Form 10-Q

August 08, 2014

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, DC 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF
1934

For the quarterly period ended June 30, 2014

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF
1934

For the transition period from _____ to _____

Commission File Number: 1-11398

CPI AEROSTRUCTURES, INC.
(Exact name of registrant as specified in its charter)

New York
(State or other jurisdiction
of incorporation or organization)

11-2520310
(IRS Employer Identification Number)

91 Heartland Blvd., Edgewood, NY
(Address of principal executive offices)

11717
(zip code)

(631) 586-5200
(Registrant's telephone number including area code)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15 (d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act:

Large accelerated filer Accelerated filer

Edgar Filing: CPI AEROSTRUCTURES INC - Form 10-Q

Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting
company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes
 No

As of August 1, 2014 the number of shares of common stock, par value \$.001 per share, outstanding was 8,483,112.

NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED)

1. INTERIM FINANCIAL STATEMENTS

The condensed financial statements of CPI Aerostructures, Inc. (the “Company”) as of June 30, 2014 and for the three and six months ended June 30, 2014 and 2013 have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and note disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to those rules and regulations, although the Company believes that the disclosures made are adequate to make the information not misleading.

The condensed balance sheet at December 31, 2013 has been derived from the audited financial statements at that date, but does not include all of the information and notes required by accounting principles generally accepted in the United States for complete financial statements. All adjustments that, in the opinion of management, are necessary for a fair presentation for the periods presented have been reflected as required by the SEC. Such adjustments are of a normal, recurring nature. It is suggested that these condensed financial statements be read in conjunction with the financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2013. The results of operations for interim periods are not necessarily indicative of the operating results to be expected for the full year or any other interim period.

The Company maintains its cash in two financial institutions. The balances are insured by the Federal Deposit Insurance Corporation. From time to time, the Company’s balances may exceed these limits. As of June 30, 2014, the Company had approximately \$1,760,000 of uninsured balances. The Company limits its credit risk by selecting financial institutions considered to be highly credit worthy.

The Company recognizes revenue from the Company’s contracts over the contractual period under the percentage-of-completion (“POC”) method of accounting. Under the POC method of accounting, sales and gross profit are recognized as work is performed based on the relationship between actual costs incurred and total estimated costs at the completion of the contract. Recognized revenues that will not be billed under the terms of the contract until a later date are recorded as an asset captioned “Costs and estimated earnings in excess of billings on uncompleted contracts.” Contracts where billings to date have exceeded recognized revenues are recorded as a liability captioned “Billings in excess of costs and estimated earnings on uncompleted contracts.” Changes to the original estimates may be required during the life of the contract. Estimates are reviewed monthly and the effect of any change in the estimated revenue or gross margin percentage for a contract is reflected in revenue or cost of sales in the period the change becomes known. The use of the POC method of accounting involves considerable use of estimates in determining revenues, costs and profits and in assigning the amounts to accounting periods. As a result, there can be a significant disparity between earnings (both for accounting and tax purposes) as reported and actual cash received by us during any reporting period. We continually evaluate all of the issues related to the assumptions, risks and uncertainties inherent with the application of the POC method of accounting; however, we cannot assure you that our estimates will be accurate. If our estimates are not accurate or a contract is terminated, we will be forced to adjust revenue in later periods. Furthermore, even if our estimates are accurate, we may have a shortfall in our cash flow and we may need to borrow money, or seek access to other forms of liquidity, to fund our work in process or to pay taxes until the reported earnings materialize as actual cash receipts.

When adjustments are required for the estimated total revenue on a contract, these changes are recognized with an inception-to-date effect in the current period. Also, when estimates of total costs to be incurred exceed estimates of total revenue to be earned, a provision for the entire loss on the contract is recorded in the period in which the loss is determined. For the quarterly period ended June 30, 2014, the Company adjusted the estimated total revenue and recorded a loss on its Wing Replacement Program (“WRP”) for the U.S. Air Force’s A-10 Thunderbolt aircraft (“A-10”).

The long term future of the A-10 has been uncertain since March 2014 when the U.S. Department of Defense released its 2015 Budget Request that called for the retirement of the entire A-10 fleet. More recent events have led the Company to conclude that our A-10 WRP will likely not continue to the full 242 aircraft as anticipated at the start of the program. The 2015 Department of Defense Appropriations Act passed by the United States House of Representatives on June 20, 2014 provides no funding for A-10 operations in U. S. Government fiscal year 2015 that commences October 1, 2014. Further, this bill rescinds funding from the 2014 U. S. Department of Defense Budget that was to have been used for the procurement of additional wings for the A-10. The Company has no information to support a different conclusion.

Because of the probable termination of the Company’s A-10 WRP, the Company has reduced its revenue estimates with respect to this program by approximately 41%. This change in estimate results in an approximate cumulative \$44.7 million decrease in revenue from the inception of the program in 2008 through June 30, 2014, all of which is recorded in the quarter ended June 30, 2014. Also, the uncertainty of the future of the A-10 aircraft has impacted the Company’s ability to achieve program cost reductions at suppliers. Accordingly, in addition to the \$44.7 million adjustment to revenue, we have recorded a \$2.6 million adjustment to cost of sales on the A-10 WRP.

In May 2014, the FASB issued Accounting Standards Update No. 2014-09 (ASU 2014-09), Revenue from Contracts with Customers (Topic 606) , which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. ASU 2014-09 will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective. The new standard is effective for annual and interim periods in fiscal years beginning after December 15, 2016. Early application is not permitted. ASU 2014-09 is effective for our first quarter of fiscal year 2017 using either the retrospective or cumulative effect transition method. We are evaluating the effect that ASU 2014-09 will have on our financial statements and related disclosures. We have not yet selected a transition method nor have we determined the effect of the standard on our ongoing financial reporting.

2. STOCK-BASED COMPENSATION

The Company accounts for compensation expense associated with stock options based on the fair value of the options on the date of grant.

The Company’s net loss for the three and six months ended June 30, 2014 includes approximately \$103,000 and \$206,000, respectively, of non-cash compensation expense related to the Company’s stock options. The non-cash compensation expense related to all of the Company’s stock-based compensation arrangements is recorded as a component of selling, general and administrative expenses.

The estimated fair value of each option award granted was determined on the date of grant using the Black-Scholes option valuation model. No options were granted during the three months ended June 30, 2014 and 2013. The following weighted-average assumptions were used for the options granted during the six months ended June 30, 2014 and 2013:

NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED)

	2014	2013
Risk-free interest rate	1.45%	0.72%
Expected volatility	102%	106%
Dividend yield	0%	0%
Expected option term	5 years	5 years

A summary of the status of the Company's stock option plans as of June 30, 2014 and changes during the six months ended June 30, 2014 is as follows:

	Options	Weighted average Exercise Price	Weighted average remaining contractual term (in years)	Aggregate Intrinsic Value
Outstanding at beginning of period	461,919	\$9.80		
Granted	36,292	15.04		
Exercised	(130,000)	9.00		
Outstanding and vested at end of period	368,211	\$10.60	2.52	\$1,024,729

Options to acquire 36,292 shares of common stock were granted on January 1, 2014 to members of our board of directors as part of their normal compensation. Of the 36,292 options granted on January 1, 2014, 9,075 vested immediately, 9,073 vested on April 1, 2014, 9,073 vest on July 1, 2014 and 9,071 vest on October 1, 2014.

During the six months ended June 30, 2014, 50,000 stock options were exercised for cash resulting in proceeds to the Company of \$447,751. During the same period 80,000 options were exercised, pursuant to provisions of the stock option plan, where the Company received no cash and 57,381 shares of its common stock in exchange for the 80,000 shares issued in the exercise. The 57,381 shares that the Company received were valued at \$727,072, the fair market value of the shares on the dates of exercise.

The intrinsic value of all options exercised during the six months ended June 30, 2014 and 2013 was approximately \$513,000 and \$26,300, respectively. The intrinsic value of all options exercised during the three months ended June 30, 2014 and 2013 was approximately \$99,000 and zero, respectively.

3. DERIVATIVE INSTRUMENTS AND FAIR VALUE

Our use of derivative instruments has been to hedge interest rates. These derivative contracts are entered into with a financial institution. We do not use derivative instruments for trading purposes and we have procedures in place to monitor and control their use.

We record these derivative financial instruments on the condensed balance sheets at fair value. For derivative instruments that are designated and qualify as a cash flow hedge, the effective portion of the gain or loss on the derivative instrument is reported as a component of other comprehensive income (loss) and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings.

Any ineffective portion of the gain or loss on the derivative instrument for a cash flow hedge is recorded in the results of operations immediately. For derivative instruments not designated as hedging instruments, the gain or loss is recognized in the results of operations immediately.

In March 2012, the Company entered into interest rate swaps with the objective of reducing our exposure to cash flow volatility arising from interest rate fluctuations associated with certain debt. The notional amount, maturity date, and currency of these contracts match those of the underlying debt. The Company has designated these interest rate swap contracts as cash flow hedges. The Company measures ineffectiveness by comparing the cumulative change in the forward contract with the cumulative change in the hedged item. No material ineffectiveness was recognized in the quarter ended June 30, 2014. As of June 30, 2014 and December 31, 2013, we had a net deferred loss associated with cash flow hedges of approximately \$25,000 and \$32,000, respectively, due to the interest rate swap which has been included in Other Liabilities.

As a result of the use of derivative instruments, the Company is exposed to risk that the counterparties may fail to meet their contractual obligations. Recent adverse developments in the global financial and credit markets could negatively impact the creditworthiness of our counterparties and cause one or more of our counterparties to fail to perform as expected. To mitigate the counterparty credit risk, we only enter into contracts with carefully selected major financial institutions based upon their credit ratings and other factors, and continually assess the creditworthiness of counterparties. To date, all counterparties have performed in accordance with their contractual obligations.

Fair Value

At June 30, 2014 and December 31, 2013, the fair values of cash, accounts receivable, accounts payable and accrued expenses approximated their carrying values because of the short-term nature of these instruments.

	June 30, 2014	
	Carrying Amount	Fair Value
Debt		
Short-term borrowings and long-term debt	\$32,604,204	\$32,604,204
	December 31, 2013	
	Carrying Amount	Fair Value
Debt		
Short-term borrowings and long-term debt	\$24,568,536	\$24,568,536

We estimated the fair value of debt using market quotes and calculations based on market rates.

NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED)

The following table presents the fair values of those financial liabilities measured on a recurring basis as of June 30, 2014 and December 31, 2013:

Description	Total	Fair Value Measurements June 30, 2014		
		Quoted Prices in Active Markets for Identical assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Interest Rate Swap, net	\$ 24,975	--	\$ 24,975	--
Total	\$ 24,975	--	\$ 24,975	--

Description	Total	Fair Value Measurements December 31, 2013		
		Quoted Prices in Active Markets for Identical assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Interest Rate Swap, net	\$31,992	--	\$31,992	--
Total	\$31,992	--	\$31,992	--

The fair value of the Company's interest rate swaps was determined by comparing the fixed rate set at the inception of the transaction to the "replacement swap rate," which represents the market rate for an offsetting interest rate swap with the same notional amounts and final maturity date. The market value is then determined by calculating the present value of the interest differential between the contractual swap and the replacement swap.

As of June 30, 2014 and December 31, 2013, \$24,975 and \$31,992, respectively, was included in Other Liabilities related to the fair value of the Company's interest rate swap, and \$16,483 and \$21,115, respectively, net of tax of \$8,492 and \$10,877, was included in Accumulated Other Comprehensive Loss.

NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED)

4. COSTS AND ESTIMATED EARNINGS ON UNCOMPLETED CONTRACTS

Costs and estimated earnings in excess of billings on uncompleted contracts consist of:

	June 30, 2014		
	U.S. Government	Commercial	Total
Costs incurred on uncompleted contracts	\$283,389,597	\$74,375,964	\$357,765,561
Estimated earnings	54,647,673	33,817,544	88,465,217
Sub-total	338,037,270	108,193,508	446,230,778
Less billings to date	295,396,600	77,617,027	373,013,627
Costs and estimated earnings in excess of billings on uncompleted contracts	\$42,640,670	\$30,576,481	\$73,217,151
	December 31, 2013		
	U.S. Government	Commercial	Total
Costs incurred on uncompleted contracts	\$259,050,407	\$62,502,116	\$321,552,523
Estimated earnings	95,590,879	30,694,605	126,285,484
Sub-total	354,641,286	93,196,721	447,838,007
Less billings to date	272,783,120	62,733,921	335,517,041
Costs and estimated earnings in excess of billings on uncompleted contracts	\$81,858,166	\$30,462,800	\$112,320,966

The above amounts are included in the accompanying balance sheets under the following captions at June 30, 2014 and December 31, 2013:

	June 30, 2014	December 31, 2013
Costs and estimated earnings in excess of billings on uncompleted contracts	\$ 73,560,852	\$ 112,597,136
Billings in excess of costs and estimated earnings on uncompleted contracts	(343,701)	(276,170)
Totals	\$ 73,217,151	\$ 112,320,966

U.S. Government Contracts includes contracts directly with the U.S. Government and Government subcontracts.

Revisions in the estimated gross profits on contracts and contract amounts are made in the period in which the circumstances requiring the revisions occur. During the six months ended June 30, 2014 and 2013, the effect of such revisions in total estimated contract profits resulted in a decrease to the total gross profit to be earned on the contracts of approximately \$41,820,000 and \$2,797,000, respectively, from that which would have been reported had the revised estimates been used as the basis of recognition of contract profits in prior years. Approximately 95% of the decrease in the six months ended June 30, 2014 is the result of a change in estimate on the Company's A-10 program, discussed in Note 1.

Although management believes it has established adequate procedures for estimating costs to complete on uncompleted open contracts, it is possible that additional significant costs could occur on contracts prior to completion.

NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED)

5.

INCOME PER COMMON SHARE

Basic income (loss) per common share is computed using the weighted average number of common shares outstanding. Diluted income (loss) per common share for the three and six month periods ended June 30, 2014 and 2013 is computed using the weighted-average number of common shares outstanding adjusted for the incremental shares attributed to outstanding options to purchase common stock. No incremental shares were used in the calculation of diluted income per common share in both the three and six month period ended June 30, 2014, as the effect of incremental shares would be anti-dilutive. Incremental shares of 64,202 were used in the calculation of diluted income per common share in both the three and six months ended June 30, 2013. Incremental shares of 239,734 were not included in the diluted earnings per share calculations for both the three and six month period ended June 30, 2013 as their exercise price was in excess of the Company's average stock price for the respective period and, accordingly, these shares are not assumed to be exercised for the diluted earnings per share calculation, as they would be anti-dilutive.

6.

LINE OF CREDIT

On December 5, 2012, the Company entered into an Amended and Restated Credit Agreement ("Restated Agreement") with Sovereign Bank, now called Santander Bank, N.A. ("Santander"), as the sole arranger, administrative agent and collateral agent and Valley National Bank. The Restated Agreement provides for a revolving credit loan commitment of \$35 million.

As of June 30, 2014, the Company was not in compliance with the net income financial covenant contained in the "Restated Agreement", which non-compliance has been waived by our lenders (the "Waiver"). On August 6, 2014, the Company entered into an amendment and waiver to the Restated Agreement which, among other things, provided for the Waiver and the repayment of revolving credit loans if and to the extent that the Company receives contract reimbursement payments with respect to our A-10 WRP. As of June 30, 2014, the Company had \$29.85 million outstanding under the "Restated Agreement" bearing interest at 3.25%.

The Santander Revolving Facility and term loan under the Restated Agreement are secured by all our assets.

11

NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED)

7. LONG-TERM DEBT

On March 9, 2012, the Company obtained a \$4.5 million term loan from Santander to be amortized over five years (the "Santander Term Facility"). Santander Term Facility was used to purchase tooling and equipment for new programs. Santander Term Facility bears interest at the lower of LIBOR plus 3% or Santander Bank's prime rate.

Additionally, the Company and Santander Bank entered into a five year interest rate swap agreement, in the notional amount of \$4.5 million. Under the interest rate swap, the Company pays an amount to Santander Bank representing interest on the notional amount at a fixed rate of 4.11% and receives an amount from Santander Bank representing interest on the notional amount of a rate equal to the one-month LIBOR plus 3%. The effect of this interest rate swap will be the Company paying a fixed interest fixed rate of 4.11% over the term of the Santander Term Facility.

The maturities of long-term debt are as follows:

Twelve months ending June 30,		
	2015	\$976,981
	2016	968,019
2017		778,685
2018	15,711	
Thereafter	14,808	
	\$2,754,204	

In addition to the Santander Term Facility, included in long-term debt are capital leases and notes payable of \$204,204, including a current portion of \$76,981.

8. INCOME TAXES

Benefit from income taxes was \$15,215,000 and \$14,435,000 for the three and six months ended June 30, 2014, respectively. These benefits result from the Company's ability to carry back federal and state tax losses to prior periods and recover previously paid taxes. In addition, the Company will be able to carry forward losses that could not be carried back to prior years, to reduce taxable income in future periods. The benefit for both the carry back and net operating loss carry forward are recorded as a component of non-current Deferred Tax Assets. Provision for income taxes for the three and six months ended June 30, 2013 was at the Company's historic effective tax rate of approximately 31%.

9. MAJOR CUSTOMERS

During the six months ended June 30, 2014, the Company's three largest commercial customers accounted for 29%, 21% and 15% of revenue, respectively. During the six months ended June 30, 2013, the Company's three largest commercial customers accounted for 27%, 22% and 19% of revenue, respectively. In addition, during the six months ended June 30, 2014 and 2013, 1% of revenue was directly from the U.S. Government. The percentages of revenue for the 2014 are computed prior to the change in estimate adjustment to revenue discussed in Note 1.

Edgar Filing: CPI AEROSTRUCTURES INC - Form 10-Q

At June 30, 2014, 27%, 26%, 14% and 9% of Costs and Estimated Earnings in Excess of Billings on Uncompleted Contracts were from the four largest commercial customers. At December 31, 2013, 40%, 17%, 16% and 10% of Costs and Estimated Earnings in Excess of Billings on Uncompleted Contracts were from the Company's four largest commercial customers.

At June 30, 2014 and December 31, 2013, less than 1% of Costs and Estimated Earnings in Excess of Billings on Uncompleted Contracts were direct from the U.S. Government.

At June 30, 2014, 29%, 29% and 12% of our accounts receivable were from our three largest commercial customers. At December 31, 2013, 28%, 24% and 20% of accounts receivable were from our three largest commercial customers.

Item 2 – Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the Company’s Condensed Financial Statements and notes thereto contained in this report.

Forward Looking Statements

When used in this Form 10-Q and in future filings by us with the Securities and Exchange Commission, the words or phrases “will likely result,” “management expects” or “we expect,” “will continue,” “is anticipated,” “estimated” or similar expressions are intended to identify “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Readers are cautioned not to place undue reliance on any such forward-looking statements, each of which speaks only as of the date made. Such statements are subject to certain risks and uncertainties that could cause actual results to differ materially from historical earnings and those presently anticipated or projected. The risks are included in Item 1A - Risk Factors of our Annual Report on Form 10-K for the year ended December 31, 2013 and Item 2 Management’s Discussion and Analysis of Financial Condition and Results of Operations included in this Form 10-Q. We have no obligation to publicly release the result of any revisions which may be made to any forward-looking statements to reflect anticipated or unanticipated events or circumstances occurring after the date of such statements.

Business Operations

We are a manufacturer of structural aircraft parts for fixed wing aircraft and helicopters in both the commercial and defense markets. Within the global aerospace supply chain, we are either a Tier 1 supplier to aircraft Original Equipment Manufacturers (“OEMs”) or a Tier 2 subcontractor to major Tier 1 manufacturers. We also are a prime contractor to the U.S. Department of Defense, primarily the Air Force. In conjunction with our assembly operations, we provide engineering, program management, supply chain management, and Maintenance Repair & Overhaul (“MRO”) services.

Marketing and New Business

From the beginning of the current fiscal year through June 30, 2014, we received approximately \$19.2 million of new contract awards, which included approximately \$0.47 million of government subcontract awards and approximately \$18.7 million of commercial subcontract awards, compared to a total of \$13.2 million of new contract awards, of all types, in the same period last year.

Item 2 – Management’s Discussion and Analysis of Financial Condition and Results of Operations

Backlog

We produce custom assemblies pursuant to long-term contracts and customer purchase orders. Backlog consists of aggregate values under such contracts and purchase orders, excluding the portion previously included in operating revenues on the basis of percentage of completion accounting, and including estimates of future contract price escalation. Substantially all of our backlog is subject to termination at will and rescheduling, without significant penalty. Funds are often appropriated for programs or contracts on a yearly or quarterly basis, even though the contract may call for performance that is expected to take a number of years. Therefore, our funded backlog does not include the full value of our contracts. Our total backlog as of June 30, 2014 and December 31, 2013 was as follows:

Backlog (Total)	June 30, 2014	December 31, 2013
Funded	\$96,402,000	\$110,431,000
Unfunded	294,306,000	321,011,000
Total	\$390,708,000	\$431,442,000

Approximately 00% of the total amount of our backlog at June 30, 2014 was attributable to government contracts. Our backlog attributable to government contracts at June 30, 2014 and December 31, 2013 was as follows:

Backlog (Government)	June 30, 2014	December 31, 2013
Funded	\$72,038,000	\$82,803,000
Unfunded	150,522,000	165,574,000
Total	\$222,560,000	\$248,377,000

Our backlog attributable to commercial contracts at June 30, 2014 and December 31, 2013 was as follows:

Backlog (Commercial)	June 30, 2014	December 31, 2013
Funded	\$24,364,000	\$27,628,000
Unfunded	143,784,000	155,437,000
Total	\$168,148,000	\$183,065,000

Our unfunded backlog is primarily comprised of the long-term contracts that we received from Spirit and NGC during 2008, Honda and Bell during 2011 and Cessna, Sikorsky and Embraer during 2012. These long-term contracts are expected to have yearly orders which will be funded in the future.

Item 2 – Management’s Discussion and Analysis of Financial Condition and Results of Operations

Critical Accounting Policies

Revenue Recognition

We recognize revenue from our contracts over the contractual period under the percentage-of-completion (“POC”) method of accounting. Under the POC method of accounting, sales and gross profit are recognized as work is performed based on the relationship between actual costs incurred and total estimated costs at the completion of the contract. Recognized revenues that will not be billed under the terms of the contract until a later date are recorded as an asset captioned “Costs and estimated earnings in excess of billings on uncompleted contracts.” Contracts where billings to date have exceeded recognized revenues are recorded as a liability captioned “Billings in excess of costs and estimated earnings on uncompleted contracts.” Changes to the original estimates may be required during the life of the contract. Estimates are reviewed monthly and the effect of any change in the estimated revenue or gross margin percentage for a contract is reflected in revenue or cost of sales in the period the change becomes known. The use of the POC method of accounting involves considerable use of estimates in determining revenues, costs and profits and in assigning the amounts to accounting periods. As a result, there can be a significant disparity between earnings (both for accounting and tax purposes) as reported and actual cash received by us during any reporting period. We continually evaluate all of the issues related to the assumptions, risks and uncertainties inherent with the application of the POC method of accounting; however, we cannot assure you that our estimates will be accurate. If our estimates are not accurate or a contract is terminated, we will be forced to adjust revenue in later periods. Furthermore, even if our estimates are accurate, we may have a shortfall in our cash flow and we may need to borrow money, or seek access to other forms of liquidity, to fund our work in process or to pay taxes until the reported earnings materialize as actual cash receipts.

When adjustments are required for the estimated total revenue on a contract, these changes are recognized with an inception-to-date effect in the current period. Also, when estimates of total costs to be incurred exceed estimates of total revenue to be earned, a provision for the entire loss on the contract is recorded in the period in which the loss is determined. For the quarterly period ended June 30, 2014, the Company adjusted the estimated total revenue and recorded a loss on its Wing Replacement Program (“WRP”) for the U.S. Air Force’s A-10 Thunderbolt aircraft (“A-10”).

Item 2 – Management’s Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations

Revenue

Revenue for the three months ended June 30, 2014 was (\$23,751,623) compared to \$21,110,452 for the same period last year.

The long term future of the A-10 has been uncertain since March 2014 when the U.S. Department of Defense released its 2015 Budget Request that called for the retirement of the entire A-10 fleet. More recent events have led the Company to conclude that our A-10 WRP will likely not continue to the full 242 aircraft as anticipated at the start of the program. The 2015 Department of Defense Appropriations Act passed by the United States House of Representatives on June 20, 2014 provides no funding for A-10 operations in U. S. Government fiscal year 2015 that commences October 1, 2014. Further, this bill rescinds funding from the 2014 U. S. Department of Defense Budget that was to have been used for the procurement of additional wings for the A-10. The Company has no information to support a different conclusion.

Because of the probable termination of the Company’s A-10 WRP, the Company has reduced its revenue estimates with respect to this program by approximately 41%. This change in estimate results in an approximate cumulative \$44.7 million decrease in revenue from the inception of the program in 2008 through June 30, 2014, all of which is recorded in the quarter ended June 30, 2014.

For the six months ended June 30, 2014, revenue was \$(1,868,106) compared to \$41,037,885 for the same period last year. The negative revenue for both the three and six months ended June 30, 2014 was the result of the change in estimated units to be delivered on the Company’s A-10 Wing Replacement Program with Boeing.

We predominately generate revenue from subcontracts with OEM’s and Tier 1 manufactures. Revenue generated from government subcontracts for the six months ended June 30, 2014 was \$(18,030,249) compared to \$27,621,393. The negative revenue generated from government subcontracts for the six months ended June 30, 2014 was the result of the change in estimated units to be delivered on the Company’s A-10 Wing Replacement Program with Boeing.

Revenue generated from commercial subcontracts was \$14,996,787 for the six months ended June 30, 2014 compared to \$13,129,051 for the six months ended June 30, 2013, an increase of \$1,867,736 or 14%. This increase is the result of increased production on our Embraer and Cessna programs.

Revenue generated from prime government contracts for the six months ended June 30, 2014 was \$607,448 compared to \$287,441 for the six months ended June 30, 2013, an increase of \$320,007 or 111%.

Inflation historically has not had a material effect on our operations.

Gross Profit

Gross profit (loss) for the three months ended June 30, 2014 was a loss of (\$42,963,154) compared to profit of \$4,236,247 for the three months ended June 30, 2013, a decrease of \$47,199,401. Gross profit (loss) for the six months ended June 30, 2014 was a loss of (\$38,472,022) compared to a profit of \$8,676,817 for the six months ended June 30, 2013, a decrease of \$47,148,839.

The uncertainty of the future of the A-10 aircraft has impacted the Company's ability to achieve program cost reductions at suppliers. Accordingly, in addition to the \$44.7 million adjustment to revenue, we have recorded a \$2.6 million adjustment to cost of sales on the A-10 WRP.

Item 2 – Management’s Discussion and Analysis of Financial Condition and Results of Operations

Selling, General and Administrative Expenses

Selling, general and administrative expenses for the three months ended June 30, 2014 were \$1,785,044 compared to \$1,496,272 for the three months ended June 30, 2013, an increase of \$288,772, or 19.3%. This increase was predominately the result of a \$143,000 increase in salaries, \$100,000 of which was the result of the separation payment paid to our former CEO and a \$109,000 increase in fees relating to the grant of stock options that were expensed for our board of directors, which was the result of us expensing board fees throughout the year, as compared to all being expensed in the first quarter of 2013.

For the six months ended June 30, 2014, selling, general and administrative expense were \$3,623,704 compared to \$3,374,195 for the same period last year, an increase of \$249,509 or 7.4%. This increase was predominately the result of a \$173,000 increase in salaries, \$100,000 of which was the result of the separation payment paid to our former CEO and a \$117,000 increase in employee benefits, the result of higher health insurance costs, offset by lower expenses for various discretionary items such as travel

Income Before Provision for Income Taxes

Income/loss before provision for (benefit from) income taxes for the three months ended June 30, 2014 was a loss of \$44,906,951 compared to income of \$2,584,276 for the same period last year, a decrease of \$47,491,227. For the six months ended June 30, 2014, income/loss before provision for income taxes was a loss of \$42,398,082 compared to income of \$5,005,551 for the same period last year, a decrease of \$47,403,633. These decreases are predominately the result in the change in estimated units to be delivered related to the A-10 program discussed above.

Provision for Income Taxes

Benefit from income taxes was \$15,215,000 and \$14,435,000 for the three and six months ended June 30, 2014, respectively. These benefits result from the Company’s ability to carry back federal and state tax losses to prior periods and recover previously paid taxes. In addition, the Company will be able to carry forward any losses to reduce taxable income in future periods. Provision for income taxes for the three and six months ended June 30, 2013 was at our historic effective tax rate of approximately 31%.

Item 2 – Management’s Discussion and Analysis of Financial Condition and Results of Operations

Net Income (Loss)

Net income (loss) for the three months ended June 30, 2014 was a loss of (\$29,691,951) or (\$3.50) per basic share, compared to net income of \$1,784,276, or \$0.21 per basic share, for the same period last year. Net income (loss) for the six months ended June 30, 2014 was a loss of (\$27,963,082) or (\$3.31) per basic share, compared to \$3,455,551, or \$0.41 per basic share, for the same period last year. Basic and diluted income per share for the three and six months ended June 30, 2014 were the same as effects of outstanding options would be anti-dilutive.

Liquidity and Capital Resources

General

At June 30, 2014, we had working capital of \$46,220,133 compared to \$88,440,083 at December 31, 2013, a decrease of \$42,219,950, or 48%. This decrease is attributable to the change in estimate on the A-10 program which resulted in a decrease in cost and estimated earnings in excess of billings on uncompleted contracts of approximately \$47 million.

Cash Flow

A large portion of our cash is used to pay for materials and processing costs associated with contracts that are in process and which do not provide for progress payments. Costs for which we are not able to bill on a progress basis are components of “Costs and estimated earnings in excess of billings on uncompleted contracts” on our condensed balance sheets and represent the aggregate costs and related earnings for uncompleted contracts for which the customer has not yet been billed. These costs and earnings are recovered upon shipment of products and presentation of billings in accordance with contract terms.

Because the POC method of accounting requires us to use estimates in determining revenue, costs and profits and in assigning the amounts to accounting periods, there can be a significant disparity between earnings (both for accounting and tax purposes) as reported and actual cash that we receive during any reporting period. Accordingly, it is possible that we may have a shortfall in our cash flow and may need to borrow money, or to raise additional capital, until the reported earnings materialize into actual cash receipts.

At June 30, 2014, we had a cash balance of \$969,792 compared to \$2,166,103 at December 31, 2013.

Our costs and estimated earnings in excess of billings decreased by approximately \$39.1 million during the six months ended June 30, 2014, primarily related to the A-10 program, as previously discussed.

Several of our programs require us to expend up-front costs that may have to be amortized over a portion of production units. In the case of significant program delays and/or program cancellations, we could be required to bear impairment charges which may be material, for costs that are not recoverable. Such charges and the loss of up-front costs could have a material impact on our liquidity.

We continue to work to obtain better payment terms with our customers, including accelerated progress payment arrangements, as well as exploring alternative funding sources.

Item 2 – Management’s Discussion and Analysis of Financial Condition and Results of Operations

Credit Facilities

Line of Credit

On December 5, 2012, the Company entered into an Amended and Restated Credit Agreement with Santander Bank (“Restated Agreement”) as the sole arranger, administrative agent, collateral agent and lender and Valley National Bank as lender. The Restated Agreement provides for a revolving credit facility of \$35 million. The revolving credit loans under the Restated Agreement mature on December 5, 2016. The Santander Revolving Facility and term loan under the Restated Agreement are secured by all of our assets.

As of June 30, 2014, the Company was not in compliance with the net income financial covenant contained in the “Restated Agreement”, which non-compliance been waived by our lenders (the "Waiver"). On August 6, 2014, the Company entered into an amendment and waiver to the Restated Agreement which, among other things, provided for the Waiver and the repayment of revolving credit loans if and to the extent that the Company receives contract reimbursement payments with respect to our A-10 WRP. As of June 30, 2014, the Company had \$29.85 million outstanding under the “Restated Agreement” bearing interest at 3.25%.

Term Loan

On March 9, 2012, the Company obtained a \$4.5 million term loan from Santander Bank to be amortized over five years (the “Santander Term Facility”). The Santander Term Facility was to be used by the Company to purchase tooling and equipment for new programs. The Santander Term Loan was continued under the Restated Agreement, and is payable in monthly installments of \$75,000, with a final payment of the remaining principal balance on March 9, 2017. The Santander Term Facility bears interest at the lower of LIBOR plus 3% or Santander Bank’s prime rate. The Santander Term Loan is subject to the amended and restated terms and conditions of the Restated Agreement.

In connection with the Santander Term Loan, the Company and Santander Bank entered into a five-year interest rate swap agreement, in the notional amount of \$4.5 million. Under the interest rate swap, the Company pays an amount to Santander Bank representing interest on the notional amount at a rate of 4.11% and receives an amount from Santander representing interest on the notional amount at a rate equal to the one-month LIBOR plus 3%. The effect of this interest rate swap will be the Company paying a fixed interest rate of 4.11% over the term of the Santander Term Loan 2.

Contractual Obligations

For information concerning our contractual obligations, see “Contractual Obligations” under “Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations” of our Annual Report on Form 10-K for the year ended December 31, 2013.

Item 3 – Quantitative and Qualitative Disclosure About Market Risk

Management does not believe that there is any material market risk exposure with respect to derivative or other financial instruments that would require disclosure under this item.

Item 4 – Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company's management has established disclosure controls and procedures designed to ensure that information it is required to disclose in the reports that it files or submits under the Securities Exchange Act of 1934, as amended (the "Exchange Act") is recorded, processed, summarized and reported within time periods specified in the Securities and Exchange Commission rules and forms. Such disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information the Company is required to disclose in the reports that it files or submits under the Exchange Act is accumulated and communicated to the Company's management to allow timely decisions regarding required disclosure.

Based on an evaluation of the Company's disclosure controls and procedures as of June 30, 2014 made by management, under the supervision and with the participation of the Chief Executive Officer and Chief Financial Officer, the Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) promulgated under the Exchange Act) were effective as of June 30, 2014.

Changes in Internal Control Over Financial Reporting

No change in our internal control over financial reporting occurred during the quarter ended June 30, 2014 that has materially affected or is reasonably likely to materially affect our internal control over financial reporting.

Part II: Other Information

Item 1 – Legal Proceedings

None.

Item 1A – Risk Factors

Material risks related to our business, financial condition and results of operations are disclosed in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2013, as filed with the SEC on March 11, 2014. Except as set forth below, there have been no material changes to such risk factors. The risk factors disclosed in our Annual Report should be carefully considered in evaluating our business because such factors may have a significant impact on our business, operating results, liquidity and financial condition.

Item 2 – Unregistered Sales of Equity Securities and Use of Proceeds

There have been no sales of unregistered equity securities for the six months ended June 30, 2014. The following table sets forth information for the six months ended June 30, 2014 with respect to repurchases of our outstanding common stock:

Issuer Purchases of Equity Securities

Period	Total number of shares purchased (1)	Average price paid per share	Total number of shares (or units) purchased as part of publicly announced plans or programs	Maximum number (or approximate dollar value) of shares (or units) that may yet be purchased under the plans or programs
January 1, 2014 – March 31, 2014	14,708	\$13.46	—	—
April 1, 2014 – June 30, 2014	42,673	\$10.48	—	—
Total	57,381	\$11.24	—	—

(1) Represents shares that were delivered to the Company pursuant to provisions of stock option agreements and the 1998 Plan and the Performance Equity Plan 2000, which permit payment of the exercise price of options in shares of common stock delivered to the Company.

Item 3 – Defaults Upon Senior Securities

None.

Item 4 – Mine Safety Disclosures

Not applicable.

Item 5 – Other Information

None.
