Item 9. Regulation FD Disclosure

I. Canadian Acquisition

On October 1, 2003, the Canadian subsidiary of EOG Resources, Inc. (EOG) closed the previously announced asset purchase of natural gas properties in the Wintering Hills, Drumheller East and Twining areas of southeast Alberta from a subsidiary of Husky Energy Inc. for US \$320 million. These properties are essentially adjacent to existing EOG operations or are properties in which EOG already has a working interest.

Edgar Filing: EOG RESOURCES INC - Form 8-K

The transaction value, reserves and working interest in the properties are subject to adjustment if preferential rights on the properties are exercised.

II. 2003 Third Quarter Financial Commodity Contracts

For the third quarter of 2003, EOG anticipates a gain from mark-to-market financial commodity price swap and collar contracts of \$23.6 million compared to a loss of \$7.8 million for the prior year period. During the third quarter of 2003, net cash outflows related to settled natural gas and crude oil financial price swap contracts, settled natural gas financial collar contracts and premium payments associated with certain 2004 natural gas financial collar contracts were \$10.0 million compared to a net cash outflow of \$2.9 million for the comparable period in 2002.

III. 2003 Fourth Quarter and 2004 Natural Gas and Crude Oil Financial Price Swap and Natural Gas Financial Collar Contracts

With the objective of enhancing the certainty of future revenues, from time to time EOG enters into NYMEX-related financial commodity price swap and collar contracts. In addition to these financial transactions, EOG is a party to various physical commodity contracts for the sale of hydrocarbons that cover varying periods of time and have varying pricing provisions. The financial impact of these various physical commodity contracts is included in revenues which in turn affects average realized hydrocarbon prices.

Presented below is a summary of EOG's 2003 fourth quarter and 2004 natural gas and crude oil financial price swap contracts and natural gas financial collar contracts as of October 1, 2003. EOG accounts for these price swap and collar contracts using the mark-to-market accounting method.
