Amendments to 2004 Equity Incentive Plan

On August 14, 2009, the stockholders of Microchip Technology Incorporated (the "Company") approved an amendment and restatement of the Company's 2004 Equity Incentive Plan (the "Equity Plan") to (i) modify the automatic grant provisions with respect to equity compensation for non-employee directors to provide for annual awards of options and restricted stock units ("RSUs"), rather than just options, and to provide for a one-time award of RSUs to serve as a retention mechanism and (ii) revise the definition of "performance goals" for purposes of Section 162(m) of the Internal Revenue Code. As amended, the Equity Plan provides for the following equity compensation for our non-employee directors (a) on first appointment as a director, an initial grant of an option to purchase 6,000 shares of common stock and \$60,000 in RSUs (based on the market price of our stock on the grant date), each subject to four-year vesting, (b) an annual grant of an option to purchase 3,000 shares of common stock subject to vesting over 12 months and \$30,000 in RSUs (based on the market price of our stock on the grant date) subject to two-year vesting; and (c) for non-employee directors who as of the 2009 annual meeting have served as our director for at least five years, a one-time grant of \$100,000 in RSUs (based on the market price of our stock on the grant date) subject to four-year vesting.

The amendment and restatement was approved by the Company's Board of Directors on June 1, 2009.

The purpose of the change in equity compensation for our non-employee directors is to enable us to continue to attract and retain qualified persons to serve as directors. The purpose of the amendment to the definition of "performance goals" under the Equity Plan is to give the Compensation Committee more flexibility in structuring equity compensation arrangements that will qualify as "performance based compensation" for purposes of Section 162(m) of the Internal Revenue Code.

A copy of the Equity Plan, as amended and restated, is attached hereto as Exhibit 10.1.
