SECTION 2 - FINANCIAL INFORMATION

Item 2.03 Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant

On June 27, 2013, North Sky River Energy, LLC (North Sky River), an indirect wholly-owned subsidiary of NextEra Energy Resources, LLC (NEER), entered into, and borrowed approximately \$254 million under, a limited-recourse senior secured variable rate term loan agreement maturing in June 2031. NEER is an indirect wholly-owned subsidiary of NextEra Energy, Inc. Interest on the loan is based on the three-month London InterBank Offered Rate plus a specified margin. Interest on the loan is payable quarterly and principal on the loan is payable semi-annually. Upon funding of the loan, North Sky River entered into interest rate swaps to hedge against interest rate movements with respect to substantially all interest payments on the loan. Substantially all of the loan proceeds were used to reimburse NEER, in part, for its capital contributions related to its development of the North Sky River project, a wind generating facility with a generating capability totaling approximately 162 megawatts located in California. The loan is secured by liens on the wind generating facility's assets and certain other assets of, and the ownership interest in, North Sky River. The loan agreement contains default and related acceleration provisions relating to the failure to make required payments or to observe other covenants in the loan agreement and related documents, actions by North Sky River or by other parties under specified agreements relating to the generating facility or the loan agreement, the termination of certain of such specified agreements and certain bankruptcy-related events.
