our stockholders; foster and promote the short-term and long-term financial success of the Company; materially increase stockholder value by motivating performance through incentive compensation; and, encourage executive ownership in the Company. These objectives are furthered by a compensation philosophy that is based on the following:

Competition with peer companies: Compensation packages should be competitive and consistent with the general market. As such, the Human Resources Committee works with its compensation and benefits consultant to design compensation packages that fall within certain ranges compared with competitive companies, with sufficient flexibility to address individual responsibilities and performance.

Accountability and recognition for individual and Company performance: Compensation should depend, in part, on each executive officer's performance in order to motivate and reward success. The Committee has provided for a sizeable portion of the overall compensation packages to be tied to performance through the payments of short-term incentive awards in the form of cash bonuses and the grant of long-term incentive awards in the form of performance units that are settled in restricted Common Stock.

Alignment of Stockholder interests: Certain elements of the compensation packages should be tied to stock performance to align our executive officers' interests with those of our Stockholders. In order to create this tie, a portion of the compensation packages include stock-based awards in the form of performance units that are settled in restricted Common Stock.

Compensation Determination Process

Our Human Resources Committee serves as our compensation committee and is responsible for considering and approving the annual salary, incentive compensation and other benefits of our Chief Executive Officer and other members of executive management. The Committee is made up of independent directors and typically meets following each fiscal year-end to: (i) consider and approve salary changes and annual incentive bonuses, if any; (ii) determine and approve long-term incentive awards, if any; and (iii) establish goals for both the annual and long-term incentive programs.

To assist the Committee in evaluating and determining executive compensation, the Company, at the direction of the Committee, utilizes services of Hay Group, a highly regarded international independent compensation and benefits consulting firm. Hay Group periodically evaluates the executive officer positions, measuring each position on the practical and technical skills required; problem-solving environment and challenges faced; and accountability and decision-making impact. The evaluation of all of these factors results in a point total for each executive officer position ("Hay Points") which allows the Committee and Hay Group to rank the positions and measure the distance between jobs within the Company.

Edgar Filing: LABARGE INC - Form DEF 14A

Hay Group uses the Hay Points to compare the compensation of the Company's executive officers with the compensation of officers who hold positions with similar Hay Points in companies comprising the Hay General Industry Market, a group of approximately 800 industrial companies throughout the United States, 40% of which are manufacturing companies. The names of the companies comprising the Hay General Industry Market are included as Appendix A to this proxy statement. Using this comparison, Hay Group constructs ranges of base salaries, base salaries plus annual incentive bonus opportunities ("Total Cash Compensation") and total compensation, which includes Total Cash Compensation and long-term incentives, for each of the Company's executive officer positions. The actual compensation of the Company's executive officers, and the relative position within the ranges, is dependent on individual performance, Company performance versus established goals and other factors, as described herein.

The Committee believes that base salaries, Total Cash Compensation and total compensation should approximate the median of the Hay General Industry Market for performance at target levels, in furtherance of our compensation principles noted above. Other than the specific Company performance criteria considered in determining the annual and long-term incentive payments, our compensation programs are flexible, although we do rely on the Hay Group market analyses to ensure that our compensation practices remain equitable and competitive. For example, individual performance, expertise and experience are all considered when determining each element of total compensation.

Annual and long-term incentive compensation is awarded primarily based on the Company's achievement of certain performance objectives, as later discussed. Goals relating to the Company's annual and long-term incentives are set at levels the Committee believes are appropriately aggressive and balanced between short-term and long-term while not encouraging the named executive officers to take undue risk in their responsibilities and decision-making with respect to the Company and its operations. These goals, individually or together, are designed to be challenging and as such, the Committee believes that the Company's goals would not be achieved all of the time. Historically, this has been true. Furthermore, the Committee believes that reaching maximum levels, and therefore the maximum payout, would be achieved less often than reaching the target performance levels, but recognizes that the payout should be appropriate for the performance, regardless of how often it may happen.

The mix of our cash and non-cash compensation, and short and long-term compensation, is not subject to a specific policy. Instead, the Committee considers the current trends in the market based on the Hay Group data in light of our compensation philosophies and objectives outlined above, and makes gradual changes over time as necessary to further these compensation goals.

Each year, taking into account the evaluations of Hay Group, current performance and the Company's compensation objectives, the Chief Executive Officer makes recommendations to the Committee regarding proposed salary changes, annual incentive bonuses and long-term incentive awards, if any, for each executive officer. The Chief Executive Officer also assists the Committee in setting Company performance goals on which part of each officer's total compensation is based. The Committee considers this input from the Chief Executive Officer and the recommendations of the Hay Group, as well as other factors it believes are relevant, and determines the compensation packages of the executive officers, including the Chief Executive Officer.

Elements of Compensation

Base Salaries:

In line with the Company's philosophy that compensation should be competitive, the Committee aims for base salaries to approximate the median of the Hay General Industry Market. As such, changes in executive officer salaries are, in part, market-driven. However, salaries are also dependent on individual evaluations conducted each year by the Committee. During this process, the Chief Executive Officer provides input to the Committee. As relating to base salaries, no specific individual performance criteria are or have been established by the Committee. Rather, each executive officer, including the Chief Executive Officer, is evaluated based on (i) general individual performance over the past year; (ii) the scope of each officer's duties and responsibilities; and (iii) experience and expertise.

Fiscal 2009 salaries are disclosed in the 2009 Summary Compensation Table later in this proxy statement. The salaries of the executive officers approximated the median of the Hay General Industry Market. In response to the economic downturn, effective May 4, 2009, the Company reduced the salaries of all executive officers by 5% together with the implementation of other Company cost savings initiatives.

At the end of fiscal 2009, the Committee established the fiscal 2010 salaries for the named executive officers. These fiscal 2010 salaries reflect no increase from those paid to the named executive officers at the end of fiscal 2009, which, as noted above, reflect a 5% salary decrease implemented in May 2009. The fiscal 2010 salaries are as follows:

Table 1

| <u>Name</u> | <u>Fiscal 2010 Salaries</u> |
|------------------------|-----------------------------|
| Craig E. LaBarge | \$527,306.00..... |

Edgar Filing: LABARGE INC - Form DEF 14A

| | |
|----------------------|--------------|
| Randy L. Buschling | \$356,278.00 |
| Donald H. Nonnenkamp | \$299,286.00 |
| John R. Parmley | \$247,000.00 |
| Teresa K. Huber | \$218,530.00 |

Annual Incentives:

Executive officers, including the Chief Executive Officer, have the opportunity to earn annual incentive bonuses in the form of cash payments following the end of each fiscal year. Annual incentive bonuses depend, in part, on each executive officer's individual performance during the fiscal year and other circumstances considered during the annual evaluation, as discussed above.

The main consideration of the Committee in awarding annual incentive bonuses is the achievement of certain Company performance goals established at the beginning of each fiscal year. The measurements used may vary among the executive officers and relate to each officer's specific job responsibilities, changing each year as the Committee, with the input of the Chief Executive Officer, sees fit. Annually, goals and correlating annual incentive bonus opportunities are established at the threshold, target and maximum levels. The Committee's goal is that, for performance at the target level, Total Cash Compensation will approximate the median of the Hay General Industry Market. However, such levels serve as a guide rather than strict payout formulas, as payouts vary depending on individual circumstances. In any case, payout will be zero if threshold performance levels are not met and will not exceed the maximum payout, or 150% of the payout for target performance.

The Company's annual incentive bonus arrangements provide that all bonus payouts are conditioned upon the Company's achievement of a base net income level. While the bonuses for the named executive officers are tied to the achievement of other goals, as later discussed, no bonuses are paid unless the Company meets a net income of at least the base level. For fiscal 2009, the base net income level was \$13.0 million.

Once the Company reaches its base net income level, the Committee looks to the specific goals for each named executive officer in order to determine annual bonus payouts. Each specific performance goal is weighted differently and correlates independently to a threshold, target and maximum cash bonus payout. For example, using Mr. LaBarge's goals below in Table 2, he would be eligible to receive the corresponding threshold, target or maximum bonus tied to bookings as long as he meets the required bookings threshold, target or maximum goal, even if no other performance goal is met, as long as the Company has reached its base net income level. Those goals that are not quantitatively measured are evaluated by the Committee, in its discretion.

**No quantitative measurement.

Includes evaluating and updating, where appropriate, the Company's investor relations strategy.

Includes the definition, development and implementation of a marketing and promotion strategy.

Goal is tied to the performance of those Company plants over which Ms. Huber has supervisory responsibility only.

The Committee believes these performance targets are appropriate to motivate the named executive officers but does not believe they encourage such officers to take undue risk with respect to their responsibilities and decision-making relating to the Company and its operations.

As noted above, no named executive officer receives an annual bonus unless the Company meets the base net income goal, which was \$13.0 million for fiscal year 2009. Because the Company did not meet this base net income goal, no named executive officer received an annual incentive bonus for fiscal 2009.

Long-Term Incentives:

Executive officers are eligible to earn long-term incentive awards pursuant to the Company's 2004 Long Term Incentive Plan (the "Plan"), the terms of which are more fully described later in this proxy statement. Under the terms of the Plan, the Company has the flexibility to utilize a variety of vehicles in designing appropriate long-term incentives. Since the Plan was approved in 2004, the Committee has elected to utilize performance units, which pay out in shares of restricted Common Stock. The number of shares of restricted Common Stock, if any, that each executive officer will receive is tied to the Company's fiscal year net income performance and the closing sales price of the Common Stock on the date of the award.

The Committee meets following each fiscal year-end to approve net income goals at threshold, target and maximum levels for three years hence (the "Performance Period"). At this meeting, the Committee also enters into performance unit award agreements with each executive officer, pursuant to which each executive officer is granted a specified number of performance units, the value of which will be determined based on the Company's actual net income performance for the Performance Period. The number of performance units granted to each named executive officer is based on comparisons of the long-term incentive awards granted to named executive officers of companies within the Hay General Industry Market. The Committee aims for the number of performance units to approximate the median of long-term incentive awards of the Hay General Industry Market.

As noted above, the value of the performance units is dependent on the Company's actual net income results for the Performance Period. If actual net income results are less than the threshold goal for the Performance Period, the value of each performance unit will be zero. If actual net income results are at threshold, the value of each performance unit will be \$0.50. If actual net income results are at target, the value of each performance unit will be \$1.00. If actual net income results are at or above maximum, the value of each performance unit will be \$1.50. If actual results are greater than threshold but less than target, or greater than target but less than maximum, the value of each performance unit will be adjusted proportionately. Target long-term incentive opportunities are designed to approximate the median of the Hay General Industry Market for target net income performance and also take into account the individual circumstances considered in the annual evaluations.

Edgar Filing: LABARGE INC - Form DEF 14A

Following the end of the Performance Period, the Committee meets to determine the value of each performance unit (the "Unit Value") based upon the net income results for the Performance Period. Each executive officer is issued a number of shares of restricted Common Stock equal to the Unit Value times the number of performance units granted to him or her for the Performance Period, divided by the closing price of the Company's Common Stock as of the last trading day of the Performance Period. The restricted Common Stock then vests upon the first to occur of: (i) two additional years of employment; (ii) death or Disability; or (iii) a Change in Control (all as defined in the Plan).

The design of the Company's long-term incentive program provides that each executive officer will have three outstanding grants of performance units at all times. For example, the Committee met following the end of fiscal 2009 to establish threshold, target and maximum net income goals for 2012 and grant each executive officer performance units, the value of which will be determined based on the Company's net income results for fiscal 2012. Therefore, in the current fiscal year (fiscal 2010), each executive officer has outstanding performance units for fiscal years 2010, 2011 and 2012. These performance units will be valued, and restricted stock will be issued, once the net income results for these fiscal years are calculated. The Committee believes that the practice of setting three-year rolling grants is appropriate for the business, as it provides incentive for the executive officers to focus on the long-term health of the Company and serves as a retention tool. The Committee further believes that converting performance units to restricted Common Stock has certain advantages, including: (i) encouraging ownership of the Company's Common Stock by executive officers; (ii) providing a retention incentive through the two-year vesting period; and (iii) allowing for lower dilution, as compared to the granting of stock options.

The number of performance units to be awarded to each named executive officer for fiscal year 2009 were granted in 2006 and were valued based on fiscal year 2009 net income performance, pursuant to the process described above. The Company's net income performance goals for fiscal 2009 were as follows:

| | Threshold | Target | Maximum |
|------------|------------------|-----------------|-----------------|
| Net Income | \$13.00 million | \$14.75 million | \$16.25 million |

As is customary, the Committee met following the end of fiscal year 2009 to determine the value of performance units based on fiscal 2009 actual results. The Company did not meet its threshold net income goal for fiscal 2009 long-term incentive awards, and thus, no named executive officer received a grant of restricted Common Stock for fiscal 2009.

Perquisites and Other Benefits

Our executive officers receive the following benefits in addition to the compensation discussed above: (i) eligibility to participate in the Company's 401(k) plan; (ii) Company-paid interest on deferred compensation; (iii) life insurance policies; (iv) use of Company-leased vehicles, or a vehicle allowance; (v) club dues; and (vi) limited financial planning services. The Committee believes these perquisites are reasonable and competitive and considers the value to be modest. As such, the Committee has not given significant weight to the value of perquisites when designing executive compensation packages.

Executive officers are eligible to receive the same health, dental, disability and group life insurance benefits, and participate in the 401(k) on the same terms, as are available to all other full-time employees of the Company.

As part of the Company's cost savings initiatives, the Company temporarily suspended its 401(k) matching contributions in April 2009. This suspension applies to employees Company-wide, including the named executive officers.

Retirement and Other Post-Termination Benefits

We maintain Executive Severance Agreements with each of our named executive officers. Each Executive Severance Agreement and the Plan contain Change in Control provisions, pursuant to which executive officers receive the benefits more fully described below.

Both the Executive Severance Agreements and the Plan define "Change in Control" as the first to occur of any of the following events: (i) any merger, consolidation, share exchange, or other combination or reorganization involving the Company, irrespective of which party is the surviving entity, excluding any merger, consolidation, share exchange, or other combination involving the Company solely in connection with the acquisition by the Company of any other entity; (ii) any sale, lease, exchange, transfer, or other disposition of all or substantially all of the assets of the Company; (iii) any acquisition (other than pursuant to will, the laws of descent and distribution, gift to a parent, child, spouse or descendant, or pursuant to an employee benefit plan) or agreement to acquire by any person or entity, directly or indirectly, beneficial ownership of 25% or more of the outstanding voting stock of the Company; (iv) during any period of two consecutive years during the term hereof, individuals who at the date of the Agreement, in the case of Executive Severance Agreements, or the Plan, in the case of the 2004 Long Term Incentive Plan, constitute the Board of Directors of the Company (the "Incumbent Directors") cease for any reason to constitute at least a majority thereof, unless the election of each director at the beginning of such director's term has been approved by at least two-thirds of the Incumbent Directors then in office; any such director so approved shall thereafter be an Incumbent Director; (v) a majority of the Board or a majority of the

Edgar Filing: LABARGE INC - Form DEF 14A

stockholders of the Company approve, adopt, agree to recommend, or accept any agreement, contract, offer, or other arrangement providing for any of the transactions described above; (vi) any series of transactions resulting in any of the transactions described above; or (vii) any other set of circumstances which the Board of Directors deems to constitute a Change in Control.

Executive Severance Agreements

Each Executive Severance Agreement provides that, following a Change in Control, the Company will continue to employ the executive officer for a period not less than one year at his or her place of employment immediately prior to the Change in Control or within 50 miles thereof.

During the Change in Control payment period, the executive officer would be entitled to a base salary in the amount not less than the annualized base salary paid or payable to him or her during the month immediately preceding the month in which the Change in Control occurs. He or she would also be entitled to an annual bonus equal to the same percentage of his or her base salary as the average bonuses paid to the executive officer in each of the five fiscal years most recently ended were to his or her base salary in those years, after disregarding the highest and lowest of such percentages. The executive officer would also be entitled, during such one-year period, to all pension, welfare and other employee benefits, fringe benefits and perquisites in amounts and on terms no less favorable than those to which he or she was entitled on the date of the Change in Control. The Agreements also provide that, in the event of termination of the executive officer's employment during such one-year period for reasons other than death, Disability, or Cause (as defined by the Agreements) or voluntarily by the executive officer without Good Reason (as defined by the Agreements), the executive officer would be entitled to a lump sum payment from the Company equal to the sum of: (i) his or her salary and other compensation not yet paid by the Company through the date of termination; (ii) a bonus prorated for the portion of the year through the date of termination; (iii) the product of three times the sum of (x) the executive officer's salary plus (y) the bonus to which he or she would have been entitled for the full fiscal year; plus (iv) accrued vacation pay. The Company would also be required to provide to the executive officer for three years after termination all medical, hospitalization, disability and certain other benefits in amounts and on terms not less favorable than those to which he or she was entitled at the time of termination. If the foregoing amounts were not paid when due, they would bear interest at the rate of 15% per annum. The Agreements provide for appropriate adjustments of such payments if they would be subject to the excise tax imposed by Section 4999 of the Internal Revenue Code of 1986, as amended.

2004 Long Term Incentive Plan

As noted above, executive officers receive performance units to be settled in restricted Common Stock, pursuant to the 2004 Long Term Incentive Plan, as part of the Company's long-term incentive portion of compensation packages. Once issued, the restricted Common Stock vests upon the first to occur of: (i) two additional years of employment; (ii) death or Disability; or (iii) a Change in Control, as defined above. If a Change in Control occurs at any time prior to the end of the second fiscal year following the Performance Period (as defined above), the restricted Common Stock shall become fully vested and immediately transferable. If a Change in Control occurs at any time before the end of the Performance Period, the net income goals with respect to the Performance Period shall be deemed to have been achieved at the maximum level as of the date of the Change in Control, whether or not the Performance Period is complete, and the performance units shall be distributable at the end of the twelve-month period immediately following the Change in Control, subject to forfeiture upon termination of employment other than Retirement, death, Disability or for Good Reason, as defined in the Plan.

Deferred Compensation Plan

Executive officers are also eligible to participate in a non-qualified deferred compensation plan that allows them to defer payments of portions of their salaries and annual bonuses until post-retirement. If an executive officer retires from the Company and has participated in the deferred compensation plan for at least five years, is at least 50 years old and has a deferred compensation balance of at least \$50,000, he or she will receive monthly payments from the Company over a three or fifteen-year period, at the individual's option, the amount of which depends on his or her balance. If all of the above criteria are not met, the executive officer will receive his or her plan balance in one lump sum upon retirement.

Impact of Accounting and Tax Treatments of Executive Compensation

Accounting Treatment:

The Committee has taken into account certain accounting consequences and rules when determining the types of awards that executive officers should receive as part of their long-term incentive components of compensation packages. As such, the Committee makes awards of performance units under the Plan that are settled in shares of restricted Common Stock that the executive officers receive upon vesting.

Tax Treatment:

Section 162(m) of the Internal Revenue Code of 1986, as amended, generally imposes a \$1.0 million limit on the amount that public companies may deduct from compensation paid to the named executive officers. In fiscal 2009, no executive officer received compensation that triggered the applicability of Section 162(m).

Report of the Human Resources Committee

The Company's Human Resources Committee has reviewed and discussed with management the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K. Based upon such review and discussions, the Human Resources Committee has recommended to the Board that the Compensation Discussion and Analysis be included in this proxy statement.

Amounts shown equal the dollars expensed under Statement of Financial Accounting Standards No. 123R ("FAS 123R") under the Company's 2004 Long Term Incentive Plan for awards earned. Each of these awards is expensed over three years (the year in which the performance takes place, plus two additional years for vesting). See Note 17 to the audited financial statements included as part of the Company's Annual Report on Form 10-K for the fiscal year ended June 28, 2009 for a discussion of the assumptions made in the valuation of these amounts under FAS 123R. No new awards were earned in fiscal 2009.

Amounts shown are the balance of expenses of option awards granted in fiscal year 2004 expensed under FAS 123R. See Note 17 to the audited financial statements included as part of the Company's Annual Report on Form 10-K for the fiscal year ended June 28, 2009 for a discussion of the assumptions made in the valuation of these amounts under FAS 123R.

Amounts shown represent interest earned at a rate that exceeded 120% of the applicable federal long-term rate. Mr. LaBarge and Ms. Huber do not defer any portion of their compensation.

Amounts shown for fiscal 2009 include 401(k) employer match, use of auto, club dues, financial planning and life insurance premiums.

2009 Grants of Plan-Based Awards

The following table sets forth additional information about plan-based awards granted in the fiscal year ended June 28, 2009:

(a) Represents awards under the Company's 2004 Long Term Incentive Plan granted in fiscal year 2009 and are applicable for performance during fiscal year 2011. Awards are made in the form of performance units, the value of which will be determined based on the Company's net income performance in fiscal 2011, as more fully described in the Compensation Discussion and Analysis section. The performance units will be paid out in restricted Common Stock based on the closing price of the Company's Common Stock on July 1, 2011. If the threshold net income performance goal for fiscal 2011 is not achieved, no shares of restricted Common Stock will be issued.

As discussed above and in the Compensation Discussion and Analysis, performance units granted under the Company's 2004 Long Term Incentive Plan are paid out in restricted Common Stock depending on the achievement of net income levels and the closing price of the Company's Common Stock on the last day of the fiscal year during which net income performance is measured. Any restricted Common Stock that is issued is subject to a two-year vesting schedule as discussed in the Compensation Discussion and Analysis. During the restriction period, executive officers may exercise full voting rights and are entitled to dividends and other distributions paid with respect to the shares on the same terms as those of the Company's Common Stockholders.

Amounts included for Messrs. Buschling, Nonnenkamp and Parmley include the following amounts reported in the Summary Compensation table in prior fiscal years: Mr. Buschling, \$6,325 in fiscal 2008 and \$4,722 in fiscal 2007; Mr. Nonnenkamp, \$3,160 in fiscal 2008 and \$2,393 in fiscal 2007; and Mr. Parmley, \$6,006 in fiscal year 2008 and \$4,722 in fiscal 2007.

Employment Agreements and Other Post-Termination Agreements with Executive Officers

In 2005, the Company entered into an Executive Severance Agreement (each an "Agreement" and collectively, the "Agreements") with each of Messrs. Craig E. LaBarge, Randy L. Buschling, Donald H. Nonnenkamp, John R. Parmley and Ms. Teresa K. Huber (collectively the "Executive Officers," or individually the "Executive Officer"). Each Agreement provides that, following a Change in Control (as defined by the Agreement), the Company will continue to employ the Executive Officer for a period not less than one year at his or her place of employment immediately prior to the Change in Control or within 50 miles thereof. During that period, the Executive Officer would be entitled to a base salary in the amount not less than the annualized base salary paid or payable to him or her during the month immediately preceding the month in which the Change in Control occurs. He or she would also be entitled to an annual bonus equal to the same percentage of his or her base salary as the average bonuses paid to the Executive Officer in each of the five fiscal years most recently ended, after disregarding the highest and lowest of such percentages. The Executive Officer would also be entitled, during such one-year period, to all pension, welfare and other employee benefits, fringe benefits and perquisites in amounts and on terms no less favorable than those to which he or she was entitled on the date of the Change in Control.

Each Agreement also provides that, in the event of termination of the Executive Officer's employment during such one-year period for reasons other than death, disability, or Cause (as defined by the Agreement) or voluntarily by the Executive Officer with Good Reason (as defined by the Agreement), the Executive Officer would be entitled to a lump sum payment from the Company equal to the sum of: (i) his or her salary and other compensation not yet paid by the Company through the date of termination; (ii) a bonus prorated for the portion of the year through the date of termination; (iii) the product of three times the sum of (x) the Executive Officer's salary plus (y) a bonus payment equal to the average of the three previous years bonus payments; and (iv) accrued vacation pay. The Company would also be required to provide to the Executive Officer for three years after such a termination all medical, hospitalization, disability and certain other benefits in amounts and on terms not less favorable than those to which he or she was entitled at the time of termination. If the foregoing amounts were not paid when due, they would bear interest at the rate of 15% per annum. The Agreements provide for appropriate adjustments of such payments if they would be subject to the excise tax imposed by Section 4999 of the Internal Revenue Code of 1986, as amended.

To estimate the amount payable by the Company upon a Change in Control, it is assumed that the named executive officers are terminated immediately upon the Change in Control rather than employed for one year. Assuming the Change in Control took place on the last day of fiscal year 2009, the following payments would be due to: Mr. LaBarge, \$2,336,371; Mr. Buschling, \$1,535,832; Mr. Nonnenkamp, \$1,254,240; Mr. Parmley, \$1,057,350; and Ms. Huber, \$955,143.

In the event of a Change in Control of the Company, the named executive officers are entitled to receive accelerated payments under the Company's 2004 Long Term Incentive Plan. Assuming the Change in Control took place on the last day of fiscal year 2009, those Change-in-Control payments would be as follows: Mr. LaBarge, \$1,500,000; Mr. Buschling, \$960,000; Mr. Nonnenkamp, \$645,000; Mr. Parmley, \$324,000; and Ms. Huber, \$324,000.

The Company has entered into a Competitive Practices Agreement with each of its Executive Officers. The Agreements restrict Executive Officers from engaging in competitive practices with the Company for a period of two years following termination of employment.

Certain Relationships and Related Transactions

To identify and address any concerns regarding related party transactions and ensure their proper disclosure, the Company requires such

Edgar Filing: LABARGE INC - Form DEF 14A

transactions to be reported in its questionnaires distributed to Directors and officers each year and mandates that all employees and Directors report to the Corporate Secretary all transactions presenting potential conflicts of interest pursuant to its Policy on Business Conduct & Ethics. As stated in its charter, the Company's Audit Committee reviews and approves all transactions with related persons requiring disclosure pursuant to Item 404(a) of Regulation S-K.

The Audit Committee will take into account any factors it deems relevant in determining whether to approve a transaction. Such factors may include:

the terms of the transaction;

•

the potential impact of the transaction on the Company's results of operations, financial position and cash flows;

•

whether the terms of the transaction are no less favorable to the Company than if the other party did not have an affiliation or other relationship with a related person; and

•

the identity of the related person and the impact of the transaction on the related person's independence.

•

During fiscal 2009, no related party transactions were entered into or proposed that require disclosure pursuant to Item 404(a) of Regulation S-K.

PROPOSAL 2:

RATIFICATION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

KPMG LLP ("KPMG") has been appointed independent registered public accountants for the Company, for the fiscal year ending June 27, 2010, by the Audit Committee with the approval of the Board of Directors. KPMG has been the Company's independent accountants since 1980. Although the appointment of the independent registered public accountants does not require the approval of Common Stockholders, the Board of Directors believes Common Stockholders should participate in the appointment through ratification. A representative of KPMG is expected to be present at the Annual Meeting with the opportunity to make a statement, if he so desires, and he is expected to be available to respond to appropriate questions raised at the Annual Meeting.

The affirmative vote of the holders of a majority of the outstanding shares of Common Stock casting a vote at the Annual Meeting is necessary for the ratification of the selection of the independent registered public accountants. In the event that a majority of the shares are not voted in favor of ratification, the Audit Committee will reconsider its selection.

Independent Registered Public Accountants' Fees

KPMG LLP served as the Company's independent registered public accountants for the fiscal years ended June 28, 2009 and June 29, 2008.

Aggregate fees for professional services rendered for the Company by KPMG for such fiscal years were:

| | Fiscal Year Ended | |
|--------------------|------------------------------|--------------------------|
| | June 28, 2009 | June 29, 2008 |
| Audit fees | \$576,000 | \$435,500 |
| Audit-related fees | --- | --- |
| Tax fees | --- | 62,000 |
| All other fees | 12,000 | --- |
| Total | \$588,000 | \$497,500 |

Audit fees were for professional services rendered for the audits of the consolidated financial statements of the Company and its benefit plans and the review of documents filed by the Company with the SEC. These fees include the audit of internal controls in compliance with Section 404 of the Sarbanes-Oxley Act of 2002.

Edgar Filing: LABARGE INC - Form DEF 14A

Other fees in fiscal 2009 were for professional services rendered to assist the Company in acquisition due diligence. Tax fees in fiscal 2008 were for professional services rendered in connection with the Company's Internal Revenue Service audit covering fiscal years 2005 and 2006.

The Audit Committee has adopted policies and procedures relating to the approval of all audit and non-audit services that are to be performed by the Company's independent registered public accountants. These policies generally provide that the Company will not engage the independent registered public accountants to render audit or non-audit services unless the service is specifically approved in advance by the Audit Committee. The Audit Committee has granted the Vice President and Chief Financial Officer the authority to engage KPMG for audit-related and tax services not exceeding \$25,000. Such engagements are then formally approved by the Audit Committee at its next meeting. All fees billed for fiscal years 2009 and 2008 were pre-approved by the Audit Committee.

**The Board of Directors Recommends That You Vote
"FOR" Ratification of the Selection of KPMG LLP as the Company's Independent
Registered Public Accountants for Fiscal 2010.**

Report of the Audit Committee

The primary role of the Audit Committee is oversight of the Company's financial reporting process, public financial reports, internal accounting and financial controls, and the independent audit of the annual consolidated financial statements. The Board, in its business judgment, has determined that the members of the Audit Committee are "independent" and "financially literate" as required by the NYSE Amex. In addition, the Board has determined, in its business judgment, that Lawrence J. LeGrand qualifies as an "audit committee financial expert" as that term is defined by the SEC. The Committee acts under a charter. A current copy of the charter is available on the Company's website, www.labarge.com. The Committee reviews the adequacy of the charter at least annually.

Committee members are not professionally engaged in the practice of accounting or auditing, and are not experts under the Securities Act of 1933 in either of those fields, or in auditor independence. In carrying out its responsibilities, the Committee looks to management and the independent auditors. Management has the primary responsibility for the financial statements and the reporting process, including the systems of internal controls. The independent auditors are responsible for auditing the Company's consolidated financial statements and expressing an opinion as to their conformity to accounting principles generally accepted in the United States.

In the performance of its oversight function, the Audit Committee meets at least each quarter with management to review the Company's quarterly financial results and with the independent auditors to review the results of their quarterly review before the publication of the Company's earnings press releases. The Audit Committee assists the Board in establishing procedures for receipt and treatment of complaints received by the Company regarding accounting, internal controls and other matters, including the confidential anonymous submission by the Company's employees, received through established procedures, of any concerns regarding questionable accounting or auditing matters. The Audit Committee has reviewed and discussed with management and the independent auditors the Company's fiscal 2009 audited consolidated financial statements. Management and the independent auditors told the Audit Committee that the Company's financial statements were fairly stated in accordance with generally accepted accounting principles. The Audit Committee also has discussed with the independent auditors the matters required to be discussed by Statement on Auditing Standards No. 61, as amended, as adopted by the Public Company Accounting Oversight Board (the "PCAOB") in Rule 3200T, relating to communication with audit committees. In addition, the Audit Committee has received from the independent auditors the written disclosures and letter required by applicable requirements of the PCAOB regarding the independent auditors' communications with the Audit Committee concerning independence and has discussed with the independent auditors the independent auditors' independence. The Audit Committee has considered whether the independent auditors' provision of non-audit services to the Company is compatible with maintaining the auditors' independence.

The Audit Committee discussed with the Company's independent auditors the overall scope and plans for their audit. The Audit Committee met with the independent auditors, with and without management present, to discuss the results of their examinations, their evaluations of the Company's internal controls and the overall quality of the Company's financial reporting.

Edgar Filing: LABARGE INC - Form DEF 14A

The Audit Committee has reviewed and discussed with management its assessment and report on the effectiveness of the Company's internal control over financial reporting as of June 28, 2009, which it made using the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission in Internal Control - Integrated Framework. The Audit Committee has also reviewed and discussed with the independent auditors its report on internal control over financial reporting. The Company published these reports in its Annual Report on Form 10-K for the fiscal year ended June 28, 2009.

The Audit Committee pre-approved all services provided by the independent auditors in fiscal 2009. Pre-approval includes audit services and other services. In some cases, the full Audit Committee provides pre-approval for up to a year, related to a particular defined task or scope of work and subject to a specific budget. In other cases, the Chairman of the Audit Committee has the delegated authority from the Audit Committee to pre-approve additional services, and the Chairman then communicates such pre-approvals to the full Audit Committee. To avoid certain potential conflicts of interest, the law prohibits a publicly traded company from obtaining certain non-audit services from its independent registered public accounting firm. The Company obtains these services from other service providers as needed. See "Proposal 2: Ratification of Appointment of Independent Registered Public Accounting Firm" for more information regarding fees paid to the independent auditor.

Based on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors, and the Board has approved, that the Company's fiscal 2009 audited consolidated financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended June 28, 2009 for filing with the SEC.

The Audit Committee has retained KPMG to audit the Company's financial statements for fiscal 2010.
