INVESTING IN OUR COMMON STOCK INVOLVES RISKS. SEE "RISK FACTORS" BEGINNING ON PAGE 4 OF THE ATTACHED PROSPECTUS TO READ ABOUT FACTORS THAT YOU SHOULD CONSIDER BEFORE BUYING SHARES OF OUR COMMON STOCK.

Effective as of January 31, 2002, Cadiz amended and restated 825,000 warrants to purchase common stock held by Middenbank Curacao, N.V. to reduce the exercise price of the warrants to \$1.75 per share, subject to further adjustment as described under the caption "Description of Securities" below. This prospectus supplement amends portions of the prospectus in order to reflect the reduction in the exercise price of these warrants. DESCRIPTION OF SECURITIES

THE DESCRIPTION OF SECURITIES SET FORTH BELOW
SUPERSEDES THE INFORMATION CONTAINED IN THE PROSPECTUS UNDER
THE HEADING "DESCRIPTION OF SECURITIES."

The selling securityholders are offering for sale under this prospectus warrants to purchase up to 1,150,000 shares of common stock, the common stock issuable upon the exercise of these warrants and 1,517,861 additional shares of common stock.

The description of our common stock is contained in our registration statement filed with the SEC on Form 8-A on May 8, 1984, as amended by reports on Form 8-K filed with the SEC on May 26, 1988, June 2, 1992 and May 18, 1999.

825,000 of the warrants covered by this prospectus are being offered for sale by Middenbank Curacao, N.V., an indirect affiliate of one of our lenders, ING Baring (U.S.) Capital LLC. These 825,000 warrants were amended and restated effective as of January 31, 2002 to reduce the exercise price to \$1.75 per share, subject to adjustment as described below. The warrants expire on the following dates:

Number of Warrants -----	Expiration Date ----
75,000	04/30/03
100,000	04/05/04
150,000	10/31/04
50,000	04/30/05
100,000	10/31/05
200,000	11/25/04
112,500	04/13/05
37,500	05/08/05

825,000	TOTAL
=====	

The exercise price and number of shares of common stock which may be purchased upon exercise of the warrants are subject to certain "anti-dilution" adjustments in the event of any:

* Common stock dividend or other distribution to holders of our common stock of additional shares of common stock;

* Subdivision, reclassification or combination of our common stock;

* Issuance to all holders of common stock of rights or warrants to purchase shares of common stock at a price less than the market price of our common stock;

Edgar Filing: CADIZ INC - Form 424B3

* Distribution to all holders of common stock of any assets or indebtedness, or subscription rights or warrants;

* Issuance of common stock at a price less than the market price of our common stock; or

* Issuance of securities convertible into or exchangeable for shares of common stock at a price less than the market price of our common stock.

If any of the "dilution" events listed above occurs, the exercise price of the warrants will be adjusted according to a "weighted average" formula. That is to say, the adjusted exercise price of the warrants will be determined by multiplying the original exercise price by a fraction, the numerator of which will equal the number of shares of common stock outstanding on the date the "dilution" event occurs, and the denominator of which will equal the number of shares of common stock after the "dilution" event occurs. Whenever the exercise price of the warrants is adjusted as described above, the number of shares of common stock purchasable upon exercise of the warrants will be simultaneously adjusted. This adjustment will be made by multiplying the number of shares of common stock issuable upon exercise of the warrants immediately prior to the "dilution" event by the exercise price in effect immediately prior to the "dilution" event and dividing the product so obtained by the adjusted exercise price.

The exercise price of all 825,000 of the warrants held by Middenbank Curacao, N.V. will also be reduced if Cadiz does not receive various regulatory approvals for the Cadiz Program and/or pay off its outstanding term and revolving loans to ING Baring (U.S.) Capital LLC, an entity indirectly affiliated with the selling securityholder, by the target dates as described in this paragraph. Specifically, if the approvals are obtained by June 30, 2002, the exercise price of the warrants will be reduced by \$0.25 if all loans are not repaid by July 31, 2002 and by an additional \$0.25 if all loans are not repaid by October 31, 2002. If the approvals are not obtained by June 30, 2002, the price of the warrants will be reduced by \$0.75 if all loans are not repaid by July 31, 2002 and by an additional \$0.75 if all loans are not repaid by October 31, 2002. The exercise price of all 825,000 warrants held by Middenbank Curacao, N.V. will be reduced to \$0.01 if all loans are not repaid by January 30, 2003.

The remaining warrants covered by this prospectus are held by OZ Master Fund, Ltd. or OZF Credit Opportunities Master Fund, Ltd. The exercise price of these warrants is \$7.75 per share, subject to adjustment as described below. 275,000 of these warrants are exercisable immediately; of these 275,000 warrants, 200,000 expire on December 29, 2003 and 75,000 warrants expire on December 31, 2004. The remaining 50,000 warrants are exercisable only if we elect to convert our Series D Convertible Preferred Stock into common stock on or prior to December 29, 2001. As we did not elect to convert our Series D Convertible Preferred Stock by this date, these 50,000 warrants cannot be exercised by the OZ or OZF funds.

Edgar Filing: CADIZ INC - Form 424B3

The exercise price and number of shares of common stock which may be purchased upon exercise of any of the warrants held by the OZ and OZF funds are subject to certain "anti-dilution" adjustments which are similar to the anti-dilution adjustments described above in connection with the warrants held by Middenbank Curacao, N.V., except that the anti-dilutive provisions of the OZ and OZF warrants are triggered by the issuance of securities at a price below the exercise price of these warrants, while the comparable anti-dilutive provisions of the Middenbank Curacao warrants are triggered by the issuance of securities at a price below the market price of our common stock.

Each of the warrants covered by this prospectus contains a "cashless exercise" provision. This provision allows the warrant holder to pay the exercise price of the warrant by accepting a number of shares of common stock equal to the number of shares of common stock appearing on the face of the warrant multiplied by a fraction, the numerator of which is the excess of the current market price of the common stock over the exercise price of the warrant, and the denominator of which is the current market price of the common stock.
