ADVANCED PHOTONIX, INC.  
NOTES TO FINANCIAL STATEMENTS  
September 23, 2001  
(UNAUDITED)

NOTE 1 - BASIS OF PRESENTATION

## Edgar Filing: ADVANCED PHOTONIX INC - Form 10QSB

The accompanying unaudited financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-QSB and Article 10 of Regulation S-X and Regulation S-B. Accordingly, they do not include all of the information and notes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) necessary for a fair presentation have been included. Operating results for the six month period ended September 23, 2001, are not necessarily indicative of the results that may be expected for the fiscal year ending March 24, 2002. For further information, refer to the financial statements and notes thereto included in the Advanced Photonix, Inc. Annual Report on Form 10-KSB for the fiscal year ended March 25, 2001.

### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

**Net Income (Loss) Per Share:** Net income (loss) per share is based on the weighted average number of common shares outstanding. Such weighted average shares were approximately 12,240,000 at September 23, 2001 and 12,154,000 at September 24, 2000. Net income (loss) per share calculations are in accordance with Statement of Financial Accounting Standards ("SFAS") No. 128, "Earnings per Share" (SFAS 128). Accordingly, "basic" net income (loss) per share is computed by dividing net income (loss) by the weighted average number of shares outstanding for the year. "Diluted" net income (loss) per share has not been presented in the financial statements as the impact is either not material or anti-dilutive. The impact of Statement 128 on the calculation of earnings per share is as follows:

BASIC	Six Months Ended September 23, 2001
-----	-----
Average Shares Outstanding	12,240,000
Net Loss	(153,000)
Basic Loss Per Share	(\$ 0.01)

-7-

### NOTE 2 - Continued

The following stock options granted to Company employees and directors were excluded from the calculation of earnings per share in the financial statements because they were anti-dilutive:

No. of Shares Underlying Options	Exercise Price Per Share
-----	-----
8,000	.5000
88,000	.5630
500	.6250
3,000	.6875
88,000	.7500
50,000	1.0000
13,900	1.1875
59,200	1.2500
4,000	1.5000

## Edgar Filing: ADVANCED PHOTONIX INC - Form 10QSB

4,000	1.6250
44,000	1.8750
35,600	2.5000
8,000	3.0000
500	3.0940
400,000	3.1875
25,000	5.3440

### Item 2. Management's Discussion and Analysis

#### RESULTS OF OPERATIONS

##### NET PRODUCT SALES

The Company's net product sales for the second quarter ("Q2 02") and six month period ("YTD 02") ended September 23, 2001, were \$1.8 million and \$3.6 million, respectively. As compared to the second quarter and six month period of the prior year ("Q2 01" and "YTD 01"), net sales increased by 2% and 6%, respectively.

The increase in net revenues for the quarter was primarily due to higher volume in the military aerospace market, which was partially offset by a reduction in revenues from the industrial sensing market. Sales to the military aerospace markets increased by approximately 47% for Q2 02 and 25% for YTD 02 when compared to the same periods in the prior year. Total revenues from the military aerospace market accounted for 48% of total revenues for Q2 02 and 39% of total revenues for YTD 02, as compared to 33% for both Q2 01 and YTD 01. On an ongoing basis, the Company has continued to compete for military aerospace contracts, which are dependent on funding from the United States government. The Company attributes its recent increases in military aerospace revenues to improved competitiveness and overall increases in government spending. Although military revenues have fluctuated significantly in the past, the Company anticipates continued increases in military aerospace revenues as additional government military programs are approved.

In addition to the military aerospace market, the Company has seen continued increases in the medical equipment and imaging markets. As compared to YTD 01, sales to the medical markets increased by 73% for YTD 02 and accounted for 18% of total revenues, as compared to 11% of total revenues in the prior year. Continuous improvements made by medical equipment manufacturers in technology

## Edgar Filing: ADVANCED PHOTONIX INC - Form 10QSB

and design have resulted in increased demand for the Company's products in those markets. The Company attributes the increased demand to its custom design capabilities and the ability to design components which can be easily adapted to the rapidly changing requirements of the marketplace.

### COSTS AND EXPENSES

Cost of product sales decreased by \$38,000 (3%) during Q2 02 and by \$82,000 (4%) during YTD 02 as compared to Q2 01 and YTD 01, respectively. As a result, gross profit margin increased by 3 percentage points to 39% in Q2 02 as compared to Q2 01 and by 6 percentage points to 45% for YTD 02 as compared to YTD 01. A number of factors are responsible for the improved margins, including greater efficiencies of scale associated with higher sales volume and the effects of several cost cutting measures implemented by the Company in an effort to streamline the manufacturing process and reduce production overhead.

Research and development costs decreased only slightly (2%) in Q2 02 as compared to Q2 01. Year to date, research and development costs have increased by \$19,000 (8%) compared to the prior year. The increase year to date is primarily due to variable expenditures associated with current development projects, including the continual improvement of the Company's current line of LAAPD and core business products. As described in the past, R&D costs may continue to vary significantly, due to the level of activity associated with development contracts as well as the number and complexity of new process and product development projects, the qualification of new process developments and customer evaluation and acceptance of new products.

-9-

Marketing and sales expenses decreased by \$32,000 (13%) to \$214,000 in Q2 02 compared to Q2 01 and by \$2,000 (
