SENECA FOODS CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)
June 28, 2014

1. Unaudited Condensed Consolidated Financial Statements

In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain all adjustments, which are normal and recurring in nature, necessary to present fairly the financial position of Seneca Foods Corporation (the "Company") as of June 28, 2014 and results of its operations and its cash flows for the interim periods presented. All significant intercompany transactions and accounts have been eliminated in consolidation. The March 31, 2014 balance sheet was derived from the audited consolidated financial statements.

The results of operations for the period ended June 28, 2014 are not necessarily indicative of the results to be expected for the full year.

During the three months ended June 28, 2014, the Company sold \$4,196,000 of Green Giant finished goods inventory to General Mills Operations, LLC ("GMOL") for cash, on a bill and hold basis, as compared to \$5,408,000 for the three months ended June 29, 2013. Under the terms of the bill and hold agreement, title to the specified inventory transferred to GMOL. The Company believes it has met the criteria required for bill and hold treatment.

The accounting policies followed by the Company are set forth in Note 1 to the Company's Consolidated Financial Statements in the Company's 2014 Annual Report on Form 10-K.

Other footnote disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted. These unaudited condensed consolidated financial statements should be read in conjunction with the financial statements and notes included in the Company's 2014 Annual Report on Form 10-K.

All references to years are fiscal years ended or ending March 31 unless otherwise indicated. Certain percentage tables may not foot due to rounding.

Reclassifications--Certain previously reported amounts have been reclassified to conform to the current period classification.

In April 2014, the Company purchased a 50% equity interest in Truitt Bros. Inc. ("Truitt") for \$16,308,000. The purchase agreement grants the Company the right to acquire the remaining 50% ownership of Truitt in the future under certain conditions. Truitt is known for its industry innovation related to packing shelf stable foods in trays, pouches and bowls. Truitt has two state-of-the-art plants located in Oregon and Kentucky. This investment is included Other Assets in the Condensed Consolidated Balance Sheets. This is a level 3 investment and is accounted for using the equity method of accounting.

First-In, First-Out ("FIFO") based inventory costs exceeded Last-In, First-Out (LIFO) based inventory costs by \$153,035,000 as of the end of the first quarter of fiscal 2015 as compared to \$138,812,000 as of the end of the first quarter of fiscal 2014. The LIFO Reserve decreased by \$349,000 in the first three months of fiscal 2015 compared to an increase of \$5,798,000 in the first three months of fiscal 2014. This reflects the projected impact of an overall cost decrease expected in fiscal 2015 versus fiscal 2014.

June 28, 2014

Maximum borrowings under the Revolver total \$300,000,000 from April through July and \$400,000,000 from August through March. The Revolver balance as of June 28, 2014 was \$180,050,000 and is included in Long-Term Debt in the accompanying Condensed Consolidated Balance Sheet since the Revolver matures on July 20, 2016.

The Company utilizes its Revolver for general corporate purposes, including seasonal working capital needs, to pay debt principal and interest obligations, and to fund capital expenditures and acquisitions. Seasonal working capital needs are affected by the growing cycles of the vegetables and fruits the Company processes. The majority of vegetable and fruit inventories are produced during the months of June through November and are then sold over the following year. Payment terms for vegetable and fruit produce are generally three months but can vary from a few days to seven months. Accordingly, the Company's need to draw on the Revolver may fluctuate significantly throughout the year.

The increase in average amount of Revolver borrowings during the first quarter of fiscal 2015 compared to the first quarter of fiscal 2014 was attributable to the Truitt investment of \$16,308,000 and the stock buyback of \$7,157,000, both made in the first quarter of fiscal 2015, and reduced operating results partially offset by a \$17,404,000 reduction in Inventories compared to the first quarter of fiscal 2014.

General terms of the Revolver include payment of interest at LIBOR plus a defined spread.

The following table documents the quantitative data for Revolver borrowings during the first quarters of fiscal 2015 and fiscal 2014:

	First Quarter			
	2015	2014		
	(In thousands)			
Reported end of period:				
Outstanding borrowings	\$180,050	\$151,026		
Weighted average interest rate	1.47	%	1.74	%
Reported during the period:				
Maximum amount of borrowings	\$190,000	\$188,000		
Average outstanding borrowings	\$171,417	\$157,099		
Weighted average interest rate	1.59	%	1.71	%

During the three-month period ended June 28, 2014, the Company repurchased 224,195 shares or \$7,157,000 of its Class A Common Stock as Treasury Stock. As of June 28, 2014, there are 1,239,239 shares or \$37,051,000 of 5. repurchased stock. These shares are not considered outstanding. During the three month period ended June 28, 2014, there were 1,720 shares, or \$56,000 of Class B Common Stock issued in lieu of cash compensation under the Company's Profit Sharing Bonus Plan.

Net Periodic Benefit Cost	\$1,191	\$1,964

No contributions were required or made in the three month periods ended June 28, 2014 and June 29, 2013.

7. During the three months ended June 28, 2014, the Company sold unused fixed assets which resulted in a loss of \$29,000 as compared to a gain of \$743,000 during the three months ended June 29, 2013. In addition, during the three months ended June 28, 2014, there was a \$250,000 charge related to an environmental remediation. During the three months ended June 29, 2013, the gain on the acquisition of 100% of the membership interest of Independent Foods, LLC ("Sunnyside") was reduced by \$571,000. These net gains and losses are included in other operating income and loss in the Unaudited Condensed Consolidated Statements of Net Earnings.

8. In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers, which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The ASU will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective. The new standard is effective for the Company on April 1, 2017 (beginning of fiscal 2018). Early adoption is not permitted. The standard permits the use of either the retrospective or cumulative effect transition method. The Company is evaluating the effect that ASU 2014-09 will have on its consolidated financial statements and related disclosures. The Company has not yet selected a transition method nor has it determined the effect of the standard on its ongoing financial reporting. There were no other recently issued accounting pronouncements that impacted the Company's condensed consolidated financial statements. In addition, the Company did not adopt any new accounting pronouncements during the quarter ended June 28, 2014.

- As required by Accounting Standards Codification ("ASC") 825, "Financial Instruments," the Company estimates the fair values of financial instruments on a quarterly basis. The estimated fair value for long-term debt (classified as Level 2 in the fair value hierarchy) is determined by the quoted market prices for similar debt (comparable to the Company's financial strength) or current rates offered to the Company for debt with the same maturities.
10. Long-term debt, including current portion had a carrying amount of \$222,967,000 and an estimated fair value of \$224,425,000 as of June 28, 2014. As of March 31, 2014, the carrying amount was \$218,516,000 and the estimated fair value was \$219,981,000. The fair values of all the other financial instruments approximate their carrying value due to their short-term nature.

- In June 2010, the Company received a Notice of Violation of the California Safe Drinking Water and Toxic Enforcement Act of 1986, commonly known as Proposition 65, from the Environmental Law Foundation ("ELF"). This notice was made to the California Attorney General and various other government officials, and to 49 companies including Seneca Foods Corporation whom ELF alleges manufactured, distributed or sold packaged peaches, pears, fruit cocktail and fruit juice that contain lead without providing a clear and reasonable warning to consumers. Under California law, proper notice must be made to the State and involved firms at least 60 days before any suit under Proposition 65 may be filed by private litigants like ELF. That 60-day period has expired and to date neither the California Attorney General nor any appropriate district attorney or city attorney has initiated an action against the Company. However, private litigant ELF filed an action against the Company and 27 other named companies on September 28, 2011, in Superior Court of Alameda County, California, alleging violations of Proposition 65 and seeking various measures of relief, including injunctive and declaratory relief and civil penalties. The Company, along with the other named companies, vigorously defended the claim. A responsive answer was filed, the discovery process was completed and a trial on liability was held beginning in April of 2013 in accordance with court schedules. The trial was completed on May 16, 2013 and, on July 15, 2013
11. the judge issued a tentative and proposed statement of decision agreeing with the Company, and the other defendants, that the "safe harbor" defense had been met under the regulations relating to Proposition 65 and the Company will not be required to place a Proposition 65 warning label on the products at issue in the case. The trial decision was finalized and the decision was appealed by ELF with a filing dated October 3, 2013. The appeal is progressing in accordance with the schedule set by the California Court of Appeal, First Appellate District, Division One. The Company is unable to determine the scope or the likelihood of success of the appeal. The Company, along with other defendants are planning on vigorously defending the appeal filed by ELF. With the successful defense of the case, the remedies portion of the case was not litigated. So far, our portion of legal fees in defense of this action have been sizable, as would be expected with litigation resulting in trial, and the appeal, but have not had a material adverse impact on the Company's financial position, results of operations, or cash flows. Additionally, in the ordinary course of its business, the Company is made party to certain legal proceedings seeking monetary damages, including proceedings invoking product liability claims, either directly or through indemnification obligations, and we are not able to predict the probability of the outcome or estimate of loss, if any, related to any such matter.

June 28, 2014

The effective tax rate was 136.3% and 31.3% for the three month periods ended June 28, 2014 and June 29, 2013, respectively. With the low pre-tax earnings in the current quarter, permanent items have a larger impact on the effective tax rate. Of the 105.0 percentage point increase in the effective tax rate for this period, the major contributors to this increase are the following items, 1) the re-establishment of the valuation allowance related to 12. New York State Investment Tax Credit of \$384,000 charge (130.2 percentage points), due to a change in the law, which is a discrete item and therefore is required to be booked in the current quarter and 2) research and experimentation credit, work opportunity credit and fuel tax credit have not been signed into law so there is no provision for these credits in the current quarter. These two items were partially offset by \$92,000 credit (31.2 percentage points) related to interest received on tax refunds recorded during in the current quarter.

During the second and fourth quarters of fiscal 2014, the Company entered into some interim lease notes which financed down payments for various equipment orders at market rates. As of June 28, 2014, some of these interim 13. notes had not been converted into operating leases since the equipment was not delivered. These notes, which total \$4,880,000 as of June 28, 2014, are included in notes payable in the accompanying Condensed Consolidated Balance Sheets. These notes are expected to be converted into operating leases within the next twelve months.

ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

June 28, 2014

Seneca Foods Corporation (the "Company") is a leading provider of packaged fruits and vegetables, with facilities located throughout the United States. The Company's product offerings include canned, frozen and bottled produce and snack chips. Its products are sold under private label as well as national and regional brands that the Company owns or licenses, including Seneca®, Libby's®, Aunt Nellie's®, READ®, and Seneca Farms®. The Company's canned fruits and vegetables are sold nationwide by major grocery outlets, including supermarkets, mass merchandisers, limited assortment stores, club stores and dollar stores. The Company also sells its products to foodservice distributors, industrial markets, other food processors, export customers in over 80 countries and federal, state and local governments for school and other food programs. In addition, the Company packs Green Giant®, Le Sueur® and other brands of canned vegetables as well as select Green Giant® frozen vegetables for General Mills Operations, LLC ("GMOL") under a long-term Alliance Agreement.

The Company's raw product is harvested mainly between June through November. The Company experienced unfavorable growing conditions related to our pea harvest this summer reflecting a combination of high temperatures and uneven moisture. These difficult growing conditions unfavorably impacted pea crop yields and plant recovery rates which resulted in unfavorable manufacturing variances.

Investment--In April 2014, the Company purchased a 50% equity interest in Truitt Bros. Inc. ("Truitt") for \$16,308,000. The purchase agreement grants the Company the right to acquire the remaining 50% ownership of Truitt in the future under certain conditions. Truitt is known for its industry innovation related to packing shelf stable foods in trays, pouches and bowls. Truitt has two state-of-the-art plants located in Oregon and Kentucky.

Results of Operations:

Sales:

First fiscal quarter 2015 results include net sales of \$240,043,000, which represents a 3.4% increase, or \$7,916,000, from the first quarter of fiscal 2014. The increase in sales is attributable to higher selling prices/sales mix of \$10,055,000, partially offset by a sales volume decrease of \$2,139,000. The increase in sales is primarily from an \$11,556,000 increase in Canned Vegetable, a \$2,193,000 increase in Other sales, partially offset by a \$4,123,000 decrease in GMOL sales and a \$1,775,000 decrease in Canned Fruit sales.

ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
June 28, 2014

The following table presents sales by product category:

	Three Months Ended	
	June 28, 2014	June 29, 2013
(In millions)		
Canned Vegetables	\$154.1	\$142.5
GMOL*	5.0	9.2
Frozen	24.3	24.6
Fruit Products	47.1	48.9
Snack	2.9	2.5
Other	6.6	4.4
	\$240.0	\$232.1

*GMOL includes frozen vegetable sales exclusively for GMOL.

Operating Income:

The following table presents components of operating income as a percentage of net sales:

	Three Months Ended	
	June 28, 2014	June 29, 2013
Gross Margin	7.1 %	8.5 %
Selling	3.5 %	3.6 %
Administrative	3.1 %	3.2 %
Plant Restructuring	- %	0.1 %
Other Operating Income	0.1 %	(0.1) %
Operating Income	0.4 %	1.7 %
Interest Expense, Net	0.4 %	0.8 %

For the three month period ended June 28, 2014, gross margin decreased from the prior year quarter from 8.5% to 7.1% due primarily to lower net selling prices (after considering promotions) compared to the prior year, higher unit costs in the current year than the prior year partially offset by a LIFO credit in the current year as compared to charge of in the prior year. The LIFO credit for the first quarter ended June 28, 2014 was \$349,000 as compared to a charge of \$5,798,000 for the first quarter ended June 29, 2013 and reflects the impact on the quarter of decreased inflationary cost increases expected in fiscal 2015, compared to fiscal 2014. On an after-tax basis, LIFO increased the net earnings by \$227,000 for the quarter ended June 28, 2014 and decreased net earnings by \$3,769,000 for the quarter ended June 29, 2013, based on the statutory federal income tax rate.

For the three month period ended June 28, 2014, selling costs as a percentage of sales decreased from 3.6% to 3.5% as a result of lower selling expenses due to lower sales which incur selling costs versus the prior period.

ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

June 28, 2014

For the three month period ended June 28, 2014, administrative expense as a percentage of sales decreased from 3.2% to 3.1% due primarily to lower benefit expenses during the current period than the prior period.

During the three months ended June 28, 2014, the Company sold unused fixed assets which resulted in a loss of \$29,000 as compared to a gain of \$743,000 during the three months ended June 29, 2013. In addition, during the three months ended June 28, 2014, there was a \$250,000 charge related to an environmental remediation. During the three months ended June 29, 2013, the gain on the Sunnyside acquisition was reduced by \$571,000. These net gains and losses are included in other operating income and losses in the Condensed Consolidated Statements of Net Earnings.

Interest expense, as a percentage of sales, decreased from 0.8% for the quarter ended June 29, 2013 to 0.4% for the quarter ended June 28, 2014. This decrease was due to lower interest expense related to the Company's Revolver and decreased long-term debt interest attributable to scheduled debt payments.

Income Taxes:

The effective tax rate was 136.3% and 31.3% for the three month periods ended June 28, 2014 and June 29, 2013, respectively. With the low pre-tax earnings in the current quarter, permanent items have a larger impact on the effective tax rate. Of the 105.0 percentage point increase in the effective tax rate for this period, the major contributors to this increase are the following items, 1) the re-establishment of the valuation allowance related to New York State Investment Tax Credit of \$384,000 charge (130.2 percentage points), due to a change in the law, which is a discrete item and therefore is required to be booked in the current quarter and 2) research and experimentation credit, work opportunity credit and fuel tax credit have not been signed into law so there is no provision for these credits in the current quarter. These two items were partially offset by \$92,000 credit (31.2 percentage points) related to interest received on tax refunds recorded during in the current quarter.

Earnings per Share:

Basic (loss) earnings per share were \$(0.01) and \$0.12 for the three months ended June 28, 2014 and June 29, 2013, respectively. Diluted (loss) earnings per share were \$(0.01) and \$0.12 for the three months ended June 28, 2014 and June 29, 2013, respectively. For details of the calculation of these amounts, refer to footnote 9 of the Notes to Condensed Consolidated Financial Statements.

Liquidity and Capital Resources:

The financial condition of the Company is summarized in the following table and explanatory review:

ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

June 28, 2014

Note: Equivalent common shares are either common shares or, for convertible preferred shares, the number of common shares that the preferred shares are convertible into. See Note 8 of the Notes to Consolidated Financial Statements of the Company's 2014 Annual Report on Form 10-K for conversion details.

As shown in the Condensed Consolidated Statements of Cash Flows, net cash provided by operating activities was \$33,456,000 in the first three months of fiscal 2015, compared to \$34,533,000 in the first three months of fiscal 2014. The \$1,077,000 decrease in cash provided is primarily attributable to a \$6,128,000 decrease in cash provided by accounts receivable and decreased net earnings of \$1,454,000 as previously discussed, partially offset by a \$1,814,000 increase in cash provided by accounts payable, accrued expenses and other liabilities, a \$12,567,000 increase in cash provided by other current assets, \$1,471,000 decrease in cash used for income taxes and a \$16,040,000 decrease in inventory in the first three months of fiscal 2015 as compared to \$5,118,000 decrease in inventory in the first three months of fiscal 2014.

As compared to June 29, 2013, inventory decreased \$17,404,000 to \$467,290,000 at June 28, 2014. The components of the inventory decrease reflect a \$35,172,000 decrease in finished goods, a \$2,853,000 increase in work in process and a \$14,915,000 increase in raw materials and supplies. The finished goods decrease reflects higher inventory quantities attributable to increased sales volume as compared to the prior year the lower fiscal year 2015 pack versus fiscal year 2014 pack. The raw materials and supplies increase is primarily due to an increase in cans and raw steel quantities compared to the prior year. FIFO based inventory costs exceeded LIFO based inventory costs by \$153,035,000 as of the end of the first quarter of 2015 as compared to \$138,812,000 as of the end of the first quarter of 2014.

Cash used in investing activities was \$26,103,000 in the first three months of fiscal 2015 compared to cash used in investing activities of \$3,493,000 in the first three months of fiscal 2014. In April 2014, the Company purchased a 50% equity interest in Truitt Bros. Inc. for \$16,308,000. Additions to property, plant and equipment were \$9,947,000 in the first three months of fiscal 2015 as compared to \$4,288,000 in first three months of fiscal 2014.

Cash used in financing activities was \$10,088,000 in the first three months of fiscal 2015, which included borrowings of \$51,186,000 and the repayment of \$46,735,000 of long-term debt, principally consisting of borrowing and repayment on the revolving credit facility ("Revolver"). Other than borrowings under the Revolver, there was no new long-term debt during the first three months of fiscal 2015. During the three months ended June 28, 2014, the Company repurchased \$7,157,000 of its Class A Common Stock as treasury stock. In addition, the Company paid down Notes Payable of \$7,375,000 during the three months ended June 28, 2014 related to some interim notes which became operating leases.

Available borrowings on the Revolver total \$300,000,000 from April through July and \$400,000,000 from August through March with a maturity date of July 20, 2016. The interest rate on the Revolver is based on LIBOR plus an applicable margin based on excess availability and the Company's fixed charge coverage ratio. As of June 28, 2014, the interest rate was approximately 1.46% on a balance of \$180,050,000. We believe that cash flows from operations, availability under our Revolver and other financing sources will provide adequate funds for our working capital needs, planned capital expenditures, and debt obligations for at least the next 12 months.

ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

June 28, 2014

The Company's credit facilities contain standard representations and warranties, events of default, and certain affirmative and negative covenants, including various financial covenants. At June 28, 2014, the Company was in compliance with all such financial covenants.

New Accounting Standards

Refer to footnote 8 of the Notes to Condensed Consolidated Financial Statements.

Seasonality

The Company's revenues are typically higher in the second and third fiscal quarters. This is due in part because the Company sells, on a bill and hold basis, Green Giant canned and frozen vegetables to GMOL at the end of each pack cycle, which typically occurs during these quarters. GMOL buys the product from the Company at cost plus a specified fee for each equivalent case. See the Critical Accounting Policies section below for further details. The Company's non-Green Giant sales also exhibit seasonality with the third fiscal quarter generating the highest retail sales due to holidays that occur during that quarter.

Forward-Looking Information

The information contained in this report contains, or may contain, forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements appear in a number of places in this report and include statements regarding the intent, belief or current expectations of the Company or its officers (including statements preceded by, followed by or that include the words "believes," "expects," "anticipates" or similar expressions) with respect to various matters, including (i) the Company's anticipated needs for, and the availability of, cash, (ii) the Company's liquidity and financing plans, (iii) the Company's ability to successfully integrate acquisitions into its operations, (iv) trends affecting the Company's financial condition or results of operations, including anticipated sales price levels and anticipated expense levels, in particular higher production, fuel and transportation costs, (v) the Company's plans for expansion of its business (including through acquisitions) and cost savings, and (vi) the impact of competition.

Because such statements are subject to risks and uncertainties, actual results may differ materially from those expressed or implied by such forward-looking statements. Investors are cautioned not to place undue reliance on such statements, which speak only as of the date the statements were made. Among the factors that could cause actual results to differ materially are:

- general economic and business conditions;
- cost and availability of commodities and other raw materials such as vegetables, steel and packaging materials;
- transportation costs;
- climate and weather affecting growing conditions and crop yields;
- the availability of financing;
- leverage and the Company's ability to service and reduce its debt;
- foreign currency exchange and interest rate fluctuations;
- effectiveness of the Company's marketing and trade promotion programs;
- changing consumer preferences;
- competition;
- product liability claims;
- the loss of significant customers or a substantial reduction in orders from these customers;
-

changes in, or the failure or inability to comply with, U.S., foreign and local governmental regulations, including environmental and health and safety regulations; and
· other risks detailed from time to time in the reports filed by the Company with the SEC.

ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

June 28, 2014

Except for ongoing obligations to disclose material information as required by the federal securities laws, the Company does not undertake any obligation to release publicly any revisions to any forward-looking statements to reflect events or circumstances after the date of the filing of this report or to reflect the occurrence of unanticipated events.

Critical Accounting Policies

In the three months ended June 28, 2014, the Company sold \$4,196,000 of Green Giant finished goods inventory to General Mills Operations, LLC ("GMOL") for cash, on a bill and hold basis, as compared to \$5,408,000 for the three months ended June 29, 2013. Under the terms of the bill and hold agreement, title to the specified inventory transferred to GMOL. The Company believes it has met the criteria required for bill and hold treatment.

Trade promotions are an important component of the sales and marketing of the Company's branded products, and are critical to the support of the business. Trade promotion costs, which are recorded as a reduction of net sales, include amounts paid to encourage retailers to offer temporary price reductions for the sale of our products to consumers, amounts paid to obtain favorable display positions in retailers' stores, and amounts paid to retailers for shelf space in retail stores. Accruals for trade promotions are recorded primarily at the time of sale of product to the retailer based on expected levels of performance. Settlement of these liabilities typically occurs in subsequent periods primarily through an authorized process for deductions taken by a retailer from amounts otherwise due to us. As a result, the ultimate cost of a trade promotion program is dependent on the relative success of the events and the actions and level of deductions taken by retailers for amounts they consider due to them. Final determination of the permissible deductions may take extended periods of time.

The Company assesses its long-lived assets for impairment whenever there is an indicator of impairment. Property, plant, and equipment are depreciated over their assigned lives. The assigned lives and the projected cash flows used to test impairment are subjective. If actual lives are shorter than anticipated or if future cash flows are less than anticipated, a future impairment charge or a loss on disposal of the assets could be incurred. Impairment losses are evaluated if the estimated undiscounted value of the cash flows is less than the carrying value. If such is the case, a loss is recognized when the carrying value of an asset exceeds its fair value.

16

ITEM 3 Quantitative and Qualitative Disclosures About Market Risk

In the ordinary course of business, the Company is exposed to various market risk factors, including changes in general economic conditions, competition and raw material pricing and availability. In addition, the Company is exposed to fluctuations in interest rates, primarily related to its revolving credit facility. To manage interest rate risk, the Company uses both fixed and variable interest rate debt. There have been no material changes to the Company's exposure to market risk since March 31, 2014.

17

ITEM 4 Controls and Procedures

The Company maintains a system of internal and disclosure controls and procedures designed to ensure that information required to be disclosed in reports filed or submitted under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported on a timely basis. The Company's Board of Directors, operating through its Audit Committee, which is composed entirely of independent outside directors, provides oversight to the financial reporting process.

An evaluation was performed under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities and Exchange Act of 1934, as amended) as of the end of the period covered by this report. Based upon that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that, as of June 28, 2014, our disclosure controls and procedures were effective. The Company continues to examine, refine and formalize its disclosure controls and procedures and to monitor ongoing developments in this area.

There have been no changes during the period covered by this report to the Company's internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
