Chairman's
Letter to Shareholders

Dear Shareholders,

Despite the global economy's ability to muddle through the many economic headwinds of 2012, investors continue to have good reasons to remain cautious. The European Central Bank's decisions to extend intermediate term financing to major European banks and to support sovereign debt markets have begun to show signs of a stabilized euro area financial market. The larger member states of the European Union (EU) are working diligently to strengthen the framework for a tighter financial and banking union and meaningful progress has been made by agreeing to centralize large bank regulation under the European Central Bank. However, economic conditions in the southern tier members are not improving and the pressures on their political leadership remain intense. The jury is out on whether the respective populations will support the continuing austerity measures that are needed to meet the EU fiscal targets.

In the U.S., the Fed remains committed to low interest rates into 2015 through its third program of Quantitative Easing (QE3). Inflation remains low but a growing number of economists are expressing concern about the economic distortions resulting from negative real interest rates. The highly partisan atmosphere in Congress led to a disappointingly modest solution for dealing with the end-of-year tax and spending issues. Early indications for the new Congressional term have not given much encouragement that the atmosphere for dealing with the sequestration legislation and the debt ceiling issues, let alone a more encompassing "grand bargain," will be any better than the last Congress. Over the longer term, there are some encouraging trends for the U.S. economy: house prices are beginning to recover, banks and corporations continue to strengthen their financial positions and incentives for capital investment in the U.S. by domestic and foreign corporations are increasing due to more competitive energy and labor costs.

During 2012 U.S. investors have benefited from strong returns in the domestic equity markets and solid returns in most fixed income markets. However, many of the macroeconomic risks of 2012 remain unresolved, including negotiating through the many U.S. fiscal issues, managing the risks of another year of abnormally low U.S. interest rates, sustaining the progress being made in the euro area and reducing the potential economic impact of geopolitical issues, particularly in the Middle East. In the face of these uncertainties, the experienced investment professionals at Nuveen Investments seek out investments that are enjoying positive economic conditions. At the same time they are always on the alert for risks in markets subject to excessive optimism or for opportunities in markets experiencing undue pessimism. Monitoring this process is a critical function for the Fund Board as it oversees your Nuveen Fund on your behalf.

As always, I encourage you to communicate with your financial consultant if you have any questions about your investment in a Nuveen Fund. On behalf of the other members of your Fund Board, we look forward to continuing to earn your trust in the months and years ahead.

Sincerely,

Robert P. Bremner
Chairman of the Board
January 22, 2013

Portfolio Managers' Comments

Nuveen Georgia Dividend Advantage Municipal Fund 2 (NKG)
 Nuveen Maryland Premium Income Municipal Fund (NMY)
 Nuveen Missouri Premium Income Municipal Fund (NOM)
 Nuveen North Carolina Premium Income Municipal Fund (NNC)
 Nuveen Virginia Premium Income Municipal Fund (NPV)

Portfolio managers Daniel Close, Chris Drahn and Tom Spalding discuss key investment strategies and the six-month performance of these five Funds. Dan assumed portfolio management responsibility for the Nuveen Georgia and North Carolina Funds in 2007. Chris took on portfolio management responsibility for the Nuveen Missouri Fund in 2011 and Tom assumed portfolio management responsibility for the Nuveen Maryland and Virginia Funds in 2011.

FUND REORGANIZATIONS

Effective before the opening of business on July 9, 2012, certain Georgia and North Carolina funds and on August 6, 2012, certain Maryland and Virginia funds (the Acquired Funds) were reorganized into four of the larger-state funds included in this report (the Acquiring Funds) as follows:

| Acquired Funds | Symbol | Acquiring Fund | Symbol |
|-----------------------------------|--------|-------------------------|--------|
| Georgia Fund | | | |
| Nuveen Georgia Premium Income | NPG | Nuveen Georgia Dividend | NKG |
| Municipal Fund | | Advantage | |

| Nuveen Maryland Dividend Advantage | NFM | Nuveen Maryland Premium | NMY |
| Municipal Fund | | Income | |
| Nuveen Maryland Dividend Advantage | NZR | Municipal Fund | |
| Municipal Fund 2 | | | |
| Nuveen Maryland Dividend Advantage | NWI | | |
| Municipal Fund 3 | | | |

Certain statements in this report are forward-looking statements. Discussions of specific investments are for illustration only and are not intended as recommendations of individual investments. The forward-looking statements and other views expressed herein are those of the portfolio managers as of the date of this report. Actual future results or occurrences may differ significantly from those anticipated in any forward-looking statements, and the views expressed herein are subject to change at any time, due to numerous market and other factors. The Funds disclaim any obligation to update publicly or revise any forward-looking statements or views expressed herein.

Ratings shown are the highest rating given by one of the following national rating agencies: Standard & Poor's Group, Moody's Investors Service, Inc., or Fitch, Inc. Credit ratings are subject to change. AAA, AA, A, and BBB are investment grade ratings; BB, B, CCC, CC, C and D are below investment grade ratings. Certain bonds backed by U.S. government or agency securities are regarded as having an implied rating equal to the rating of such securities. Holdings designated N/R are not rated by these national rating agencies.

| Advantage Municipal Fund | | | |
| Nuveen Virginia Dividend | NNB | | |
| Advantage Municipal Fund 2 | | | |

Upon the closing of the reorganizations, the Acquired Funds transferred their assets to the Acquiring Funds in exchange for common and preferred shares of the Acquiring Funds and the assumption by the Acquiring Funds of the liabilities of the Acquired Funds. The Acquired Funds were then liquidated, dissolved and terminated in accordance with their Declaration of Trust. Shareholders of the Acquired Funds became shareholders of the Acquiring Funds. Holders of common shares of the Acquired Funds received newly issued common shares of the Acquiring Funds, the aggregate net asset value of which was equal to the aggregate net asset value of the common shares of the Acquired Funds held immediately prior to the reorganizations (including for this purpose fractional Acquiring Funds shares to which shareholders would be entitled). Fractional shares were sold on the open market and shareholders received cash in lieu of such fractional shares. Holders of MuniFund Term Preferred (MTP) Shares of the Acquired Funds received on a one-for-one basis newly issued MTP Shares of the Acquiring Funds, in exchange for their MTP Shares of the Acquired Funds held immediately prior to the reorganizations.

What key strategies were used to manage these Funds during the six-month reporting period ended November 30, 2012?

During this reporting period, municipal bond prices generally rallied, as strong demand and tight supply combined to create favorable market conditions for municipal bonds. Although the total volume of tax-exempt supply improved over that of the same six-month period a year earlier, the issuance pattern remained light compared with long-term historical trends. This supply/demand dynamic served as a key driver of performance. Concurrent with rising prices, yields continued to decline across most maturities, especially at the longer end of the municipal yield curve, and the curve flattened. During this period, we saw an increased number of borrowers come to market seeking to take advantage of the low rate environment through refunding activity, with approximately 60% of new municipal paper issued by borrowers that were calling existing debt and refinancing at lower rates.

In this environment, we continued to take a bottom-up approach to discovering sectors that appeared undervalued as well as individual credits that had the potential to perform well over the long term. During this period, NKG, NMY, NNC and NOM found value to varying degrees in several areas of the market, including health care, higher education, electric utilities and appropriations bonds. NKG and NPV also purchased local general

obligation (GO) credits, while NNC added bonds in the transportation sector, including those issued by the North Carolina Turnpike Authority. NMY added lower rated bonds issued for Frederick Memorial Hospital and Maryland Institute College of Art. In NPV, we added to our positions in the transportation sector, including bonds issued by the Virginia Small Business Financing Authority for the Elizabeth River Crossing and credits issued for the new Chesapeake expressway. NOM added to its health care positions with purchases of continuing care retirement community (CCRC) bonds and hospital credits, including those issued by Missouri Health and Educational Facilities Authority for Mercy Health. In North Carolina, the health care sector was the predominant issuer during this time, offering attractive opportunities from a number of hospitals across the state, with credit quality of AA and A and intermediate and longer maturities. Among the health care names we purchased during this period was Wake Forest Baptist Medical Center.

Because the issuance of new municipal supply in the primary market continued to be limited, especially in Georgia, we looked to the secondary market as an additional source of attractive opportunities. During this period, the secondary market accounted for approximately 80% of NMY's purchases and 50% in NPV. When in-state paper was scarce, NKG and NMY also purchased territorial bonds to keep the Funds as fully invested as possible, including dedicated sales tax bonds issued by the Puerto Rico Sales Tax Financing Corporation (COFINA). These territorial bonds offered higher yields, added diversification and triple exemption (i.e., exemption from federal, state and local taxes). These bonds issued by the Puerto Rico Sales Tax Financing Corporation (COFINA) were downgraded by Moody's in July 2012. This downgrade was due mainly to the performance of Puerto Rico's economy and its impact on the projected growth of sales tax revenues, and not to any sector or structural issues. Each of the Funds held varying amounts of the COFINA bonds purchased at different times, with those purchased prior to and early in this period performing more positively than those purchased during the latter part of this period. Therefore, the impact on performance differed from Fund to Fund. As we continue to emphasize Puerto Rico's stronger credits, we view these bonds as long-term holdings and note that the commonwealth's recent enforcement of sales tax collections has improved significantly.

During this period, we also took advantage of short term market opportunities created by supply/demand dynamics in the municipal market. While demand for tax-exempt paper remained consistently strong throughout the period, supply fluctuated widely. We found that periods of substantial supply provided good short term buying opportunities not only because of the increased number of issues available, but also because some investors became more hesitant in their buying as supply grew, causing spreads to widen temporarily. At times when supply was more plentiful, we focused on anticipating cash flows from bond calls and maturing bonds and closely monitored opportunities for reinvestment.

During this period, we emphasized bonds with longer maturities. The purchase of longer maturity bonds helped to extend the Funds' durations, and enabled us to take advantage of more attractive yields at the longer end of the municipal yield curve. We also purchased lower rated bonds when we found attractive opportunities, as we believed these bonds continued to offer relative value. Our opportunities were somewhat constrained by the structure of bonds typically issued as part of refinancing deals, which tended to be characterized by shorter maturities and higher quality.

Cash for new purchases during this period was generated primarily by the proceeds from an increased number of bond calls resulting from the growth in refinancings. The elevated number of bond calls provided a meaningful source of liquidity, which drove

much of our activity during this period as we worked to redeploy these proceeds, as well as those from maturing bonds, to keep the Funds fully invested and support their income streams. Overall, selling was minimal because the bonds in our portfolios generally offered higher yields than those available in the current marketplace.

As of November 30, 2012, all of these Funds continued to use inverse floating rate securities. We employ inverse floaters for a variety of reasons, including duration management, income enhancement and total return enhancement.

How did the Funds perform during the six-month reporting period ended November 30, 2012?

Individual results for these Nuveen Funds, as well as relevant index and peer group information, are presented in the accompanying table.

Past performance is not predictive of future results. Current performance may be higher or lower than the data shown. Returns do not reflect the deduction of taxes that shareholders may have to pay on Fund distributions or upon the sale of Fund shares.

For additional information, see the Performance Overview page for your Fund in this report.

* Six-month returns are cumulative; all other returns are annualized.

** For definitions, refer to Glossary of Terms Used in this Report. Indexes and Lipper averages are not available for direct investment.

8 Nuveen Investments

For the six months ended November 30, 2012, the cumulative returns on common share net asset value (NAV) for all these Funds exceeded the returns for their respective state's S&P Municipal Bond Index as well as the national S&P Municipal Bond Index. For the same period, all these Funds underperformed the average return for the Lipper Other States Municipal Debt Funds Classification Average. Shareholders should note that the performance of the Lipper Other States classification represents the overall average of returns for funds from ten states with a wide variety of municipal market conditions, making direct comparisons less meaningful.

Key management factors that influenced the Funds' returns during this period included duration and yield curve positioning, credit exposure and sector allocation. In addition, the use of regulatory leverage was an important positive factor affecting the Funds' performance. Leverage is discussed in more detail later in this report.

In an environment of declining rates and flattening yield curve, municipal bonds with longer maturities generally outperformed those with shorter maturities during this period. Overall, credits at the longest end of the municipal yield curve posted the strongest returns, while bonds at the shortest end produced the weakest results. Duration and yield curve positioning was a net positive contributor to the performance of these Funds. These Funds benefited from being overweighted in the longer part of the yield curve that performed well. However, their performance was somewhat restrained by overweightings at the underperforming shortest end of the curve, due mostly to holdings of pre-refunded bonds. In addition, these Funds were helped by their allocations of long duration bonds, many of which had zero percent coupons, which generally outperformed the market during this period. This was especially true in NPV.

Credit exposure was another factor in the Funds' performance during these six months, as lower quality bonds generally outperformed higher quality bonds. This outperformance was due in part to the greater demand for lower rated bonds as investors looked for investment vehicles offering higher yields. As investors became more comfortable taking on additional investment risk, municipal credit spreads or the difference in yield spreads between highly rated municipal bonds and lower rated municipal bonds. As a result of this spread compression, the Funds generally benefited from their holdings of lower rated credits, with NKG, NMY, NOM and NPV having an overweight in bonds rated BBB. NKG, NOM and NNC were also helped by being underweighted in the underperforming AAA quality sector.

During this period, revenue bonds as a whole outperformed the general municipal market. Holdings that generally made positive contributions to the Funds' returns included health care (together with hospitals), education, water and sewer and certain transportation bonds. In particular, NKG, NMY and NPV were overweight in higher education, which was positive for performance, while NNC and NOM were positively impacted by their holdings in the water and sewer and transportation sectors. Tobacco credits backed by the 1998 master tobacco settlement agreement also performed extremely well, helped in part by their longer effective durations. During this period, NKG, NMY and NPV benefited from their holdings of tobacco credits as these bonds rallied, while NNC held a negligible amount of tobacco bonds.

In contrast, pre-refunded bonds, which are often backed by U.S. Treasury securities, were among the poorest performing market segments during this period. The underperformance of these bonds can be attributed primarily to their shorter effective maturities and higher credit quality. As of November 30, 2012, NMY and NPV had double-digit allocations of pre-refunded bonds, NNC had a heavier weighting in pre-refunded bonds than NKG, which detracted from its performance for the period. We continued to hold these pre-refunded bonds in our portfolios due to the higher yields they provided. In addition, GO bonds and housing credits lagged the performance of the general municipal market for this period.

Fund Leverage and
Other Information

IMPACT OF THE FUNDS' LEVERAGE STRATEGIES ON PERFORMANCE

One important factor impacting the returns of all these Funds relative to the comparative indexes was the Funds' use of leverage. The Funds use leverage because their managers believe that, over time, leveraging provides opportunities for additional income and total return for common shareholders. However, use of leverage also can expose common shareholders to additional volatility. For example, as the prices of securities held by a fund decline, the negative impact of these valuation changes on common share net asset value and common shareholder total return is magnified by the use of leverage. Conversely, leverage may enhance common share returns during periods when the prices of securities held by a fund generally are arising. Leverage made a positive contribution to the performance of these Funds over this reporting period.

THE FUNDS' REGULATORY LEVERAGE

As of November 30, 2012, each of the Funds has issued and outstanding MTP Shares as shown in the accompanying table.

| Fund | Series | Shares Issued At Liquidation Value | Annual Interest Rate | NYSE Ticker |

12 Nuveen Investments

RISK CONSIDERATIONS

Fund shares are not guaranteed or endorsed by any bank or other insured depository institution, and are not federally insured by the Federal Deposit Insurance Corporation. Past performance is no guarantee of future results. Fund common shares are subject to a variety of risks, including:

Investment and Market Risk. An investment in common shares is subject to investment risk, including the possible loss of the entire principal amount that you invest. Your investment in common shares represents an indirect investment in the municipal securities owned by the Fund, which generally trade in the over-the-counter markets. Your common shares at any point in time may be worth less than your original investment, even after taking into account the reinvestment of Fund dividends and distributions.

Tax Risk. The tax treatment of Fund distributions may be affected by new IRS interpretations of the Internal Revenue Code and future changes in tax laws and regulations.

Issuer Credit Risk. This is the risk that a security in a Fund's portfolio will fail to make dividend or interest payments when due.

Interest Rate Risk. Fixed-income securities such as bonds, preferred, convertible and other debt securities will decline in value if market interest rates rise.

Reinvestment Risk. If market interest rates decline, income earned from a Fund's portfolio may be reinvested at rates below that of the original bond that generated the income.

Call Risk or Prepayment Risk. Issuers may exercise their option to prepay principal earlier than scheduled, forcing a Fund to reinvest in lower-yielding securities.

Inverse Floater Risk. The Funds may invest in inverse floaters. Due to their leveraged nature, these investments can greatly increase a Fund's exposure to interest rate risk and credit risk. In addition, investments in inverse floaters involve the risk that the Fund could lose more than its original principal investment.

Leverage Risk. Each Fund's use of leverage creates the possibility of higher volatility for the Fund's per share NAV, market price, distributions and returns. There is no assurance that a Fund's leveraging strategy will be successful.

Common Share Dividend
and Price Information

DIVIDEND INFORMATION

During the six-month reporting period ended November 30, 2012, NKG, NMY, NNC and NPV received one monthly dividend increase, while NOM remained stable.

The Funds in this report seek to pay stable dividends at rates that reflect each Fund's past results and projected future performance. During certain periods, each Fund may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in dividends, it holds the excess in reserve as undistributed net investment income (UNII) as part of the Fund's NAV. Conversely, if a Fund has cumulatively paid dividends in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Fund's NAV. Each Fund will, over time, pay all of its net investment income as dividends to shareholders. As of November 30, 2012, all of these Funds had positive UNII balances, based upon our best estimate, for tax purposes. NKG, NMY, NOM and NPV had positive UNII balances while NNC had a negative UNII balance for financial reporting purposes.

COMMON SHARE REPURCHASES AND PRICE INFORMATION

During November 2012, the Nuveen Funds Board of Directors/Trustees reauthorized the Funds' open-market share repurchase program allowing each Fund to repurchase an aggregate of up to approximately 10% of its outstanding common shares. Since the inception of the Funds' repurchase programs, the Funds have not repurchased any of their outstanding common shares.

As of November 30, 2012, and during the six-month reporting period, the Funds' common share prices were trading at (+) premiums and/or (-) discounts to their common share NAVs as shown in the accompanying table.

| Fund | 11/30/12 (+)Premium/(-)Discount | Six-Month Average (+)Premium/(-)Discount |
|------|------------------------------------|---|
| NKG | (+)0.07% | (-)0.29% |
| NMY | (-)0.31% | (-)0.79% |
| NOM | (+)15.00% | (+)17.96% |
| NNC | (+)0.06% | (+)0.25% |
| NPV | (+)2.86% | (+)4.98% |

Refer to the Glossary of Terms Used in this Report for further definition of the terms used within this Fund's Performance Overview page.

- 1 Taxable-Equivalent Yield represents the yield that must be earned on a fully taxable investment in order to equal the yield of the Fund on an after-tax basis. It is based on a combined federal and state income tax rate of 32.3%. When comparing this Fund to investments that generate qualified dividend income, the Taxable-Equivalent Yield is lower.
- 2 Ratings shown are the highest rating given by one of the following national rating agencies: Standard & Poor's Group, Moody's Investors Service, Inc. or Fitch, Inc. Credit ratings are subject to change. AAA, AA, A and BBB are investment grade ratings; BB, B, CCC, CC, C and D are below investment grade ratings. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities. Holdings designated N/R are not rated by these national rating agencies.
- 3 Holdings are subject to change.

| 22,440 | Total Water and Sewer | | | 25,796,957 |
| \$267,310 | Total Investments (cost \$204,334,229) – 140.0% | | | 224,877,334 |
| | Floating Rate Obligations – (2.0)% | | | (3,245,000) |
| | MuniFund Term Preferred Shares, at Liquidation Value – (46.7)% (5) | | | (74,945,000) |
| | Other Assets Less Liabilities – 8.7% | | | 13,905,314 |
| | Net Assets Applicable to Common Shares – 100% | | | \$ 160,592,648 |

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Optional Call Provisions: Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings: Using the highest of Standard & Poor’s Group (“Standard & Poor’s”), Moody’s Investors Service, Inc. (“Moody’s”) or Fitch, Inc. (“Fitch”) rating. Ratings below BBB by Standard & Poor’s, Baa by Moody’s or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.
- (5) MuniFund Term Preferred Shares, at Liquidation Value as a percentage of Total Investments is 33.3%
- N/R Not rated.
- (IF) Inverse floating rate investment.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Footnote 1 – General Information and Significant Accounting Policies, Inverse Floating Rate Securities for more information.

See accompanying notes to financial statements.

|--|----------------|
| MuniFund Term Preferred Shares, at Liquidation Value – (43.1)% (7) | |
| Other Assets Less Liabilities – 3.8% | 14,790,531 |
| Net Assets Applicable to Common Shares – 100% | \$ 385,572,072 |

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
 - (2) Optional Call Provisions: Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
 - (3) Ratings: Using the highest of Standard & Poor’s Group (“Standard & Poor’s”), Moody’s Investors Service, Inc. (“Moody’s”) or Fitch, Inc. (“Fitch”) rating. Ratings below BBB by Standard & Poor’s, Baa by Moody’s or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
 - (4) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in inverse floating rate transactions.
 - (5) At or subsequent to the end of the reporting period, this security is non-income producing. Non-income producing security, in the case of a bond, generally denotes that the issuer has (1) defaulted on the payment of principal or interest, (2) is under the protection of the Federal Bankruptcy Court or (3) the Fund’s Adviser has concluded that the issue is not likely to meet its future interest payment obligations and has directed the Fund’s custodian to cease accruing additional income on the Fund’s records.
 - (6) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.
 - (7) MuniFund Term Preferred Shares, at Liquidation Value as a percentage of Total Investments is 29.7%
- N/R Not rated.
- WI/DD Investment, or portion of investment, purchased on a when-issued or delayed delivery basis.
- (ETM) Escrowed to maturity.
- (IF) Inverse floating rate investment.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Footnote 1 – General Information and Significant Accounting Policies, Inverse Floating Rate Securities for more information.

| | Net Assets Applicable to Common Shares – 100% | | | \$ 288,109,202 |

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Optional Call Provisions: Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings: Using the highest of Standard & Poor’s Group (“Standard & Poor’s”), Moody’s Investors Service, Inc. (“Moody’s”) or Fitch, Inc. (“Fitch”) rating. Ratings below BBB by Standard & Poor’s, Baa by Moody’s or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (4) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in inverse floating rate transactions.

- (5) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Certain bonds backed by U.S. Government or agency securities are regarded as having an implied rating equal to the rating of such securities.
- (6) MuniFund Term Preferred Shares, at Liquidation Value as a percentage of Total Investments is 30.4%
- N/R Not rated.
- (ETM) Escrowed to maturity.
- (IF) Inverse floating rate investment.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Footnote 1 – General Information and Significant Accounting Policies, Inverse Floating Rate Securities for more information.

(a) The amounts shown are based on Common share equivalents.

(b) Total Return Based on Market Value is the combination of changes in the market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending market price. The actual reinvestment for the last dividend declared in the period may take place over several days, and in some instances may not be based on the market price, so the actual reinvestment price may be different from the price used in the calculation. Total returns are not annualized.

Total Return Based on Common Share Net Asset Value is the combination of changes in Common share net asset value, reinvested dividend income at net asset value and reinvested capital gains distributions at net asset value, if any. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending net asset value. The actual reinvest price for the last dividend

declared in the period may often be based on the Fund's market price (and not its net asset value), and therefore may be different from the price used in the calculation. Total returns are not annualized.

1. General Information and Significant Accounting Policies

General Information

The state funds covered in this report and their corresponding Common share stock exchange symbols are Nuveen Georgia Dividend Advantage Municipal Fund 2 (NKG), Nuveen Maryland Premium Income Municipal Fund (NMY), Nuveen Missouri Premium Income Municipal Fund (NOM), Nuveen North Carolina Premium Income Municipal Fund (NNC) and Nuveen Virginia Premium Income Municipal Fund (NPV) (each a “Fund” and collectively, the “Funds”). Common shares of Maryland Premium Income (NMY) and Virginia Premium Income (NPV) are traded on the New York Stock Exchange (“NYSE”) while common shares of Georgia Dividend Advantage 2 (NKG), North Carolina Premium Income (NNC) and Missouri Premium Income (NOM) are traded on the NYSE MKT. The Funds are registered under the Investment Company Act of 1940, as amended, as diversified, closed-end registered investment companies.

On December 31, 2012, the Funds’ investment adviser converted from a Delaware corporation to a Delaware limited liability company. As a result, Nuveen Fund Advisers, Inc., a wholly-owned subsidiary of Nuveen Investments, Inc. (“Nuveen”), changed its name to Nuveen Fund Advisers, LLC (the “Adviser”). There were no changes to the identities or roles of any personnel as a result of the change.

Each Fund seeks to provide current income exempt from both regular federal and designated state income taxes by investing primarily in a portfolio of municipal obligations issued by state and local government authorities within a single state or certain U.S. territories.

Fund Reorganizations

Effective before the opening of business on July 9, 2012, certain Georgia and North Carolina funds and effective before the opening of business on August 6, 2012, certain Maryland and Virginia funds (the “Acquired Funds”) were reorganized in four of the larger-state funds included in this report (the “Acquiring Funds”) as follows:

| Acquired Funds | Acquiring Funds |
|---|-------------------------------------|
| Georgia Funds | |
| Nuveen Georgia Premium Income Municipal Fund (NPG) (“Georgia Premium Income (NPG)”) | Georgia Dividend Advantage 2 (NKG) |
| Nuveen Georgia Dividend Advantage Municipal Fund (NZX) (“Georgia Dividend Advantage (NZX)”) | |
| Maryland Funds | |
| Nuveen Maryland Dividend Advantage Municipal Fund (NFM) (“Maryland Dividend Advantage (NFM)”) | Maryland Premium Income (NMY) |
| Nuveen Maryland Dividend Advantage Municipal Fund 2 (NZR) (“Maryland Dividend Advantage 2 (NZR)”) | |
| Nuveen Maryland Dividend Advantage Municipal Fund 3 (NWI) (“Maryland Dividend Advantage 3 (NWI)”) | |
| North Carolina Funds | |
| Nuveen North Carolina Dividend Advantage Municipal Fund (NRB) (“North Carolina Dividend Advantage (NRB)”) | North Carolina Premium Income (NNC) |

Nuveen North Carolina Dividend Advantage Municipal Fund 2 (NNO) (“North Carolina Dividend Advantage 2 (NNO)”)

Nuveen North Carolina Dividend Advantage Municipal Fund 3 (NII) (“North Carolina Dividend Advantage 3 (NII)”)

Virginia Funds

Nuveen Virginia Dividend Advantage Municipal Fund (NGB) (“Virginia Dividend Advantage (NGB)”)

Virginia Premium Income (NPV)

Nuveen Virginia Dividend Advantage Municipal Fund 2 (NNB) (“Virginia Dividend Advantage 2 (NNB)”)

The reorganizations of the Georgia, Maryland, North Carolina and Virginia Funds were approved by the shareholders of the Acquired Funds at a special meeting on May 15, 2012, July 18, 2012, May 14, 2012 and June 22, 2012, respectively.

Upon the closing of each Fund’s reorganization (each a “Reorganization” and collectively, the “Reorganizations”), the Acquired Funds transferred their assets to the Acquiring Funds in exchange for common and preferred shares of the Acquiring Funds and the assumption by the Acquiring Funds of the liabilities of the Acquired Funds. The Acquired Funds were then liquidated, dissolved and terminated in accordance with their Declaration of Trust. Shareholders of the Acquired Funds became shareholders of the Acquiring Funds. Holders of common shares of the Acquired Funds received newly issued common shares of the Acquiring Funds, the aggregate net asset value of which was equal to the aggregate net asset value of the common shares of the Acquired Funds held immediately prior to the Reorganizations (including for this purpose fractional Acquiring Funds shares to which shareholders would be entitled). Fractional shares were sold on the open market and shareholders received cash in lieu of such fractional shares. Holders of MuniFund Term Preferred (“MTP”) Shares of the Acquired Funds received on a one-for-one basis newly issued MTP Shares of the Acquiring Funds, in exchange for their MTP Shares of the Acquired Funds held immediately prior to the Reorganizations. Details of each state’s Reorganizations are further described in the MuniFund Term Preferred Shares section of this footnote and Footnote 8 – Fund Reorganizations.

Notes to
Financial Statements (Unaudited) (continued)

Significant Accounting Policies

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”).

Investment Valuation

Prices of municipal bonds are provided by a pricing service approved by the Funds’ Board of Trustees. These securities are generally classified as Level 2 for fair value measurement purposes. The pricing service establishes a security’s fair value using methods that may include consideration of the following: yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor’s credit characteristics considered relevant. In pricing certain securities, particularly less liquid and lower quality securities, the pricing service may consider information about a security, its issuer, or market activity, provided by the Advisor. These securities are generally classified as Level 2 or Level 3 depending on the priority of the significant inputs.

Certain securities may not be able to be priced by the pre-established pricing methods as described above. Such securities may be valued by the Funds’ Board of Trustees or its designee at fair value. These securities generally include, but are not limited to, restricted securities (securities which may not be publicly sold without registration under the Securities Act of 1933, as amended) for which a pricing service is unable to provide a market price; securities whose trading has been formally suspended; debt securities that have gone into default and for which there is no current market quotation; a security whose market price is not available from a pre-established pricing source; a security with respect to which an event has occurred that is likely to materially affect the value of the security after the market has closed but before the calculation of a Fund’s net asset value (as may be the case in non-U.S. markets on which the security is primarily traded) or make it difficult or impossible to obtain a reliable market quotation; and a security whose price, as provided by the pricing service, is not deemed to reflect the security’s fair value. As a general principle, the fair value of a security would appear to be the amount that the owner might reasonably expect to receive for it in a current sale. A variety of factors may be considered in determining the fair value of these securities, which may include consideration of the following: yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor’s credit characteristics considered relevant. These securities are generally classified as Level 2 or Level 3 depending on the priority of the significant inputs. Regardless of the method employed to value a particular security, all valuations are subject to review by the Funds’ Board of Trustees or its designee.

Refer to Footnote 2 – Fair Value Measurements for further details on the leveling of securities held by the Funds as of the end of the reporting period.

Investment Transactions

Investment transactions are recorded on a trade date basis. Realized gains and losses from transactions are determined on the specific identification method, which is the same basis used for federal income tax purposes. Investments purchased on a when-issued/delayed delivery basis may have extended settlement periods. Any investments so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to earmark securities in the Funds’ portfolios with a current value at least equal to the amount of the when-issued/delayed delivery purchase commitments. At November 30, 2012, Maryland Premium Income (NMY), Missouri Premium Income (NOM) and North Carolina Premium Income (NNC) had outstanding delayed delivery purchase commitments of \$3,522,961, \$768,495 and \$12,416,898, respectively. There were no such outstanding purchase commitments in any

of the other Funds.

Investment Income

Investment income, which reflects the amortization of premiums and includes accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Investment income also reflects paydown gains and losses, if any.

Professional Fees

Professional fees presented on the Statement of Operations consist of legal fees incurred in the normal course of operations, audit fees, tax consulting fees and, in some cases, workout expenditures. Workout expenditures are incurred in an attempt to protect or enhance an investment, or to pursue other claims or legal actions on behalf of Fund shareholders. Legal fee refund presented on the Statement of Operations reflects a refund of workout expenditures paid in a prior reporting period, when applicable.

Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute substantially all of its net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions that will enable interest from municipal securities, which is exempt from regular federal and designated state income taxes, to retain such tax-exempt status when distributed to shareholders of the Funds. Net realized capital gains and ordinary income distributions paid by the Funds are subject to federal taxation.

For all open tax years and all major taxing jurisdictions, management of the Funds has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. Open tax years are those that are open for examination by taxing authorities (i.e., generally

the last four tax year ends and the interim tax period since then). Furthermore, management of the Funds is also not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

Dividends and Distributions to Common Shareholders

Dividends from net investment income are declared monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders at least annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to Common shareholders of net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. GAAP.

Auction Rate Preferred Shares

Each Fund is authorized to issue Auction Rate Preferred Shares (“ARPS”). As of May 31, 2011, the Funds redeemed all of their outstanding ARPS at liquidation value.

MuniFund Term Preferred Shares

The Funds have issued and outstanding MTP Shares, with a \$10 stated (“par”) value per share. Proceeds from the issuance of MTP Shares, net of offering expenses, were used to redeem all, or a portion of, the remainder of each Fund’s outstanding ARPS in previous fiscal periods. Each Fund’s MTP Shares may be issued in one or more Series and trade on the NYSE. Dividends on MTP Shares, which are recognized as interest expense for financial reporting purposes, are paid monthly at a fixed annual rate, subject to adjustments in certain circumstances.

In connection with Georgia Dividend Advantage 2’s (NKG), Maryland Premium Income’s (NMY), North Carolina Premium Income’s (NNC) and Virginia Premium Income’s (NPV) Reorganizations, holders of MTP Shares of the Acquired Funds received on a one-for-one basis newly issued MTP Shares of the Acquiring Funds, in exchange for MTP Shares of the Acquired Funds held immediately prior to the Reorganizations.

Prior to the closing of the Reorganizations, the Acquired Funds’ outstanding MTP Shares and annual interest rate by NYSE “ticker” symbol were as follows:

| | Series | NYSE Ticker | Shares Outstanding | Shares at \$10 Per Share Liquidation Value | Annual Interest Rate |

* MTP Shares issued in connection with the Reorganizations.

Each Fund is obligated to redeem its MTP Shares by the date as specified in its offering document (“Term Redemption Date”), unless earlier redeemed or repurchased by the Fund. MTP Shares are subject to optional and mandatory redemption in certain circumstances. MTP Shares will be subject to redemption at the option of each Fund (“Optional Redemption Date”), subject to a payment of premium for one year following the Optional Redemption Date (“Premium

Expiration Date”), and at par thereafter. MTP Shares also will be subject to redemption, at the option of each Fund, at par in the event of certain changes in the credit rating of the MTP Shares. Each Fund may be obligated to redeem certain of the MTP Shares if the Fund fails to maintain certain asset coverage and leverage ratio requirements and such failures are not cured by the applicable cure date. The redemption price per share is equal to the sum of the liquidation value per share plus any accumulated but unpaid dividends. The Term Redemption Date, Optional Redemption Date and Premium Expiration Date for each Fund’s series of MTP Shares by NYSE ticker symbol are as follows:

| Series | NYSE Ticker | Term Redemption Date | Optional Redemption Date | Premium Expiration Date |

| | 2014-1 * | NPV PRE | December 1, 2014 | December 1, 2011 | November 30, 2012 |

* MTP Shares issued in connection with the Reorganizations.

The aggregate average liquidation value for all series of each Fund's MTP Shares outstanding during the six months ended November 30, 2012, was as follows:

| | Georgia Dividend Advantage 2 (NKG) | Maryland Premium Income (NMY) | Missouri Premium Income (NOM) | North Carolina Premium Income (NNC) | Virginia Premium Income (NPV) |
|---|------------------------------------|-------------------------------|-------------------------------|-------------------------------------|-------------------------------|
| Average liquidation value of MTP Shares outstanding | \$ 66,082,486 | \$ 133,125,607 | \$ 17,880,000 | \$ 109,281,038 | \$ 103,604,721 |

For financial reporting purposes only, the liquidation value of MTP Shares is recorded as a liability and recognized as "MuniFund Term Preferred (MTP) Shares, at liquidation value" on the Statement of Assets and Liabilities. Unpaid dividends on MTP Shares are recognized as a component of "Interest payable" on the Statement of Assets and Liabilities. Costs incurred by the Funds in connection with their offerings of MTP Shares were recorded as a deferred charge, which are amortized over the life of the shares and are recognized as a component of "Deferred offering costs" on the Statement of Assets and Liabilities. Dividends paid on MTP Shares and each Fund's amortized deferred charges are recognized as a component of "Interest expense and amortization of offering costs" on the Statement of Operations.

Inverse Floating Rate Securities

Each Fund is authorized to invest in inverse floating rate securities. An inverse floating rate security is created by depositing a municipal bond, typically with a fixed interest rate, into a special purpose trust created by a broker-dealer. In turn, this trust (a) issues floating rate certificates, in face amounts equal to some fraction of the deposited bond's par amount or market value, that typically pay short-term tax-exempt interest rates to third parties, and (b) issues to a long-term investor (such as one of the Funds) an inverse floating rate certificate (sometimes referred to as an "inverse floater") that represents all remaining or residual interest in the trust. The income received by the inverse floater holder varies inversely with the short-term rate paid to the floating rate certificates' holders, and in most circumstances the inverse floater holder bears substantially all of the underlying bond's downside investment risk and also benefits disproportionately from any potential appreciation of the underlying bond's value. The price of an inverse floating rate security will be more volatile than that of the underlying bond because the interest rate is dependent on not only the fixed coupon rate of the underlying bond but also on the short-term interest paid on the floating rate certificates, and because the inverse floating rate security essentially bears the risk of loss of the greater face value of the underlying bond.

A Fund may purchase an inverse floating rate security in a secondary market transaction without first owning the underlying bond (referred to as an "externally-deposited inverse floater"), or instead by first selling a fixed-rate bond to a broker-dealer for deposit into the special purpose trust and receiving in turn the residual interest in the trust (referred to as a "self-deposited inverse floater"). The inverse floater held by a Fund gives the Fund the right (a) to cause the holders of the floating rate certificates to tender their notes at par, and (b) to have the broker transfer the fixed-rate bond held by the trust to the Fund, thereby collapsing the trust. An investment in an externally-deposited inverse floater is identified in the Portfolio of Investments as "(IF) – Inverse floating rate investment." An investment in a self-deposited inverse floater is accounted for as a financing transaction. In such instances, a fixed-rate bond deposited into a special purpose trust is identified in the Portfolio of Investments as "(UB) – Underlying bond of an inverse floating rate trust reflected as a financing transaction," with the Fund accounting for the short-term floating rate certificates issued by the trust as "Floating rate obligations" on the Statement of Assets and Liabilities. In addition, the Fund reflects in "Investment Income" the entire earnings of the underlying bond and recognizes the related interest paid to the holders of the short-term floating rate certificates as a component of "Interest expense and amortization of offering costs" on the Statement of Operations.

During the six months ended November 30, 2012, each Fund invested in externally-deposited inverse floaters and/or self-deposited inverse floaters.

Notes to
Financial Statements (Unaudited) (continued)

Each Fund may also enter into shortfall and forbearance agreements (sometimes referred to as a “recourse trust” or “credit recovery swap”) (such agreements referred to herein as “Recourse Trusts”) with a broker-dealer by which a Fund agrees to reimburse the broker-dealer, in certain circumstances, for the difference between the liquidation value of the fixed-rate bond held by the trust and the liquidation value of the floating rate certificates issued by the trust plus any shortfalls in interest cash flows. Under these agreements, a Fund’s potential exposure to losses related to or on inverse floaters may increase beyond the value of a Fund’s inverse floater investments as a Fund may potentially be liable to fulfill all amounts owed to holders of the floating rate certificates. At period end, any such shortfall is recognized as “Unrealized depreciation on Recourse Trusts” on the Statement of Assets and Liabilities.

As of November 30, 2012, Virginia Premium Income (NPV) was invested in externally-deposited Recourse Trusts. The Fund’s maximum exposure to the floating rate obligations issued by externally-deposited recourse trusts was \$13,330,000. As of November 30, 2012, none of the other Funds were invested in externally-deposited Recourse Trusts.

The average floating rate obligations outstanding and average annual interest rate and fees related to self-deposited inverse floaters during the six months ended November 30, 2012, were as follows:

| | Georgia Dividend Advantage 2 (NKG) | Maryland Premium Income (NMY) | Missouri Premium Income (NOM) | North Carolina Premium Income (NNC) | Virginia Premium Income (NPV) |
|---|--|--|--|---|--|
| Average floating rate obligations outstanding | \$ 3,245,000 | \$ 21,995,000 | \$ 2,225,000 | \$ 23,715,000 | \$ 9,250,000 |
| Average annual interest rate and fees | 0.54% | 0.82% | 0.35% | 0.67% | 0.45% |

Derivative Financial Instruments

Each Fund is authorized to invest in certain derivative instruments, including foreign currency forwards, futures, options and swap contracts. Although the Funds are authorized to invest in such financial instruments, and may do so in the future, they did not make any such investments during the six months ended November 30, 2012.

Market and Counterparty Credit Risk

In the normal course of business each Fund may invest in financial instruments and enter into financial transactions where risk of potential loss exists due to changes in the market (market risk) or failure of the other party to the transaction to perform (counterparty credit risk). The potential loss could exceed the value of the financial assets recorded on the financial statements. Financial assets, which potentially expose each Fund to counterparty credit risk, consist principally of cash due from counterparties on forward, option and swap transactions, when applicable. The extent of each Fund’s exposure to counterparty credit risk in respect to these financial assets approximates their carrying value as recorded on the Statement of Assets and Liabilities. Futures contracts, when applicable, expose a Fund to minimal counterparty credit risk as they are exchange traded and the exchange’s clearinghouse, which is counterparty to all exchange traded futures, guarantees the futures contracts against default.

Each Fund helps manage counterparty credit risk by entering into agreements only with counterparties the Adviser believes have the financial resources to honor their obligations and by having the Adviser monitor the financial

stability of the counterparties. Additionally, counterparties may be required to pledge collateral daily (based on the daily valuation of the financial asset) on behalf of each Fund with a value approximately equal to the amount of any unrealized gain above a pre-determined threshold. Reciprocally, when each Fund has an unrealized loss, the Funds have instructed the custodian to pledge assets of the Funds as collateral with a value approximately equal to the amount of the unrealized loss above a pre-determined threshold. Collateral pledges are monitored and subsequently adjusted if and when the valuations fluctuate, either up or down, by at least the pre-determined threshold amount.

Zero Coupon Securities

Each Fund is authorized to invest in zero coupon securities. A zero coupon security does not pay a regular interest coupon to its holders during the life of the security. Income to the holder of the security comes from accretion of the difference between the original purchase price of the security at issuance and the par value of the security at maturity and is effectively paid at maturity. The market prices of zero coupon securities generally are more volatile than the market prices of securities that pay interest periodically.

Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by net credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments. Credits for cash balances may be offset by charges for any days on which a Fund overdraws its account at the custodian bank.

Indemnifications

Under the Funds' organizational documents, their officers and trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

2. Fair Value Measurements

Fair value is defined as the price that the Funds would receive upon selling an investment or transferring a liability in an orderly transaction to an independent buyer in the principal or most advantageous market for the investment. A three-tier hierarchy is used to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability. Observable inputs are based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability. Unobservable inputs are based on the best information available in the circumstances. The following is a summary of the three-tiered hierarchy of valuation input levels.

Level 1 – Inputs are unadjusted and prices are determined using quoted prices in active markets for identical securities.

Level 2 – Prices are determined using other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 – Prices are determined using significant unobservable inputs (including management's assumptions in determining the fair value of investments).

The inputs or methodologies used for valuing securities are not an indication of the risks associated with investing in those securities. The following is a summary of each Fund's fair value measurements as of the end of the reporting period:

| | | | | |
|-------------------------------------|---------|-----------------|---------|-----------------|
| Georgia Dividend Advantage 2 (NKG) | Level 1 | Level 2 | Level 3 | Total |
| Long-Term Investments*: | | | | |
| Municipal Bonds | \$ | —\$ 224,877,334 | \$ | —\$ 224,877,334 |

* Refer to the Fund's Portfolio of Investments for industry classifications.

The Nuveen funds' Board of Directors/Trustees is responsible for the valuation process and has delegated the oversight of the daily valuation process to the Adviser's Valuation Committee. The Valuation Committee, pursuant to the valuation policies and procedures adopted by the Board of Directors/Trustees, is responsible for making fair value determinations, evaluating the effectiveness of the funds' pricing policies, and reporting to the Board of Directors/Trustees. The Valuation Committee is aided in its efforts by the Adviser's dedicated Securities Valuation Team, which is responsible for administering the daily valuation process and applying fair value methodologies as approved by the Valuation Committee. When determining the reliability of independent pricing services for investments owned by the funds, the Valuation Committee, among other things, conducts due diligence reviews of the pricing services and monitors the quality of security prices received through various testing reports conducted by the Securities Valuation Team.

The Valuation Committee will consider pricing methodologies it deems relevant and appropriate when making fair value determinations. Examples of possible methodologies include, but are not limited to, multiple of earnings; discount from market of a similar freely traded security; discounted cash-flow analysis; book value or a multiple thereof; risk premium/yield analysis; yield to maturity; and/or fundamental investment analysis. The Valuation Committee will also consider factors it deems relevant and appropriate in light of the facts and circumstances. Examples of possible factors include, but are not limited to, the type of security; the issuer's financial statements; the purchase price of the security; the discount from market value of unrestricted securities of the same class at the time of purchase; analysts' research and observations from financial institutions; information regarding any transactions or offers with respect to the security; the existence of merger proposals or tender offers affecting the security; the price and extent of public trading in similar securities of the issuer or comparable companies; and the existence of a shelf registration for restricted securities.

Notes to
Financial Statements (Unaudited) (continued)

For each portfolio security that has been fair valued pursuant to the policies adopted by the Board of Directors/Trustees, the fair value price is compared against the last available and next available market quotations. The Valuation Committee reviews the results of such testing and fair valuation occurrences are reported to the Board of Directors/Trustees.

3. Derivative Instruments and Hedging Activities

The Funds record derivative instruments at fair value, with changes in fair value recognized on the Statement of Operations, when applicable. Even though the Funds' investments in derivatives may represent economic hedges, they are not considered to be hedge transactions for financial reporting purposes. The Funds did not invest in derivative instruments during the six months ended November 30, 2012.

4. Fund Shares

Common Shares

Since the inception of the Funds' repurchase program, the Funds have not repurchased any of their outstanding Common shares.

Transactions in Common shares were as follows:

| | Georgia Dividend Advantage 2 (NKG) Six Months | | Maryland Premium Income (NMY) Six Months | | Missouri Premium Income (NOM) Six Months | |
|---|---|--------------------------|---|--------------------------|---|--------------------------|
| | Year Ended 11/30/12 | Year Ended 5/31/12 | Year Ended 11/30/12 | Year Ended 5/31/12 | Year Ended 11/30/12 | Year Ended 5/31/12 |
| Common shares: | | | | | | |

5. Investment Transactions

Purchases and sales (including maturities but excluding short-term investments, where applicable) during the six months ended November 30, 2012, were as follows:

| | Georgia Dividend Advantage 2 (NKG) | Maryland Premium Income (NMY) | Missouri Premium Income (NOM) | North Carolina Premium Income (NNC) | Virginia Premium Income (NPV) |
|----------------------|--|--|--|---|--|
| Purchases | \$ 14,203,764 | \$ 48,593,115 | \$ 1,580,078 | \$ 41,460,121 | \$ 38,770,334 |
| Sales and maturities | 18,605,000 | 49,971,475 | 1,830,000 | 29,090,450 | 36,889,500 |

6. Income Tax Information

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to timing differences in recognizing taxable market discount, timing differences in recognizing certain gains and losses on investment transactions and the treatment of investments in inverse floating rate securities reflected as financing transactions, if any. To the extent that differences arise that are permanent in nature, such amounts are reclassified within the capital accounts as detailed below. Temporary differences do not require reclassification. Temporary and permanent differences do not impact the net asset values of the Funds.

At November 30, 2012, the cost and unrealized appreciation (depreciation) of investments, as determined on a federal income tax basis, were as follows:

| | Georgia Dividend Advantage 2 (NKG) | Maryland Premium Income (NMY) | Missouri Premium Income (NOM) | North Carolina Premium Income (NNC) | Virginia Premium Income (NPV) |
|--|---|--|--|---|--|
| Cost of investments | \$ 201,022,998 | \$ 492,325,665 | \$ 47,808,723 | \$ 349,767,656 | \$ 375,687,711 |
| Gross unrealized: | | | | | |
| Appreciation | \$ 20,628,958 | \$ 47,243,009 | \$ 4,133,955 | \$ 34,943,138 | \$ 38,107,175 |
| Depreciation | (19,043) | (2,642,983) | (87,751) | (16,913) | (3,863,760) |
| Net unrealized appreciation (depreciation) of investments | \$ 20,609,915 | \$ 44,600,026 | \$ 4,046,204 | \$ 34,926,225 | \$ 34,243,415 |

Edgar Filing: NUVEEN GEORGIA DIVIDEND ADVANTAGE MUNICIPAL FUND 2 - Form N-CSRS

Permanent differences, primarily due to federal taxes paid, taxable market discount, nondeductible offering costs and nondeductible reorganization costs, resulted in reclassifications among the Funds' components of Common share net assets at May 31, 2012, the Funds' last tax year end, as follows:

| | Georgia Dividend Advantage 2 (NKG) | Maryland Premium Income (NMY) | Missouri Premium Income (NOM) | North Carolina Premium Income (NNC) | Virginia Premium Income (NPV) |
|--|--|--|--|---|--|
| Paid-in-surplus | \$ (266,952) | \$ (692,796) | \$ (118,412) | \$ (619,856) | \$ (681,182) |
| Undistributed (Over-distribution of) net investment income | 266,920 | 691,581 | 117,952 | 618,660 | 705,251 |
| Accumulated net realized gain (loss) | 32 | 1,215 | 460 | 1,196 | (24,069) |

Nuveen Investments 81

Notes to
Financial Statements (Unaudited) (continued)

The tax components of undistributed net tax-exempt income, net ordinary income and net long-term capital gains at May 31, 2012, the Funds' last tax year end, were as follows:

| | Georgia Dividend Advantage 2 (NKG) | Maryland Premium Income (NMY) | Missouri Premium Income (NOM) | North Carolina Premium Income (NNC) | Virginia Premium Income (NPV) |
|---|--|--|--|---|--|
| Undistributed net tax-exempt income* | \$ 507,992 | \$ 2,899,381 | \$ 533,311 | \$ 892,451 | \$ 1,605,268 |
| Undistributed net ordinary income ** | 6,397 | 42,483 | — | — | 59,977 |
| Undistributed net long-term capital gains | — | — | — | — | 317,648 |

The tax character of distributions paid during the Funds' last tax year ended May 31, 2012, was designated for purposes of the dividends paid deduction as follows:

| | Georgia Dividend Advantage 2 (NKG) | Maryland Premium Income (NMY) | Missouri Premium Income (NOM) | North Carolina Premium Income (NNC) | Virginia Premium Income (NPV) |
|--|--|--|--|---|--|
| Distributions from net tax-exempt income | \$ 4,030,387 | \$ 10,273,550 | \$ 2,186,098 | \$ 5,847,630 | \$ 8,769,902 |
| Distributions from net ordinary income** | — | — | — | — | — |
| Distributions from net long-term capital gains | — | — | — | — | 214,014 |

* Undistributed net tax-exempt income (on a tax basis) has not been reduced for the dividend declared on May 1, 2012, paid on June 1, 2012.

** Net ordinary income consists of taxable market discount income and net short-term capital gains, if any.

At May 31, 2012, the Funds' last tax year end, the following Funds had unused capital loss carryforwards available for federal income tax purposes to be applied against future capital gains, if any. If not applied, the carryforwards will expire as follows:

| | Georgia Dividend Advantage 2 (NKG) | Maryland Premium Income (NMY) | Missouri Premium Income (NOM) | North Carolina Premium Income (NNC) |
|-----------------------------|--|--|--|---|
| Expiration: May 31, 2014 | \$ 182,725 | \$ — | \$ — | \$ — |

Edgar Filing: NUVEEN GEORGIA DIVIDEND ADVANTAGE MUNICIPAL FUND 2 - Form N-CSRS

| | | | | |
|--------------|--------------|------------|------------|------------|
| May 31, 2017 | 1,087,212 | 297,132 | 92,675 | 12,771 |
| May 31, 2018 | 1,329,548 | — | 91,539 | 353,181 |
| May 31, 2019 | 48,370 | — | — | — |
| Total | \$ 2,647,855 | \$ 297,132 | \$ 184,214 | \$ 365,952 |

During the Funds' last tax year ended May 31, 2012, the Funds utilized capital loss carryforwards as follows:

| | Georgia Dividend Advantage 2 (NKG) | Maryland Premium Income (NMY) | Missouri Premium Income (NOM) | North Carolina Premium Income (NNC) |
|-------------------------------------|--|--|--|---|
| Utilized capital loss carryforwards | \$ 206,372 | \$ 99,416 | \$ 29,858 | \$ 159,857 |

Under the Regulated Investment Company Modernization Act of 2010, capital losses incurred by the Fund after December 31, 2010, will not be subject to expiration. During the Funds' last tax year ended May 31, 2012, there were no post-enactment capital losses generated by any of the Funds.

The Funds have elected to defer losses incurred from November 1, 2011 through May 31, 2012, the Funds' last tax year end, in accordance with federal income tax rules. These losses are treated as having arisen on the first day of the current fiscal year. The following Fund has elected to defer losses as follows:

| | Georgia Dividend Advantage 2 (NKG) |
|-----------------------------|--|
| Post-October capital losses | \$ 2,668 |
| Late-year ordinary losses | — |

7. Management Fees and Other Transactions with Affiliates

Each Fund’s management fee consists of two components – a fund-level fee, based only on the amount of assets within the Fund, and a complex-level fee, based on the aggregate amount of all eligible fund assets managed by the Adviser. This pricing structure enables Fund shareholders to benefit from growth in the assets within their respective Fund as well as from growth in the amount of complex-wide assets managed by the Adviser.

The annual fund-level fee for each Fund, payable monthly, is calculated according to the following schedules:

| Average Daily Managed Assets* | Georgia Dividend Advantage 2 (NKG) Fund-Level Fee Rate |
|-------------------------------------|---|
| For the first \$125 million | .4500% |
| For the next \$125 million | .4375 |
| For the next \$250 million | .4250 |
| For the next \$500 million | .4125 |
| For the next \$1 billion | .4000 |
| For managed assets over \$2 billion | .3750 |

| Average Daily Managed Assets* | North Carolina Premium Income (NNC) Maryland Premium Income (NMY) Missouri Premium Income (NOM) Virginia Premium Income (NPV) Fund-Level Fee Rate |
|-------------------------------------|---|
| For the first \$125 million | .4500% |
| For the next \$125 million | .4375 |
| For the next \$250 million | .4250 |
| For the next \$500 million | .4125 |
| For the next \$1 billion | .4000 |
| For the next \$3 billion | .3875 |
| For managed assets over \$5 billion | .3750 |

The annual complex-level fee for each Fund, payable monthly, is calculated according to the following schedule:

| Complex-Level Managed Asset Breakpoint Level* | Effective Rate at Breakpoint Level |
|---|------------------------------------|
| \$55 billion | .2000% |
| \$56 billion | .1996 |
| \$57 billion | .1989 |
| \$60 billion | .1961 |
| \$63 billion | .1931 |
| \$66 billion | .1900 |
| \$71 billion | .1851 |
| \$76 billion | .1806 |
| \$80 billion | .1773 |
| \$91 billion | .1691 |
| \$125 billion | .1599 |
| \$200 billion | .1505 |
| \$250 billion | .1469 |
| \$300 billion | .1445 |

- * For the fund-level and complex-level fees, managed assets include closed-end fund assets managed by the Adviser that are attributable to financial leverage. For these purposes, financial leverage includes the funds' use of preferred stock and borrowings and certain investments in the residual interest certificates (also called inverse floating rate securities) in tender option bond (TOB) trusts, including the portion of assets held by a TOB trust that has been effectively financed by the trust's issuance of floating rate securities, subject to an agreement by the Adviser as to certain funds to limit the amount of such assets for determining managed assets in certain circumstances. The complex-level fee is calculated based upon the aggregate daily managed assets of all Nuveen Funds that constitute "eligible assets." Eligible assets do not include assets attributable to investments in other Nuveen Funds or assets in excess of \$2 billion added to the Nuveen Fund complex in connection with the Adviser's assumption of the management of the former First American Funds effective January 1, 2011. As of November 30, 2012, the complex level fee rate for each of these Funds was .1684%.

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Adviser is responsible of each Fund's overall strategy and asset allocation decisions. The Adviser has entered into sub-advisory agreements with Nuveen Asset Management, LLC, (the "Sub-Adviser"), a wholly-owned subsidiary of the Adviser, under which the Sub-Adviser manages the investment portfolios of the Funds. The Sub-Adviser is compensated for its services to the Funds from the management fees paid to the Adviser.

Notes to
Financial Statements (Unaudited) (continued)

The Funds pay no compensation directly to those of its trustees who are affiliated with the Adviser or to its officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates. The Board of Trustees has adopted a deferred compensation plan for independent trustees that enables trustees to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen-advised funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen-advised funds.

8. Fund Reorganizations

The Reorganizations were structured to qualify as tax-free reorganizations under the Internal Revenue Code for federal income tax purposes, and the Acquired Funds' shareholders will recognize no gain or loss for federal income tax purposes as a result of the Reorganizations. Prior to the closing of each of the Reorganizations, the Acquired Funds distributed all of their net investment income and capital gains, if any. Such a distribution may be taxable to the Acquired Funds' shareholders for federal income tax purposes.

The cost, fair value and net unrealized appreciation (depreciation) of the investments of the Acquired Funds as of the date of their respective Reorganization, were as follows:

| | Georgia Premium Income (NPG) | Georgia Dividend Advantage (NZX) | Maryland Dividend Advantage (NFM) | Maryland Dividend Advantage 2 (NZR) | Maryland Dividend Advantage 3 (NWI) |
|--|---------------------------------------|---|--|--|--|
| Cost of investments | \$ 74,023,324 | \$ 39,598,253 | \$ 82,829,435 | \$ 82,417,114 | \$ 109,258,185 |
| Fair value of investments | 80,083,798 | 42,632,583 | 88,564,164 | 88,714,979 | 117,266,759 |
| Net unrealized appreciation (depreciation) of investments | 6,060,474 | 3,034,330 | 5,734,729 | 6,297,865 | 8,008,574 |

| | North Carolina Dividend Advantage (NRB) | North Carolina Dividend Advantage 2 (NNO) | North Carolina Dividend Advantage 3 (NII) | Virginia Dividend Advantage (NGB) | Virginia Dividend Advantage 2 (NNB) |
|--|---|---|---|--|--|
| Cost of investments | \$ 44,956,748 | \$ 77,258,450 | \$ 80,525,486 | \$ 65,656,871 | \$ 122,078,841 |
| Fair value of investments | 48,849,544 | 83,400,020 | 86,417,939 | 70,027,790 | 131,287,742 |
| Net unrealized appreciation (depreciation) of investments | 3,892,796 | 6,141,570 | 5,892,453 | 4,370,919 | 9,208,901 |

For financial reporting purposes, assets received and shares issued by the Acquiring Funds were recorded at fair value; however, the cost basis of the investments received from the Acquired Funds were carried forward to align ongoing reporting of the Acquiring Funds' realized and unrealized gains and losses with amounts distributable to shareholders for tax purposes.

For accounting and performance reporting purposes, the Acquiring Funds are the survivors. The shares outstanding, net assets and net asset value ("NAV") per Common share immediately before and after the Reorganizations are as follows:

Georgia Georgia Maryland Maryland Maryland

Edgar Filing: NUVEEN GEORGIA DIVIDEND ADVANTAGE MUNICIPAL FUND 2 - Form N-CSRS

| | Premium Income (NPG) | Dividend Advantage (NZX) | Dividend Advantage (NFM) | Dividend Advantage 2 (NZR) | Dividend Advantage 3 (NWI) |

| Acquired Funds – Prior to Reorganizations | | | | | |
| Common shares outstanding | 3,810,299 | 1,975,018 | 4,197,999 | 4,204,113 | 5,366,559 |
| Net assets applicable to Common shares | \$ 57,081,247 | \$ 30,633,487 | \$ 64,327,256 | \$ 65,104,341 | \$ 82,375,675 |
| NAV per Common share outstanding | \$ 14.98 | \$ 15.51 | \$ 15.32 | \$ 15.49 | \$ 15.35 |

| | North Carolina Dividend Advantage (NRB) | North Carolina Dividend Advantage 2 (NNO) | North Carolina Dividend Advantage 3 (NII) | Virginia Dividend Advantage (NGB) | Virginia Dividend Advantage 2 (NNB) |
|---|---|--|--|--|---|
| Acquired Funds – Prior to Reorganizations | | | | | |
| Common shares outstanding | 2,275,204 | 3,755,555 | 3,939,410 | 3,148,929 | 5,770,011 |
| Net assets applicable to Common shares | \$ 35,996,337 | \$ 58,882,419 | \$ 60,545,196 | \$ 48,481,366 | \$ 90,596,172 |
| NAV per Common share outstanding | \$ 15.82 | \$ 15.68 | \$ 15.37 | \$ 15.40 | \$ 15.70 |

84 Nuveen Investments

| | Georgia Dividend Advantage 2 (NKG) | Maryland Premium Income (NMY) | North Carolina Premium Income (NNC) | Virginia Premium Income (NPV) |
|--|---|--|---|--|
| Acquiring Funds – Prior to Reorganizations | | | | |
| Common shares outstanding | 4,556,373 | 10,663,947 | 6,372,067 | 9,048,006 |
| Net assets applicable to Common shares | \$ 66,712,868 | \$ 168,069,475 | \$ 97,327,475 | \$ 142,002,913 |
| NAV per Common share outstanding | \$ 14.64 | \$ 15.76 | \$ 15.27 | \$ 15.69 |

| | Georgia Dividend Advantage 2 (NKG) | Maryland Premium Income (NMY) | North Carolina Premium Income (NNC) | Virginia Premium Income (NPV) |
|--|---|--|---|--|
| Acquiring Funds – Post Reorganizations | | | | |
| Common shares outstanding | 10,547,129 | 24,103,070 | 16,547,726 | 17,909,595 |
| Net assets applicable to Common shares | \$ 154,427,602 | \$ 379,876,747 | \$ 252,751,427 | \$ 281,080,451 |
| NAV per Common share outstanding | \$ 14.64 | \$ 15.76 | \$ 15.27 | \$ 15.69 |

The beginning of the Acquired Funds' current fiscal period was June 1, 2012.

Assuming the Reorganizations had been completed on June 1, 2012, the beginning of the Acquiring Funds' current fiscal period, the pro forma results of operations for the six months ended November 30, 2012, are as follows:

| | Georgia Dividend Advantage 2 (NKG) | Maryland Premium Income (NMY) | North Carolina Premium Income (NNC) | Virginia Premium Income (NPV) |
|--|---|--|---|--|
| Net investment income (loss) | \$ 3,266,363 | \$ 8,605,390 | \$ 5,096,869 | \$ 6,168,369 |
| Net realized and unrealized gains (losses) | 5,722,490 | 8,624,434 | 8,763,932 | 9,628,805 |
| Change in net assets resulting from operations | 8,988,853 | 17,229,824 | 13,860,801 | 15,797,174 |

Because the combined investment portfolios for each Reorganization have been managed as a single integrated portfolio since each Reorganization was completed, it is not practicable to separate the amounts of revenue and earnings of the Acquired Funds that have been included in the Statement of Operations since the Reorganizations were consummated.

In connection with the Reorganizations, the Acquiring Funds have accrued for certain associated costs and expenses. Such amounts are included as components of "Accrued reorganization expenses" on the Statement of Assets and Liabilities and "Reorganization expenses" on the Statement of Operations.

9. New Accounting Pronouncements

Financial Accounting Standards Board ("FASB") Balance Sheet (Topic 210): Disclosures about Offsetting Assets and Liabilities

In December 2011, the FASB issued Accounting Standards Update ("ASU") No. 2011-11 ("ASU No. 2011-11") to enhance disclosures about financial instruments and derivative instruments that are subject to offsetting ("netting") on the Statement of Assets and Liabilities. This information will enable users of the entity's financial statements to evaluate the effect or potential effect of netting arrangements on the entity's financial position. ASU No. 2011-11 is

effective prospectively during interim or annual periods beginning on or after January 1, 2013. At this time, management is evaluating the implications of this guidance and the impact it will have to the financial statements amounts and footnote disclosures, if any.

Reinvest Automatically,
Easily and Conveniently

Nuveen makes reinvesting easy. A phone call is all it takes to set up your reinvestment account.

Nuveen Closed-End Funds Automatic Reinvestment Plan

Your Nuveen Closed-End Fund allows you to conveniently reinvest distributions in additional Fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of compounding. Just like distributions in cash, there may be times when income or capital gains taxes may be payable on distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

Easy and convenient

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

How shares are purchased

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the greater of the net asset value or 95% of the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. If the Plan Agent begins purchasing Fund shares on the open market while shares are trading below net asset value, but the Fund's shares subsequently trade at or above their net asset value before the Plan Agent is able to complete its purchases, the Plan Agent may cease open-market purchases and may invest the uninvested portion of the distribution in newly-issued Fund shares at a price equal to the greater of the shares' net asset value or 95% of the shares' market value on the last business day immediately prior to the purchase date. Distributions received to purchase shares in the open market will normally be invested shortly after the distribution payment date. No interest will be paid on distributions awaiting reinvestment. Because the market price of the shares may increase before purchases are completed, the average purchase price per share may

exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

Flexible

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

Call today to start reinvesting distributions

For more information on the Nuveen Automatic Reinvestment Plan or to enroll in or withdraw from the Plan, speak with your financial advisor or call us at (800) 257-8787.

Glossary of Terms
Used in this Report

Auction Rate Bond: An auction rate bond is a security whose interest payments are adjusted periodically through an auction process, which process typically also serves as a means for buying and selling the bond. Auctions that fail to attract enough buyers for all the shares offered for sale are deemed to have “failed,” with current holders receiving a formula-based interest rate until the next scheduled auction.

Average Annual Total Return: This is a commonly used method to express an investment’s performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the investment’s actual cumulative performance (including change in NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.

Average Maturity: For a bond fund or defined portfolio, the average of the stated maturity dates of the fixed-income securities held. In general, the longer the average maturity, the greater the fund’s or defined portfolio’s sensitivity to interest-rate changes, which means greater price fluctuation. A shorter average maturity usually means a less sensitive, and consequently, less volatile, portfolio.

Duration: A measure of the price sensitivity of a fixed-income security or portfolio to changes in interest rates. Duration is stated in years. For example, if a bond has a duration of four years, the price of the bond is expected to change by approximately 4% for every one percentage point change in interest rates. The shorter the duration the less price variability expected in the security’s price due to changes in interest rates.

Effective Leverage: Effective leverage is a Fund’s effective economic leverage, and includes both regulatory leverage and the leverage effects of certain derivative investments in the Fund’s portfolio. Currently, the leverage effects of Tender Option Bond (TOB) inverse floater holdings are included in effective leverage values, in addition to any regulatory leverage.

Gross Domestic Product (GDP): The total market value of all final goods and services produced in a country/region in a given year, equal to total consumer, investment and government spending, plus the value of exports, minus the value of imports.

Inverse Floating Rate Securities: Inverse floating rate securities, also known as inverse floaters or tender option bonds (TOBs), are created by depositing a municipal bond, typically with a fixed interest rate, into a special purpose trust created by a broker dealer. This trust, in turn, (a) issues floating rate certificates typically paying short-term tax-exempt interest rates to third parties in amounts equal to some fraction of the deposited bond’s par amount or market value, and (b) issues an inverse floating rate certificate (sometimes referred to as an “inverse floater”) to an investor (such as a Fund) interested in gaining investment exposure to a long-term municipal bond. The income received by the holder of the inverse floater varies inversely with the short term rate paid to the

floating rate certificates' holders, and in most circumstances the holder of the inverse floater bears substantially all of the underlying bond's downside investment risk. The holder of the inverse floater typically also benefits disproportionately from any potential appreciation of the underlying bond's value. Hence, an inverse floater essentially represents an investment in the underlying bond on a leveraged basis.

Leverage: Using borrowed money to invest in securities or other assets, seeking to increase the return of an investment or portfolio.

Lipper Other States Municipal Debt Funds Classification Average: Calculated using the returns of all closed-end funds in this category. Lipper returns account for the effects of management fees and assume reinvestment of distributions, but do not reflect any applicable sales charges.

Market Yield (also known as Dividend Yield or Current Yield): An investment's current annualized dividend divided by its current market price.

Net Asset Value (NAV): The net market value of all securities held in a portfolio.

Net Asset Value (NAV) Per Share: The market value of one share of a mutual fund or closed-end fund. For a Fund, the NAV is calculated daily by taking the Fund's total assets (securities, cash, and accrued earnings), subtracting the Fund's liabilities, and dividing by the number of shares outstanding.

Pre-Refunding: Pre-Refunding, also known as advanced refundings or refinancings, is a procedure used by state and local governments to refinance municipal bonds to lower interest expenses. The issuer sells new bonds with a lower yield and uses the proceeds to buy U.S. Treasury securities, the interest from which is used to make payments on the higher-yielding bonds. Because of this collateral, pre-refunding generally raises a bond's credit rating and thus its value.

Regulatory Leverage: Regulatory Leverage consists of preferred shares or debt issued by the Fund. Both of these are part of a Fund's capital structure. Regulatory leverage is sometimes referred to as "40 Act Leverage" and is subject to asset coverage limits set in the Investment Company Act of 1940.

S&P Georgia Municipal Bond Index: An unleveraged, market value-weighted index designed to measure the performance of the tax-exempt, investment-grade Georgia municipal bond market. Index returns assume reinvestment of distributions, but do not reflect any applicable sales charges or management fees.

S&P Maryland Municipal Bond Index: An unleveraged, market value-weighted index designed to measure the performance of the tax-exempt, investment-grade Maryland municipal bond market. Index returns assume reinvestment of distributions, but do not reflect any applicable sales charges or management fees.

S&P Municipal Bond Index: An unleveraged, market value-weighted index designed to measure the performance of the tax-exempt, investment-grade U.S. municipal bond market. Index returns assume reinvestment of distributions, but do not reflect any applicable sales charges or management fees.

Glossary of Terms
Used in this Report (continued)

S&P Missouri Municipal Bond Index: An unleveraged, market value-weighted index designed to measure the performance of the tax-exempt, investment-grade Missouri municipal bond market. Index returns assume reinvestment of distributions, but do not reflect any applicable sales charges or management fees.

S&P North Carolina Municipal Bond Index: An unleveraged, market value-weighted index designed to measure the performance of the tax-exempt, investment-grade North Carolina municipal bond market. Index returns assume reinvestment of distributions, but do not reflect any applicable sales charges or management fees.

S&P Virginia Municipal Bond Index: An unleveraged, market value-weighted index designed to measure the performance of the tax-exempt, investment-grade Virginia municipal bond market. Index returns assume reinvestment of distributions, but do not reflect any applicable sales charges or management fees.

Taxable-Equivalent Yield: The yield necessary from a fully taxable investment to equal, on an after-tax basis, the yield of a municipal bond investment.

Zero Coupon Bond: A zero coupon bond does not pay a regular interest coupon to its holders during the life of the bond. Tax-exempt income to the holder of the bond comes from accretion of the difference between the original purchase price of the bond at issuance and the par value of the bond at maturity and is effectively paid at maturity. The market prices of zero coupon bonds generally are more volatile than the market prices of bonds that pays interest periodically.

Quarterly Portfolio of Investments and Proxy Voting Information

You may obtain (i) each Fund's quarterly portfolio of investments, (ii) information regarding how each Fund voted proxies relating to portfolio securities held during the most recent twelve-month period ended June 30, and (iii) a description of the policies and procedures that each Fund used to determine how to vote proxies relating to portfolio securities without charge, upon request, by calling Nuveen Investments toll-free at (800) 257-8787 or on Nuveen's website at www.nuveen.com.

You may also obtain this and other Fund information directly from the Securities and Exchange Commission (SEC). The SEC may charge a copying fee for this information. Visit the SEC on-line at <http://www.sec.gov> or in person at the SEC's Public Reference Room in Washington, D.C. Call the SEC at (202) 942-8090 for room hours and operation. You may also request Fund information by sending an e-mail request to publicinfo@sec.gov or by writing to the SEC's Public References Section at 100 F Street NE, Washington, D.C. 20549.

CEO Certification Disclosure

Each Fund's Chief Executive Officer (CEO) has submitted to the New York Stock Exchange (NYSE) the annual CEO certification as required by Section 303A.12(a) of the NYSE Listed Company Manual.

Each Fund has filed with the SEC the certification of its Chief Executive Officer and Chief Financial Officer required by Section 302 of the Sarbanes-Oxley Act.

Common and Preferred Share Information

Each Fund intends to repurchase shares of its own common stock in the future at such times and in such amounts as is deemed advisable. During the period covered by this report, the Funds repurchased shares of their common stock as shown in the accompanying table.

| Fund | Common Shares Repurchased |
|------|------------------------------|
| NKG | — |
| NMY | — |
| NOM | — |
| NNC | — |
| NPV | — |

Any future repurchases will be reported to shareholders in the next annual or semiannual report.

Nuveen Investments:
Serving Investors for Generations

Since 1898, financial advisors and their clients have relied on Nuveen Investments to provide dependable investment solutions through continued adherence to proven, long-term investing principles. Today, we offer a range of high quality equity and fixed-income solutions designed to be integral components of a well-diversified core portfolio.

Focused on meeting investor needs.

Nuveen Investments provides high-quality investment services designed to help secure the long-term goals of institutional and individual investors as well as the consultants and financial advisors who serve them. Nuveen Investments markets a wide range of specialized investment solutions which provide investors access to capabilities of its high-quality boutique investment affiliates—Nuveen Asset Management, Symphony Asset Management, NWQ Investment Management Company, Santa Barbara Asset Management, Tradewinds Global Investors, Winslow Capital Management and Gresham Investment Management. In total, Nuveen Investments managed \$220 billion as of September 30, 2012.

Find out how we can help you.

To learn more about how the products and services of Nuveen Investments may be able to help you meet your financial goals, talk to your financial advisor, or call us at (800) 257-8787. Please read the information provided carefully before you invest. Investors should consider the investment objective and policies, risk considerations, charges and expenses of any investment carefully. ITEM 2. CODE OF ETHICS.

Not applicable to this filing.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

Not applicable to this filing.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

Not applicable to this filing.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

Not applicable to this filing.

ITEM 6. SCHEDULE OF INVESTMENTS.

(a) See Portfolio of Investments in Item 1.

(b) Not applicable.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Not applicable to this filing.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Not applicable to this filing.

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

Not applicable.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There have been no material changes to the procedures by which shareholders may recommend nominees to the registrant's Board implemented after the registrant last provided disclosure in response to this Item.

ITEM 11. CONTROLS AND PROCEDURES.

(a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and

Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")(17 CFR 240.13a-15(b) or 240.15d-15(b)).

- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d)) that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 12. EXHIBITS.

File the exhibits listed below as part of this Form.

- (a)(1) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 2, to the extent that the registrant intends to satisfy the Item 2 requirements through filing of an exhibit: Not applicable to this filing.
- (a)(2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the 1940 Act (17 CFR 270.30a-2(a)) in the exact form set forth below: See Ex-99.CERT attached hereto.
- (a)(3) Any written solicitation to purchase securities under Rule 23c-1 under the 1940 Act (17 CFR 270.23c-1) sent or given during the period covered by the report by or on behalf of the registrant to 10 or more persons: Not applicable.
- (b) If the report is filed under Section 13(a) or 15(d) of the Exchange Act, provide the certifications required by Rule 30a-2(b) under the 1940 Act (17 CFR 270.30a-2(b)); Rule 13a-14(b) or Rule 15d-14(b) under the Exchange Act (17 CFR 240.13a-14(b) or 240.15d-14(b)), and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) as an exhibit. A certification furnished pursuant to this paragraph will not be deemed "filed" for purposes of Section 18 of the Exchange Act (15 U.S.C. 78r), or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference: See Ex-99.906 CERT attached hereto.
-
