## PROPOSAL 1

## ELECTION OF DIRECTORS

Each director of the Company is elected annually and holds office for the ensuing year and until his successor has been elected and qualified. The Company's By-laws state that the number of directors constituting the entire Board of Directors shall be determined by resolution of the Board of Directors. The Board of Directors has set the number of directors at five effective as of June 4, 2009.

Shares represented by all proxies received by the Board of Directors and not marked as withholding authority to vote for any individual director or for all directors will be voted FOR the election of all the nominees, unless one or more nominees is unable or unwilling to serve. The Board of Directors knows of no reason why any such nominee would be unable or unwilling to serve as a director, but if such should be the case, proxies may be voted for the election of some other person as the Board of Directors may recommend in his place, or for fixing the number of directors at a lesser number. The affirmative vote of a majority of the shares present, in person or by proxy, and entitled to vote on the election of directors is required to elect each member of the Board of Directors. See "Voting Procedures."

### Certain Relationships and Related Transactions

We are not now, nor have we been since the beginning of 2008, a party to any transaction, nor do we contemplate entering into any proposed transaction, with any related person (which term includes any of our directors or executive officers or any immediate family member of such directors or executive officers) the value of which exceeds \$75,385 (approximately one percent (1%) of the average of our total assets at year-end for the last two completed fiscal years), and in which any related person had or will have a direct or indirect material interest.

### Policies And Procedures For Related Party Transactions

Our Board of Directors reviews, approves and/or ratifies all transactions involving related persons. The purpose of the review is to determine that such transactions are conducted on terms not materially less favorable to us than what would be usual and customary in transactions between unrelated persons and, in the case of transactions involving Directors, to determine whether such transactions affect the independence of a Director in accordance with the relevant rules and standards issued by the Securities and Exchange Commission. Our Code of Ethics provides guidance on business relations between us and our Directors, officers, and employees. We filed our Code of Ethics with our Annual Report on Form 10-K in 2005. The Code of Ethics is available on our website at <http://www.mficcorp.com/nethics.html>.

### Section 16(a) Beneficial Ownership Reporting Compliance

During the fiscal year ended December 31, 2008, William Conroy failed to file in a timely fashion one report required by Section 16(a) of the Exchange Act. Specifically, Mr. Conroy received an option to purchase 20,000 shares of common stock on March 18, 2008. A Form 4 disclosing this grant was not filed until March 28, 2008. Based solely on a review of Forms 3, 4 and 5 and amendments thereto furnished to the Company by its reporting persons, no other director, officer or beneficial owner of more than ten percent of any class of securities of the Company failed to file on a timely basis any report as required by Section 16(a) of the Exchange Act during the most recent fiscal year.

### Board of Directors, Committees and Meetings

The business and affairs of the Company are managed on a day-to-day basis by the Company's management and executive officers, under the supervision and review of the Board of Directors. Each of the Directors, other than Mr. Ferrara, is independent in accordance with the standards of the Securities and Exchange Commission. In accordance with the disclosure requirements of the Securities and Exchange Commission, although we are not presently listed on any national securities exchange, each of the Directors, other than Mr. Ferrara, is independent in accordance with the standards of the American Stock Exchange. The Board of Directors of the Company held eight meetings and acted by unanimous written consent five times during the fiscal year ended December 31, 2008.

Ratification by a majority of the full Board of Directors is required with respect to decisions taken by the committees. During the fiscal year ended December 31, 2008, each of the directors attended more than 75% of (i) the total number of meetings of the Board of Directors, and (ii) the total number of meetings held by all committees on which each director served, for the period during which such director held such position. Written communications from the Company's stockholders can be sent to the Board of Directors at the Company's principal business address and marked to the attention of the specific Director with which the stockholder wishes to communicate, or if not to any specified director, then to the Chairman of the Board of Directors. All stockholder communications are forwarded to the specific Director to whom it is addressed. If addressed to the Board of Directors as a whole, the Chairman of the Board of Directors reviews each communication and determines, in his judgment, whether to forward it to the Board of Directors as a whole. This process has been adopted by a majority of the Company's independent directors.

The Company expects, absent extraordinary circumstances, that each member of the Board of Directors will attend the Company's Annual Meeting of Stockholders. Last year, all then current members of the Board of Directors personally attended the 2008 Annual Meeting of Stockholders.

#### The Nominating and Corporate Governance Committee

The Board of Directors of the Company has a standing Nominating and Corporate Governance Committee comprised of Messrs. Little, Roy and Uveges, each of whom is independent in accordance with the standards of the Securities and Exchange Commission. In accordance with the disclosure requirements of the Securities and Exchange Commission, although we are not presently listed on any national securities exchange, each of the Directors on the Nominating and Corporate Governance Committee is independent in accordance with the standards of the American Stock Exchange.

The Nominating and Corporate Governance Committee has a charter, which is reviewed annually by the Nominating and Corporate Governance Committee and the entire Board of Directors. The charter was filed with the Company's proxy statement in 2008, and is available on the Company's website at [http://www.mficcorp.com/index.php?option=com\\_content&task=view&id=44&Itemid=42](http://www.mficcorp.com/index.php?option=com_content&task=view&id=44&Itemid=42).

The Nominating and Corporate Governance Committee reviews and reports to the Board on an occasional basis regarding the size and composition of the Board and recommends to the Board nominees for election to the Board. The Nominating and Corporate Governance Committee met twice during 2008.

The Nominating and Corporate Governance Committee accepts and considers nominations by directors, executive officers, employees, advisors, consultants and security holders. The Company may hire an outside consultant to help in the search for a new director or executive officer. Stockholders should submit nominations for director positions in writing to the Company's Board of Directors, which should be mailed to the Company's principal mailing address, addressed to the attention of the Corporate Secretary. When the Nominating and Corporate Governance Committee becomes aware of a vacant seat on the Board of Directors, whether because of retirement or resignation of a director or otherwise, the Nominating and Corporate Governance Committee, or a subcommittee thereof, reviews all nominations received, and recommends whether nominees should be submitted to the full Board of Directors. Neither the Nominating and Corporate Governance Committee nor the Board of Directors has established any specific minimum criteria or qualifications that a nominee must possess. The Nominating and Corporate Governance Committee and the Board of Directors review all nominees on the basis of the nominee's qualifications, including the nominee's independence, education and business experience.

#### The Audit Committee

The Audit Committee, which currently consists of Messrs. Walters, Little, Roy and Uveges, each of whom is an independent director under the standards of the Securities Exchange Commission, oversees the accounting, financial reporting and tax functions of the Company, including matters relating to the internal control over financial reporting and the appointment and activities of our independent accountants. In accordance with the disclosure requirements of the Securities and Exchange Commission, although we are not presently listed on any national securities exchange, each of the members of the Audit Committee is independent in accordance with Section 121(B) of the listing standards of the American Stock Exchange. Mr. Walters, the Chairperson of the Audit Committee, and Mr. Uveges are each an Audit Committee “financial expert,” as defined under the rules of the Securities Exchange Commission. The Audit Committee met four times last year.

The Audit Committee has a charter, which is reviewed at least annually by the Audit Committee and the entire Board of Directors. The Audit Committee charter was last revised on January 16, 2003 and was filed with the Company’s proxy statement in 2005. The Audit Committee charter is available on the Company’s website at [http://www.mficcorp.com/index.php?option=com\\_content&task=view&id=44&Itemid=42](http://www.mficcorp.com/index.php?option=com_content&task=view&id=44&Itemid=42).

### Compensation Committee Interlocks and Insider Participation

The Compensation Committee, which currently consists of Messrs. Little, Roy and Uveges, determines who receives stock options under the Company's stock plans (except for the 2006 Stock Plan, under which grants that are automatically made to non-employee directors) and also reviews and approves senior executive remuneration. Each of the members of the Compensation Committee is independent in accordance with the standards of the Securities Exchange Commission. In accordance with the disclosure requirements of the Securities and Exchange Commission, although we are not presently listed on any national securities exchange, each of the members of the Compensation Committee is independent in accordance with the standards of the American Stock Exchange. ## EXECUTIVE COMPENSATION

### Compensation Discussion and Analysis

This section discusses the material elements of compensation awarded to, earned by or paid to the executive officers identified in the Summary Compensation Table in this proxy statement (whom we refer to as our named executive officers).

The Compensation Committee of our Board of Directors generally has responsibility for reviewing and determining on both an annual and an as-needed basis the compensation of our named executive officers, directors, and key employees and reporting to the Board regarding the foregoing. The Compensation Committee (also referred to as the “Committee”) also has responsibility for administering our stock plan, determining the number of stock options to be granted under the plan and reporting to the Board regarding the foregoing. None of the named executive officers are members of the Compensation Committee. The current Compensation Committee members are Leo Pierre Roy (Chairman), James N. Little and George Uveges.

### Overview of Compensation Programs and Objectives

The objectives of the Compensation Committee in recommending the levels and components of compensation for the named executive officers and key employees are to:

1. Attract, motivate and retain talented and dedicated executives and key employees;
2. Motivate performance to achieve our established key performance metrics, goals and objectives; and
3. Provide both cash and equity incentives that align the interests of the named executive officers and key employees with the long-term interests of our stockholders.

The Committee reviews the achievement of corporate goals and individual contributions by our executives to our Company’s success. The Committee monitors the results of our executive compensation program to assure that the compensation paid to the named executive officers and key employees provides overall competitive pay levels and appropriately rewards performance. The Committee relies on judgment and not upon rigid guidelines or formulas in determining the amount or mix of compensation elements for each named executive officer and key employee. Factors affecting the Committee’s judgment include performance compared to strategic goals, the nature of the named executive officer’s or key employee’s responsibilities and his or her effectiveness in leading our initiatives to achieve our goals. Our Chief Executive Officer, as the manager of the members of the executive team, assesses the executives’ and key employees’ individual contributions to their respective departmental goals and makes recommendations to the Committee with respect to increases in base salary, discretionary bonus and long-term incentive awards, for each member of the executive team. The Committee evaluates, discusses and approves or modifies these recommendations. Each member of the Board who is independent in accordance with the standards of the Securities and Exchange Commission is permitted to attend the Committee meetings and participate in the discussion. However, approval of each named executive officer’s and key employee’s compensation is made by the Committee and recommended to the Board for ratification. As described in more detail below, the material components of the named executive officers’ and key employees’ compensation include base salary, discretionary bonus, long-term incentive awards, limited change-in-control benefits and related severance protection, and other customary employee benefits. The Committee reviews the total compensation package for each named executive officer and key employee, including base salary, bonuses and incentive awards, and adjusts these individual components to achieve a desired pay and performance incentive package. The Committee believes that each element of our executive and key employee compensation program helps us to achieve one or more of our compensation objectives.

Base salaries, option grants, change-in-control benefits and other employee benefits are all primarily intended to attract and retain qualified executives and key employees. The value of these components in any given year is less dependent on performance than the other elements that comprise our executives' and key employees' compensation package. The Committee believes that we need to provide the named executive officers and key employees with a level of predictable compensation in order to attract and retain top-caliber executives and key employees' and reward their continued services. The Committee's general philosophy is that discretionary bonuses and long-term incentive compensation should fluctuate with our success in achieving financial and other goals, and that we should continue to use long-term compensation such as stock options to align stockholder interests with the interests of the executives and key employees. The Committee also believes that a mix of longer-term and short-term elements allows us to achieve the dual goals of attracting and retaining executives and key employees while motivating their continued performance and aligning their financial interests with those of our stockholders.

The Committee has used relevant data points for comparable companies, such as salary surveys, to assist it in determining the compensation for each of our named executive officers. The Committee has found it difficult to benchmark the compensation levels of our named executive officers within a peer group of comparable companies due to the unique nature, size, and global reach of our business and technology. The Committee has evaluated the compensation practices of other high technology companies, including other publicly-held advanced materials, advanced technologies companies, and small capital equipment manufacturers, in Massachusetts, in determining an appropriate level and mix of compensation. Among other sources, the Committee used the Watson Wyatt Executive Management Survey 2007/2008, a Mercer Compensation Management Survey, analyses of benchmark job data from Salary.com, and the 2007 Equity Report from Equilar, Inc.

The Committee subscribes to the philosophy of "Pay-for-Performance", linking elements of each executive officer's compensation to their job performance and their role in our overall financial performance. Performance is tied to specific goals and metrics, generally compared to the annual financial plan adopted by the Company. Performance is considered on an annual basis, with goals for revenue and gross margin, as well as execution of critical performance goals such as strategic planning, technology advancement, and new product development and introduction. In considering our compensation strategy, the Committee acknowledges the goal of building stockholder value. To do this the executive officers need to:

- grow the Company;
- increase profitability;
- improve quality;
- increase customer focus;
- advance the technology;
- penetrate additional markets and diversify by industry and geography; and

• develop employees to succeed by giving them career paths and internally developing the future leadership of the Company.

#### Current Material Elements

**Base Salary.** In contrast to 2007, there was significant restructuring of senior management in 2008. Establishment of base salaries was done through consultation between the Compensation Committee and the CEO as part of the recruiting and hiring process. Base salary is paid in cash.

The Committee customarily determines any adjustments to the base salary of each of our named executive officers at the end of the year preceding the year in which the adjustment will take effect or at the start of the year in which the adjustment will take effect. In December 2005, the Committee, after reviewing management's budget/forecast for 2006, recommended that the base salaries of our named executive officers remain unchanged for 2006. The Board adopted that position. The base salary that we paid to each of our named executive officers in 2006 is the amount reported for such officer in the line corresponding to 2006 under the "Salary" column of the Summary Compensation Table below. As a result of our strong financial performance in 2006, which included an increase in revenue of 35% compared to 2005 and a record performance with respect to revenues in the fourth quarter of 2006, and based on management's budget/forecast for 2007 and a desire to account for inflation in the general economy, the Board adopted increases in base salary at year-end 2006 for 2007 of approximately 12% for Mr. Gruverman and

approximately 4.5% for each of the other named executive officers. The base salary that we paid to each of our named executive officers in 2007 is the amount reported for such officer in the line corresponding to 2007 under the "Salary" column of the Summary Compensation Table below. At the end of 2007, the Committee recommended to the Board that base salaries in 2008 remain at 2007 levels due to an anticipated worsening of general economic conditions and its potential negative effect on our financial performance for 2008. The Board adopted that position. The base salary that we paid to each of our named executive officers in 2008 is the amount reported for such officer in the line corresponding to 2008 under the "Salary" column of the Summary Compensation Table below.

**Discretionary Bonuses.** The Committee uses its discretion in recommending discretionary bonuses. That discretion includes whether to grant bonuses at all, the formula for determining the amount of the bonuses, and the individuals participating in the discretionary bonus pool. In setting bonus targets, the Committee considers the expected contributions of the individuals based on their Key Performance metrics, and the anticipated financial performance of the Company. Each employee eligible for a discretionary bonus has Key Performance metrics established at the beginning of the year in discussions between the employee and his or her supervisor. These Key Performance metrics are reviewed by the Compensation Committee, which uses them at year end, in consultation with the Chief Executive Officer, in determining eligibility for a discretionary bonus. Discretionary bonuses, if any, for our named executive officers are paid in cash upon the achievement of certain goals. Such bonuses are structured either as payments on an individual basis to a particular named executive officer or as payments to some or all of the named executive officers from a bonus pool to which they are entitled to a certain percentage. The Committee has customarily determined whether or not to grant discretionary bonuses to any of our named executive officers at the end of the year preceding the year in which the bonus is granted or at the start of the year in which the bonus is granted. The Committee may recommend that discretionary bonuses be paid on an individual basis to a particular named executive officer using criteria which the Committee believes to be relevant, such as the performance of the particular officer or the accomplishment of specific objectives by such officer, as well as other factors such as our profitability, revenue, cash flow, customer generation, market share and industry position. In connection with the senior management restructuring during 2008, the amount and criteria for the potential bonuses for 2008 was determined through consultation between the Compensation Committee and the CEO as part of the recruiting and hiring process.

No formal discretionary bonus plan was established at the end of 2007 for 2008, except for the CEO. As we did not meet our financial goals for 2008 no bonus was earned by the CEO for 2008. As noted above, bonus potential was addressed on an individual basis as named executive officers were hired. Based on achievement of certain performance metrics, including improvements in quality standards, a modest bonus was earned by Mr. Conroy in 2008 and is expected to be paid in 2009.

In December 2005, the Committee recommended that our named executive officers participate in a bonus pool for possible payment during 2006 after actual financial performance became measurable. The pool was established as a function of our revenue and gross profit margin based on six-month and twelve-month results. The named executive officers' percentage of participation was determined pro rata based on their salaries. The Board adopted the Committee's recommendation and established the bonus pool for 2006. Bonuses from the 2006 pool were to be paid at mid-year and following year-end depending on the finalized financial results for the respective accounting period, as set forth below.

If at June 30, 2006, minimum revenue and gross margin for the six months then ended were at the minimum level indicated in the table below, the amount shown in the final column of such table would be placed in the mid-year bonus pool.

June 30, 2006

Six-month minimum revenue	Six-month minimum gross margin	Placed in mid-year bonus pool
\$6.6 million	52.0%	\$ 15,000

If at December 31, 2006, minimum revenue and gross margin for the twelve months then ended were at the minimum levels indicated in the table below, the amount(s) shown in the final column of such table would be placed in the year-end bonus pool.

December 31, 2006

Twelve-month minimum revenue	Twelve-month minimum gross margin	Placed in year-end bonus pool
\$14.0 million	52.0%	\$ 25,000
\$15.0 million	52.0%	Additional \$25,000
\$15.6 million	52.0%	Additional \$25,000

Since our revenue for the six-months ended June 30, 2006 exceeded the Committee's threshold of \$6.6 million, with a minimum gross profit margin of 52%, and our revenue for the twelve-months ended December 31, 2006 exceeded the Committee's threshold of \$15.6 million, with a minimum gross profit margin of 52%, we placed \$15,000 and \$75,000, respectively, in the bonus pools for the six-month and twelve-month periods and allocated the bonuses among the named executive officers. The corresponding bonuses that we paid to each of our named executive officers for fiscal year 2006 are shown in the "Non-Equity Incentive Plan Compensation" column of the Summary Compensation Table below.

In December 2006, the Committee recommended that our named executive officers participate in a bonus pool for possible payment during 2007 after actual financial performance became measurable. Similar to the prior year, the pool was established as a function of our revenue and gross profit margin based on six month and twelve month results. The named executive officers' percentage of participation was determined based on their expected contribution to our financial performance and the total compensation targets for such individuals. The bonus pools at mid-year and following year-end were allocated by the Committee to the following individuals in the following percentages:

- a. I. Gruverman—25%
- b. R. Bruno—25%
- c. T. Hoarty—20%
- d. J. Swig—15%
- e. D. Riordan—15%

The Board adopted the Committee's recommendation and established the bonus pool for 2007. Bonuses from the 2007 pool were to be paid at mid-year and following year-end depending on the finalized financial results for the respective accounting period, as set forth below.

If at June 30, 2007, minimum revenue and gross margin for the six months then ended were at the minimum levels indicated in the table below, the amount(s) shown in the final column of such table would be placed in the mid-year bonus pool.

June 30, 2007

Six-month minimum revenue	Six-month minimum gross margin	Placed in mid-year bonus pool
\$8.0 million	54.0%	\$ 15,000
\$8.5 million	54.5%	Additional \$15,000
\$9.0 million	55.0%	Additional \$20,000

The maximum amount that could have been placed in the mid-year bonus pool at June 30, 2007 was \$50,000, an increase of more than three-fold from the prior year. If the mid-year revenue and gross margin goals were not attained, the applicable portion of the bonus pool set forth in the last column of the above table would be forfeited and would not be available for distribution at year-end or any other time.

If at December 31, 2007, minimum revenue and gross margin for the twelve months then ended were at the minimum levels indicated in the table below, the amount(s) shown in the final column of such table would be placed in the year-end bonus pool.

December 31, 2007

Twelve-month minimum revenue	Twelve-month minimum gross margin	Placed in year-end bonus pool
\$16.5 million	54.0%	\$ 35,000
\$17.5 million	54.5%	Additional \$30,000

\$18.5 million	55.0%	Additional \$25,000
----------------	-------	---------------------

The maximum amount that could have been placed in the year-end bonus pool at December 31, 2007 was \$90,000, an increase of 20% from the prior year. The mid-year and year-end goals set forth above were minimum thresholds. The Board reserved the right to make further bonus recommendations if we achieved higher levels of revenue and gross margin. However, financial performance between the levels indicated was not to be prorated.

We did not achieve our financial goals for 2007 and did not attain the revenue and gross margin targets described above. As a result, no bonuses were earned under the bonus pool in 2007, as shown in the "Non-Equity Incentive Plan Compensation" column of the Summary Compensation Table below.

The Committee may recommend that discretionary bonuses be paid on an individual basis to a particular named executive officer using criteria which the Committee believes to be relevant, such as the performance of the particular officer or the accomplishment of specific objectives by such officer, as well as other factors such as our profitability, revenue, cash flow, customer generation, market share and industry position. The additional bonus that we paid to our President and Chief Operating Officer, Mr. Robert P. Bruno, was the result of our achievement of the revenue and gross profit margin for the twelve-months ended December 31, 2006 set forth above is shown in the "Non-Equity Incentive Plan Compensation" column of the Summary Compensation Table below. In December 2006, the Board adopted a Special Incentive Compensation Program for Mr. Gruverman that could have resulted in payments to Mr. Gruverman in 2007 in a maximum aggregate amount of \$50,000 if certain personal and Company milestones were met. Mr. Gruverman did not receive any bonus payments in 2007 under this Program.

No formal discretionary bonus plan was established for 2008, except for Mr. Ferrara. Instead, bonus potential was addressed on an individual basis as named executive officers were hired. Due to our overall financial performance in 2008, with the exception of Mr. Conroy described above, no bonuses were paid during that year to any named executive officer, including neither of Mr. Ferrara or Mr. LeClair pursuant to their employment agreement and offer letter, respectively. Please see the "Employment Agreements" section following the "Summary Compensation Table" below for additional information.

**Long-Term Incentive Compensation.** Periodically, the Committee grants long-term incentive compensation to our named executive officers in order to provide a long-term incentive which is directly tied to the performance of our stock. These grants provide an incentive to maximize stockholder value by providing the executives an equity interest which further aligns their interests with those of the stockholders. Vesting periods associated with such grants are used to retain our named executive officers and to emphasize the long-term aspect of contribution and performance. In making grants of long-term incentive compensation to our named executive officers, the Committee considers a number of factors, including our performance, the performance of such persons, the achievement of specific delineated goals, the responsibilities of such persons, the number of stock options and other awards each such person currently possesses and the underlying value of the options and other awards held.

Our stockholders adopted our 2006 Stock Plan on June 20, 2006. Upon the adoption of the 2006 Stock Plan, we ceased granting new options and other awards under our 1988 Stock Plan and our 1989 Non-Employee Director Plan. The Committee will continue to administer our 1988 Stock Plan and our 1989 Non-Employee Director Plan so long as awards granted under such plans remain exercisable. Under the 2006 Stock Plan, the Committee may grant awards in the form of stock options, restricted share rights, performance share rights and stock appreciation rights.

**Stock Options.** Pursuant to the terms of the 2006 Stock Plan, stock options granted to our named executive officers usually have a term of ten years. The exercise price of these grants is 100% of the closing price of the underlying Common Stock on the date of grant. In general, the options granted to our named executive officers vest in equal annual installments over a four-year period beginning one year after the date of grant. The Committee may, in certain instances, adjust the vesting period for performance-based options. In 2008 the Committee decided to change its approach to granting options by eliminating an automatic option grant of five percent (5%) of salary when a new employee was hired. Instead, an option grant upon hire is now considered on a case-by-case basis. The Committee also reconsidered the biannual option grant of five percent (5%) of salary, and decided that option grants would be based on performance, with management recommending the distribution of a pool of options to non-executive employees, depending on individual contribution. The Committee will continue to determine any option grants to executives in its discretion.

**Restricted share rights, performance share rights and stock appreciation rights.** Restricted share rights typically "cliff vest," all at one time, at a date several years subsequent to their grant date. Performance restricted share rights vest upon the achievement of milestones as defined by the Committee. Stock appreciation rights, which may be paid in cash, allow the Committee to award units that derive their value from the appreciation in our stock without the issuance of additional shares. We did not issue any awards of restricted share rights, performance share rights or stock appreciation rights to our named executive officers in 2006, 2007 or 2008. Awards of restricted stock and stock appreciation rights are not currently intended to comprise a major part of our long-term incentive compensation strategy. The Committee may elect, however, from time to time, to grant these types of awards as particular situations arise.

The Committee has customarily determined whether or not to grant long-term incentive compensation to our named executive officers at the end of a year or at the start of a year. The Committee adopted a new policy in 2008 to grant long-term incentive compensation based upon the named executive officers' performance after the conclusion of the year in which the performance occurred. This approach provides the Committee with a retrospective view on the

performance of such individuals before deciding whether to grant the incentive compensation. The aggregate amount as determined under FAS No. 123R recognized for purposes of our financial statements for 2007 and 2008 with respect to options granted to the named executive officers is shown in the “Summary Compensation Table” below. The grant date value of the options and other long-term incentive compensation awarded to the named executive officers in 2007 and 2008 as determined under FAS No. 123R for purposes of the financial statements is shown in the “Grants of Plan-Based Awards Table” below. The “Grants of Plan-Based Awards Table” and related narrative “Description of Summary Compensation and Plan-Based Awards Tables” section below provide additional detail regarding the options and other long-term incentive compensation granted to the named executive officers in 2007 and 2008, including the vesting and other applicable terms.

Equity Grant Practices. The Committee may grant awards to our named executive officers or other eligible participants under our 2006 Stock Plan at any time during the year, including in connection with the hiring or promotion of employees or based upon other special circumstances or performance. In accordance with longstanding policy, we do not backdate or reprice options or grant options retroactively. In addition, we do not coordinate grants of options so that they are made before announcements of favorable information, or after announcements of unfavorable information. Our options are granted at fair market value (deemed to be the closing price of the underlying Common Stock on the date of grant) on a fixed date or event (such as the first Board meeting following an employee's hire); with all required approvals obtained in advance of or on the actual grant date. Board and Compensation Committee meetings are generally scheduled months in advance and scheduling decisions are made without regard to our anticipated earnings or other major announcements. In 2006, we ceased our general practice of granting options to new employees on, or effective as of, their date of hire and instead instituted a policy, subject to limited exceptions at the discretion of the Board, whereby options are granted to such individuals effective as of the next regularly scheduled Board meeting following their date of hire. In 2008, we ceased our general practice of granting options to all new employees. Instead, options for new employees are determined on a case by case basis as part of their overall compensation package and such options are granted at the next regularly scheduled board meeting following their date of hire.

Change-in-Control Benefits and Severance Protection. The change-in-control benefits and related severance protection provided to each of our named executive officers include the provisions in our 2006 Stock Plan that accelerate the vesting of certain awards under certain circumstances upon our change in control. Pursuant to our 2006 Stock Plan, outstanding stock options, restricted stock and stock appreciation rights granted to a named executive officer may be assumed by a successor corporation or accelerated if not assumed. In addition, 50% of the unvested portion of an award will accelerate if, within 12 months following a change in control, the successor corporation for a reason other than cause terminates the employment of a named executive officer who holds an award pursuant to the 2006 Stock Plan. Please see the "Employment Agreements" section following the "Summary Compensation Table" below for a description of additional payments that may be made to certain of the named executive officers following a change in control.

Other Compensation and Benefits. Our named executive officers participate in the same group insurance and employee benefit plans as our other salaried employees. We do not provide loans or other perquisites to our named executive officers. The only exception is a \$100,000 life insurance policy on former President Robert Bruno for which we paid the premium. Premium payments in 2008 were \$2,340, compared to \$1,607 in 2007 and \$1,314 in 2006.

#### Employment Agreements

We have employment agreements with certain of our named executive officers providing for payments upon termination under certain circumstances and/or following a change in control. These payments are designed to provide our named executive officers with continued compensation for a discrete period of time in limited situations where their employment is unexpectedly terminated. In addition, as noted above, upon a change in control, the vesting of certain awards made to our named executive officers under the 2006 Stock Plan may accelerate.

#### Stock Ownership Guidelines

The Company currently does not require our directors or named executive officers to own a particular amount of our Common Stock. The Committee recommends stock holdings among the directors and named executive officers to provide motivation and to align this group's interests with those of our stockholders. All of our directors and the CEO are stockholders of the Company.

#### Return of Incentive Compensation by an Executive

In the case of a significant restatement of our financial results caused by a named executive officer's fraudulent or intentional misconduct, the Board may take action to seek reimbursement of some portion of performance-based or incentive compensation that was paid or awarded to such executive which would not have been paid or awarded if such compensation had been calculated based on the restated financial results. The Audit Committee of the Board will determine whether a financial restatement is significant and will make an initial determination of the cause of the restatement.

#### Compensation Consultant

The Committee does not have any contractual arrangement with any compensation consultant who has a role in determining or recommending the amount or form of named executive officer or director compensation. In the future, in its sole discretion, the Committee may engage or seek the advice of one or more compensation consultants.

#### Compliance with Section 162(m)

The Committee currently intends for all compensation paid to our named executive officers to be tax deductible to the Company pursuant to Section 162(m) of the Internal Revenue Code of 1986, as amended (“Section 162(m)”). Section 162(m) provides that the Company cannot deduct for Federal income tax purposes compensation paid to our named executive officers in excess of \$1,000,000, unless, in general, (1) such compensation is performance-based, established by a committee of outside directors and objective, and (2) the plan or agreement providing for such performance-based compensation has been approved in advance by stockholders. The Committee believes that stockholder interests are best served by not restricting the Committee’s discretion and flexibility in crafting compensation programs, even though such programs may result in certain non-deductible compensation expenses. Accordingly, in the future, the Committee may determine to adopt a compensation program that does not satisfy the conditions of Section 162(m) if in its judgment, after considering the additional costs of not satisfying Section 162(m), such program is appropriate. However, the Committee does not anticipate paying any named executive officers in excess of \$1,000,000 in the near term.

#### COMPENSATION COMMITTEE REPORT

The Committee has reviewed and discussed the above Compensation Discussion and Analysis with management. Based on its review and discussions with management, the Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be incorporated by reference in the Company’s Annual Report on Form 10-K for 2008 and included in this proxy statement.

#### Michael C. Ferrara

On November 14, 2007, (the "Ferrara Effective Date"), the Company entered into an employment agreement with Michael C. Ferrara (the "Ferrara Agreement") in connection with Mr. Ferrara's appointment as Chief Executive Officer and member of the Company's Board of Directors. Mr. Ferrara will receive a base salary of \$230,000 per year (the

“Base Salary”). The Base Salary shall be subject to annual review by the Board. Any increase in the Base Salary shall be determined by the Board in its sole discretion. The term of Mr. Ferrara’s employment agreement (the “Employment Period”) commenced on the Ferrara Effective Date and continues until such time as is specified by either party in its written notice to the other given no less than thirty (30) days’ in advance thereof, or its termination as described below, whichever occurs first. In connection with compensation for calendar year 2008, Mr. Ferrara shall be eligible to receive performance bonuses at the discretion of the Board and he will receive the Company’s employee benefits as they may exist from time to time, including health insurance, life insurance, 401k and stock purchase plans. The Compensation Committee and Mr. Ferrara will work together to create and implement performance bonus standards for future years of Mr. Ferrara’s employment with the Company under the Ferrara Agreement. Mr. Ferrara will be eligible to earn and use three (3) weeks of paid vacation per calendar year, accruing at the rate of 1.25 days per month. Under the Ferrara Agreement, the Company granted Mr. Ferrara an option to purchase 300,000 shares of the Company’s common stock (the “Option”). This grant was effective, and the exercise price of the Option was established as of the close of trading, on the Ferrara Effective Date. The Option was granted pursuant to, and subject to the terms and conditions of, the Company’s 2006 Stock Plan. The Option vests in four equal annual installments commencing on the first anniversary of the Ferrara Effective Date. If a Change of Control (as defined in the Ferrara Agreement) occurs during the Employment Period, the Option shall immediately become vested as to all 300,000 shares.

In the event that (i) Mr. Ferrara is terminated for Cause (as defined in the Ferrara Agreement), (ii) Mr. Ferrara voluntarily terminates his employment for a reason other than Good Reason (as defined in the Ferrara Agreement) or (iii) Mr. Ferrara dies or becomes Permanently Disabled (as defined in the Ferrara Agreement), the Company will have no obligation to provide Mr. Ferrara with any compensation or severance package, except for salary and benefits accrued prior to the termination of employment.

In the event that Mr. Ferrara's employment is terminated by the Company "without Cause", or by Mr. Ferrara for Good Reason (each as defined in the Ferrara Agreement), or by the Company for any reason within one hundred eighty (180) days of a Change of Control, Mr. Ferrara will receive payment of the amounts described in the preceding paragraph and shall be entitled to receive as severance following the date of termination, (i) six (6) months of his Base Salary (as of the effective date of such termination), payable in monthly installments, (ii) six (6) monthly payments of the amount that the Company would have paid in continuation of Mr. Ferrara's medical coverage if he had remained an employee of the Company, and (iii) if the termination is effective prior to the end of a calendar year, a pro-rated portion of the bonus that would have been paid to Mr. Ferrara under the Ferrara Agreement if he had remained employed until the end of such calendar year. The foregoing severance will be contingent on the execution by Mr. Ferrara of a general release of any claims that he may have against the Company. After termination of the Employment Period, all of Mr. Ferrara's rights to employee benefits will cease as of the date of termination.

Brian E. LeClair

As of June 4, 2008, Mr. LeClair and the Company executed a letter agreement (the "Letter"). Under the terms of the Letter, Mr. LeClair will receive a base salary of \$190,000 per year (the "Base Salary"). The Base Salary is eligible for annual review and adjustment based on comparable market data and company and individual performance ("KRA's").

Mr. LeClair is eligible for a variable bonus of potentially 25% of his base salary on an annualized basis, based upon achieving specific goals for the applicable twelve month period. The variable bonus will be 70% based on company performance EBITDA-2008 (-500k) and 30% based upon the achievement of personal KRA's to be established by July 1, 2008.

Under the Letter, the Company granted Mr. LeClair an option to purchase 80,000 shares of the Company's common stock. This grant, which will vest at the rate of twenty five percent (25%) per year, was granted pursuant to, and subject to the terms and conditions of, the Company's 2006 Stock Plan. Additional yearly options can be granted to Mr. LeClair by the Company's Compensation Committee.

Mr. LeClair will be eligible to participate in the Company's employee benefit plans as they may exist from time to time, including health insurance (including medical, dental and vision), long term disability, term life insurance, and a 401(k) plan. Mr. LeClair will accrue three weeks of vacation during each of the first five years of his employment with the Company.

If Mr. LeClair is terminated by the Company without cause, he will receive a severance package which will include payment of his Base Salary for a minimum of ninety (90) days following such termination. Mr. LeClair will also be entitled to the benefits he is receiving at the time of his termination during such ninety (90) day severance period. Pursuant to the Letter, the final severance term for a termination without cause was to be reviewed by the Company's Board of Directors and Chief Executive Officer on or before December 31, 2008. However, as referenced above, in no event would the severance term following a termination without cause be less than ninety (90) days. Mr. LeClair will be entitled to a severance package which will include payment of his Base Salary for one hundred eighty (180) days following termination upon a change in control of the Company. Any severance package is subject to Mr. LeClair signing a release statement that will include non-disclosure, non-disparagement and non-compete clauses.

Mr. LeClair resigned from his positions with the Company on March 30, 2009.

## Discussion of Summary Compensation and Grants of Plan-Based Awards Tables

Our executive compensation policies and practices, pursuant to which the compensation set forth in the Summary Compensation Table and the Grants of Plan-Based Awards Table was paid or awarded, are described above under "Compensation Discussion and Analysis." In 2006, we implemented a bonus pool for our named executive officers.

The terms of our 2006 bonus pool are described above under "Compensation Discussion and Analysis—Current Material Elements—Discretionary Bonuses." The bonuses paid in connection with this bonus pool are reported as "Non-Equity Incentive Plan Compensation" for 2006 in the Summary Compensation Table. While the Company also established a 2007 bonus pool, the thresholds were not met and no bonuses were paid from the pool. The Company did not establish a bonus pool or other discretionary bonus plan for 2008. Grants of options to named executive officers are 25% exercisable on each of the first four anniversaries of the date of grant. Further, grants of options to named executive officers expire ten years from the date of grant.

- (3) The option was granted on June 17, 2008. As a result of Mr. LeClair's resignation from his positions with the Company on March 30, 2009, all of the underlying shares of this grant automatically reverted back to the 2006 Plan on that date.

Mr. Riordan resigned from his positions with the Company on January 31, 2009 (the "Resignation Date"). As of the Resignation Date, 50% of the Option vested (such amount, the "Vested Options"). Pursuant to the terms of the 2006 Plan, on April 30, 2009, the Vested Options, if they remain unexercised, will expire and the shares covering such Vested Options will revert back to the 2006 Plan. The shares covering the unvested options at the Resignation Date automatically reverted back to the 2006 Plan at that date.

our common stock. As corrected in a Form 10-Q/A for the same quarter that we filed with the Securities and Exchange Commission on November 20, 2008, the correct number of our shares of common stock outstanding as of November 18, 2008 was 10,345,532. As of March 31, 2009, GSP has not amended the Schedule to reflect this correction.

Authorization or Issuance of Securities Otherwise than for Exchange.

The Company seeks, as further described below in Proposal 2, to increase the number of shares of common stock authorized for issuance under its Certificate of Incorporation, as amended, from 20,000,000 to 30,000,000 (such additional shares, the “New Shares”). A description of the Company’s common stock can be found on the Company’s registration statement on Form 8-A (File No. 0-11625) filed with the SEC under Section 12 of the Securities Exchange Act of 1934, including any amendment or report filed for the purpose of updating such description, and is incorporated herein by reference. As further detailed in Proposal 2 below, the Company seeks authorization of the New Shares so that to comply with its obligations under a convertible debenture (the “Debenture”) and a warrant (the “Warrant”) that it sold to Global Strategic Partners, LLC, a Delaware limited liability company, pursuant to a Debenture and Warrant Purchase Agreement (the “Agreement” and together with the Warrant and Debenture, the “Transaction Documents”) dated November 14, 2008. A detailed description of the Transaction Documents, including the nature and amount of consideration we have received and could potentially receive in the future under the Transaction Documents, can be found in the Form 8-K filed by the Company with the Securities and Exchange Commission on November 20, 2008, and is incorporated by reference herein.

The approval of an amendment authorizing additional common shares will not cause any change or dilution to the rights of existing holders of common stock of the Company, unless and until such time as any common shares are actually issued by the Board of Directors.

The information required by Item 13(a) of Schedule 14A is included in Items 7, 7A, 8 and 9 of our Annual Report on Form 10-K for the fiscal year ended December 31, 2008 filed with the Securities and Exchange Commission on March 30, 2009, and is incorporated by reference herein.

It is expected that a member of the firm of UHY LLP will be present at the Annual Meeting. The representative will be given the opportunity to make a statement if he or she desires to do so and will be available to respond to appropriate questions.

PROPOSAL 2

APPROVAL OF AN AMENDMENT TO THE COMPANY'S CERTIFICATE OF INCORPORATION, AS AMENDED, TO INCREASE THE AUTHORIZED SHARES OF COMMON STOCK.

Under our existing Certificate of Incorporation we are authorized to issue 20,000,000 shares of common stock. As of March 25, 2009, 10,371,782 shares of common stock were issued and outstanding. An additional 1,000,000 shares of common stock are reserved for issuance pursuant to issued and outstanding stock options and 801,347 shares are reserved for future issuance pursuant to the 2006 Plan. The remaining shares are reserved for issuance in satisfaction of the Transaction Documents. The Board of Directors is requesting the shareholders to approve an amendment to our Certificate of Incorporation increasing the number of authorized shares of common stock from 20,000,000 to 30,000,000. The text of the proposed amendment is set forth in Appendix A to this Proxy Statement.

Under the terms of the Transaction Documents, we are required to amend our Certificate of Incorporation to increase our authorized shares of common stock by at least that number of shares as is necessary, when aggregated with the shares previously authorized and available for issuance under the amended Certificate of Incorporation, to permit us to fulfill our obligations under the Transaction Documents. Failure to increase the number of authorized shares as required would be an event of default under the terms of the Transaction Documents. The Board of Directors has determined that an increase of 4,000,000 shares of common stock is in our best interest and the best interest of our shareholders and will permit us to fulfill our obligations under the Transaction Documents.

The Board of Directors believes that the additional increase of 6,000,000 authorized common shares is advisable and in the best interests of the Company and its shareholders for several reasons. This increase will permit the Board of Directors to issue stock without further costs or delays in obtaining shareholder approval and, thereby, provide us with maximum flexibility in structuring acquisitions, joint ventures, strategic alliances, capital-raising transactions and for other corporate purposes. Approval of this proposal would enable us to respond promptly to and take advantage of market conditions and other favorable opportunities without incurring the delay and expense associated with calling a special shareholders' meeting to approve a contemplated stock issuance. Although we presently contemplate no particular transaction involving the issuance of common stock, our management and Board of Directors believes it is in our best interests and the shareholders to be prepared to issue common stock without the necessity of another shareholders' meeting should additional common stock be a component of any future raising of capital.

The directors have decided that, under applicable law, an affirmative vote of a majority of the shares present, in person or represented by proxy, at the Meeting and entitled to vote be required to approve such amendment.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE PROPOSED AMENDMENT TO THE COMPANY'S CERTIFICATE OF INCORPORATION TO INCREASE THE NUMBER OF AUTHORIZED SHARES OF COMMON STOCK FROM 20,000,000 TO 30,000,000 AND PROXIES SOLICITED BY THE BOARD OF DIRECTORS WILL BE VOTED IN FAVOR OF SUCH AMENDMENT UNLESS A STOCKHOLDER HAS OTHERWISE INDICATED ON THE PROXY CARD.

PROPOSAL 3

RATIFICATION OF THE BOARD OF DIRECTORS' APPOINTMENT OF AUDITORS

The Board of Directors has approved the appointment by the Audit Committee of the firm of UHY LLP, independent auditors, to serve as auditors for the fiscal year ending December 31, 2009. UHY LLP served as the Company's independent auditors in 2008. The Board of Directors recommends that the stockholders approve this appointment, although such ratification is not required under Delaware law, or the Company's Certificate of Incorporation or By-Laws. The directors have decided that an affirmative vote of a majority of the shares present, in person or represented by proxy, at the Meeting and entitled to vote be required to ratify such appointment. It is expected that a member of the firm of UHY LLP will be present at the Meeting. The representative will be given the opportunity to make a statement if he or she desires to do so and will be available to respond to appropriate questions.

The firm of UHY LLP ("UHY") acts as our principal independent registered public accounting firm. Through and as of March 30, 2009, UHY had a continuing relationship with UHY Advisors, Inc. ("Advisors") through which UHY's partners provide non-audit services. UHY has only a few full-time employees. Therefore, few, if any, of the audit services performed were provided by permanent full-time employees of UHY. UHY manages and supervises the audit services and audit staff, and is exclusively responsible for the opinion rendered in connection with its examination.

In the event that ratification of the Board of Directors' appointment of UHY LLP is not obtained at the Meeting, the Board of Directors will reconsider their appointment.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE RATIFICATION OF THE APPOINTMENT OF UHY LLP AS THE COMPANY'S AUDITORS, AND PROXIES SOLICITED BY THE BOARD OF DIRECTORS WILL BE VOTED IN FAVOR OF SUCH RATIFICATION UNLESS A STOCKHOLDER HAS OTHERWISE INDICATED ON THE PROXY CARD.

INDEPENDENT ACCOUNTANT FEES FOR FISCAL YEARS 2008 AND 2007

Audit Fees

During the fiscal years ended December 31, 2008 and December 31, 2007, UHY LLP ("UHY"), was paid approximately \$110,000 and \$101,000, respectively, for the audit of the Company's financial statements and review of financial statements included in the Company's reports on Form 10-Q or services that are normally provided by UHY in connection with statutory and regulatory filings or engagements for those fiscal years. All services were approved by the Audit Committee.

Audit-Related Fees

During the fiscal years ended December 31, 2008 and December 31, 2007, UHY was paid approximately \$24,000 and \$26,000, respectively, for assurance and related services that are reasonably related to the performance of audit or review of our financial statements and are not reported under "Audit Fees" above. All services were approved by the Audit Committee.

Tax Fees

During the fiscal years ended December 31, 2008 and December 31, 2007, UHY was paid approximately \$26,000 and \$11,000, respectively, for tax compliance, tax advice and tax planning services. All services were approved by the Audit Committee.

#### All Other Fees

During the fiscal years ended December 31, 2008 and 2007, UHY received no payments for non-audit services.

For each fiscal year, the Audit Committee reviews the proposed audit and audit-related services as well as proposed permissible non-audit services to be provided by the Company's independent public accountants and approves those services it believes to be necessary and advisable. During the year, situations may arise in which the Company desires to engage the independent public accountants to perform services that were not foreseeable at the time of the initial approval. The Audit Committee pre-approves any such additional services as required by the Securities and Exchange Commission. The Audit Committee may delegate authority to one or more of its members to pre-approve any audit or non-audit service, provided that any pre-approval decisions are reported to the Audit Committee at its next regularly scheduled meeting.

The Audit Committee has considered whether the provision of non-core audit services to the Company by the Company's principal auditor is compatible with maintaining independence and has affirmed in each instance that the provision of such services was compatible with the principal auditor's independent role.

VOTING PROCEDURES

The presence, in person or by proxy, of at least a majority of the outstanding shares of Common Stock entitled to vote at the Meeting is necessary to establish a quorum for the transaction of business. Shares represented by proxies pursuant to which votes have been withheld from any nominee for director, or which contain one or more abstentions or broker “non-votes,” are counted as present for purposes of determining the presence or absence of a quorum for the Meeting. A “non-vote” occurs when a broker or other nominee holding shares for a beneficial owner votes on one proposal, but does not vote on another proposal because the broker does not have discretionary voting power and has not received instructions from the beneficial owner.

30

---

For all matters being submitted to stockholders at the Meeting, the affirmative vote of a majority of shares present, in person or represented by proxy, and entitled to vote on that matter, is required for approval. Shares voted to abstain, since they are not affirmative votes for the matter, will have the same effect as votes against the matter, while broker "non-votes," since they are not entitled to vote for the matter, have no effect on the vote.

#### OTHER BUSINESS

The Board of Directors knows of no business that will be presented for consideration at the Meeting other than that stated above. If any other business should come before the Meeting, votes may be cast pursuant to proxies in respect to any such business in the best judgment of the person or persons acting under the proxies.

#### STOCKHOLDER PROPOSALS

Under Rule 14a-8 promulgated under the Securities and Exchange Act of 1934, stockholders of the Company may present proper proposals for inclusion in the Company's proxy statement and for consideration at the next annual meeting of stockholders by submitting their proposals to the Company in a timely manner. In order to be considered for inclusion in the proxy statement distributed to stockholders prior to the annual meeting in the year 2010, a stockholder proposal must be received by the Company no later than December 25, 2009 and must otherwise comply with the requirements of Rule 14a-8. In order to be considered for presentation at the annual meeting of stockholders in the year 2010, although not included in the proxy statement, a stockholder proposal must comply with the requirements of the Company's by-laws and be received by the Company no later than April 25, 2010. Stockholder proposals should be delivered in writing to [Name of ], Secretary, Microfluidics International Corporation, P.O. Box 9101, 30 Ossipee Road, Newton, Massachusetts 02464.

#### EXPENSES AND SOLICITATION

The cost of solicitation of proxies will be borne by the Company. Proxies will be solicited principally through the mail. Directors, officers and regular employees of the Company may make further solicitation of proxies from some stockholders personally, by telephone, telegraph or special letter. No additional compensation, except for reimbursement of reasonable out-of-pocket expenses, will be paid for any such further solicitation. In addition, the Company may request banks, brokers, and other custodians, nominees and fiduciaries to solicit customers of theirs who have shares of the Company registered in the name of the nominee. The Company will reimburse any such persons for their reasonable out-of-pocket expenses. The Company may engage a proxy solicitor to which it would pay customary fees and expenses.
