Chairman's  
LETTER TO SHAREHOLDERS

I am very pleased to report that over the fiscal year ended July 31, 2004, your  
Fund continued to provide you with attractive monthly income through a  
diversified portfolio of quality preferred securities.

In addition to regular monthly income, we believe that your Fund also may  
provide an opportunity to reduce the overall risk of your entire investment  
portfolio. This is because the value of your Fund's holdings may move  
differently than the prices of the other investments, like common stocks, bonds  
or mutual funds that you may own. Through adequate diversification, some parts  
of your portfolio may be going

up when others are going down. This potential counterbalancing may reduce your  
overall risk over time. Your financial advisor can explain the advantages of  
portfolio diversification in more detail. I urge you to contact him or her soon  
for more information on this important investment strategy.

I also urge you to consider receiving future Fund reports and other Fund  
information by e-mail and the Internet. Not only will you be able to receive the  
information faster, but this also may help lower your Fund's expenses. Sign up  
is quick and easy -- see the inside front cover of this report for step-by-step  
instructions.

For more than 100 years, Nuveen has specialized in offering quality investments  
such as your Fund to those seeking to accumulate and preserve wealth. Our  
commitment to careful research, constant surveillance and judicious trading by  
seasoned portfolio managers has never been stronger. Our mission continues to be  
to assist you and your financial advisor by offering the investment solutions  
and services that can help you secure your long-term financial goals. We thank  
you for choosing us as a partner as you work toward that objective.

Portfolio Managers'  
PERSPECTIVE

The Nuveen Quality Preferred Income Funds are managed by a team of specialists at Spectrum Asset Management, Inc., an affiliate of Principal CapitalSM. Mark Lieb, Bernie Sussman and Phil Jacoby, who have more than 50 years of combined experience in the preferred securities markets, lead the team. Here Mark, Bernie and Phil talk about general economic conditions, their management strategy and the performance of each Fund for the fiscal year ended July 31, 2004.

WHAT WERE THE CONDITIONS IN THE FIXED-INCOME MARKETS GENERALLY, AND THE PREFERRED SECURITIES MARKET IN PARTICULAR, DURING THE FISCAL YEAR ENDED JULY 31, 2004?

While the 10-year U. S. Treasury note yield of 4.45% at the end of the period was virtually unchanged from 12 months earlier, this fiscal year was marked by quite a bit of volatility in both the preferred securities market as well as in the fixed-income market generally. Prices in the U. S. Treasury market peaked on March 16, 2004, with the 10-year note yielding 3.68% as a sluggish economy, slow employment growth, Federal Reserve caution and concerns over terrorism combined to keep interest rates near record lows. In early April, an unexpectedly strong employment report brought the bond market rally to an abrupt end. As concerns focused on the possibility that the Federal Reserve might start to raise short-term interest rates, market interest rates spiked upward along the entire yield curve and the 10 year U. S. Treasury note reached a high yield of 4.87% on June 14, 2004.

The preferred securities market's reaction to this April sell-off was even stronger, especially in the \$25 par sector, as many individual investors seemed to take the news of possibly rising interest rates as a signal to get out of fixed-income investments. Overall, the second quarter of 2004 was the worst period for preferred securities since 1999. However, both the general fixed-income market and the preferred securities market enjoyed a nice rebound during the second half of June and through July as investors seemed to conclude that the economy wasn't robust enough to spark inflation and to sense that the Fed's tightening would be very gradual. The prospect for a continued steep yield curve also was a positive for preferred securities.

In total, the preferred securities market, as measured by the Merrill Lynch Preferred Stock Hybrid Securities Index, was up 6.34% for the 12 months ending July 31, 2004, compared with a 4.84% over the same period for the Lehman Aggregate Bond Index (a general measure of the overall bond market). New issuance in the preferred securities market totaled \$36.5 billion over the 12-month period, but the overall growth of the market was contained by a strong pace of redemptions as issuers called the higher-coupon preferred securities they had issued during the 1990's. As of July 31, 2004, the hybrid preferred securities market had outstanding issues totaling approximately \$225 billion.

One positive development during the period for parts of the preferred securities market was a recommendation by the National Association of Insurance Commissioners to reduce the risk-based capital requirements for preferred stock. This has the potential to increase the demand by insurance companies for certain preferred issues, especially some of the non-U.S. issues owned by the Funds, and may help the Fund holdings perform well in the future.

DURING THIS PERIOD WHAT WERE YOUR PRIMARY MANAGEMENT STRATEGIES AND FOCUSES?

Over this fiscal year, the focus of our investing activities was on finding and owning high quality preferred securities that offered what we judged to be good current yields and yields-to-call. The average credit quality within each of the Funds was maintained at a ratings level of A3/BBB+/A- from Moody's, S&P and Fitch, respectively. Given the large number of redemptions, much of the trading activity also was targeted toward replacing the current income on issues that were called out of the portfolio. In addition, we believed that higher coupon preferred securities with call dates in 2006 and 2007 were relatively more attractive than the lower, current coupon issues available during most of the year. These higher coupon securities also helped to keep the duration, or interest rate sensitivity, of the portfolio lower than if we had been more focused on new issues.

Diversification among issuers and sectors within the preferred securities market also was an important part of our strategy. Each of the Funds now contains over 100 distinct issuers. The weightings between \$25 par preferred stock and preferred capital securities, and to a lesser extent among convertible securities and corporate bonds, were altered slightly over the period depending on where we felt we could find the best relative value.

HOW DID THE FUNDS PERFORM OVER THIS PERIOD?

Each of the Funds performed well during the 12 months ended July 31, 2004. Their performance, as well as the performance of several widely followed market indexes, is shown in the accompanying chart.

For the 12 months ended July 31, 2004, all of these Funds outperformed the Lehman Brothers and Merrill Lynch indexes. While the parts of each portfolio performed well, the \$1000 par capital preferred securities held by each Fund were their best performing sector during the 12-month reporting period. These issues are not part of the Merrill Lynch index.

The Funds' \$1000 par capital securities benefited from the general tightening of spreads in the corporate market over the reporting period and from the strong demand for yield from insurance companies and other institutional investors. The better call protection afforded by these securities also helped their performance during the months when rates were falling. Two \$1000 par capital securities that were among the best performers for all three Funds were Zurich Americas and Centaur Funding. Zurich benefited from a more positive feeling in the market about European insurers as an improved equity market allowed them to do a rights offering and improve their capital position. Centaur, a part of Vodafone, was a subordinated issue that we considered to be very undervalued relative to the issuer's senior debt, and these securities performed well over the period. Another top performer for all three Funds was a GMAC debt instrument that we bought because it was trading cheaper than their more subordinated preferred. Purchased at yield spreads ranging from 300 to 320 basis points above comparable U. S. Treasuries, the prices of these GMAC securities improved so that they were trading at yields about 245 basis points higher than the comparable U. S. Treasuries by the end of the reporting period. Of course it is important to note that Treasuries are backed by the full faith and credit of the U.S. Government while these par capital securities are not.

Within the \$25 par market of listed preferred securities, one strategy that worked well during this period was trading to take advantage of what we thought were mispricings of the securities' embedded call options. In many cases we were able to sell issues trading at a premium where the yield-to-call was very low, and then were able to replace these securities with other, higher coupon issuers with higher current yields and more attractive yields-to-call at the time of investment.

At the same time, two \$25 par issues, Verizon (in JTP) and Converium (in all three Funds), did not perform as well as we had hoped they would. The Verizon issue was originally a series of \$1000 par capital securities that were repackaged into exchange-listed \$25 par preferreds that were bought during the first quarter of 2004, just before rates rose significantly. Converium, a Swiss reinsurance company, was put on downgrade review by the rating agencies following a surprise announcement that they were taking a \$400

6

million reserve charge in the second quarter of 2004. Several other issues in all three Funds that happened to be bought in February and early March when

## Edgar Filing: NUVEEN QUALITY PREFERRED INCOME FUND 2 - Form N-CSR/A

interest rates were at their lows for the period turned out to be relatively weak performers over this reporting period.

### WHAT ABOUT THE FUNDS' DIVIDENDS AND SHARE PRICES?

With short-term interest rates remaining near historically low levels during this reporting period, the leveraged structures of these Funds continued to support their dividend-paying capabilities. The extent of this benefit is tied in part to the short-term rates the Funds pay their FundPreferred(R) shareholders. During periods of low short-term rates, the Funds generally pay relatively lower dividends to their FundPreferred shareholders, which can leave more earnings to support common share dividends.

As a result, despite losing some of their higher-coupon securities to calls, JPS and JHP made no changes in their monthly dividends over the course of this 12-month fiscal year. JTP made one reduction in its monthly dividend, reflecting a lower earnings rate resulting from calls.

All of these Funds seek to pay stable dividends at rates that reflect each Fund's past results and projected future performance. During certain periods, each Fund may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in dividends, it holds the excess in reserve as undistributed net investment income (UNII) as part of the Fund's NAV. Conversely, if a Fund has cumulatively paid dividends in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Fund's NAV. Each Fund will, over time, pay all of its net investment income as dividends to shareholders. As of July 31, 2004, all three Funds in this report had positive UNII balances.

As of July 31, 2004, all of these Funds were trading at discounts to their net asset values. In each case, these discounts were greater than the average discount or premium exhibited by the Fund over the course of the entire 12-month reporting period.

We have audited the accompanying statements of assets and liabilities, including the portfolios of investments, of Nuveen Quality Preferred Income Fund, Nuveen Quality Preferred Income Fund 2 and Nuveen Quality Preferred Income Fund 3 as of July 31, 2004, and the related statements of operations, changes in net assets and the financial highlights for the periods indicated therein. These financial statements and financial highlights are the responsibility of the Funds' management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights. Our procedures included confirmation of investments owned as of July 31, 2004, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial positions of Nuveen Quality Preferred Income Fund, Nuveen Quality Preferred Income Fund 2 and Nuveen Quality Preferred Income Fund 3 at July 31, 2004, and the results of their operations, the changes in their net assets and the financial highlights for the periods indicated therein in conformity with U.S. generally accepted accounting principles.

Notes to  
FINANCIAL STATEMENTS

1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The Funds covered in this report and their corresponding Common share New York Stock Exchange symbols are Nuveen Quality Preferred Income Fund (JTP), Nuveen Quality Preferred Income Fund 2 (JPS) and Nuveen Quality Preferred Income Fund 3 (JHP). The Funds are registered under the Investment Company Act of 1940, as amended, as non-diversified, closed-end management investment companies.

Prior to the commencement of operations of Quality Preferred Income 2 (JPS) and Quality Preferred Income 3 (JHP), each Fund had no operations other than those related to organizational matters, the initial capital contribution of \$100,275 per Fund by Nuveen Institutional Advisory Corp. (the "Adviser"), a wholly owned

## Edgar Filing: NUVEEN QUALITY PREFERRED INCOME FUND 2 - Form N-CSR/A

subsidiary of Nuveen Investments, Inc., and the recording of the organization expenses (\$15,000 and \$11,500, respectively) and their reimbursement by Nuveen Investments, LLC, also a wholly owned subsidiary of Nuveen Investments, Inc.

Each Fund seeks to provide high current income consistent with capital preservation by investing primarily in a portfolio of preferred securities, debt securities including convertible debt securities and convertible preferred securities.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with U.S. generally accepted accounting principles.

### Securities Valuation

Exchange-listed securities are generally valued at the last sales price on the securities exchange on which such securities are primarily traded. Securities traded on a securities exchange for which there are no transactions on a given day or securities not listed on a securities exchange are valued at the mean of the closing bid and asked prices. Securities traded on Nasdaq are valued at the Nasdaq Official Closing Price. The prices of fixed-income securities are generally provided by an independent pricing service approved by the Funds' Board of Trustees and based on the mean between the bid and asked prices. When price quotes are not readily available for fixed income securities, the pricing service establishes fair market value using a wide range of market data including yields or prices of securities of comparable quality, type of issue, coupon, maturity and rating, indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant by the pricing service. If it is determined that market prices for a security are unavailable or inappropriate, the Board of Trustees of the Funds, or its designee, may establish a fair value for the security. Short-term securities are valued at amortized cost, which approximates market value.

### Securities Transactions

Securities transactions are recorded on a trade date basis. Realized gains and losses from such transactions are determined on the specific identification method. Securities purchased on a when-issued or delayed delivery basis may have extended settlement periods. Any securities so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued and delayed delivery purchase commitments. At July 31, 2004, there were no such outstanding purchase commitments in any of the Funds.

### Investment Income

Dividend income is recorded on the ex-dividend date. Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis (see Dividends and Distributions to Common Shareholders for REIT income recognition policy).

## Edgar Filing: NUVEEN QUALITY PREFERRED INCOME FUND 2 - Form N-CSR/A

### Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute all income and capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required.

### Dividends and Distributions to Common Shareholders

Dividends to Common shareholders are declared monthly. With respect to the REIT securities held in the Funds' Portfolio of Investments, each Fund passes through to its shareholders, each month, substantially all REIT distributions it receives, together with other operating income less operating expenses. REIT distributions received by the Funds are generally comprised of investment income, long-term and short-term capital gains, and a return of REIT capital. The actual character of amounts received during the period is not known until after the fiscal year-end. For the twelve months ended December 31, 2003, the character of distributions to the Funds from the REITs was as follows:

	QUALITY PREFERRED INCOME (JTP)	QUALITY PREFERRED INCOME 2 (JPS)
-----		
Ordinary income	84.48%	88.22%
Long-term and short-term capital gains	.25	.80
Return of REIT capital	15.27	10.98
=====		

Each Fund applies a percentage estimate for the breakdown of income type, to its receipts from the REITs and treats as income in the Statement of Operations only the amount of ordinary income so calculated. Each Fund adjusts that estimated breakdown of income type (and consequently its net investment income) as necessary in the following calendar year when the REITs inform their shareholders of the actual breakdown of income type.

Each Fund treats each distribution to its shareholders from the portfolio REITs as being entirely from net investment income. The Funds will recharacterize those distributions as being from ordinary income, long-term and short-term capital gains, and return of capital, if necessary, in the subsequent calendar year, based upon the income type breakdown information conveyed at that time by the REITs whose securities are held in each Fund's portfolio. Consequently, the financial statements may reflect an over-distribution of net investment income that is at least partly attributable to the fact that, as of the date of the financial statements, some of the amounts received by the Funds from the portfolio REITs, but none of the dividends paid by the Fund to shareholders from the portfolio REITs were treated as something other than ordinary income.

Distributions to Common shareholders are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles.

## Edgar Filing: NUVEEN QUALITY PREFERRED INCOME FUND 2 - Form N-CSR/A

### FundPreferred Shares

The Funds have issued and outstanding \$25,000 stated value FundPreferred shares as a means of effecting financial leverage. Each Fund's FundPreferred shares are issued in more than one Series. The dividend rate on each Series may change every seven days, as set pursuant to a dutch auction process by the auction agent, and is payable at or near the end of each rate period. The number of shares outstanding, by Series and in total, for each Fund is as follows:

	QUALITY PREFERRED INCOME (JTP)	QUALITY PREFERRED INCOME 2 (JPS)
-----		
Number of shares:		
Series M	3,520	4,800
Series T	3,520	4,800

Series F	3,520	4,800
-----		
Total	17,600	32,000
=====		

### Interest Rate Swap Transactions

The Funds may invest in certain derivative financial investments. The Funds' use of interest rate swap transactions is intended to mitigate the negative impact that an increase in short-term interest rates could have on Common share net earnings as a result of leverage. Interest rate swap transactions involve each Fund's agreement with the counterparty to pay a fixed rate payment in exchange for the counterparty paying the Fund a variable rate payment that is intended to approximate each Fund's variable rate payment obligation on FundPreferred shares or any variable rate borrowing. The payment obligation is based on the notional amount of the interest rate swap contract. Interest rate swaps do not involve the delivery of securities or other underlying assets or principal. Accordingly, the risk of loss with respect to the swap counterparty on such transactions is limited to the net amount of interest payments that each Fund is to receive. Interest rate swap positions are valued daily. Although there are economic advantages of entering into interest rate swap transactions, there are also additional risks. The Funds help manage the credit risks associated with interest rate swap transactions by entering into agreements only with counterparties the Adviser believes have the financial resources to honor their obligations and by having the Adviser continually monitor the financial stability of the swap counterparties.

Due to recent clarification provided by the SEC to regulated investment companies, effective with the current reporting period, the Funds changed the way they present net interest expense on interest rate swap transactions in the financial statements. In the July 31, 2004, financial statements net interest expense amounts paid are included in "Net realized gain (loss) from interest rate swap transactions". Net interest expense amounts accrued, but not yet paid, at July 31, 2004, are included in "Change in net unrealized appreciation (depreciation) of interest rate swap transactions". Previously, net interest expense was presented in "Expenses" and reported as "Net interest expense on interest rate swap transactions". This reclassification does not alter the tax

Edgar Filing: NUVEEN QUALITY PREFERRED INCOME FUND 2 - Form N-CSR/A

treatment of interest rate payments on swap transactions which is to include such payments as an operating expense for tax purposes.

41

Notes to  
FINANCIAL STATEMENTS (continued)

For the fiscal year ended July 31, 2004, this reclassification, for financial reporting purposes only, resulted in increases to net investment income, decreases to net realized gain (loss) from interest rate swap transactions and decreases to change in net unrealized appreciation (depreciation) of interest rate swap transactions as follows:

Repurchase Agreements

In connection with transactions in repurchase agreements, it is each Fund's policy that its custodian take possession of the underlying collateral securities, the fair value of which exceeds the principal amount of the repurchase transaction, including accrued interest, at all times. If the seller defaults, and the fair value of the collateral declines, realization of the collateral may be delayed or limited.

Organization and Offering Costs

Nuveen Investments, LLC has agreed to reimburse all organization expenses (approximately \$15,000, \$15,000 and \$11,500, respectively) and pay all Common shares offering costs (other than the sales load) that exceed \$.03 per Common share for Quality Preferred Income (JTP), Quality Preferred Income 2 (JPS) and Quality Preferred Income 3 (JHP). Quality Preferred Income's (JTP), Quality Preferred Income 2's (JPS) and Quality Preferred Income 3's (JHP) total share of Common shares offering costs (\$1,391,687, \$1,481,072 and \$531,845, respectively) were recorded as reductions of the proceeds from the sale of the Common shares.

Costs incurred by Quality Preferred Income (JTP), Quality Preferred Income 2 (JPS) and Quality Preferred Income 3 (JHP) in connection with their offering of FundPreferred shares (\$9,225,254, \$16,497,097, and \$3,593,728, respectively) were recorded as reductions to paid-in surplus.

Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on each Fund's cash on deposit

## Edgar Filing: NUVEEN QUALITY PREFERRED INCOME FUND 2 - Form N-CSR/A

with the bank. Such deposit arrangements are an alternative to overnight investments.

### Indemnifications

Under the Funds' organizational documents, their Officers and Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

### Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

4. INCOME TAX INFORMATION

The following information is presented on an income tax basis based on the information currently available to the Funds. Differences between amounts for financial statement and federal income tax purposes are primarily due to the recognition of income on certain securities, which are treated as debt securities for income tax purposes and equity securities for financial statement purposes, and timing differences in recognizing certain gains and losses on security transactions.

At July 31, 2004, the cost of investments was as follows:

	QUALITY PREFERRED INCOME (JTP)	QUALITY PREFERRED INCOME 2 (JPS)
-----		
Cost of investments	\$1,314,329,443	\$2,494,638,389
=====		

Gross unrealized appreciation and gross unrealized depreciation of investments at July 31, 2004, were as follows:

	QUALITY PREFERRED INCOME (JTP)	QUALITY PREFERRED INCOME 2 (JPS)
-----		
Gross unrealized:		
Appreciation	\$ 57,444,148	\$130,700,199
Depreciation	(11,008,571)	(17,095,572)

The tax components of undistributed net ordinary income and net realized gains at July 31, 2004, were as follows:

	QUALITY PREFERRED INCOME (JTP)	QUALITY PREFERRED INCOME 2 (JPS)	P
Undistributed net ordinary income *	\$7,699,609	\$14,357,609	\$2
Undistributed net long-term capital gains	--	20,000,209	1

\* Net ordinary income consists of net taxable income derived from dividends, interest and net short-term capital gains, if any.

The tax character of distributions paid during the fiscal years ended July 31, 2004 and July 31, 2003, was designated for purposes of the dividends paid deduction as follows:

	QUALITY PREFERRED INCOME (JTP)	QUALITY PREFERRED INCOME 2 (JPS)	P
2004			
Distributions from net ordinary income *	\$86,134,890	\$171,962,461	\$34
Distributions from net long-term capital gains	--	--	

	QUALITY PREFERRED INCOME (JTP)	QUALITY PREFERRED INCOME 2 (JPS)	P
2003			
Distributions from net ordinary income *	\$79,694,828	\$108,646,966	\$13
Distributions from net long-term capital gains	--	--	

\* Net ordinary income consists of net taxable income derived from dividends, interest and net short-term capital gains, if any.

At July 31, 2004, Quality Preferred Income (JTP) had unused capital loss carryforwards of \$25,060,612 available for federal income tax purposes to be applied against future capital gains, if any. If not applied, \$693,161 of the carryforward will expire in the year 2011 and \$24,367,451 will expire in 2012.

Calculation of certain of the amounts presented above (namely, undistributed net ordinary income for tax purposes) involves the application of complex aspects of the Internal Revenue Code to certain securities held by the Funds. In

## Edgar Filing: NUVEEN QUALITY PREFERRED INCOME FUND 2 - Form N-CSR/A

calculating the amount of taxable income derived from these securities, management made assumptions as to the correct tax treatment of certain of those securities and made estimates about the tax characteristics of income received from those securities, based on information currently available to the Funds. The use of these assumptions and estimates will not affect the qualification of the Funds as regulated investment companies under Subchapter M of the Internal Revenue Code, nor is it expected that these assumptions and estimates will be used in computing taxable income for purposes of preparing the federal and state income and excise tax returns.

### 5. MANAGEMENT FEE AND OTHER TRANSACTIONS WITH AFFILIATES

Under the Funds' investment management agreements with the Adviser, each Fund paid through July 31, 2004, an annual management fee, payable monthly, at the rates set forth below, which were based upon each Fund's average daily managed assets. "Managed Assets" means the average daily net assets of each Fund including assets attributable to leverage as follows:

AVERAGE DAILY MANAGED ASSETS	MANAGEMENT FEE RATE
For the first \$500 million	.9000%
For the next \$500 million	.8750
For the next \$500 million	.8500
For the next \$500 million	.8250
For Managed Assets over \$2 billion	.8000

### Notes to FINANCIAL STATEMENTS (continued)

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Adviser has entered into Sub-Advisory Agreements with Spectrum Asset Management, Inc. ("Spectrum"), under which Spectrum manages the investment portfolios of the Funds. Spectrum is compensated for its services to the Funds from the management fees paid to the Adviser. Spectrum also receives compensation on certain portfolio transactions for providing brokerage services to the Funds.

The Funds pay no compensation directly to those of its Trustees who are affiliated with the Adviser or to its officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates. The Board of Trustees has adopted a deferred compensation plan for independent Trustees that enables Trustees to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen advised Funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen advised Funds.

As approved by the Board of Trustees, a complex-wide management fee structure has been adopted by all funds sponsored by the Adviser and its affiliates effective August 1, 2004. This structure separates each fund's management fee into two components - a complex-level component, based on the aggregate amount of all fund assets managed by the Adviser and its affiliates, and a specific fund-level component, based only on the amount of assets managed within each individual fund. This pricing structure enables Nuveen fund shareholders to

## Edgar Filing: NUVEEN QUALITY PREFERRED INCOME FUND 2 - Form N-CSR/A

benefit from growth in the assets within each individual fund as well as from growth in the amount of complex-wide assets managed by the Adviser and its affiliates. Under no circumstances will this pricing structure result in a fund paying management fees at a rate higher than would otherwise have been applicable had the complex-wide management fee structure not been implemented. As a consequence of this new management fee structure, the funds' effective management fees were reduced by approximately .004% starting August 1, 2004.

The complex-level fee schedule for all funds in the Nuveen fund complex is as follows:

COMPLEX-LEVEL ASSETS (1)	COMPLEX-LEVEL FEE RATE
For the first \$55 billion	.2000%
For the next \$1 billion	.1800
For the next \$1 billion	.1600
For the next \$3 billion	.1425
For the next \$3 billion	.1325
For the next \$3 billion	.1250
For the next \$5 billion	.1200
For the next \$5 billion	.1175
For the next \$15 billion	.1150
For Managed Assets over \$91 billion (2)	.1400

- (1) The complex-level fee component of the management fee for the funds is calculated based upon the aggregate Managed Assets (which includes assets attributable to leverage used in the Nuveen fund complex) of all funds sponsored by the Adviser or by its affiliates.
- (2) With respect to the complex-wide Managed Assets over \$91 billion, the funds (via their Board of Directors/Trustees) and the Adviser intend that the parties will meet, prior to the time when complex-wide Managed Assets reach that level, to consider and negotiate the fee rate or rates that will apply to such assets. The parties agree that, in the unlikely event that complex-wide Managed Assets reach \$91 billion prior to the parties reaching an agreement as to the complex-level fee rate or rates to be applied to Managed Assets in excess of \$91 billion, the complex-level fee rate for such complex-wide Managed Assets shall be .1400% until such time as the parties agree to a different rate or rates.

46

For each of the Funds, the fund-level fee, which is additive to the complex-level fee, is based upon the average daily Managed Assets of each Fund as follows:

AVERAGE DAILY MANAGED ASSETS	FUND-LEVEL FEE RATE
For the first \$500 million	.7000%
For the next \$500 million	.6750
For the next \$500 million	.6500
For the next \$500 million	.6250
For Managed Assets over \$2 billion	.6000

Reinvest Automatically  
EASILY AND CONVENIENTLY

SIDEBAR TEXT: NUVEEN MAKES REINVESTING EASY. A PHONE CALL IS ALL IT TAKES TO SET UP YOUR REINVESTMENT ACCOUNT.

### NUVEEN CLOSED-END EXCHANGE-TRADED FUNDS DIVIDEND REINVESTMENT PLAN

Your Nuveen Closed-End Exchange-Traded Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of tax-free compounding. Just like dividends or distributions in cash, there may be times when income or capital gains taxes may be payable on dividends or distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

### EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

### HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the

## Edgar Filing: NUVEEN QUALITY PREFERRED INCOME FUND 2 - Form N-CSR/A

then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of the shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

### FLEXIBLE

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

### GLOSSARY OF TERMS USED IN THIS REPORT

**AVERAGE ANNUAL TOTAL RETURN:** This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return (including change in NAV and reinvested dividends) that would have been necessary on an annual basis to equal the investment's actual performance over the time period being considered.

**NET ASSET VALUE (NAV):** A fund's NAV is calculated by subtracting the liabilities of the fund from its total assets and then dividing the remainder by the number of shares outstanding. Fund NAVs are calculated at the end of each business day.

**UNAUDITED INFORMATION:** The Nuveen Quality Preferred Income Fund, Nuveen Quality Preferred Income Fund 2 and Nuveen Quality Preferred Income Fund 3 designate 11%, 11% and 12% respectively, of dividends declared from net investment income as dividends qualifying for the 70% dividends received deduction for corporations and 11%, 11% and 12% respectively, as qualified dividend income for individuals under the Jobs and Growth Tax Relief Reconciliation Act of 2003.

ITEM 2. CODE OF ETHICS.

As of the end of the period covered by this report, the registrant has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. The registrant has posted such code of ethics on its website at [www.nuveen.com/etf](http://www.nuveen.com/etf).

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The registrant's board of directors determined that the registrant had at least one "audit committee financial expert" (as defined in Item 3 of Form N-CSR) serving on its Audit Committee. The registrant's audit committee financial expert was William E. Bennett, who was "independent" for purposes of Item 3 of Form N-CSR.

Although Mr. Bennett served as the audit committee financial expert during the reporting period, he unexpectedly resigned from the Board effective April 30, 2004. Since that time, the Audit Committee determined that Jack B. Evans, the Chairman of the Audit Committee, qualifies as an audit committee financial expert and recommended to the full Board that he be designated as such. On July 26, 2004, the full Board voted to so designate Mr. Evans. Accordingly for this reporting period, the registrant did not have a designated "audit committee financial expert" from April 30, 2004 to July 26, 2004. Mr. Evans, who is independent for purposes of Item 3 of Form N-CSR, served as the registrant's audit committee financial expert from July 26, 2004 to the end of the reporting period on July 31, 2004.

Mr. Bennett was formerly Executive Vice President and Chief Credit Officer of First Chicago Corporation and its principal subsidiary, The First National Bank of Chicago. As part of his role as Chief Credit Officer, Mr. Bennett set policy as to accrual of assets/loans; designated performing/non-performing assets; set the level of reserves against the credit portfolio; and determined the carrying value of credit related assets and exposure. Among other things, Mr. Bennett was also responsible for the oversight of the internal analysis function including setting ground rules for the review and preparation of financial analysis and financial statements for use in making credit and risk decisions for clients. Mr. Bennett has significant experience reviewing, analyzing and evaluating financial statements of domestic and international companies in a variety of industries with complex accounting issues.

Mr. Evans was formerly President and Chief Operating Officer of SCI Financial Group, Inc., a full service registered broker-dealer and registered investment adviser ("SCI"). As part of his role as President and Chief Operating Officer, Mr. Evans actively supervised the Chief Financial Officer (the "CFO") and actively supervised the CFO's preparation of financial statements and other filings with various regulatory authorities. In such capacity, Mr. Evans was actively involved in the preparation of SCI's financial statements and the resolution of issues raised in connection therewith. Mr. Evans has also served on the audit committee of various reporting companies. At such companies, Mr. Evans was involved in the oversight of audits, audit plans, and the preparation of financial statements. Mr. Evans also formerly chaired the audit committee of the Federal Reserve Bank of Chicago.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

## Edgar Filing: NUVEEN QUALITY PREFERRED INCOME FUND 2 - Form N-CSR/A

The following tables show the amount of fees that Ernst & Young LLP, the Fund's auditor, billed to the Fund during the Fund's last two full fiscal years. For engagements with Ernst & Young LLP entered into on or after May 6, 2003, the Audit Committee approved in advance all audit services and non-audit services that Ernst & Young LLP provided to the Fund, except for those non-audit services that were subject to the pre-approval exception under Rule 2-01 of Regulation S-X (the "pre-approval exception"). The pre-approval exception for services provided directly to the Fund waives the pre-approval requirement for services other than audit, review or attest services if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid by the Fund during the fiscal year in which the services are provided; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the audit is completed.

The Audit Committee has delegated certain pre-approval responsibilities to its Chairman (or, in his absence, any other member of the Audit Committee).

July 31, 2003	\$ 11,550	\$ 0	\$ 4
Percentage approved pursuant to pre-approval exception	N/A	0%	

The above "Tax Fees" were billed for professional services for tax advice, tax compliance and tax planning.

### SERVICES THAT THE FUND'S AUDITOR BILLED TO THE ADVISER AND AFFILIATED FUND SERVICE PROVIDERS

The following tables show the amount of fees billed by Ernst & Young LLP to Nuveen Institutional Advisory Corp. ("NIAC" or the "Adviser"), and any entity controlling, controlled by or under common control with NIAC ("Control Affiliate") that provides ongoing services to the Fund ("Affiliated Fund Service Provider"), for engagements directly related to the Fund's operations and financial reporting, during the Fund's last two full fiscal years.

The table also shows the percentage of fees subject to the pre-approval exception. The pre-approval exception for services provided to the Adviser and any Affiliated Fund Service Provider (other than audit, review or attest

services) waives the pre-approval requirement if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid to Ernst & Young LLP by the Fund, the Adviser and Affiliated Fund Service Providers during the fiscal year in which the services are provided that would have to be pre-approved by the Audit Committee; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the Fund's audit is completed.

NON-AUDIT SERVICES

The following table shows the amount of fees that Ernst & Young LLP billed during the Fund's last two full fiscal years for non-audit services. For engagements entered into on or after May 6, 2003, the Audit Committee is required to pre-approve non-audit services that Ernst & Young LLP provides to the Adviser and any Affiliated Fund Services Provider, if the engagement related directly to the Fund's operations and financial reporting (except for those subject to the de minimis exception described above). The Audit Committee requested and received information from Ernst & Young LLP about any non-audit services that Ernst & Young LLP rendered during the Fund's last fiscal year to the Adviser and any Affiliated Fund Service Provider. The Committee considered this information in evaluating Ernst & Young LLP independence.

Audit Committee Pre-Approval Policies and Procedures. Generally, the audit committee must approve (i) all non-audit services to be performed for the Fund by the Fund's independent accountants and (ii) all audit and non-audit services to be performed by the Fund's independent accountants for the Affiliated Fund Service Providers with respect to operations and financial reporting of the Fund. Regarding tax and research projects conducted by the independent accountants for the Fund and Affiliated Fund Service Providers (with respect to operations and financial reports of the Fund) such engagements will be (i) pre-approved by the audit committee if they are expected to be for amounts greater than \$10,000; (ii) reported to the audit committee chairman for his verbal approval prior to engagement if they are expected to be for amounts under \$10,000 but greater than \$5,000; and (iii) reported to the audit committee at the next audit committee meeting if they are expected to be for an amount under \$5,000.

### ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

Not applicable at this time.

### ITEM 6. SCHEDULE OF INVESTMENTS.

See Item 1.

### ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

In the rare event that a municipal issuer held by the Fund were to issue a proxy or that the Fund were to receive a proxy issued by a cash management security, the Adviser would either engage an independent third party to determine how the proxy should be voted or vote the proxy with the consent, or based on the instructions, of the Fund's Board of Directors or Trustees or its representative. In the case of a conflict of interest, the proxy would be submitted to the applicable Fund's Board to determine how the proxy should be voted. A member of the Adviser's legal department would oversee the administration of the voting, and ensure that records were maintained in accordance with Rule 204-2(c)(2) under the Investment Advisers Act of 1940 (17 CFR 275.204-2(c)(2)), reports were filed with the SEC on Form N-PX, and the results were provided to the Board of Directors or Trustees and made available to shareholders as required by applicable rules.

### ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Not applicable at this time.

### ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

Not applicable.

### ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

In the event of a vacancy on the Board, the nominating and governance committee receives suggestions from various sources, including shareholders, as to suitable candidates. Suggestions should be sent in writing to Lorna Ferguson, Vice President for Board Relations, Nuveen Investments, 333 West Wacker Drive, Chicago, IL 60606. The nominating and governance committee sets appropriate standards and requirements for nominations for new directors and reserves the

right to interview all candidates and to make the final selection of any new directors.

### ITEM 11. CONTROLS AND PROCEDURES.

- (a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (the "Exchange Act") (17 CFR 240.13a-15(b) or 240.15d-15(b)).
- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d)) that occurred during the registrant's last fiscal half-year (the registrant's second fiscal half-year in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

### ITEM 12. EXHIBITS.

File the exhibits listed below as part of this Form. Letter or number the exhibits in the sequence indicated.

(a)(1) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 2, to the extent that the registrant intends to satisfy the Item 2 requirements through filing of an exhibit: Not applicable because posted on registrant's website at [www.nuveen.com/etf](http://www.nuveen.com/etf).

(a)(2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the 1940 Act (17 CFR 270.30a-2(a)) in the exact form set forth below: Ex-99.CERT Attached hereto.

(a)(3) Any written solicitation to purchase securities under Rule 23c-1 under the 1940 Act (17 CFR 270.23c-1) sent or given during the period covered by the report by or on behalf of the registrant to 10 or more persons. Not applicable.

(b) If the report is filed under Section 13(a) or 15(d) of the Exchange Act, provide the certifications required by Rule 30a-2(b) under the 1940 Act (17 CFR 270.30a-2(b)); Rule 13a-14(b) or Rule 15d-14(b) under the Exchange Act (17 CFR 240.13a-14(b) or 240.15d-14(b)), and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) as an exhibit. A certification furnished pursuant to this paragraph will not be deemed "filed" for purposes of Section 18 of the Exchange Act (15 U.S.C. 78r), or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference. Ex-99.906 CERT attached hereto.
