Report of Independent Auditors

The Plan Administrators and Participants  
O'Reilly Automotive, Inc.  
Profit Sharing and Savings Plan

We have audited the accompanying statements of net assets available for plan benefits (modified cash basis) of the O'Reilly Automotive, Inc. Profit Sharing and Savings Plan (the Plan) as of December 31, 2000 and 1999, and the related statement of changes in net assets available for plan benefits (modified cash basis) for the year ended December 31, 2000. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted

Edgar Filing: O REILLY AUTOMOTIVE INC - Form 11-K

in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in Note 1, these financial statements and supplemental schedules were prepared on the modified cash basis, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits (modified cash basis) of the Plan at December 31, 2000 and 1999, and the changes in net assets available for plan benefits (modified cash basis) for the year ended December 31, 2000, on the basis of accounting described in Note 1.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedules of assets held for investment purposes at the end of the year, and reportable transactions for the year then ended, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental

schedules have been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, are fairly stated, in all material respects, in relation to the financial statements taken as a whole.

Notes to Financial Statements

December 31, 2000

1. Summary of Significant Accounting Policies

The following is a summary of the significant accounting policies of the O'Reilly Automotive, Inc. (the "Company") Profit Sharing and Savings Plan (the "Plan"):

Basis of Presentation

The accompanying financial statements have been prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles. Under this basis, contributions are recorded when received rather than in the period to which they relate, and expenses are recorded when paid rather than when incurred.

Valuation of Investments

The value of investments in common and collective trusts, registered investment company funds and O'Reilly Automotive, Inc. common stock is based on quoted market values received from SunTrust Bank, Central Florida, N.A. (SunTrust) on the last business day of the plan year.

Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

### 2. Description of the Plan

The following description of the Plan is provided for general information only. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

The Plan is a defined contribution pension plan providing retirement benefits to substantially all employees of the Company who have attained age 21 and completed six months and at least 1,000 hours of service in a 12-consecutive-month period of employment. The Plan is sponsored by the Company and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan allows participants to contribute up to 15% of their annual compensation to the Plan. At its discretion, the Company has elected to contribute 50% of each employee's voluntary contribution up to 2% of the employee's compensation and 25% of the next 2% of each employee's voluntary contribution. Additionally, the Company may make voluntary contributions to the Plan annually, as determined by its Board of Directors, up to a maximum aggregate company contribution of 15% of participants' annual compensation. All employer contributions are invested in the O'Reilly Automotive, Inc. Stock Fund. During the year ended December 31, 2000, the Plan received discretionary contributions from the Company amounting to \$1,918,600, not including matching contributions.

Each participant's account is credited with the participant's contribution and an allocation of the Company's contribution and Plan earnings. Allocations of Company contributions are based on participant contributions and compensation. Allocations of Plan earnings are based on participants' account balances. Forfeitures of terminated participants' non-vested accounts are allocated based on participant compensation.

Participants are immediately vested with respect to their voluntary contributions. With respect to employer contributions, participants become 20% vested after three years of service with the Company. Vesting increases in 20% increments annually to 100% after seven years.

Participating employees are entitled to borrow from the Plan the lesser of \$50,000 or 50% of the employee's vested account balance at a rate equal to one percentage point above the prime interest rate in effect as reported in the Wall Street Journal on the last business day of the month prior to the date the loan is made. Loans are repaid by payroll deductions over a period no longer than ten years.

### 2. Description of the Plan (continued)

## Edgar Filing: O REILLY AUTOMOTIVE INC - Form 11-K

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Benefit distributions are payable in monthly installments to the beneficiary or in a lump sum, as elected by the participant. At December 31, 2000, and 1999, terminated employees had approximately \$703,184 and \$259,000, respectively, included in net assets available for plan benefits which were to be paid in 2001 and 2000, respectively. The Plan pays all administrative expenses. During 2000 administrative expenses totaled \$168,500 and are included in the net realized/unrealized appreciation in fair value of investments in the accompanying Statement of Changes in Net Assets Available for Plan Benefits.

### 3. Investments

At December 31, 2000, and 1999, the Plan's investments are held by SunTrust, in a bank-administered trust fund. SunTrust has authority for the purchase and sale of investments based on participant discretion, subject to certain restrictions as specified in the trust agreement and in ERISA.
