TOLL BROTHERS, INC.

(Exact name of registrant as specified in its charter)

Delaware

*(State or other jurisdiction of
incorporation or organization)*

250 Gibraltar Road, Horsham, Pennsylvania

(Address of principal executive offices)

23-2416878

*(I.R.S. Employer
Identification No.)*

19044

(Zip Code)

(215) 938-8000

(Registrant's telephone number, including area code)

Not applicable

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer <input checked="" type="checkbox"/>	Accelerated filer <input type="checkbox"/>	Non-accelerated filer <input type="checkbox"/> (Do not check if a smaller reporting company)	Smaller reporting company <input type="checkbox"/>
---	--	---	--

Edgar Filing: TOLL BROTHERS INC - Form 10-Q

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act) Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date:

At June 2, 2008, there were approximately 158,721,000 shares of Common Stock, \$.01 par value, outstanding.

STATEMENT ON FORWARD-LOOKING INFORMATION

Certain information included in this report or in other materials we have filed or will file with the Securities and Exchange Commission (the "SEC") (as well as information included in oral statements or other written statements made or to be made by us) contains or may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended. You can identify these statements by the fact that they do not relate strictly to historical or current facts. They contain words such as anticipate, estimate, expect, project, intend, plan, believe, can, could, might, should and other words or phrases of similar meaning in connection with any discussion of future operating or financial performance. Such statements may include information relating to anticipated operating results (including changes in revenues, profitability and operating margins), financial resources, interest expense, inventory write-downs, changes in accounting treatment, effects of homebuyer cancellations, growth and expansion, anticipated income or loss to be realized from our investments in unconsolidated entities, the ability to acquire land, the ability to gain approvals and to open new communities, the ability to sell homes and properties, the ability to deliver homes from backlog, the ability to secure materials and subcontractors, the ability to produce the liquidity and capital necessary to expand and take advantage of opportunities in the future, industry trends, and stock market valuations. From time to time, forward-looking statements also are included in our Form 10-K and other periodic reports on Forms 10-Q and 8-K, in press releases, in presentations, on our web site and in other materials released to the public.

Any or all of the forward-looking statements included in this report and in any other reports or public statements made by us are not guarantees of future performance and may turn out to be inaccurate. This can occur as a result of incorrect assumptions or as a consequence of known or unknown risks and uncertainties. These risks and uncertainties include local, regional and national economic conditions, the demand for homes, domestic and international political events, uncertainties created by terrorist attacks, the effects of governmental regulation, the competitive environment in which the Company operates, fluctuations in interest rates, changes in home prices and sales activity in the markets where the Company builds homes, the availability and cost of land for future growth, adverse market conditions that could result in substantial inventory write-downs, the availability of capital, uncertainties and fluctuations in capital and securities markets, changes in tax laws and their interpretation, legal proceedings, the availability of adequate insurance at reasonable cost, the ability of customers to obtain adequate and affordable financing for the purchase of homes, the ability of home buyers to sell their existing homes, the ability of the participants in our various joint ventures to honor their commitments, the availability and cost of labor and building and construction materials, the cost of oil, gas and other raw materials, construction delays and weather conditions.

The factors mentioned in this report or in other reports or public statements made by us will be important in determining our future performance. Consequently, actual results may differ materially from those that might be anticipated from our forward-looking statements. If one or more of the assumptions underlying our forward-looking statements proves incorrect, then our actual results, performance or achievements could differ materially from those expressed in, or implied by the forward-looking statements contained in this report. Therefore, we caution you not to place undue reliance on our forward-looking statements. This statement is provided as permitted by the Private Securities Litigation Reform Act of 1995.

Additional information concerning potential factors that we believe could cause our actual results to differ materially from expected and historical results is included in Item 1A "Risk Factors" of our Annual Report on Form 10-K for the fiscal year ended October 31, 2007 and this Form 10-Q for the period ended April 30, 2008.

When this report uses the words "we," "us," "our," and "the Company," they refer to Toll Brothers, Inc. and its subsidiaries, unless the context otherwise requires. Reference herein to "fiscal 2008," "fiscal 2007," "fiscal 2006," and "fiscal 2005," refer to our fiscal year ending October 31, 2008, and our fiscal years ended October 31, 2007, October 31, 2006 and

October 31, 2005, respectively.

Forward-looking statements speak only as of the date they are made. We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise. However, any further disclosures made on related subjects in our subsequent reports on Forms 10-K, 10-Q and 8-K should be consulted. On June 3, 2008, we issued a press release and held a conference call to review the results of operations for the six-month and three-month periods ended April 30, 2008 and to discuss the current state of our business. The information contained in this report is the same information given in the press release and on the conference call on June 3, 2008, and we are not reconfirming or updating that information in this Form 10-Q.

TOLL BROTHERS, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. Significant Accounting Policies

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements include the accounts of Toll Brothers, Inc. (the Company), a Delaware corporation, and its majority-owned subsidiaries. All significant intercompany accounts and transactions have been eliminated. Investments in 50% or less owned partnerships and affiliates are accounted for using the equity method unless it is determined that the Company has effective control of the entity, in which case the entity would be consolidated.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission (SEC) for interim financial information. The October 31, 2007 balance sheet amounts and disclosures included herein have been derived from our October 31, 2007 audited financial statements. Since the accompanying condensed consolidated financial statements do not include all the information and footnotes required by U.S. generally accepted accounting principles for complete financial statements, the Company suggests that they be read in conjunction with the consolidated financial statements and notes thereto included in its Annual Report on Form 10-K for the fiscal year ended October 31, 2007. In the opinion of management, the accompanying unaudited condensed consolidated financial statements include all adjustments, which are of a normal recurring nature, necessary to present fairly the Company's financial position as of April 30, 2008, the results of its operations for the six months and three months ended April 30, 2008 and 2007 and its cash flows for the six months ended April 30, 2008 and 2007. The results of operations for such interim periods are not necessarily indicative of the results to be expected for the full year.

Income Taxes

On November 1, 2007, the Company adopted the provisions of the Financial Accounting Standards Board (the FASB) Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN 48). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in accordance with Statement of Financial Accounting Standards (SFAS) No. 109, Accounting for Income Taxes, and prescribes a recognition threshold and measurement attributes for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. FIN 48 requires a company to recognize the financial statement effect of a tax position when it is more-likely-than-not (defined as a likelihood of more than 50 percent), based on the technical merits of the position, that the position will be sustained upon examination. A tax position that meets the more-likely-than-not recognition threshold is measured to determine the amount of benefit to be recognized in the financial statements based upon the largest amount of benefit that is greater than 50 percent likely of being realized upon ultimate settlement with a taxing authority that has full knowledge of all relevant information. If a tax position does not meet the more-likely-than-not recognition threshold, the benefit of that tax position is not recognized in the financial statements. See Note 6, Income Taxes, for information concerning the adoption of FIN 48.

Recent Accounting Pronouncements

In September 2006, the FASB issued SFAS No. 158, Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans, an Amendment of FASB Statements No. 87, 88, 106, and 132(R) (SFAS 158). SFAS 158

requires the Company to (a) recognize in its statement of financial position the overfunded or underfunded status of a defined benefit postretirement plan, measured as the difference between the fair value of plan assets and the benefit obligation, (b) recognize as a component of other comprehensive income, net of tax, the actuarial gains and losses and the prior service costs and credits that arise during the period, (c) measure defined benefit plan assets and defined benefit plan obligations as of the date of the Company's statement of financial position, and (d) disclose additional information about certain effects on net periodic benefit costs in the upcoming

Table of Contents**TOLL BROTHERS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

fiscal year that arise from the delayed recognition of the actuarial gains and losses and the prior service costs and credits. The Company adopted SFAS 158 effective October 31, 2007 related to its recognition of accumulated other comprehensive income, net of tax. The Company's adoption of SFAS 158 did not have a material effect on its financial statements.

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements (SFAS 157). SFAS 157 provides guidance for using fair value to measure assets and liabilities. SFAS 157 also responds to investors' requests for expanded information about the extent to which a company measures assets and liabilities at fair value, the information used to measure fair value, and the effect of fair value measurements on earnings. SFAS 157 will be effective for the Company's fiscal year beginning November 1, 2008. The Company is currently reviewing the effect SFAS 157 will have on its financial statements; however, it is not expected that it will have a material impact on the Company's consolidated financial position, results of operations or cash flows.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities, Including an Amendment of FASB Statement No. 115 (SFAS 159). SFAS 159 permits entities to choose to measure certain financial assets and liabilities at fair value. Unrealized gains and losses on items for which the fair value option has been elected will be reported in earnings. SFAS No. 159 will be effective for the Company's fiscal year beginning November 1, 2008. The Company is currently reviewing the effect SFAS 159 will have on its financial statements; however, it is not expected that it will have a material impact on the Company's consolidated financial position, results of operations or cash flows.

In December 2007, the FASB issued SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements, an Amendment to ARB No. 51 (SFAS 160). Under the provisions of SFAS 160, a noncontrolling interest in a subsidiary, or minority interest, must be classified as equity and the amount of consolidated net income specifically attributable to the minority interest must be clearly identified in the consolidated statement of operations. SFAS 160 also requires consistency in the manner of reporting changes in the parent's ownership interest and requires fair value measurement of any noncontrolling interest retained in a deconsolidation. SFAS 160 will be effective for the Company's fiscal year beginning November 1, 2009. The Company is currently evaluating the impact of the adoption of SFAS 160; however, it is not expected that it will have a material impact on the Company's consolidated financial position, results of operations or cash flows.

Reclassification

The presentation of certain prior period amounts have been reclassified to conform to the fiscal 2008 presentation.

2. Inventory

Inventory at April 30, 2008 and October 31, 2007 consisted of the following (amounts in thousands):

	April 30, 2008	October 31, 2007
Land and land development costs	\$ 1,425,711	\$ 1,749,652

Edgar Filing: TOLL BROTHERS INC - Form 10-Q

Construction in progress	completed contract	2,742,657	3,109,243
Construction in progress	percentage of completion	55,828	62,677
Sample homes and sales offices		371,601	357,322
Land deposits and costs of future development		221,223	274,799
Other		18,849	18,962
		\$ 4,835,869	\$ 5,572,655

Table of Contents**TOLL BROTHERS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Construction in progress includes the cost of homes under construction, land and land development costs and the carrying cost of home sites that have been substantially improved.

The Company capitalizes certain interest costs to inventory during the development and construction period. Capitalized interest is charged to cost of revenues when the related inventory is delivered for homes accounted for under the completed contract method or when the related inventory is charged to cost of revenues under percentage of completion accounting. Interest incurred, capitalized and expensed for the six months and three months ended April 30, 2008 and 2007, was as follows (amounts in thousands):

	Six Months Ended April 30,		Three Months Ended April 30,	
	2008	2007	2008	2007
Interest capitalized, beginning of period	\$ 215,571	\$ 181,465	\$ 227,709	\$ 192,933
Interest incurred	63,681	68,272	30,576	34,121
Interest expensed to cost of revenues	(44,124)	(49,137)	(23,157)	(26,494)
Write-off against other income	(34)	(40)	(34)	
Interest capitalized, end of period	\$ 235,094	\$ 200,560	\$ 235,094	\$ 200,560

Inventory impairment charges are recognized against all inventory costs of a community, such as land, land improvements, cost of home construction and capitalized interest. The amounts included in the above table reflect the gross amount of capitalized interest before allocation of any impairment charges recognized.

Interest included in cost of revenues for the six months and three months ended April 30, 2008 and 2007, was as follows (amounts in thousands):

	Six Months Ended April 30,		Three Months Ended April 30,	
	2008	2007	2008	2007
Completed contract	\$ 43,243	\$ 46,029	\$ 22,542	\$ 24,292
Percentage of completion	841	2,999	577	2,094
Land	40	109	38	108
	\$ 44,124	\$ 49,137	\$ 23,157	\$ 26,494

The Company recognized inventory impairment charges and the expensing of costs that it believed not to be recoverable in the six months and three months ended April 30, 2008 and 2007, as follows (amounts in thousands):

	Six Months Ended April 30,		Three Months Ended April 30,	
	2008	2007	2008	2007
Operating communities and owned land	\$ 341,025	\$ 199,112	\$ 195,850	\$ 116,150
Land controlled for future communities	79,714	17,500	7,229	3,561
	\$ 420,739	\$ 216,612	\$ 203,079	\$ 119,711

Table of Contents**TOLL BROTHERS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

At the end of each fiscal quarter, the Company reviews the profitability of each of its operating communities. For those communities operating below certain profitability thresholds, the Company determines the estimated fair value of these communities and whether the estimated fair value exceeded their carrying value. The table below provides, as of the date indicated, the number of operating communities in which the Company recognized impairment charges, the fair value of those communities, net of impairment charges, and the amount of impairment charges recognized (\$ amounts in thousands):

	2008		2007		
	Fair Value of Communities, Net of		Fair Value of Communities, Net of		
	Number of Communities	Impairment Charges	Impairment Charges	Number of Communities	Impairment Charges
Three Months Ended:					
January 31,	38	\$ 339,303	\$ 145,175	18	\$ 211,800
April 30,	46	\$ 406,031	195,850	24	\$ 228,900
			\$ 341,025		\$ 199,112

At April 30, 2008, the Company evaluated its land purchase contracts to determine if any of the selling entities were variable interest entities (VIEs) and, if they were, whether the Company was the primary beneficiary of any of them. Under these purchase contracts, the Company does not possess legal title to the land and its risk is generally limited to deposits paid to the sellers; the creditors of the sellers generally have no recourse against the Company. At April 30, 2008, the Company had determined that it was the primary beneficiary of one VIE related to a land purchase contract and had recorded \$15.3 million of inventory and \$12.0 million of accrued expenses.

3. Investments in and Advances to Unconsolidated Entities

The Company has investments in and advances to a number of joint ventures with unrelated parties to develop land. Some of these joint ventures develop land for the sole use of the venture participants, including the Company, and others develop land for sale to the venture participants and to unrelated builders. The Company recognizes its share of earnings from the sale of home sites to other builders. The Company does not recognize earnings from home sites it purchases from the joint ventures, but instead reduces its cost basis in those home sites by its share of the earnings on the home sites. At April 30, 2008, the Company had approximately \$92.3 million invested in or advanced to these joint ventures. At April 30, 2008, several of these joint ventures had loan commitments in an aggregate of \$1.09 billion, and had approximately \$1.06 billion borrowed against the commitments. In connection with two of these joint ventures, the Company executed completion guarantees and conditional repayment guarantees. The obligations under the guarantees are several, and not joint, and are limited to the Company's pro-rata share of the loan obligations of the respective joint venture. At April 30, 2008, the Company's outstanding guarantees, net of amounts

that the Company has accrued that it believes it may be required to fund, amounted to \$50.3 million. With respect to another venture, the parties to this venture are in the process of determining whether or not to move forward with this project based upon, among other things, market conditions. If the project proceeds as originally planned, the Company's estimated contribution would be approximately \$145.5 million, less any outside financing the joint venture is able to obtain. The Company has recognized cumulative impairment charges of \$172.0 million (\$85.0 million in the three-month period ended April 30, 2008, \$27.8 million in the three-month period ended January 31, 2008 and \$59.2 million in the three-month period ended October 31, 2007) against three of its joint venture investments because it did not believe that its investments were recoverable.

At April 30, 2008, the Company had \$50.2 million of investments in three joint ventures with unrelated parties to develop luxury condominium projects, including for-sale residential units and commercial space. At April 30, 2008, these joint ventures had an aggregate of \$302.9 million of loan commitments, and had approximately \$216.6 million borrowed against the commitments. At April 30, 2008, the Company had guaranteed \$18.6 million of the loans and other liabilities of these joint ventures. One of these joint ventures is developing a condominium

Table of Contents

TOLL BROTHERS, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

project in two phases. The first phase has been substantially completed and commenced delivery in May 2008 of units that had been previously sold. At April 30, 2008, the Company was committed to make an additional contribution of up to \$12.3 million, if required by this joint venture. Further, the Company has the right to withdraw from phase 1 of the project upon the payment of a termination fee to our partner of \$16.0 million, and from phase 2 of the project upon the payment of a termination fee to our partner of \$30.0 million. At April 30, 2008, the Company was a partner in a second joint venture which has a project that is currently in the planning stages; any contribution by the Company will be based upon both partners agreement to proceed with the project. If the project were to go forward, and if the Company were to fund its entire commitment to this second joint venture, the Company's estimated contribution would be approximately \$112.5 million.

The Company has a 50% interest in a joint venture with an unrelated party to convert a 525-unit apartment complex, The Hudson Tea Buildings, located in Hoboken, New Jersey, into luxury condominium units. At April 30, 2008, the Company had investments in and advances to this joint venture of \$43.4 million.

In fiscal 2005, the Company, together with the Pennsylvania State Employees Retirement System (PASERS), formed Toll Brothers Realty Trust II (Trust II) to be in a position to take advantage of commercial real estate opportunities. Trust II is owned 50% by the Company and 50% by PASERS. At April 30, 2008, the Company had an investment of \$10.4 million in Trust II. In addition, the Company and PASERS each entered into subscription agreements that expire in September 2009, whereby each agreed to invest additional capital in an amount not to exceed \$11.1 million if required by Trust II. Prior to the formation of Trust II, the Company used Toll Brothers Realty Trust (the Trust) to invest in commercial real estate opportunities.

The Company formed the Trust in 1998 to take advantage of commercial real estate opportunities. The Trust is effectively owned one-third by the Company; one-third by Robert I. Toll, Bruce E. Toll (and trusts established for the benefit of members of his family), Zvi Barzilay (and trusts established for the benefit of members of his family), Joel H. Rassman, and other members of the Company's current and former senior management; and one-third by PASERS. During fiscal 2007, the Company received distributions from the Trust that resulted in reducing the carrying value of its investment in the Trust to zero. The Company provides development, finance and management services to the Trust and recognized fees under the terms of various agreements in the amounts of \$1.1 million and \$0.5 million in the six-month and three-month periods ended April 30, 2008, respectively, and \$1.0 million and \$0.5 million in the six-month and three-month periods ended April 30, 2007, respectively. The Company believes that the transactions between itself and the Trust were on terms no less favorable than it would have agreed to with unrelated parties.

The Company's investments in these entities are accounted for using the equity method.

4. Goodwill Impairment

In the three-month period ended January 31, 2007, due to the continued decline of the Detroit housing market, the Company re-evaluated the carrying value of goodwill that resulted from a 1999 acquisition in accordance with SFAS No. 142, "Goodwill and Other Intangible Assets". The Company estimated the fair value of its assets in this market, including goodwill. Fair value was determined based on the discounted future cash flow expected to be generated in this market. Based upon this evaluation and the Company's expectation that this market would not recover for a number of years, the Company determined that the related goodwill was impaired. The Company recognized a \$9.0 million impairment charge in the first quarter of fiscal 2007. After recognizing this charge, the Company did not

have any goodwill remaining from this acquisition.

Table of Contents**TOLL BROTHERS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****5. Accrued Expenses**

Accrued expenses at April 30, 2008 and October 31, 2007 consisted of the following (amounts in thousands):

	April 30, 2008	October 31, 2007
Land, land development and construction	\$ 198,370	\$ 247,322
Compensation and employee benefits	96,804	100,893
Insurance and litigation	152,854	144,349
Commitments to unconsolidated entities	125,633	27,792
Warranty	60,816	59,249
Interest	45,619	47,136
Other	89,398	97,488
	\$ 769,494	\$ 724,229

The Company accrues for expected warranty costs at the time each home is closed and title and possession are transferred to the home buyer. Costs are accrued based upon historical experience. Changes in the warranty accrual for the six-month and three-month periods ended April 30, 2008 and 2007 were as follows (amounts in thousands):

	Six Months Ended April 30,		Three Months Ended April 30,	
	2008	2007	2008	2007
Balance, beginning of period	\$ 59,249	\$ 57,414	\$ 60,350	\$ 57,835
Additions	13,030	14,884	6,683	7,350
Charges incurred	(11,463)	(13,582)	(6,217)	(6,469)
Balance, end of period	\$ 60,816	\$ 58,716	\$ 60,816	\$ 58,716

6. Income Taxes

As of November 1, 2007, the Company recorded a \$47.5 million charge (\$79.1 million before recognition of tax benefit) to retained earnings to recognize the net cumulative effect of the adoption of FIN 48. As of November 1, 2007, after adoption of FIN 48, the cumulative net unrecognized tax benefits were \$218.6 million (\$364.3 million before recognition of tax benefit). Interest and penalties are recognized as a component of the provision for income taxes which is consistent with the Company's historical accounting policy.

During the six-month period ended April 30, 2008, the Company utilized \$33.0 million of net unrecognized tax benefits (\$55.0 million before recognition of tax benefit) for the partial settlement of its Internal Revenue Service (IRS) tax audits for fiscal years 2003 through 2005, State of California tax audits for fiscal years 2002 and 2003, and certain other amended filings; the Company expects to utilize an additional \$15.0 million of net unrecognized tax benefits (\$25.0 million before recognition of tax benefit) to complete these settlements in subsequent quarters. In the three-month period ended April 30, 2008, the Company did not recognize any net unrecognized tax benefit. The state impact of any amended federal returns remains subject to examination by various states for a period of up to one year after formal notification of such amendments to the states. The Company and its subsidiaries have various state and other income tax returns in the process of examination or administrative appeal. The Company does not anticipate any material adjustments to its financial statements resulting from tax examinations currently in progress.

During the next twelve months, it is reasonably possible that the amount of unrecognized tax benefits will decrease primarily from expiration of tax statutes, but the Company does not believe these reversals will have a material impact on the Company s financial statements. The Company s net unrecognized tax benefits at April 30,

Table of Contents**TOLL BROTHERS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

2008, amounted to \$197.8 million (\$329.6 million before recognition of tax benefit) and are included in Income taxes payable on the Company's condensed consolidated balance sheet at April 30, 2008. If these tax benefits reverse in the future, they would have an impact on the Company's effective tax rate.

During the six months ended April 30, 2008 and 2007, the Company recognized in its tax provision, before reduction for applicable taxes, interest and penalties of approximately \$7.0 million and \$2.5 million, respectively. During the three months ended April 30, 2008 and 2007, the Company recognized in its tax provision, before reduction for applicable taxes, interest and penalties of approximately \$3.5 million and \$1.5 million, respectively. At April 30, 2008 and October 31, 2007, the Company had accrued interest and penalties, before reduction of applicable taxes, of \$147.1 million and \$54.8 million, respectively; these amounts were included in Income taxes payable on the accompanying condensed consolidated balance sheet. The increase in the six-month period ended April 30, 2008 relates primarily to the adoption of FIN 48.

7. Comprehensive Loss

The components of other comprehensive loss in the six-month and three-month periods ended April 30, 2008 were as follows (amounts in thousands):

	Six Months Ended April 30, 2008	Three Months Ended April 30, 2008
Net loss	\$ (189,694)	\$ (93,737)
Changes in pension liability, net of tax		
Change in benefits	(3,056)	
Change in actuarial assumptions	1,701	
Amortization of prior service cost and unrecognized gains	220	110
	(1,135)	110
	\$ (190,829)	\$ (93,627)

Changes in accumulated other comprehensive loss in the six-month and three-month periods ended April 30, 2008 were as follows (amounts in thousands):

	Six Months Ended April 30, 2008	Three Months Ended April 30, 2008
Balance, beginning of period	\$ (397)	\$ (1,642)
Changes in pension liability, net of tax		
Change in benefits	(3,056)	
Change in actuarial assumptions	1,701	

Amortization of prior service cost and unrecognized gains	220	110
	(1,135)	110
Balance, end of period	\$ (1,532)	\$ (1,532)

8. Employee Retirement Plans

In December 2007, the Company amended its Supplemental Executive Retirement Plan to provide for increased benefits to certain participants if such participants continue to work beyond retirement age. Based on this amendment and a concomitant change in the assumption related to the participants' retirement dates, the Company's unrecognized prior service cost increased by \$5.1 million and its unrecognized actuarial gains

Table of Contents**TOLL BROTHERS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

increased by \$2.8 million. The additional unrecognized prior service cost and unrecognized actuarial gains will be amortized over the extended period that the Company has estimated that the participants will continue to work.

For the six-month and three-month periods ended April 30, 2008 and 2007, the Company recognized costs and made payments related to its supplemental retirement plans as follows (amounts in thousands):

	Six Months Ended		Three Months	
	April 30,		Ended April 30,	
	2008	2007	2008	2007
Service cost	\$ 106	\$ 165	\$ 53	\$ 83
Interest cost	612	507	306	253
Amortization of initial benefit obligation	684	885	342	442
Amortization of unrecognized gains	(320)		(160)	
Total cost	\$ 1,082	\$ 1,557	\$ 541	\$ 778
Benefit payments	\$ 63	\$ 125	\$ 34	\$ 34

9. Stock-Based Benefit Plans

The fair value of each option award is estimated on the date of grant using a lattice-based option valuation model that uses assumptions noted in the following table. The lattice-based option valuation model incorporates ranges of assumptions for inputs; those ranges are disclosed in the table below. Expected volatilities were based on implied volatilities from traded options on the Company's stock, historical volatility of the Company's stock and other factors. The expected lives of options granted were derived from the historical exercise patterns and anticipated future patterns and represents the period of time that options granted are expected to be outstanding; the range given below results from certain groups of employees exhibiting different behavior. The risk-free rate for periods within the contractual life of the option is based on the U.S. Treasury yield curve in effect at the time of grant.

The weighted-average assumptions and the fair value used for stock option grants for fiscal 2008 and 2007 were as follows:

	2008	2007
Expected volatility	46.67% - 48.63%	36.32% - 38.22%
Weighted-average volatility	47.61%	37.16%
Risk-free interest rate	3.32% - 3.85%	4.57% - 4.61%
Expected life (years)	4.29 - 8.32	3.69 - 8.12
Dividends	none	none
	\$9.50	\$11.17

Weighted-average grant date fair value
per share of options granted

In the six-month and three-month periods ended April 30, 2008, the Company recognized \$16.0 million and \$3.8 million of stock compensation expense, respectively, and \$6.4 million and \$1.5 million of income tax benefit, respectively, related to stock option grants. In the six-month and three-month periods ended April 30, 2007, the Company recognized \$18.1 million and \$5.3 million of stock compensation expense, respectively, and \$6.8 million and \$2.0 million of income tax benefit, respectively, related to stock option grants.

The Company expects to recognize approximately \$21.8 million of stock compensation expense and \$8.7 million of income tax benefit for fiscal 2008 related to stock option grants. The Company recognized approximately \$27.0 million of stock compensation expense and \$10.1 million of income tax benefit for the full fiscal 2007 year related to stock option grants.

Table of Contents**TOLL BROTHERS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****10. Earnings per Share Information**

Information pertaining to the calculation of earnings per share for the six-month and three-month periods ended April 30, 2008 and 2007 is as follows (amounts in thousands):

	Six Months Ended		Three Months Ended	
	April 30,		April 30,	
	2008	2007	2008	2007
Basic weighted average shares	158,217	154,464	158,621	154,716
Common stock equivalents		9,707		9,578
Diluted weighted average shares	158,217	164,171	158,621	164,294

For the six months and three months ended April 30, 2008, there were no incremental shares attributed to outstanding options to purchase common stock because the Company had a net loss in each of the periods, and any incremental shares would not be dilutive.

At April 30, 2008, the exercise price of approximately 5.3 million outstanding options was higher than the average closing price of the Company's common stock on the New York Stock Exchange (the NYSE) for the three-month period ended April 30, 2008. At April 30, 2007, the exercise price of approximately 5.6 million outstanding options was higher than the average closing price of the Company's common stock on the NYSE for the three-month period ended April 30, 2007.

11. Stock Repurchase Program

In March 2003, the Company's Board of Directors authorized the repurchase of up to 20 million shares of its common stock, par value \$.01, from time to time, in open market transactions or otherwise, for the purpose of providing shares for its various employee benefit plans. At April 30, 2008, the Company was authorized to repurchase approximately 12.0 million shares.

12. Commitments and Contingencies

At April 30, 2008, the aggregate purchase price of land parcels under option and purchase agreements, excluding parcels that the Company does not expect to acquire, was approximately \$1.80 billion (including \$1.04 billion of land to be acquired from joint ventures in which the Company has investments). Of the \$1.80 billion of land purchase commitments, the Company had paid or deposited \$96.7 million. Of the \$1.04 billion of land to be acquired from joint ventures, \$139.1 million of the Company's investments in the joint ventures will be credited against the purchase price of the land. The Company's option agreements to acquire the home sites do not require the Company to buy the home sites, although the Company may, in some cases, forfeit any deposit balance outstanding if and when it terminates an option agreement. Of the \$96.7 million the Company had paid or deposited on these option agreements, \$75.9 million was non-refundable at April 30, 2008. Any deposit in the form of a standby letter of credit is recorded as a liability at

the time the standby letter of credit is issued. At April 30, 2008, accrued expenses included \$29.7 million, representing the Company's outstanding standby letters of credit issued in connection with options to purchase home sites.

At April 30, 2008, the Company had \$196.6 million of investments in and advances to a number of unconsolidated entities. In addition to its investments and advances, the Company had various funding commitments and had made certain loan guarantees of these entities' indebtedness. See Note 3, Investments in and Advances to Unconsolidated Entities for more information regarding these entities.

At April 30, 2008, a joint venture in which the Company has an 86.6% ownership interest and which is included in the Company's consolidated financial statements was in default under a \$78.2 million non-recourse purchase money mortgage secured by a parcel of land acquired by the joint venture. The mortgage holder's only recourse is to foreclose on the parcel of land owned by the joint venture. The net carrying value of the land owned by the joint venture that is included as an asset in the Company's consolidated balance sheet is offset by liabilities equal

Table of Contents

TOLL BROTHERS, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

to the sum of the principal amount of the non-recourse purchase money mortgage and the carrying value of the minority interest. This default does not have an effect on any of the Company's loan covenants.

At April 30, 2008, the Company had outstanding surety bonds amounting to \$578.7 million, related primarily to its obligations to various governmental entities to construct improvements in the Company's various communities. The Company estimates that \$226.7 million of work remains on these improvements. The Company has an additional \$116.3 million of surety bonds outstanding that guarantee other obligations of the Company. The Company does not believe it is likely that any outstanding bonds will be drawn upon.

At April 30, 2008, the Company had agreements of sale outstanding to deliver 3,035 homes with an aggregate sales value of \$2.08 billion, of which the Company has recognized \$4.9 million of revenues with regard to a portion of such homes using the percentage of completion accounting method.

At April 30, 2008, the Company's mortgage subsidiary was committed to fund \$968.6 million of mortgage loans. \$157.7 million of these commitments, as well as \$67.5 million of mortgage loans receivable, have locked in interest rates. The mortgage subsidiary has commitments from recognized outside mortgage financing institutions to acquire \$224.9 million of these locked-in loans and receivables. Our home buyers have not locked-in the interest rate on the remaining \$811.2 million.

In January 2006, the Company received a request for information pursuant to Section 308 of the Clean Water Act from Region 3 of the U.S. Environmental Protection Agency (the EPA) requesting information about storm water discharge practices in connection with its homebuilding projects in the states that comprise EPA Region 3. The U.S. Department of Justice (DOJ) has now assumed responsibility for the oversight of this matter. To the extent the DOJ's review were to lead it to assert violations of state and/or federal regulatory requirements and request injunctive relief and/or civil penalties, the Company would defend and attempt to resolve any such asserted violations. At this time, the Company cannot predict the outcome of the DOJ's review.

In October 2006, the Illinois Attorney General and State Attorney of Lake County, IL brought suit against the Company, alleging violations in Lake County, IL of certain storm water discharge regulations. The Company is in the process of resolving the alleged violations. At this time, the Company cannot predict the outcome of this litigation, but the Company does not believe it will have a material effect on the Company's business or financial position.

On April 17, 2007, a securities class action suit was filed against Toll Brothers, Inc. and Robert I. Toll and Bruce E. Toll in the U.S. District Court for the Eastern District of Pennsylvania. The original plaintiff, Desmond Lowrey, has been replaced by two new lead plaintiffs: The City of Hialeah Employees' Retirement System and the Laborers Pension Trust Funds for Northern California. On August 14, 2007, an amended complaint was filed on behalf of the purported class of purchasers of the Company's common stock between December 9, 2004 and November 8, 2005 and the following individual defendants, who are directors and/or officers of Toll Brothers, Inc., were added to the suit: Zvi Barzilay, Joel H. Rassman, Robert S. Blank, Richard J. Braemer, Carl B. Marbach, Paul E. Shapiro and Joseph R. Sicree. The amended complaint filed on behalf of the purported class alleges that the defendants violated federal securities laws by issuing various materially false and misleading statements that had the effect of artificially inflating the market price of the Company's stock. They further allege that the individual defendants sold shares for a substantial gain. The purported class is seeking compensatory damages, counsel fees, and expert costs. The Company has responded to the amended complaint by filing a motion to dismiss, challenging the sufficiency of the pleadings. There

has not yet been any ruling on the Company's motion. The Company believes that this lawsuit is without merit and intends to continue to vigorously defend against it.

A second securities class action suit was filed on September 7, 2007 in federal court in the Central District of California. In the complaint, the plaintiff, on behalf of the purported class of stockholders, alleged that the Chief Financial Officer of the Company violated federal securities laws by issuing various materially false and misleading statements and sought compensatory damages, counsel fees and expert costs. The alleged class period was December 8, 2005 to August 22, 2007. The original plaintiff, Kathy Mankofsky, was replaced by a new lead

Table of Contents**TOLL BROTHERS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

plaintiff the Massachusetts Bricklayers & Masons Trust Funds. On March 21, 2008, the plaintiff voluntarily dismissed this action without prejudice.

The Company is involved in various other claims and litigation arising in the ordinary course of business. The Company believes that the disposition of these matters will not have a material effect on the business or on the financial condition of the Company.

13. Geographic Segments

Revenue and (loss) income before income taxes for each of the Company's geographic segments for the six months and three months ended April 30, 2008 and 2007 were as follows (amounts in thousands):

	Six Months Ended April 30,		Three Months Ended	
	2008	2007	April 30,	2007
			2008	
Revenue				
North	\$ 466,378	\$ 458,532	\$ 239,601	\$ 247,385
Mid-Atlantic	453,892	664,493	203,541	333,175
South	294,933	534,715	155,618	286,947
West	446,439	607,548	220,030	307,170
Total	\$ 1,661,642	\$ 2,265,288	\$ 818,790	\$ 1,174,677
(Loss) income before income taxes				
North	\$ 30,280	\$ (7,673)	\$ 25,487	\$ (7,059)
Mid-Atlantic	(12,245)	120,683	(27,410)	68,223
South	(166,957)	25,943	(55,281)	21,493
West	(101,586)	62,419	(71,187)	5,536
Corporate and other(1)	(55,458)	(54,679)	(25,620)	(28,700)
Total	\$ (305,966)	\$ 146,693	\$ (154,011)	\$ 59,493

- (1) Corporate and other is comprised principally of general corporate expenses such as the Offices of the Chief Executive Officer and President, and the corporate finance, accounting, audit, tax, human resources, risk management, marketing and legal groups, offset in part by interest income and income from the Company's ancillary businesses.

Table of Contents**TOLL BROTHERS, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Inventory write-downs and the expensing of costs that the Company believed not to be recoverable and write-downs of investments in unconsolidated entities that the Company does not believe it will be able to recover for the six-month and three-month periods ended April 30, 2008 and 2007 were as follows (amounts in thousands):

	Six Months Ended April 30,		Three Months Ended April 30,	
	2008	2007	2008	2007

Contributions to employee retirement plan		\$ 2,764
Disposition of ancillary businesses:		
Fair value of assets sold		\$ 5,790
Liabilities incurred in disposition		\$ 400
Cash received		\$ 15,755

15. Supplemental Guarantor Information

Toll Brothers Finance Corp., a 100% owned, indirect subsidiary (the **Subsidiary Issuer**) of the Company, is the issuer of four series of senior notes aggregating \$1.15 billion. The obligations of the Subsidiary Issuer to pay principal, premiums, if any, and interest are guaranteed jointly and severally on a senior basis by the Company and substantially all of its 100% owned home building subsidiaries (the **Guarantor Subsidiaries**). The guarantees are full and unconditional. The Company's non-home building subsidiaries and certain home building subsidiaries (the **Non-Guarantor Subsidiaries**) do not guarantee the debt. Separate financial statements and other disclosures concerning the Guarantor Subsidiaries are not presented because management has determined that such disclosures would not be material to investors. The Subsidiary Issuer has not had and does not have any operations other than the issuance of the four series of senior notes and the lending of the proceeds from the senior notes to other subsidiaries of the Company. Supplemental consolidating financial information of the Company, the Subsidiary

ITEM 2. *MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS*

OVERVIEW

In the six-month and three-month periods ended April 30, 2008, we recognized \$1.66 billion and \$818.8 million of revenues, respectively, and recorded a net loss of \$189.7 million and \$93.7 million, respectively. In the six-month and three-month periods ended April 30, 2007, we recognized \$2.27 billion and \$1.17 billion of revenues, respectively, and recorded net income of \$91.0 million and \$36.7 million, respectively. The losses in the fiscal 2008 periods as compared to the comparable periods of fiscal 2007 were due primarily to the significantly higher inventory and joint venture impairment charges recognized and the higher sales incentives given on the homes delivered in the fiscal 2008 periods as compared to the fiscal 2007 periods. In the six-month period ended April 30, 2008, we recognized inventory and joint venture impairment charges and write-offs of \$533.6 million, as compared to \$225.6 million of inventory and goodwill impairment charges and write-offs in the comparable period of fiscal 2007. In the three-month period ended April 30, 2008, we recognized inventory and joint venture impairment charges and write-offs of \$288.1 million, as compared to \$119.7 million of inventory impairment charges and write-offs in the comparable period of fiscal 2007.

Our backlog at April 30, 2008 of \$2.08 billion decreased 50%, as compared to our backlog at April 30, 2007 of \$4.15 billion. Backlog consists of homes under contract but not yet delivered to our home buyers for our communities accounted for using the completed contract method of accounting. Backlog for communities for which we use the percentage of completion accounting method consists of units under contract but not yet delivered to our home buyers, less the amount of revenues we have recognized related to those units.

The slowdown that we have experienced since the fourth quarter of fiscal 2005 has continued into the third quarter of fiscal 2008. The result is that the value of net new contracts signed has declined by 55% and 58% in the six-month and three-month periods ended April 30, 2008, respectively, as compared to the comparable periods of fiscal 2007. The value of net new contracts signed has declined by 76% and 77% in the six-month and three-month periods ended April 30, 2008, respectively, as compared to the comparable periods of fiscal 2005. When we report contracts signed, the number and value of contracts signed is reported net of any cancellations occurring during the reporting period, whether signed in that reporting period or in a prior period. Only outstanding agreements of sale that have been signed by both the home buyer and us as of the end of the period on which we are reporting are included in backlog.

We attribute the slowdown primarily to a decline in consumer confidence, an overall softening of demand for new homes, the inability of some of our home buyers to sell their current home, an increase in available competing inventory and their related increase in incentives and the direct and indirect impact of the turmoil in the mortgage loan market. We believe the reduction in demand is due to concerns on the part of prospective home buyers about the direction of home prices, due in part to the constant media attention regarding the potential for mortgage foreclosures and recession, and concerns by prospective home buyers about being able to sell their existing homes. We believe the concern about the direction of home prices is due to an oversupply of homes available for sale, and many other builders advertising price reductions and increased sales incentives.

Despite this slowdown, we believe our industry demographics remain strong due to the continuing regulation-induced constraints on lot supplies and the growing number of affluent households. We continue to seek a balance between our short-term goal of selling homes in a tough market and our long-term goal of maximizing the value of our communities. We believe that many of our communities are in locations that are difficult to replace and in markets where approvals are increasingly difficult to achieve. We believe that many of these communities have substantial embedded value that will be realizable in the future and that this value should not necessarily be sacrificed in the current soft market.

We are concerned about the dislocation in the secondary mortgage market. We maintain relationships with a widely diversified group of mortgage providers, most of which are among the largest and, we believe, most reliable in our industry. With few exceptions, the mortgage providers that provide our customers with mortgages continue to issue new commitments. Our buyers generally have been able to obtain adequate financing. Nevertheless, tightening credit standards have shrunk the pool of potential home buyers. Mortgage market liquidity issues and higher borrowing rates may impede some of our home buyers from closing, while others may find it more

Table of Contents

difficult to sell their existing homes as their buyers face the problem of obtaining a mortgage. However, we believe that our buyers generally should be able to continue to secure mortgages, due to their typically lower loan-to-value ratios and attractive credit profiles, as compared to the average American home buyer. Although we cannot predict the short- and long-term liquidity of the credit markets, we continue to caution that, with the uncertainties in these markets, the pace of home sales could slow further until these markets settle down.

In the current challenging environment, we believe our access to reliable capital and our strong balance sheet give us an important competitive advantage. Based on our experience during prior downturns in the housing market, we have learned that unexpected opportunities may arise in difficult times for those builders that are well-prepared. We believe that our solid financial base, our broad geographic presence, our diversified product lines and our national brand name all position us well for such opportunities now and in the future. At April 30, 2008, we had \$1.24 billion of cash and cash equivalents and approximately \$1.27 billion available under our bank revolving credit facility which extends to 2011. We believe we have the resources available to fund attractive opportunities, should they arise.

Notwithstanding the current market conditions, we believe geographic and product diversification, access to lower-cost capital, and strong demographics have in the past and will in the future, as market conditions improve, benefit those builders that can control land and persevere through the increasingly difficult regulatory approval process. We believe that these factors favor the large publicly traded home building companies with the capital and expertise to control home sites and gain market share. We believe that as builders reduce the number of home sites being taken through the approval process and this process continues to become more difficult, and as the political pressure from no-growth proponents continues to increase, our expertise in taking land through the approval process and our already approved land positions will allow us to grow in the years to come, as market conditions improve.

Because of the length of time that it takes to obtain the necessary approvals on a property, complete the land improvements on it, and deliver a home after a home buyer signs an agreement of sale, we are subject to many risks. We attempt to reduce certain risks by controlling land for future development through options whenever we can, thus allowing us to obtain the necessary governmental approvals before acquiring title to the land; generally commencing construction of a detached home only after executing an agreement of sale and receiving a substantial down payment from the buyer; and using subcontractors to perform home construction and land development work on a fixed-price basis. In response to current market conditions, we have been reevaluating and renegotiating many of our optioned land positions. As a result, we have reduced our land position from a high of approximately 91,200 home sites at April 30, 2006, to approximately 51,800 home sites at April 30, 2008.

In the ordinary course of doing business, we must make estimates and judgments that affect decisions on how we operate and on the reported amounts of assets, liabilities, revenues and expenses. These estimates include, but are not limited to, those related to the recognition of income and expenses; impairment of assets; estimates of future improvement and amenity costs; capitalization of costs to inventory; provisions for litigation, insurance and warranty costs; and income taxes. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. On an ongoing basis, we evaluate and adjust our estimates based on the information currently available. Actual results may differ from these estimates and assumptions or conditions.

At April 30, 2008, we were selling from 300 communities, compared to 315 communities at October 31, 2007 and 325 communities at April 30, 2007. We expect to be selling from approximately 290 communities at October 31, 2008.

CRITICAL ACCOUNTING POLICIES

We believe the following critical accounting policies reflect the more significant judgments and estimates used in the preparation of our consolidated financial statements.

Inventory

Inventory is stated at the lower of cost or fair value in accordance with Statement of Financial Accounting Standards (SFAS) No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets (SFAS 144). In addition to direct land acquisition, land development and home construction costs, costs include interest, real estate

Table of Contents

taxes and direct overhead related to development and construction, which are capitalized to inventories during the period beginning with the commencement of development and ending with the completion of construction. Once a parcel of land has been approved for development, it generally takes four to five years to fully develop, sell and deliver all the homes in one of our typical communities. Longer or shorter time periods are possible depending on the number of home sites in a community and the sales and delivery pace of the homes in a community. Our master planned communities, consisting of several smaller communities, may take up to ten years or more to complete. Because of the downturn in our business, the aforementioned estimated community lives will likely be significantly longer. Because our inventory is considered a long-lived asset under U.S. generally accepted accounting principles, we are required, under SFAS 144, to regularly review the carrying value of each of our communities and write down the value of those communities for which we believe the values are not recoverable.

Current Communities: When the profitability of a current community deteriorates, the sales pace declines significantly or some other factor indicates a possible impairment in the recoverability of the asset, the asset is reviewed for impairment by comparing the estimated future undiscounted cash flow for the community to its carrying value. If the estimated future undiscounted cash flow is less than the community's carrying value, the carrying value is written down to its estimated fair value. Fair value is primarily determined by discounting the estimated future cash flow of each community. The impairment is charged to cost of revenues in the period in which the impairment is determined. In estimating the cash flow of a community, we use various estimates such as: (a) the expected sales pace in a community based upon general economic conditions that will have a short-term or long-term impact on the market in which the community is located and on competition within the market, including the number of home sites available and pricing and incentives being offered in other communities owned by us or by other builders; (b) the expected sales prices and sales incentives to be offered in a community; (c) costs expended to date and expected to be incurred in the future, including, but not limited to, land and land development costs, home construction costs, interest costs and overhead costs; (d) alternative product offerings that may be offered in a community that will have an impact on sales pace, sales price, building cost or the number of homes that can be built on a particular site; and (e) alternative uses for the property such as the possibility of a sale of the entire community to another builder or the sale of individual home sites.

Future Communities: We evaluate all land held for future communities or future sections of current communities, whether owned or under contract, to determine whether or not we expect to proceed with the development of the land as originally contemplated. This evaluation encompasses the same types of estimates used for current communities described above, as well as an evaluation of the regulatory environment in which the land is located and the estimated probability of obtaining the necessary approvals, the estimated time and cost it will take to obtain the approvals and the possible concessions that will be required to be given in order to obtain them. Concessions may include cash payments to fund improvements to public places such as parks and streets, dedication of a portion of the property for use by the public or as open space or a reduction in the density or size of the homes to be built. Based upon this review, we decide (a) as to land under contract to be purchased, whether the contract will likely be terminated or renegotiated, and (b) as to land we own, whether the land will likely be developed as contemplated or in an alternative manner, or should be sold. We then further determine whether costs that have been capitalized to the community are recoverable or should be written off. The write-off is charged to cost of revenues in the period in which the need for the write-off is determined.

The estimates used in the determination of the estimated cash flows and fair value of both current and future communities are based on factors known to us at the time such estimates are made and our expectations of future operations and economic conditions. Should the estimates or expectations used in determining estimated fair value deteriorate in the future, we may be required to recognize additional write-downs/write-offs related to current and future communities.

Variable Interest Entities: We have a significant number of land purchase contracts, sometimes referred to herein as land purchase contracts, purchase agreements, options or option agreements, and several investments in unconsolidated entities which we evaluate in accordance with the Financial Accounting Standards Board (FASB) Interpretation No. 46 Consolidation of Variable Interest Entities, an interpretation of ARB No. 51, as amended by FIN 46R (FIN 46). Pursuant to FIN 46, an enterprise that absorbs a majority of the expected losses or receives a majority of the expected residual returns of a variable interest entity (VIE) is considered to be the primary beneficiary and must consolidate the VIE. A VIE is an entity with insufficient equity

Table of Contents

investment or in which the equity investors lack some of the characteristics of a controlling financial interest. For land purchase contracts with sellers meeting the definition of a VIE, we perform a review to determine which party is the primary beneficiary of the VIE. This review requires substantial judgment and estimation. These judgments and estimates involve assigning probabilities to various estimated cash flow possibilities relative to the entity's expected profits and losses and the cash flows associated with changes in the fair value of the land under contract. At April 30, 2008, we had determined that we were the primary beneficiary of one VIE related to a land purchase contract and had recorded \$15.3 million of inventory and \$12.0 million of accrued expenses.

Revenue and Cost Recognition

Home Sales-Completed Contract Method: The construction time of our homes is generally less than one year, although some may take more than one year to complete. Revenues and cost of revenues from these home sales are recorded at the time each home is delivered and title and possession are transferred to the buyer. Closing normally occurs shortly after construction is substantially completed. In addition, we have several high-rise/mid-rise projects which do not qualify for percentage of completion accounting in accordance SFAS No. 66, Accounting for Sales of Real Estate (SFAS 66), which are included in this category of revenues and costs.

Land, land development and related costs, both incurred and estimated to be incurred in the future, are amortized to the cost of homes closed based upon the total number of homes to be constructed in each community. Any changes resulting from a change in the estimated number of homes to be constructed or in the estimated costs subsequent to the commencement of delivery of homes are allocated to the remaining undelivered homes in the community. Home construction and related costs are charged to the cost of homes closed under the specific identification method. The estimated land, common area development and related costs of master planned communities, including the cost of golf courses, net of their estimated residual value, are allocated to individual communities within a master planned community on a relative sales value basis. Any changes resulting from a change in the estimated number of homes to be constructed or in the estimated costs are allocated to the remaining home sites in each of the communities of the master planned community.

Forfeited customer deposits are recognized in other income in the period in which we determine that the customer will not complete the purchase of the home and when we determine that we have the right to keep the deposit.

Home Sales-Percentage of Completion Method: We have three high-rise projects for which we use the percentage of completion accounting method to recognize revenues and costs. Under the provisions of SFAS 66, revenues and costs for these projects are recognized using the percentage of completion method of accounting when construction is beyond the preliminary stage, the buyer is committed to the extent of being unable to require a refund except for non-delivery of the unit, sufficient units in the project have been sold to ensure that the property will not be converted to rental property, the sales proceeds are collectible and the aggregate sales proceeds and the total cost of the project can be reasonably estimated. Revenues and costs of individual projects are recognized on the individual project's aggregate value of units for which the home buyers have signed binding agreements of sale, less an allowance for cancellations, and are based on the percentage of total estimated construction costs that have been incurred. Total estimated revenues and construction costs are reviewed periodically, and any change is applied to current and future periods.

Forfeited customer deposits are recognized as a reduction in the amount of revenues reversed in the period in which we determine that the customer will not complete the purchase of the home and when we determine that we have the right to keep the deposit.

Land Sales: Land sales revenues and cost of revenues are recorded at the time that title and possession of the property have been transferred to the buyer. We recognize the pro rata share of land sales revenues and cost of land sales

revenues to entities in which we have a 50% or less interest based upon the ownership percentage attributable to the non-Company investors. Any profit not recognized in a transaction reduces our investment in the entity or is recorded as an accrued liability on our consolidated balance sheet.

Table of Contents**OFF-BALANCE SHEET ARRANGEMENTS**

We have investments in and advances to various joint ventures and to Toll Brothers Realty Trust Group (Trust) and Toll Brothers Realty Trust Group II (Trust II). At April 30, 2008, we had investments in and advances to these entities of \$196.6 million, and were committed to invest or advance additional funds to these entities if needed and had guaranteed to several of these entities indebtedness and/or loan commitments. See Note 3 of the Notes to Condensed Consolidated Financial Statements - Investments in and Advances to Unconsolidated Entities for more information regarding these entities. Our investments in these entities are accounted for using the equity method.

RESULTS OF OPERATIONS

The following table sets forth, for the six-month and three-month periods ended April 30, 2008 and 2007, a comparison of certain statement of operations items (\$ in millions):

	Six Months Ended April 30,				Three Months Ended April 30,			
	2008		2007		2008		2007	
	\$	%	\$	%	\$	%	\$	%
Completed contract								
Revenues	1,626.8		2,178.4		800.3		1,124.3	
Costs	1,638.9	100.7	1,788.2	82.1	804.7	100.6	941.8	83.8
	(12.1)		390.2		(4.4)		182.5	
Percentage of completion

* Percentages are based on total revenues.

Note: Amounts may not add due to rounding.

Table of Contents**REVENUES AND COSTS COMPLETED CONTRACT**

Revenues for the six months ended April 30, 2008 were lower than those for the comparable period of fiscal 2007 by \$551.6 million, or 25%. The decrease was primarily attributable to a decrease in the number of homes delivered, which was primarily due to the lower backlog of homes at October 31, 2007 as compared to October 31, 2006. This lower backlog of homes was primarily the result of a 28% decrease in the number of net new contracts signed in fiscal 2007 over fiscal 2006. Although the average price of the homes delivered in the six-month period of fiscal 2008 period was comparable to the average price of the homes delivered in the comparable fiscal 2007 period, the average sales incentives increased on homes closed in the six-month period of fiscal 2008, as compared to the comparable fiscal 2007 period, which was offset by the settlement of units in several of our high rise projects in the fiscal 2008 period that did not have settlements in the comparable fiscal 2007 period and a shift in product mix to higher priced product. Sales incentives given on homes delivered in the six-month period of fiscal 2008 averaged \$68,000 per home, as compared to \$29,000 in the comparable period of fiscal 2007.

Revenues for the three months ended April 30, 2008 were lower than those for the comparable period of fiscal 2007 by approximately \$324.0 million, or 29%. The decrease was attributable to a 28% decrease in the number of homes delivered and a 1% decrease in the average price of the homes delivered. The decrease in the number of homes delivered in the three-month period ended April 30, 2008 was primarily due to the lower backlog of homes at October 31, 2007, as compared to October 31, 2006, which was primarily the result of a 28% decrease in the number of net new contracts signed in fiscal 2007 over fiscal 2006, and the increased number of cancellations of contracts by home buyers in fiscal 2007 as compared to fiscal 2006. The decrease in the average price of the homes delivered was due to the higher sales incentives given on the homes delivered in the fiscal 2008 period, offset, in part, by the settlement of units in several of our high rise projects in the fiscal 2008 period that did not have settlements in the fiscal 2007 periods and a shift in product mix to higher priced product. Sales incentives given on homes delivered in the three-month period of fiscal 2008 averaged \$76,000 per home, as compared to \$32,000 in the comparable period of fiscal 2007.

The value of net new sales contracts signed was \$868.3 million (1,570 homes) and \$483.7 million (917 homes) in the six-month and three-month periods of fiscal 2008, respectively, as compared to \$1.89 billion (2,636 homes) and \$1.16 billion (1,633 homes) in the comparable periods of fiscal 2007.

The value of net new contracts signed in the six-month and three-month periods of fiscal 2008, as compared to the comparable periods of fiscal 2007, decreased 54% and 58%, respectively. The decrease in the six-month period was the result of a 40% decrease in the number of net new contracts signed and a 23% decrease in the average value of each contract signed. The decrease in the three-month period was the result of a 44% decrease in the number of net new contracts signed and a 26% decrease in the average value of each contract signed.

We believe the decrease in the number of new contracts signed was attributable to a decline in consumer confidence, an overall softening of demand for new homes and concerns on the part of prospective home buyers about the direction of home prices and their ability to sell their existing homes. We attribute the concern about the direction of home prices to an oversupply of homes available for sale and to many other builders advertising price reductions and increased sales incentives.

In addition, speculators and investors are no longer contributing to demand. We try to avoid selling homes to speculators, and we generally do not build detached homes without having a signed agreement of sale. Nonetheless, we have been impacted by an overall increase in the supply of homes available for sale in many markets as speculators attempt to sell the homes they previously purchased or cancel contracts for homes under construction, and as builders, who, as part of their business strategy, were building homes in anticipation of capturing additional sales in a

demand-driven market attempt to reduce their inventories by lowering prices and adding incentives. In addition, based on the high cancellation rates reported by us and by other builders, non-speculative buyer cancellations are also adding to the supply of homes in the marketplace.

The decrease in the average value of the net new contracts signed in the six-month and three-month periods of fiscal 2008, as compared to the comparable periods of fiscal 2007, was due primarily to the higher average value of the contracts cancelled during the fiscal 2008 periods compared to the fiscal 2007 periods, higher sales incentives given to homebuyers in the fiscal 2008 periods, as compared to the comparable periods of fiscal 2007, and a shift in

Table of Contents

the number of contracts signed to less expensive areas and/or products in the fiscal 2008 periods, as compared to the comparable periods of fiscal 2007. At April 30, 2008, we were offering sales incentives on homes of approximately 8.9% of the sales price, as compared to 5.1% at April 30, 2007.

At April 30, 2008, our backlog of homes under contract was \$2.07 billion (3,017 homes), 49% lower than the \$4.04 billion (5,532 homes) backlog at April 30, 2007. The decrease in backlog at April 30, 2008 compared to the backlog at April 30, 2007 was primarily attributable to a lower backlog at October 31, 2007, as compared to the backlog at October 31, 2006, and the decrease in the value and number of net new contracts signed in the six months of fiscal 2008, as compared to the comparable six months of fiscal 2007, offset in part by lower deliveries in the fiscal 2008 period, as compared to the fiscal 2007 period.

Home costs, including inventory impairment charges and write-offs but before interest, as a percentage of home sales revenue were 100.7% and 100.6% in the six-month and three-month periods ended April 30, 2008, respectively, as compared to 82.1% and 83.8% in the comparable periods of fiscal 2007. In the six-month periods ended April 30, 2008 and 2007, we recognized inventory impairment charges and write-offs of \$420.7 million and \$216.6 million, respectively. In the three-month periods ended April 30, 2008 and 2007, we recognized inventory impairment charges and write-offs of \$203.1 million and \$119.7 million, respectively. Excluding inventory impairment charges and write-offs, cost of revenues was 74.9% and 75.2% of revenues in the six-month and three-month periods of fiscal 2008, respectively, as compared to 72.1% and 73.1% in the comparable periods of fiscal 2007. The increase in the cost of revenues before inventory write-offs and impairment charges percentage was due primarily to higher sales incentives on the homes delivered and higher overhead costs per home due to the decreased construction activity.

As we stated in the guidance we provided on June 3, 2008 (which is not being reconfirmed or updated in this Form 10-Q), we believe home deliveries for the full 2008 fiscal year will be between 4,200 and 4,800 homes, and the average delivered price will be between \$630,000 and \$650,000. We believe that due to higher sales incentives and slower deliveries per community, our costs as a percentage of revenues, before impairment charges and write-offs and interest, will be higher in fiscal 2008, as compared to fiscal 2007.

REVENUES AND COSTS PERCENTAGE OF COMPLETION

In the six-month periods ended April 30, 2008 and 2007, we recognized \$33.5 million and \$81.5 million of revenues, respectively, and \$27.5 million and \$63.3 million of costs, respectively, on projects accounted for using the percentage of completion method. In the three-month periods ended April 30, 2008 and 2007, we recognized \$17.7 million and \$48.4 million of revenues, respectively, and \$14.6 million and \$37.4 million of costs, respectively, on projects accounted for using the percentage of completion method. At April 30, 2008, our backlog of homes in communities that we account for using the percentage of completion method of accounting was \$11.4 million (net of \$4.9 million of revenue recognized) compared to \$102.1 million at April 30, 2007 (net of \$74.1 million of revenue recognized). The decline in the backlog at April 30, 2008 was primarily the result of the delivery of units, the continued recognition of revenue and a high number of contract cancellations, offset, in part, by new contracts signed. We expect that this decline will continue as we recognize revenues, and sell out of existing projects without replacing them with new projects that qualify under the accounting rules for the application of the percentage of completion accounting method.

REVENUES AND COSTS LAND SALES

We are developing several communities in which we expect to sell a portion of the land to other builders or unrelated entities. The amount and profitability of land sales will vary from year to year depending upon the sale and delivery of the specific land parcels. In the six-month periods ended April 30, 2008 and 2007, we recognized \$1.3 million and \$5.4 million of land sales revenues, respectively, and \$1.1 million and \$2.8 million of costs, respectively. In the three-month periods ended April 30, 2008 and 2007, we recognized \$0.8 million and \$2.0 million of land sales

revenues, respectively, and \$0.7 million and \$1.7 million of costs, respectively.

Table of Contents

INTEREST EXPENSE

In our traditional homebuilding operations, we determine interest expense on a specific lot-by-lot basis, and for land sales, on a parcel-by-parcel basis. As a percentage of total revenues, interest expense varies depending on many factors, including the period of time that we owned the land, the length of time that the homes delivered during the period were under construction, and the interest rates and the amount of debt carried by us in proportion to the amount of our inventory during those periods.

For projects using the percentage of completion method of revenue recognition, interest expense is determined based on the total estimated interest for the project and the percentage of total estimated construction costs that have been incurred to date. Any change in the estimated interest expense for the project is applied to current and future periods.

Interest expense as a percentage of revenues was 2.7% of total revenues in the six-month period ended April 30, 2008, as compared to 2.2% in the comparable period of fiscal 2007. Interest expense as a percentage of revenues was 2.8% of total revenues in the three-month period ended April 30, 2008, as compared to 2.3% in the comparable period of fiscal 2007. The increase in interest expense as a percentage of revenues for both periods is due to the added length of time that the homes delivered in 2008 remained in inventory and accumulated additional capitalized interest. In addition, as our inventory has been reduced, there is less available inventory to allocate the interest incurred.

The guidance we provided on June 3, 2008 stated that, for the full 2008 fiscal year, we believe that interest expense as a percentage of revenues will be slightly higher as a percentage of revenues than the percentage in the second quarter of fiscal 2008.

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES (SG&A)

SG&A spending decreased by \$34.6 million, or 13.1%, in the six-month period ended April 30, 2008 as compared to the comparable period of fiscal 2007. As a percentage of revenues, SG&A was 13.8% in the fiscal 2008 period, as compared to 11.7% in the comparable period of fiscal 2007. The reduction in spending was due to reduced compensation costs and reduced costs for advertising, promotions and marketing.

SG&A spending decreased by \$21.7 million, or 16.6%, in the three-month period ended April 30, 2008, as compared to the comparable period of fiscal 2007. As a percentage of revenues, SG&A was 13.3% in the fiscal 2008 period, as compared to 11.1% in the comparable period of fiscal 2007. The reduction in spending was due to reduced compensation costs and reduced costs for advertising, promotions and marketing.

The guidance we provided on June 3, 2008 stated that, for the full 2008 fiscal year, we believe SG&A spending in absolute dollars will be lower for the full fiscal 2008 year as compared to fiscal 2007, but is expected to be higher as a percentage of revenues in fiscal 2008, as compared to fiscal 2007.

GOODWILL IMPAIRMENT

During the three-month period ended January 31, 2007, due to the continued decline of the Detroit housing market, we re-evaluated the carrying value of goodwill associated with a 1999 acquisition. We estimated the fair value of our assets in this market, including goodwill. Fair value was determined based on the discounted future cash flow expected to be generated in this market. Based upon this evaluation and our expectation that this market would not recover for a number of years, we determined that the related goodwill had been impaired. We recognized a \$9.0 million impairment charge in the three-month period ended January 31, 2007. After recognizing this charge, we do not have any goodwill remaining from this acquisition.

(LOSS) EARNINGS FROM UNCONSOLIDATED ENTITIES

We are a participant in several joint ventures and in the Trust and Trust II. We recognize our proportionate share of the earnings and losses from these entities. Many of our joint ventures are land development projects or high-rise/mid-rise construction projects and do not generate revenues and earnings for a number of years during the development of the property. Once development is complete, the joint ventures generally, over a relatively short

Table of Contents

period of time, are expected to generate revenues and earnings until all the assets of the entities are sold. Because there is not a steady flow of revenues and earnings from these entities, the earnings recognized from these entities will vary significantly from quarter to quarter and year to year.

In the six months ended April 30, 2008, we recognized \$105.6 million of losses from unconsolidated entities as compared to \$11.5 million of income in the comparable period of fiscal 2007. The loss in the six-month period ended April 30, 2008 was attributable to \$112.8 million of impairment charges recognized on three of our investments in unconsolidated entities.

In the three months ended April 30, 2008, we recognized \$81.6 million of losses from unconsolidated entities as compared to \$4.7 million of income in the comparable period of fiscal 2007. The loss in the three-month period ended April 30, 2008 was attributable to \$85.0 million of impairment charges recognized on two of our investments in unconsolidated entities.

INTEREST AND OTHER INCOME

For the six months ended April 30, 2008 and 2007, interest and other income was \$79.7 million and \$46.8 million, respectively. The increase in other income in the fiscal 2008 period, as compared to the comparable period of fiscal 2007, was primarily due to the recognition of a gain of \$40.2 million related to the receipt of proceeds from a condemnation judgment in the Company's favor, higher interest income and retained customer deposits, offset, in part, by a \$9.6 million gain from the sale of our cable TV and broadband internet business in the fiscal 2007 period.

For the three months ended April 30, 2008 and 2007, interest and other income was \$60.6 million and \$17.8 million, respectively. The increase in other income in the fiscal 2008 period, as compared to the comparable period of fiscal 2007, was primarily due to the recognition of a gain of \$40.2 million related to the receipt of proceeds from a condemnation judgment in the Company's favor, higher interest income and retained customer deposits.

The guidance we provided on June 3, 2008 stated that, due to the lower investment rates currently available, interest income in the second half of fiscal 2008 should be lower than interest income in the first half of fiscal 2008.

(LOSS) INCOME BEFORE INCOME TAXES

For the six-month period ended April 30, 2008, we reported a loss before tax benefits of \$306.0 million, as compared to \$146.7 million of income before taxes for the six-month period ended April 30, 2007. For the three-month period ended April 30, 2008, we reported a loss before tax benefits of \$154.0 million, as compared to \$59.5 million of income before taxes for the three-month period ended April 30, 2007.

INCOME TAXES

An income tax benefit was provided in the six-month and three-month periods ended April 30, 2008 at an effective rate of 38.0% and 39.1%, respectively. For the six-month and three-month periods ended April 30, 2007, an income tax provision was provided at an effective rate of 38.0% and 38.3%, respectively.

CAPITAL RESOURCES AND LIQUIDITY

Funding for our business has been provided principally by cash flow from operating activities, unsecured bank borrowings and the public debt and equity markets. We have used our cash flow from operating activities, bank borrowings and the proceeds of public debt and equity offerings to acquire additional land for new communities, fund additional expenditures for land development, fund construction costs needed to meet the requirements of our backlog

and the increasing number of communities in which we were offering homes for sale, invest in unconsolidated entities, repurchase our stock, and repay debt.

In the six-month period ended April 30, 2008, we generated \$335.7 million of cash, principally from operating activities. In the fiscal 2008 period, cash flow from operating activities was generated primarily from net income before inventory and investment impairment losses, reductions in inventory, and a decrease in contracts receivable

Table of Contents

related to percentage of completion accounting, offset, in part, by a decrease in accounts payable and accrued expenses (excluding accruals of estimated liabilities to various joint ventures), a decrease in customer deposits and an increase in deferred tax assets. The decreased inventory, contracts receivable, accounts payable and customer deposits were due primarily to the decline in our business as previously discussed.

In the six-month period ended April 30, 2007, we used \$79.4 million of cash, including \$83.2 million used in operating activities and \$3.2 million in financing activities, offset, in part by \$7.0 million provided by investing activities. In the fiscal 2007 period, net cash used in operating activities was primarily attributable to inventory additions, a reduction in accounts payable and accrued expenses, and a reduction in customer deposits, offset, in part, by net income before write-offs. The increase in inventory in the fiscal 2007 period was the result of our continued spending on land improvements and construction in progress, and the decrease in accounts payable, accrued expenses and customer deposits was due primarily to the decline in our business as previously discussed. For the full 2007 fiscal year, cash flow from operations was \$330.5 million and our net increase in cash was \$267.8 million.

At April 30, 2008, the aggregate purchase price of land parcels under option and purchase agreements was approximately \$1.80 billion (including \$1.04 billion of land to be acquired from joint ventures in which we have invested). Of the \$1.80 billion of land purchase commitments, we had paid or deposited \$96.7 million. Of the \$1.04 billion of land to be acquired from joint ventures, \$139.1 million of our investments in the joint ventures will be credited against the purchase price of the land. The purchases of these land parcels are scheduled over the next several years.

In general, cash flow from operating activities assumes that, as each home is delivered, we will purchase a home site to replace it. Because we own several years' supply of home sites, we do not need to buy home sites immediately to replace the ones delivered. In addition, we generally do not begin construction of our single-family detached homes until we have a signed contract with the home buyer, although in fiscal 2006 and 2007, due to an extremely high cancellation rate of customer contracts and the increase in the number of attached-home communities from which we were operating, the number of speculative homes in our inventory increased significantly. In the six-month period ended April 30, 2008, the value of net new contracts signed decreased approximately 20% versus the six-month period ended October 31, 2007. In fiscal 2007, the value of net new contracts signed decreased 33% versus fiscal 2006. In fiscal 2006, the value of net new contracts signed with home buyers decreased by 38% from fiscal 2005. Should our business remain at its current level or decline significantly from present levels, we believe that our inventory levels would continue to decrease, as we complete and deliver the homes under construction but do not commence construction of as many new homes, complete the improvements on the land we already own and sell and deliver the speculative homes that are currently in inventory, resulting in an increase in our cash flow from operations. In addition, we might continue to delay or curtail our acquisition of additional land, as we have since the second half of fiscal 2006, which would further reduce our inventory levels and cash needs. At April 30, 2008, we owned or controlled through options approximately 51,800 home sites, as compared to approximately 59,300 at October 31, 2007, and approximately 91,200 at April 30, 2006, the high point of our home sites owned and controlled.

During the past several years, we have had a significant amount of cash invested in either short-term cash equivalents or short-term interest-bearing marketable securities. In addition, we have made a number of investments in unconsolidated entities related to the acquisition and development of land for future home sites or in entities that are constructing or converting apartment buildings into luxury condominiums. Our investment activities related to marketable securities and investments in and distributions of investments from unconsolidated entities are contained in the Condensed Consolidated Statements of Cash Flows under Cash flow from investing activities.

We have a \$1.89 billion credit facility consisting of a \$1.56 billion unsecured revolving credit facility and a \$331.7 million term loan facility (collectively, the Credit Facility) with 35 banks, which extends to March 2011. At April 30, 2008, interest was payable on borrowings under the revolving credit facility at 0.475% (subject to

adjustment based upon our corporate debt rating and leverage ratios) above the Eurodollar rate or at other specified variable rates as selected by us from time to time. At April 30, 2008, we had no outstanding borrowings against the revolving credit facility but had letters of credit of approximately \$290.7 million outstanding under it. Under the term loan facility, interest is payable at 0.50% (subject to adjustment based upon our corporate debt rating and

Table of Contents

leverage ratios) above the Eurodollar rate or at other specified variable rates as selected by us from time to time. At April 30, 2008, interest was payable on the term loan at 3.31%. Under the terms of the Credit Facility, we are not permitted to allow our maximum leverage ratio (as defined in the agreement) to exceed 2.00 to 1.00 and was required to maintain a minimum tangible net worth (as defined in the agreement) of approximately \$2.30 billion at April 30, 2008. At April 30, 2008, our leverage ratio was approximately 0.31 to 1.00, and our tangible net worth was approximately \$3.18 billion.

We believe that we will be able to continue to fund our operations and meet our contractual obligations through a combination of existing cash resources and our existing sources of credit.

INFLATION

The long-term impact of inflation on us is manifested in increased costs for land, land development, construction and overhead, as well as in increased sales prices of our homes. We generally contract for land significantly before development and sales efforts begin. Accordingly, to the extent land acquisition costs are fixed, increases or decreases in the sales prices of homes will affect our profits. Because the sales price of each of our homes is fixed at the time a buyer enters into a contract to acquire a home, and because we generally contract to sell our homes before we begin construction, any inflation of costs in excess of those anticipated may result in lower gross margins. We generally attempt to minimize that effect by entering into fixed-price contracts with our subcontractors and material suppliers for specified periods of time, which generally do not exceed one year.

In general, housing demand is adversely affected by increases in interest rates and housing costs. Interest rates, the length of time that land remains in inventory and the proportion of inventory that is financed affect our interest costs. If we are unable to raise sales prices enough to compensate for higher costs, or if mortgage interest rates increase significantly, affecting prospective buyers' ability to adequately finance home purchases, our revenues, gross margins and net income would be adversely affected. Increases in sales prices, whether the result of inflation or demand, may affect the ability of prospective buyers to afford new homes.

GEOGRAPHIC SEGMENTS

We operate in four geographic segments around the United States: the North, consisting of Connecticut, Illinois, Massachusetts, Michigan, Minnesota, New Jersey, New York, and Rhode Island; the Mid-Atlantic, consisting of Delaware, Maryland, Pennsylvania, Virginia and West Virginia; the South, consisting of Florida, Georgia, North Carolina, South Carolina, and Texas; and the West, consisting of Arizona, California, Colorado and Nevada. We acquired and opened our first communities for sale in Georgia in fiscal 2007.

Table of Contents

The following table summarizes by geographic segment total revenues and (loss) income before income taxes for each of the six-month and three-month periods ended April 30, 2008 and 2007 (in millions):

	Six Months Ended		Three Months Ended	
	April 30,		April 30,	
	2008	2007	2008	2007
Revenues:				
North	\$ 466.4	\$ 458.5	\$ 239.6	\$ 247.4
Mid-Atlantic	453.9	664.5	203.6	333.2
South	294.9	534.7	155.6	286.9
West	446.4	607.6	220.0	307.2
Total	\$ 1,661.6	\$ 2,265.3	\$ 818.8	\$ 1,174.7
(Loss) income before income taxes				
North	\$ 30.3	\$ (7.7)	\$ 25.5	\$ (7.0)
Mid-Atlantic	(12.2)	120.7	(27.4)	68.2
South	(167.0)	25.9	(55.3)	21.5
West	(101.6)	62.4	(71.2)	5.5
Other	(55.5)	(54.6)	(25.6)	(28.7)
Total	\$ (306.0)	\$ 146.7	\$ (154.0)	\$ 59.5

North

Revenues in the six months ended April 30, 2008 were higher than those for the six months ended April 30, 2007 by \$7.9 million, or 2%. The increase in revenues was attributable to a 9% increase in the average price of homes delivered, partially offset by a decrease of \$22.5 million in percentage of completion revenues and a 2% decrease in the number of homes delivered. The increase in the average price of homes delivered in the six months ended April 30, 2008, as compared to the comparable period of the prior year, was primarily due to closings during the first six months of fiscal 2008 in several high-rise completed contract communities in the New York and New Jersey urban markets, which had higher average prices than our typical product; we did not have any closings of this type of product in the fiscal 2007 period. Excluding these deliveries, the average price of homes delivered in the first six months of fiscal 2008 decreased 4%, as compared to the comparable period of fiscal 2007, primarily due to higher sales incentives and a shift in the number of settlements to less expensive products and/or locations. The decrease in the number of homes delivered in the six-month period ended April 30, 2008, as compared to the same period of fiscal 2007, was primarily due to lower backlog at October 31, 2007, as compared to October 31, 2006, which was the result of an 11% decrease in the number of new contracts signed in fiscal 2007 over fiscal 2006.

For the three months ended April 30, 2008, revenues were lower than those of the comparable period in fiscal 2007 by \$7.8 million, or 3%. The decrease in revenues was the result of a decrease in percentage of completion revenues of \$25.4 million, offset, in part, by a 7% increase in the average price of homes delivered. The increase in the average price of homes delivered in the quarter ended April 30, 2008 as compared to the quarter ended April 30, 2007, was primarily due to closings in the fiscal 2008 period in several high-rise completed contract communities in the New York and New Jersey urban markets as discussed above. Excluding these deliveries, the average price of homes

delivered in the three months ended April 30, 2008 decreased 4%, as compared to the three months ended April 30, 2007, primarily due to higher sales incentives and a shift in the number of settlements to less expensive products and/or locations.

The value of net new contracts signed in the six-month and three-month periods ended April 30, 2008 was \$200.5 million and \$76.0 million, respectively, a 69% and 79% decline, respectively, from the net new contracts signed in the six-month and three-month periods ended April, 30, 2007. The decline in the six-month period of fiscal 2008 as compared to the comparable period of fiscal 2007 was due to a 62% decrease in the number of net new contracts signed and a 21% decrease in the average value of each contract. The decline in the three-month period of

Table of Contents

fiscal 2008 as compared to the comparable period of fiscal 2007 was the result of a 69% decrease in the number of net new contracts signed and a 33% decrease in the average value of each contract. The decreases in the net new contracts signed in the fiscal 2008 periods were primarily due to the continued slowdown in the housing market. The decline in the average sales price was primarily the result of: fewer net new contracts signed in the New York and New Jersey urban markets, which had higher average prices than our typical product, as several communities in these areas sold out in fiscal 2007; higher sales incentives given in the six months and three months ended April 30, 2008, as compared to the same periods in 2007; and a shift in the number of contracts signed to less expensive product in the fiscal 2008 periods, as compared to the fiscal 2007 periods. The number of contract cancellations for the six months and three months ended April 30, 2008, were 156 and 112, respectively, as compared to 97 and 57 in the six months and three months ended April 30, 2007, respectively.

We reported \$30.3 million and \$25.5 million, respectively, of income before income taxes in the six-month and three-month periods ended April 30, 2008, as compared to a loss before income taxes of \$7.7 million and \$7.0 million, respectively, in the six-month and three-month periods ended April 30, 2007. The increase in income for the six months ended April 30, 2008, as compared to the same period in fiscal 2007, was due to the recognition of a \$9.0 million charge for goodwill impairment in the first quarter of 2007 and lower costs of revenues in 2008, as compared to 2007, offset, in part, by a \$4.6 million decrease in income realized from unconsolidated entities in the six months ended April 30, 2008, as compared to the comparable period in fiscal 2007. In the three-month period ended April 30, 2008, the increase in income, as compared to the three-month period ended April 30, 2007, was the result of lower cost of revenues in 2008, as compared to 2007. The lower costs of revenues in the six-month and three-month periods ended April 30, 2008, as compared to the comparable periods of fiscal 2007, was primarily the result of the lower inventory impairment charges recognized. In the six months ended April 30, 2008, we recorded \$63.8 million of inventory impairments, as compared to \$82.7 million in the fiscal 2007 period. In the three-month periods ended April 30, 2008 and 2007, we recognized inventory impairment charges of \$26.0 million and \$49.5 million, respectively.

Mid-Atlantic

Revenues for the six-month and three-month periods ended April 30, 2008 were lower than those for the comparable periods of 2007 by \$210.6 million and \$129.6 million, or 32% and 39%, respectively. The decrease in revenues for the six-month period was attributable to a 30% decrease in the number of homes delivered (primarily in Virginia and Pennsylvania), and a 2% decrease in the average sales price of the homes delivered. The decrease in revenues for the three-month period ended April 30, 2008 was due to 37% and 3% decreases in the number of homes and average price of homes delivered, respectively. The decreases in the number of homes delivered were primarily due to a lower backlog at October 31, 2007, as compared to October 31, 2006. The decrease in the backlog of homes was primarily the result of a 23% decrease in the number of net new contracts signed in fiscal 2007 over fiscal 2006 due to weak demand. The decreases in the average price of the homes delivered in the fiscal 2008 periods, as compared to the fiscal 2007 periods, were primarily related to higher sales incentives given in fiscal 2008, as compared to fiscal 2007.

The value of net new contracts signed in the six months ended April 30, 2008 of \$325.1 million decreased 41% from the net new contracts signed of \$553.2 million in the comparable period of fiscal 2007. The decline was due to a 34% decrease in the number of contracts signed and an 11% decrease in the average value of each contract. The value of net new contracts signed during the three-month period ended April 30, 2008 was \$194.6 million, a decrease of 44% from the \$346.0 million of net new contracts signed in the comparable period of fiscal 2007. This decrease was due to a 35% decrease in the number of net new contracts signed and a 13% decrease in the average value of each contract. The declines in the number of net new contracts signed were due primarily to continued weak demand, partially offset by lower cancellations. The number of contract cancellations decreased from 147 and 59 in the six-month and three-month periods ended April 30, 2007 to 94 and 51 in the comparable periods of fiscal 2008. The decrease in the average value of each contract was primarily attributable to higher sales incentives in the fiscal 2008 periods, as

compared to the fiscal 2007 periods, and a shift in the number of contracts signed to less expensive products in Maryland and Virginia in the fiscal 2008 periods, as compared to the fiscal 2007 periods.

Table of Contents

We reported a loss before income taxes for the six months and three months ended April 30, 2008 of \$12.2 million and \$27.4 million, respectively, as compared to income before taxes of \$120.7 million and \$68.2 million for the same periods in 2007, respectively. These declines were primarily due to higher cost of revenues as a percentage of revenues in the fiscal 2008 periods, as compared to the comparable periods of fiscal 2007, offset, in part, by lower selling, general and administrative expenses. For the six-month and three-month periods ended April 30, 2008, cost of revenues before interest as a percentage of revenues was 92.3% and 102.8%, respectively, as compared to 73.7% and 71.2%, respectively, in the comparable periods of fiscal 2007. The increases in the fiscal 2008 percentages were primarily the result of the higher inventory impairment charges recognized as a percentage of revenues and increased sales incentives given to home buyers on the homes delivered. We recognized inventory impairment charges of \$79.4 million and \$56.6 million in the six months and three months ended April 30, 2008, respectively, as compared to \$23.6 million and \$0.8 million in the comparable periods of fiscal 2007. As a percentage of revenues, higher sales incentives increased cost of revenues approximately 3.8% and 4.5%, respectively, in the six-month and three-month periods ended April 30, 2008, as compared to the comparable periods of fiscal 2007.

South

Revenues for the six months ended April 30, 2008 were lower than those for the six months ended April 30, 2007 by \$239.8 million, or 45%. The decrease in revenues was attributable to a 34% decrease in the number of homes delivered, a 12% decrease in the average selling price of the homes delivered, and a reduction in percentage of completion revenues of \$25.5 million. Revenues for the three months ended April 30, 2008 were lower than those for the comparable period of 2007 by approximately \$131.3 million, or 46%. The decrease in the revenues was attributable to a 38% decrease in the number of homes delivered, a 14% decrease in the average selling price of homes delivered and a \$5.4 million reduction in percentage of completion revenues. The decreases in the number of homes delivered were primarily attributable to our Florida operations, where we had a lower number of homes in backlog at October 31, 2007, as compared to October 31, 2006. The decreases in the average price of the homes delivered in the fiscal 2008 periods, as compared to the fiscal 2007 periods, were due to higher sales incentives and a shift in the number of settlements to less expensive areas, primarily in Florida.

The value of net new contracts signed in the six-month and three-month periods ended April 30, 2008 was \$204.3 million and \$114.9 million, respectively, a 29% and 31% decline, respectively, from the net new contracts signed in the six-month and three-month periods ended April 30, 2007. The decline in the six-month period of fiscal 2008, as compared to the comparable period of fiscal 2007, was due to a 17% decrease in the number of net new contracts signed and a 14% decrease in the average value of each contract. The decline in the three-month period of fiscal 2008, as compared to the comparable period of fiscal 2007, was due to a 17% decrease in the number of net new contracts signed and a 16% decrease in the average value of each contract. The decreases in the number of net new contracts signed were attributable to overall continued weak market conditions in North Carolina, South Carolina and Texas. In Florida, the number of net new contracts signed in the six months and three months ended April 30, 2008 increased 50% and 32%, respectively, as compared to comparable periods in fiscal 2007. The increases in net new contracts signed in Florida were due primarily to the decrease in the number of cancellations from 190 and 80 in the six-month and three-month periods ended April 30, 2007, respectively, to 64 and 27 in the comparable periods of fiscal 2008, respectively. The number of cancellations in this geographic segment for the six months and three months ended April 30, 2007 was 240 and 110, respectively, and 129 and 66 for the six months and three months ended April 30, 2008, respectively. The decrease in the average value of each contract signed in this geographic segment was primarily due to lower average sales prices in Florida, which were the result of higher sales incentives and a shift in the number of contracts signed to less expensive areas and products in the fiscal 2008 periods, as compared to the fiscal 2007 periods. In addition, the average value of each contract signed in Florida for the six months ended April 30, 2008 was negatively impacted by cancellations at high-rise projects in the first quarter of 2008, which carried a higher average value per cancelled contract. The decreases in Florida's average value of each contract signed were offset, in part, by an increase in the average value of contracts signed in North Carolina, which was primarily

due to a shift in the number of contracts signed to areas with higher priced homes in the fiscal 2008 periods, as compared to the comparable periods of fiscal 2007.

Table of Contents

We reported a loss before income taxes of \$167.0 million and \$55.3 million, respectively, in the six-month and three-month periods ended April 30, 2008, as compared to income before income taxes of \$25.9 million and \$21.5 million, respectively, in the six-month and three-month periods ended April 30, 2007. These decreases were primarily due to higher cost of revenues as a percentage of revenues in the fiscal 2008 periods, as compared to the fiscal 2007 periods, partially offset by lower selling, general and administrative expenses in the fiscal 2008 periods, as compared to the fiscal 2007 periods. Cost of revenues before interest as a percentage of revenues was 142.6% in the six months ended April 30, 2008, as compared to 85.2% in the comparable period of fiscal 2007. For the three months ended April 30, 2008 and 2007, cost of revenues before interest as a percentage of revenues was 122.4% and 82.8%, respectively. The increases in the fiscal 2008 percentages were primarily due to the higher inventory impairment charges recognized as well as increased sales incentives given to home buyers on the homes delivered during the fiscal 2008 periods, as compared to the comparable periods of fiscal 2007. In the six months ended April 30, 2008, we recorded \$180.8 million of inventory impairments, as compared to \$46.8 million in the fiscal 2007 period. In the three-month periods ended April 30, 2008 and 2007, we recognized inventory impairment charges of \$64.6 million and \$16.4 million, respectively. As a percentage of revenues, higher sales incentives increased cost of revenues approximately 5.7% and 5.5%, respectively, in the six-month and three-month periods ended April 30, 2008, as compared to the fiscal 2007 periods.

West

Revenues for the six-month and three-month periods ended April 30, 2008 were lower than those for the comparable periods of 2007 by \$161.2 million and \$87.2 million, or 27% and 28%, respectively. The decrease in revenues for the six-month period was attributable to a 29% decrease in the number of homes delivered, partially offset by a 3% increase in the average selling price of homes delivered. The decrease in revenues for the three months ended April 30, 2008 was due to a 29% decrease in the number of homes delivered. The decrease in the number of homes delivered was primarily attributable to the lower number of homes in backlog at October 31, 2007, as compared to October 31, 2006, partially offset by a decrease in the number of contract cancellations in the fiscal 2008 periods, as compared to the fiscal 2007 periods. The increase in the average price of homes delivered in the six months ended April 30, 2008, as compared to the same period in fiscal 2007, was primarily due to a change in product mix in Arizona to communities with higher average selling prices, offset, in part, by a decrease in the average price of homes delivered in Nevada, due primarily to higher sales incentives.

The value of net new contracts signed in the six-month period ended April 30, 2008 of \$141.6 million decreased 66% from the net new contracts signed of \$420.6 million in the six-month period ended April 30, 2007. The decline was due primarily to a 42% decrease in both the number of contracts signed and the average value of each contract. The value of net new contracts signed during the three-month period ended April 30, 2008 was \$111.0 million, a decrease of 62% from the \$291.3 million of net new contracts signed in the comparable period of fiscal 2007. This decrease was due to a 40% decrease in the number of net new contracts signed and a 37% decrease in the average value of each contract. The decrease in the number of net new contracts signed was primarily due to continued depressed market conditions. In the six months and three months ended April 30, 2008, we had 186 and 79 contract cancellations, respectively, as compared to 336 and 158 in the comparable periods of 2007, respectively. The decreases in the average value of each contract signed were attributable to the increases in sales incentives given in the fiscal 2008 periods, as compared to the fiscal 2007 periods and, in Arizona, in the 2008 fiscal periods, the higher average value of the contracts cancelled, which resulted in a significantly lower average value of net new contracts signed.

We reported \$101.6 million and \$71.2 million of losses before income taxes in the six-month and three-month periods ended April 30, 2008, respectively, as compared to income before income taxes of \$62.4 million and \$5.5 million, respectively, in the six-month and three-month periods ended April 30, 2007. These decreases were attributable to lower revenues and higher cost of revenues in the fiscal 2008 periods, as compared to the fiscal 2007 periods, and impairment charges of \$112.8 million and \$85.0 million in the six months and three months ended April 30, 2008,

respectively, related to unconsolidated entities in which we have investments. For the six-month and three-month periods ended April 30, 2008, cost of revenues before interest as a percentage of revenues was 96.1% and 102.0%, respectively, as compared to 80.4% and 88.5%, respectively, in the comparable periods of fiscal 2007. The increases in the fiscal 2008 percentages were primarily the result of the higher inventory impairment charges

Table of Contents

recognized and increased sales incentives given to home buyers on the homes delivered. We recognized inventory impairment charges of \$96.8 million and \$55.9 million in the six months and three months ended April 30, 2008 and 2007, respectively, as compared to \$63.5 million and \$53.0 million in the comparable periods of fiscal 2007. As a percentage of revenues, higher sales incentives increased cost of revenues approximately 3.9% and 8.7%, respectively, in the six months and three months ended April 30, 2008, as compared to the comparable periods of fiscal 2007. This geographic segment also benefited from the recognition of \$40.2 million of income, in the six-month and three-month periods of fiscal 2008, related to the receipt of proceeds from a favorable condemnation judgment on property we owned.

Other

Other loss before income taxes for the six months ended April 30, 2008 was \$55.5 million, an increase of \$0.8 million from the \$54.6 million loss before income taxes reported for the six months ended April 30, 2007. This increase was primarily the result of a \$9.6 million gain realized from the sale of our cable TV and broadband internet business in fiscal 2007 and lower management fee income in the fiscal 2008 period as compared to the fiscal 2007 period, partially offset by higher interest income and lower corporate general and administrative expenses in the fiscal 2008 period, as compared to the fiscal 2007 period.

For the three months ended April 30, 2008 and 2007, other loss before income taxes was \$25.6 million and \$28.7 million, respectively. This decrease was primarily due to higher interest income in the three-month period ended April 30, 2008, as compared to same period in fiscal 2007.

Extended Delivery Communities:

We currently have several multi-family projects that have construction periods in excess of the construction periods of our traditional product. Information pertaining to revenues and contracts for extended delivery communities for the six-month and three-month periods ended April 30, 2008 and backlog at April 30, 2008 and 2007 is shown below. We had no deliveries from these communities in the six months ended April 30, 2007.

Total	26.4%	23.5%	33.1%	23.6%

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risk primarily due to fluctuations in interest rates. We utilize both fixed-rate and variable-rate debt. For fixed-rate debt, changes in interest rates generally affect the fair market value of the debt instrument, but not our earnings or cash flow. Conversely, for variable-rate debt, changes in interest rates generally do not impact the fair market value of the debt instrument, but do affect our earnings and cash flow. We do not have the obligation to prepay fixed-rate debt prior to maturity, and, as a result, interest rate risk and changes in fair market value should not have a significant impact on our fixed-rate debt until we are required or elect to refinance it.

The table below sets forth, at April 30, 2008, our debt obligations, principal cash flows by scheduled maturity, weighted-average interest rates and estimated fair value (amounts in thousands):

Fiscal Year of Maturity	Fixed-Rate Debt		Variable-Rate Debt(a)(b)	
	Amount	Weighted Average Interest Rate	Amount	Weighted Average Interest Rate
2008	\$ 36,006	6.02%	\$ 94,521	5.64%
2009	29,830	7.45%	173,645	3.86%
2010	21,117	6.38%	150	2.60%
2011	270,393	7.91%	331,817	3.31%
2012	150,063	8.25%	150	2.60%
Thereafter	1,155,146	5.72%	12,695	3.25%
Discount	(7,124)			
Total	\$ 1,655,431	6.35%	\$ 612,978	3.82%

Fair value at April 30, 2008	\$ 1,566,446	\$ 612,978
------------------------------	--------------	------------

- (a) We have a \$1.89 billion credit facility consisting of a \$1.56 billion unsecured revolving credit facility and a \$331.7 million term loan facility (collectively, the Credit Facility) with 35 banks, which extends to March 17, 2011. At April 30, 2008, interest was payable on borrowings under the revolving credit facility at 0.475% (subject to adjustment based upon our corporate debt rating and leverage ratios) above the Eurodollar rate or at other specified variable rates as selected by us from time to time. At April 30, 2008, we had no outstanding borrowings against the revolving credit facility, but had letters of credit of approximately \$290.7 million outstanding under it. Under the term loan facility, interest is payable at 0.50% (subject to adjustment based upon our corporate debt rating and leverage ratios) above the Eurodollar rate or at other specified variable rates as selected by us from time to time. At April 30, 2008, interest was payable on the \$331.7 million term loan at 3.31%.

Table of Contents

- (b) At April 30, 2008, our mortgage subsidiary had a \$125 million line of credit with three banks to fund mortgage originations. The line is due within 90 days of demand by the banks and bears interest at the banks' overnight rate plus an agreed-upon margin. At April 30, 2008, the subsidiary had \$56.7 million outstanding under the line at an average interest rate of 3.16%. Borrowings under this line are included in the fiscal 2008 maturities.

Based upon the amount of variable-rate debt outstanding at April 30, 2008, and holding the variable-rate debt balance constant, each 1% increase in interest rates would increase the interest incurred by us by approximately \$6.1 million per year.

ITEM 4. CONTROLS AND PROCEDURES

A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints and the benefits of controls must be considered relative to costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected. Our disclosure controls and procedures are designed to provide reasonable assurance of achieving their objectives.

Our chief executive officer and chief financial officer, with the assistance of management, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) (the Exchange Act) as of the end of the period covered by this report (the Evaluation Date). Based on that evaluation, our chief executive officer and chief financial officer concluded that, as of the Evaluation Date, our disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed in our reports under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to management, including our chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure.

There has not been any change in internal control over financial reporting during our quarter ended April 30, 2008 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

In January 2006, we received a request for information pursuant to Section 308 of the Clean Water Act from Region 3 of the U.S. Environmental Protection Agency (the EPA) requesting information about storm water discharge practices in connection with our homebuilding projects in the states that comprise EPA Region 3. The U.S. Department of Justice (DOJ) has now assumed responsibility for the oversight of this matter. To the extent the DOJ's review were to lead it to assert violations of state and/or federal regulatory requirements and request injunctive relief and/or civil penalties, we would defend and attempt to resolve any such asserted violations. At this time, we cannot predict the outcome of the DOJ's review.

In October 2006, the Illinois Attorney General and State Attorney of Lake County IL brought suit against us, alleging violations in Lake County, IL of certain storm water discharge regulations. We are in the process of resolving the alleged violations. At this time, we cannot predict the outcome of this litigation, but we do not believe it will have a material effect on our business or financial position.

On April 17, 2007, a securities class action suit was filed against Toll Brothers, Inc. and Robert I. Toll and Bruce E. Toll in the U.S. District Court for the Eastern District of Pennsylvania. The original plaintiff, Desmond Lowrey, has been replaced by two new lead plaintiffs The City of Hialeah Employees Retirement System and the Laborers Pension Trust Funds for Northern California. On August 14, 2007, an amended complaint was filed on behalf of the purported class of purchasers of our common stock between December 9, 2004 and November 8, 2005

Table of Contents

and the following individual defendants, who are directors and/or officers of Toll Brothers, Inc., were added to the suit: Zvi Barzilay, Joel H. Rassman, Robert S. Blank, Richard J. Braemer, Carl B. Marbach, Paul E. Shapiro, and Joseph R. Sicree. The amended complaint filed on behalf of the purported class alleges that the defendants violated federal securities laws by issuing various materially false and misleading statements that had the effect of artificially inflating the market price of our stock. They further allege that the individual defendants sold shares for a substantial gain. The purported class is seeking compensatory damages, counsel fees, and expert costs. We have responded to the amended complaint by filing a motion to dismiss, challenging the sufficiency of the pleadings. There has not yet been any ruling on our motion. We believe that this lawsuit is without merit and intend to continue to vigorously defend against it.

A second securities class action suit was filed on September 7, 2007 in federal court in the Central District of California. In the complaint, the plaintiff, on behalf of the purported class of stockholders, alleged that our Chief Financial Officer violated federal securities laws by issuing various materially false and misleading statements and sought compensatory damages, counsel fees and expert costs. The alleged class period was December 8, 2005 to August 22, 2007. The original plaintiff, Kathy Mankofsky, was replaced by a new lead plaintiff the Massachusetts Bricklayers & Masons Trust Funds. On March 21, 2008, the plaintiff voluntarily dismissed this action without prejudice.

We are involved in various other claims and litigation arising in the ordinary course of business. We believe that the disposition of these matters will not have a material effect on our business or on our financial condition.

ITEM 1A. RISK FACTORS

The following Risk Factor was included in our Form 10-Q for the period ended January 31, 2008 and is repeated below without change.

We participate in certain joint ventures where we may be adversely impacted by the failure of the joint venture or its participants to fulfill their obligations.

We have investments and commitments to certain joint ventures with unrelated parties to develop land. These joint ventures usually borrow money to help finance their activities. In certain circumstances, the joint venture participants, including ourselves, are required to provide guarantees of certain obligations relating to the joint ventures. As a result of the continued downturn in the homebuilding industry, some of these joint ventures or their participants have or may become unable or unwilling to fulfill their respective obligations. In addition, we may not have a controlling interest in these joint ventures and, as a result, we may not be able to require these joint ventures or their participants to honor their obligations or renegotiate them on acceptable terms. If the joint ventures or their participants do not honor their obligations, we may be required to expend additional resources or suffer losses, which could be significant.

Except as set forth above, there has been no material change in our risk factors as previously disclosed in our Form 10-K for the fiscal year ended October 31, 2007 in response to Item 1A. to Part 1 of such Form 10-K.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

During the three months ended April 30, 2008, we repurchased the following shares of our common stock:

Total Number of	Average Price	Total Number of Shares	Maximum Number of Shares That May Yet be
--------------------	------------------	---------------------------	--

Period	Shares Purchased(1) (In thousands)	Paid per Share	Purchased as Part of a Publicly Announced Plan or Program(2) (In thousands)	Purchased Under the Plan or Program(2) (In thousands)
February 1, 2008 to February 29, 2008	12	22.26	12	12,005
March 1, 2008 to March 31, 2008	18	20.17	18	11,987
April 1, 2008 to April 30, 2008	8	23.51	8	11,979

Table of Contents

- (1) Our stock option plans permit optionees to exercise stock options using a net exercise method at the discretion of the Executive Compensation Committee of our Board of Directors or its authorized delegee. In a net exercise, we withhold from the total number of shares that otherwise would be issued to the optionee upon exercise of the stock option that number of shares having a fair market value at the time of exercise equal to the option exercise price and applicable income tax withholdings, and remit the remaining shares to the optionee. During the three-month period ended April 30, 2008, the net exercise method was employed to exercise one option to acquire 250,000 shares of our common stock; we withheld 152,635 of the shares subject to the option to cover \$3.0 million of option exercise costs and income tax withholdings and issued 97,365 shares to the optionee.
- (2) On March 26, 2003, we announced that our Board of Directors had authorized the repurchase of up to 20 million shares of our common stock, par value \$.01, from time to time, in open market transactions or otherwise, for the purpose of providing shares for our various employee benefit plans. The Board of Directors did not fix an expiration date for the repurchase program.

Except as set forth above, we have not repurchased any of our equity securities.

We have not paid any cash dividends on our common stock to date and expect that, for the foreseeable future, we will not do so. Rather, we will follow a policy of retaining earnings in order to finance future growth in our business and, from time to time, repurchase shares of our common stock.

The payment of dividends is within the discretion of our Board of Directors and any decision to pay dividends in the future will depend upon an evaluation of a number of factors, including our earnings, capital requirements, our operating and financial condition, and any contractual limitations then in effect. In this regard, our senior subordinated notes contain restrictions on the amount of dividends we may pay on our common stock. In addition, our Credit Facility requires us to maintain a minimum tangible net worth (as defined in the credit agreement), which restricts the amount of dividends we may pay. At April 30, 2008, under the most restrictive of these provisions, we could have paid up to approximately \$880 million of cash dividends.

ITEM 3. *DEFAULTS UPON SENIOR SECURITIES*

None

ITEM 4. *SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS*

Our 2008 Annual Meeting of Stockholders was held on March 12, 2008. There were 158,463,825 shares of our common stock eligible to vote at the meeting. The following proposals were submitted to and approved by stockholders at the meeting.

1. The election of three directors to hold office until the 2011 Annual Meeting of Stockholders and until their respective successors are duly elected and qualified.
