PROSPECTUS SUMMARY

Our Business

Our primary assets consist of 45,000 acres of land in three areas of eastern San Bernardino County, California. Virtually all of this land is underlain by high-quality groundwater resources that are suitable for a variety of uses, including water storage and supply programs. The advantages of underground water storage relative to surface storage include minimal surface environmental impacts, low capital investment, and minimal evaporative water loss. The properties are located in proximity to the Colorado River and the Colorado River Aqueduct, the major source of imported water for Southern California.

The value of these assets derives from a combination of projected population increases and limited water and energy supplies throughout Southern California. California is facing the very real possibility that current and future supplies of water will not be able to meet demand. Water agencies throughout California imposed mandatory rationing in 2009 in order to meet anticipated demand. Moreover, through a series of policy initiatives, the State of California and the United States government have issued compelling calls for increased renewable energy production, including California's mandate to acquire 33% of the state's electricity from renewable sources by 2020. As a result, we believe that a competitive advantage exists for companies that can provide high-quality, reliable, and affordable water to major population centers as well as for companies that can site solar energy facilities.

Our objective is to realize the highest and best use for these assets in an environmentally responsible way. We believe this can best be achieved through a combination of water conservation, supply, and storage programs. In connection with these programs, we entered into five Letters of Intent ("LOI") in June of this year, featuring substantially similar terms, with a broad collection of Southern California water providers. Further to the terms set out in the LOI, we are currently working together to define responsibility of the environmental review and associated costs thereof, finalize terms of pricing subject to completion of the California Environmental Quality Act, and move forward with the design and capital allocation work necessary toward implementation of our water conservation and storage project.

Private Placement of Securities

In October and November 2009 we sold a total of 226,200 units in a private offering of securities. Each unit consisted of three (3) shares of our common stock and one (1) warrant to purchase one share of common stock per warrant. As a result of the sale of the units, we issued an aggregate of 678,600 shares of our common stock and an aggregate of 226,200 warrants. The warrants are exercisable at any time ninety (90) days after issuance and have an exercise price of \$15.00 per share. The warrant issued with each unit expires on October 30, 2012 and is subject to call rights by the Company. We did not use a placement agent in connection with this private placement.

Risk Factors	See “Risk Factors” beginning on page 5 and other information in this prospectus for a discussion of factors you should consider carefully before investing in shares of our common stock.

RISK FACTORS

An investment in shares of our common stock involves a high degree of risk. You should carefully consider the following factors as well as the other information contained and incorporated by reference in this prospectus before deciding to invest.

Our Development Activities Have Not Generated Significant Revenues

At present, our activities are focused on water resource, agricultural, and renewable energy development at our San Bernardino County properties. We have not received significant revenues from our development activities to date and we do not know when, if ever, we will receive operating revenues sufficient to offset the costs of our development activities. As a result, we continue to incur a net loss from operations.

We May Never Generate Significant Revenues or Become Profitable Unless We Are Able To Successfully Implement Programs To Develop Our Land Assets and Related Water Resources

We do not know the terms, if any, upon which we may be able to proceed with our water and other development programs. Regardless of the form of our water development programs, the circumstances under which transfers or storage of water can be made and the profitability of any transfers or storage are subject to significant uncertainties, including the risk of variable water supplies and changing water allocation priorities. Additional risks include our ability to obtain all necessary regulatory approvals and permits, possible litigation by environmental or other groups, unforeseen technical difficulties, general market conditions for real estate and water supplies, and the time needed to generate significant operating revenues from such programs after operations commence.

The Development of Our Properties Is Heavily Regulated, Requires Governmental Approvals and Permits That Could Be Denied, and May Have Competing Governmental Interests and Objectives

In developing our land assets and related water resources, we are subject to local, state, and federal statutes, ordinances, rules and regulations concerning zoning, resource protection, environmental impacts, infrastructure design, subdivision of land, construction and similar matters. Our development activities are subject to the risk of adverse interpretations or changes to U.S. federal, state and local laws, regulations and policies. Further, our development activities require governmental approvals and permits that, if denied or granted subject to unfavorable conditions or restrictions, would adversely impact our ability to successfully implement our development programs.

The opposition of government officials may adversely affect our ability to obtain needed government approvals and permits upon satisfactory terms in a timely manner. In this regard, federal government appropriations currently preclude spending for any proposal to store water for the purpose of export or for any activities associated with the approval of rights-of-way on lands managed by the Needles Field Office of the Bureau of Land Management. As a result of a new right-of-way with the Arizona & California Railroad Company, we do not believe federal approval will be required to implement the Cadiz Project, however, even this may be subject to similar challenges.

A significant portion of our Cadiz Valley property is included in a study area as part of the Environmental Impact Statement ("EIS") process for the expansion of the Marine Corp Air Ground Combat Center in Twentynine Palms, California. Our property is included in one of the five different alternatives that will be studied for the base expansion during the EIS process over the next three years. If any of the Cadiz Valley landholdings are included in the final expansion area, then we will be entitled to full fair market value compensation for any property taken.

Additionally, the statutes, regulations and ordinances governing the approval processes provide third parties the opportunity to challenge proposed plans and approvals. In California, third parties have the ability to file litigation challenging the approval of a project, which they usually do by alleging inadequate disclosure and mitigation of the environmental impacts of the project. Opposition from environmental groups could cause delays and increase the costs of our development efforts or preclude such development entirely. While we have worked with representatives of various environmental interests and agencies to minimize and mitigate the impacts of our planned projects, certain groups may remain opposed to our development plans.

Our Failure To Make Timely Payments of Principal and Interest on Our Indebtedness May Result in a Foreclosure on Our Assets

As of September 30, 2009, we had indebtedness outstanding to our senior secured lenders of approximately \$43 million. Our assets have been put up as collateral for this debt. If we cannot generate sufficient cash flow to make principal and interest payments on this indebtedness when due, or if we otherwise fail to comply with the terms of agreements governing our indebtedness, we may default on our obligations. If we default on our obligations, our lenders may sell off the assets that we have put up as collateral. This, in turn, would result in a cessation or sale of our operations.

The Conversion of Our Outstanding Senior Indebtedness into Common Stock Would Dilute the Percentage of Our Common Stock Held by Current Stockholders

Our senior indebtedness is convertible into common stock at the election of our lenders. As of September 30, 2009, our senior indebtedness was convertible into 1,747,788 shares of our common stock, an amount equal to approximately 11.32% of the number of fully-diluted shares of our common stock outstanding as of that date. An election by our lenders to convert all or a portion of our senior secured indebtedness into common stock will dilute the percentage of our common stock held by current stockholders.

We May Not Be Able To Obtain the Financing We Need To Implement Our Asset Development Programs

Based upon our current and anticipated usage of cash resources, we have sufficient funds to meet our expected working capital needs through fiscal year 2010. We will continue to require additional working capital to meet our cash resource needs from that point forward and to continue to finance our operations until such time as our asset development programs produce revenues. If we cannot raise needed funds, we might be forced to make substantial reductions in our operating expenses, which could adversely affect our ability to implement our current business plan and ultimately our viability as a company. We cannot assure you that our current lenders, or any other lenders, will give us additional credit should we seek it. If we are unable to obtain additional credit, we may engage in further equity financings. Our ability to obtain equity financing will depend, among other things, on the status of our asset development programs and general conditions in the capital markets at the time funding is sought. Although we currently expect our capital sources to be sufficient to meet our near term liquidity needs, there can be no assurance that our liquidity requirements will continue to be satisfied. Any further equity financings would result in the dilution of ownership interests of our current stockholders.

The Issuance of Equity Securities Under Management Equity Incentive Plans Will Impact Earnings

Our compensation programs for management emphasize long-term incentives, primarily through the issuance of equity securities and options to purchase equity securities. It is expected that plans involving the issuance of shares, options, or both will be submitted from time to time to our stockholders for approval. In the event that any such plans are approved and implemented, the issuance of shares and options under such plans may result in the dilution of the ownership interest of other stockholders and will, under currently applicable accounting rules, result in a charge to earnings based on the value of our common stock at the time of issue and the fair value of options at the time of their award. The expense would be recorded over the vesting period of each stock and option grant.

SALES BY SELLING STOCKHOLDERS

In October and November 2009 we sold a total of 226,200 units (the "Units") to certain institutional and other accredited investors in a private placement (the "Private Placement"). Each Unit consisted of three (3) shares of our common stock and one (1) warrant to purchase one share of common stock ("Warrants"). As a result of the sale of the Units, we issued an aggregate of 678,600 shares of our common stock (based upon three shares per Unit) and an aggregate of 226,200 Warrants (based upon one Warrant per Unit). We did not use a placement agent in connection with the Private Placement. We intend to use the net proceeds of the Private Placement for general working capital purposes.

The Warrants have an exercise price of \$15.00 per share and are exercisable commencing the date that is ninety (90) days from their date of issuance.

The Warrants issued in the Private Placement are callable by us, subject to certain conditions, if at any time following November 1, 2010, the closing market price of our common stock equals or exceeds \$22.50 (subject to adjustment if the exercise price of the Warrant is adjusted as described in the Warrant) for ten (10) consecutive trading days. A condition to the exercise of our call rights is that the registration statement required by the Subscription Agreements utilized in the Private Placement has been declared effective and remains effective through the date we terminate the Warrant and exercise our call rights ("Callable Warrant Termination Date"). The Warrant expires, absent an earlier termination if a Callable Warrant Termination Date occurs, on October 30, 2012.

Except as noted with respect to selling stockholders listed in the following table, none of the selling stockholders has held any position or office or had a material relationship with us other than as a result of the ownership of our common stock.

The table is based on information supplied to us by the selling stockholders identified in the table. The table sets forth, as to the selling stockholders identified in the table, the number of shares of common stock that each selling stockholder beneficially owns, the number of shares of common stock beneficially owned by each selling stockholder that may be offered for sale from time to time by this prospectus and the number of shares and percentage of common stock to be held by each such selling stockholder assuming the sale of all the common stock offered hereby.

We may amend or supplement this prospectus from time to time to update the disclosures set forth herein.

USE OF PROCEEDS

We will not receive any proceeds from the sale of any or all of the shares being offered by the selling stockholders under this prospectus. We may receive an amount of up to approximately \$3,393,000.00 upon the exercise of the Warrants, if exercised. Any proceeds that we receive from the exercise of Warrants will be used by us for general working capital. There can be no assurances that any of the Warrants will be exercised.

PLAN OF DISTRIBUTION

The shares of common stock offered by this prospectus will be offered and sold by the selling stockholders named in this prospectus, by their donees, or by their other successors in interest. We have agreed to bear the expenses of the registration of the shares, including legal and accounting fees, other than fees of counsel, if any, retained individually by the selling stockholders, and any discounts or commissions payable with respect to sales of the shares.

The selling stockholders from time to time may offer and sell the shares in transactions in the Nasdaq Global Market at market prices prevailing at the time of sale. The selling stockholders from time to time may also offer and sell the shares in private transactions at negotiated prices. The selling stockholders may sell their shares directly or to or through broker-dealers who may receive compensation in the form of discounts, concessions or commissions from the selling stockholders or the purchasers of shares for whom such broker-dealers may act as agent or to whom they may sell as principal, or both. Such compensation may be in excess of customary commissions.

From time to time, a selling stockholder may pledge or grant a security interest in some or all of the shares which the selling stockholder owns. If a selling stockholder defaults in the performance of the selling stockholder's secured obligations, the pledgees or secured parties may offer and sell the shares from time to time by this prospectus (except, in some cases, if the pledgees or secured parties are broker-dealers or are affiliated with broker-dealers). The selling stockholders also may transfer and donate shares in other circumstances. Donees may also offer and sell the shares from time to time by this prospectus (except, in some cases, if the donees are broker-dealers or are affiliated with broker-dealers). The number of shares beneficially owned by a selling stockholder will decrease as and when a selling stockholder donates such stockholder's shares or defaults in performing obligations secured by such stockholder's shares. The plan of distribution for the shares offered and sold under this prospectus will otherwise remain unchanged, except that the donees, pledgees, other secured parties or other successors in interest will be selling stockholders for purposes of this prospectus. If we are notified that a donee, pledgee or other successor in interest of a selling stockholder intends to sell more than 500 shares of our common stock, we will file a supplement to this prospectus which includes all of the information required to be disclosed by Item 507 of Regulation S-K. Further, we will file a post-effective amendment to this registration statement upon notification of any change in the plan of distribution.

The selling stockholders and any broker-dealers acting in connection with the sale of the shares covered by this prospectus may be deemed to be "underwriters" within the meaning of Section 2(11) of the Securities Act of 1933, and any commissions received by them and any profit realized by them on the resale of the shares as principals may be deemed to be underwriting compensation under the Securities Act of 1933.

We have advised the selling stockholders of the requirement for delivery of this prospectus in connection with any sale of the shares. We have also advised the selling stockholders of the relevant cooling off period specified by Regulation M and restrictions upon the selling stockholders' bidding for or purchasing our securities during the distribution of shares.

Item 15. Indemnification of Directors and Officers.

Section 145 of the Delaware General Corporation Law permits our Board of Directors to indemnify any person against expenses, attorneys' fees, judgments, fines and amounts paid in settlement actually and reasonably incurred by him in connection with any threatened, pending or completed action, suit or proceeding in which he is made a party because he serves or served as a director, officer, employee or agent of Cadiz or of another entity. The language of Section 145 is sufficiently broad to permit indemnification in some situations for liabilities, including reimbursement for expenses incurred, arising under the Securities Act of 1933, as amended. The statute provides that indemnification pursuant to its provisions is not exclusive of other rights of indemnification to which a person may be entitled under any bylaw, agreement, vote of stockholders or disinterested directors, or otherwise.

Our Bylaws provide for mandatory indemnification of directors and officers of Cadiz, and those serving at the request of Cadiz as directors, officers, employees, or agents of other entities, to the maximum extent permitted by law. The Bylaws provide that this indemnification shall be a contract right between each of these persons and Cadiz.

Our Certificate of Incorporation provides that a director of the company shall not be personally liable to the company or its stockholders for monetary damages for breach of fiduciary duty as a director, except for liability:

- (1) for any breach of the director's duty of loyalty to Cadiz or its stockholders;
- (2) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law;
- (3) under Section 174 of the Delaware General Corporation Law; or
- (4) for any transaction from which the director derived an improper personal benefit.

Our Certificate of Incorporation provides that if the Delaware General Corporation Law is subsequently amended to authorize the further elimination or limitation of the liability of a director, then the liability of a director shall be eliminated or limited to the fullest extent permitted by the law as amended. We have also purchased a liability insurance policy which insures our directors and officers against certain liabilities, including liabilities under the Securities Act of 1933.

Item 17. Undertakings.

- (a) The undersigned registrant hereby undertakes:

(1) to file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement;

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

provided, however, that paragraphs (a)(1)(i), (a)(1)(ii) and (a)(1)(iii) do not apply if the registration statement is on Form S-3, and the information required to be included in a post-effective amendment by those paragraphs is contained in reports filed with or furnished to the Commission by the registrant pursuant to section 13 or section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the registration statement, or is contained in a form of prospectus filed pursuant to Rule 424(b) that is part of this registration statement;

- (2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof; and
- (3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(4)

[Intentionally omitted]

- (5) That, for the purpose of determining liability under the Securities Act of 1933 to any purchaser:

- (i) If the registrant is subject to Rule 430C, each prospectus filed pursuant to Rule 424(b) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A, shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.
- (b) That for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to section 13(a) or section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.
- (c) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.
