(ZIP code)

Registrant's telephone number, including area code:  
(310) 208-8800

Check the appropriate box below if the Form 8-K is intended to simultaneously satisfy the filing obligation of the Registrant under any of the following provisions (see General Instruction A.2. below):

- Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)
- Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)
- Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

## Section 2 – Financial Information

### Item 2.02. Results of Operations and Financial Condition

On October 25, 2012, Occidental Petroleum Corporation released information regarding its results of operations for the three and nine months ended September 30, 2012. The exhibits to this Form 8-K and the information set forth in this Item 2.02 are being furnished pursuant to Item 2.02, Results of Operations and Financial Condition. The full text of the press release is attached to this report as Exhibit 99.1. The full text of the speeches given by Cynthia L. Walker and Stephen Chazen are attached to this report as Exhibit 99.2. Investor Relations Supplemental Schedules are attached to this report as Exhibit 99.3. Earnings Conference Call Slides are attached to this report as Exhibit 99.4. Forward-Looking Statements Disclosure for Earnings Release Presentation Materials is attached to this report as Exhibit 99.5. The information in this Item 2.02 and Exhibits 99.1 through 99.5, inclusive, shall not be deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, except as shall be expressly set forth by specific reference in such filing.

## Section 8 – Other Events

### Item 8.01. Other Events

On October 25, 2012, Occidental Petroleum Corporation announced income from continuing operations of \$1.4 billion (\$1.70 per diluted share) for the third quarter of 2012, compared with the third quarter of 2011 income from continuing operations of \$1.8 billion (\$2.18 per diluted share).

#### Oil and Gas

Oil and gas segment earnings were \$2.0 billion for the third quarter of 2012, compared with \$2.6 billion for the third quarter of 2011. Lower product prices and higher costs in the third quarter of 2012 were partially offset by higher oil volumes.

For the third quarter of 2012, daily oil and gas production volumes averaged 766,000 barrels of oil equivalent (BOE), compared with 739,000 BOE in the third quarter of 2011.

The third quarter 2012 production increase resulted from higher volumes of 33,000 BOE per day from domestic operations, partially offset by a decrease in international production. The international decrease included lower volumes from Dolphin, resulting from the full cost recovery of pre-startup capital, and in Yemen due to the Masila field contract expiration, partially offset by higher volumes from other international operations.

Daily sales volumes increased from 743,000 BOE in the third quarter of 2011 to 765,000 BOE in the third quarter of 2012.

Oxy’s realized price for worldwide crude oil was \$96.62 per barrel for the third quarter of 2012, compared with \$97.24 per barrel for the third quarter of 2011. The third quarter of 2012 realized oil price represents 105 percent of the average WTI and 88 percent of the average Brent price for the quarter. Worldwide NGL prices were \$40.65 per barrel in the third quarter of 2012, compared with \$56.06 per barrel in the third quarter of 2011. Domestic gas prices decreased 41 percent from \$4.23 per MCF in the third quarter of 2011 to \$2.48 per MCF for the third quarter of 2012.

Third quarter 2012 realized prices were lower than second quarter 2012 prices for worldwide oil and NGLs and were higher for domestic natural gas. On a sequential quarterly basis, prices decreased 3 percent for worldwide crude oil and NGLs and increased 19 percent for domestic natural gas.

#### Chemicals

Chemical segment earnings for the third quarter of 2012 were \$162 million, compared with \$245 million in the third quarter of 2011. The decrease was the result of lower prices across most product lines, particularly in polyvinyl chloride (PVC) and vinyl chloride monomer (VCM), partially offset by lower natural gas and ethylene costs.

#### Midstream, Marketing and Other

Midstream segment earnings were \$156 million for the third quarter of 2012, compared with \$77 million for the third quarter of 2011. The results reflect higher margins in the marketing and trading businesses, partially offset by lower income in the gas processing and pipeline businesses.

#### NINE-MONTH RESULTS

Core income for the first nine months of 2012 was \$4.3 billion (\$5.26 per diluted share), compared with \$5.2 billion (\$6.37 per diluted share) for the same period in 2011. Cash flow from operations after working capital changes was \$8.5 billion.

#### Oil and Gas

Oil and gas segment earnings were \$6.6 billion for the first nine months of 2012, compared with \$7.7 billion for the same period of 2011. The decrease in 2012 reflected lower NGL and natural gas prices, higher operating costs, exploration expense and DD&A rates, partially offset by higher oil prices and domestic volumes.

Oil and gas production volumes for the nine months were 762,000 BOE per day for 2012, compared with 728,000 BOE per day for the same period in 2011. Year-over-year, our domestic production increased by nearly 10 percent, while total company production increased by nearly 5 percent. Dolphin's full cost recovery of pre-startup capital, which reduced our production, was the only operation where production sharing and similar contracts had an appreciable effect.

The nine-month 2012 production increase resulted from 41,000 BOE per day in higher domestic volumes, partially offset by lower volumes in the Middle East/North Africa and Latin America.

Daily sales volumes were 757,000 BOE in the first nine months of 2012, compared with 726,000 BOE for the same period in 2011.

Oxy's realized prices improved for crude oil but declined for natural gas and NGLs on a year-over-year basis. Worldwide crude oil prices were \$101.20 per barrel for the nine months of 2012, compared with \$97.33 per barrel for the nine months of 2011. Worldwide NGL prices were \$45.21 per barrel for the nine months of 2012, compared with \$55.63 per barrel in the nine months of 2011. Domestic gas prices declined 42 percent, from \$4.24 per MCF in the nine months of 2011 to \$2.47 per MCF in the nine months of 2012.

### Chemicals

Chemical segment earnings were \$540 million for the nine months of 2012, compared with \$717 million for the same period in 2011. The reduction was primarily a result of lower export volumes and prices due to the economic conditions in Europe and Asia, partially offset by lower energy and feedstock costs.

### Midstream, Marketing and Other

Midstream segment earnings were \$364 million for the nine months of 2012, compared with \$378 million for the same period in 2011.

### Forward-Looking Statements

Portions of this press release contain forward-looking statements and involve risks and uncertainties that could materially affect expected results of operations, liquidity, cash flows and business prospects. Factors that could cause results to differ materially include, but are not limited to: global commodity pricing fluctuations; supply and demand considerations for Occidental's products; general domestic political and regulatory approval conditions; higher-than-expected costs; international political conditions; not successfully completing, or any material delay of, any development of new fields, expansion projects, capital expenditures, efficiency-improvement projects, acquisitions or dispositions; potential failure to achieve expected production from existing and future oil and gas development projects or acquisitions; exploration risks such as drilling unsuccessful wells; any changes in general economic conditions domestically or internationally; the ability to attract trained engineers; potential liability for remedial actions under existing or future environmental regulations and litigation; potential liability resulting from pending or future litigation; potential disruption or interruption of Occidental's production or manufacturing or damage to facilities due to accidents, chemical releases, labor unrest, weather, natural disasters, political events or insurgent activity; failure of risk management; changes in law or regulations; or changes in tax rates. Words such as "estimate", "project", "predict", "will", "would", "should", "could", "may", "might", "anticipate", "plan", "intend", "believe", "expect", "aim", "goal", "target", "objective", "likely" or similar expressions that convey the uncertainty of future events or outcomes generally indicate forward-looking statements. You should not place undue reliance on these forward-looking statements, which speak only as of the date of this report. Unless legally required, Occidental does not undertake any obligation to update any forward-looking statements, as a result of new information, future events or otherwise. Material risks that may affect Occidental's results of operations and financial position appear in Part 1, Item 1A "Risk Factors" of the 2011 Form 10-K.

## SIGNIFICANT TRANSACTIONS AND EVENTS AFFECTING EARNINGS

Occidental's results of operations often include the effects of significant transactions and events affecting earnings that vary widely and unpredictably in nature, timing and amount. Therefore, management uses a measure called "core results," which excludes those items. This non-GAAP measure is not meant to disassociate those items from management's performance, but rather is meant to provide useful information to investors interested in comparing Occidental's earnings performance between periods. Reported earnings are considered representative of management's performance over the long term. Core results is not considered to be an alternative to operating income in accordance with generally accepted accounting principles.
