REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Participants and Administrator of
The Petroleum Development Corporation 401(k) & Profit Sharing Plan
Bridgeport, West Virginia

We have audited the accompanying statements of net assets available for benefits of The Petroleum Development Corporation 401(k) & Profit Sharing Plan (the "Plan") as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to, nor were we engaged to perform an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2009 and 2008, and the changes in its net assets available for benefits for the year ended December 31, 2009 in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplemental schedules of assets (held at end of year) and the delinquent participant contributions as of December 31, 2009 are presented for the purpose of additional analysis and are not a required part of the basic financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. Such schedules have been subjected to the auditing procedures applied in our audit of the basic 2009 financial statements and, in our opinion, are fairly stated in all material respects when consideration in relation to the basic 2009 financial statements taken as a whole.

THE PETROLEUM DEVELOPMENT CORPORATION 401(K) & PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
AS OF DECEMBER 31, 2009 AND 2008 AND FOR THE YEAR ENDED DECEMBER 31, 2009

1. DESCRIPTION OF THE PLAN

The following description of The Petroleum Development Corporation (the "Company") 401(k) & Profit Sharing Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all Company employees except leased employees and employees covered by a collective bargaining agreement of Petroleum Development Corporation who meet the eligibility requirements of the Plan. Currently no Company employees are covered by a collective bargaining agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA) and the Internal Revenue Code.

Trustee and Recordkeeper

All of the Plan's assets are held by Fidelity Management Trust Company as trustee who also has participant account record keeping responsibilities.

Contributions

Each year, participants may make contributions of up to 60% of pretax annual compensation, as defined in the Plan, subject to statutory limitations. The Plan also allows catch up contributions for participants who have reached age 50 by the end of the year, subject to statutory limitations. The Company may make discretionary matching contributions in such amounts as may be determined by the Company's Board of Directors each plan year. In 2009, the Company matched 100% of participant contributions up to 10% of the participant compensation. In addition, the Company may make discretionary profit sharing contributions on the participant's behalf in an amount to be determined by the Board of Directors at the end of the plan year. During 2010, the Company elected to make a 2009 discretionary profit sharing contribution of \$500,000, which is included in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2009.

Participants direct the investment of their contributions into various investment options offered by the Plan. Currently, the Plan offers 24 mutual funds and the Company's common stock as investment options for participants. Participants may change their investment election for current or future contributions, the percentage(s) invested in each of these options, or transfer funds among these options on any business day.

Participant Accounts

Each participant's account is funded with the participant's contribution, the Company's matching contribution, and allocations of the Company's discretionary contribution and Plan earnings. Allocations are based on participant earnings from investments or account balances, as defined. The benefit to which a participant is entitled is the benefit provided from the participant's vested account.

Vesting

Participant contributions, plus actual earnings thereon, vest immediately. The Company's contribution portion of the participants accounts vests based on years of continuous service. Participants vest 25 percent after one year of service, 50 percent after two years of service, and are 100 percent vested after 3 years of service.

Loans to Participants

Participants may borrow from their fund accounts a minimum of \$1,000, up to a maximum of \$50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account. Principal and interest are paid ratably through payroll deductions. The repayment period shall be no more than five years unless such loan is for the purchase of a participant's primary residence, in which case the repayment period may not extend beyond ten years from the date of the loan. Interest is set at the discretion of the Plan administrator and will accrue at the annual rate of 6%.

Payment of Benefits

On termination of service for any reason or retirement (on or after age 59 ½), a participant, representative or beneficiary may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or installments under a systematic withdrawal plan. In addition, in service hardship withdrawals from a participant's Deferral Contributions Account shall be allowed.

Forfeitures

The Company's discretionary contributions that are not vested upon termination of employment are forfeited and may be used to reduce future Company contributions. At December 31, 2009 and 2008, the forfeited nonvested accounts totaled \$43,269 and \$182,699. For the year ended December 31, 2009, \$177,552 of forfeitures was used to offset current year employer contributions.

2. SUMMARY OF SIGNIFICANT ACCCOUNTING POLICIES

New Accounting Pronouncements

In June 2009, the Financial Accounting Standards Board ("FASB") issued a pronouncement establishing the FASB Accounting Standards Codification ("ASC") as the source of authoritative accounting principles recognized by the FASB to be applied in the preparation of financial statements in conformity with generally accepted accounting principles ("GAAP") in the United States. The standard is effective for financial statements issued for periods ending after September 15, 2009. The adoption of this standard did not have a material impact on the Plan's financial statements.

Basis of Presentation

The Plan uses the accrual basis of accounting and the financial statements are prepared in accordance with GAAP.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income

The Plan's investments are stated at fair value. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end. Participant loans are valued at their outstanding balances, which approximate fair value. The market value of the Company's common stock was based on the publicly traded price as of the last trade date of the year, December 31, 2009.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Administrative Expenses

Administrative expenses, including trustee, legal, auditing and other fees, are paid by the Company and, as such, are not expenses of the Plan. The amount reported as administrative expenses of the Plan are transactional fees charged to the recipient's account, such as loan processing, expedited shipping fees, etc.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan administrator has evaluated subsequent events through the date of this report, to ensure that the financial statements include appropriate disclosure or recognition of events that occurred subsequent to December 31, 2009.

Fair Value Measurements

The Plan's assets are measured at fair value pursuant to a fair value hierarchy that gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 financial instruments) and the lowest priority to unobservable inputs (Level 3 financial instruments). A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

- Level 1 Inputs - Unadjusted quoted prices in active markets for identical assets or liabilities.
- Level 2 Inputs - Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These might include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability (such as interest rates, volatilities, prepayment speeds, credit risks, etc.) or inputs that are derived principally from or corroborated by market data by correlation or other means.
- Level 3 Inputs - Unobservable inputs for determining the fair values of assets or liabilities that reflect assumptions that market participants would use in pricing the assets or liabilities.

The table below sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2009: (in thousands)

	Level			Total

During 2009, the Plan's investments, including gains and losses on investments bought and sold, as well as held during the year appreciated (depreciated) in value as follows: (in thousands)

Mutual funds	\$3,848
Petroleum Development Corporation common stock	(476)
Net appreciation in fair value of investments	\$3,372

4. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, Plan participants will become 100% vested in their accounts.

5. TAX STATUS

The Plan is a volume submitter profit sharing plan with 401(k) features established by Fidelity Management and Research Company. The Plan has received an opinion letter from the Internal Revenue Service (“IRS”) dated March 31, 2008 that the form of plan is qualified under Section 401(a) of the Internal Revenue Code. The Company has not sought an individual determination letter for the Plan and is relying on the opinion letter, as provided for in Revenue Procedure 2005-16. The Plan administrator believes the Plan is operated in compliance with the applicable requirements of the Internal Revenue Code and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan’s financial statement.

6. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants’ account balances and the amounts reported in the statement of net assets available for benefits.

7. RELATED PARTY / PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of the Company’s common stock. The Company is the Plan sponsor and therefore qualifies as a related party / party-in-interest. At December 31, 2009, the Plan held an investment of 131,359 shares of the common stock of the Company. The fair value of the Company common stock held by the fund at December 31, 2009 was \$2,392,056.

Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.

8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of the assets available for benefits as included in the financial statements to Form 5500 as of December 31, 2009 and 2008: (in thousands)

 DELINQUENT PARTICIPANT CONTRIBUTIONS
 FOR THE YEAR ENDED DECEMBER 31, 2009
 EIN # 95-2636730

Plan NO: 001

Question 4a, "Did the employer fail to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102," was answered "yes."

Participant Contributions Transferred Late to Plan	Total that Constitute Nonexempt Prohibited Transactions			
Check here if Late Participant Loan Repayments are included: <input type="checkbox"/>	Contributions Not Corrected	Contributions Corrected Outside VFCP	Contributions Pending Correction in VFCP	Total Fully Corrected Under VFCP and PTE 2002-51
\$ 1,331,882	\$ -	\$ -	\$ -	\$ 1,331,882

The non-exempt prohibited transaction has been corrected by the employer's payment of excise taxes, penalties and interest to the IRS. All employee contributions which were remitted late to the Plan, along with all delinquent participant loan repayments, have been remitted to the Plan along with an earnings credit for the delay in transmittal. The Employee Benefits Security Administration (EBSA) completed their review of the corrections during 2009 and reported they will take no further action. Therefore, the Plan administrator believes the matter to be resolved.
