As used in this Form 10-Q, the terms “Air Group,” the “Company,” “our,” “we” and “us,” refer to Alaska Air Group, Inc. and its subsidiaries, unless the context indicates otherwise. Alaska Airlines, Inc. and Horizon Air Industries, Inc. are referred to as “Alaska” and “Horizon,” respectively, and together as our “airlines.”

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

Cautionary Note Regarding Forward-Looking Statements

In addition to historical information, this Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, Section 21E of the Securities Exchange Act of 1934, as amended, and the Private Securities Litigation Reform Act of 1995. Forward-looking statements are those that predict or describe future events or trends and that do not relate solely to historical matters. You can generally identify forward-looking statements as statements containing the words "believe," "expect," "will," "anticipate," "intend," "estimate," "project," "assume" or other similar expressions, although not all forward-looking statements contain these identifying words. Forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from historical experience or the Company's present expectations. Some of the things that could cause our actual results to differ from our expectations are:

- the competitive environment in our industry;
- changes in our operating costs, primarily fuel, which can be volatile;
- general economic conditions, including the impact of those conditions on customer travel behavior;
- our ability to meet our cost reduction goals;
- operational disruptions;
- an aircraft accident or incident;
- labor disputes and our ability to attract and retain qualified personnel;
- the concentration of our revenue from a few key markets;
- actual or threatened terrorist attacks, global instability and potential U.S. military actions or activities;
- our reliance on automated systems and the risks associated with changes made to those systems;
- changes in laws and regulations.

You should not place undue reliance on our forward-looking statements because the matters they describe are subject to known and unknown risks, uncertainties and other unpredictable factors, many of which are beyond our control. Our forward-looking statements are based on the information currently available to us and speak only as of the date on which this report was filed with the SEC. We expressly disclaim any obligation to issue any updates or revisions to our forward-looking statements, even if subsequent events cause our expectations to change regarding the matters discussed in those statements. Over time, our actual results, performance or achievements will likely differ from the anticipated results, performance or achievements that are expressed or implied by our forward-looking statements, and such differences might be significant and materially adverse to our shareholders. For a discussion of these and other risk factors, see Item 1A. "Risk Factors" of the Company's annual report on Form 10-K for the year ended December 31, 2014, and Item 1A. "Risk Factors" included herein. Please consider our forward-looking statements in light of those risks as you read this report.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited)

NOTE 1. GENERAL AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Basis of Presentation

The interim condensed consolidated financial statements include the accounts of Alaska Air Group, Inc. (Air Group or the Company) and its subsidiaries, Alaska Airlines, Inc. (Alaska) and Horizon Air Industries, Inc. (Horizon), through which the Company conducts substantially all of its operations. All intercompany balances and transactions have been eliminated. These financial statements have been prepared in accordance with accounting principles generally accepted in the United States (GAAP) for interim financial information. Consistent with these requirements, this Form 10-Q does not include all the information required by GAAP for complete financial statements. As a result, this Form 10-Q should be read in conjunction with the Consolidated Financial Statements and accompanying Notes in the Form 10-K for the year ended December 31, 2014. In the opinion of management, all adjustments have been made that are necessary to present fairly the Company's financial position as of March 31, 2015, as well as the results of operations for the three months ended March 31, 2015 and 2014. The adjustments made were of a normal recurring nature.

In preparing these statements, the Company is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities, as well as the reported amounts of revenues and expenses. Due to seasonal variations in the demand for air travel, the volatility of aircraft fuel prices, changes in global economic conditions, changes in the competitive environment, and other factors, operating results for the three months ended March 31, 2015, are not necessarily indicative of operating results for the entire year.

Certain reclassifications, such as changes in our equity structure, have been made to prior year financial statements to conform with classifications used in the current year.

Recently Issued Accounting Pronouncements

In May 2014, the FASB issued Accounting Standard Update 2014-09, "Revenue from Contracts with Customers" (ASU 2014-09), which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The ASU will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective. In April 2015, the FASB proposed to defer the effective date one year, and now allows early adoption one year prior to the effective date. The proposed standard would be effective for the Company on January 1, 2018, and early adoption is allowed on January 1, 2017. The standard permits the use of either the retrospective or cumulative effect transition method. The Company is evaluating the effect that ASU 2014-09 will have on its consolidated financial statements and related disclosures. The Company has not yet selected a transition method nor has it determined whether it will early adopt the standard or not.

NOTE 2. CASH, CASH EQUIVALENTS AND MARKETABLE SECURITIES

Components for cash, cash equivalents and marketable securities (in millions):

| March 31, 2015 | Cost Basis | Unrealized Gains | Unrealized Losses | Fair Value |
|---------------------------------------|------------|------------------|-------------------|------------|
| Cash | \$5 | \$— | \$— | \$5 |
| Cash equivalents | 46 | — | — | 46 |
| Cash and cash equivalents | 51 | — | — | 51 |
| U.S. government and agency securities | 200 | 1 | — | 201 |
| Foreign government bonds | 31 | — | — | 31 |

Edgar Filing: ALASKA AIR GROUP, INC. - Form 10-Q

| | | | | |
|----------------------------|---------|-----|------|-----------|
| Asset-backed securities | 151 | — | — | 151 |
| Mortgage-backed securities | 127 | 1 | (1 |) 127 |
| Corporate notes and bonds | 721 | 6 | — | 727 |
| Municipal securities | 24 | — | — | 24 |
| Marketable securities | 1,254 | 8 | (1 |) 1,261 |
| Total | \$1,305 | \$8 | \$(1 |) \$1,312 |

9

| December 31, 2014 | Cost Basis | Unrealized Gains | Unrealized Losses | Fair Value |
|---------------------------------------|------------|------------------|-------------------|------------|
| Cash | \$4 | \$— | \$— | \$4 |
| Cash equivalents | 103 | — | — | 103 |
| Cash and cash equivalents | 107 | — | — | 107 |
| U.S. government and agency securities | 166 | — | — | 166 |
| Foreign government bonds | 25 | — | — | 25 |
| Asset-backed securities | 130 | — | — | 130 |
| Mortgage-backed securities | 127 | — | (1 |) 126 |
| Corporate notes and bonds | 644 | 3 | (2 |) 645 |
| Municipal securities | 18 | — | — | 18 |
| Marketable securities | 1,110 | 3 | (3 |) 1,110 |
| Total | \$1,217 | \$3 | \$(3 |) \$1,217 |

Unrealized losses from fixed-income securities are primarily attributable to changes in interest rates. Management does not believe any remaining unrealized losses represent other-than-temporary impairments based on our evaluation of available evidence as of March 31, 2015.

Activity for marketable securities (in millions):

| | Three Months Ended March 31, | |
|------------------------------------|------------------------------|-------|
| | 2015 | 2014 |
| Proceeds from sales and maturities | \$259 | \$227 |
| Gross realized gains | 1 | 1 |
| Gross realized losses | (1 |) (1 |

Maturities for marketable securities (in millions):

| March 31, 2015 | Cost Basis | Fair Value |
|---------------------------------------|------------|------------|
| Due in one year or less | \$152 | \$151 |
| Due after one year through five years | 1,099 | 1,106 |
| Due after five years through 10 years | 3 | 4 |
| Due after 10 years | — | — |
| Total | \$1,254 | \$1,261 |

NOTE 3. DERIVATIVE INSTRUMENTS

Fuel Hedge Contracts

The Company's operations are inherently dependent upon the price and availability of aircraft fuel. To manage economic risks associated with fluctuations in aircraft fuel prices, the Company periodically enters into call options for crude oil.

As of March 31, 2015, the Company had outstanding fuel hedge contracts covering 256 million gallons of crude oil that will be settled from April 2015 to September 2016. Refer to the contractual obligations and commitments section of Item 2 for further information.

Interest Rate Swap Agreements

The Company has interest rate swap agreements with a third party designed to hedge the volatility of the underlying variable interest rate in the Company's aircraft lease agreements for six Boeing 737-800 aircraft. The agreements stipulate that the Company pay a fixed interest rate over the term of the contract and receive a floating interest rate. All significant terms of the swap agreement match the terms of the lease agreements, including interest-rate index, rate reset dates, termination dates and underlying notional values. The agreements expire from February 2020 through March 2021 to coincide with the lease termination dates.

Fair Values of Derivative Instruments

Fair values of derivative instruments on the consolidated balance sheet (in millions):

| | March 31, 2015 | December 31, 2014 |
|---|-------------------|----------------------|
| Derivative Instruments Not Designated as Hedges | | |
| Fuel hedge contracts | | |
| Fuel hedge contracts, current assets | \$3 | \$3 |
| Fuel hedge contracts, noncurrent assets | 2 | 4 |
| Derivative Instruments Designated as Hedges | | |
| Interest rate swaps | | |
| Other accrued liabilities | (6 |) (6 |
| Other liabilities | (15 |) (13 |
| Losses in accumulated other comprehensive loss (AOCL) | (21 |) (19 |

The net cash received (paid) for new positions and settlements was (\$4) million and (\$7) million during the three months ended March 31, 2015 and 2014, respectively.

Pretax effect of derivative instruments on earnings (in millions):

| | Three Months Ended March 31, | |
|---|------------------------------|---------|
| | 2015 | 2014 |
| Derivative Instruments Not Designated as Hedges | | |
| Fuel hedge contracts | | |
| Gains (losses) recognized in aircraft fuel expense | \$(6 |) \$(10 |
| Derivative Instruments Designated as Hedges | | |
| Interest rate swaps | | |
| Losses recognized in aircraft rent | (2 |) (2 |
| Gains (losses) recognized in other comprehensive income (OCI) | (4 |) (3 |

The amounts shown as recognized in aircraft rent for cash flow hedges (interest rate swaps) represent the realized losses transferred out of AOCL to aircraft rent. The amounts shown as recognized in OCI are prior to the losses recognized in the income statement as aircraft rent during the period. The Company expects \$6 million to be reclassified from AOCL to aircraft rent within the next twelve months.

Credit Risk and Collateral

The Company is exposed to credit losses in the event of nonperformance by counterparties to these derivative instruments. To mitigate exposure, the Company periodically evaluates the counterparties' potential risk of nonperformance by monitoring the absolute exposure levels and credit ratings. The Company maintains security agreements with a number of its counterparties which may require the Company to post collateral if the fair value of the selected derivative instruments fall below specified mark-to-market thresholds. The posted collateral does not offset the fair value of the derivative instruments and is included in "Prepaid expenses and other current assets" on the consolidated balance sheet.

The Company posted collateral of \$5 million and \$3 million as of March 31, 2015 and December 31, 2014, respectively. The collateral was provided to one counterparty associated with the net liability position of the interest

rate swap agreements, offset by the net asset position of the fuel hedge contracts under a master netting arrangement.

NOTE 4. FAIR VALUE MEASUREMENTS

Fair Value of Financial Instruments on a Recurring Basis

Fair values of financial instruments on the consolidated balance sheet (in millions):

| March 31, 2015 | Level 1 | Level 2 | Total |
|---------------------------------------|---------|---------|-------|
| Assets | | | |
| Marketable securities | | | |
| U.S. government and agency securities | \$201 | \$— | \$201 |
| Foreign government bonds | — | 31 | 31 |
| Asset-backed securities | — | 151 | 151 |
| Mortgage-backed securities | — | 127 | 127 |
| Corporate notes and bonds | — | 727 | 727 |
| Municipal securities | — | 24 | 24 |
| Derivative instruments | | | |
| Fuel hedge call options | — | 5 | 5 |
| Liabilities | | | |
| Derivative instruments | | | |
| Interest rate swap agreements | — | (21 |) (21 |
| December 31, 2014 | Level 1 | Level 2 | Total |
| Assets | | | |
| Marketable securities | | | |
| U.S. government and agency securities | \$166 | \$— | \$166 |
| Foreign government bonds | — | 25 | 25 |
| Asset-backed securities | — | 130 | 130 |
| Mortgage-backed securities | — | 126 | 126 |
| Corporate notes and bonds | — | 645 | 645 |
| Municipal securities | — | 18 | 18 |
| Derivative instruments | | | |
| Fuel hedge call options | — | 7 | 7 |
| Liabilities | | | |
| Derivative instruments | | | |
| Interest rate swap agreements | — | (19 |) (19 |

The Company uses the market and income approach to determine the fair value of marketable securities. U.S. government securities are Level 1 as the fair value is based on quoted prices in active markets. Foreign government bonds, asset-backed securities, mortgage-backed securities, corporate notes and bonds, and municipal securities are Level 2 as the fair value is based on industry standard valuation models that are calculated based on observable inputs such as quoted interest rates, yield curves, credit ratings of the security and other observable market information.

The Company uses the market approach and the income approach to determine the fair value of derivative instruments. Fuel hedge contracts that are not traded on a public exchange are Level 2 as the fair value is primarily based on inputs which are readily available in active markets or can be derived from information available in active markets. The fair value for call options is determined utilizing an option pricing model based on inputs that are readily available in active markets, or can be derived from information available in active markets. In addition, the fair value considers the exposure to credit losses in the event of nonperformance by counterparties. Interest rate swap

agreements are Level 2 as the fair value of these contracts is determined based on the difference between the fixed interest rate in the agreements and the observable LIBOR-based forward interest rates at period end, multiplied by the total notional value.

The Company has no financial assets that are measured at fair value on a nonrecurring basis at March 31, 2015.

Fair Value of Other Financial Instruments

The Company used the following methods and assumptions to determine the fair value of financial instruments that are not recognized at fair value as described below.

Cash and Cash Equivalents: Carried at amortized cost, which approximates fair value.

Debt: The carrying amount of the Company's variable-rate debt approximates fair values. For fixed-rate debt, the Company uses the income approach to determine the estimated fair value, by using discounted cash flows using borrowing rates for comparable debt over the weighted life of the outstanding debt. The estimated fair value of the fixed-rate debt is Level 3 as certain inputs used are unobservable.

Fixed-rate debt that is not carried at fair value on the consolidated balance sheet and the estimated fair value of long-term fixed-rate debt (in millions):

| | March 31, 2015 | December 31, 2014 |
|-----------------|-------------------|----------------------|
| Carrying amount | \$587 | \$614 |
| Fair value | 640 | 666 |

NOTE 5. MILEAGE PLAN

Alaska's Mileage Plan liabilities and deferrals on the consolidated balance sheets (in millions):

| | March 31, 2015 | December 31, 2014 |
|--------------------------------|-------------------|----------------------|
| Current Liabilities: | | |
| Other accrued liabilities | \$360 | \$343 |
| Other Liabilities and Credits: | | |
| Deferred revenue | 375 | 367 |
| Other liabilities | 19 | 20 |
| Total | \$754 | \$730 |

Alaska's Mileage Plan revenue included in the consolidated statements of operations (in millions):

| | Three Months Ended March 31, | |
|----------------------|------------------------------|-------|
| | 2015 | 2014 |
| Passenger revenues | \$64 | \$55 |
| Other - net revenues | 76 | 73 |
| Total | \$140 | \$128 |

NOTE 6. LONG-TERM DEBT

Long-term debt obligations on the consolidated balance sheet (in millions):

| | March 31, 2015 | December 31, 2014 | | |
|--|-------------------|----------------------|--|---|
| Fixed-rate notes payable due through 2024 | \$587 | \$614 | | |
| Variable-rate notes payable due through 2025 | 181 | 189 | | |
| Total debt | 768 | 803 | | |
| Less current portion | 118 | 117 | | |
| Long-term debt, less current portion | \$650 | \$686 | | |
| Weighted-average fixed-interest rate | 5.7 | % 5.7 | | % |
| Weighted-average variable-interest rate | 1.6 | % 1.6 | | % |

During the three months ended March 31, 2015, the Company made debt payments of \$35 million.

At March 31, 2015, long-term debt principal payments for the next five years and thereafter are as follows (in millions):

| | Total |
|-------------------|-------|
| Remainder of 2015 | \$83 |
| 2016 | 115 |
| 2017 | 120 |
| 2018 | 151 |
| 2019 | 114 |
| Thereafter | 185 |
| Total | \$768 |

Bank Lines of Credit

The Company has two \$100 million credit facilities. Both facilities have variable interest rates based on LIBOR plus a specified margin. One of the \$100 million facilities, which expires in September 2017, is secured by aircraft. The other \$100 million facility, which expires in March 2017, is secured by certain accounts receivable, spare engines, spare parts and ground service equipment. The Company has no immediate plans to borrow using either of these facilities. These facilities have a requirement to maintain a minimum unrestricted cash and marketable securities balance of \$500 million. The Company is in compliance with this covenant at March 31, 2015.

NOTE 7. EMPLOYEE BENEFIT PLANS

Net periodic benefit costs recognized included the following components for the three months ended March 31, 2015 (in millions):

| | Three Months Ended March 31, | | | | |
|----------------------------------|------------------------------|-------|------------------------|-------|---|
| | Qualified | | Postretirement Medical | | |
| | 2015 | 2014 | 2015 | 2014 | |
| Service cost | \$10 | \$8 | \$1 | \$1 | |
| Interest cost | 21 | 20 | 1 | 1 | |
| Expected return on assets | (31 |) (29 |) — | — | |
| Recognized actuarial loss (gain) | 7 | 3 | (3 |) (1 |) |
| Total | \$7 | \$2 | \$(1 |) \$1 | |

NOTE 8. COMMITMENTS

Future minimum fixed payments for commitments (in millions):

| March 31, 2015 | Aircraft Leases | Facility Leases | Aircraft Commitments | Capacity Purchase Agreements |
|-------------------|-----------------|-----------------|-------------------------|------------------------------------|
| Remainder of 2015 | \$39 | \$70 | \$385 | \$39 |
| 2016 | 105 | 92 | 585 | 58 |
| 2017 | 72 | 87 | 530 | 61 |
| 2018 | 57 | 39 | 428 | 42 |
| 2019 | 46 | 37 | 372 | 30 |
| Thereafter | 164 | 194 | 650 | 245 |
| Total | \$483 | \$519 | \$2,950 | \$475 |

Lease Commitments

At March 31, 2015, the Company had lease contracts for 64 aircraft, which have remaining noncancelable lease terms ranging from 2015 to 2028. Of these aircraft, 14 are non-operating (i.e. not in the Company's fleet) and seven aircraft are E-175 regional jets, which will begin operations under a CPA with SkyWest in 2015. The majority of airport and terminal facilities are also leased. Rent expense for aircraft and facility leases was \$73 million and \$75 million for the three months ended March 31, 2015 and 2014, respectively.

Aircraft Commitments

As of March 31, 2015, the Company is committed to purchasing 79 B737 aircraft (42 737-900ER aircraft and 37 737 MAX aircraft) and two Q400 aircraft, with deliveries in 2015 through 2022. In addition, the Company has options to purchase 46 B737 aircraft and five Q400 aircraft, and options to increase capacity with 16 E-175 aircraft through our CPA with SkyWest.

Capacity Purchase Agreements (CPAs)

At March 31, 2015, Alaska had CPAs with three carriers, including the Company's wholly-owned subsidiary, Horizon. Horizon sells 100% of its capacity to Alaska under a CPA, which is eliminated upon consolidation. In addition, Alaska has CPAs with SkyWest Airlines, Inc. (SkyWest) to fly certain routes and Peninsula Airways, Inc. (PenAir) to fly one route in the state of Alaska. Under these agreements, Alaska pays the third-party carriers an amount which is based on a determination of their cost of operating those flights and other factors. The costs paid by Alaska to Horizon are based on similar data and are intended to approximate market rates for those services. Future payments (excluding those due to Horizon) are based on contractually required minimum levels of flying by the third-party carriers, which could differ materially due to variable payments based on actual levels of flying and certain costs associated with operating flights, such as fuel.

NOTE 9. SHAREHOLDERS' EQUITY

Dividends

During the three months ended March 31, 2015, the Company declared and paid cash dividends of \$0.20 per share, or \$26 million.

Common Stock Repurchase

In September 2012, the Board of Directors authorized a \$250 million share repurchase program, which was completed in July 2014. In May 2014, the Board of Directors authorized a \$650 million share repurchase program.

15

Share repurchase activity (in millions, except share amounts):

| | Three Months Ended March 31, | | 2014 | |
|---|------------------------------|--------|---------|--------|
| | 2015 | Amount | Shares | Amount |
| 2014 Repurchase Program - \$650 million | 1,580,747 | \$ 102 | — | \$— |
| 2012 Repurchase Program - \$250 million | — | \$— | 705,702 | \$30 |
| Total | 1,580,747 | \$ 102 | 705,702 | \$30 |

Accumulated Other Comprehensive Loss

Components of accumulated other comprehensive income (loss), net of tax (in millions):

| | March 31, | December 31, |
|---------------------------|-----------|--------------|
| | 2015 | 2014 |
| Marketable securities | \$4 | \$— |
| Employee benefit plans | (296) | (298) |
| Interest rate derivatives | (13) | (12) |
| Total | \$(305) | \$(310) |

Earnings Per Share (EPS)

Diluted EPS is calculated by dividing net income by the average number of common shares outstanding plus the number of additional common shares that would have been outstanding assuming the exercise of in-the-money stock options and restricted stock units, using the treasury-stock method. For the three months ended March 31, 2015 and 2014, anti-dilutive shares excluded from the calculation of EPS were not material.

NOTE 10. OPERATING SEGMENT INFORMATION

Air Group has two operating airlines - Alaska Airlines and Horizon Air. Each is a regulated airline with separate management teams primarily in operational roles. Horizon sells 100% of its capacity to Alaska under a CPA, which is eliminated upon consolidation. In addition, Alaska has CPAs with SkyWest to fly certain routes and PenAir to fly one route in the state of Alaska. The Company attributes revenue between Mainline and Regional based on the coupon fare in effect on the date of issuance relative to the origin and destination of each flight segment. To manage the two operating airlines and the revenues and expenses associated with the CPAs, management views the business in three operating segments.

Alaska Mainline - Flying Boeing 737 jets and all associated revenues and costs.

Alaska Regional - Alaska's CPAs with Horizon, SkyWest and PenAir. In this segment, Alaska Regional records actual on-board passenger revenue, less costs such as fuel, distribution costs, and payments made to Horizon, SkyWest and PenAir under the respective CPAs. Additionally, Alaska Regional includes an allocation of corporate overhead such as IT, finance, and other administrative costs incurred by Alaska on behalf of Horizon.

Horizon - Horizon operates turboprop Q400 aircraft. All of Horizon's capacity is sold to Alaska under a CPA. Expenses include those typically borne by regional airlines such as crew costs, ownership costs, and maintenance costs. The results of Horizon's operations are eliminated upon consolidation.

Additionally, the following table reports “Air Group adjusted,” which is not a measure determined in accordance with GAAP. The Company's chief operating decision-makers and others in management use this measure to evaluate operational performance and determine resource allocations. Adjustments are further explained below in reconciliation to consolidated GAAP results. Operating segment information is as follows (in millions):

Three Months Ended March 31, 2015

Alaska

| | Mainline | Regional | Horizon | Consolidating | Air Group Adjusted ^(a) | Special Items ^(b) | Consolidated | |

(a) There are no assets associated with purchased capacity flying at Alaska.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

OVERVIEW

The following Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) is intended to help the reader understand the Company, our segment operations and our present business environment. MD&A is provided as a supplement to – and should be read in conjunction with – our consolidated financial statements and the accompanying notes. All statements in the following discussion that are not statements of historical information or descriptions of current accounting policy are forward-looking statements. Please consider our forward-looking statements in light of the risks referred to in this report's introductory cautionary note and the risks mentioned in Item 1A. "Risk Factors" of our Annual Report on Form 10-K for the year ended December 31, 2014. This overview summarizes the MD&A, which includes the following sections:

First Quarter Review—highlights from the first quarter of 2015 outlining some of the major events that happened during the period and how they affected our financial performance.

Results of Operations—an in-depth analysis of our revenues by segment and our expenses from a consolidated perspective for the three months ended March 31, 2015. To the extent material to the understanding of segment profitability, we more fully describe the segment expenses per financial statement line item. Financial and statistical data is also included here. This section includes forward-looking statements regarding our view of the remainder of 2015.

Liquidity and Capital Resources—an overview of our financial position, analysis of cash flows, and relevant contractual obligations and commitments.

FIRST QUARTER REVIEW

Our consolidated pretax income was \$240 million during the first quarter of 2015, compared to \$152 million in the first quarter of 2014. The increase of \$88 million was mainly due to increased revenues of \$47 million and lower aircraft fuel expense of \$123 million, partially offset by an increase in non-fuel expenses of \$73 million. Also, in the prior-year quarter, we recognized gains from the sale of certain equity securities of \$11 million. The increase in revenues was due to an increase in capacity of 10.8%, while the average price of raw fuel decreased 38.9% per gallon, and non-fuel unit expenses decreased 0.6%.

See "Results of Operations" below for further discussion of changes in revenues and operating expenses and our reconciliation of non-GAAP measures to the most directly comparable GAAP measure.

Operations Performance

During the first quarter, both Alaska and Horizon continued their strong on-time performance, reporting that 85.0% and 86.2% of their flights arrived on time, respectively. For the twelve months ended February 2015, Alaska maintained its ranking as the top carrier among the eight largest U.S. airlines for on-time performance, according to the U.S. Department of Transportation.

New Markets

New routes launched and announced are as follows:

| New Non-Stop Routes Launched in Q1 | New Non-Stop Routes Announced (Launch Dates) |
|--|--|
| Las Vegas to Mammoth Lakes, California | Seattle to JFK, New York (9/16/15) |
| San Diego to Kona, Hawaii | Orange County, California to Cabo San Lucas, Mexico (10/8/15) |
| Seattle to Washington, D.C. Dulles | Orange County, California to Puerto Vallarta, Mexico (10/9/15) |
| | Boise to Spokane, Washington (8/24/15) |
| | Los Angeles to Baltimore, Maryland (9/10/15) |
| | Seattle to Nashville, Tennessee (9/23/15) |
| | Seattle to Raleigh, North Carolina (10/1/15) |
| | Seattle to Charleston, South Carolina (11/16/15) |
| | Los Angeles to San Jose, Costa Rica (10/31/15) |
| | Los Angeles to Liberia, Costa Rica (11/1/15) |

Capital Allocation

During the first quarter of 2015, we paid cash dividends of \$26 million and we repurchased 1,580,747 shares of our common stock for \$102 million under the \$650 million repurchase program authorized by our Board of Directors in May 2014. Since 2007, we have repurchased 50,669,998 shares of common stock under such programs for \$930 million for an average price of \$18 per share. During the month of April, we repurchased 829,873 shares of our common stock for \$53 million, resulting in 129,635,498 shares outstanding at April 30, 2015. For 2015, we expect to deploy at least \$550 million to shareholders through a combination of dividends and share repurchases.

Outlook

Currently, we see strong demand for the summer travel season. Because of our low cost structure, low fuel costs, and our strong balance sheet we are able to offer lower fares, while maintaining our return and capital allocation objectives. We believe this offers our customers an outstanding value proposition when coupled with the improvements we've made in our in-flight experience with Alaska Beyond™, including upgraded food and beverage offerings, new streaming in-flight entertainment, comfortable Recaro seats with power at every seat, and our award winning service. We also launched a promotion beginning February 1, 2015 to offer a free checked bag to all Alaska Airlines Visa Signature credit cardholders to further enhance the value of our Mileage Plan program, which we expect to continue.

We expect our capacity to increase approximately 10.5% in the second quarter. In addition to our own capacity growth, competitive capacity is expected to be up approximately 15% in the second quarter (weighted by the concentration of our own capacity in competitive markets), which will put pressure on our yields and load factors. We currently expect our unit costs to be flat in the second quarter compared to 2014, and are targeting an approximate 0.5% decrease in unit costs for the full year of 2015 compared to 2014.

Our current expectations for capacity and CASM excluding fuel and special items are summarized below:

| | Forecast Q2 2015 | Change Y-O-Y | Forecast Full Year 2015 | Change Y-O-Y |
|-----------------------------|---------------------|-----------------|----------------------------|-----------------|
| Consolidated: | | | | |
| ASMs (000,000) "capacity" | 9,900 - 9,950 | ~ 10.5% | 39,500 - 39,900 | ~ 10.0% |
| CASM excluding fuel (cents) | 8.33¢ - 8.38¢ | ~ flat | 8.30¢ - 8.35¢ | ~ (0.5)% |

Mainline:

Edgar Filing: ALASKA AIR GROUP, INC. - Form 10-Q

| | | | | |
|-----------------------------|---------------|---------|-----------------|----------|
| ASMs (000,000) "capacity" | 8,925 - 8,975 | ~ 10.5% | 35,600 - 36,000 | ~ 10.0% |
| CASM excluding fuel (cents) | 7.43¢ - 7.48¢ | ~ flat | 7.40¢ - 7.45¢ | ~ (0.5)% |

RESULTS OF OPERATIONS

COMPARISON OF THREE MONTHS ENDED MARCH 31, 2015 COMPARED TO THREE MONTHS ENDED MARCH 31, 2014

Our consolidated net income for the first quarter of 2015 was \$149 million, or \$1.12 per diluted share, compared to net income of \$94 million, or \$0.68 per diluted share, in the first quarter of 2014. Significant items impacting the comparability between the periods are as follows:

In the first quarter of 2014 there were adjustments to reflect the timing of unrealized mark-to-market gains of \$8 million (\$5 million after tax, or \$0.04 per diluted share) related to our fuel hedge positions.

ADJUSTED (NON-GAAP) RESULTS AND PER-SHARE AMOUNTS

We believe disclosure of earnings excluding the impact of mark-to-market gains or losses or other individual revenues or expenses is useful information to investors because:

CASM excluding fuel and certain special items is one of the most important measures used by management and by the Air Group Board of Directors in assessing quarterly and annual cost performance;

By eliminating fuel expense and certain special items from our unit metrics, we believe that we have better visibility into the results of our non-fuel continuing operations. Our industry is highly competitive and is characterized by high fixed costs, so even a small reduction in non-fuel operating costs can result in a significant improvement in operating results. In addition, we believe that all domestic carriers are similarly impacted by changes in jet fuel costs over the long run, so it is important for management (and thus investors) to understand the impact of (and trends in) company-specific cost drivers such as labor rates and productivity, airport costs, maintenance costs, etc., which are more controllable by management;

Our results excluding fuel expense and certain special items serve as the basis for our various employee incentive plans, thus the information allows investors to better understand the changes in variable incentive pay expense in our consolidated statements of operations; and

We believe it is the basis by which we are evaluated by industry analysts; and

It is useful to monitor performance without these items as it improves a reader's ability to compare our results to those of other airlines.

Although we are presenting these non-GAAP amounts for the reasons above, investors and other readers should not necessarily conclude these amounts are non-recurring, infrequent, or unusual in nature.

Excluding the impact of mark-to-market fuel hedge adjustments, our adjusted consolidated net income for the first quarter of 2015 was \$149 million, or \$1.12 per diluted share, compared to an adjusted consolidated net income of \$89 million, or \$0.64 per diluted share, in the first quarter of 2014.

| (in millions, except per share amounts) | Three Months Ended March 31, | | | |
|---|------------------------------|-------------|-------|-------------|
| | 2015 | Diluted EPS | 2014 | Diluted EPS |
| Net income and diluted EPS as reported | \$ 149 | \$ 1.12 | \$ 94 | \$ 0.68 |
| Mark-to-market fuel hedge adjustments, net of tax | — | — | (5 |) (0.04 |

| | | | |
|--|--------|------|--------|
| Non-GAAP adjusted income and per-share amounts \$149 | \$1.12 | \$89 | \$0.64 |
|--|--------|------|--------|

Our operating costs per ASM are summarized below:

| (in cents) | Three Months Ended March 31, | | |
|---|------------------------------|---------|-----------|
| | 2015 | 2014 | % Change |
| Consolidated: | | | |
| CASM | 11.14 | ¢ 12.94 | ¢ (13.9) |
| Less the following components: | | | |
| Aircraft fuel, including hedging gains and losses | 2.53 | 4.28 | (40.9) |
| CASM excluding fuel | 8.61 | ¢ 8.66 | ¢ (0.6) |
| Mainline: | | | |
| CASM | 10.09 | ¢ 11.82 | ¢ (14.6) |
| Less the following components: | | | |
| Aircraft fuel, including hedging gains and losses | 2.43 | 4.14 | (41.3) |
| CASM excluding fuel | 7.66 | ¢ 7.68 | ¢ (0.3) |

OPERATING STATISTICS SUMMARY (unaudited)

Below are operating statistics we use to measure operating performance. We often refer to unit revenues and adjusted unit costs, which are non-GAAP measures.

| | Three Months Ended March 31, | | |
|---|------------------------------|--------|-----------|
| | 2015 | 2014 | Change |

^(a) Except for FTEs, data includes information related to third-party Regional CPA arrangements.

^(b) See reconciliation of this measure to the most directly related GAAP measure in the "Results of Operations" section.

^(c) Data presented includes information related to Regional CPAs.

OPERATING REVENUES

Total operating revenues increased \$47 million, or 4%, during the first quarter of 2015 compared to the same period in 2014. The changes are summarized in the following table:

| (in millions) | Three Months Ended March 31, | | |
|--------------------------|------------------------------|---------|----------|
| | 2015 | 2014 | % Change |
| Passenger | | | |
| Mainline | \$901 | \$854 | 6 |
| Regional | 186 | 186 | — |
| Total passenger revenue | 1,087 | 1,040 | 5 |
| Freight and mail | 23 | 24 | (4 |
| Other - net | 159 | 158 | 1 |
| Total operating revenues | \$1,269 | \$1,222 | 4 |

Passenger Revenue – Mainline

Mainline passenger revenue for the first quarter of 2015 increased by 6% due to an 11.4% increase in capacity, partially offset by a decrease of 5.4% in PRASM compared to the first quarter of 2014. The increase in capacity was driven by adding larger aircraft to our fleet and the annualization of new routes added to expand our service from Seattle, Anchorage, Portland, and Salt Lake City. The decrease in PRASM was driven by a 3.4% decline in ticket yield and a 1.6-point reduction in load factor compared to the prior-year quarter. The decrease in yield and load factor was primarily due to increased competitive capacity in our markets and, to a lesser extent, new markets that have not yet fully matured. Additionally, interline revenue decreased approximately 25% due to a reduction in revenue from one of our codeshare partners, and due to a favorable impact to revenue in the prior year from storm-related rebookings on us by other carriers.

Passenger Revenue – Regional

Regional passenger revenue was flat compared to the first quarter of 2014. The 6.2% increase in capacity was offset by a 5.7% decrease in PRASM. The increase in capacity was driven by additional frequencies and the annualization of new routes in the prior year. The decrease in PRASM is due to a 7.1% decline in yield, partially offset by an increase in load factor of 1.2 points. The decrease in yield is due to an increase in competitive capacity in our regional markets and our own growth as we strengthen our network utility in the Pacific Northwest.

Other – Net

Other - net revenue increased \$1 million from the first quarter of 2014, due to slight increases in Mileage Plan revenue, change fee revenue and buy-on-board revenue. Largely offsetting these increases was a \$6 million decline in bag fee revenue connected to promotions to offer a free checked bag to all Mileage Plan members in January, and to our Alaska Airlines Visa Signature credit cardholders in February and March.

OPERATING EXPENSES

Total operating expenses decreased \$50 million, or 5%, compared to the first quarter of 2014. We believe it is useful to summarize operating expenses as follows, which is consistent with the way expenses are reported internally and evaluated by management:

| (in millions) | Three Months Ended March 31, | | |
|---------------|------------------------------|-------|----------|
| | 2015 | 2014 | % Change |
| Fuel expense | \$235 | \$358 | (34 |

Edgar Filing: ALASKA AIR GROUP, INC. - Form 10-Q

| | | | | |
|--------------------------|---------|---------|----|---|
| Non-fuel expenses | 796 | 723 | 10 | |
| Total Operating Expenses | \$1,031 | \$1,081 | (5 |) |

Significant operating expense variances from 2014 are more fully described below.

24

Wages and Benefits

Wages and benefits increased during the first quarter of 2015 by \$34 million. The primary components of wages and benefits are shown in the following table:

| (in millions) | Three Months Ended March 31, | | |
|---------------------------------|------------------------------|-------|----------|
| | 2015 | 2014 | % Change |
| Wages | \$230 | \$209 | 10 |
| Pension - Defined benefit plans | 7 | 2 | 250 |
| Defined contribution plans | 15 | 13 | 15 |
| Medical and other benefits | 38 | 33 | 15 |
| Payroll taxes | 16 | 15 | 7 |
| Total wages and benefits | \$306 | \$272 | 13 |

Wages increased 10% with a 7.2% increase in FTEs. The primary driver of the increase in wages is the new Alaska Flight Attendant contract that was signed in the fourth quarter of 2014. FTEs increased across most work groups compared to the prior year due to the growth in departures.

Pension expense increased \$5 million, compared to the same period in the prior year. The increase is due to revaluing the pension obligation at December 31, 2014 with higher mortality assumptions, and a lower discount rate that increased the pension obligation. The resulting unrealized loss is amortized over the expected service period.

Medical and other benefits increased 15% compared to the same period in the prior year. The increase is primarily due to increases in medical insurance expense and workers' compensation expense, due to higher volumes of medical claims and a workers' compensation claim.

Aircraft Fuel

Aircraft fuel expense includes both raw fuel expense (as defined below) plus the effect of mark-to-market adjustments to our fuel hedge portfolio included in our consolidated statement of operations as the value of that portfolio increases and decreases. Our aircraft fuel expense is very volatile, even between quarters, because it includes these gains or losses in the value of the underlying instrument as crude oil prices and refining margins increase or decrease. Raw fuel expense is defined as the price that we generally pay at the airport, or the "into-plane" price, including taxes and fees. Raw fuel prices are impacted by world oil prices and refining costs, which can vary by region in the U.S. Raw fuel expense approximates cash paid to suppliers and does not reflect the effect of our fuel hedges.

Aircraft fuel expense decreased \$123 million, or 34% compared to 2014. The elements of the change are illustrated in the following table:

| (in millions, except for per gallon amounts) | Three Months Ended March 31, | | | |
|--|------------------------------|----------|---------|----------|
| | 2015 | | 2014 | |
| | Dollars | Cost/Gal | Dollars | Cost/Gal |
| Raw or "into-plane" fuel cost | \$229 | \$ 1.93 | \$348 | \$3.16 |
| Losses on settled hedges | 6 | 0.05 | 18 | 0.16 |
| Consolidated economic fuel expense | 235 | 1.98 | 366 | 3.32 |
| Mark-to-market fuel hedge adjustments | — | — | (8 |) (0.07 |
| GAAP fuel expense | \$235 | \$ 1.98 | \$358 | \$3.25 |
| Fuel gallons | 119 | | 110 | |

Fuel expense was lower than in the first quarter of 2014 as the raw fuel price per gallon decreased 39% on an 8% increase in fuel gallons. West Coast jet fuel prices are impacted by both the price of crude oil, as well as refining

margins associated with the conversion of crude oil to jet fuel. The decrease in raw fuel price per gallon during the first quarter of 2015 was due to lower crude oil prices of 51% with stable refining margins.

We also evaluate economic fuel expense, which we define as raw fuel expense adjusted for the cash we receive from, or pay to, hedge counterparties for hedges that settle during the period, and for the premium expense that we paid for those contracts. A key difference between aircraft fuel expense and economic fuel expense is the timing of gain or loss recognition on our hedge portfolio. When we refer to economic fuel expense, we include gains and losses only when they are realized for those contracts that were settled during the period based on their original contract terms. We believe this is the best measure of the effect that fuel prices are currently having on our business because it most closely approximates the net cash outflow associated with purchasing fuel for our operations. Accordingly, many industry analysts evaluate our results using this measure, and it is the basis for most internal management reporting and incentive pay plans.

We recognized losses of \$6 million for hedges that settled during the first quarter of 2015, compared to losses of \$18 million in the first quarter of 2014. These amounts represent the net cash paid including the premium expense recognized for those hedges. Additionally, in the prior year we recorded an unrealized gain of \$8 million.

Aircraft Maintenance

Aircraft maintenance expense increased by \$12 million, or 24%, compared to the first quarter of 2014. For both fleets, the increase is due to more scheduled engine events that were more expensive due to replacing life-limited parts. Additionally, there were more airframe checks for the B737 fleet compared to the first quarter of 2014.

We expect full-year aircraft maintenance expense to be 10% to 15% higher than full-year 2014 due to an increase in engine maintenance expense for both fleet types.

Contracted Services

Contracted services expense increased \$7 million, or 12%, compared to the first quarter of 2014. The increase is primarily due to increased flying at stations where we use vendors to assist us with passenger and ramp handling. Additionally, payments to our CPA partners increased approximately \$2 million compared to the same period in the prior year because of increased flying.

Selling Expenses

Selling expenses increased \$7 million, or 15%, compared to the first quarter of 2014. The increase is directly due to the advertising and promotional activity related to the launch of our Alaska Beyond service.

Depreciation and Amortization Expense

Depreciation and amortization expense increased \$6 million, or 9%, compared to the first quarter of 2014. The increase is due to seven additional aircraft in the fleet, the completion of our cabin improvement project, and capitalization of non-aircraft assets.

Food and Beverage Expense

Food and beverage expense increased \$4 million, or 19%, compared to the first quarter of 2014. The increase is due to increased buy-on-board sales and changes in the menu offering higher quality food and beverage products.

Nonoperating Income

Net nonoperating income decreased \$9 million, compared to the first quarter of 2014. In the prior year, we recognized a gain from the sale of certain equity securities.

Operating Expenses Compared to Capacity Growth

We are presenting our line-item expenses below both in absolute dollars and on an ASM basis to highlight areas in which costs have increased or decreased either more or less than capacity.

| (in millions, except CASM) | Three Months Ended March 31, | | | | | |
|--------------------------------|------------------------------|----------------|--------------|--------------|----------------|----|
| | 2015 Amount | 2014 Amount | 2015 CASM | 2014 CASM | Change CASM | |
| Wages and benefits | \$306 | \$272 | 3.31 | ¢ 3.26 | ¢ 1.5 | % |
| Variable incentive pay | 26 | 25 | 0.28 | 0.30 | (6.7 |)% |
| Aircraft maintenance | 63 | 51 | 0.68 | 0.61 | 11.5 | % |
| Aircraft rent | 26 | 28 | 0.28 | 0.34 | (17.6 |)% |
| Landing fees and other rentals | 71 | 69 | 0.77 | 0.83 | (7.2 |)% |
| Contracted services | 67 | 60 | 0.72 | 0.72 | — | % |
| Selling expenses | 53 | 46 | 0.57 | 0.55 | 3.6 | % |
| Depreciation and amortization | 76 | 70 | 0.83 | 0.84 | (1.2 |)% |
| Food and beverage service | 25 | 21 | 0.27 | 0.25 | 8.0 | % |
| Other | 83 | 81 | 0.90 | 0.96 | (6.3 |)% |
| Non-fuel Expenses | \$796 | \$723 | 8.61 | ¢ 8.66 | ¢ (0.6 |)% |

Additional Segment Information

Refer to the Notes of the Condensed Consolidated Financial Statements for a detailed description of each segment. Below is a summary of each segment's profitability.

Alaska Mainline

Pretax profit for Alaska Mainline was \$228 million in the first quarter of 2015 compared to \$138 million in the first quarter of 2014. The \$47 million increase in Mainline passenger revenue is described above. Mainline operating expense excluding fuel increased by \$63 million to \$639 million in 2015 due to higher maintenance rates and volumes, higher ramp and passenger handling, higher advertising and promotional spend on the launch of Alaska Beyond, increased costs with higher quality food and beverage products, and higher depreciation related to our fleet growth. Economic fuel cost decreased due to lower raw fuel costs, partially offset by a 7.3% increase in consumption.

Alaska Regional

Pretax profit for Alaska Regional was \$7 million in the first quarter of 2015 compared to \$4 million the first quarter of 2014. The increase is due to lower economic fuel expense, partially offset by higher expenses to support additional capacity.

Horizon

Pretax profit for Horizon was \$6 million in the first quarter of 2015 compared to \$3 million in the first quarter of 2014. CPA Revenues (100% of which are from Alaska and eliminated in consolidation) increased due to additional departures and rates in the CPA contract. The \$5 million increase in Horizon's non-fuel operating expenses was largely driven by increased engine maintenance and increased wages to support additional flying.

LIQUIDITY AND CAPITAL RESOURCES

Our primary sources of liquidity are:

Our existing cash and marketable securities balance of \$1.3 billion;

Our expected cash from operations;

Our 77 unencumbered aircraft in our operating fleet that could be financed, if necessary;

Our combined \$200 million bank line-of-credit facilities, with no outstanding borrowings.

During the first three months of 2015, we purchased one Q400 aircraft with cash on hand and made debt payments totaling \$35 million. In addition, we continued to return capital to our shareholders by paying \$26 million in quarterly dividends and repurchasing \$102 million of our common stock.

In 2014, we were rated BBB- by Fitch Ratings and Standard & Poor's, and are now one of only two U.S. airlines with investment-grade credit ratings.

In our cash and marketable securities portfolio, we invest only in securities that meet our overall investment policy of maintaining and securing investment principal. Our investment portfolio is managed by reputable firms that adhere to our investment policy that sets forth certain objectives, approved and prohibited investments, and duration and credit quality guidelines. Our policy and the portfolio managers are continually reviewed to ensure that the investments align with our strategy.

The table below presents the major indicators of financial condition and liquidity:

| (in millions, except per share and debt-to-capital amounts) | March 31, 2015 | December 31, 2014 | Change | |
|---|----------------|-------------------|---------|---|
| Cash and marketable securities | \$1,312 | \$1,217 | 7.8 | % |
| Cash, marketable securities, and unused lines of credit as a percentage of trailing twelve months revenue | 28 | % 26 | % 2 pts | |
| Long-term debt, net of current portion | \$650 | \$686 | (5.2) | % |
| Shareholders' equity | \$2,166 | \$2,127 | 1.8 | % |
| Long-term debt-to-capital including net present value of aircraft operating lease payments ^(a) | 29%:71% | 31%:69% | (2) pts | |

^(a) Calculated using the present value of remaining aircraft lease payments.

Given our strong financial condition, we will continue to evaluate our cash flows from operations, reinvest in the business, and return capital to our shareholders, while maintaining a strong liquidity position.

The following discussion summarizes the primary drivers of the increase in our cash and marketable securities balance and our expectation of future cash requirements.

ANALYSIS OF OUR CASH FLOWS

Cash Provided by Operating Activities

For the first three months of 2015, net cash provided by operating activities was \$514 million, compared to \$242 million during the same period in 2014. The \$272 million increase was primarily attributable to a decrease in the price

of jet fuel, the collection of a \$65 million income tax receivable from 2014, and an increase in passenger revenues.

We typically generate positive cash flows from operations and expect to use that cash flow to buy aircraft and capital equipment, make normal debt payments, and to return capital to shareholders through share repurchases and dividends.

Cash Used in Investing Activities

Cash used in investing activities was \$421 million during the first three months of 2015, compared to \$164 million during the same period of 2014. Our capital expenditures were \$279 million in the first three months of 2015, primarily due to purchase deposits related to 34 aircraft deliveries over the next 24 months.

The table below reflects our full-year expectation for capital expenditures and the additional expenditures if options were exercised. These options will be exercised only if we believe return on invested capital targets can be met.

| (in millions) | 2015 | 2016 | 2017 | 2018 |
|--|-------|-------|-------|-------|
| Aircraft and aircraft purchase deposits - firm | \$580 | \$530 | \$500 | \$400 |
| Other flight equipment | 55 | 55 | 30 | 25 |
| Other property and equipment | 100 | 80 | 80 | 80 |
| Total property and equipment additions | \$735 | \$665 | \$610 | \$505 |
| Option aircraft and aircraft deposits, if exercised ^(a) | \$— | \$60 | \$140 | \$290 |

^(a) Alaska has options to acquire 46 B737 aircraft with deliveries from 2018 through 2024. Horizon has options to acquire five Q400 aircraft with deliveries from 2018 through 2019.

Cash Used by Financing Activities

Net cash used by financing activities was \$149 million during the first three months of 2015 compared to \$68 million during the same period in 2014. During the first three months of 2015 we made debt payments of \$35 million, stock repurchases of \$102 million, and dividend payments totaling \$26 million.

Bank Line-of-Credit Facilities

We have two \$100 million credit facilities. Both facilities have variable interest rates based on LIBOR plus a specified margin. One of the \$100 million facilities, which expires in September 2017, is secured by aircraft. The other \$100 million facility, which expires in March 2017, is secured by certain accounts receivable, spare engines, spare parts and ground service equipment.

CONTRACTUAL OBLIGATIONS AND COMMITMENTS

Aircraft Purchase Commitments

As of March 31, 2015, we have firm orders to purchase 81 aircraft. We also have options to acquire 46 B737 aircraft with deliveries from 2018 through 2024 and have options to acquire five Q400 aircraft with deliveries from 2018 through 2019. In addition, we have options to add regional capacity by having SkyWest operate up to 16 more E-175 aircraft.

The following table summarizes expected fleet activity by year:

| Aircraft | Actual Fleet | Expected Fleet Activity ^(a) | | | |
|-------------------------|--------------|--|--------------|-------------------|--------------|
| | Dec 31, 2014 | 2015 Changes | Dec 31, 2015 | 2016-2017 Changes | Dec 31, 2017 |
| 737 Freighters & Combis | 6 | — | 6 | (3 |) 3 |
| 737 Passenger Aircraft | 131 | 10 | 141 | 9 | 150 |
| Total Mainline Fleet | 137 | 10 | 147 | 6 | 153 |
| Q400 | 51 | 1 | 52 | 2 | 54 |
| E-175 | — | 5 | 5 | 2 | 7 |
| CRJ700 | 8 | — | 8 | — | 8 |

Edgar Filing: ALASKA AIR GROUP, INC. - Form 10-Q

| | | | | | |
|----------------------|-----|----|-----|----|-----|
| Total Regional Fleet | 59 | 6 | 65 | 4 | 69 |
| Total | 196 | 16 | 212 | 10 | 222 |

^(a) Expected fleet activity includes aircraft deliveries, net of planned retirements and lease returns.

For future firm orders and if we exercise our options for additional deliveries, we may finance the aircraft through internally generated cash, long-term debt, or lease arrangements.

Fuel Hedge Positions

All of our current oil positions are call options, which are designed to effectively cap the cost of the crude oil component of our jet fuel purchases. With call options, we benefit from a decline in crude oil prices, as there is no cash outlay other than the premiums we pay to enter into the contracts. Our crude oil positions are as follows:

| | Approximate % of Expected Fuel Requirements | Weighted-Average Crude Oil Price per Barrel | Average Premium Cost per Barrel |
|---------------------|---|---|------------------------------------|
| Second Quarter 2015 | 50 | % \$97 | \$3 |
| Third Quarter 2015 | 50 | % \$90 | \$3 |
| Fourth Quarter 2015 | 40 | % \$86 | \$3 |
| Remainder 2015 | 47 | % \$95 | \$3 |
| First Quarter 2016 | 30 | % \$82 | \$3 |
| Second Quarter 2016 | 20 | % \$72 | \$3 |
| Third Quarter 2016 | 10 | % \$72 | \$3 |
| Full Year 2016 | 15 | % \$77 | \$3 |

Contractual Obligations

The following table provides a summary of our principal payments under current and long-term debt obligations, operating lease commitments, aircraft purchase commitments and other obligations as of March 31, 2015:

| (in millions) | Remainder of 2015 | 2016 | 2017 | 2018 | 2019 | Beyond 2019 | Total |
|--|----------------------|-------|-------|-------|-------|----------------|---------|
| Current and long-term debt obligations | \$83 | \$115 | \$120 | \$151 | \$114 | \$185 | \$768 |
| Operating lease commitments ^(a) | 109 | 197 | 159 | 96 | 83 | 358 | 1,002 |
| Aircraft purchase commitments | 385 | 585 | 530 | 428 | 372 | 650 | 2,950 |
| Interest obligations ^(b) | 24 | 32 | 27 | 21 | 13 | 13 | 130 |
| Other obligations ^(c) | 47 | 58 | 61 | 42 | 30 | 245 | 483 |
| Total | \$648 | \$987 | \$897 | \$738 | \$612 | \$1,451 | \$5,333 |

Operating lease commitments generally include aircraft operating leases, airport property and hangar leases, office space, and other equipment leases. Included here are seven E-175 aircraft that will be operated by SkyWest under a purchase agreement beginning in 2015.

^(b) For variable-rate debt, future obligations are shown above using interest rates in effect as of March 31, 2015.

Includes minimum obligations under our long-term PBH maintenance agreement and obligations associated with

^(c) third-party CPAs with SkyWest and PenAir. Refer to the "Commitments" note in the condensed consolidated financial statements for further information.

Credit Card Agreements

We have agreements with a number of credit card companies to process the sale of tickets and other services. Under these agreements, there are material adverse change clauses that, if triggered, could result in the credit card companies holding back a reserve from our credit card receivables. Under one such agreement, we could be required to maintain a reserve if our credit rating is downgraded to, or below, a rating specified by the agreement or our cash and marketable securities balance falls below \$500 million. Under another such agreement, we could be required to maintain a reserve if our cash and marketable securities balance falls below \$500 million. We are not currently required to maintain any reserve under these agreements, but if we were, our financial position and liquidity could be materially harmed.

Deferred Income Taxes

For federal income tax purposes, the majority of our assets are fully depreciated over a seven-year life using an accelerated depreciation method or bonus depreciation, if available. For financial reporting purposes, the majority of our assets are depreciated over 15 to 20 years to an estimated salvage value using the straight-line basis. This difference, along with other deferred liabilities and offset by deferred assets, have created a significant deferred tax liability. At some point in the future the depreciation basis will reverse, potentially resulting in an increase in income taxes paid.

30

Taxable income and cash taxes payable in the short term are impacted by many items, including the amount of book income generated (which can be volatile depending on revenue and fuel prices), availability of "bonus depreciation", and other legislative changes that are out of our control. We believe that we have the liquidity to make our future tax payments.

CRITICAL ACCOUNTING ESTIMATES

There have been no material changes to our critical accounting estimates for the three months ended March 31, 2015. For information on our critical accounting estimates, see Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations" of our Annual Report on Form 10-K for the year ended December 31, 2014.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

There have been no material changes in market risk from the information provided in Item 7A. "Quantitative and Qualitative Disclosure About Market Risk" in our Annual Report on Form 10-K for the year ended December 31, 2014.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

As of March 31, 2015, an evaluation was performed under the supervision and with the participation of our management, including our chief executive officer and chief financial officer (collectively, our "certifying officers"), of the effectiveness of the design and operation of our disclosure controls and procedures. These disclosure controls and procedures are designed to ensure that the information required to be disclosed by us in our periodic reports filed with or submitted to the Securities and Exchange Commission (the SEC) is recorded, processed, summarized and reported within the time periods specified by the SEC's rules and forms, and includes, without limitation, controls and procedures designed to ensure that such information is accumulated and communicated to our management, including our certifying officers, as appropriate to allow timely decisions regarding required disclosure. Our certifying officers concluded, based on their evaluation, that disclosure controls and procedures were effective as of March 31, 2015.

Changes in Internal Control over Financial Reporting

We made no changes in our internal control over financial reporting during the quarter ended March 31, 2015, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Our internal control over financial reporting is based on the 2013 framework in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO Framework).

PART II

ITEM 1. LEGAL PROCEEDINGS

We are a party to routine litigation matters incidental to our business. Management believes the ultimate disposition of these matters is not likely to materially affect our financial position or results of operations. This forward-looking statement is based on management's current understanding of the relevant law and facts, and it is subject to various contingencies, including the potential costs and risks associated with litigation and the actions of judges and juries.

ITEM 1A. RISK FACTORS

There have been no material changes to the risk factors affecting our business, financial condition or future results from those set forth in Item 1A. "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2014. However, you should carefully consider the factors discussed in such section of our Annual Report on Form 10-K, which could materially affect our business, financial condition or future results. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

This table provides certain information with respect to our purchases of shares of our common stock during the first quarter of 2015.

| | Total Number of Shares Purchased | Average Price Paid per Share | Total Number of Shares (or units) Purchased as Part of Publicly Announced Plans or Programs | Maximum remaining dollar value of shares that can be purchased under the plan (in millions) |
|--------------------------------------|---|---------------------------------|--|--|
| January 1, 2015 - January 31, 2015 | 197,081 | \$61.39 | 197,081 | |
| February 1, 2015 - February 28, 2015 | 565,916 | 63.73 | 565,916 | |
| March 1, 2015 - March 31, 2015 | 817,750 | 66.10 | 817,750 | |
| Total | 1,580,747 | \$64.53 | 1,580,747 | \$282 |

The shares were purchased pursuant to a \$650 million repurchase plan authorized by the Board of Directors in May 2014.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None

ITEM 4. MINE SAFETY DISCLOSURES

None

ITEM 5. OTHER INFORMATION
