Tanger Properties Limited Partnership Yes No

The aggregate market value of voting shares held by non-affiliates of Tanger Factory Outlet Centers, Inc. was approximately \$2,986,664,064 based on the closing price on the New York Stock Exchange for such shares on June 30, 2015.

The number of Common Shares of Tanger Factory Outlet Centers, Inc. outstanding as of February 1, 2016 was 95,880,825.

Documents Incorporated By Reference

Part III incorporates certain information by reference from Tanger Factory Outlet Center, Inc.'s definitive proxy statement to be filed with respect to the 2016 Annual Meeting of Shareholders.

PART I

EXPLANATORY NOTE

This report combines the annual reports on Form 10-K for the year ended December 31, 2015 of Tanger Factory Outlet Centers, Inc. and Tanger Properties Limited Partnership. Unless the context indicates otherwise, the term "Company", refers to Tanger Factory Outlet Centers, Inc. and subsidiaries and the term "Operating Partnership" refers to Tanger Properties Limited Partnership and subsidiaries. The terms "we", "our" and "us" refer to the Company or the Company and the Operating Partnership together, as the text requires.

Tanger Factory Outlet Centers, Inc. and subsidiaries is one of the largest owners and operators of outlet centers in the United States and Canada. The Company is a fully-integrated, self-administered and self-managed real estate investment trust, ("REIT"), which, through its controlling interest in the Operating Partnership, focuses exclusively on developing, acquiring, owning, operating and managing outlet shopping centers. The outlet centers and other assets are held by, and all of the operations are conducted by, the Operating Partnership and its subsidiaries. Accordingly, the descriptions of the business, employees and properties of the Company are also descriptions of the business, employees and properties of the Operating Partnership.

The Company owns the majority of the units of partnership interest issued by the Operating Partnership through its two wholly-owned subsidiaries, Tanger GP Trust and Tanger LP Trust. Tanger GP Trust controls the Operating Partnership as its sole general partner. Tanger LP Trust holds a limited partnership interest. As of December 31, 2015, the Company, through its ownership of Tanger GP Trust and Tanger LP Trust, owned 95,880,825 units of the Operating Partnership and other limited partners (the "Non-Company LPs") collectively owned 5,052,743 Class A common limited partnership units. Each Class A common limited partnership unit held by the Non-Company LPs is exchangeable for one of the Company's common shares, subject to certain limitations to preserve the Company's status as a REIT. Class B common limited partnership units, which are held by Tanger LP Trust, are not exchangeable for common shares of the Company.

Management operates the Company and the Operating Partnership as one enterprise. The management of the Company consists of the same members as the management of the Operating Partnership. These individuals are officers of the Company and employees of the Operating Partnership. The individuals that comprise the Company's Board of Directors are also the same individuals that make up Tanger GP Trust's Board of Trustees.

We believe combining the annual reports on Form 10-K of the Company and the Operating Partnership into this single report results in the following benefits:

- enhancing investors' understanding of the Company and the Operating Partnership by enabling investors to view the business as a whole in the same manner as management views and operates the business;
- eliminating duplicative disclosure and providing a more streamlined and readable presentation since a substantial portion of the disclosure applies to both the Company and the Operating Partnership; and
- creating time and cost efficiencies through the preparation of one combined report instead of two separate reports.

There are only a few differences between the Company and the Operating Partnership, which are reflected in the disclosure in this report. We believe it is important, however to understand these differences between the Company and the Operating Partnership in the context of how the Company and the Operating Partnership operate as an interrelated consolidated company. As stated above, the Company is a REIT, whose only material asset is its ownership of partnership interests of the Operating Partnership through its wholly-owned subsidiaries, the Tanger GP Trust and Tanger LP Trust. As a result, the Company does not conduct business itself, other than issuing public equity from time to time and incurring expenses required to operate as a public company. However, all operating expenses incurred by the Company are reimbursed by the Operating Partnership, thus the only material item on the Company's income statement is its equity in the earnings of the Operating Partnership. Therefore, the assets and liabilities and the revenues and expenses of the Company and the Operating Partnership are the same on their respective financial statements, except for immaterial differences related to cash, other assets and accrued liabilities that arise from public company expenses paid by the Company. The Company itself does not hold any indebtedness but does guarantee certain debt of the Operating Partnership, as disclosed in this report.

The Operating Partnership holds all of the outlet centers and other assets, including the ownership interests in consolidated and unconsolidated joint ventures. The Operating Partnership conducts the operations of the business and is structured as a partnership with no publicly traded equity. Except for net proceeds from public equity issuances by the Company, which are contributed to the Operating Partnership in exchange for partnership units, the Operating Partnership generates the capital required through its operations, its incurrence of indebtedness or through the issuance of partnership units.

Noncontrolling interests, shareholder's equity and partners' capital are the main areas of difference between the consolidated financial statements of the Company and those of the Operating Partnership. The limited partnership interests in the Operating Partnership held by the Non-Company LPs are accounted for as partners' capital in the Operating Partnership's financial statements and as noncontrolling interests in the Company's financial statements.

To help investors understand the significant differences between the Company and the Operating Partnership, this report presents the following separate sections for each of the Company and the Operating Partnership:

- Consolidated financial statements;

- The following notes to the consolidated financial statements:

- Debt of the Company and the Operating Partnership;

- Shareholders' Equity and Partners' Equity;

- Earnings Per Share and Earnings Per Unit;

- Accumulated Other Comprehensive Income of the Company and the Operating Partnership;

- Liquidity and Capital Resources in the Management's Discussion and Analysis of Financial Condition and Results of Operations.

This report also includes separate Item 9A. Controls and Procedures sections and separate Exhibit 31 and 32 certifications for each of the Company and the Operating Partnership in order to establish that the Chief Executive Officer and the Chief Financial Officer of each entity have made the requisite certifications and that the Company and Operating Partnership are compliant with Rule 13a-15 or Rule 15d-15 of the Securities Exchange Act of 1934 and 18 U.S.C. §1350.

The separate sections in this report for the Company and the Operating Partnership specifically refer to the Company and the Operating Partnership. In the sections that combine disclosure of the Company and the Operating Partnership, this report refers to actions or holdings as being actions or holdings of the Company. Although the Operating Partnership is generally the entity that enters into contracts and joint ventures and holds assets and debt, reference to the Company is appropriate because the business is one enterprise and the Company operates the business through the Operating Partnership.

As the 100% owner of Tanger GP Trust, the general partner with control of the Operating Partnership, the Company consolidates the Operating Partnership for financial reporting purposes. The separate discussions of the Company and the Operating Partnership in this report should be read in conjunction with each other to understand the results of the Company on a consolidated basis and how management operates the Company.

ITEM 1. BUSINESS

The Company and the Operating Partnership

Tanger Factory Outlet Centers, Inc. and subsidiaries is one of the largest owners and operators of outlet centers in the United States and Canada. We are a fully-integrated, self-administered and self-managed REIT, which focuses exclusively on developing, acquiring, owning, operating and managing outlet shopping centers. As of December 31, 2015, our consolidated portfolio consisted of 34 outlet centers, with a total gross leasable area of approximately 11.7 million square feet, which were 97% occupied and contained over 2,400 stores representing approximately 400 store brands. We also had partial ownership interests in 9 unconsolidated outlet centers totaling approximately 2.7 million square feet, including 4 outlet centers in Canada.

Our outlet centers and other assets are held by, and all of our operations are conducted by, Tanger Properties Limited Partnership and subsidiaries. The Company owns the majority of the units of partnership interest issued by the Operating Partnership, through its two wholly-owned subsidiaries, Tanger GP Trust and Tanger LP Trust. Tanger GP Trust controls the Operating Partnership as its sole general partner. Tanger LP Trust holds a limited partnership interest.

As of December 31, 2015, the Company, through its ownership of the Tanger GP and Tanger LP Trusts, owned 95,880,825 units of the Operating Partnership and the Non-Company LPs collectively owned 5,052,743 Class A common limited partnership units. Each Class A common limited partnership unit held by the Non-Company LPs is exchangeable for one of the Company's common shares, subject to certain limitations to preserve the Company's status as a REIT. Class B common limited partnership units, which are held by Tanger LP Trust, are not exchangeable for common shares of the Company.

Ownership of the Company's common shares is restricted to preserve the Company's status as a REIT for federal income tax purposes. Subject to certain exceptions, a person may not actually or constructively own more than 4% of our common shares. We also operate in a manner intended to enable us to preserve our status as a REIT, including, among other things, making distributions with respect to our then outstanding common shares and preferred shares, if applicable, equal to at least 90% of our taxable income each year.

The Company is a North Carolina corporation that was incorporated in March 1993 and the Operating Partnership is a North Carolina partnership that was formed in May 1993. Our executive offices are currently located at 3200 Northline Avenue, Suite 360, Greensboro, North Carolina, 27408 and our telephone number is (336) 292-3010. Our website can be accessed at www.tangeroutlet.com. A copy of our 10-Ks, 10-Qs, 8-Ks and any amendments thereto can be obtained, free of charge, on our website as soon as reasonably practicable after we file such material with, or furnish it to, the Securities and Exchange Commission (the "SEC"). The information found on, or otherwise accessible through, our website is not incorporated into, and does not form a part of, this annual report on Form 10-K or any other report or document we file with or furnish to the SEC.

Recent Developments

New Development of Consolidated Outlet Centers

Foxwoods

In May 2015, we opened an approximately 312,000 square foot outlet center at the Foxwoods Resort Casino in Mashantucket, Connecticut. We own a controlling interest in the joint venture which is consolidated for financial reporting purposes. As of December 31, 2015, our partner's equity contributions totaled approximately \$1.0 million and our equity contributions totaled approximately \$58.8 million. Contributions we make in excess of \$40.0 million earn a preferred rate of return of 15% from the date of contribution. In addition, each partner earns a rate of return of 10% on their initial capital contributions from the date of contribution. Under the terms of the joint venture's operating agreement, upon liquidation, we would receive all of our unreturned contributions and all unpaid returns earned on those contributions prior to any distributions being made to our partner. Accordingly, we expect our current economic interest in the venture's cash flow to be greater than our legal ownership percentage of 67%. As of December 31, 2015, based upon the liquidation proceeds we would receive from a hypothetical liquidation of our investment based on depreciated book value, our economic interest would represent substantially all of the economic benefit of the property. Our economic interest may fluctuate based on a number of factors, including mortgage financing, partnership capital contributions and distributions, and proceeds from asset sales.

In December 2014, the consolidated joint venture closed on a mortgage loan with the ability to borrow up to \$70.3 million at an interest rate of LIBOR + 1.65%. The loan initially matures in December 2017, with two one-year extension options. As of December 31, 2015, the balance on the loan was \$70.3 million.

Grand Rapids

In July 2015, we opened an approximately 352,000 square foot wholly-owned outlet center near Grand Rapids, Michigan. The outlet center is located 11 miles south of downtown Grand Rapids at the southwest quadrant of US-131 and 84th Street in Byron Township, Michigan, with visibility from both roads.

Southaven

In November 2015, we opened an approximately 320,000 square foot outlet center in Southaven, Mississippi. In January 2015, we purchased land for approximately \$14.8 million and commenced construction on the development of Tanger Outlets Southaven, which is located less than five miles south of Memphis, Tennessee. We own a controlling interest in the joint venture which is consolidated for financial reporting purposes. As of December 31, 2015, our partner's equity contributions totaled approximately \$461,000 and our equity contributions totaled approximately \$26.5 million. From the date our equity contributions are made, we earn a preferred rate of return of 10% for senior contributions and 14% for junior contributions. As of December 31, 2015, the balance of our senior contributions was \$17.7 million and our junior contributions was \$8.3 million.

Under the terms of the joint venture's operating agreement, upon liquidation, we would receive all of our unreturned contributions and all unpaid returns earned on those contributions prior to any distributions being made to our partner. Accordingly, we expect our current economic interest in the venture's cash flow to be greater than our legal ownership percentage of 50%. As of December 31, 2015, based upon the liquidation proceeds we would receive from a hypothetical liquidation of our investment based on depreciated book value, our economic interest would represent substantially all of the economic benefit of the property. Our economic interest may fluctuate based on a number of factors, including mortgage financing, partnership capital contributions and distributions, and proceeds from asset sales.

In April 2015, the consolidated joint venture closed on a mortgage loan with the ability to borrow up to \$60.0 million at an interest rate of LIBOR +1.75%. The loan initially matures on April 29, 2018, with one two-year extension option. As of December 31, 2015, the balance on the loan was \$45.8 million.

Daytona Beach

In November 2015, we purchased land for approximately \$9.9 million and commenced construction on the development of a wholly owned outlet center in Daytona Beach, Florida. The outlet center is expected to be approximately 352,000 square feet and to open by Holiday 2016.

Unconsolidated Real Estate Joint Ventures

Westgate

In November 2012, we opened our Westgate outlet center, located in Glendale, Arizona, which was developed through, and currently owned by, a joint venture that was formed in May 2012.

During the first quarter of 2015, the joint venture completed the remaining 28,000 square feet of a 78,000 square foot expansion of the existing property which upon completion increased the total square feet of the outlet center to approximately 411,000 square feet. Construction commenced on the expansion during the second quarter of 2014 and was funded with borrowings under the amended Westgate mortgage loan. The joint venture's amended and restated construction loan is fully funded with a balance of \$62.0 million as of December 31, 2015. The loan initially matured in June 2015, and during the second quarter of 2015 the joint venture exercised the two year option to extend the maturity date of the loan to June 2017.

Savannah

In April 2015, we opened an approximately 377,000 square foot outlet center in Savannah, Georgia. As of December 31, 2015, our equity contributions totaled \$45.8 million and our partner's equity contributions totaled \$8.3 million. Contributions we made in excess of our partners' equity contributions are considered preferred equity and earned a preferred rate of return equal to 8% from the date the contributions were made until the outlet center's grand opening in April 2015, and will earn 10% annually thereafter. Under the terms of the joint venture's operating agreement, upon liquidation, we would receive all of our unreturned preferred equity contributions and all unpaid returns earned on those contributions prior to any distributions being made to our equity partner. As of December 31, 2015, based upon the liquidation proceeds we would receive from a hypothetical liquidation of our investment based at depreciated book value, our estimated economic interest in the venture was approximately 98%. Our economic interest may fluctuate based on a number of factors, including mortgage financing, partnership capital contributions and distributions, and proceeds from asset sales.

In May 2014, the joint venture closed on a construction loan with the ability to borrow up to \$97.7 million at an interest rate of LIBOR + 1.65%. In September 2015, the loan maximum borrowing amount was increased to \$100.9 million. The construction loan has a maturity date of May 21, 2017, with two, one -year extension options. As of December 31, 2015, the balance on the loan was \$89.5 million. The additional \$11.4 million is available for construction of the approximately 42,000 square foot expansion that is currently in process.

Columbus

During the second quarter of 2015, the joint venture purchased land for approximately \$8.9 million and began construction on a 350,000 square foot outlet center in Columbus, Ohio. We and our partner currently expect to complete construction in time to open the center during the second quarter of 2016. The construction of the center is currently being funded with equity contributions from the partners. As of December 31, 2015, we and our partner had each contributed \$20.6 million to fund development activities.

Dispositions of Consolidated Outlet Centers and sale of our Interest in an Unconsolidated Outlet Center

Wisconsin Dells

In February 2015, we sold our equity interest in the joint venture that owned the outlet center located in Wisconsin Dells, Wisconsin for approximately \$15.6 million, representing our share of the sales price totaling \$27.7 million less our share of the outstanding debt, which totaled \$12.1 million. As a result of this transaction, we recorded a gain of approximately \$13.7 million in the first quarter of 2015, which represents the difference between the carrying value of our equity method investment and the net proceeds received.

Kittery I&II, Tuscola, West Branch, and Barstow

During 2015, we sold five outlet centers for net proceeds of approximately \$149.1 million, and recognized a gain of approximately \$106.7 million. The outlet centers were located in Kittery, Maine (two centers); Tuscola, Illinois; West Branch, Michigan; and Barstow, California.

As of December 31, 2015, approximately \$121.3 million of these proceeds were held by a qualified intermediary and thus have been classified as restricted cash on our consolidated balance sheets. During January 2016, we used a portion of these proceeds along with amounts under our unsecured lines of credit:

To repay a \$150.0 million floating rate mortgage loan and a \$28.4 million deferred financing obligation, both of which are related to our 749,000 square foot outlet center in Deer Park, New York. These transactions allowed us to unencumber the Deer Park asset while simultaneously deferring a significant portion of the gains related to the asset sales for tax purposes.

To pay a special dividend to our share and unit holders of \$0.21 per share on January 15, 2016.

We plan on investing the remaining sales proceeds, totaling approximately \$16.8 million, in qualified replacement property, including the ongoing construction of our wholly-owned new outlet center development project in Daytona Beach.

Fort Myers

In January 2016, we sold our outlet center in Fort Myers, Florida located near Sanibel Island for net proceeds of approximately \$25.8 million. We estimate the gain to be recognized in the first quarter of 2016 to be approximately \$4.9 million. The proceeds from the sale of this unencumbered asset were used to pay down balances outstanding under our unsecured lines of credit.

From time to time, we may sell one or more outlet centers or joint venture interests that do not meet our long-term investment criteria. We have not entered into a binding contract and have not obtained approval from our Board of Directors to sell any additional outlet centers or joint venture interests, thus we can give no assurance that any additional sales will be completed.

Financing Transactions

Deer Park

In connection with the acquisition of the Deer Park property in 2013, we and the noncontrolling interest entered into an agreement whereby they may require us to acquire their ownership interest in the property on the second

anniversary of the acquisition date for a price of \$28.4 million, and we had the option to acquire their ownership interest on the fourth anniversary of the acquisition date at the same price. On September 30, 2015, the noncontrolling interest in our Deer Park outlet center exercised its right to require us to acquire its ownership interest. As of December 31, 2015, the obligation to acquire its interest was recorded as a deferred financing obligation in the other liabilities section of our consolidated balance sheet. The transaction closed on January 5, 2016.

Extension of Unsecured Lines of Credit

We maintain unsecured lines of credit that provide for borrowings of up to \$520.0 million. The unsecured lines of credit include a \$20.0 million liquidity line and a \$500.0 million syndicated line. In October 2015, we closed on amendments to our unsecured lines of credit, extending the maturity and reducing our interest rate. The maturity date of these facilities was extended from October 2017 to October 2019 with the ability to further extend the maturity date for an additional year at our option. The interest rate was reduced from LIBOR + 1.00% to LIBOR + 0.90% based on our current credit rating and the maximum borrowings to which the syndicated line could be increased through an accordion feature in certain circumstances was increased from \$750.0 million to \$1.0 billion. Loan origination costs associated with the amendments totaled approximately \$2.0 million.

Board of Directors and Management Changes

In October 2015, our Board of Directors, upon recommendation of the Board's Nominating and Corporate Governance Committee, voted to expand, effective January 1, 2016, the number of positions on the Company's board of directors from eight to nine and elected David B. Henry as a director to fill the vacancy, effective January 1, 2016. Mr. Henry is the recently retired Vice Chairman of the Board of Directors and Chief Executive Officer of Kimco Realty Corporation. Mr. Henry will serve as a director until the next annual meeting of shareholders or until his successor is elected and qualified.

In October 2015, Frank C. Marchisello, Jr., the Executive Vice President and Chief Financial Officer of the Company and the Vice President and Treasurer of the Operating Partnership, notified us that he will retire, effective May 20, 2016. James F. Williams, the Senior Vice President and Chief Accounting Officer of the Company and the Vice President and Assistant Treasurer of the Operating Partnership will succeed Mr. Marchisello as the Chief Financial Officer of the Company and the Vice President and Treasurer of the Operating Partnership effective May 20, 2016.

The Outlet Concept

Outlets are stores operated by manufacturers and brand name retailers that sell primarily first quality, branded products, some of which are made specifically for the outlet distribution channel, to consumers at significant discounts from regular retail prices charged by department stores and specialty stores. Outlet centers offer advantages to manufacturers and brand name retailers as they are often able to charge customers lower prices for brand name and designer products by eliminating the third party retailer. Outlet centers also typically have lower operating costs than other retailing formats, enhancing their profit potential. Outlet centers enable them to optimize the size of production runs while continuing to maintain control of their distribution channels.

We believe that outlet centers will continue to present attractive opportunities for capital investment in the long-term. We further believe, based upon our contacts with present and prospective tenants that many companies will continue to utilize the outlet concept as a profitable distribution vehicle. However, due to present economic conditions and the potential for increased competition from other developers announcing plans to develop outlet centers, new developments or expansions may not provide an initial return on investment as high as has been historically achieved.

Our Outlet Centers

Each of our outlet centers, except one joint venture property, carries the Tanger brand name. We believe that our tenants and consumers recognize the Tanger brand as one that provides outlet shopping centers where consumers can trust the brand, quality and price of the merchandise they purchase directly from the manufacturers and brand name retailers.

As one of the original participants in this industry, we have established long-standing relationships with many of our tenants that we believe is critical in developing and operating successful outlet centers.

Our consolidated outlet centers range in size from 82,161 to 749,074 square feet and are typically located at least 10 miles from major department stores and manufacturer-owned, full-price retail stores. Historically, manufacturers prefer these locations so that they do not compete directly with their major customers and their own stores. Many of our outlet centers are located near tourist destinations to attract tourists who consider shopping to be a recreational activity. Additionally, our centers are often situated in close proximity to interstate highways that provide accessibility and visibility to potential customers.

We have a diverse tenant base throughout our consolidated portfolio, comprised of approximately 400 different well-known, upscale, national designer or brand name concepts, such as American Eagle Outfitters, Banana Republic Factory Store, Barneys New York, Brooks Brothers, Calvin Klein, Coach, Gap Outlet, Giorgio Armani, Hugo Boss Factory Store, J. Crew, Kate Spade New York, Lululemon Athletica, Michael Kors, Nike Factory Store, North Face, Polo Ralph Lauren Factory Store, Saks Fifth Avenue Off 5th, Tommy Hilfiger, Under Armour, Victoria's Secret, Vineyard Vines and others.

No single tenant, including all of its store concepts, accounted for 10% or more of our combined base and percentage rental revenues during 2015, 2014 or 2013. As of December 31, 2015, no single tenant accounted for more than 7.5% of our leasable square feet or 6.0% of our combined base and percentage rental revenues. Because many of our tenants are large, multinational manufacturers or retailers, we generally do not experience material losses with respect to rent collections or lease defaults.

Only small portions of our revenues are dependent on contingent revenue sources. Revenues from fixed rents and operating expense reimbursements accounted for approximately 91% of our total revenues in 2015. Revenues from contingent sources, such as percentage rents, vending income and miscellaneous income, accounted for approximately 9% of our total revenues in 2015.

Business History

Stanley K. Tanger, the Company's founder, entered the outlet center business in 1981. Prior to founding our company, Stanley K. Tanger and his son, Steven B. Tanger, our President and Chief Executive Officer, built and managed a successful family owned apparel manufacturing business, Tanger/Creighton, Inc., which included the operation of five outlet stores. Based on their knowledge of the apparel and retail industries, as well as their experience operating Tanger/Creighton, Inc.'s outlet stores, they recognized that there would be a demand for outlet centers where a number of manufacturers could operate in a single location and attract a large number of shoppers.

Steven B. Tanger joined the Company in 1986, and by June 1993, the Tangers had developed 17 outlet centers totaling approximately 1.5 million square feet. In June 1993, we completed our initial public offering, making Tanger Factory Outlet Centers, Inc. the first publicly traded outlet center company. Since our initial public offering, we have grown our portfolio through the strategic development, expansion and acquisition of outlet centers and are now one of the largest owner operators of outlet centers in the United States and Canada.

Business Strategy

Our company has been built on a firm foundation of strong and enduring business relationships coupled with conservative business practices. We partner with many of the world's best known and most respected retailers and manufacturers. By fostering and maintaining strong tenant relationships with these successful, high volume companies, we have been able to solidify our position as a leader in the outlet industry for well over a quarter century. The confidence and trust that we have developed with our retail partners from the very beginning has allowed us to forge the impressive retail alliances that we enjoy today with our brand name retailers and manufacturers.

We have had a solid track record of success in the outlet industry for the past 35 years. In 1993, Tanger led the way by becoming the industry's first outlet center company to be publicly traded. Our seasoned team of real estate professionals utilize the knowledge and experience that we have gained to give us a competitive advantage in the outlet business.

As of December 31, 2015, our consolidated outlet centers were 97% occupied with average tenant sales of \$395 per square foot. Our portfolio of properties has had an average occupancy rate of 95% or greater on December 31st of each year since 1981. We believe our ability to achieve this level of performance is a testament to our long-standing tenant relationships, industry experience and our expertise in the development, leasing and operation of outlet centers.

Growth Strategy

Our goal is to build shareholder value through a comprehensive, conservative plan for sustained, long-term growth. We focus our efforts on increasing rents in our existing outlet centers, renovating and expanding selected outlet centers and reaching new markets through ground-up developments or acquisitions of existing outlet centers. We expect new development to continue to be important to the growth of our portfolio in the long-term. Future outlet centers may be wholly-owned by us or developed through joint venture arrangements.

Increasing rents at existing outlet centers

Our leasing team focuses on the marketing of available space to maintain our standard for high occupancy levels. Leases are negotiated to provide for inflation-based contractual rent increases or periodic fixed contractual rent increases and percentage rents. Due to the overall high performance of our outlet shopping centers, we have historically been able to renew leases at higher base rents per square-foot and attract stronger, more popular brands to replace underperforming tenants.

Developing new outlet centers

We believe that there continue to be opportunities to introduce the Tanger brand in untapped or under-served markets across the United States and Canada in the long-term. We believe our 35 years of outlet industry experience, extensive development expertise and strong retail relationships give us a distinct competitive advantage.

In order to identify new markets across North America, we follow a general set of guidelines when evaluating opportunities for the development of new outlet centers. This typically includes seeking locations within markets that have at least 1 million people residing within a 30 to 40 mile radius with an average household income of at least \$65,000 per year, frontage on a major interstate or roadway that has excellent visibility and a traffic count of at least 55,000 cars per day. Leading tourist, vacation and resort markets that receive at least 5 million visitors annually are also closely evaluated. Although our current goal is to target sites that are large enough to support outlet centers with approximately 90 stores totaling at least 350,000 square feet, we maintain the flexibility to vary our minimum requirements based on the unique characteristics of a site, tenant demand and our prospects for future growth and success.

In order to help ensure the viability of proceeding with a project, we gauge the interest of our retail partners first. We typically prefer to have signed leases or leases out for negotiation with tenants for at least 50% of the space in each outlet center prior to acquiring the site and beginning construction; however, we may choose to proceed with construction with less than 50% of the space pre-leased under certain circumstances. Construction of a new outlet center has typically taken us nine to twelve months from groundbreaking to grand opening of the outlet center.

Expanding and renovating existing outlet centers

Keeping our outlet shopping centers vibrant and growing is a key part of our formula for success. In order to maintain our reputation as the premiere outlet shopping destination in the markets that we serve, we have an ongoing program of renovations and expansions taking place at our outlet centers. Construction for expansion and renovation to existing properties typically takes less time, usually between six to nine months depending on the scope of the project.

Acquiring Outlet Centers

As a means of creating a presence in key markets and to create shareholder value, we may selectively choose to acquire individual properties or portfolios of properties that meet our strategic investment criteria. We believe that our

extensive experience in the outlet center business, access to capital markets, familiarity with real estate markets and our management experience will allow us to evaluate and execute our acquisition strategy successfully over time. Through our tenant relationships, our leasing professionals have the ability to implement a re-merchandising strategy when needed to increase occupancy rates and value. We believe that our managerial skills, marketing expertise and overall outlet industry experience will also allow us to add long-term value and viability to these outlet centers.

Operating Strategy

Increasing cash flow to enhance the value of our properties and operations remains a primary business objective. Through targeted marketing and operational efficiencies, we strive to improve sales and profitability of our tenants and our outlet centers as a whole. Achieving higher base and percentage rents and generating additional income from temporary leasing, vending and other sources also remains an important focus and goal.

Leasing

Our long-standing retailer relationships and our focus on identifying emerging retailers allow us the ability to provide our shoppers with a collection of the world's most popular outlet stores. Tanger customers shop and save on their favorite brand name merchandise including men's, women's and children's ready-to-wear, lifestyle apparel, footwear, jewelry and accessories, tableware, housewares, luggage and domestic goods. In order for our outlet centers to perform at a high level, our leasing professionals continually monitor and evaluate tenant mix, store size, store location and sales performance. They also work to assist our tenants through re-sizing and re-location of retail space within each of our outlet centers for maximum sales of each retail unit across our portfolio.

Marketing

Our marketing plans deliver compelling, well-crafted messages and enticing promotions and events to targeted audiences for tangible, meaningful and measurable results. Our plans are based on a basic measure of success - increase sales and traffic for our retail partners and we will create successful outlet centers. Utilizing a strategic mix of print, radio, television, direct mail, our consumer website, Internet advertising, social networks, mobile applications and public relations, we consistently reinforce the Tanger brand. Our marketing efforts are also designed to build loyalty with current Tanger shoppers and create awareness with potential customers. The majority of consumer-marketing expenses incurred by us are reimbursable by our tenants.

Capital Strategy

We believe we achieve a strong and flexible financial position by attempting to: (1) maintain a conservative leverage position relative to our portfolio when pursuing new development, expansion and acquisition opportunities, (2) extend and sequence debt maturities, (3) manage our interest rate risk through a proper mix of fixed and variable rate debt, (4) maintain access to liquidity by using our lines of credit in a conservative manner and (5) preserve internally generated sources of capital by strategically divesting of our non-core assets and maintaining a conservative distribution payout ratio. We manage our capital structure to reflect a long-term investment approach and utilize multiple sources of capital to meet our requirements.

We intend to retain the ability to raise additional capital, including public debt or equity, to pursue attractive investment opportunities that may arise and to otherwise act in a manner that we believe to be in the best interests of our shareholders and unit holders. The Company is a well-known seasoned issuer with a shelf registration that allows us to register unspecified amounts of different classes of securities on Form S-3. To generate capital to reinvest into other attractive investment opportunities, we may also consider the use of additional operational and developmental joint ventures, the sale or lease of outparcels on our existing properties and the sale of certain properties that do not meet our long-term investment criteria. Based on cash provided by operations, existing lines of credit, ongoing relationships with certain financial institutions and our ability to sell debt or issue equity subject to market conditions, we believe that we have access to the necessary financing to fund our planned capital expenditures during 2016.

We anticipate that adequate cash will be available to fund our operating and administrative expenses, regular debt service obligations, and the payment of dividends in accordance with REIT requirements in both the short and

long-term. Although we receive most of our rental payments on a monthly basis, distributions to shareholders and unitholders are made quarterly and interest payments on the senior, unsecured notes are made semi-annually. Amounts accumulated for such payments will be used in the interim to reduce the outstanding borrowings under our existing lines of credit or invested in short-term money market or other suitable instruments adhering to our investment policies.

We believe our current balance sheet position is financially sound; however, due to the uncertainty and unpredictability of the capital and credit markets, we can give no assurance that affordable access to capital will exist between now and 2019 when our next significant debt maturity occurs. As a result, our current primary focus is to continually strengthen our capital and liquidity position by controlling and reducing construction and overhead costs, generating positive cash flows from operations to cover our distributions and reducing outstanding debt.

Competition

We carefully consider the degree of existing and planned competition in a proposed area before deciding to develop, acquire or expand a new outlet center. Our outlet centers compete for customers primarily with outlet centers built and operated by different developers, traditional shopping malls, full-and off-price retailers and to a certain extent e-commerce retailers. However, we believe that the majority of our customers visit outlet centers because they are intent on buying name-brand products at discounted prices. Traditional full-and off-price retailers and e-commerce retailers are often unable to provide such a variety of name-brand products at attractive prices.

Tenants of outlet centers typically avoid direct competition with major retailers and their own specialty stores, and, therefore, generally insist that the outlet centers not be within a close proximity of a major department store or the tenants' own specialty stores. For this reason, our outlet centers generally compete only to a limited extent with traditional malls in or near metropolitan areas.

We compete with institutional pension funds, private equity investors, other REITs, small owners of outlet centers, specialty stores and others who are engaged in the acquisition, development or ownership of outlet centers and stores. In addition, the number of entities competing to acquire or develop outlet centers has increased and may continue to increase in the future, which could increase demand for these outlet centers and the prices we must pay to acquire or develop them. Nevertheless, we believe the high barriers to entry in the outlet industry, including the need for extensive relationships with premier manufacturers and brand name retailers, will continue to minimize the number of new outlet centers developed each year.

Financial Information

As of December 31, 2015, and 2014, we had one reportable operating segment. For financial information regarding our segment, see our Consolidated Financial Statements.

Corporate and Regional Headquarters

We rent space in an office building in Greensboro, North Carolina where our corporate headquarters is located as well as a regional office in Miami, Florida.

As of February 1, 2016, we maintain offices and employ on-site managers at 37 consolidated and unconsolidated outlet centers. The managers closely monitor the operation, marketing and local relationships at each of their outlet centers.

Insurance

We believe that as a whole our properties are covered by adequate comprehensive liability, fire, flood, earthquake and extended loss insurance provided by reputable companies with commercially reasonable and customary deductibles and limits. Northline Indemnity, LLC, ("Northline"), a wholly-owned captive insurance subsidiary of the Operating Partnership, is responsible for losses up to certain levels for property damage (including wind damage from hurricanes) prior to third-party insurance coverage. Specified types and amounts of insurance are required to be

carried by each tenant under their lease. There are however, types of losses, like those resulting from wars or nuclear radiation, which may either be uninsurable or not economically insurable in some or all of our locations. An uninsured loss could result in a loss to us of both our capital investment and anticipated profits from the affected property.

Employees

As of February 1, 2016, we had 291 full-time employees, located at our corporate headquarters in North Carolina, our regional office in Miami and 37 business offices. At that date, we also employed 334 part-time employees at various locations.

ITEM 1A. RISK FACTORS

Risks Related to Real Estate Investments

We may be unable to develop new outlet centers or expand existing outlet centers successfully.

We continue to develop new outlet centers and expand existing outlet centers as opportunities arise. However, there are significant risks associated with our development activities in addition to those generally associated with the ownership and operation of established retail properties. While we have policies in place designed to limit the risks associated with development, these policies do not mitigate all development risks associated with a project. These risks include the following:

- significant expenditure of money and time on projects that may be delayed or never be completed;
- higher than projected construction costs;
- shortage of construction materials and supplies;
- failure to obtain zoning, occupancy or other governmental approvals or to the extent required, tenant approvals; and
- late completion because of construction delays, delays in the receipt of zoning, occupancy and other approvals or other factors outside of our control.

Any or all of these factors may impede our development strategy and adversely affect our overall business.

The economic performance and the market value of our outlet centers are dependent on risks associated with real property investments.

Real property investments are subject to varying degrees of risk. The economic performance and values of real estate may be affected by many factors, including changes in the national, regional and local economic climate, inflation, unemployment rates, consumer confidence, local conditions such as an oversupply of space or a reduction in demand for real estate in the area, the attractiveness of the properties to tenants, competition from other available space, our ability to provide adequate maintenance and insurance and increased operating costs.

Real property investments are relatively illiquid.

Our outlet centers represent a substantial portion of our total consolidated assets. These assets are relatively illiquid. As a result, our ability to sell one or more of our outlet centers in response to any changes in economic or other conditions is limited. If we want to sell an outlet center, there can be no assurance that we will be able to dispose of it in the desired time period or that the sales price will exceed the cost of our investment.

Properties may be subject to impairment charges which can adversely affect our financial results.

We periodically evaluate long-lived assets to determine if there has been any impairment in their carrying values and record impairment losses if the undiscounted cash flows estimated to be generated by those assets are less than their carrying amounts or if there are other indicators of impairment. If it is determined that an impairment has occurred, we would be required to record an impairment charge equal to the excess of the asset's carrying value over its estimated fair value, which could have a material adverse effect on our financial results in the accounting period in which the adjustment is made. Our estimates of undiscounted cash flows expected to be generated by each property are based on a number of assumptions that are subject to economic and market uncertainties including, but not limited to, demand for space, competition for tenants, changes in market rental rates and costs to operate each property. As these factors are difficult to predict and are subject to future events that may alter our assumptions, the future cash flows estimated in our impairment analysis may not be achieved.

Dispositions may not achieve anticipated results.

From time to time, we may strategically dispose of assets with the goal of improving the overall performance of our core portfolio. However, we may not achieve the results we originally anticipated at the time of disposition. If we are not successful at achieving the anticipated results, there is a potential for a significant adverse impact on our returns and our overall profitability.

We face competition for the acquisition and development of outlet centers, and we may not be able to complete acquisitions or developments that we have identified.

We intend to grow our business in part through acquisitions and new developments. We compete with institutional pension funds, private equity investors, other REITs, small owners of outlet centers, specialty stores and others who are engaged in the acquisition, development or ownership of outlet centers and stores. These competitors may succeed in acquiring or developing outlet centers themselves. Also, our potential acquisition targets may find our competitors to be more attractive acquirers because they may have greater marketing and financial resources, may be willing to pay more, or may have a more compatible operating philosophy. In addition, the number of entities competing to acquire or develop outlet centers has increased and may continue to increase in the future, which could increase demand for these outlet centers and the prices we must pay to acquire or develop them. If we pay higher prices for outlet centers, our profitability may be reduced. Also, once we have identified potential acquisitions, such acquisitions are subject to the successful completion of due diligence, the negotiation of definitive agreements and the satisfaction of customary closing conditions. We cannot assure you that we will be able to reach acceptable terms with the sellers or that these conditions will be satisfied.

We may be subject to environmental regulation.

Under various federal, state and local laws, ordinances and regulations, we may be considered an owner or operator of real property and may be responsible for paying for the disposal or treatment of hazardous or toxic substances released on or in our property or disposed of by us, as well as certain other potential costs which could relate to hazardous or toxic substances (including governmental fines and injuries to persons and property). This liability may be imposed whether or not we knew about, or were responsible for, the presence of hazardous or toxic substances.

Possible terrorist activity or other acts or threats of violence and threats to public safety could adversely affect our financial condition and results of operations.

Terrorist attacks and threats of terrorist attacks, whether in the United States, Canada or elsewhere, or other acts or threats of violence may result in declining economic activity, which could harm the demand for goods and services

offered by our tenants and the value of our properties and might adversely affect the value of an investment in our securities. Such a resulting decrease in retail demand could make it difficult for us to renew or re-lease our properties.

Terrorist activities or violence also could directly affect the value of our properties through damage, destruction or loss. In addition, these acts and threats might erode business and consumer confidence and spending, and might result in increased volatility in national and international financial markets and economies. Any one of these events might decrease demand for real estate, decrease or delay the occupancy of our properties, impair the ability of tenants to meet their obligations under their existing leases, and limit our access to capital or increase our cost of raising capital.

Risks Related to our Business

Our earnings and therefore our profitability are entirely dependent on rental income from real property.

Substantially all of our income is derived from rental income from real property. Our income and funds for distribution would be adversely affected if rental rates at our centers decrease, if a significant number of our tenants were unable to meet their obligations to us or if we were unable to lease a significant amount of space in our outlet centers on economically favorable lease terms. In addition, the terms of outlet store tenant leases traditionally have been significantly shorter than in other retail segments. There can be no assurance that any tenant whose lease expires in the future will renew such lease or that we will be able to re-lease space on economically favorable terms.

We are substantially dependent on the results of operations of our retailers.

Our operations are subject to the results of operations of our retail tenants. A portion of our rental revenues are derived from percentage rents that directly depend on the sales volume of certain tenants. Accordingly, declines in these tenants' results of operations would reduce the income produced by our properties. If the sales of our retail tenants decline sufficiently, such tenants may be unable to pay their existing rents as such rents would represent a higher percentage of their sales. Any resulting leasing delays, failures to make payments or tenant bankruptcies could result in the termination of such tenants' leases.

A number of companies in the retail industry, including some of our tenants, have declared bankruptcy or have voluntarily closed certain of their stores in recent years. The bankruptcy of a major tenant or number of tenants may result in the closing of certain affected stores, and we may not be able to re-lease the resulting vacant space for some time or for equal or greater rent. Such bankruptcy, or the voluntary closings of a significant amount of stores, could have a material adverse effect on our results of operations and could result in a lower level of funds for distribution.

Certain of our properties are subject to ownership interests held by third parties, whose interests may conflict with ours and thereby constrain us from taking actions concerning these properties which otherwise would be in our best interests and our shareholders' interests.

We own partial interests in outlet centers with various joint venture partners. The approval or consent of the other members of these joint ventures is required before we may sell, finance, expand or make other significant changes in the operations of these properties. We also may not have control over certain major decisions, including approval of the annual operating budgets, selection or termination of the property management company, leasing and the timing and amount of distributions, which could result in decisions that do not fully reflect our interests. To the extent such approvals or consents are required, we may experience difficulty in, or may be prevented from, implementing our plans and strategies with respect to expansion, development, property management, on-going operations, financing (for example, decisions as to whether to refinance or obtain financing, when and whether to pay down principal of any loan and whether and how to cure any defaults under loan documents) or other similar transactions with respect to such properties.

An uninsured loss or a loss that exceeds our insurance policies on our outlet centers or the insurance policies of our tenants could subject us to lost capital and revenue on those outlet centers.

Some of the risks to which our outlet centers are subject, including risks of terrorist attacks, war, earthquakes, hurricanes and other natural disasters, are not insurable or may not be insurable in the future. Should a loss occur that is uninsured or in an amount exceeding the combined aggregate limits for the insurance policies noted above or in the event of a loss that is subject to a substantial deductible under an insurance policy, we could lose all or part of our

capital invested in and anticipated revenue from one or more of our outlet centers, which could adversely affect our results of operations and financial condition, as well as our ability to make distributions to our shareholders.

Under the terms and conditions of our leases, tenants generally are required to indemnify and hold us harmless from liabilities resulting from injury to persons and contamination of air, water, land or property, on or off the premises, due to activities conducted in the leased space, except for claims arising from negligence or intentional misconduct by us or our agents. Additionally, tenants generally are required, at the tenant's expense, to obtain and keep in full force during the term of the lease, liability and property damage insurance policies issued by companies acceptable to us. These policies include liability coverage for bodily injury and property damage arising out of the ownership, use, occupancy or maintenance of the leased space. All of these policies may involve substantial deductibles and certain exclusions. Therefore, an uninsured loss or loss that exceeds the insurance policies of our tenants could also subject us to lost capital and revenue.

Consumer spending habits may change.

Shoppers may choose to spend a greater percentage of their disposable income to purchase goods through e-commerce or other retail channels, which could reduce the number of trips to our outlet centers and the average amount spent per visit. Such a change in consumer spending habits could adversely affect the results of operations of our retail tenants and adversely impact our percentage rents and ability to renew and release space at favorable rental rates.

Our Canadian investments may subject us to different or greater risk from those associated with our domestic operations.

As of December 31, 2015, through a co-ownership arrangement with a Canadian REIT, we have an ownership interest in four properties in Canada. Our operating results and the value of our Canadian operations may be impacted by any unhedged movements in the Canadian dollar. Canadian ownership activities carry risks that are different from those we face with our domestic properties. These risks include:

- adverse effects of changes in the exchange rates between the US and Canadian dollar;
- changes in Canadian political and economic environments, regionally, nationally, and locally;
- challenges of complying with a wide variety of foreign laws;
- changes in applicable laws and regulations in the United States that affect foreign operations;
- property management services being provided directly by our 50/50 co-owner, not by us; and
- obstacles to the repatriation of earnings and cash.

Our success significantly depends on our key personnel and our ability to attract and retain key personnel. Our success depends upon the personal efforts and abilities of our senior management team and other key personnel. Although we believe we have a strong management team with relevant industry expertise, the extended loss of the services of key personnel could have a material adverse effect on the securities markets' view of our prospects and materially harm our business. Also, our continued success and the achievement of our expansion goals are dependent upon our ability to attract and retain additional qualified employees as we expand.

Risks Related to our Indebtedness and Financial Markets

We are subject to the risks associated with debt financing.

We are subject to the risks associated with debt financing, including the risk that the cash provided by our operating activities will be insufficient to meet required payments of principal and interest. Disruptions in the capital and credit markets may adversely affect our operations, including the ability to fund the planned capital expenditures and potential new developments or acquisitions. Further, there is the risk that we will not be able to repay or refinance existing indebtedness or that the terms of any refinancing will not be as favorable as the terms of existing indebtedness. If we are unable to access capital markets to refinance our indebtedness on acceptable terms, we might be forced to dispose of properties on disadvantageous terms, which might result in losses.

The Operating Partnership guarantees debt or otherwise provides support for a number of joint venture properties.

Joint venture debt is the liability of the joint venture and is typically secured by a mortgage on the joint venture property, which is non-recourse to us. A default by a joint venture under its debt obligations may expose us to liability under a guaranty. We may elect to fund cash needs of a joint venture through equity contributions (generally on a basis proportionate to our ownership interests), advances or partner loans, although such fundings are not typically required contractually or otherwise.

Risks Related to Federal Income Tax Laws

The Company's failure to qualify as a REIT could subject our earnings to corporate level taxation.

We believe that we have operated and intend to operate in a manner that permits the Company to qualify as a REIT under the Internal Revenue Code of 1986, as amended. However, we cannot assure you that the Company has qualified or will remain qualified as a REIT. If in any taxable year the Company were to fail to qualify as a REIT and certain statutory relief provisions were not applicable, the Company would not be allowed a deduction for distributions to shareholders in computing taxable income and would be subject to U.S. federal income tax (including any applicable alternative minimum tax) on our taxable income at regular corporate rates. The Company's failure to qualify for taxation as a REIT would have a material adverse effect on the market price and marketability of our securities.

The Company is required by law to make distributions to our shareholders.

To obtain the favorable tax treatment associated with the Company's qualification as a REIT, generally, the Company is required to distribute to its shareholders at least 90% of its net taxable income (excluding capital gains) each year. The Company depends upon distributions or other payments from the Operating Partnership to make distributions to the Company's common shareholders. A recent IRS revenue procedure allows the Company to satisfy the REIT income distribution requirement by distributing up to 90% of the dividends on its common shares in the form of additional common shares in lieu of paying dividends entirely in cash. Although we reserve the right to utilize this procedure in the future, we currently have no intent to do so. In the event that the Company pays a portion of a dividend in shares, certain U.S. shareholders would be required to pay income tax on the entire amount of the dividend, including the portion paid in shares, in which case such shareholders might have to pay the income tax using cash from other sources. If a U.S. shareholder sells the shares it receives as a dividend in order to pay this income tax, the sales proceeds may be less than the amount included in income with respect to the dividend, depending on the market price of our shares at the time of the sale.

Risks Related to our Organizational Structure

The Company depends on distributions from the Operating Partnership to meet its financial obligations, including dividends.

The Company's operations are conducted by the Operating Partnership, and the Company's only significant asset is its interest in the Operating Partnership. As a result, the Company depends upon distributions or other payments from the Operating Partnership in order to meet its financial obligations, including its obligations under any guarantees or to pay dividends or liquidation payments to its common shareholders. As a result, these obligations are effectively subordinated to existing and future liabilities of the Operating Partnership. The Operating Partnership is a party to loan agreements with various bank lenders that require the Operating Partnership to comply with various financial and other covenants before it may make distributions to the Company. Although the Operating Partnership presently is in

compliance with these covenants, there is no assurance that the Operating Partnership will continue to be in compliance and that it will be able to make distributions to the Company.

Risks Related to Cyber Security

Cyber-attacks or acts of cyber-terrorism could disrupt our business operations and information technology systems or result in the loss or exposure of confidential or sensitive customer, employee or Company information.

Our business operations and information technology systems may be attacked by individuals or organizations intending to disrupt our business operations and information technology systems, whether through cyber-attacks or cyber-intrusions over the Internet, malware, computer viruses, attachments to e-mails, persons inside our organization, or persons with access to systems inside our organization. The risk of a security breach or disruption, particularly through cyber-attacks or cyber-intrusion, including by computer hackers, foreign governments, and cyber terrorists, has generally increased as the number, intensity and sophistication attempted attacks and intrusions from around the world have increased. We use information technology systems to manage our outlet centers and other business processes. Disruption of those systems could adversely impact our ability to operate our business to provide timely service to our customers and maintain our relationships with our tenants. Accordingly, if such an attack or act of terrorism were to occur, our operations and financial results could be adversely affected. In addition, we use our information technology systems to protect confidential or sensitive customer, employee and Company information developed and maintained in the normal course of our business. Any attack on such systems that would result in the unauthorized release or loss of customer, employee or other confidential or sensitive data could have a material adverse effect on our business reputation, increase our costs and expose us to additional material legal claims and liability. As a result, if such an attack or act of terrorism were to occur, our operations and financial results and our share price could be adversely affected.

ITEM 1B. UNRESOLVED STAFF COMMENTS

There are no unresolved staff comments from the Commission for either the Company or the Operating Partnership.

ITEM 2. PROPERTIES

As of February 1, 2016, our consolidated portfolio consisted of 33 outlet centers totaling 11.5 million square feet located in 20 states. We own interests in nine other outlet centers totaling approximately 2.7 million square feet through unconsolidated joint ventures, including four outlet centers in Canada. Our consolidated outlet centers range in size from 82,161 to 749,074 square feet. The outlet centers are generally located near tourist destinations or along major interstate highways to provide visibility and accessibility to potential customers.

We believe that the outlet centers are well diversified geographically and by tenant and that we are not dependent upon any single property or tenant. The outlet center in Deer Park, New York is the only property that comprises 10% or more of our consolidated total assets as of December 31, 2015. No property comprises more than 10% of our consolidated revenues for the year ended December 31, 2015. See "Properties - Significant Property" for further details.

We have an ongoing strategy of acquiring outlet centers, developing new outlet centers and expanding existing outlet centers. See "Management's Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources" for a discussion of the cost of such programs and the sources of financing thereof.

Edgar Filing: TANGER FACTORY OUTLET CENTERS INC - Form 10-K

As of February 1, 2016, of the 33 outlet centers in our consolidated portfolio, we own the land underlying 26 and have ground leases on seven. The following table sets forth information about the land leases on which all or a portion of the outlet centers are located:

Outlet Center	Acres	Expiration	Expiration including renewal terms
Myrtle Beach Hwy 17, SC	40.0	2027	2096
Atlantic City, NJ	21.3	2101	2101
Ocean City, MD	18.5	2084	2084
Sevierville, TN	43.6	2086	2086
Riverhead, NY	47.0	2019	2039
Mashantucket, CT (Foxwoods)	8.1	2040	2090
Rehoboth Beach, DE	2.7	2044	(1)

(1) Lease may be renewed at our option for additional terms of twenty years each.

Generally, our leases with our outlet center tenants typically have an initial term that ranges from 5 to 10 years and provide for the payment of fixed monthly rent in advance. There are often contractual base rent increases during the initial term of the lease. In addition, the rental payments are customarily subject to upward adjustments based upon tenant sales volume. Most leases provide for payment by the tenant of real estate taxes, insurance, common area maintenance, advertising and promotion expenses incurred by the applicable outlet center. As a result, the majority of our operating expenses for the outlet centers are borne by the tenants.

The following table summarizes certain information with respect to our consolidated outlet centers as of February 1, 2016:

State	Number of Outlet Centers	Square Feet	% of Square Feet
South Carolina	5	1,598,375	14
New York	2	1,478,808	13
Pennsylvania	3	874,460	7
Georgia	2	692,478	6
Michigan	2	671,877	6
Texas	2	643,497	6
Connecticut	2	601,512	5
Delaware	1	565,707	5
Alabama	1	557,014	5
North Carolina	3	505,123	4
New Jersey	1	489,706	4
Tennessee	1	448,335	4
Ohio	1	411,776	3
Mississippi	1	320,334	3
Missouri	1	329,861	3
Utah	1	319,661	3
Louisiana	1	318,666	3
Iowa	1	276,331	2
New Hampshire	1	245,698	2
Maryland	1	198,840	2
Total	33	11,548,059	100

Edgar Filing: TANGER FACTORY OUTLET CENTERS INC - Form 10-K

The following table summarizes certain information with respect to our existing outlet centers in which we have an ownership interest as of February 1, 2016. Except as noted, all properties are fee owned:

Location	Legal Ownership %	Square Feet	% Occupied
Consolidated Outlet Centers			
Deer Park, New York	100	749,074	94
Riverhead, New York ⁽¹⁾	100	729,734	98
Rehoboth Beach, Delaware ⁽¹⁾	100	565,707	98
Foley, Alabama	100	557,014	94

(1) These properties or a portion thereof are subject to a ground lease.

Based on capital contribution and distribution provisions in the joint venture agreement, we expect our economic interest in the venture's cash flow to be greater than our legal ownership percentage. We currently receive substantially all the economic interest of the property.

(2) Excludes the occupancy rate at our Foxwoods, Grand Rapids and Southaven centers which opened during the second, third and fourth quarters of 2015, respectively, and have not yet stabilized.

(3) Property encumbered by mortgage. See note 9 to the consolidated financial statements for further detail of our debt obligations.

Edgar Filing: TANGER FACTORY OUTLET CENTERS INC - Form 10-K

Location	Legal Ownership %	Square Feet	% Occupied
Unconsolidated joint venture properties			
Charlotte, North Carolina	50	397,836	98
Glendale, Arizona (Westgate)	58	410,664	96
Texas City, Texas (Galveston/Houston)	50	352,705	99
Savannah, Georgia	50	(1) 377,286	98
National Harbor, Maryland	50	338,786	99
Cookstown, Ontario	50	308,745	99
Ottawa, Ontario(2)	50	284,244	97
Bromont, Quebec	50	161,449	75
Saint-Sauveur, Quebec	50	115,771	97
Total		2,747,486	96

Based on capital contribution and distribution provisions in the joint venture agreement, we expect our economic interest in the venture's cash flow to be greater than indicated in the Tanger Ownership column, which states our legal interest in this venture. As of February 1, 2016, based upon the liquidation proceeds we would receive from a (1) hypothetical liquidation of our investment based on depreciated book value, our estimated economic interest in the venture was approximately 98%. Our economic interest may fluctuate based on a number of factors, including mortgage financing, partnership capital contributions and distributions, and proceeds from gains or losses of asset sales.

(2) Excludes square feet to be completed and turned over to an anchor tenant at a later date.

Lease Expirations

The following table sets forth, as of February 1, 2016, scheduled lease expirations for our consolidated outlet centers, assuming none of the tenants exercise renewal options:

Year	No. of Leases Expiring	Approx. Square Feet (in 000's)(1)	Average Annualized Base Rent per sq. ft	Annualized Base Rent (in 000's)(2)	% of Gross Annualized Base Rent Represented by Expiring Leases
2016	194	785	\$23.01	\$18,061	7
2017	308	1,396	22.37	31,233	12
2018	328	1,560	25.39	39,613	16
2019	224	1,002	27.11	27,163	10
2020	243	1,385	21.30	29,507	11
2021	208	1,088	21.85	23,771	9
2022	136	528	30.72	16,221	6
2023	143	634	26.02	16,498	6
2024	129	521	32.74	17,057	6
2025	249	1,070	28.46	30,452	11
2026 and after	102	716	23.46	16,796	6
	2,264	10,685	\$24.93	\$266,372	100

Excludes leases that have been entered into but which tenant has not yet taken possession, vacant suites, space (1) under construction, temporary leases and month-to-month leases totaling in the aggregate approximately 863,000 square feet.

(2) Annualized base rent is defined as the minimum monthly payments due as of February 1, 2016 annualized, excluding periodic contractual fixed increases and rents calculated based on a percentage of tenants' sales. The annualized base rent disclosed in the table above includes all concessions, abatements and

reimbursements of rent to tenants.

Based on current market base rental rates, we believe we will achieve overall positive increases in our average base rental income for leases expiring in 2016. However, changes in base rental income associated with individual signed leases on comparable spaces may be positive or negative, and we can provide no assurance that the base rents on new leases will continue to increase from current levels, if at all.

Base Rents and Occupancy Rates

The following table sets forth our year end occupancy and average annual base rent per square foot during each of the last five calendar years for our consolidated properties:

	2015	2014	2013	2012	2011
Occupancy	97	% 98	% 99	% 99	% 99
Average annual base rent per square foot ⁽¹⁾	\$25.19	\$23.78	\$22.98	\$21.94	\$21.05

⁽¹⁾ Average annual base rent per square foot is calculated on a straight-line basis including the effects of inducements and rent concessions.

The following table sets forth information regarding the expiring leases for our consolidated outlet centers during each of the last five calendar years:

Year	Total Expiring		Renewed by Existing Tenants	
	Square Feet (in 000's)	% of Total Outlet Center Square Feet ⁽¹⁾	Square Feet (in 000's)	% of Expiring Square Feet
2015 ⁽²⁾	1,532	13	1,282	84
2014 ⁽³⁾	1,613	14	1,241	77
2013	1,950	18	1,574	81
2012	1,814	17	1,536	85
2011	1,771	18	1,459	82

⁽¹⁾ Represents the percentage of total square footage at the beginning of each year that is scheduled to expire during the respective year.

⁽²⁾ Excludes the outlet centers in Kittery I & II, Tuscola, West Branch, and Barstow, which were sold during 2015.

⁽³⁾ Excludes the Lincoln City outlet center, which was sold in 2014.

The following table sets forth the weighted average base rental rate increases per square foot on a straight-line basis (includes periodic, contractual fixed rent increases) for our consolidated outlet centers upon re-leasing stores that were turned over or renewed during each of the last five calendar years:

Year	Renewals of Existing Leases				Stores Re-leased to New Tenants ⁽¹⁾			
	Square Feet (in 000's)	Average Annualized Base Rent (\$ per sq. ft.)			Square Feet (in 000's)	Average Annualized Base Rent (\$ per sq. ft.)		
		Expiring	New	% Increase		Expiring	New	% Increase
2015 ⁽²⁾	1,282	\$21.77	\$26.06	20	444	\$24.33	\$31.48	29
2014 ⁽³⁾	1,241	19.97	23.38	17	470	24.20	32.93	36
2013	1,574	20.09	23.96	19	510	22.19	30.57	38
2012	1,536	18.70	21.75	16	450	20.60	31.72	54
2011	1,459	18.16	20.54	13	548	18.82	28.24	50

The square footage released to new tenants for 2015, 2014, 2013, 2012, and 2011 contains 149,440, (1) 207,000, 224,000, 137,000, and 172,000, respectively, that was released to new tenants upon expiration of an existing lease during the respective year.

(2) Excludes the outlet centers in Kittery I & II, Tuscola, West Branch, and Barstow, which were sold during 2015.

(3) Excludes the Lincoln City outlet center, which was sold in 2014.

Occupancy Costs

We believe that our ratio of average tenant occupancy cost (which includes base rent, common area maintenance, real estate taxes, insurance, advertising and promotions) to average sales per square foot is low relative to other forms of retail distribution. The following table sets forth for tenants that report sales, for each of the last five calendar years, tenant occupancy costs per square foot as a percentage of reported tenant sales per square foot for our consolidated outlet centers:

Year	Occupancy Costs as a % of Tenant Sales
2015	9.3
2014	8.9
2013	8.6
2012	8.4
2011	8.4

Edgar Filing: TANGER FACTORY OUTLET CENTERS INC - Form 10-K

Significant Properties

The Deer Park, New York outlet center is the only property that comprises 10% or more of our consolidated total assets. No property comprises more than 10% of our consolidated revenues. In August 2013, we acquired an additional one-third ownership interest in the property, bringing our total ownership to a two-thirds interest, and then restructured certain aspects of the remaining one-third ownership of the property, the effects of which gave us a controlling ownership interest. With the acquisition of a controlling ownership interest, we have consolidated Deer Park in our balance sheet and statements of operations since the acquisition date. Previously, Deer Park was reported within our unconsolidated portfolio of properties.

Tenants at the Deer Park outlet center principally conduct retail sales operations. The following table shows occupancy and certain base rental information related to this property as of December 31, 2015, 2014, and 2013:

Deer Park	Square Feet	2015	2014	2013
Outlet Center Occupancy	749,074	95	% 95	% 95

Average base rental rates per weighted average square foot ⁽¹⁾	\$30.34	\$29.45	\$29.73
---	---------	---------	---------

⁽¹⁾ Note that outlet center was acquired during August 2013. Represents average base rental rates per weighted average square foot since the acquisition date.

Depreciation on the outlet centers is computed on the straight-line basis over the estimated useful lives of the assets. We generally use estimated lives ranging from 33 years for buildings, 15 years for land improvements and 7 years for equipment. Expenditures for ordinary repairs and maintenance are charged to operations as incurred while significant renovations and improvements, including tenant finishing allowances, which improve and/or extend the useful life of the asset are capitalized and depreciated over their estimated useful life. Real estate taxes assessed on this outlet center during 2015 amounted to \$4.4 million. Real estate taxes for 2016 are estimated to be approximately \$4.9 million.

The following table sets forth, as of February 1, 2016, scheduled lease expirations for the Deer Park outlet center assuming that none of the tenants exercise renewal options:

Year	No. of Leases Expiring ⁽¹⁾	Square Feet (in 000's) ⁽¹⁾	Annualized Base Rent per Square Foot	Annualized Base Rent (in 000's) ⁽²⁾	% of Gross Annualized Base Rent Represented by Expiring Leases
2016	11	47	\$33.36	\$1,568	7
2017	4	11	25.73	283	2
2018	26	144	33.21	4,782	23
2019	24	136	38.74	5,269	25
2020	3	13	43.85	570	3
2021	3	11	43.45	478	2
2022	3	13	37.23	484	2
2023	7	54	21.15	1,142	5
2024	7	29	36.83	1,068	5
2025	6	26	20.65	537	3
2026 and thereafter	5	194	24.51	4,755	23
Total	99	678	\$30.88	\$20,936	100

⁽¹⁾ Excludes leases that have been entered into but which tenant has not taken possession, vacant suites, temporary leases and month-to-month leases totaling in the aggregate approximately 71,000 square feet.

Annualized base rent is defined as the minimum monthly payments due as of February 1, 2016, excluding periodic (2) contractual fixed increases and rents calculated based on a percentage of tenants' sales. The annualized base rent disclosed in the table above includes all concessions, abatements and reimbursements of rent to tenants.

ITEM 3. LEGAL PROCEEDINGS

The Company and the Operating Partnership are, from time to time, engaged in a variety of legal proceedings arising in the normal course of business. Although the results of these legal proceedings cannot be predicted with certainty, management believes that the final outcome of such proceedings will not have a material adverse effect on our results of operations or financial condition.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

Executive Officers of Tanger Factory Outlet Centers, Inc.

The following table sets forth certain information concerning the Company's executive officers. The Operating Partnership does not have executive officers:

NAME	AGE	POSITION
Steven B. Tanger	67	Director, President and Chief Executive Officer
Frank C. Marchisello, Jr.	57	Executive Vice President - Chief Financial Officer
Thomas E. McDonough	58	Executive Vice President - Chief Operating Officer
Chad D. Perry	44	Executive Vice President - General Counsel and Secretary
Carrie A. Geldner	53	Senior Vice President - Chief Marketing Officer
Manuel O. Jessup	60	Senior Vice President - Human Resources
Lisa J. Morrison	56	Senior Vice President - Leasing
Virginia R. Summerell	57	Senior Vice President of Finance - Treasurer and Assistant Secretary
James F. Williams	51	Senior Vice President - Chief Accounting Officer
Charles A. Worsham	44	Senior Vice President - Construction and Development

The following is a biographical summary of the experience of our executive officers:

Steven B. Tanger. Mr. Tanger is a director of the Company and was named President and Chief Executive Officer effective January 1, 2009. Mr. Tanger served as President and Chief Operating Officer from January 1, 1995 to December 2008. Previously, Mr. Tanger served as Executive Vice President from 1986 to December 1994. He has been with Tanger related companies for most of his professional career, having served as Executive Vice President of Tanger/Creighton for 10 years. Mr. Tanger is a graduate of the University of North Carolina at Chapel Hill and the Stanford University School of Business Executive Program. Mr. Tanger provides an insider's perspective in Board discussions about the business and strategic direction of the Company and has experience in all aspects of the Company's business.

Frank C. Marchisello, Jr. Mr. Marchisello was named Executive Vice President - Chief Financial Officer in April 2003. Previously he was named Senior Vice President and Chief Financial Officer in January 1999 after being named Vice President and Chief Financial Officer in November 1994. He served as Chief Accounting Officer from January 1993 to November 1994. He was employed by Gilliam, Coble & Moser, certified public accountants, from 1981 to 1992, the last six years of which he was a partner of the firm in charge of various real estate clients. Mr. Marchisello is responsible for the Company's financial reporting processes, as well as supervisory responsibility over the senior officers that oversee the Company's accounting, finance, investor relations and information systems functions. Mr. Marchisello is a graduate of the University of North Carolina at Chapel Hill and is a certified public accountant.

Thomas E. McDonough. Mr. McDonough was named Executive Vice President - Chief Operating Officer in August 2011. He joined the Company in August 2010 as Executive Vice President of Operations. Previously, he was the Co-Founder and Principal of MHF Real Estate Group, a real estate asset management firm, from September 2009 to August 2010. He served as Chief Investment Officer and was a member of the Investment Committee at Equity One, Inc. from July 2007 to April 2009. From April 2006 to July 2007, Mr. McDonough was a partner at Kahl & Goveia, and from February 1997 to April 2006, he was employed by Regency Centers Corp., and its predecessor, Pacific Retail Trust, as the national director of acquisitions and dispositions. Previously, from July 1984 to January 1997, Mr. McDonough served in various capacities, including partner and principal, with Trammell Crow Company. Mr. McDonough has supervisory responsibility over the senior officers that oversee the Company's operations, construction and development, leasing and marketing functions. Mr. McDonough is a graduate of Stanford University and holds an MBA degree from Harvard Business School.

Chad D. Perry. Mr. Perry joined the Company in December 2011 as Executive Vice President - General Counsel and was additionally named Secretary in May 2012. Previously, he was Executive Vice President and Deputy General Counsel of LPL Financial Corporation from May 2006 to December 2011. From January 2005 to April 2006, he served as Senior Corporate Counsel of EMC Corporation. Previously, Mr. Perry was a Senior Associate of international law firm Ropes & Gray from September 1997 to January 2005. His responsibilities include corporate governance, compliance, and other legal matters, as well as management of outside counsel relationships and the Company's in house legal department. Mr. Perry is a graduate of Princeton University, and earned a J.D. from Columbia University, where he was a Harlan Fiske Stone Scholar. He is a member of both the Massachusetts and California bar associations.

Carrie A. Geldner. Ms. Geldner was named Senior Vice President - Chief Marketing Officer in January 2012. Previously, she held the positions of Senior Vice President - Marketing from May 2000 to January 2012, Vice President - Marketing from September 1996 to May 2000 and Assistant Vice President - Marketing from December 1995 to September 1996. Prior to joining Tanger, Ms. Geldner was with Prime Retail, L.P. for 4 years where she served as Regional Marketing Director responsible for coordinating and directing marketing for five outlet centers in the southeast region. Previously, Ms. Geldner was Marketing Manager for North Hills, Inc. for five years and also served in the same role for the Edward J. DeBartolo Corp. for two years. Her major responsibilities include managing the Company's marketing department and developing and overseeing implementation of all corporate and field marketing programs. Ms. Geldner is a graduate of East Carolina University.

Manuel O. Jessup. Mr. Jessup joined the Company as Senior Vice President of Human Resources in September 2012. Previously, Mr. Jessup worked with Fine Mark National Bank & Trust as the Executive Vice President of Human Resources from October 2010 to July 2012. From September 2006 to August 2010, he served as Senior Vice President of Human Resources and later Executive Vice President and Chief Human Resources Officer at Chico's FAS, Inc. Previously, Mr. Jessup was employed by Sara Lee Branded Apparel from September 1985 through August 2006. While at Sara Lee Branded Apparel, Mr. Jessup held numerous leadership roles in human resources, including Vice President of Human Resources, with responsibility for domestic and international operations in Asia and Latin America. His responsibilities include oversight and supervision of the Company's Human Resources function. Mr. Jessup is a graduate of the University of South Carolina and holds an MBA from Wake Forest University Babcock School of Business.

Lisa J. Morrison. Ms. Morrison was named Senior Vice President - Leasing in August 2004. Previously, she held the positions of Vice President - Leasing from May 2001 to August 2004, Assistant Vice President of Leasing from August 2000 to May 2001 and Director of Leasing from April 1999 until August 2000. Prior to joining the Company, Ms. Morrison was employed by the Taubman Company and Trizec Properties, Inc. where she served as a leasing agent. Previously, she was a marketing coordinator for Nelson Ross Properties. Her major responsibilities include managing the leasing strategies for our operating properties, as well as expansions and new developments. She also

oversees the leasing personnel and the merchandising and occupancy for Tanger properties. Ms. Morrison is a graduate of the University of Detroit and holds an MA degree from Michigan State University.

Virginia R. Summerell. Ms. Summerell was named Senior Vice President of Finance - Treasurer and Assistant Secretary of the Company in May 2011. Since joining the Company in August 1992, she has held various positions including Vice President, Treasurer, Assistant Secretary and Director of Finance. Her major responsibilities include oversight of corporate and project finance transactions, developing and maintaining banking relationships, management of treasury systems and the supervision of the Company's Credit Department and Investor Relations Department. Prior to joining the Company, she served as a Vice President and in other capacities at Bank of America and its predecessors in Real Estate and Corporate Lending for nine years. Ms. Summerell is a graduate of Davidson College and holds an MBA from Wake Forest University Babcock School of Business.

James F. Williams. Mr. Williams was named Senior Vice President - Chief Accounting Officer in March 2013. Mr. Williams joined the Company in September 1993, was named Controller in January 1995 and was also named Assistant Vice President in January 1997, Vice President in April 2004, and Senior Vice President in February 2006. Prior to joining the Company, Mr. Williams was the Financial Reporting Manager of Guilford Mills, Inc. from April 1991 to September 1993 and was employed by Arthur Andersen LLP from 1987 to 1991. His major responsibilities include oversight and supervision of the Company's accounting and financial reporting functions. Mr. Williams is a graduate of the University of North Carolina at Chapel Hill and is a certified public accountant.

Charles A. Worsham. Mr. Worsham was named Senior Vice President - Construction and Development in May 2014 and previously held the position of Vice President - Development since April 2011. Prior to joining the Company, Mr. Worsham was employed by DDR, Corp. for 8 years where he served as Vice President of Development from 2006 to 2010 and Development Director from 2003 to 2006 with a focus on executing the redevelopment and expansion program. From 1999 to 2003, Mr. Worsham served as Real Estate and Development Manager for Intown Suites where he managed the development of hotel properties in various geographic regions. His major responsibilities include implementing the Company's real estate development program and oversight of construction personnel. Mr. Worsham is a graduate of Tennessee Technological University and holds an MBA degree in Real Estate from Georgia State University.

PART II

ITEM MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED SHAREHOLDER MATTERS AND
5. ISSUER PURCHASES OF EQUITY SECURITIES

Tanger Factory Outlet Centers, Inc. Market Information

The common shares commenced trading on the New York Stock Exchange on May 28, 1993. The following table sets forth the high and low sales prices of the common shares as reported on the New York Stock Exchange Composite Tape, during the periods indicated:

2015	High	Low	Common Dividends Paid	Special Dividends	
First Quarter	\$40.80	\$33.79	\$0.2400	\$—	
Second Quarter	36.26	31.65	0.2850	—	
Third Quarter	33.93	30.30	0.2850	—	
Fourth Quarter	36.10	31.55	0.2850	0.2100	(1)
Year 2015	\$40.80	\$30.30	\$1.0950	\$0.2100	
2014	High	Low	Common Dividends Paid	Special Dividends	
First Quarter	\$35.38	\$31.86	\$0.2250	\$—	
Second Quarter	36.77	34.73	0.2400	—	
Third Quarter	35.94	32.39	0.2400	—	
Fourth Quarter	37.96	32.53	0.2400	—	
Year 2014	\$37.96	\$31.86	\$0.9450	\$—	

(1) Paid on January 15, 2016 to holders of record on December 31, 2015.

Holders

As of February 1, 2015, there were approximately 429 common shareholders of record.

Share Repurchases

For certain restricted common shares that vested during December 2015 and 2014, we withheld shares with value equivalent to the employees' minimum statutory obligation for the applicable income and other employment taxes, and remitted the cash to the appropriate taxing authorities. The total number of shares withheld were 31,863 and 412,239 for 2015 and 2014, respectively, and were based on the value of the restricted common shares on the vesting date as determined by our closing share price on the day prior to the vesting date.

Dividends

The Company operates in a manner intended to enable it to qualify as a REIT under the Internal Revenue Code, or the Code. A REIT is required to distribute at least 90% of its taxable income to its shareholders each year. We intend to continue to qualify as a REIT and to distribute substantially all of our taxable income to our shareholders through the payment of regular quarterly dividends. Certain of our debt agreements limit the payment of dividends such that dividends shall not exceed funds from operations ("FFO"), as defined in the agreements, for the prior fiscal year on an

annual basis or 95% of FFO on a cumulative basis. On January 15, 2016, we paid a special dividend to our common shareholders of record on December 31, 2015 in order to ensure we distributed substantially all of our 2015 taxable income to our shareholders.

Securities Authorized for Issuance under Equity Compensation Plans

The information required by this Item is set forth in Part III Item 12 of this document.

Performance Graph

The following Performance Graph and related information shall not be deemed “soliciting material” or to be “filed” with the Commission, nor shall such information be incorporated by reference into any future filing under the Securities Act of 1933, as amended, or the Securities Act, or the Securities Exchange Act of 1934, as amended, or the Exchange Act, except to the extent that the Company specifically incorporates it by reference into such filing.

The following share price performance chart compares our performance to the index of US equity REITs and US retail REITs, both prepared by SNL Financial.

Equity REITs are defined as those that derive more than 75% of their income from equity investments in real estate assets. The SNL equity index includes all publicly traded retail REITs (including malls, shopping centers and other retail REITs) listed on the New York Stock Exchange, NYSE MKT (formerly know as the American Stock Exchange), NASDAQ National Market System or the OTC Market Group.

All share price performance assumes an initial investment of \$100 at the beginning of the period and assumes the reinvestment of dividends. Share price performance, presented for the five years ended December 31, 2015, is not necessarily indicative of future results.

Index	Period Ended					
	12/31/2010	12/31/2011	12/31/2012	12/31/2013	12/31/2014	12/31/2015
Tanger Factory Outlet Centers, Inc.	100.00	117.96	141.31	135.64	160.85	147.74
SNL US REIT Equity	100.00	108.33	130.25	135.11	172.25	177.01

Tanger Properties Limited Partnership Market Information

There is no established public trading market for the Operating Partnership's common units. As of December 31, 2015, the Company's wholly-owned subsidiaries, Tanger GP Trust and Tanger LP Trust, owned 95,880,825 units of the Operating Partnership and the Non-Company LPs owned 5,052,743 units. We made distributions per common unit during 2015 and 2014 as follows:

	2015	2014
First Quarter	\$0.240	\$0.225
Second Quarter	0.285	0.240
Third Quarter	0.285	0.240
Fourth Quarter	0.285	0.240
Dividends per unit	\$1.095	\$0.945
Special dividends per unit ⁽¹⁾	0.210	—
Total dividends per unit	\$1.305	\$0.945

(1) Paid on January 15, 2016 to holders of record on December 31, 2015.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Cautionary Statements

Certain statements made in Item 1 - Business and this Management's Discussion and Analysis of Financial Condition and Results of Operations below are forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act. We intend such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Reform Act of 1995 and included this statement for purposes of complying with these safe harbor provisions. Forward-looking statements, which are based on certain assumptions and describe our future plans, strategies, beliefs and expectations, are generally identifiable by use of the words "believe", "expect", "intend", "anticipate", "estimate", "project", or similar expressions. You should not rely on forward-looking statements since they involve known and unknown risks, uncertainties and other factors which are, in some cases, beyond our control and which could materially affect our actual results, performance or achievements. Important factors which may cause actual results to differ materially from current expectations include, but are not limited to, those set forth under Item 1A - Risk Factors.

The following discussion should be read in conjunction with the consolidated financial statements appearing elsewhere in this report. Historical results and percentage relationships set forth in the consolidated statements of operations, including trends which might appear, are not necessarily indicative of future operations.

General Overview

As of December 31, 2015, we had 34 consolidated outlet centers in 21 states totaling 11.7 million square feet. We also had 9 unconsolidated outlet centers in 7 states or provinces totaling 2.7 million square feet. The table below details our acquisitions, new developments, expansions and dispositions of consolidated and unconsolidated outlet centers that significantly impacted our results of operations and liquidity from January 1, 2013 to December 31, 2015:

Outlet Center	Quarter Acquired/Open/Disposed/Demolished	Unconsolidated		Number of Consolidated Outlet Centers	Number of Unconsolidated Outlet Centers
		Consolidated Outlet Center Square Feet (in thousands)	Joint Venture Outlet Center Square Feet (in thousands)		
As of January 1, 2013		10,737	2,156	36	7

Other		3	1	—	—
As of December 31, 2015		11,746	2,747	34	9

On August 30, 2013, we acquired an additional one-third interest in Deer Park, bringing our total ownership to a two-thirds interest, for total consideration of approximately \$27.9 million. As a result of acquiring a controlling ownership interest, Deer Park has been consolidated in our balance sheet and statements of operations since the (1) acquisition date. The fair value of the net assets acquired, on a consolidated basis, totaled \$83.8 million, consisting of \$319.4 million in rental property and lease related intangibles, \$2.3 million in other identifiable assets and liabilities, and \$237.9 million in debt. Previously Deer Park was reported within our unconsolidated portfolio of properties.

Leasing Activity

The following table provides information for our consolidated outlet centers regarding space re-leased or renewed during the years ended December 31, 2015 and 2014, respectively:

	2015 ⁽¹⁾					
	# of Leases	Square Feet (in 000's)	Average Annual Straight-line Base Rent (psf)	Average Tenant Allowance (psf)	Average Initial Term (in years)	Net Average Annual Straight-line Base Rent (psf) ⁽³⁾
Re-tenant	119	444	\$31.48	\$28.82	9.22	\$28.35
Renewal	278	1,282	26.06	0.11	5.04	26.04
	2014 ⁽²⁾					
	# of Leases	Square Feet (in 000's)	Average Annual Straight-line Base Rent (psf)	Average Tenant Allowance (psf)	Average Initial Term (in years)	Net Average Annual Straight-line Base Rent (psf) ⁽³⁾
Re-tenant	134	470	\$32.93	\$39.39	9.02	\$28.56
Renewal	275	1,241	23.38	0.21	4.47	23.33

(1) Excludes Kittery I & II, Tuscola, West Branch and Barstow outlet centers which were sold in 2015.

(2) Excludes Lincoln City outlet center which was sold in 2014.

Net average straight-line base rent is calculated by dividing the average tenant allowance costs per square foot by the average initial term and subtracting this calculated number from the average straight-line base rent per year (3) amount. The average annual straight-line base rent disclosed in the table above includes all concessions, abatements and reimbursements of rent to tenants. The average tenant allowance disclosed in the table above includes landlord costs.

Results of Operations

2015 Compared to 2014

Net Income

Net income increased \$144.0 million in the 2015 period to \$222.2 million as compared to \$78.2 million for the 2014 period. The majority of this increase was due to gains from the sale of our equity interest in the Wisconsin Dells joint venture, and the sales of our Kittery I & II, Tuscola, West Branch and Barstow outlet centers, which resulted in gains totaling approximately \$120.4 million. In addition, net income increased in the 2015 period primarily due to:

- incremental operating income from the opening of three new consolidated centers in 2015 and four small expansions of our consolidated properties completed since January 2014,
- the overall growth in the operating income of our existing properties,
-

an increase in equity in earnings of unconsolidated joint ventures due to three new properties and two significant expansions completed within our unconsolidated joint ventures since January 2014, and
• lower interest expense incurred in the 2015 period compared to the 2014 period as a result of debt refinancings completed in 2014.

Offsetting some of the increases to net income include:

• lower operating income in 2015 due to the sale of our Lincoln City outlet center in December 2014 as well as the sales of the other outlet centers listed above in 2015, and,
• lower earnings as a result of the sale of our equity interest in the Wisconsin Dells joint venture.

In the tables below, information set forth for new developments includes our Foxwoods, Grand Rapids, and Southaven outlet centers, which opened in May 2015, July 2015, and November 2015, respectively. Properties disposed includes the Lincoln City outlet center that was sold in December 2014, the Kittery I & II, Tuscola, and West Branch outlet centers sold in September 2015 and the Barstow outlet center sold in October 2015.

Base Rentals

Base rentals increased \$15.2 million, or 6%, in the 2015 period compared to the 2014 period. The following table sets forth the changes in various components of base rentals (in thousands):

	2015	2014	Increase/ (Decrease)
Base rentals from existing properties	\$266,317	\$259,672	\$6,645
Base rentals from new developments	11,656	—	11,656
Base rentals from properties disposed	9,145	16,253	(7,108)
Termination fees	4,576	1,310	3,266
Amortization of above and below market rent adjustments, net	(2,006)	(2,755)	749
	\$289,688	\$274,480	\$15,208

Base rental income generated from existing properties in our portfolio increased due to increases in rental rates on lease renewals, incremental rents from re-tenanting vacant spaces, and incremental income from the expansion of our Sevierville, Branson, Park City and San Marcos outlet centers.

Termination fees, which are generally based on the lease term remaining at the time of termination, increased in the 2015 period compared to the 2014 period as a result of certain brand-wide store closures throughout our portfolio. The 2014 period did not have any significant tenant closures.

At December 31, 2015, the combined net value representing the amount of unamortized above market lease assets and below market lease liability values, recorded as a part of the purchase price of acquired properties, was a net above market lease asset totaling approximately \$5.9 million. If a tenant terminates its lease prior to the contractual termination of the lease and no rental payments are being made on the lease, any unamortized balance of the related above or below market lease value would be written off and could materially impact our net income positively or negatively.

Percentage Rentals

Percentage rentals decreased \$150,000, or 1%, in the 2015 period compared to the 2014 period. The following table sets forth the changes in various components of base rentals (in thousands):

	2015	2014	Increase/ (Decrease)
Percentage rentals from existing properties	\$9,111	\$8,679	\$432
Percentage rentals from new developments	45	—	45
Percentage rentals from properties disposed	1,001	1,628	(627)
	\$10,157	\$10,307	\$(150)

Percentage rentals represents revenues based on a percentage of tenants' sales volume above their contractual breakpoints. The increase in percentage rentals from existing properties is due to higher sales volume for certain existing tenants and also due to certain new tenants added to the existing properties whose sales exceeded their contractual break point. Reported tenant comparable sales for our consolidated properties for the year ended December 31, 2015 of \$395 per square foot were flat compared to the year ended December 31, 2014. Reported tenant comparable sales is defined as the weighted average sales per square foot reported in space open for the full duration of each comparison period.

Expense Reimbursements

Expense reimbursements increased \$3.9 million, or 3%, in the 2015 period compared to the 2014 period. The following table sets forth the changes in various components of expense reimbursements (in thousands):

	2015	2014	Increase/ (Decrease)
Expense reimbursements from existing properties	\$118,434	\$114,988	\$3,446
Expense reimbursements from new developments	4,005	—	4,005
Expense reimbursements from properties disposed	4,029	7,544	(3,515)
	\$126,468	\$122,532	\$3,936

Expense reimbursements, which represent the contractual recovery from tenants of certain common area maintenance, insurance, property tax, promotional, advertising and management expenses, generally fluctuate consistently with the reimbursable property operating expenses to which they relate. See "Property Operating Expenses" below for a discussion of the increase in property operating expenses.

Most, but not all, leases contain provisions requiring tenants to pay a share of our operating expenses as additional rent. However, substantially all of the leases for our new Foxwoods outlet center, which opened in May 2015, require tenants to pay a single minimum contractual gross rent and, in certain cases, percentage rent; thus, all minimum rents received for the Foxwoods outlet center are recorded as base rent and none are recorded to expense reimbursements.

Management, Leasing and Other Services

Management, leasing and other services increased \$1.8 million, or 51%, in the 2015 period compared to the 2014 period. The following table sets forth the changes in various components of management, leasing and other services (in thousands):

	2015	2014	Increase/ (Decrease)
Development and leasing	\$1,827	\$725	\$1,102
Loan guarantee	746	463	283
Management and marketing	2,853	2,403	450
	\$5,426	\$3,591	\$1,835

The increase in fees recognized was due to the increase in the number of unconsolidated joint ventures for which we provide services in the 2015 period compared to the 2014 period. The majority of the increases was due to fees from the Savannah outlet center which opened in April 2015.

Other Income

Other income decreased \$18,000, in the 2015 period compared to the 2014 period. The following table sets forth the changes in various components of other income (in thousands):

	2015	2014	Increase/ (Decrease)
Other income from existing properties	\$6,917	\$7,202	\$(285)
Other income from new developments	457	—	457
Other income from properties disposed	256	446	(190)
	\$7,630	\$7,648	\$(18)

Property Operating Expenses

Property operating expenses increased \$9.1 million, or 7%, in the 2015 period compared to the 2014 period. The following table sets forth the changes in various components of property operating expenses (in thousands):

	2015	2014	Increase/ (Decrease)
Property operating expenses from existing properties	\$ 132,439	\$ 127,952	\$ 4,487
Property operating expenses from new developments	9,242	—	9,242
Property operating expenses from properties disposed	4,822	9,470	(4,648)
	\$ 146,503	\$ 137,422	\$ 9,081

Property operating expenses from existing properties increased due to higher snow removal costs and increased mall office operating costs, maintenance costs, and increased real estate taxes.

General and Administrative Expenses

General and administrative expenses in the 2015 period was flat when compared to the 2014 period. Increases in general and administrative expenses, including annual wage increases, the addition of new employees subsequent to January 1, 2014 and higher share-based compensation expense related to equity awards granted during 2015, were essentially offset by the reversal of \$731,000 of share-based compensation expense related to the October 2015 announcement of the retirement of our Chief Financial Officer effective in 2016 and decreases in payroll taxes as the 2014 period included taxes for the significant amount of notional units that vested in December 2014.

Abandoned Pre-Development Costs

During the 2014 period, we decided to abandon two pre-development projects and as a result, we recorded a \$2.4 million charge, representing the cumulative related costs.

Depreciation and Amortization

Depreciation and amortization increased \$1.5 million, or 1%, in the 2015 period compared to the 2014 period. The following table sets forth the changes in various components of depreciation and amortization (in thousands):

	2015	2014	Increase/ (Decrease)
Depreciation and amortization expenses from existing properties	\$ 95,982	\$ 97,949	\$ (1,967)
Depreciation and amortization expenses from new developments	5,902	—	5,902
Depreciation and amortization from properties disposed	2,052	4,483	(2,431)
	\$ 103,936	\$ 102,432	\$ 1,504

Depreciation and amortization costs decreased at existing properties as certain construction and development related assets, as well as lease related intangibles recorded as part of the acquisition price of acquired properties, which are amortized over shorter lives, became fully depreciated during the reporting periods.

Interest Expense

Interest expense decreased \$3.7 million, or 6%, in the 2015 period compared to the 2014 period, due to the issuance of \$250 million senior notes in November 2014 which bear an interest rate of 3.75%. The net proceeds were used in December 2014 to redeem our \$250 million, 6.15% senior notes which had an original maturity of November 2015.

Loss on Early Extinguishment of Debt

In November 2014, we completed a \$250 million, 3.75% senior notes offering. The net proceeds were used to redeem our \$250 million, 6.15% senior notes originally due November 2015. We recorded a charge of approximately \$13.1

million for the make-whole premium related to the early redemption, which was completed in December 2014.

Gain on Sale of Assets and Interests in Unconsolidated Entities

In February 2015, we sold our equity interest in the joint venture that owned the Wisconsin Dells outlet center for approximately \$15.6 million, representing our share of the sales price totaling \$27.7 million less our share of the outstanding debt, which totaled \$12.1 million. As a result of this transaction, we recorded a gain of approximately \$13.7 million in the first quarter of 2015, which represents the difference between the carrying value of our equity method investment and the net proceeds received.

In September 2015, we sold our Kittery I & II, Tuscola, and West Branch outlet centers for approximately \$43.3 million, which resulted in a gain of \$20.2 million and in October 2015, we sold our Barstow outlet center for approximately \$105.8 million, which resulted in a gain of \$86.5 million.

Equity in Earnings of Unconsolidated Joint Ventures

Equity in earnings of unconsolidated joint ventures increased approximately \$2.4 million or 27% in the 2015 period compared to the 2014 period. The following table sets forth the changes in various components of equity in earnings of unconsolidated joint ventures (in thousands):

	2015	2014	Increase/ (Decrease)
Equity in earnings from existing properties	\$6,618	\$6,001	\$617
Equity in earnings from new developments	4,708	1,621	\$3,087
Equity in earnings from property disposed	158	1,431	(1,273)
	\$11,484	\$9,053	\$2,431

The increase in equity in earnings of unconsolidated joint ventures from new developments is due to the incremental earnings from the Charlotte outlet center, which opened during the third quarter of 2014; the Ottawa outlet center, which opened during the fourth quarter of 2014; and the Savannah outlet center, which opened in April 2015. The equity in earnings from properties disposed are related to our equity interest in the Wisconsin Dells joint venture, which we sold in February 2015.

2014 Compared to 2013

Net Income

Net income decreased approximately \$35.2 million in the 2014 period to \$78.2 million compared to \$113.3 million for the 2013 period. The decrease in net income was due in part to the loss from the early redemption of our \$250 million, 6.15% senior notes. In November 2014, we completed a \$250 million, 3.75% senior notes offering. The net proceeds were used to redeem our \$250 million, 6.15% senior notes due November 2015. We recorded a charge of approximately \$13.1 million for the early extinguishment of debt. This charge was partially offset by the gain on the sale of our outlet center in Lincoln City. The net proceeds received from the sale of the property were approximately \$39.0 million. We recorded a gain on sale of real estate of approximately \$7.5 million.

The decrease in net income was also due to a \$26.0 million gain on a previously held interest in an acquired joint venture, which owned the property in Deer Park, recorded in the third quarter of fiscal 2013, as well as \$7.8 million recorded as our equity earnings of unconsolidated joint ventures related to certain transactions that occurred at Deer Park just prior to the acquisition. Previously we owned a one-third interest in the Deer Park, property which was accounted for using the equity method of accounting. The acquisition of our controlling interest on August 30, 2013 required us to consolidate the property for financial reporting purposes. As a result, our consolidated statements of operations reflect all of the revenues and expenses of Deer Park since the acquisition date including the significant depreciation and amortization associated with the property, the net effect of which was a reduction in net income.

Base Rentals

Base rentals increased \$21.1 million, or 8%, in the 2014 period compared to the 2013 period. The following table sets forth the changes in various components of base rentals (in thousands):

	2014	2013	Increase/ (Decrease)
Base rentals from existing properties	\$252,814	\$245,985	\$6,829
Base rentals from 2013 acquisitions	23,111	7,494	15,617
Termination fees	1,310	609	701
Amortization of net above and below market lease values	(2,755)	(686)	(2,069)
	\$274,480	\$253,402	\$21,078

Base rental income generated from existing properties in our portfolio increased due to increases in rental rates on lease renewals and incremental rents from re-tenanting vacant spaces, as well as incremental base rental income from the expansions at our Branson, Charleston, Park City and Sevierville outlet centers in 2014.

Termination fees, which are generally based on the lease term remaining at the time of termination, increased compared to the 2013 period as the average remaining term on leases terminating early in 2014 was longer than the average remaining term of the leases terminating early in 2013.

At December 31, 2014, the combined net amount of above market lease assets and below market lease liability values, recorded as a part of the purchase price of acquired properties, was a net above market lease asset totaling approximately \$7.9 million. If a tenant terminates its lease prior to the contractual termination of the lease and no rental payments are being made on the lease, any unamortized balance of the related above or below market lease value will be written off and could materially impact our net income positively or negatively. The change in the amortization of above and below market lease values was primarily attributable to the amortization of the above market lease values recorded from the 2013 acquisition of the Deer Park, New York property.

Percentage Rentals

Percentage rentals decreased \$944,000, or 8%, in the 2014 period compared to the 2013 period. The following table sets forth the changes in various components of base rentals (in thousands):

	2014	2013	Increase/(Decrease)
Percentage rentals from existing properties	\$9,726	\$11,147	\$ (1,421)
Percentage rentals from 2013 acquisition	581	104	477
	\$10,307	\$11,251	\$ (944)

Percentage rentals represents revenues based on a percentage of tenants' sales volume above their contractual breakpoints. The decrease in percentage rentals is primarily a function of tenants renewing leases with higher base rental rates, and accordingly, higher contractual breakpoints. Reported tenant comparable sales for our consolidated properties for the year ended December 31, 2014 increased approximately 2% to \$393 per square foot. Reported tenant comparable sales is defined as the weighted average sales per square foot reported in space open for the full duration of each comparison period.

Expense Reimbursements

Expense reimbursements increased \$12.9 million, or 12%, in the 2014 period compared to the 2013 period. The following table sets forth the changes in various components of expense reimbursements (in thousands):

	2014	2013	Increase/ (Decrease)
Expense reimbursements from existing properties	\$111,513	\$106,337	\$5,176
Expense reimbursements from 2013 acquisitions	11,019	3,317	7,702

\$122,532 \$109,654 \$12,878

Expense reimbursements, which represent the contractual recovery from tenants of certain common area maintenance, insurance, property tax, promotional, advertising and management expenses, generally fluctuate consistently with the reimbursable property operating expenses to which they relate. See "Property Operating Expenses" below for a discussion of the increase in operating expenses from our existing properties.

Management, Leasing and Other Services

Management, leasing and other services increased \$511,000, or 17%, in the 2014 period compared to the 2013 period. The following table sets forth the changes in various components of management, leasing and other services (in thousands):

	2014	2013	Increase/ (Decrease)
Development and leasing	\$725	\$595	\$130
Loan guarantee	463	161	302
Management and marketing	2,403	2,324	79
	\$3,591	\$3,080	\$511

The increase in development, leasing, management and marketing fees recognized from unconsolidated joint ventures was due to incremental increases from our Ottawa and Charlotte outlet centers, which opened in 2014. The increase in loan guarantee fees was due to fees earned from our Westgate and Savannah joint ventures.

Other Income

Other income increased \$216,000, or 3%, in the 2014 period compared to the 2013 period. The following table sets forth the changes in various components of other income (in thousands):

	2014	2013	Increase/ (Decrease)
Other income from existing properties	\$7,056	\$7,223	\$(167)
Other income from 2013 acquisitions	592	209	383
	\$7,648	\$7,432	\$216

Property Operating Expenses

Property operating expenses increased \$16.4 million, or 14%, in the 2014 period compared to the 2013 period. The following table sets forth the changes in various components of property operating expenses (in thousands):

	2014	2013	Increase/ (Decrease)
Property operating expenses from existing properties	\$120,987	\$115,979	\$5,008
Property operating expenses from 2013 acquisitions	16,435	5,067	11,368
	\$137,422	\$121,046	\$16,376

Property operating expenses increased at existing properties due to increases in mall office operating costs and real estate taxes, as well as significantly higher snow removal costs.

General and Administrative Expenses

General and administrative expenses increased \$5.4 million, or 14%, in the 2014 period compared to the 2013 period. This increase was mainly due to additional share-based compensation expense related to the 2014 issuance of restricted shares to directors and certain officers of the Company, the grant of performance shares under a new long term incentive plan and the grant of options to certain employees. Also, the 2014 period included higher payroll related expenses due to the addition of new employees during 2013 and 2014.

Acquisition Costs

The 2013 period included costs related to the acquisition of the additional ownership interest in the Deer Park property as well as costs from other potential acquisitions of operating properties that we chose not to pursue.

43

Abandoned Pre-Development Costs

During the 2014 period, we decided to abandon two pre-development projects and as a result, we recorded a \$2.4 million charge, representing the cumulative related costs.

Depreciation and Amortization

Depreciation and amortization increased \$6.7 million, or 7%, in the 2014 period compared to the 2013 period. The following table sets forth the changes in various components of depreciation and amortization (in thousands):

	2014	2013	Increase/ (Decrease)
Depreciation and amortization from existing properties	\$87,071	\$88,920	\$(1,849)
Depreciation and amortization from 2013 acquisitions	15,361	6,826	8,535
	\$102,432	\$95,746	\$6,686

Depreciation and amortization costs decreased at existing properties as certain construction and development related assets, as well as lease related intangibles recorded as part of the acquisition price of acquired properties, which are amortized over shorter lives, became fully depreciated during the reporting periods.

Interest Expense

Interest expense increased approximately \$6.3 million, or 12%, in the 2014 period compared to the 2013 period, primarily due to the acquisition of the additional ownership interest in Deer Park in August 2013. With the acquisition of the additional interest in Deer Park, we consolidated the property with all of the property's debt being reflected on our consolidated balance sheet and the associated interest expense being reflected in interest expense on our consolidated operating statements since the acquisition date. In addition, we issued \$250 million in aggregate principal amount of 3.875% senior, unsecured notes during the 4th quarter of 2013. The proceeds from these notes repaid amounts outstanding on our unsecured lines of credit which had an interest rate of approximately 1.2%.

Loss on Early Extinguishment of Debt

In November 2014, we completed a \$250 million, 3.75% senior notes offering. The net proceeds were used to redeem our \$250 million, 6.15% senior notes due November 2015. We recorded a charge of approximately \$13.1 million for the make-whole premium related to the early redemption, which was completed in December 2014.

Gain on Sale of Real Estate

In December 2014, we completed the sale of our outlet center in Lincoln City. The net proceeds received from the sale of the property were approximately \$39.0 million. We recorded a gain on sale of real estate of approximately \$7.5 million.

Gain on Previously Held Interest in Acquired Joint Venture

In August 2013, we acquired an additional one-third ownership interest in the Deer Park property, bringing our total ownership to a two-thirds interest. With the acquisition of a controlling interest, we have consolidated the property for financial reporting purposes since the acquisition date. Using the step acquisition approach, we recorded a gain of approximately \$26.0 million, representing the difference between the carrying value and the fair market value of our original equity interest. The carrying value of our original investment in the property had been reduced over time as a result of recognizing our share of the losses generated by the property under the equity method of accounting. The losses were generally the result of depreciation and amortization expense exceeding earnings before depreciation. In addition, a significant portion of our original investment was returned during the period in which we held the investment due to distributions made to the owners from (1) proceeds received when permanent financing was put in place, (2) proceeds received from the settlement of a lawsuit, and (3) cash on hand immediately prior to our acquisition. Accordingly, a substantial portion of the fair value of our equity interest was recognized as a gain due to

the low cost basis of our equity investment balance in the property.

Other Nonoperating Income (Expense)

During the first quarter of 2014, we incurred property damage to our West Branch outlet center due to a severe snow storm. Our insurance policy provides us with reimbursement for the replacement cost for the damage done to this property. During fiscal 2014, we recorded a casualty gain of \$486,000 reflecting our expected total replacement insurance proceeds in excess of the total of the net book value written off and demolition costs incurred.

Equity in Earnings of Unconsolidated Joint Ventures

Equity in earnings of unconsolidated joint ventures decreased approximately \$2.0 million in the 2014 period compared to the 2013 period. The decrease is primarily due to transactions at the Deer Park property in 2013 prior to our acquisition of an additional one-third interest in the property and its subsequent consolidation for financial reporting purposes. As a part of the refinancing of the debt at Deer Park in August 2013, a gain on early extinguishment of debt of \$13.8 million was recorded. In addition a lawsuit was settled which resulted in income to Deer Park of approximately \$9.5 million after expenses. Our one-third share of these transactions, recorded through equity in earnings prior to the acquisition, was approximately \$7.8 million. This decrease is partially offset by the incremental equity in earnings from the National Harbor outlet center and Charlotte outlet center which opened during the fourth quarter of 2013 and the third quarter of 2014, respectively.

Liquidity and Capital Resources of the Company

In this “Liquidity and Capital Resources of the Company” section, the term, the Company, refers only to Tanger Factory Outlet Centers, Inc. on an unconsolidated basis, excluding the Operating Partnership.

The Company's business is operated primarily through the Operating Partnership. The Company issues public equity from time to time, but does not otherwise generate any capital itself or conduct any business itself, other than incurring certain expenses in operating as a public company, which are fully reimbursed by the Operating Partnership. The Company does not hold any indebtedness, and its only material asset is its ownership of partnership interests of the Operating Partnership. The Company's principal funding requirement is the payment of dividends on its common shares. The Company's principal source of funding for its dividend payments is distributions it receives from the Operating Partnership.

Through its ownership of the sole general partner of the Operating Partnership, the Company has the full, exclusive and complete responsibility for the Operating Partnership's day-to-day management and control. The Company causes the Operating Partnership to distribute all, or such portion as the Company may in its discretion determine, of its available cash in the manner provided in the Operating Partnership's partnership agreement. The Company receives proceeds from equity issuances from time to time, but is required by the Operating Partnership's partnership agreement to contribute the proceeds from its equity issuances to the Operating Partnership in exchange for partnership units of the Operating Partnership.

The Company is a well-known seasoned issuer with a shelf registration which expires in June 2018 that allows the Company to register unspecified, various classes of equity securities and the Operating Partnership to register unspecified, various classes of debt securities. As circumstances warrant, the Company may issue equity from time to time on an opportunistic basis, dependent upon market conditions and available pricing. The Operating Partnership may use the proceeds to repay debt, including borrowings under its lines of credit, develop new or existing properties, to make acquisitions of properties or portfolios of properties, to invest in existing or newly created joint ventures or for general corporate purposes.

The liquidity of the Company is dependent on the Operating Partnership's ability to make sufficient distributions to the Company. The Operating Partnership is a party to loan agreements with various bank lenders that require the Operating Partnership to comply with various financial and other covenants before it may make distributions to the Company. The Company also guarantees some of the Operating Partnership's debt. If the Operating Partnership fails to fulfill its debt requirements, which trigger the Company's guarantee obligations, then the Company may be required to fulfill its cash payment commitments under such guarantees. However, the Company's only material asset is its investment in the Operating Partnership.

The Company believes the Operating Partnership's sources of working capital, specifically its cash flow from operations, and borrowings available under its unsecured credit facilities, are adequate for it to make its distribution payments to the Company and, in turn, for the Company to make its dividend payments to its shareholders. However, there can be no assurance that the Operating Partnership's sources of capital will continue to be available at all or in amounts sufficient to meet its needs, including its ability to make distribution payments to the Company. The unavailability of capital could adversely affect the Operating Partnership's ability to pay its distributions to the Company, which will in turn, adversely affect the Company's ability to pay cash dividends to its shareholders.

For the Company to maintain its qualification as a real estate investment trust, it must pay dividends to its shareholders aggregating annually at least 90% of its taxable income. While historically the Company has satisfied this distribution requirement by making cash distributions to its shareholders, it may choose to satisfy this requirement by making distributions of cash or other property, including, in limited circumstances, the Company's own shares. Based on our 2015 taxable income to shareholders, we were required to distribute approximately \$101.7 million to our shareholders in order to maintain our REIT status as described above. We distributed approximately \$123.9 million, which includes a special dividend paid in January 2016, to shareholders which exceeded our required distributions.

As a result of this distribution requirement, the Operating Partnership cannot rely on retained earnings to fund its on-going operations to the same extent that other companies whose parent companies are not real estate investment trusts can. The Company may need to continue to raise capital in the equity markets to fund the Operating Partnership's working capital needs, as well as potential developments of new or existing properties, acquisitions or investments in existing or newly created joint ventures.

As the sole owner of the general partner with control of the Operating Partnership, the Company consolidates the Operating Partnership for financial reporting purposes. The Company does not have significant assets other than its investment in the Operating Partnership. Therefore, assets, liabilities, revenues and expenses of the Company and the Operating Partnership are the same on their respective financial statements, except for immaterial differences related to cash, other assets and accrued liabilities that arise from public company expenses paid by the Company. However, all debt is held directly or indirectly at the Operating Partnership level, and the Company has guaranteed some of the Operating Partnership's unsecured debt as discussed below. Because the Company consolidates the Operating Partnership, the section entitled "Liquidity and Capital Resources of the Operating Partnership" should be read in conjunction with this section to understand the liquidity and capital resources of the Company on a consolidated basis and how the Company is operated as a whole.

Liquidity and Capital Resources of the Operating Partnership

General Overview

In this "Liquidity and Capital Resources of the Operating Partnership" section, the terms "we", "our" and "us" refer to the Operating Partnership or the Operating Partnership and the Company together, as the text requires.

Property rental income represents our primary source to pay property operating expenses, debt service, capital expenditures and distributions, excluding non-recurring capital expenditures and acquisitions. To the extent that our cash flow from operating activities is insufficient to cover such non-recurring capital expenditures and acquisitions, we finance such activities from borrowings under our unsecured lines of credit or from the proceeds from the Operating Partnership's debt offerings and the Company's equity offerings.

We believe we achieve a strong and flexible financial position by attempting to: (1) maintain a conservative leverage position relative to our portfolio when pursuing new development, expansion and acquisition opportunities, (2) extend and sequence debt maturities, (3) manage our interest rate risk through a proper mix of fixed and variable rate debt, (4) maintain access to liquidity by using our lines of credit in a conservative manner and (5) preserve internally generated sources of capital by strategically divesting of our non-core assets and maintaining a conservative distribution payout ratio. We manage our capital structure to reflect a long-term investment approach and utilize multiple sources of capital to meet our requirements.

Statements of Cash Flows

The following table sets forth our changes in cash flows from 2015 and 2014 (in thousands):

	2015	2014	Change
Net cash provided by operating activities	\$221,818	\$187,959	\$33,859
Net cash used in investing activities	(221,827)	(188,588)	(33,239)
Net cash provided by financing activities	6,854	1,977	4,877
Effect of foreign currency rate changes on cash and equivalents	(1,099)	(526)	(573)
Net increase in cash and cash equivalents	\$5,746	\$822	\$4,924

Operating Activities

In 2015, our cash provided from operating activities was positively impacted by a number of factors, including an increase in operating income throughout the consolidated portfolio from increases in base rental rates, operating income from our Foxwoods, Grand Rapids, and Memphis outlet centers which opened in May 2015, July 2015, and November 2015, respectively, four small expansions of our consolidated properties completed during 2014, and an increase in distributions received from unconsolidated joint ventures from the new centers and expansions completed in 2014.

Investing Activities

The increase in net cash used in investing activities is primarily associated with the following:

Cash used for additions to rental property increased due to the construction of our Foxwoods, Grand Rapids, and Memphis outlet centers which opened during 2015.

Less cash was received in 2015 compared to 2014 from unconsolidated joint ventures that represented a return of investment as the 2014 period included the distribution of \$89.4 million in net loan proceeds related the Charlotte joint venture that was distributed equally to the partners.

Cash provided from assets sales increased year over year as in 2015 we sold our equity interest in the joint venture that owned the Wisconsin Dells outlet center and five other properties compared to a sale of one property in 2014. Of the \$164.6 million in proceeds received from the 2015 asset sales, approximately \$121.3 million was held as restricted cash as of December 31, 2015.

Contributions to our unconsolidated joint ventures for the property development activities was much less in 2015 compared to 2014 as one new joint venture project (Savannah) was under construction during the 2015 period compared to the construction of three new properties (Charlotte, Ottawa and Savannah) and two significant expansions (Cookstown and Westgate) in the 2014 period.

Financing Activities

The increase in cash provided by financing activities was primarily due to a decrease in the amounts paid by us on behalf of certain employees related to income taxes from shares withheld upon vesting of equity awards. The increase was offset by an increase in the quarterly dividends paid to our common shareholders.

Current Development Activities

We intend to continue to grow our portfolio by developing, expanding or acquiring additional outlet centers. In the section below, we describe the new developments that are either currently planned, underway or recently completed. However, you should note that any developments or expansions that we, or a joint venture that we are involved in, have planned or anticipated may not be started or completed as scheduled, or may not result in accretive net income or FFO. See the section "Funds From Operations" in the Management's Discussion and Analysis section for further discussion of FFO. In addition, we regularly evaluate acquisition or disposition proposals and engage from time to time in negotiations for acquisitions or dispositions of properties. We may also enter into letters of intent for the acquisition or disposition of properties. Any prospective acquisition or disposition that is being evaluated or which is subject to a letter of intent may not be consummated, or if consummated, may not result in an increase in liquidity, net income or funds from operations.

New Development of Consolidated Outlet Centers

Foxwoods

In May 2015, we opened an approximately 312,000 square foot outlet center at the Foxwoods Resort Casino in Mashantucket, Connecticut. We own a controlling interest in the joint venture which is consolidated for financial reporting purposes. As of December 31, 2015, our partner's equity contributions totaled approximately \$1.0 million and our equity contributions totaled approximately \$58.8 million. Contributions we make in excess of \$40.0 million earn a preferred rate of return of 15% from the date of contribution. In addition, each partner earns a rate of return of 10% on their initial capital contributions from the date of contribution. Under the terms of the joint venture's operating agreement, upon liquidation, we would receive all of our unreturned contributions and all unpaid returns earned on those contributions prior to any distributions being made to our partner. Accordingly, we expect our current economic interest in the venture's cash flow to be greater than our legal ownership percentage of 67%. As of December 31, 2015, based upon the liquidation proceeds we would receive from a hypothetical liquidation of our investment based on depreciated book value, our economic interest would represent substantially all of the economic benefit of the property. Our economic interest may fluctuate based on a number of factors, including mortgage financing, partnership capital contributions and distributions, and proceeds from asset sales.

Grand Rapids

In July 2015, we opened an approximately 352,000 square foot wholly-owned outlet center near Grand Rapids, Michigan. The outlet center is located 11 miles south of downtown Grand Rapids at the southwest quadrant of US-131 and 84th Street in Byron Township, Michigan, with visibility from both roads.

Southaven

In November 2015, we opened an approximately 320,000 square foot outlet center in Southaven, Mississippi. In January 2015, we purchased land for approximately \$14.8 million and commenced construction on the development of Tanger Outlets Southaven, which is located less than five miles south of Memphis, Tennessee. We own a controlling interest in the joint venture which is consolidated for financial reporting purposes. As of December 31, 2015, our partner's equity contributions totaled approximately \$461,000 and our equity contributions totaled approximately \$26.5 million. From the date our equity contributions are made, we earn a preferred rate of return of 10% for senior contributions and 14% for junior contributions. As of December 31, 2015, the balance of our senior contributions was \$17.7 million and our junior contributions was \$8.3 million.

Under the terms of the joint venture's operating agreement, upon liquidation, we would receive all of our unreturned contributions and all unpaid returns earned on those contributions prior to any distributions being made to our partner. Accordingly, we expect our current economic interest in the venture's cash flow to be greater than our legal ownership percentage of 50%. As of December 31, 2015, based upon the liquidation proceeds we would receive from a hypothetical liquidation of our investment based on depreciated book value, our economic interest would represent substantially all of the economic benefit of the property. Our economic interest may fluctuate based on a number of factors, including mortgage financing, partnership capital contributions and distributions, and proceeds from asset sales.

The following table summarizes our projects under development as of December 31, 2015:

Project	Approximate square feet (in 000's)	Projected Total Net Cost per Square Foot (in dollars)	Projected Total Net Cost (in millions)	Costs Incurred to Date (in millions)	Projected Opening
Daytona Beach	352	\$259	\$91.2	\$17.3	Holiday 2016

Daytona Beach

In November 2015, we purchased land for approximately \$9.9 million and commenced construction on the development of a wholly owned outlet center in Daytona Beach, Florida. The outlet center is expected to be approximately 352,000 square feet and to open by Holiday 2016.

New Development in Unconsolidated Real Estate Joint Ventures

From time to time, we form joint venture arrangements to develop outlet centers. The following table summarizes our unconsolidated joint venture development projects as of December 31, 2015:

Project	Ownership %	Approximate square feet (in 000's)	Projected Total Net Cost per Square Foot (in dollars)	Projected Total Net Cost (in millions)	Costs Incurred to Date (in millions)	Projected Opening
Columbus	50	%355	\$267	\$94.9	\$41.2	June 2016

During the second quarter of 2015, the joint venture purchased land for approximately \$8.9 million and began construction on a 350,000 square foot outlet center in Columbus, Ohio. We and our partner currently expect to complete construction in time to open the center during the second quarter of 2016. The construction of the center is currently being funded with equity contributions from the partners. As of December 31, 2015, we and our partner had each contributed \$20.6 million to fund development activities.

See "Off-Balance Sheet Arrangements" for a discussion of unconsolidated joint venture development activities.

Other Potential Future Developments and Dispositions of Rental Property

As of the date of this filing, we are in the initial study period for potential new developments. We may also use joint venture arrangements to develop other potential sites. There can be no assurance, however, that these potential future developments will ultimately be developed.

In the case of projects to be wholly-owned by us, we expect to fund these projects with borrowings under our unsecured lines of credit and cash flow from operations, but may also fund them with capital from additional public debt and equity offerings. For projects to be developed through joint venture arrangements, we may use collateralized construction loans to fund a portion of the project, with our share of the equity requirements funded from sources described above.

On September 30, 2015, the noncontrolling interest in our Deer Park outlet center exercised its right to require us to acquire their ownership interest in the property for \$28.4 million. The transaction closed on January 5, 2016. The obligation to acquire its interest is recorded as a deferred financing obligation in the other liabilities section of our consolidated balance sheet.

From time to time, we may sell one or more outlet centers that do not meet our long-term investment criteria. In February 2015, we sold our equity interest in the joint venture that owned the Wisconsin Dells outlet center for approximately \$15.6 million, representing our share of the sales price totaling \$27.7 million less our share of the outstanding debt, which totaled \$12.1 million. As a result of this transaction, we recorded a gain of approximately \$13.7 million in the first quarter of 2015, which represents the difference between the carrying value of our equity method investment and the net proceeds received.

During 2015, we sold five outlet centers for net proceeds of approximately \$149.1 million, and recognized a gain of approximately \$106.7 million. The outlet centers were located in Kittery, Maine (two centers); Tuscola, Illinois; West Branch, Michigan; and Barstow, California.

As of December 31, 2015, approximately \$121.3 million of these proceeds were held by a qualified intermediary and thus have been classified as restricted cash on our consolidated balance sheets. During January 2016, we used a portion of these proceeds along with amounts under our unsecured lines of credit:

To repay a \$150.0 million floating rate mortgage loan and a \$28.4 million deferred financing obligation, both of which are related to our 749,000 square foot outlet center in Deer Park, New York. These transactions allowed us to unencumber the Deer Park asset while simultaneously deferring a significant portion of the gains related to the asset sales for tax purposes.

To pay a special dividend to our share and unit holders of \$0.21 per share on January 15, 2016.

We plan on investing the remaining sales proceeds, totaling approximately \$16.8 million, in qualified replacement property, including the ongoing construction of our wholly-owned new outlet center development project in Daytona Beach.

In January 2016, we sold our outlet center in Fort Myers, Florida located near Sanibel Island for net proceeds of approximately \$25.8 million. We estimate the gain to be recognized in the first quarter of 2016 to be approximately \$4.9 million. The proceeds from the sale of this unencumbered asset were used to pay down balances outstanding under our unsecured lines of credit.

Financing Arrangements

As of December 31, 2015, unsecured borrowings represented 80% of our outstanding debt and 75% of the gross book value of our real estate portfolio was unencumbered. We maintain unsecured lines of credit that provide for borrowings of up to \$520.0 million, including a \$20.0 million liquidity line and a \$500.0 million syndicated line. Following the amendments in 2015 described below in the section "Extension of Unsecured Lines of Credit", our unsecured lines of credit bear interest at a rate of LIBOR + 0.90% and the syndicated line may be increased to \$1.0 billion through an accordion feature in certain circumstances. The unsecured lines of credit have an expiration date of October 24, 2019 with an option for a one year extension. The Company guarantees the Operating Partnership's obligations under these lines.

2016 Transactions

Deer Park Mortgage

In January 2016, we repaid our \$150.0 million floating rate mortgage loan, which had an original maturity date in August 2018, and our \$28.4 million deferred financing obligation, both of which are related to our 749,000 square foot Deer Park outlet center. These transactions allowed us to unencumber the Deer Park asset while simultaneously

deferring a significant portion of the gains related to the asset sales for tax purposes.

2015 Transactions

Southaven Mortgage

In April 2015, the consolidated joint venture closed on a mortgage loan with the ability to borrow up to \$60.0 million at an interest rate of LIBOR +1.75%. The loan initially matures on April 29, 2018, with one two-year extension option. As of December 31, 2015 the balance on the loan was \$45.8 million.

Hershey Mortgage

May 2015, we repaid the mortgages associated with our Hershey outlet center, which were assumed as part of the acquisition of the property in 2011. The maturity date of the mortgages was August 1, 2015 and it had a principal balance at the date of extinguishment of \$29.0 million.

Ocean City Mortgage

In July 2015, we repaid the mortgage associated with our Ocean City outlet center, which was assumed as part of the acquisition of the property in 2011. The maturity date of the mortgage was January 6, 2016 and had a principal balance at the date of extinguishment of \$17.6 million.

Extension of Unsecured Lines of Credit

In October 2015, we closed on amendments to our unsecured lines of credit, extending the maturity and reducing our interest rate. The maturity date of these facilities was extended from October 2017 to October 2019 with the ability to further extend the maturity date for an additional year at our option. The interest rate was reduced from LIBOR + 1.00% to LIBOR + 0.90% based on our current credit rating and the maximum borrowings to which the syndicated line could be increased through an accordion feature in certain circumstances was increased from \$750.0 million to \$1.0 billion. Loan origination costs associated with the amendments totaled approximately \$2.0 million.

2014 Transactions

Amendment of \$250.0 Million Unsecured Term Loan

In July 2014, we entered into an amendment of our \$250.0 million unsecured term loan which matures in February 2019. The amendment reduced the interest rate on the loan from LIBOR + 1.60% to LIBOR + 1.05%. No other material terms of the loan were amended.

\$250.0 Million Unsecured Senior Notes

In November 2014, Tanger Properties Limited Partnership completed a public offering of \$250.0 million in senior notes due 2024 in an underwritten public offering. The notes were priced at 99.429% of the principal amount to yield 3.819% to maturity. The notes will pay interest semi-annually at a rate of 3.750% per annum and mature on December 1, 2024. The net proceeds from the offering, after deducting the underwriting discount and offering expenses, were approximately \$246.2 million. We used the net proceeds from the sale of the notes to redeem our \$250.0 million 6.15% senior notes due November 2015. We recorded a charge of approximately \$13.1 million for the make-whole premium related to the early redemption, which was completed in December 2014.

Foxwoods Mortgage

In December 2014, the consolidated joint venture closed on a mortgage loan with the ability to borrow up to \$70.3 million at an interest rate of LIBOR + 1.65%. The loan initially matures in December 2017, with two one-year extension options. As of December 31, 2015 the balance on the loan was \$70.3 million.

2013 Transactions

Assumption of \$150.0 Million Mortgage

In August 2013, as part of the acquisition of a controlling ownership interest in Deer Park, we assumed an \$150.0 million interest only mortgage loan, including a fair value discount of \$1.6 million. The loan has a five year term and carries an interest rate of LIBOR + 1.50%. As discussed above, we repaid this loan in January 2016.

Derivatives

In October 2013, to reduce our floating rate debt exposure, we entered into interest rate swap agreements on notional amounts totaling \$150.0 million that fixed the base LIBOR rate at an average of 1.30% from November 2013 to August 2016.

Extension of Unsecured Lines of Credit

In October 2013, we amended our unsecured lines of credit, extending the maturity, and reducing the overall borrowing costs. The maturity of these facilities was extended from November 10, 2015 to October 24, 2017 with the ability to further extend the maturity for an additional year at our option. The annual commitment fee, which is payable on the full \$520.0 million in loan commitments, was reduced from 0.175% to 0.15%, and the interest rate spread over LIBOR was reduced from 1.10% to 1.00% based on our current credit rating. Loan origination costs associated with the amendments totaled approximately \$1.5 million. The lines of credit were further amended in October 2015 as discussed above.

\$250.0 Million Unsecured Senior Notes

In November 2013, Tanger Properties Limited Partnership completed a public offering of \$250.0 million in senior notes due 2023 in an underwritten public offering. The notes were priced at 98.360% of the principal amount to yield 4.076% to maturity. The notes will pay interest semi-annually at a rate of 3.875% per annum and mature on December 1, 2023. The net proceeds from the offering, after deducting the underwriting discount and offering expenses, were approximately \$243.6 million. We used the net proceeds from the sale of the notes to repay borrowings under our unsecured lines of credit.

Capital Expenditures

The following table details our capital expenditures for the years ended December 31, 2015 and 2014, respectively (in thousands):

	2015	2014	Change
Capital expenditures analysis:			
New outlet center developments	\$222,111	\$107,907	\$114,204
Major outlet center renovations	1,602	18,412	(16,810)
Second generation tenant improvement allowances	10,414	14,324	(3,910)
Other capital expenditures	10,212	18,509	(8,297)
	244,339	159,152	85,187
Conversion from accrual to cash basis	(5,633)	(13,256)	7,623
Additions to rental property-cash basis	\$238,706	\$145,896	\$92,810

New center development expenditures, which include first generation tenant allowances, relate to construction expenditures for our Grand Rapids, Southaven, and Foxwoods outlet centers in the 2015 period. The 2014 period included new center development expenditures for our Grand Rapids and Foxwoods outlet centers and expansions at our Charleston, Branson, Sevierville, and Park City outlet centers.

Major center renovations in both the 2015 and 2014 periods included construction activities at our Riverhead and our Rehoboth Beach outlet centers.

Contractual Obligations and Commercial Commitments

The following table details our contractual obligations over the next five years and thereafter as of December 31, 2015 (in thousands):

Contractual Obligations	2016	2017	2018	2019	2020	Thereafter	Total
Debt ⁽¹⁾⁽²⁾	\$12,842	\$80,758	\$199,008	\$443,669	\$303,566	\$527,343	\$1,567,186
Interest payment ⁽²⁾⁽³⁾	52,702	52,284	49,052	42,970	28,679	70,508	296,195
Operating leases	5,982	5,981	5,667	5,716	5,720	294,851	323,917
Deferred financing obligation ⁽⁴⁾	28,388	—	—	—	—	—	28,388
	\$99,914	\$139,023	\$253,727	\$492,355	\$337,965	\$892,702	\$2,215,686

(1) These amounts represent total future cash payments related to debt obligations outstanding as of December 31, 2015.

(2) In January 2016, we repaid our \$150.0 million floating rate mortgage loan originally due in 2018, which is related to our outlet center in Deer Park, New York.

(3) These amounts represent future interest payments related to our debt obligations based on the fixed and variable interest rates specified in the associated debt agreements. All of our variable rate debt agreements are based on the one month LIBOR rate, thus for purposes of calculating future interest amounts on variable interest rate debt, the one month LIBOR rate as of December 31, 2015 was used.

(4) As part of the acquisition in 2013 of a controlling ownership interest in Deer Park, we and the noncontrolling interest entered into an agreement whereby they may require us to acquire their ownership interest in the property on the second anniversary of the acquisition date for a price of \$28.4 million, and we had the option to acquire their ownership interest on the fourth anniversary of the acquisition date at the same price. On September 30, 2015, the noncontrolling interest in our Deer Park outlet center exercised its right to require us to acquire their ownership interest in the property for \$28.4 million. The transaction closed on January 5, 2016. The obligation to redeem their interest at the redemption price was recorded as a deferred financing obligation in the other liabilities section of the balance sheet as of December 31, 2015 and 2014.

In addition to the contractual payment obligations shown in the table above, we have commitments of \$50.6 million remaining as of December 31, 2015 related to contracts to complete construction and development activity at outlet centers throughout our consolidated portfolio. These amounts would be primarily funded by amounts available under our unsecured lines of credit but could also be funded by other sources of capital, such as collateralized construction loans or public debt and equity offerings. In addition, we have commitments to pay approximately \$5.4 million in tenant allowances for leases that are executed but where the tenant improvements have not been constructed.

Payments are only made upon the tenant opening its store, completing its interior construction and submitting the necessary documentation required per its lease. Contractual commitments to complete construction and development activity related to our unconsolidated joint ventures amounted to approximately \$34.5 million at December 31, 2015, of which our portion was approximately \$17.2 million. In addition, commitments related to tenant allowances at our unconsolidated joint ventures totaled approximately \$14.4 million at December 31, 2015, of which our portion was approximately \$7.2 million. Contractual commitments represent only those costs subject to contracts which are legal binding agreements as of December 31, 2015 and do not necessary represent the total cost to complete the projects.

Our debt agreements contain covenants that require the maintenance of certain ratios, including debt service coverage and leverage, and limit the payment of dividends such that dividends and distributions will not exceed funds from operations, as defined in the agreements, for the prior fiscal year on an annual basis or 95% on a cumulative basis. We have historically been and currently are in compliance with all of our debt covenants. We expect to remain in compliance with all our existing debt covenants; however, should circumstances arise that would cause us to be in

default, the various lenders would have the ability to accelerate the maturity on our outstanding debt.

We believe our most restrictive financial covenants are contained in our senior, unsecured notes. Key financial covenants and their covenant levels include the following:

Senior unsecured notes financial covenants	Required	Actual	
Total consolidated debt to adjusted total assets	< 60%	49	%
Total secured debt to adjusted total assets	< 40%	10	%
Total unencumbered assets to unsecured debt	> 150%	181	%

We operate in a manner intended to enable us to qualify as a REIT under the Internal Revenue Code, or the Code. A REIT that distributes at least 90% of its taxable income to its shareholders each year and that meets certain other conditions is not taxed on that portion of its taxable income which is distributed to its shareholders. Based on our 2015 taxable income to shareholders, we were required to distribute approximately \$101.7 million to our shareholders in order to maintain our REIT status as described above. We distributed approximately \$123.9 million, which includes a special dividend paid in January 2016, to shareholders which exceeded our required distributions. If in any taxable year the Company were to fail to qualify as a REIT and certain statutory relief provisions were not applicable, we would not be allowed a deduction for distributions to shareholders in computing taxable income and would be subject to U.S. federal income tax (including any applicable alternative minimum tax) on our taxable income at regular corporate rates.

Off-Balance Sheet Arrangements

The following table details certain information as of December 31, 2015 about various unconsolidated real estate joint ventures in which we have an ownership interest:

Joint Venture	Outlet Center Location	Ownership %	Square Feet (in 000's)	Carrying Value of Investment (in millions)
Columbus	Columbus, OH	50.0	% —	\$21.1
National Harbor	National Harbor, MD	50.0	% 339	6.1
RioCan Canada	Various	50.0	% 870	117.2
Savannah ⁽¹⁾	Savannah, GA	50.0	% 377	44.4
Westgate	Glendale, AZ	58.0	% 411	12.3
				\$201.1
Charlotte ⁽²⁾	Charlotte, NC	50.0	% 398	\$(1.1)
Galveston/Houston ⁽²⁾	Texas City, TX	50.0	% 353	(1.5)
				\$(2.6)

Based on capital contribution and distribution provisions in the joint venture agreement, we expect our economic interest in the venture's cash flow to be greater than the ownership percentage indicated above, which in this case, (1) states our legal interest in this venture. Our economic interest may fluctuate based on a number of factors, including mortgage financing, partnership capital contributions and distributions, and proceeds from asset sales.

(2) The negative carrying value is due to the distributions of proceeds from mortgage loans, and quarterly distributions of excess cash flow exceeding the original contributions from the partners.

Our joint ventures are generally subject to buy-sell provisions which are customary for joint venture agreements in the real estate industry. Either partner may initiate these provisions (subject to any applicable lock up period), which could result in either the sale of our interest or the use of available cash or additional borrowings to acquire the other party's interest. Under these provisions, one partner sets a price for the property, then the other partner has the option to either (1) purchase their partner's interest based on that price or (2) sell its interest to the other partner based on that price. Since the partner other than the partner who triggers the provision has the option to be the buyer or seller, we do

not consider this arrangement to be a mandatory redeemable obligation.

We provide guarantees to lenders for our joint ventures which include standard non-recourse carve out indemnifications for losses arising from items such as but not limited to fraud, physical waste, payment of taxes, environmental indemnities, misapplication of insurance proceeds or security deposits and failure to maintain required insurance. For construction and term loans, we may include a guaranty of completion as well as a principal guaranty ranging from 5% to 100% of principal. The principal guarantees include terms for release based upon satisfactory completion of construction and performance targets including occupancy thresholds and minimum debt service coverage tests. Our joint ventures may contain make whole provisions in the event that demands are made on any existing guarantees.

Charlotte

In July 2014, we opened an approximately 398,000 square foot outlet center in Charlotte, North Carolina that was developed through, and is owned by, a joint venture formed in May 2013. The outlet center is located eight miles southwest of uptown Charlotte at the interchange of I-485 and Steele Creek Road (North Carolina Highway 160). Construction of the outlet center, which commenced during the third quarter of 2013, was initially funded with equal equity contributions by the partners. In November 2014, the joint venture closed on an interest only mortgage loan for \$90.0 million at an interest rate of LIBOR + 1.45%. The loan initially matures in November 2018, with the option to extend the maturity for one additional year. The joint venture received net loan proceeds of \$89.4 million and distributed them equally to the partners. The loan balance as of December 31, 2015 was approximately \$90.0 million. Our partner is providing property management, marketing and leasing services to the joint venture.

Columbus

During the second quarter of 2015, the joint venture purchased land for approximately \$8.9 million and began construction on a 350,000 square foot outlet center in Columbus, Ohio. We and our partner currently expect to complete construction in time to open the center during the second quarter of 2016. The construction of the center is currently being funded with equity contributions from the partners. As of December 31, 2015, we and our partner had each contributed \$20.6 million to fund development activities. Our partner is providing development services to the joint venture and we, along with our partner, are providing joint leasing services. Once the center opens, we will provide property management, marketing and leasing services to the joint venture.

Galveston/Houston

In October 2012, we opened an approximately 353,000 square foot outlet center in Texas City, Texas that was developed through, and is owned by, a joint venture formed in June 2011. The development was initially fully funded with equity contributed to the joint venture by Tanger and its partner. In July 2013, the joint venture closed on a \$70.0 million mortgage loan with a rate of LIBOR + 1.50% and a maturity date of July 2017, with the option to extend the maturity for one additional year. The joint venture received total loan proceeds of \$65.0 million and distributed the net proceeds equally to the partners. We used our share of the proceeds to reduce amounts outstanding under our unsecured lines of credit. We are providing property management, marketing and leasing services to the outlet center.

National Harbor

In November 2013, we opened an approximately 339,000 square foot outlet center at National Harbor in the Washington, D.C. Metro area that was developed through, and is owned by, a joint venture formed in May 2011. In November 2014, the joint venture amended the initial construction loan to increase the amount available to borrow from \$62.0 million to \$87.0 million and extended the maturity date until November 2019. The loan carries an interest rate of LIBOR + 1.65%. At the closing of the amendment, the joint venture distributed approximately \$19.0 million equally between the partners. The loan balance as of December 31, 2015 was approximately \$87.0 million. We are

providing property management, marketing and leasing services to the joint venture.

RioCan Canada

We have a 50/50 co-ownership agreement with RioCan Real Estate Investment Trust to develop and acquire outlet centers in Canada. Under the agreement, any outlet centers developed or acquired will be branded as Tanger Outlet Centers. We have agreed to provide leasing and marketing services for the outlet centers and RioCan has agreed to provide development and property management services.

In October 2014, the co-owners opened Tanger Outlets Ottawa, the first ground up development of a Tanger Outlet Center in Canada. Located in suburban Kanata off the TransCanada Highway (Highway 417) at Palladium Drive, the outlet center currently contains approximately 284,000 square feet, with additional square footage totaling approximately 28,000 square feet related to an anchor tenant expected to be completed and opened in early 2016.

In November 2014, the co-owners opened an approximately 149,000 square foot expansion to the existing Cookstown Outlet Mall, bringing the total square feet of the outlet center to approximately 309,000 square feet.

Other properties owned by the RioCan Canada co-owners include Les Factoreries Saint-Sauveur and Bromont Outlet Mall. Les Factoreries Saint-Sauveur, is located northwest of Montreal adjacent to Highway 15 in the town of Saint-Sauveur, Quebec and is approximately 116,000 square feet. The Bromont Outlet Mall, is located east of Montreal near the eastern townships adjacent to Highway 10 in the town of Bromont, Quebec and is approximately 161,000 square feet.

Savannah

In April 2015, we opened an approximately 377,000 square foot outlet center in Savannah, Georgia. As of December 31, 2015, our equity contributions totaled \$45.8 million and our partner's equity contributions totaled \$8.3 million. Contributions we made in excess of our partners' equity contributions are considered preferred equity and earned a preferred rate of return equal to 8% from the date the contributions were made until the outlet center's grand opening in April 2015, and will earn 10% annually thereafter. Under the terms of the joint venture's operating agreement, upon liquidation, we would receive all of our unreturned preferred equity contributions and all unpaid returns earned on those contributions prior to any distributions being made to our equity partner. As of December 31, 2015, based upon the liquidation proceeds we would receive from a hypothetical liquidation of our investment based at depreciated book value, our estimated economic interest in the venture was approximately 98%. Our economic interest may fluctuate based on a number of factors, including mortgage financing, partnership capital contributions and distributions, and proceeds from asset sales.

In May 2014, the joint venture closed on a construction loan with the ability to borrow up to \$97.7 million at an interest rate of LIBOR + 1.65%. In September 2015, the loan maximum borrowing amount was increased to \$100.9 million. The construction loan has a maturity date of May 21, 2017, with two, one -year extension options. As of December 31, 2015, the balance on the loan was \$89.5 million. The additional \$11.4 million is available for construction of the approximately 42,000 square foot expansion that is currently in process. We are providing development, management and marketing services to the joint venture; and with our partner, are jointly providing leasing services to the outlet center.

Westgate

In November 2012, we opened our Westgate outlet center, located in Glendale, Arizona, which was developed through, and currently owned by, a joint venture that was formed in May 2012.

During the first quarter of 2015, the joint venture completed the remaining 28,000 square feet of a 78,000 square foot expansion of the existing property which upon completion increased the total square feet of the outlet center to approximately 411,000 square feet. Construction commenced on the expansion during the second quarter of 2014 and was funded with borrowings under the amended Westgate mortgage loan. The joint venture's amended and restated construction loan is fully funded with a balance of \$62.0 million as of December 31, 2015. The loan initially matured in June 2015, and during the second quarter of 2015 the joint venture exercised the two year option to extend the maturity date of the loan to June 2017. We are providing property management, construction supervision, marketing and leasing services to the joint venture.

Wisconsin Dells

In February 2015, we sold our equity interest in the joint venture that owned the outlet center located in Wisconsin Dells, Wisconsin for approximately \$15.6 million, representing our share of the sales price totaling \$27.7 million less our share of the outstanding debt, which totaled \$12.1 million. As a result of this transaction, we recorded a gain of approximately \$13.7 million in the first quarter of 2015, which represents the difference between the carrying value of our equity method investment and the net proceeds received.

The following table details information regarding the outstanding debt of the unconsolidated joint ventures and guarantees of such debt provided by us as of December 31, 2015 (dollars in millions):

Joint Venture	Total Joint Venture Debt	Maturity Date	Interest Rate	Percent Guaranteed by the Company	Maximum Guaranteed Amount by the Company
Charlotte	\$90.0	November 2018	LIBOR + 1.45%	5.0	% \$4.5
Galveston/Houston	65.0	July 2017	LIBOR + 1.50%	5.0	% 3.3
National Harbor ⁽¹⁾	87.0	November 2019	LIBOR + 1.65%	10.0	% 8.7
RioCan Canada	11.3	May 2020	5.75%	25.7	% 2.9
Savannah ⁽²⁾	89.5	May 2017	LIBOR + 1.65%	16.8	% 15.0
Westgate	62.0	June 2017	LIBOR + 1.75%	—	% —
	\$404.8				\$34.4

(1) 100% completion guaranty; 10% principal guaranty.

(2) 100% completion guaranty; \$15.0 million principal guaranty.

Fees we received for various services provided to our unconsolidated joint ventures during 2015, 2014 and 2013, which we believe approximate current market rates, were recognized as follows (in thousands):

	Year Ended December 31,		
	2015	2014	2013
Fees:			
Development and leasing	\$1,827	\$725	\$595
Loan guarantee	746	463	161
Management and marketing	2,853	2,403	2,324
Total Fees	\$5,426	\$3,591	\$3,080

Critical Accounting Estimates

We believe the following critical accounting policies affect our more significant judgments and estimates used in the preparation of our consolidated financial statements.

Principles of Consolidation

The consolidated financial statements of the Company include its accounts and its wholly-owned subsidiaries, as well as the Operating Partnership and its subsidiaries. The consolidated financial statements of the Operating Partnership include its accounts and its wholly-owned subsidiaries. Intercompany balances and transactions have been eliminated in consolidation. Investments in real estate joint ventures in which we have a non-controlling ownership interest are accounted for using the equity method of accounting.

In accordance with amended guidance related to the consolidation of variable interest entities which became effective January 1, 2010, we perform an analysis of all of our real estate joint ventures to determine whether they qualify as variable interest entities, ("VIE"), and whether the joint venture should be consolidated or accounted for as an equity method investment in an unconsolidated joint venture. Our analysis includes our judgment with respect to our level of influence or control of an entity and whether we are the primary beneficiary of a VIE. We consider various factors including the form of our ownership interest, our representation in an entity's governance, the size of our investment, our ability to participate in policy making decisions and the rights of the other investors to participate in the decision making process to replace us as manager and or liquidate the venture, if applicable. If we do not evaluate these joint ventures correctly under the amended guidance, we could significantly overstate or understate our financial condition and results of operations.

Acquisition of Real Estate

We allocate the purchase price of acquisitions based on the fair value of land, building, tenant improvements, debt and deferred lease costs and other intangibles, such as the value of leases with above or below market rents, origination costs associated with the in-place leases, and the value of in-place leases and tenant relationships, if any. We depreciate the amount allocated to building, deferred lease costs and other intangible assets over their estimated useful lives, which generally range from 3 to 33 years. The values of the above and below market leases are amortized and recorded as either an increase (in the case of below market leases) or a decrease (in the case of above market leases) to rental income over the remaining term of the associated lease. The values of below market leases that are considered to have renewal periods with below market rents are amortized over the remaining term of the associated lease plus the renewal periods when the renewal is deemed probable to occur. The value associated with in-place leases is amortized over the remaining lease term and tenant relationships is amortized over the expected term, which includes an estimated probability of the lease renewal. If a tenant terminates its lease prior to the contractual termination date of the lease and no rental payments are being made on the lease, any unamortized balance of the related deferred lease costs is written off. The tenant improvements and origination costs are amortized as an expense over the remaining life of the lease (or charged against earnings if the lease is terminated prior to its contractual expiration date). We assess fair value based on estimated cash flow projections that utilize appropriate discount and capitalization rates and available market information.

If we do not allocate appropriately to the separate components of rental property, deferred lease costs and other intangibles or if we do not estimate correctly the total value of the property or the useful lives of the assets, our computation of depreciation and amortization expense may be significantly understated or overstated.

Cost Capitalization

We capitalize costs incurred for the construction and development of properties, including interest, real estate taxes and salaries and related costs associated with employees directly involved. Capitalization of costs commences at the time the development of the property becomes probable and ceases when the property is substantially completed and ready for its intended use. We consider a construction project as substantially completed and ready for its intended use upon the completion of tenant improvements. We cease capitalization on the portion that is substantially completed and occupied or held available for occupancy, and capitalize only those costs associated with the portion under construction. The amount of salaries and related costs capitalized for the construction and development of properties is based on our estimate of the amount of costs directly related to the construction or development of these assets. Interest costs are capitalized during periods of active construction for qualified expenditures based upon interest rates in place during the construction period until construction is substantially complete. This includes interest incurred on funds invested in or advanced to unconsolidated joint ventures with qualifying development activities.

Deferred charges includes deferred lease costs and other intangible assets consisting of fees and costs incurred to originate operating leases and are amortized over the expected lease term. Deferred lease costs capitalized includes amounts paid to third-party brokers and salaries and related costs of employees directly involved in originating leases. The amount of salaries and related costs capitalized is based on our estimate of the time and amount of costs directly related to originating leases.

If we incorrectly estimate the amount of costs to capitalize, we could significantly overstate or understate our financial condition and results of operations.

Impairment of Long-Lived Assets and Investments in Unconsolidated Entities

Rental property held and used by us is reviewed for impairment in the event that facts and circumstances indicate the carrying amount of an asset may not be recoverable. In such an event, we compare the estimated future undiscounted cash flows associated with the asset to the asset's carrying amount, and if less, recognize an impairment loss in an amount by which the carrying amount exceeds its fair value. If we do not recognize impairments at appropriate times and in appropriate amounts, our consolidated balance sheet may overstate the value of our long-lived assets. We believe that no impairment existed at December 31, 2015.

On a periodic basis, we assess whether there are any indicators that the value of our investments in unconsolidated joint ventures may be impaired. An investment is impaired only if management's estimate of the value of the investment is less than the carrying value of the investments, and such decline in value is deemed to be other than temporary. To the extent impairment has occurred, the loss shall be measured as the excess of the carrying amount of the investment over the value of the investment. Our estimates of value for each joint venture investment are based on a number of assumptions that are subject to economic and market uncertainties including, among others, demand for space, competition for tenants, changes in market rental rates and operating costs of the property. As these factors are difficult to predict and are subject to future events that may alter our assumptions, the values estimated by us in our impairment analysis may not be realized.

Revenue Recognition

Base rentals are recognized on a straight-line basis over the term of the lease. As a provision of a tenant lease, if we make a cash payment to the tenant for purposes other than funding the construction of landlord assets, we defer the amount of such payments as a lease incentive. We amortize lease incentives as a reduction of base rental revenue over the term of the lease. Substantially all leases contain provisions which provide additional rents based on each tenants' sales volume ("percentage rentals") and reimbursement of the tenants' share of advertising and promotion, common area maintenance, insurance and real estate tax expenses. Percentage rentals are recognized when specified targets that trigger the contingent rent are met. Expense reimbursements are recognized in the period the applicable expenses are incurred. Payments received from the early termination of leases are recognized as revenue from the time payment is receivable until the tenant vacates the space.

New Accounting Pronouncements

In April 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standard Update ("ASU") No. 2015-03, Simplifying the Presentation of Debt Issuance Costs, which requires debt issuance costs to be presented in the balance sheet as a direct deduction from the associated debt liability. The guidance in the new standard is limited to the presentation of debt issuance costs. The standard does not affect the recognition and measurement of debt issuance costs. Early adoption is permitted for financial statements that have not been previously issued. The new guidance will be applied on a retrospective basis. The standard is effective for financial statements issued for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. We do not expect the adoption of this standard to have a material impact on our financial position, results of operations or cash flows.

In February 2015, FASB issued ASU No. 2015-02, Consolidation (Topic 810): Amendments to the Consolidation Analysis. ASU 2015-02 affects reporting entities that are required to evaluate whether they should consolidate certain legal entities. ASU 2015-02 modifies the evaluation of whether limited partnerships and similar legal entities are VIEs or voting interest entities, eliminates the presumption that a general partner should consolidate a limited partnership and affects the consolidation analysis of reporting entities that are involved with VIEs, particularly those that have fee arrangements and related party relationships. ASU 2015-02 is effective for fiscal years, and for interim periods within

those fiscal years, beginning after December 15, 2015. Early adoption is permitted. We expect that the adoption of this standard during the first quarter of 2016 will not have a material impact on our financial position, results of operations or cash flows, but may result in additional disclosures.

In August 2014, the FASB issued ASU No. 2014-15 Presentation of Financial Statements—Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern, which requires management to evaluate whether there are conditions or events that raise substantial doubt about the entity's ability to continue as a going concern, and to provide certain disclosures when it is probable that the entity will be unable to meet its obligations as they become due within one year after the date that the financial statements are issued. ASU 2014-15 is effective for the annual period ended December 31, 2016 and for annual periods and interim periods thereafter with early adoption permitted. We are currently evaluating the new guidance to determine the impact it may have on our consolidated financial statements.

In April 2014, the FASB issued ASU No. 2014-08, Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity (the "Final Standard"). Under the Final Standard, only disposals representing a strategic shift in operations (e.g., a disposal of a major geographic area, a major line of business or a major equity method investment) will be presented as discontinued operations. Under previous GAAP, companies that sold a single investment property were generally required to report the sale as a discontinued operation, which required the companies to reclassify earnings from continuing operations for all periods presented. The Final Standard is effective in the first quarter of 2015 for public entities with calendar year ends. The FASB will permit early adoption of the Final Standard, beginning in the first quarter of 2014, but only for disposals or classifications as held for sale that have not been reported in financial statements previously issued or available for issuance. We early adopted the standard in the first quarter of 2014. See Note 4 Disposition of Properties and Properties Held for Sale for further information.

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606), which supersedes the revenue recognition requirements in ASC 605, Revenue Recognition. This ASU is based on the principle that revenue is recognized to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. We are required to adopt the new pronouncement in the first quarter of fiscal 2018 using one of two retrospective application methods. We are currently evaluating the new guidance to determine the impact it may have on our consolidated financial statements.

Supplemental Earnings Measures

Funds from Operations

Funds From Operations ("FFO") represents income before extraordinary items and gains (losses) on sale or disposal of depreciable operating properties, plus depreciation and amortization of real estate assets, impairment losses on depreciable real estate of consolidated real estate and after adjustments for unconsolidated partnerships and joint ventures, including depreciation and amortization, and impairment losses on investments in unconsolidated joint ventures driven by a measurable decrease in the fair value of depreciable real estate held by the unconsolidated joint ventures.

FFO is intended to exclude historical cost depreciation of real estate as required by GAAP which assumes that the value of real estate assets diminishes ratably over time. Historically, however, real estate values have risen or fallen with market conditions. Because FFO excludes depreciation and amortization of real estate assets, gains and losses from property dispositions and extraordinary items, it provides a performance measure that, when compared year over year, reflects the impact to operations from trends in occupancy rates, rental rates, operating costs, development activities and interest costs, providing perspective not immediately apparent from net income.

We present FFO because we consider it an important supplemental measure of our operating performance. In addition, a portion of cash bonus compensation to certain members of management is based on our FFO or Adjusted Funds

From Operations ("AFFO"), which is described in the section below. We believe it is useful for investors to have enhanced transparency into how we evaluate our performance and that of our management. In addition, FFO is frequently used by securities analysts, investors and other interested parties in the evaluation of REITs, many of which present FFO when reporting their results. FFO is also widely used by us and others in our industry to evaluate and price potential acquisition candidates. The National Association of Real Estate Investment Trusts, Inc., of which we are a member, has encouraged its member companies to report their FFO as a supplemental, industry-wide standard measure of REIT operating performance.

FFO has significant limitations as an analytical tool, and you should not consider it in isolation, or as a substitute for analysis of our results as reported under GAAP. Some of these limitations are:

FFO does not reflect our cash expenditures, or future requirements, for capital expenditures or contractual commitments;

FFO does not reflect changes in, or cash requirements for, our working capital needs;

Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and FFO does not reflect any cash requirements for such replacements;

FFO, which includes discontinued operations, may not be indicative of our ongoing operations; and

Other companies in our industry may calculate FFO differently than we do, limiting its usefulness as a comparative measure.

Because of these limitations, FFO should not be considered as a measure of discretionary cash available to us to invest in the growth of our business or our dividend paying capacity. We compensate for these limitations by relying primarily on our GAAP results and using FFO only as a supplemental measure.

Below is a reconciliation of net income to FFO for the years ended December 31, 2015, 2014 and 2013 as well as other data for those respective periods (in thousands, except per share and unit amounts):

	2015	2014	2013
Funds from Operations:			
Net income	\$222,168	\$78,152	\$113,321
Adjusted for:			
Depreciation and amortization of real estate assets - consolidated	102,515	100,961	94,515
Depreciation and amortization of real estate assets - unconsolidated joint ventures	20,053	12,212	12,419
Gain on sale of assets and interests in unconsolidated entities	(120,447)	(7,513)	—
Gain on previously held interest in acquired joint venture	—	—	(26,002)
Funds from operations	224,289	183,812	194,253
FFO attributable to noncontrolling interests in other consolidated partnerships	268	(185)	(202)
Allocation of FFO to participating securities ⁽¹⁾	(2,408)	(3,653)	(2,025)
Funds from operations available to common shareholders and noncontrolling interests in Operating Partnership	\$222,149	\$179,974	\$192,026
Tanger Factory Outlet Centers, Inc.:			
Weighted average common shares outstanding ^{(2) (3)}	99,838	98,954	99,129
Dilutive funds from operations per share	\$2.23	\$1.82	\$1.94
Tanger Properties Limited Partnership:			
Weighted average Operating Partnership units outstanding ⁽²⁾	99,838	98,954	99,129
Dilutive funds from operations per unit	\$2.23	\$1.82	\$1.94

Notional units granted in 2010 were converted into 933,769 restricted common shares in January 2014 and vested (1) on December 31, 2014. The restricted common shares were considered participating securities through the vesting date.

(2) Includes the dilutive effect of options, restricted common shares not considered participating securities, and notional units.

(3)

Assumes the Class A common limited partnership units of the Operating Partnership held by the noncontrolling interests are exchanged for common shares of the Company. Each Class A common limited partnership unit is exchangeable for one of the Company's common shares, subject to certain limitations to preserve the Company's REIT status.

Adjusted Funds from Operations

We use AFFO when certain material, unplanned transactions occur as a factor in evaluating management's performance and to evaluate the effectiveness of our business strategies, and may use AFFO when determining incentive compensation. We present AFFO, as a supplemental measure of our performance. We define AFFO as FFO further adjusted to eliminate the impact of certain items that we do not consider indicative of our ongoing operating performance. These further adjustments are itemized in the table below. You are encouraged to evaluate these adjustments and the reasons we consider them appropriate for supplemental analysis. In evaluating AFFO you should be aware that in the future we may incur expenses that are the same as or similar to some of the adjustments in this presentation. Our presentation of AFFO should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items.

We present AFFO because we believe it assists investors and analysts in comparing our performance across reporting periods on a consistent basis by excluding items that we do not believe are indicative of our core operating performance. In addition, we believe it is useful for investors to have enhanced transparency into how we evaluate management's performance and the effectiveness of our business strategies.

AFFO has limitations as an analytical tool. Some of these limitations are:

- AFFO does not reflect our cash expenditures, or future requirements, for capital expenditures or contractual commitments;

- AFFO does not reflect changes in, or cash requirements for, our working capital needs;

- Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and AFFO does not reflect any cash requirements for such replacements;

- AFFO does not reflect the impact of certain cash charges resulting from matters we consider not to be indicative of our ongoing operations; and

- Other companies in our industry may calculate AFFO differently than we do, limiting its usefulness as a comparative measure.

Because of these limitations, AFFO should not be considered in isolation or as a substitute for performance measures calculated in accordance with GAAP. We compensate for these limitations by relying primarily on our GAAP results and using AFFO only as a supplemental measure.

Below is a reconciliation of FFO to AFFO for the years ended December 31, 2015, 2014 and 2013 as well as other data for those respective periods (in thousands, except per share and unit amounts):

	2015	2014	2013
Adjusted Funds from Operations:			
Funds from operations	\$224,289	\$183,812	\$194,253
Adjusted for non-core items:			
Acquisition costs	—	7	1,203
Abandoned pre-development costs	—	2,365	—
Demolition costs	—	—	140
Casualty gain	—	(486) —
Loss on early extinguishment of debt	—	13,140	—
Reversal of share-based compensation expense ⁽¹⁾	(731) —	—
AFFO adjustments from unconsolidated joint ventures ⁽²⁾	—	237	(7,422
Adjusted funds from operations (AFFO)	223,558	199,075	188,174
AFFO attributable to noncontrolling interests in other consolidated partnerships	268	(185) (202
Allocation of AFFO to participating securities ⁽³⁾	(2,400) (3,955) (1,958
Adjusted funds from operations available to common shareholders and noncontrolling interest in Operating Partnership	\$221,426	\$194,935	\$186,014
Tanger Factory Outlet Centers, Inc.:			
Weighted average common shares outstanding ⁽⁴⁾⁽⁵⁾	99,838	98,954	99,129
Dilutive adjusted funds from operations per share	\$2.22	\$1.97	\$1.88
Tanger Properties Limited Partnership:			
Weighted average Operating Partnership units outstanding ⁽⁴⁾	99,838	98,954	99,129
Dilutive adjusted funds from operations per unit	\$2.22	\$1.97	\$1.88

(1) Represents the reversal of certain share-based compensation awards previously recognized on awards not expected to vest due to the announcement of the Company's Chief Financial Officer's pending retirement in May 2016.

(2) Includes our share of acquisition costs, litigation settlement proceeds, abandoned development costs and gain on early extinguishment of debt from unconsolidated joint ventures. For the year ended December 31, 2013, includes a gain on early extinguishment of debt of \$4.6 million and litigation settlement proceeds of \$3.2 million.

(3) Notional units granted in 2010 were converted into 933,769 restricted common shares in January 2014 and vested on December 31, 2014. The restricted common shares were considered participating securities through the vesting date.

(4) Includes the dilutive effect of options, restricted shares not considered participating securities, notional units and exchangeable notes.

(5) Assumes the Class A common limited partnership units of the Operating Partnership held by the noncontrolling interest are exchanged for common shares of the Company.

Same Center Net Operating Income-Cash Basis

We present Same Center Net Operating Income - Cash Basis ("Same Center NOI - Cash Basis") as a supplemental measure of our performance. We define Same Center NOI - Cash Basis as total operating revenues less property operating expenses for the properties that were operational for the entire portion of both comparable reporting periods and which were not acquired, renovated or subject to a material non-recurring event, such as a natural disaster, during the comparable reporting periods. Same Center NOI - Cash Basis also excludes termination fees and non-cash adjustments including straight-line rent, net above and below market rent amortization and gains or losses on the sale of outparcels recognized during the periods presented.

Same Center NOI - Cash Basis is used by industry analysts, investors and management to measure operating performance of our properties because it provides a performance measure directly related to the revenues and expenses involved in owning and operating real estate assets and provides a perspective not immediately apparent from net income or FFO. Because Same Center NOI - Cash Basis excludes properties developed, redeveloped, acquired and sold; as well as non-cash adjustments, gains or losses on the sale of outparcels and termination rents; it highlights operating trends such as occupancy levels, rental rates and operating costs on properties that were operational for both comparable periods. Other REITs may use different methodologies for calculating Same Center Net Operating Income, and accordingly, our Same Center NOI - Cash Basis may not be comparable to other REITs.

Same Center NOI - Cash Basis should not be viewed as an alternative measure of our financial performance since it does not reflect the operations of our entire portfolio, nor does it reflect the impact of general and administrative expenses, acquisition-related expenses, interest expense, depreciation and amortization costs, other non-property income and losses, and the level of capital expenditures and leasing costs necessary to maintain the operating performance of our properties, or trends in development and construction activities which are significant economic costs and activities that could materially impact our results from operations.

Below is a reconciliation of income before equity in earnings of unconsolidated joint ventures to Same Center NOI - Cash Basis (in thousands):

	2015	2014
Same Center Net Operating Income		
Income before equity in earnings of unconsolidated joint ventures	\$210,684	\$69,099
Interest expense	54,188	57,931
Loss on early extinguishment of debt	—	13,140
Interest and other income	36	(794)
Gain on sale of real estate	(120,447)	(7,513)
Operating income	144,461	131,863
Adjusted to exclude:		
Depreciation and amortization	103,936	102,432
Other non-property income and losses	(2,226)	(2,194)
Abandoned pre-development costs	—	2,365
Acquisition costs	—	7
General and administrative expenses	44,469	44,469
Non-cash adjustments and termination rents ⁽¹⁾	(8,043)	(4,608)
Non-same center and other NOI ⁽²⁾	(18,268)	(18,932)
Same Center Net Operating Income - Cash Basis	\$264,329	\$255,402

(1) Non-cash items include straight-line rent, net above and below market rent amortization and gains or losses on outparcel sales.

Excluded from Same Center NOI - Cash Basis: Foxwoods outlet center, which opened in May of 2015; Grand Rapids outlet center, which opened in July of 2015; Southaven outlet center, which opened in November 2015,

(2) Lincoln City outlet center, which was sold in December 2014; Kittery I & II, Tuscola and West Branch outlet centers, which were sold in September 2015; Barstow outlet center, which was sold in October 2015; and Fort Myers outlet center, which was sold in January 2016.

Economic Conditions and Outlook

The majority of our leases contain provisions designed to mitigate the impact of inflation. Such provisions include clauses for the escalation of base rent and clauses enabling us to receive percentage rentals based on tenants' gross sales (above predetermined levels, which we believe often are lower than traditional retail industry standards) which generally increase as prices rise. Most of the leases require the tenant to pay their share of property operating

expenses, including common area maintenance, real estate taxes, insurance and advertising and promotion, thereby reducing exposure to increases in costs and operating expenses resulting from inflation.

While we believe outlet stores will continue to be a profitable and fundamental distribution channel for many brand name manufacturers, some retail formats are more successful than others. As is typical in the retail industry, certain tenants have closed, or will close, certain stores by terminating their lease prior to its natural expiration or as a result of filing for protection under bankruptcy laws.

Due to the relatively short-term nature of our tenants' leases, a significant portion of the leases in our portfolio come up for renewal each year. During 2015, approximately 1.5 million square feet, or 13%, of our then owned, consolidated portfolio came up for renewal and 1.4 million square feet, or 12%, of our current consolidated portfolio will come up for renewal in 2016. During 2015, we renewed 84% of the square feet that came up for renewal with the existing tenants at a 20% increase in the average base rental rate compared to the expiring rate. We also re-tenanted 444,000 square feet at a 29% increase in the average base rental rate. In addition, we continue to attract and retain additional tenants. However, there can be no assurance that we can achieve similar increases in base rental rates. In addition, if we were unable to successfully renew or release a significant amount of this space on favorable economic terms, the loss in rent could have a material adverse effect on our results of operations.

Our outlet centers typically include well-known, national, brand name companies. By maintaining a broad base of well-known tenants and a geographically diverse portfolio of properties located across the United States and Canada, we reduce our operating and leasing risks. No one tenant (including affiliates) accounts for more than 7.5% of our square feet or 6.0% of our combined base and percentage rental revenues. Accordingly, although we can give no assurance, we do not expect any material adverse impact on our results of operations and financial condition as a result of leases to be renewed or stores to be released. As of December 31, 2015 and 2014, occupancy at our consolidated outlet centers was 97% and 98%, respectively.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market Risk

We are exposed to various market risks, including changes in interest rates. Market risk is the potential loss arising from adverse changes in market rates and prices, such as interest rates. We may periodically enter into certain interest rate protection and interest rate swap agreements to effectively convert existing floating rate debt to a fixed rate basis. We do not enter into derivatives or other financial instruments for trading or speculative purposes. We are also exposed to foreign currency risk on investments in outlet centers that are located in Canada. Our currency exposure is concentrated in the Canadian Dollar. We typically reinvest net cash flow from our Canadian joint ventures to fund future Canadian development activity. We believe this strategy mitigates some of the risk of our initial investment and our exposure to changes in foreign currencies. We generally do not hedge currency translation exposures.

In October 2013, we entered into interest rate swap agreements with notional amounts totaling \$150.0 million to reduce our floating rate debt exposure. The interest rate swap agreements fix the base LIBOR rate at an average of 1.30% and mature in August 2018. The fair value of the interest rate swap agreements represents the estimated receipts or payments that would be made to terminate the agreement. As of December 31, 2015, the fair value of these contracts is a liability of \$616,000. The fair value is based on dealer quotes, considering current interest rates, remaining term to maturity and our credit standing.

As of December 31, 2015, 36% of our outstanding debt had variable interest rates, excluding variable rate debt with interest rate protection agreements in place, and therefore were subject to market fluctuations. An increase in the LIBOR index of 100 basis points would result in an increase of approximately \$5.6 million in interest expense on an annual basis. The information presented herein is merely an estimate and has limited predictive value. As a result, the ultimate effect upon our operating results of interest rate fluctuations will depend on the interest rate exposures that arise during the period, our hedging strategies at that time and future changes in the level of interest rates.

The estimated fair value and recorded value of our debt consisting of senior unsecured notes, unsecured term loans, secured mortgages and unsecured lines of credit were as follows (in thousands):

	December 31, 2015	December 31, 2014
Fair value of debt	\$1,615,833	\$1,493,519
Recorded value of debt	\$1,563,806	\$1,443,194

A 100 basis point increase from prevailing interest rates at December 31, 2015 and December 31, 2014 would result in a decrease in fair value of total debt of approximately \$50.3 million and \$58.3 million, respectively. With the exception of the unsecured term loan and unsecured lines of credit, that have variable rates and considered at market value, fair values of the senior notes and mortgage loans are determined using discounted cash flow analysis with an interest rate or credit spread similar to that of current market borrowing arrangements. Because the Company's senior unsecured notes are publicly traded with limited trading volume, these instruments are classified as Level 2 in the hierarchy. In contrast, mortgage loans are classified as Level 3 given the unobservable inputs utilized in the valuation. Considerable judgment is necessary to develop estimated fair values of financial instruments. Accordingly, the estimates presented herein are not necessarily indicative of the amounts the Company could realize on the disposition of the financial instruments.

ITEM 8. FINANCIAL STATEMENTS AND
SUPPLEMENTARY DATA

The information required by this Item is set forth on the pages indicated in Item 15(a) below.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND
FINANCIAL DISCLOSURE

The information required by this Item 9 was previously reported in the Company's and the Operating Partnership's Current Report on Form 8-K that was filed with the Securities and Exchange Commission on September 11, 2015.

ITEM 9A. CONTROLS AND PROCEDURES

Tanger Factory Outlet Centers, Inc.

(a) Evaluation of disclosure control procedures.

The Chief Executive Officer, Steven B. Tanger (Principal Executive Officer), and Chief Financial Officer, Frank C. Marchisello Jr. (Principal Financial Officer), evaluated the effectiveness of the Company's disclosure controls and procedures on December 31, 2015 and concluded that, as of that date, the Company's disclosure controls and procedures were effective to ensure that the information the Company is required to disclose in its filings with the SEC under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms, and to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the Company's management, including its principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

(b) Management's report on internal control over financial reporting.

Internal control over financial reporting, as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act, is a process designed by, or under the supervision of, the Company's Chief Executive Officer and Chief Financial Officer, or persons performing similar functions, and effected by the Company's board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, is responsible for establishing and maintaining policies and procedures designed to maintain the adequacy of the Company's internal control over financial reporting, including those policies and procedures that:

- (1) Pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the Company;

Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and
- (2) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements.
- (3)

The Company's management has evaluated the effectiveness of the Company's internal control over financial reporting as of December 31, 2015 based on the criteria established in a report entitled Internal Control-Integrated Framework (2013), issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on our assessment and those criteria, the Company's management has concluded that the Company's internal control over financial reporting was effective at the reasonable assurance level as of December 31, 2015.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The effectiveness of the Company's internal control over financial reporting as of December 31, 2015 has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm, as stated in their report which appears herein.

(c) There were no changes in our internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Exchange Act Rules 13a-15 or 15d-15 that occurred during our last fiscal quarter ended December 31, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Tanger Properties Limited Partnership

(a) Evaluation of disclosure control procedures.

The Chief Executive Officer, Steven B. Tanger (Principal Executive Officer), and Vice President and Treasurer, Frank C. Marchisello Jr. (Principal Financial Officer) of Tanger GP Trust, sole general partner of the Operating Partnership, evaluated the effectiveness of the registrant's disclosure controls and procedures on December 31, 2015 and concluded that, as of that date, the registrant's disclosure controls and procedures were effective to ensure that the information the registrant is required to disclose in its filings with the Commission under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms, and to ensure that information required to be disclosed by the registrant in the reports that it files or submits under the Exchange Act is accumulated and communicated to the registrant's management, including its principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

(b) Management's report on internal control over financial reporting.

Internal control over financial reporting, as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act, is a process designed by, or under the supervision of, the Operating Partnership's Principal Executive Officer and Principal Financial Officer, or persons performing similar functions, and effected by the Operating Partnership's board of trustees, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. The Operating Partnership's management, with the participation of the Operating Partnership's Principal Executive Officer and Principal Financial Officer, is responsible for establishing and maintaining policies and procedures designed to maintain the adequacy of the Operating Partnership's internal control over financial reporting, including those policies and procedures that:

- (1) Pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the Operating Partnership;

Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the
- (2) Operating Partnership are being made only in accordance with authorizations of management and trustees of the Operating Partnership; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Operating Partnership's assets that could have a material effect on the financial statements.

The Operating Partnership's management has evaluated the effectiveness of the Operating Partnership's internal control over financial reporting as of December 31, 2015 based on the criteria established in a report entitled Internal Control-Integrated Framework (2013), issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on our assessment and those criteria, the Operating Partnership's management has concluded that the Operating Partnership's internal control over financial reporting was effective at the reasonable assurance level as of December 31, 2015.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The effectiveness of the Operating Partnership's internal control over financial reporting as of December 31, 2015 has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm, as stated in their report which appears herein.

(c) There were no changes in our internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Exchange Act Rules 13a-15 or 15d-15 that occurred during our last fiscal quarter ended December 31, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

ITEM 9B. OTHER INFORMATION

All information required to be disclosed in a report on Form 8-K during the fourth quarter of 2015 was reported.

PART III

Certain information required by Part III is omitted from this Report in that the Company will file a definitive proxy statement pursuant to Regulation 14A, or the Proxy Statement, not later than 120 days after the end of the fiscal year covered by this Report, and certain information included therein is incorporated herein by reference. Only those sections of the Proxy Statement which specifically address the items set forth herein are incorporated by reference.

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

The information concerning the Company's directors required by this Item is incorporated herein by reference to the Company's Proxy Statement to be filed with respect to the Company's 2016 Annual Meeting of Shareholders.

The information concerning the Company's executive officers required by this Item is incorporated herein by reference to the section at the end of Part I, entitled "Executive Officers of Tanger Factory Outlet Centers, Inc."

The information regarding compliance with Section 16 of the Exchange Act is incorporated herein by reference to the Company's Proxy Statement to be filed with respect to the Company's 2016 Annual Meeting of Shareholders.

The information concerning our Company Code of Ethics required by this Item, which is posted on our website at www.tangeroutlet.com, is incorporated herein by reference to the Company's Proxy Statement to be filed with respect to the Company's 2016 Annual Meeting of Shareholders. The information found on, or otherwise accessible through, our website is not incorporated into, and does not form a part of, this annual report on Form 10-K or any other report or document we file with or furnish to the SEC.

The information concerning our corporate governance required by this Item is incorporated herein by reference to the Company's Proxy Statement to be filed with respect to the Company's 2016 Annual Meeting of Shareholders.

ITEM 11. EXECUTIVE COMPENSATION

The information required by this Item is incorporated herein by reference to the Company's Proxy Statement to be filed with respect to the Company's 2016 Annual Meeting of Shareholders.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED SHAREHOLDER MATTERS.

The information concerning the security ownership of certain beneficial owners and management required by this Item is incorporated by reference herein to the Company's Proxy Statement to be filed with respect to the Company's 2016 Annual Meeting of Shareholders.

The table below provides information as of December 31, 2015 with respect to compensation plans under which our equity securities are authorized for issuance. For each common share issued by the Company, the Operating Partnership issues one corresponding unit of partnership interest to the Company's wholly owned subsidiaries. Therefore, when the Company grants an equity based award, the Operating Partnership treats each award as having been granted by the Operating Partnership. In the discussion below, the term "we" refers to the Company and the Operating Partnership together and the term "common shares" is meant to also include corresponding units of the Operating Partnership.

Plan Category	(a) Number of Securities to be Issued Upon Exercise of Outstanding Options, Warrants and Rights ⁽¹⁾	(b) Weighted Average Exercise Price of Outstanding Options, Warrants and Rights	(c) Number of Securities Remaining Available for Future Issuance Under Equity Compensation Plans (Excluding Securities Reflected in Column (a)) ⁽²⁾
Equity compensation plans approved by security holders	954,700	\$30.32	2,304,732
Equity compensation plans not approved by security holders	—	—	—
Total	954,700	\$30.32	2,304,732

(1) Includes (a) 318,400 common shares issuable upon the exercise of outstanding options (104,700 of which are vested and exercisable), (b) 329,700 restricted common shares that may be issued under the 2014 Outperformance Plan (the "2014 OPP") upon the satisfaction of certain conditions, and (c) 306,600 restricted common shares that may be issued under the 2015 Outperformance Plan (the "2015 OPP") upon the satisfaction of certain conditions. Because there is no exercise price associated with the 2014 and 2015 OPP awards, such restricted common shares are not included in the weighted average exercise price calculation.

(2) Represents common shares available for issuance under the Amended and Restated Incentive Award Plan. Under the Amended and Restated Incentive Award Plan, the Company may award restricted common shares, restricted share units, performance awards, dividend equivalents, deferred shares, deferred share units, share payments profit interests, and share appreciation rights.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

The information required by this Item is incorporated herein by reference to the Company's Proxy Statement to be filed with respect to the Company's 2016 Annual Meeting of Shareholders.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES

The information required by this Item is incorporated herein by reference to the Company's Proxy Statement to be filed with respect to the Company's 2016 Annual Meeting of Shareholders.

PART IV

Report of Independent Registered Public Accounting Firm

To Board of Directors and Shareholders of Tanger Factory Outlet Centers, Inc.:

In our opinion, the accompanying consolidated balance sheets and the related consolidated statements of operations, of comprehensive income, of shareholders' equity, and of cash flows present fairly, in all material respects, the financial position of Tanger Factory Outlet Centers, Inc. and its subsidiaries at December 31, 2015 and 2014, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2015 in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statement schedules appearing under Item 15 (a)(2) present fairly, in all material respects, the information set forth therein when read in conjunction with the related consolidated financial statements. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2015, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for these financial statements and financial statement schedules, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in Management's Report on Internal Control over Financial Reporting appearing under Item 9A. Our responsibility is to express opinions on these financial statements, on the financial statement schedules, and on the Company's internal control over financial reporting based on our integrated audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Report of Independent Registered Public Accounting Firm

To the Partner of Tanger Properties Limited Partnership:

In our opinion, the accompanying consolidated balance sheets and the related consolidated statements of operations, of comprehensive income, of equity, and of cash flows present fairly, in all material respects, the financial position of Tanger Properties Limited Partnership and its subsidiaries at December 31, 2015 and 2014, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2015 in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statement schedules appearing under Item 15 (a)(2) present fairly, in all material respects, the information set forth therein when read in conjunction with the related consolidated financial statements. Also in our opinion, the Operating Partnership maintained, in all material respects, effective internal control over financial reporting as of December 31, 2015, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Operating Partnership's management is responsible for these financial statements and financial statement schedules, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in Management's Report on Internal Control over Financial Reporting appearing under Item 9A. Our responsibility is to express opinions on these financial statements, on the financial statement schedules, and on the Operating Partnership's internal control over financial reporting based on our integrated audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS OF
TANGER FACTORY OUTLET CENTERS, INC. AND
TANGER PROPERTIES LIMITED PARTNERSHIP

1. Organization of the Company

Tanger Factory Outlet Centers, Inc. and subsidiaries is one of the largest owners and operators of outlet centers in the United States and Canada. We are a fully-integrated, self-administered and self-managed real estate investment trust ("REIT") which, through our controlling interest in the Operating Partnership, focuses exclusively on developing, acquiring, owning, operating and managing outlet shopping centers. As of December 31, 2015, we owned and operated 34 consolidated outlet centers, with a total gross leasable area of approximately 11.7 million square feet. All references to gross leasable area, square feet, occupancy, stores and store brands contained in the notes to the consolidated financial statements are unaudited. These outlet centers were 97% occupied and contained over 2,400 stores, representing approximately 400 store brands. We also had partial ownership interests in 9 unconsolidated outlet centers totaling approximately 2.7 million square feet, including 4 outlet centers in Canada.

Our outlet centers and other assets are held by, and all of our operations are conducted by, Tanger Properties Limited Partnership and subsidiaries. Accordingly, the descriptions of our business, employees and properties are also descriptions of the business, employees and properties of the Operating Partnership. Unless the context indicates otherwise, the term "Company" refers to Tanger Factory Outlet Centers, Inc. and subsidiaries and the term "Operating Partnership" refers to Tanger Properties Limited Partnership and subsidiaries. The terms "we", "our" and "us" refer to the Company or the Company and the Operating Partnership together, as the text requires.

The Company owns the majority of the units of partnership interest issued by the Operating Partnership through its two wholly-owned subsidiaries, Tanger GP Trust and Tanger LP Trust. Tanger GP Trust controls the Operating Partnership as its sole general partner. Tanger LP Trust holds a limited partnership interest. As of December 31, 2015, the Company, through its ownership of Tanger GP Trust and Tanger LP Trust, owned 95,880,825 units of the Operating Partnership and other limited partners (the "Non-Company LPs") collectively owned 5,052,743 Class A common limited partnership units. Each Class A common limited partnership unit held by the Non-Company LPs is exchangeable for one of the Company's common shares, subject to certain limitations to preserve the Company's status as a REIT. Class B common limited partnership units, which are held by Tanger LP Trust, are not exchangeable for common shares of the Company.

2. Summary of Significant Accounting Policies

Principles of Consolidation - The consolidated financial statements of the Company include its accounts and its consolidated subsidiaries, as well as the Operating Partnership and its consolidated subsidiaries. The consolidated financial statements of the Operating Partnership include its accounts and its consolidated subsidiaries. Intercompany balances and transactions have been eliminated in consolidation.

We consolidate properties that are wholly owned or properties where we own less than 100% but we control. Control is determined using an evaluation based on accounting standards related to the consolidation of voting interest entities and variable interest entities ("VIE"). For joint ventures that are determined to be a VIE, we consolidate the entity where we are deemed to be the primary beneficiary. Determination of the primary beneficiary is based on whether an entity has (1) the power to direct the activities of the VIE that most significantly impact the entity's economic performance, and (2) the obligation to absorb losses of the entity that could potentially be significant to the VIE or the right to receive benefits from the entity that could potentially be significant to the VIE. Our determination of the primary beneficiary considers all relationships between us and the VIE, including management agreements and other contractual arrangements.

Investments in real estate joint ventures that we do not control but may exercise significant influence on are accounted for using the equity method of accounting. These investments are recorded initially at cost and subsequently adjusted for our equity in the venture's net income or loss, cash contributions, distributions and other adjustments required under the equity method of accounting.

For certain of these investments, we record our equity in the venture's net income or loss under the hypothetical liquidation at book value ("HLBV") method of accounting due to the structures and the preferences we receive on the distributions from our joint ventures pursuant to the respective joint venture agreements for those joint ventures.

F-16

Under this method, we recognize income and loss in each period based on the change in liquidation proceeds we would receive from a hypothetical liquidation of our investment based on depreciated book value. Therefore, income or loss may be allocated disproportionately as compared to the ownership percentages due to specified preferred return rate thresholds and may be more or less than actual cash distributions received and more or less than what we may receive in the event of an actual liquidation. In the event a basis difference is created between our underlying interest in the venture's net assets and our initial investment, we amortize such amount over the estimated life of the venture as a component of equity in earnings of unconsolidated joint ventures.

We separately report investments in joint ventures for which accumulated distributions have exceeded investments in and our share of net income or loss of the joint ventures within other liabilities in the consolidated balance sheets. The carrying amount of our investments in the Charlotte and Galveston/Houston joint ventures are less than zero because of financing or operating distributions that were greater than net income, as net income includes non-cash charges for depreciation and amortization.

We have concluded that our Savannah and Southaven joint ventures are each considered a VIE because our voting rights are disproportionate to our economic interests and substantially all of each venture's activities either involve or are conducted on our behalf. Also, due to certain reconsideration events, we concluded during 2015 that our Westgate joint venture, previously considered a VIE since inception, was no longer considered a VIE.

The operating, development, leasing, and management agreements of Savannah provide that the activities that most significantly impact the economic performance of the venture require unanimous consent. Accordingly, we determined that we are not the primary beneficiary since we do not have the power to direct the significant activities that affect the economic performance of the venture, and have applied the equity method of accounting. The carrying amount of our investment in Savannah is reflected in investments in unconsolidated joint ventures on our consolidated balance sheets and was \$44.4 million as of December 31, 2015. We are unable to estimate our maximum exposure to loss at this time because our guarantees are limited and based on the future operating performance of Savannah.

The management agreement and other contractual arrangements for Southaven give us, but not necessarily our joint venture partner, significant participating rights over activities that most significantly impact the economic performance of the ventures, thus we have concluded that we are the primary beneficiary and have consolidated the venture's balance sheet and results of operations. At December 31, 2015, total assets of this venture were \$81.5 million and total liabilities were \$55.6 million. The primary classification of the assets on the consolidated balance sheets are rental property, net of accumulated depreciation totaling \$76.7 million; cash of \$1.4 million and other assets of \$3.4 million (including deferred lease costs and other intangibles and deferred debt origination costs) and the primary classification of the liabilities include accounts payable and accrued expenses of \$9.8 million and mortgages payable of \$45.8 million. These assets include only those assets that can be used to settle obligations of the VIE. The liabilities include third party liabilities and exclude intercompany balances that are eliminated in consolidation.

Noncontrolling interests - In the Company's consolidated financial statements, the "Noncontrolling interests in Operating Partnership" reflects the Non-Company LPs percentage ownership of the Operating Partnership's units. The "Noncontrolling Interests in Other Consolidated Partnerships" consist of outside equity interests in partnerships not wholly-owned by the Company or the Operating Partnership but are consolidated with the financial results of the Company and Operating Partnership because the Operating Partnership exercises control over the entities that own the properties. Noncontrolling interests are initially recorded in the consolidated balance sheets at fair value based upon purchase price allocations. Income is allocated to the noncontrolling interests based on the allocation provisions within the partnership or joint venture agreements.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the

reported amounts of assets and liabilities as well as disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Estimates are used in the calculations of impairment losses, costs capitalized to originate operating leases, costs incurred for the construction and development of properties, and the values of deferred lease costs and other intangibles related to the acquisition of properties. Actual results could differ from those estimates.

F-17

Operating Segments - We focus exclusively on developing, acquiring, owning, operating, and managing outlet shopping centers. We aggregate the financial information of all outlet centers into one reportable operating segment because the outlet centers all have similar economic characteristics and provide similar products and services to similar types and classes of customers.

Rental Property - Rental properties are recorded at cost less accumulated depreciation. Buildings, improvements and fixtures consist primarily of permanent buildings and improvements made to land such as infrastructure and costs incurred in providing rental space to tenants.

The pre-construction stage of project development involves certain costs to secure land control and zoning and complete other initial tasks essential to the development of the project. These costs are transferred from other assets to construction in progress when the pre-construction tasks are completed. Costs of unsuccessful pre-construction efforts are charged to operations when the project is no longer probable.

We also capitalize other costs incurred for the construction and development of properties, including interest, real estate taxes and payroll and related costs associated with employees directly involved. Capitalization of costs commences at the time the development of the property becomes probable and ceases when the property is substantially completed and ready for its intended use. We consider a construction project as substantially completed and ready for its intended use upon the completion of tenant improvements. We cease capitalization on the portion that is substantially completed and occupied or held available for occupancy, and capitalize only those costs associated with the portion under construction. The amount of payroll and related costs capitalized for the construction and development of properties, which during 2015, 2014 and 2013 amounted to \$3.0 million, \$1.6 million and \$2.2 million, respectively, is based on our estimate of the amount of costs directly related to the construction or development of these assets.

Interest costs are capitalized during periods of active construction for qualified expenditures based upon interest rates in place during the construction period until construction is substantially complete. This includes interest incurred on funds invested in or advanced to unconsolidated joint ventures for qualifying development activities until placed in service. Interest costs capitalized during 2015, 2014 and 2013 amounted to approximately \$3.4 million, \$5.1 million and \$1.6 million, respectively.

Depreciation is computed on the straight-line basis over the estimated useful lives of the assets. We generally use estimated lives of 33 years for buildings and improvements, 15 years for land improvements and 7 years for equipment. Tenant finishing allowances are amortized over the life of the associated lease. Capitalized interest costs are amortized over lives which are consistent with the constructed assets. Expenditures for ordinary maintenance and repairs are charged to operations as incurred while significant renovations and improvements which improve and/or extend the useful life of the asset are capitalized and depreciated over their estimated useful life. Depreciation expense related to rental property included in net income for each of the years ended December 31, 2015, 2014 and 2013 was \$85.9 million, \$80.1 million and \$74.7 million, respectively.

In accordance with accounting guidance for business combinations, we allocate the purchase price of acquisitions based on the fair value of land, building, tenant improvements, debt and deferred lease costs and other intangibles, such as the value of leases with above or below market rents, origination costs associated with the in-place leases, the value of in-place leases and tenant relationships, if any. We depreciate the amount allocated to building, deferred lease costs and other intangible assets over their estimated useful lives, which range up to 33 years. The values of the above and below market leases are amortized and recorded as either an increase (in the case of below market leases) or a decrease (in the case of above market leases) to rental income over the remaining term of the associated lease. The values of below market leases that are considered to have renewal periods with below market rents are amortized over the remaining term of the associated lease plus the renewal periods when the renewal is deemed probable to occur. The value associated with in-place leases is amortized over the remaining lease term and tenant relationships is amortized over the expected term, which includes an estimated probability of the lease renewal. If a tenant terminates its lease prior to the contractual termination of the lease and no rental payments are being made on the lease, any unamortized balance of the related intangibles is written off. The tenant improvements and origination costs are amortized as an expense over the remaining life of the lease (or charged against earnings if the lease is terminated prior to its contractual expiration date). We assess fair value based on estimated cash flow projections that utilize appropriate discount and capitalization rates and available market information. These cash flow projections may be derived from various observable and unobservable inputs and assumptions. Also, we may utilize third-party valuation specialists. As a part of acquisition accounting, the amount by which the fair value of our previously held equity method investment exceeds the carrying book value is recorded as a gain on previously held interest in acquired joint venture. Direct costs to acquire existing outlet centers are expensed as incurred.

Cash, Cash Equivalents and Restricted Cash - All highly liquid investments with an original maturity of three months or less at the date of purchase are considered to be cash equivalents. Cash balances at a limited number of banks may periodically exceed insurable amounts. We believe that we mitigate our risk by investing in or through major financial institutions. Recoverability of investments is dependent upon the performance of the issuer. At December 31, 2015 and 2014, we had cash equivalent investments in highly liquid money market accounts at major financial institutions of \$671,000.

The restricted cash represents the cash proceeds from property sales that are being held by a qualified intermediary in anticipation of such amounts subsequently being invested in a tax efficient manner under Section 1031 of the Internal Revenue Code of 1986, as amended.

Deferred Charges - Deferred charges includes deferred lease costs and other intangible assets consisting of fees and costs incurred to originate operating leases and are amortized over the expected lease term. Deferred lease costs capitalized, including amounts paid to third-party brokers and payroll and related costs of employees directly involved in originating leases, during 2015, 2014 and 2013 were approximately \$7.8 million, \$6.2 million and \$4.0 million, respectively. Of the amounts capitalized during 2015, 2014 and 2013, approximately \$6.2 million, \$5.1 million, and \$2.9 million, respectively, were related to payroll and related costs. The amount of payroll and related costs capitalized is based on our estimate of the time and amount of costs directly related to originating leases. Deferred lease costs and other intangible assets also include the value of leases and origination costs deemed to have been acquired in real estate acquisitions.

Deferred financing costs include fees and costs incurred to obtain long-term financing and are amortized over the terms of the respective loans. Unamortized deferred financing costs are charged to expense when debt is retired before the maturity date.

Captive Insurance - We have a wholly-owned captive insurance company that is responsible for losses up to certain deductible levels per occurrence for property damage (including wind damage from hurricanes) prior to third-party insurance coverage. Insurance losses are reflected in property operating expenses and include estimates of costs

incurred, both reported and unreported.

F-19

Impairment of Long-Lived Assets - Rental property held and used by us is reviewed for impairment in the event that facts and circumstances indicate the carrying amount of an asset may not be recoverable. In such an event, we compare the estimated future undiscounted cash flows associated with the asset to the asset's carrying amount, and if less, recognize an impairment loss in an amount by which the carrying amount exceeds its fair value. Fair value is determined using a market approach whereby we consider the prevailing market income capitalization rates and sales data for transactions involving similar assets. We recognized no impairment losses during the years ended December 31, 2015, 2014, and 2013, respectively. Also, we believe there were no unrecorded impairment losses for the years ended December 31, 2015, 2014 and 2013, respectively.

Rental Property Held For Sale - Rental properties designated as held for sale are stated at the lower of their carrying value or their fair value less costs to sell. We classify rental property as held for sale when our Board of Directors approves the sale of the assets and it meets the requirements of current accounting guidance. Subsequent to this classification, no further depreciation is recorded on the assets.

Impairment of Investments - On a periodic basis, we assess whether there are any indicators that the value of our investments in unconsolidated joint ventures may be impaired. An investment is impaired only if management's estimate of the value of the investment is less than the carrying value of the investments, and such decline in value is deemed to be other than temporary. To the extent impairment has occurred, the loss shall be measured as the excess of the carrying amount of the investment over the value of the investment. Our estimates of value for each joint venture investment are based on a number of assumptions that are subject to economic and market uncertainties including, among others, demand for space, competition for tenants, discount and capitalization rates, changes in market rental rates and operating costs of the property. As these factors are difficult to predict and are subject to future events that may alter our assumptions, the values estimated by us in our impairment analysis may not be realized. As of December 31, 2015 and 2014, we do not believe that any of our equity investments were impaired.

Derivatives - We selectively enter into interest rate protection agreements to mitigate the impact of changes in interest rates on our variable rate borrowings. The notional amounts of such agreements are used to measure the interest to be paid or received and do not represent the amount of exposure to loss. None of these agreements are used for speculative or trading purposes.

We recognize all derivatives as either assets or liabilities in the consolidated balance sheets and measure those instruments at their fair value. We also measure the effectiveness, as defined by the relevant accounting guidance, of all derivatives. We formally document our derivative transactions, including identifying the hedge instruments and hedged items, as well as our risk management objectives and strategies for entering into the hedge transaction. At inception and on a quarterly basis thereafter, we assess the effectiveness of derivatives used to hedge transactions. If a cash flow hedge is deemed effective, we record the change in fair value in other comprehensive income. If after assessment it is determined that a portion of the derivative is ineffective, then that portion of the derivative's change in fair value will be immediately recognized in earnings.

Income Taxes - We operate in a manner intended to enable the Company to qualify as a REIT under the Internal Revenue Code. A REIT which distributes at least 90% of its taxable income to its shareholders each year and which meets certain other conditions is not taxed on that portion of its taxable income which is distributed to its shareholders. We intend to continue to qualify as a REIT and to distribute substantially all of the Company's taxable income to its shareholders. Accordingly, no provision has been made in the Company's consolidated financial statements for Federal income taxes. As a partnership, the allocated share of income or loss for the year with respect to the Operating Partnership is included in the income tax returns for the partners; accordingly, no provision has been made for Federal income taxes in the Operating Partnership's consolidated financial statements. In addition, we continue to evaluate uncertain tax positions. The tax years 2012 - 2015 remain open to examination by the major tax jurisdictions to which we are subject.

With regard to the Company's unconsolidated Canadian joint ventures, deferred tax assets result principally from depreciation deducted under United States Generally Accepted Accounting Principles ("GAAP") that exceed capital cost allowances claimed under Canadian tax rules. A valuation allowance is provided if we believe all or some portion of the deferred tax asset may not be realized. We have determined that a full valuation allowance is required as we believe none of the deferred tax assets will be realized.

F-20

Edgar Filing: TANGER FACTORY OUTLET CENTERS INC - Form 10-K

For income tax purposes, distributions paid to the Company's common shareholders consist of ordinary income, capital gains, return of capital or a combination thereof. Dividends per share for the years ended December 31, 2015, 2014 and 2013 were taxable as follows:

Common dividends per share:	2015	2014	2013
Ordinary income	\$1.2850	\$0.7645	\$0.7894
Capital gain	0.0200	—	0.0115
Return of capital	—	0.1805	0.0841
	\$1.3050	\$0.9450	\$0.8850

The following reconciles net income available to the Company's shareholders to taxable income available to common shareholders for the years ended December 31, 2015, 2014 and 2013 (in thousands):

	2015	2014	2013
Net income available to the Company's shareholders	\$211,200	\$74,011	\$107,557
Book/tax difference on:			
Depreciation and amortization	12,446	20,575	(10,697)
Sale of assets and interests in unconsolidated entities	(110,248)	(9,524)	(1,805)
Equity in earnings from unconsolidated joint ventures	6,772	12,910	5,601
Share-based payment compensation	4,751	(37,193)	(3,818)
Gain on previously held interest in acquired joint venture	—	—	(24,710)
Other differences	(2,831)	1,205	(5,823)
Taxable income available to common shareholders	\$122,090	\$61,984	\$66,305

Revenue Recognition - Base rentals are recognized on a straight-line basis over the term of the lease. Straight-line rent adjustments recorded as a receivable in other assets on the consolidated balance sheets were approximately \$40.6 million and \$34.6 million as of December 31, 2015 and 2014, respectively. As a provision of a tenant lease, if we make a cash payment to the tenant for purposes other than funding the construction of landlord assets, we defer the amount of such payments as a lease incentive. We amortize lease incentives as a reduction of base rental revenue over the term of the lease. Substantially all leases contain provisions which provide additional rents based on tenants' sales volume ("percentage rentals") and reimbursement of the tenants' share of advertising and promotion, common area maintenance, insurance and real estate tax expenses. Percentage rentals are recognized when specified targets that trigger the contingent rent are met. Expense reimbursements are recognized in the period the applicable expenses are incurred. Payments received from the early termination of leases are recognized as revenue from the time the payment is receivable until the tenant vacates the space. The values of the above and below market leases are amortized and recorded as either an increase (in the case of below market leases) or a decrease (in the case of above market leases) to rental income over the remaining term of the associated lease. If a tenant terminates its lease prior to the original contractual termination of the lease and no rental payments are being made on the lease, any unamortized balance of the related above or below market lease value will be written off.

We receive development, leasing, loan guarantee, management and marketing fees from third parties and unconsolidated affiliates for services provided to properties held in joint ventures. Development and leasing fees received from unconsolidated affiliates are recognized as revenue when earned to the extent of the third party partners' ownership interest. Development and leasing fees earned to the extent of our ownership interest are recorded as a reduction to our investment in the unconsolidated affiliate. Loan guarantee fees are recognized over the term of the guarantee. Management fees and marketing fees are recognized as revenue when earned. Fees recognized from these activities are shown as management, leasing and other services in our consolidated statements of operations. Fees received from consolidated joint ventures are eliminated in consolidation.

Concentration of Credit Risk - We perform ongoing credit evaluations of our tenants. Although the tenants operate principally in the retail industry, the properties are geographically diverse. No single tenant accounted for 10% or

more of combined base and percentage rental income or gross leasable area during 2015, 2014 or 2013.

F-21

Supplemental Cash Flow Information - We purchase capital equipment and incur costs relating to construction of new facilities, including tenant finishing allowances. Expenditures for these items included in trade payables as of December 31, 2015, 2014 and 2013 amounted to \$28.7 million, \$23.0 million and \$9.8 million, respectively.

Non-cash investing activities that occurred during 2014 related to the acquisition of the remaining non-controlling interest in The Outlets at Hershey, as discussed in Note 3. In September 2011, we purchased substantially all of the economic interests in The Outlets at Hershey, a 248,000 square foot outlet center. A portion of the cash consideration paid to the buyer included a \$6.2 million loan, which was included in other assets in the consolidated balance sheets, collateralized by their remaining ownership interest in the property. In October 2014, the loan was canceled in exchange for this remaining ownership interest in the property.

A non-cash financing activity that occurred during the 2015 period related to a special dividend of \$21.2 million that was declared in December 2015 and paid in January 2016. Non-cash financing activities that occurred during the 2013 period related to the acquisition of a controlling interest in Deer Park, as discussed in Note 3, included the assumption of debt totaling \$237.9 million, and the issuance of \$14.0 million in Class A common limited partnership units of the Operating Partnership as a portion of the consideration given. In addition, rental property and lease related intangible assets increased by \$27.9 million related to the fair value of the one-third interest owned by Deer Park's other remaining partner and \$26.0 million related to the fair value of our previously held interest in excess of carrying amount.

Interest paid, net of interest capitalized, in 2015, 2014 and 2013 was \$49.5 million, \$55.4 million and \$48.0 million, respectively.

Accounting for Equity-Based Compensation - We have a shareholder approved equity-based compensation plan, the Incentive Award Plan of Tanger Factory Outlet Centers and Tanger Properties Limited Partnership (Amended and Restated as of April 4, 2014) (the "Plan"), which covers our independent directors, officers and our employees. We may issue non-qualified options and other equity-based awards under the Plan. We account for our equity-based compensation plan under the fair value provisions of the relevant accounting guidance.

Foreign Currency Translation - We have entered into a co-ownership agreement with RioCan Real Estate Investment Trust to develop and acquire outlet centers in Canada for which the functional currency is the local currency. The assets and liabilities related to our investments in Canada are translated from their functional currency into U.S. Dollars at the rate of exchange in effect on the balance sheet date. Income statement accounts are translated using the average exchange rate for the period. Our share of unrealized gains and losses resulting from the translation of these financial statements are reflected in equity as a component of accumulated other comprehensive loss in the consolidated balance sheets.

New Accounting Pronouncements - In April 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standard Update ("ASU") No. 2015-03, Simplifying the Presentation of Debt Issuance Costs, which requires debt issuance costs to be presented in the balance sheet as a direct deduction from the associated debt liability. The guidance in the new standard is limited to the presentation of debt issuance costs. The standard does not affect the recognition and measurement of debt issuance costs. Early adoption is permitted for financial statements that have not been previously issued. The new guidance will be applied on a retrospective basis. The standard is effective for financial statements issued for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. We do not expect the adoption of this standard to have a material impact on our financial position, results of operations or cash flows.

In February 2015, FASB issued ASU No. 2015-02, Consolidation (Topic 810): Amendments to the Consolidation Analysis. ASU 2015-02 affects reporting entities that are required to evaluate whether they should consolidate certain

legal entities. ASU 2015-02 modifies the evaluation of whether limited partnerships and similar legal entities are VIEs or voting interest entities, eliminates the presumption that a general partner should consolidate a limited partnership and affects the consolidation analysis of reporting entities that are involved with VIEs, particularly those that have fee arrangements and related party relationships. ASU 2015-02 is effective for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2015. Early adoption is permitted. We expect that the adoption of this standard during the first quarter of 2016 will not have a material impact on our financial position, results of operations or cash flows, but may result in additional disclosures.

In August 2014, the FASB issued ASU No. 2014-15 Presentation of Financial Statements—Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern, which requires management to evaluate whether there are conditions or events that raise substantial doubt about the entity's ability to continue as a going concern, and to provide certain disclosures when it is probable that the entity will be unable to meet its obligations as they become due within one year after the date that the financial statements are issued. ASU 2014-15 is effective for the annual period ending December 31, 2016 and for annual periods and interim periods thereafter with early adoption permitted. We are currently evaluating the new guidance to determine the impact it may have on our consolidated financial statements.

In April 2014, the FASB issued ASU No. 2014-08, Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity (the "Final Standard"). Under the Final Standard, only disposals representing a strategic shift in operations (e.g., a disposal of a major geographic area, a major line of business or a major equity method investment) will be presented as discontinued operations. Under previous GAAP, companies that sold a single investment property were generally required to report the sale as a discontinued operation, which required the companies to reclassify earnings from continuing operations for all periods presented. The Final Standard is effective in the first quarter of 2015 for public entities with calendar year ends. The FASB will permit early adoption of the Final Standard, beginning in the first quarter of 2014, but only for disposals or classifications as held for sale that have not been reported in financial statements previously issued or available for issuance. We early adopted the standard in the first quarter of 2014. See Note 4 Disposition of Properties and Properties Held for Sale for further information.

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606), which supersedes the revenue recognition requirements in ASC 605, Revenue Recognition. This ASU is based on the principle that revenue is recognized to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. We are required to adopt the new pronouncement in the first quarter of fiscal 2018 using one of two retrospective application methods. We are currently evaluating the new guidance to determine the impact it may have on our consolidated financial statements.

Operating Partnership Unit Split - In August 2013, the Operating Partnership's operating agreement was amended to, among other things, effect a four-for-one split of the outstanding partnership units. After the effect of the split, each Class A common limited partnership unit held by Non-Company LPs may be exchanged for one common share of the Company. Prior to the split, each unit held by the Non-Company LPs was exchangeable for four common shares of the Company. All references to the number of units outstanding and per unit amounts reflect the effect of the split for all periods presented.

Reclassifications - We have revised the previously reported amounts in the consolidated statement of cash flows to reclassify approximately \$2.1 million related to tax increment financing for the year ended December 31, 2014 to the caption "additions to rental property" from the caption "proceeds from tax increment financing" to conform to the presentation of the consolidated statement of cash flows for the year ended December 31, 2015. We have concluded the previously reported financial statements were not materially misstated as a result of this revision.

3. Acquisition of Rental Property

2014 Acquisitions

In September 2011, we purchased substantially all of the economic interests in The Outlets at Hershey, a 248,000 square foot outlet center. A portion of the cash consideration paid to the buyer included a \$6.2 million loan, which was included in other assets in the consolidated balance sheets, collateralized by their remaining ownership interest in the property. In October 2014, the loan was canceled in exchange for this remaining ownership interest in the property.

2013 Acquisitions

In August 2013, Deer Park completed a refinancing of its existing debt and then immediately restructured the ownership whereby we acquired an additional ownership interest in the property from one of the partners which gave us a controlling interest. With the acquisition of this additional interest, we have consolidated the property for financial reporting purposes since the acquisition date, and remeasured our previously held interest that was accounted for as an equity method investment.

Prior to the acquisition, Deer Park successfully negotiated new financing of the debt obligations for the previous mortgage and mezzanine loans totaling approximately \$238.5 million, with a \$150.0 million mortgage loan. The new five year mortgage loan bears interest at a 150 basis point spread over LIBOR. The previous mortgage and mezzanine loans were in default, and as part of the refinancing, all default interest associated with the loans was waived. Utilizing funding from our existing unsecured lines of credit, we loaned approximately \$89.5 million at a rate of LIBOR plus 3.25% and due on August 30, 2020 to the Deer Park joint venture representing the remaining amount necessary to repay the previous mortgage and mezzanine loans. As a result of the refinancing, Deer Park recorded a gain on early extinguishment of debt of approximately \$13.8 million. Our share of this gain along with our share of the income from the settlement of a lawsuit by Deer Park with a third party totaled approximately \$7.8 million, which has been included in equity in earnings (losses) of unconsolidated joint ventures in the consolidated statement of operations for the year ended December 31, 2013.

Subsequent to the debt extinguishment, we acquired an additional one-third interest in the Deer Park property from one of the owners, bringing our total ownership to a two-thirds interest, for total consideration of approximately \$27.9 million, including \$13.9 million in cash and 450,576 in Class A common limited partnership units of Tanger Properties Limited Partnership, which are exchangeable for an equivalent number of the Company's common shares. This transaction was accounted for as a business combination resulting in the assets acquired and liabilities assumed being recorded at fair value as a result of the step acquisition. Prior to the acquisition, the joint venture was considered a variable interest entity and was accounted for under the equity method of accounting since we did not have the ability to direct the significant activities that affect the economic performance of the venture as a one-third owner. Upon acquiring an additional one-third interest, we determined, based on the acquisition agreement and other transaction documents which amended our rights with respect to the property and our obligations with respect to the additional one-third interest, that we control the property assets and direct the property's significant activities and therefore, consolidate the property's assets and liabilities.

The following table illustrates the fair value of the total consideration transferred and the amounts of the identifiable assets acquired and liabilities assumed at the acquisition date (in thousands):

Cash transferred	\$13,939
Common limited partnership units issued	13,981
Fair value of total consideration transferred to acquire one-third interest	27,920
Fair value of our previously held one-third interest	27,920

Edgar Filing: TANGER FACTORY OUTLET CENTERS INC - Form 10-K

Fair value of noncontrolling interest	27,920
Fair value of net assets acquired	\$83,760

F-24

The aggregate purchase price of the property was allocated as follows:

	Fair Value (in thousands)	Weighted-Average Amortization Period (in years)
Land	\$82,413	
Buildings, improvements and fixtures	172,694	
Deferred lease costs and other intangibles		
Above market lease value	18,807	11.9
Below market lease value	(12,658) 18.5
Lease in place value	28,846	7.6
Tenant relationships	27,594	19.0
Lease and legal costs	1,724	8.9
Total deferred lease costs and other intangibles, net	64,313	
Other identifiable assets acquired and liabilities assumed, net	2,265	
Debt	(237,925)
Total fair value of net assets acquired	\$83,760	

There was no contingent consideration associated with this acquisition. We incurred approximately \$1.0 million in third-party acquisition costs which were expensed as incurred. As a part of the acquisition accounting, we recorded a gain of \$26.0 million which represented the difference between the carrying book value and the fair value of our previously held equity method investment in Deer Park.

Following the acquisition, we and the noncontrolling interest restructured certain aspects of our ownership of the property, whereby we receive substantially all of the economics generated by the property and would have substantial control over the property's financial activities. We and the noncontrolling interest entered into a triple net lease agreement with a different wholly-owned subsidiary of ours which operates the property as lessee. Under the new structure, we will serve as property manager and control the management, leasing, marketing and other operations of the property. We and the noncontrolling interest will receive, in proportion to our respective ownership interests, fixed annual lease payments of approximately \$2.5 million, plus an amount necessary to pay the interest expense on debt related to the property. In addition, we and the noncontrolling interest have entered into an agreement whereby they may require us to acquire their ownership interest in the property on the second anniversary of the acquisition date for a price of \$28.4 million, and we have the option to acquire their ownership interest on the fourth anniversary of the acquisition date at the same price. On September 30, 2015, the noncontrolling interest in our Deer Park outlet center, exercised its right to require us to acquire its ownership interest. The transaction closed on January 5, 2016. The obligation to acquire its interest is recorded as a deferred financing obligation in the other liabilities section of our consolidated balance sheet.

The results of operations from the property are included in the consolidated statements of operations beginning on the acquisition date. The aggregate revenues and net loss from the property from the acquisition date through December 31, 2013, were \$11.1 million and \$3.5 million, respectively. The following unaudited condensed pro forma financial information for the year ended December 31, 2013 is presented as if the acquisition had been consummated as of January 1, 2012, the beginning of the previous reporting period (in thousands, except per share data):

	(unaudited) (Pro forma) Year ended December 31, 2013
Total Revenue	\$408,333
Income from continuing operations	85,836
Net income attributable to Tanger Factory Outlet Centers, Inc.	80,621
Basic earnings per common share	0.86
Diluted earnings per common share	0.86

Supplemental pro forma earnings for 2013 were adjusted to exclude \$1.0 million of third-party acquisition costs incurred in 2013 and \$26.0 million of nonrecurring gain related to the fair value adjustment.

4. Disposition of Properties and Properties Held for Sale

The following table sets forth the properties sold for the years ended 2015 and 2014 (in thousands):

Properties	Locations	Date Sold	Square Feet	Net Sales Proceeds	Gain on Sale
2015 Dispositions:					
Barstow	Barstow, CA	October 2015	171	\$105,793	\$86,506
Kittery I and II, Tuscola, and West Branch	Kittery, ME, Tuscola, IL, and West Branch, MI	September 2015	439	\$43,304	\$20,215
2014 Dispositions:					
Lincoln City	Lincoln City, OR	December 2014	270	\$38,993	\$7,513

The rental properties did not meet the criteria set forth in the newly-adopted guidance for reporting discontinued operations (See Note 2—Summary of Significant Accounting Policies), thus their results of operations have remained in continuing operations.

2015 Dispositions

During 2015, we sold our Kittery I & II, Tuscola, and West Branch and Barstow outlet centers for a gain of \$106.7 million, in aggregate, and we received a combined net proceeds of \$149.1 million of which \$121.3 million is recorded in restricted cash as of December 31, 2015. The restricted cash represents the cash proceeds from property sales that are being held by a qualified intermediary in anticipation of such amounts subsequently being invested in a tax efficient manner under Section 1031 of the Internal Revenue Code of 1986, as amended.

2014 Dispositions and assets held for sale

In the fourth quarter of 2014, we entered into an agreement with a private buyer to acquire our outlet center in Lincoln City, Oregon along with an option agreement to purchase an additional four properties, which have been classified as rental property held for sale as of December 31, 2014 on the consolidated balance sheets. Subsequently, the buyer purchased the Lincoln City outlet center in December 2014 for a gain of \$7.5 million, but during 2015 chose not to exercise the option to purchase the additional four properties. In July 2015, we concluded that the sale of these four additional outlet centers was no longer probable, reclassified the assets from held for sale to held and used, and recorded an adjustment of approximately \$1.6 million representing the depreciation and amortization expense that would have been recognized had the properties been continuously classified as held and used.

The carrying values of the assets classified as rental property held for sale at December 31, 2014 totaled \$46.0 million and were comprised of the following (in thousands):

Rental property, net	2014
Deferred lease costs and other intangibles, net	\$43,532
Prepays and other assets	757
Rental property held for sale	1,716
	\$46,005

5. Development of Consolidated Rental Properties

Foxwoods

In May 2015, we opened an approximately 312,000 square foot outlet center at the Foxwoods Resort Casino in Mashantucket, Connecticut. We own a controlling interest in the joint venture which is consolidated for financial reporting purposes. As of December 31, 2015, our partner's equity contributions totaled approximately \$1.0 million and our equity contributions totaled approximately \$58.8 million. Contributions we make in excess of \$40.0 million earn a preferred rate of return of 15% from the date of contribution. In addition, each partner earns a rate of return of 10% on their initial capital contributions from the date of contribution. Under the terms of the joint venture's operating agreement, upon liquidation, we would receive all of our unreturned contributions and all unpaid returns earned on those contributions prior to any distributions being made to our partner. Accordingly, we expect our current economic interest in the venture's cash flow to be greater than our legal ownership percentage of 67%. As of December 31, 2015, based upon the liquidation proceeds we would receive from a hypothetical liquidation of our investment based on depreciated book value, our economic interest would represent substantially all of the economic benefit of the property. Our economic interest may fluctuate based on a number of factors, including mortgage financing, partnership capital contributions and distributions, and proceeds from asset sales.

Grand Rapids

In July 2015, we opened an approximately 352,000 square foot wholly-owned outlet center near Grand Rapids, Michigan. The outlet center is located 11 miles south of downtown Grand Rapids at the southwest quadrant of US-131 and 84th Street in Byron Township, Michigan, with visibility from both roads.

Southaven

In November 2015, we opened an approximately 320,000 square foot outlet center in Southaven, Mississippi. In January 2015, we purchased land for approximately \$14.8 million and commenced construction on the development of Tanger Outlets Southaven, which is located less than five miles south of Memphis, Tennessee. We own a controlling interest in the joint venture which is consolidated for financial reporting purposes. As of December 31, 2015, our partner's equity contributions totaled approximately \$461,000 and our equity contributions totaled approximately \$26.5 million. From the date our equity contributions are made, we earn a preferred rate of return of 10% for senior contributions and 14% for junior contributions. As of December 31, 2015, the balance of our senior contributions was \$17.7 million and our junior contributions was \$8.3 million.

Under the terms of the joint venture's operating agreement, upon liquidation, we would receive all of our unreturned contributions and all unpaid returns earned on those contributions prior to any distributions being made to our partner. Accordingly, we expect our current economic interest in the venture's cash flow to be greater than our legal ownership percentage of 50%. As of December 31, 2015, based upon the liquidation proceeds we would receive from a hypothetical liquidation of our investment based on depreciated book value, our economic interest would represent substantially all of the economic benefit of the property. Our economic interest may fluctuate based on a number of factors, including mortgage financing, partnership capital contributions and distributions, and proceeds from asset sales.

The table below sets forth our consolidated outlet centers under development of December 31, 2015:

Project	Approximate square feet (in 000's)	Costs Incurred to Date (in millions)	Borrowed to date (in millions)	Projected Opening
Daytona Beach	352	\$17.3	—	Holiday 2016

Daytona Beach

In November 2015, we purchased land for approximately \$9.9 million and commenced construction on the development of a wholly owned outlet center in Daytona Beach, Florida. The outlet center is expected to be approximately 352,000 square feet and to open by Holiday 2016.

F-28

6. Investments in Unconsolidated Real Estate Joint Ventures

Our investments in unconsolidated joint ventures as of December 31, 2015 and 2014 aggregated \$201.1 million and \$208.0 million, respectively. We have evaluated the accounting treatment for each of the joint ventures and have concluded based on the current facts and circumstances that the equity method of accounting should be used to account for the individual joint ventures. At December 31, 2015 and 2014, we were members of the following unconsolidated real estate joint ventures:

As of December 31, 2015

Joint Venture	Outlet Center Location	Ownership %	Square Feet (in 000's)	Carrying Value of Investment (in millions)	Total Joint Venture Debt (in millions)
Columbus	Columbus, OH	50.0	% —	\$21.1	\$—
National Harbor	National Harbor, MD	50.0	% 339	6.1	87.0
RioCan Canada	Various	50.0	% 870	117.2	11.3
Savannah ⁽¹⁾	Savannah, GA	50.0	% 377	44.4	89.5
Westgate	Glendale, AZ	58.0	% 411	12.3	62.0
				\$201.1	\$249.8
Charlotte ⁽²⁾	Charlotte, NC	50.0	% 398	\$(1.1) \$90.0
Galveston/Houston ⁽²⁾	Texas City, TX	50.0	% 353	(1.5) 65.0
				\$(2.6) \$155.0

As of December 31, 2014

Joint Venture	Outlet Center Location	Ownership %	Square Feet (in 000's)	Carrying Value of Investment (in millions)	Total Joint Venture Debt (in millions)
Galveston/Houston	Texas City, TX	50.0	% 353	\$1.3	\$65.0
National Harbor	National Harbor, MD	50.0	% 339	9.5	83.7

Based on capital contribution and distribution provisions in the joint venture agreement, we expect our economic interest in the venture's cash flow to be greater than indicated in the Tanger Ownership column, which states our legal interest in this venture. As of December 31, 2015, based upon the liquidation proceeds we would receive (1) from a hypothetical liquidation of our investment based on depreciated book value, our estimated economic interest in the venture was approximately 98%. Our economic interest may fluctuate based on a number of factors, including mortgage financing, partnership capital contributions and distributions, and proceeds from gains or losses of asset sales.

(2) The negative carrying value is due to the distributions of proceeds from mortgage loans and quarterly distributions of excess cash flow exceeding the original contributions from the partners.

Fees we received for various services provided to our unconsolidated joint ventures were recognized in management, leasing and other services as follows (in thousands):

	Year Ended December 31,		
	2015	2014	2013
Fees:			
Development and leasing	\$1,827	\$725	\$595
Loan guarantee	746	463	161
Management and marketing	2,853	2,403	2,324
Total Fees	\$5,426	\$3,591	\$3,080

Our carrying value of investments in unconsolidated joint ventures differs from our share of the assets reported in the “Summary Balance Sheets - Unconsolidated Joint Ventures” shown below due to adjustments to the book basis, including intercompany profits on sales of services that are capitalized by the unconsolidated joint ventures. The differences in basis (totaling \$3.9 million and \$4.4 million as of December 31, 2015 and 2014, respectively) are amortized over the various useful lives of the related assets.

Charlotte

In July 2014, we opened an approximately 398,000 square foot outlet center in Charlotte, North Carolina that was developed through, and is owned by, a joint venture formed in May 2013. The outlet center is located eight miles southwest of uptown Charlotte at the interchange of I-485 and Steele Creek Road (North Carolina Highway 160). Construction of the outlet center, which commenced during the third quarter of 2013, was initially funded with equal equity contributions by the partners. In November 2014, the joint venture closed on an interest only mortgage loan for \$90.0 million at an interest rate of LIBOR + 1.45%. The loan initially matures in November 2018, with the option to extend the maturity for one additional year. The joint venture received net loan proceeds of \$89.4 million and distributed them equally to the partners. The loan balance as of December 31, 2015 was approximately \$90.0 million.

Our partner is providing property management, marketing and leasing services to the joint venture. During construction, we provided development services to the joint venture and joint leasing services with our partner.

Columbus

During the second quarter of 2015, the joint venture purchased land for approximately \$8.9 million and began construction on a 350,000 square foot outlet center in Columbus, Ohio. We and our partner currently expect to complete construction in time to open the center during the second quarter of 2016. The construction of the center is currently being funded with equity contributions from the partners. As of December 31, 2015, we and our partner had each contributed \$20.6 million to fund development activities. Our partner is providing development services to the joint venture and we, along with our partner, are providing joint leasing services. Once the center opens, we will provide property management, marketing and leasing services to the joint venture.

Galveston/Houston

In October 2012, we opened an approximately 353,000 square foot outlet center in Texas City, Texas that was developed through, and is owned by, a joint venture formed in June 2011. The development was initially fully funded with equity contributed to the joint venture by Tanger and its partner. In July 2013, the joint venture closed on a \$70.0 million mortgage loan with a rate of LIBOR + 1.50% and a maturity date of July 2017, with the option to extend the maturity for one additional year. The joint venture received total loan proceeds of \$65.0 million and distributed the net proceeds equally to the partners. We used our share of the proceeds to reduce amounts outstanding under our unsecured lines of credit. We are providing property management, marketing and leasing services to the outlet center.

National Harbor

In November 2013, we opened an approximately 339,000 square foot outlet center at National Harbor in the Washington, D.C. Metro area that was developed through, and is owned by, a joint venture formed in May 2011. In November 2014, the joint venture amended the initial construction loan to increase the amount available to borrow from \$62.0 million to \$87.0 million and extended the maturity date until November 2019. The loan carries an interest rate of LIBOR + 1.65%. At the closing of the amendment, the joint venture distributed approximately \$19.0 million equally between the partners. The loan balance as of December 31, 2015 was approximately \$87.0 million. We are providing property management, marketing and leasing services to the joint venture.

RioCan Canada

We have a 50/50 co-ownership agreement with RioCan Real Estate Investment Trust to develop and acquire outlet centers in Canada. Under the agreement, any outlet centers developed or acquired will be branded as Tanger Outlet Centers. We have agreed to provide leasing and marketing services for the outlet centers and RioCan has agreed to provide development and property management services.

In October 2014, the co-owners opened Tanger Outlets Ottawa, the first ground up development of a Tanger Outlet Center in Canada. Located in suburban Kanata off the TransCanada Highway (Highway 417) at Palladium Drive, the outlet center currently contains approximately 284,000 square feet, with additional square footage totaling approximately 28,000 square feet related to an anchor tenant expected to be completed and opened in early 2016.

In November 2014, the co-owners opened an approximately 149,000 square foot expansion to the existing Cookstown Outlet Mall, bringing the total square feet of the outlet center to approximately 309,000 square feet.

Other properties owned by the RioCan Canada co-owners include Les Factoreries Saint-Sauveur and Bromont Outlet Mall. Les Factoreries Saint-Sauveur, is located northwest of Montreal adjacent to Highway 15 in the town of Saint-Sauveur, Quebec and is approximately 116,000 square feet. The Bromont Outlet Mall, is located east of Montreal near the eastern townships adjacent to Highway 10 in the town of Bromont, Quebec and is approximately 161,000 square feet.

Savannah

In April 2015, we opened an approximately 377,000 square foot outlet center in Savannah, Georgia. As of December 31, 2015, our equity contributions totaled \$45.8 million and our partner's equity contributions totaled \$8.3 million. Contributions we made in excess of our partners' equity contributions are considered preferred equity and earned a preferred rate of return equal to 8% from the date the contributions were made until the outlet center's grand opening in April 2015, and will earn 10% annually thereafter. Under the terms of the joint venture's operating agreement, upon liquidation, we would receive all of our unreturned preferred equity contributions and all unpaid returns earned on those contributions prior to any distributions being made to our equity partner. As of December 31, 2015, based upon the liquidation proceeds we would receive from a hypothetical liquidation of our investment based at depreciated book value, our estimated economic interest in the venture was approximately 98%. Our economic interest may fluctuate based on a number of factors, including mortgage financing, partnership capital contributions and distributions, and proceeds from asset sales.

In May 2014, the joint venture closed on a construction loan with the ability to borrow up to \$97.7 million at an interest rate of LIBOR + 1.65%. In September 2015, the loan maximum borrowing amount was increased to \$100.9 million. The construction loan has a maturity date of May 21, 2017, with two, one -year extension options. As of December 31, 2015, the balance on the loan was \$89.5 million. The additional \$11.4 million is available for

construction of the approximately 42,000 square foot expansion that is currently in process. We are providing development, management and marketing services to the joint venture; and with our partner, are jointly providing leasing services to the outlet center.

F-31

Westgate/Glendale

In November 2012, we opened our Westgate outlet center, located in Glendale, Arizona, which was developed through, and currently owned by, a joint venture that was formed in May 2012.

During the first quarter of 2015, the joint venture completed the remaining 28,000 square feet of a 78,000 square foot expansion of the existing property which upon completion increased the total square feet of the outlet center to approximately 411,000 square feet. Construction commenced on the expansion during the second quarter of 2014 and was funded with borrowings under the amended Westgate mortgage loan. The joint venture's amended and restated construction loan is fully funded with a balance of \$62.0 million as of December 31, 2015. The loan initially matured in June 2015, and during the second quarter of 2015 the joint venture exercised the two year option to extend the maturity date of the loan to June 2017. We are providing property management, construction supervision, marketing and leasing services to the joint venture.

Wisconsin Dells

In February 2015, we sold our equity interest in the joint venture that owned the outlet center located in Wisconsin Dells, Wisconsin for approximately \$15.6 million, representing our share of the sales price totaling \$27.7 million less our share of the outstanding debt, which totaled \$12.1 million. As a result of this transaction, we recorded a gain of approximately \$13.7 million in the first quarter of 2015, which represents the difference between the carrying value of our equity method investment and the net proceeds received.

Condensed combined summary financial information of joint ventures accounted for using the equity method as of December 31, 2015 and 2014 is as follows (in thousands):

Condensed Combined Balance Sheets - Unconsolidated Joint Ventures	2015	2014
Assets		
Land	\$103,046	\$102,601

Note that revenues for the year ended December 31, 2013 include approximately \$9.5 million of other income from (1) the settlement of a lawsuit at Deer Park prior to our acquisition of an additional one-third interest in and the consolidation of the property.

(2) Represents a gain on early extinguishment of debt that was recorded as part of the refinancing of the debt at Deer Park in August 2013 (See Note 3).

7. Deferred Charges

Deferred lease costs and other intangibles, net as of December 31, 2015 and 2014 consist of the following (in thousands):

	2015	2014
Deferred lease costs	\$70,379	\$61,205
Intangible assets:		
Above market leases	43,340	44,144
Lease in place value	68,194	69,893
Tenant relationships	55,538	57,230
Other intangibles	42,614	42,789
	280,065	275,261
Accumulated amortization	(152,976) (134,378
Deferred lease costs and other intangibles, net	\$127,089	\$140,883

Below market lease intangibles, net of accumulated amortization, included in other liabilities on the consolidated balance sheets as of December 31, 2015 and 2014 were \$10.4 million and \$12.9 million, respectively.

Amortization of deferred lease costs and other intangibles, excluding above and below market leases, included in depreciation and amortization for the years ended December 31, 2015, 2014 and 2013 was \$16.7 million, \$20.9 million and \$19.8 million, respectively.

Amortization of above and below market lease intangibles recorded as an increase or (decrease) in base rentals for the years ended December 31, 2015, 2014 and 2013 was \$(2.0) million, \$(2.8) million and \$(686,000), respectively.

Estimated aggregate amortization of net above and below market leases and other intangibles for each of the five succeeding years is as follows (in thousands):

Year	Above/below market leases, net	Deferred lease costs and other intangibles
2016	\$2,142	\$9,652
2017	2,087	7,943
2018	1,926	7,022
2019	463	4,809
2020	113	4,079
Total	\$6,731	\$33,505

Deferred debt origination costs, net as of December 31, 2015 and 2014 consist of the following (in thousands):

	2015	2014
Deferred debt origination costs	\$24,955	\$22,126
Accumulated amortization	(13,073) (10,000
Deferred debt origination costs, net	\$11,882	\$12,126

Amortization of deferred debt origination costs included in interest expense for the years ended December 31, 2015, 2014 and 2013 was \$2.7 million, \$2.4 million and \$2.2 million, respectively.

8. Debt of the Company

All of the Company's debt is held by the Operating Partnership and its consolidated subsidiaries.

The Company guarantees the Operating Partnership's obligations with respect to its unsecured lines of credit which have a total borrowing capacity of \$520.0 million. The Company also guarantees the Operating Partnership's unsecured term loan. In addition, as of December 31, 2014, the Company guaranteed the Operating Partnership's obligation with respect to the mortgage assumed in connection with the acquisition of the outlet center in Ocean City, Maryland in July 2011. The Ocean City mortgage was subsequently repaid in July 2015.

The Operating Partnership had the following amounts outstanding on the debt guaranteed by the Company (in thousands):

	December 31, 2015	December 31, 2014
Unsecured lines of credit	\$ 190,300	\$ 111,000
Unsecured term loan	\$ 250,000	\$ 250,000
Ocean City mortgage	\$—	\$ 17,926

9. Debt of the Operating Partnership

Debt as of December 31, 2015 and 2014 consists of the following (in thousands):

	Stated Interest Rate(s)	Maturity Date	As of December 31, 2015 Principal	Premium (Discount)	As of December 31, 2014 Principal	Premium (Discount)
Senior, unsecured notes:						
Senior notes	6.125	% June 2020	\$ 300,000	\$(1,071)	\$ 300,000	\$(1,276)
Senior notes	3.875	% December 2023	250,000	(3,378)	250,000	(3,732)
Senior notes	3.750	% December 2024	250,000	(1,298)	250,000	(1,418)
Mortgages payable:						
Atlantic City ⁽¹⁾	5.14%-7.65%	November 2021- December 2026	43,312	3,293	45,997	3,694

Foxwoods	LIBOR + 1.65%	December 2017	70,250	—	25,235	—
Hershey ⁽¹⁾	5.17%-8.00%	—	—	—	29,271	399
Ocean City ⁽¹⁾	5.24	% —	—	—	17,827	99
Southaven	LIBOR + 1.75%	April 2018	45,824	—	—	—
Note payable ⁽¹⁾	1.50	% June 2016	10,000	(81)	10,000	(241)
Unsecured term loan	LIBOR + 1.05%	February 2019	250,000	—	250,000	—
Unsecured term note	LIBOR + 1.30%	August 2017	7,500	—	7,500	—
Unsecured lines of credit	LIBOR + 0.90%	October 2019	190,300	—	111,000	—
			\$ 1,567,186	\$(3,380)	\$ 1,446,830	\$(3,636)

The effective interest rates assigned during the purchase price allocation to these assumed mortgages and note (1) payable during acquisitions in 2011 were as follows: Atlantic City 5.05%, Ocean City 4.68%, Hershey 3.40% and note payable 3.15%.

Certain of our properties, which had a net book value of approximately \$622.8 million at December 31, 2015, serve as collateral for mortgages payable. We maintain unsecured lines of credit that provide for borrowings of up to \$520.0 million. The unsecured lines of credit include a \$20.0 million liquidity line and a \$500.0 million syndicated line. The syndicated line may be increased to \$1.0 billion through an accordion feature in certain circumstances.

F-35

We provide guarantees to lenders for our joint ventures which include standard non-recourse carve out indemnifications for losses arising from items such as but not limited to fraud, physical waste, payment of taxes, environmental indemnities, misapplication of insurance proceeds or security deposits and failure to maintain required insurance. For construction and term loans, we may include a guaranty of completion as well as a principal guaranty ranging from 5% to 100% of principal. The principal guarantees include terms for release based upon satisfactory completion of construction and performance targets including occupancy thresholds and minimum debt service coverage tests.

The unsecured lines of credit and senior unsecured notes include covenants that require the maintenance of certain ratios, including debt service coverage and leverage, and limit the payment of dividends such that dividends and distributions will not exceed funds from operations, as defined in the agreements, for the prior fiscal year on an annual basis or 95% of funds from operations on a cumulative basis. As of December 31, 2015, we were in compliance with all of our debt covenants.

2015 Transactions

Southaven Mortgage

In April 2015, the consolidated joint venture closed on a mortgage loan with the ability to borrow up to \$60.0 million at an interest rate of LIBOR +1.75%. The loan initially matures on April 29, 2018, with one two-year extension option.

Hershey Mortgage

May 2015, we repaid the mortgages associated with our Hershey outlet center, which were assumed as part of the acquisition of the property in 2011. The maturity date of the mortgages was August 1, 2015 and it had a principal balance at the date of extinguishment of \$29.0 million.

Ocean City Mortgage

In July 2015, we repaid the mortgage associated with our Ocean City outlet center, which was assumed as part of the acquisition of the property in 2011. The maturity date of the mortgage was January 6, 2016 and had a principal balance at the date of extinguishment of \$17.6 million.

Extension of Unsecured Lines of Credit

In October 2015, we closed on amendments to our unsecured lines of credit, extending the maturity and reducing our interest rate. The maturity date of these facilities was extended from October 2017 to October 2019 with the ability to further extend the maturity date for an additional year at our option. The interest rate was reduced from LIBOR + 1.00% to LIBOR + 0.90% based on our current credit rating and the maximum borrowings to which the syndicated line could be increased through an accordion feature in certain circumstances was increased from \$750.0 million to \$1.0 billion. Loan origination costs associated with the amendments totaled approximately \$2.0 million.

2014 Transactions

Amendment of \$250.0 Million Unsecured Term Loan

In July 2014, we entered into an amendment of our \$250.0 million unsecured term loan which matures in February 2019. The amendment reduced the interest rate on the loan from LIBOR + 1.60% to LIBOR + 1.05%. No other material terms of the loan were amended.

F-36

\$250.0 Million Unsecured Senior Notes

In November 2014, Tanger Properties Limited Partnership completed a public offering of \$250.0 million in senior notes due 2024 in an underwritten public offering. The notes were priced at 99.429% of the principal amount to yield 3.819% to maturity. The notes will pay interest semi-annually at a rate of 3.750% per annum and mature on December 1, 2024. The net proceeds from the offering, after deducting the underwriting discount and offering expenses, were approximately \$246.2 million. We used the net proceeds from the sale of the notes to redeem our \$250.0 million 6.15% senior notes due November 2015. We recorded a charge of approximately \$13.1 million for the make-whole premium related to the early redemption, which was completed in December 2014.

Foxwoods Mortgage

In December 2014, the consolidated joint venture closed on a mortgage loan with the ability to borrow up to \$70.3 million at an interest rate of LIBOR + 1.65%. The loan initially matures in December 2017, with two one-year extension options.

2013 Transactions

Assumption of \$150.0 Million Deer Park Mortgage

In August 2013, as part of the acquisition of a controlling ownership interest in Deer Park, we assumed an \$150.0 million interest only mortgage loan, including a fair value discount of \$1.6 million. The loan has a five year term and carries an interest rate of LIBOR + 1.50%.

Derivatives

In October 2013, to reduce our floating rate debt exposure, we entered into interest rate swap agreements on notional amounts totaling \$150.0 million that fixed the base LIBOR rate at an average of 1.30% from November 2013 to August 2016.

Extension of Unsecured Lines of Credit

In October 2013, we amended our unsecured lines of credit, extending the maturity, and reducing the overall borrowing costs. The maturity of these facilities was extended from November 10, 2015 to October 24, 2017 with the ability to further extend the maturity for an additional year at our option. The annual commitment fee, which is payable on the full \$520.0 million in loan commitments, was reduced from 0.175% to 0.15%, and the interest rate spread over LIBOR was reduced from 1.10% to 1.00% based on our current credit rating. Loan origination costs associated with the amendments totaled approximately \$1.5 million. The lines of credit were further amended in October 2015 as discussed above.

\$250.0 Million Unsecured Senior Notes

In November 2013, Tanger Properties Limited Partnership completed a public offering of \$250.0 million in senior notes due 2023 in an underwritten public offering. The notes were priced at 98.360% of the principal amount to yield 4.076% to maturity. The notes will pay interest semi-annually at a rate of 3.875% per annum and mature on December 1, 2023. The net proceeds from the offering, after deducting the underwriting discount and offering expenses, were approximately \$243.6 million. We used the net proceeds from the sale of the notes to repay borrowings under our unsecured lines of credit.

Debt Maturities

Maturities of the existing long-term debt as of December 31, 2015 for the next five years and thereafter are as follows (in thousands):

Calendar Year	Amount
2016	\$ 12,842
2017	80,758
2018	199,008
2019	443,669
2020	303,566
Thereafter	527,343
Subtotal	1,567,186
Net discount	(3,380)
Total	\$ 1,563,806

10. Derivative Financial Instruments

The following table summarizes the terms and fair values of our derivative financial instruments, as well as their classifications within the consolidated balance sheets as of December 31, 2015 and December 31, 2014 (notional amounts and fair values in thousands):

Effective Date	Maturity Date	Notional Amount	Bank Pay Rate	Company Fixed Pay Rate	Fair Value	
					2015	2014
Assets (Liabilities):						
November 14, 2013	August 14, 2018	\$ 50,000	1 month LIBOR	1.3075	% \$(212)	\$ 26
November 14, 2013	August 14, 2018	50,000	1 month LIBOR	1.2970	% (198)	40
November 14, 2013	August 14, 2018	50,000	1 month LIBOR	1.3025	% (206)	29
Total		\$ 150,000			\$(616)	\$ 95

The derivative financial instruments are comprised of interest rate swaps, which are designated and qualify as cash flow hedges, each with a separate counterparty. We do not use derivatives for trading or speculative purposes and currently do not have any derivatives that are not designated as hedges.

The effective portion of changes in the fair value of derivatives designated and qualifying as cash flow hedges is recorded in accumulated other comprehensive income (loss) and subsequently reclassified into earnings in the period that the hedged forecasted transaction affects earnings. The ineffective portion of the change in fair value of the derivative, if any, is recognized directly in earnings. For the year end December 31, 2015, the ineffective portion was not significant.

The following table represents the effect of the derivative financial instruments on the accompanying consolidated financial statements for the years ended December 31, 2015, 2014 and 2013, respectively (in thousands):

	Location of Reclassification from Accumulated Other Comprehensive Income Into Income	December 31,		
		2015	2014	2013
Interest Rate Swaps (Effective Portion):				
Amount of gain (loss) recognized in OCI on derivative		\$(711)	\$(1,287)	\$1,382
Treasury Rate Lock (Effective Portion):				
Amount of gain reclassified from accumulated OCI into income	Interest Expense	\$—	\$741	\$371

In 2005, we settled two US treasury rate lock agreements associated with a 10 year senior, unsecured bond offering and received approximately \$3.2 million. The unamortized balance of the settled agreements as of December 31, 2013 was \$741,000. We fully amortized the remaining balance during 2014 in connection with the early redemption of the associated 10 year senior, unsecured notes in December 2014.

11. Fair Value Measurements

Fair value guidance establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers are defined as follows:

Tier	Description
Level 1	Observable inputs such as quoted prices in active markets
Level 2	Inputs other than quoted prices in active markets that are either directly or indirectly observable
Level 3	Unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions

The following table sets forth our assets and liabilities that are measured at fair value within the fair value hierarchy (in thousands):

	Total	Level 1 Quoted Prices in Active Markets for Identical Assets or Liabilities	Level 2 Significant Observable Inputs	Level 3 Significant Unobservable Inputs
Fair value as of December 31, 2015:				
Assets:				
Interest rate swaps (other liabilities)	\$(616)	\$—	\$(616)	\$—
Total liabilities	\$(616)	\$—	\$(616)	\$—

	Total	Level 1 Quoted Prices in Active Markets for Identical Assets or Liabilities	Level 2 Significant Observable Inputs	Level 3 Significant Unobservable Inputs
Fair value as of December 31, 2014:				
Assets:				
Interest rate swaps (prepaids and other assets)	\$95	\$—	\$95	\$—
Total assets	\$95	\$—	\$95	\$—

The estimated fair value and recorded value of our debt consisting of senior unsecured notes, unsecured term loans, secured mortgages and unsecured lines of credit were as follows (in thousands):

	December 31, 2015	December 31, 2014
Fair value of debt	\$1,615,833	\$1,493,519
Recorded value of debt	\$1,563,806	\$1,443,194

With the exception of the unsecured term loan and unsecured lines of credit, that have variable rates and considered at market value, fair values of the senior notes and mortgage loans are determined using discounted cash flow analysis with an interest rate or credit spread similar to that of current market borrowing arrangements. Because the Company's senior unsecured notes are publicly traded with limited trading volume, these instruments are classified as Level 2 in the hierarchy. In contrast, mortgage loans are classified as Level 3 given the unobservable inputs utilized in the valuation. Considerable judgment is necessary to develop estimated fair values of financial instruments. Accordingly, the estimates presented herein are not necessarily indicative of the amounts the Company could realize on the disposition of the financial instruments.

The carrying values of cash and cash equivalents, receivables, accounts payable, accrued expenses and other assets and liabilities are reasonable estimates of their fair values because of the short maturities of these instruments.

12. Shareholders' Equity of the Company

Each Class A common limited partnership unit is exchangeable for one common share of the Company.

2015 Transactions

For the year ended December 31, 2015, 25,663 Class A common limited partnership units of the Operating Partnership were exchanged for an equal number of common shares of the Company.

2014 Transactions

For the year ended December 31, 2014, Non-Company LPs exchanged a total of 66,606 Class A common limited partnership units of the Operating Partnership for an equal number of common shares of the Company.

2013 Transactions

For the year ended December 31, 2013, Non-Company LPs exchanged a total of 67,428 Class A common limited partnership units of the Operating Partnership for an equal number of common shares of the Company.

F-40

13. Partners' Equity of the Operating Partnership

In August 2013, the Operating Partnership's operating agreement was amended to, among other things, effect a four-for-one split of the outstanding partnership units. After the effect of the split, each Class A common limited partnership unit held by Non-Company LPs may be exchanged for one common share of the Company. Prior to the split, each unit held by the Non-Company LPs was exchangeable for four common shares of the Company. All references to the number of units outstanding and per unit amounts reflect the effect of the split for all periods presented.

All units of partnership interest issued by the Operating Partnership have equal rights with respect to earnings, dividends and net assets. When the Company issues common shares upon the exercise of options, the issuance of restricted share awards or the exchange of Class A common limited partnership units, the Operating Partnership issues a corresponding Class B common limited partnership unit to Tanger LP trust, a wholly owned subsidiary of the Company.

Also, in August 2013 as disclosed in Note 3, the Operating Partnership issued 450,576 Class A common limited partnership units as partial consideration for the acquisition of an additional one-third interest in Deer Park.

The following table sets forth the changes in outstanding partnership units for the years ended December 31, 2015, 2014 and 2013:

	General partnership units	Limited Partnership Units		Total	
		Class A	Class B		
Balance December 31, 2012	1,000,000	4,761,864	93,061,384	97,823,248	
Exchange of Class A limited partnership units	—	(67,428) 67,428	—	
Issuance of restricted units	—	—	332,373	332,373	
Units issued upon exercise of options	—	—	44,500	44,500	
Units issued as consideration for business acquisition (see Note 3)	—	450,576	—	450,576	
Balance December 31, 2013	1,000,000	5,145,012	93,505,685	98,650,697	
Units withheld for employee income taxes	—	—	(412,239) (412,239)
Exchange of Class A limited partnership units	—	(66,606) 66,606	—	
Issuance of restricted units	—	—	1,302,729	1,302,729	
Units issued upon exercise of options	—	—	47,000	47,000	
Balance December 31, 2014	1,000,000	5,078,406	94,509,781	99,588,187	
Units withheld for employee income taxes	—	—	(31,863) (31,863)
Exchange of Class A limited partnership units	—	(25,663) 25,663	—	
Issuance of restricted units	—	—	348,844	348,844	
Units issued upon exercise of options	—	—	28,400	28,400	
Balance December 31, 2015	1,000,000	5,052,743	94,880,825	99,933,568	

14. Noncontrolling Interests

Noncontrolling interests in the Operating Partnership relate to the interests in the Operating Partnership owned by Non-Company LPs as discussed in Note 2. The noncontrolling interests in other consolidated partnerships consist of outside equity interests in partnerships not wholly owned by the Company or the Operating Partnership that are consolidated with the financial results of the Company and Operating Partnership because the Operating Partnership exercises control over the entities that own the properties.

In 2015 and 2014, adjustments of the noncontrolling interest in the Operating Partnership were made as a result of the changes in the Company's ownership of the Operating Partnership from additional units received in connection with the Company's issuance of common shares upon the exercise of options and grants of share-based compensation awards, and additional units received upon the exchange of Class A common limited partnership units of the Operating Partnership into an equal number of common shares of the Company. As discussed in Note 12, for the years ended December 31, 2015 and 2014 Non-Company LPs exchanged 25,663 and 66,606 Class A common limited partnership units of the Operating Partnership, respectively for an equal number of common shares of the Company.

The changes in the Company's ownership interests in the subsidiaries impacted consolidated equity during the periods shown as follows (in thousands):

	2015	2014
Net income attributable to Tanger Factory Outlet Centers, Inc.	\$211,200	\$74,011
Increase (decreases) in Tanger Factory Outlet Centers, Inc. paid-in-capital adjustments to noncontrolling interests ⁽¹⁾	(402) 741
Changes from net income attributable to Tanger Factory Outlet Centers, Inc. and transfers from noncontrolling interest	\$210,798	\$74,752

15. Earnings Per Share of the Company

The following table sets forth a reconciliation of the numerators and denominators in computing earnings per share for the years ended December 31, 2015, 2014 and 2013 (in thousands, except per share amounts):

	2015	2014	2013
Numerator			
Net income attributable to Tanger Factory Outlet Centers, Inc.	\$211,200	\$74,011	\$107,557
Less allocation of earnings to participating securities	(2,408)	(1,872)	(1,126)
Net income available to common shareholders of Tanger Factory Outlet Centers, Inc.	\$208,792	\$72,139	\$106,431
Denominator			
Basic weighted average common shares	94,698	93,769	93,311
Effect of notional units	—	—	849
Effect of outstanding options and certain restricted common shares	61	70	87
Diluted weighted average common shares	94,759	93,839	94,247
Basic earnings per common share:			
Net income	\$2.20	\$0.77	\$1.14
Diluted earnings per common share:			
Net income	\$2.20	\$0.77	\$1.13

The notional units are considered contingently issuable common shares and are included in earnings per share if the effect is dilutive using the treasury stock method. Notional units granted in 2010 were converted into 933,769 restricted common shares in January 2014. The restricted common shares vested on December 31, 2014 and were considered participating securities through the vesting date.

The computation of diluted earnings per share excludes options to purchase common shares when the exercise price is greater than the average market price of the common shares for the period. For the years ended December 31, 2015 and 2014, 227,400 options and 259,000 options were excluded from the computation, respectively. There were no options excluded from the computation for the year ended December 31, 2013. The assumed exchange of the partnership units held by the Non-Company LPs as of the beginning of the year, which would result in the elimination of earnings allocated to the noncontrolling interest in the Operating Partnership, would have no impact on earnings per share since the allocation of earnings to a common limited partnership unit, as if exchanged, is equivalent to earnings allocated to a common share.

Certain of the Company's unvested restricted common share awards contain non-forfeitable rights to dividends or dividend equivalents. The impact of these unvested restricted common share awards on earnings per share has been calculated using the two-class method whereby earnings are allocated to the unvested restricted common share awards based on dividends declared and the unvested restricted common shares' participation rights in undistributed earnings. Unvested restricted common shares that do not contain non-forfeitable rights to dividends or dividend equivalents are included in the diluted earnings per share computation if the effect is dilutive, using the treasury stock method.

16. Earnings Per Unit of the Operating Partnership

The following table sets forth a reconciliation of the numerators and denominators in computing earnings per unit for the years ended December 31, 2015, 2014 and 2013 (in thousands, except per unit amounts). Note that all per unit amounts reflect a four-for-one split of the Operating Partnership's units in August 2013:

	2015	2014	2013
Numerator			
Net income attributable to partners of the Operating Partnership	\$222,531	\$78,048	\$113,200
Allocation of earnings to participating securities	(2,413) (1,873) (1,129
Net income available to common unitholders of the Operating Partnership	\$220,118	\$76,175	\$112,071
Denominator			
Basic weighted average common units	99,777	98,883	98,193
Effect of notional units	—	—	849
Effect of outstanding options and certain restricted common units	61	70	87
Diluted weighted average common units	99,838	98,953	99,129
Basic earnings per common unit:			
Net income	\$2.21	\$0.77	\$1.14
Diluted earnings per common unit:			
Net income	\$2.20	\$0.77	\$1.13

The notional units are considered contingently issuable common units and are included in earnings per unit if the effect is dilutive using the treasury stock method. Notional units granted in 2010 were converted into 933,769 restricted common units in January 2014. The restricted common units vested on December 31, 2014 and were considered participating securities through the vesting date.

The computation of diluted earnings per unit excludes options to purchase common units when the exercise price is greater than the average market price of the common units for the period. The market price of a common unit is considered to be equivalent to the market price of a Company common share. For the years ended December 31, 2015 and 2014, 227,400 options and 259,000 options were excluded from the computation, respectively. There were no options excluded from the computation for the year ended December 31, 2013.

Certain of the Company's unvested restricted common share awards contain non-forfeitable rights to distributions or distribution equivalents. The impact of the corresponding unvested restricted unit awards on earnings per unit has been calculated using the two-class method whereby earnings are allocated to the unvested restricted unit awards based on distributions declared and the unvested restricted units' participation rights in undistributed earnings. Unvested restricted common units that do not contain non-forfeitable rights to dividends or dividend equivalents are included in the diluted earnings per unit computation if the effect is dilutive, using the treasury stock method.

17. Equity-Based Compensation

When a common share is issued by the Company, the Operating Partnership issues one corresponding unit of partnership interest to the Company's wholly owned subsidiaries. Therefore, when the Company grants an equity based award, the Operating Partnership treats each award as having been granted by the Operating Partnership. In the discussion below, the term "we" refers to the Company and the Operating Partnership together and the term "shares" is meant to also include corresponding units of the Operating Partnership.

We may issue up to 15.4 million common shares under the Plan. Through December 31, 2015, we had granted 7,560,260 options, net of options forfeited; 4,898,708 restricted common share awards, net of restricted common shares forfeited or withheld for employees' tax obligations; and notional units which may result in the issuance of a maximum of 636,300 common shares. Shares remaining available for future issuance totaled 2,304,732 common shares. The amount and terms of the awards granted under the Plan were determined by the Board of Directors (or the Compensation Committee of the Board of Directors).

We recorded share based compensation expense in general and administrative expenses in the consolidated statements of operations for the years ended December 31, 2015, 2014 and 2013, respectively, as follows (in thousands):

	2015	2014	2013
Restricted common shares	\$ 11,220	\$ 9,978	\$ 8,354
Notional unit performance awards	3,030	4,313	2,847
Options	462	459	175
Total share based compensation	\$ 14,712	\$ 14,750	\$ 11,376

Share-based compensation expense capitalized as a part of rental property and deferred lease costs during the years ended December 31, 2015, 2014 and 2013 was \$837,000, \$709,000 and \$367,000, respectively.

As of December 31, 2015, there was \$28.2 million of total unrecognized compensation cost related to unvested common equity-based compensation arrangements granted under the Plan. That cost is expected to be recognized over a weighted-average period of 2.8 years.

Restricted Common Share Awards

During 2015, 2014 and 2013, the Company granted 357,844, 373,960 and 349,373 restricted common shares, respectively, to the independent directors and the senior executive officers. The independent directors' restricted common shares vest ratably over a three year period and the senior executive officers' restricted common shares vest ratably over a five year period. For the restricted shares issued to our chief executive officer during 2015, 2014 and 2013, the restricted share agreement requires him to hold the shares for a minimum of three years following each applicable vesting date thereof. Compensation expense related to the amortization of the deferred compensation is being recognized in accordance with the vesting schedule of the restricted shares. For all of the restricted common share awards described above, the grant date fair value of the award was determined based upon the closing market price of the Company's common shares on the day prior to the grant date and the associated compensation expense is being recognized in accordance with the vesting schedule of each grant.

The following table summarizes information related to unvested restricted common shares outstanding as of December 31, 2015:

Unvested Restricted Common Shares	Number of shares	Weighted average grant date fair value
Outstanding at December 31, 2014	1,099,450	\$29.01
Granted	357,844	36.69
Vested	(371,299) 28.12
Forfeited	—	—
Outstanding at December 31, 2015	1,085,995	\$31.84

The total value of restricted common shares vested during the years ended 2015, 2014 and 2013 was \$13.1 million, \$46.6 million and \$10.9 million, respectively. During 2015 and 2014, we withheld shares with value equivalent to the employees' minimum statutory obligation for the applicable income and other employment taxes, and remitted the cash to the appropriate taxing authorities. The total number of shares withheld were 31,863 and 412,239 for 2015 and 2014, respectively, and were based on the value of the restricted common shares on the vesting date as determined by our closing share price on the day prior to the vesting date. No shares were withheld during 2013. Total amounts paid for the employees' tax obligation to taxing authorities were \$1.1 million and \$15.5 million for 2015 and 2014, respectively, which is reflected as a financing activity within the consolidated statements of cash flows.

Notional Unit Performance Awards

2015 Outperformance Plan

In February 2015 the Compensation Committee of the Company approved the general terms of the Tanger Factory Outlet Centers, Inc. 2015 Outperformance Plan (the "2015 OPP"). The 2015 OPP is a long-term performance based incentive compensation plan pursuant to which award recipients may earn up to an aggregate of 306,600 restricted common shares of the Company based on the Company's absolute share price appreciation (or total shareholder return) and its share price appreciation relative to its peer group over a three year measurement period. The measurement period for the 2015 OPP is January 1, 2015 through December 31, 2017.

Any shares earned at the end of the three year measurement period are subject to a time based vesting schedule, with 50% of the shares vesting in the January immediately following the measurement period, and the remaining 50% vesting in January one year thereafter, contingent upon continued employment with the Company through the vesting dates (unless terminated prior thereto (a) by the Company without cause, (b) by participant for good reason or (c) due to death or disability).

The maximum number of shares will be earned under this plan if the Company both (a) achieves 35% or higher share price appreciation, inclusive of all dividends paid, over the respective three-year measurement periods and (b) is in the 70th or greater percentile of its peer group for total shareholder return over the respective three-year measurement period. The maximum value of the awards that could be earned on December 31, 2017, if the Company achieves or exceeds the 35% share price appreciation and is in the 70th or greater percentile of its peer group for total shareholder return over the applicable three-year measurement period, will equal approximately \$14.5 million.

With respect to 60% of the performance shares, 33.33% of this portion of the award will be earned if the Company's aggregate share price appreciation, inclusive of all dividends paid during this period, equals 25% over the three-year measurement period, 66.67% of the award will be earned if the Company's aggregate share price appreciation, inclusive of all dividends paid during this period, equals 30%, and 100% of this portion of the award will be earned if the Company's aggregate share price appreciation, inclusive of all dividends paid during this period, equals 35% or

higher.

F-46

With respect to 40% of the performance shares, 33.33% of this portion of the award will be earned if the Company's share price appreciation inclusive of all dividends paid is in the 50th percentile of its peer group over the three-year measurement period, 66.67% of this portion of the award will be earned if the Company's share price appreciation inclusive of all dividends paid is in the 60th percentile of its peer group during this period, and 100% of this portion of the award will be earned if the Company's share price appreciation inclusive of all dividends paid is in the 70th percentile of its peer group or greater during this period. The peer group is based on companies included in the SNL Equity REIT index.

The performance shares for the 2015 OPP will convert on a pro-rata basis by linear interpolation between share price appreciation thresholds, both for absolute share price appreciation and for relative share price appreciation amongst the Company's peer group. The share price targets will be reduced on a penny-for-penny basis with respect to any dividend payments made during the measurement period. The compensation expense is amortized using the graded vesting attribution method over the requisite service period. The fair value of the awards are calculated using a Monte Carlo simulation pricing model.

2014 and 2013 Outperformance Plans

In February 2014 and 2013, the Compensation Committee of the Company approved the general terms of the Tanger Factory Outlet Centers, Inc. 2014 Outperformance Plan (the "2014 OPP") and the 2013 Outperformance Plan (the "2013 OPP"). The 2014 OPP and 2013 OPP are long-term performance based incentive compensation plans pursuant to which award recipients may earn up to an aggregate of 329,700 and 315,150 restricted common shares, respectively, of the Company based on the Company's absolute share price appreciation (or total shareholder return) and its share price appreciation relative to its peer group over a three year measurement period. The measurement period for the 2014 OPP is January 1, 2014 through December 31, 2016 and for the 2013 OPP is January 1, 2013 through December 31, 2015.

Any shares earned at the end of the three year measurement period are subject to a time based vesting schedule, with 50% of the shares vesting in the January immediately following the measurement period, and the remaining 50% vesting in January one year thereafter, contingent upon continued employment with the Company through the vesting dates (unless terminated prior thereto (a) by the Company without cause, (b) by participant for good reason or (c) due to death or disability).

The maximum number of shares will be earned under these plans if the Company both (a) achieves 35% or higher share price appreciation, inclusive of all dividends paid, over the respective three-year measurement periods and (b) is in the 70th or greater percentile of its peer group for total shareholder return over the respective three-year measurement periods. The maximum value of the awards that could be earned on December 31, 2015 and December 31, 2016, if the Company achieves or exceeds the 35% share price appreciation and is in the 70th or greater percentile of its peer group for total shareholder return over the applicable three-year measurement period, will equal approximately \$13.3 million and \$14.3 million, respectively.

With respect to 70% of the performance shares, 33.33% of this portion of the award will be earned if the Company's aggregate share price appreciation, inclusive of all dividends paid during this period, equals 25% over the three-year measurement period, 66.67% of the award will be earned if the Company's aggregate share price appreciation, inclusive of all dividends paid during this period, equals 30%, and 100% of this portion of the award will be earned if the Company's aggregate share price appreciation, inclusive of all dividends paid during this period, equals 35% or higher.

With respect to 30% of the performance shares, 33.33% of this portion of the award will be earned if the Company's share price appreciation inclusive of all dividends paid is in the 50th percentile of its peer group over the three-year

measurement period, 66.67% of this portion of the award will be earned if the Company's share price appreciation inclusive of all dividends paid is in the 60th percentile of its peer group during this period, and 100% of this portion of the award will be earned if the Company's share price appreciation inclusive of all dividends paid is in the 70th percentile of its peer group or greater during this period. The peer group is based on companies included in the SNL Equity REIT index.

F-47

The performance shares for the 2014 OPP and 2013 OPP will convert on a pro-rata basis by linear interpolation between share price appreciation thresholds, both for absolute share price appreciation and for relative share price appreciation amongst the Company's peer group. The share price targets will be reduced on a penny-for-penny basis with respect to any dividend payments made during the measurement period. The compensation expense is amortized using the graded vesting attribution method over the requisite service period. The fair value of the awards are calculated using a Monte Carlo simulation pricing model.

On December 31, 2015, the measurement period for the 2013 OPP expired and neither of the Company's absolute nor relative total shareholder returns were sufficient for employees to earn, and therefore become eligible to vest in, any restricted shares under the plan. Accordingly, all 2013 OPP performance awards were automatically forfeited.

2010 Multi Year Performance Plan

During the first quarter of 2010, the Company's Compensation Committee approved the general terms of the Tanger Factory Outlet Centers, Inc. 2010 Multi-Year Performance Plan, (the "2010 Multi Year Performance Plan"). Under the 2010 Multi-Year Performance Plan, we granted 392,000 notional units, net of notional units forfeited, to award recipients as a group, which would convert into restricted common shares on a one-for one basis, one-for two basis, or one-for-three basis depending upon the amount by which the Company's common shares appreciated above a minimum level over a four year performance period ending December 31, 2013, not to exceed a total value of approximately \$32.2 million. Based on the Company's performance over the four year measurement period, we issued 933,769 restricted common shares in January 2014 which vested on December 31, 2014 contingent on continued employment through the vesting date.

Option Awards

In February 2014, the Company granted 282,500 options to non-executive employees of the Company. The exercise price of the options granted during the first quarter of 2014 was \$32.02 which equaled the closing market price of the Company's common shares on the day prior to the grant date. The options expire 10 years from the date of grant and 20% of the options become exercisable in each of the first five years commencing one year from the date of grant. The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model with the following weighted-average assumptions: expected dividend yield 2.8%; expected life of 7 years; expected volatility of 32%; a risk-free rate of 2.46%; and forfeiture rates of 3.0% to 13.5% dependent upon the employee's position within the Company.

Options outstanding at December 31, 2015 had the following weighted average exercise prices and weighted average remaining contractual lives:

Exercise prices	Options Outstanding			Options Exercisable	
	Options	Weighted average exercise price	Weighted remaining contractual life in years	Options	Weighted average exercise price
\$26.06	91,000	\$26.06	5.16	62,500	\$26.06
32.02	227,400	32.02	8.01	42,200	32.02
	318,400	\$30.32	7.19	104,700	\$28.46

A summary of option activity under the Plan as of December 31, 2015 and changes during the year then ended is presented below (aggregate intrinsic value amount in thousands):

Options	Shares	Weighted-average exercise price	Weighted-average remaining contractual life in years	Aggregate intrinsic value
Outstanding as of December 31, 2014	370,500	\$ 30.20		
Granted	—	—		
Exercised	(28,400) 27.76		
Forfeited	(23,700) 31.58		
Outstanding as of December 31, 2015	318,400	\$ 30.32	7.19	\$924
Vested and Expected to Vest as of December 31, 2015	258,633	\$ 30.13	7.10	\$800
Exercisable as of December 31, 2015	104,700	\$ 28.46	6.31	\$498

The total intrinsic value of options exercised during the years ended December 31, 2015, 2014 and 2013 was \$200,000, \$724,000 and \$905,000, respectively.

18. Accumulated Other Comprehensive Income of the Company

The following table presents changes in the balances of each component of accumulated comprehensive income for the years ended December 31, 2015, 2014, and 2013 (in thousands):

	Tanger Factory Outlet Centers, Inc. Accumulated Other Comprehensive Income (Loss)			Noncontrolling Interest in Operating Partnership Accumulated Other Comprehensive (Income) Loss		
	Foreign Currency	Cash flow hedges	Total	Foreign Currency	Cash flow hedges	Total
Balance December 31, 2012	\$(5)	\$1,205	\$1,200	\$—	\$(93)	\$(93)
Amortization of cash flow hedges	—	(353)	(353)	—	(18)	(18)
Unrealized loss on foreign currency translation adjustments	(4,708)	—	(4,708)	(260)	—	(260)
Change in fair value of cash flow hedges	—	1,310	1,310	—	—	—
Realized loss on foreign currency	123	—	123	6	72	78
Balance December 31, 2013	(4,590)	2,162	(2,428)	(254)	(39)	(293)
Amortization of cash flow hedges	—	(852)	(852)	—	111	111

Realized loss on foreign currency	—	—	129	Interest expense

20. Supplementary Income Statement Information

The following amounts are included in property operating expenses in income from continuing operations for the years ended December 31, 2015, 2014 and 2013 (in thousands):

	2015	2014	2013
Advertising and promotion	\$29,144	\$25,431	\$24,035
Common area maintenance	68,886	65,980	57,693
Real estate taxes	26,168	25,644	21,976
Other operating expenses	22,305	20,367	17,342
	\$146,503	\$137,422	\$121,046

21. Lease Agreements

As of December 31, 2015, we were the lessor to over 2,400 stores in our 34 consolidated outlet centers, under operating leases with initial terms that expire from 2016 to 2032. Future minimum lease receipts under non-cancellable operating leases as of December 31, 2015, excluding the effect of straight-line rent and percentage rentals, are as follows (in thousands):

2016	\$264,249
2017	240,284
2018	208,880
2019	174,269
2020	152,380
Thereafter	453,760
	\$1,493,822

22. Commitments and Contingencies

Our non-cancelable operating leases, with initial terms in excess of one year, have terms that expire from 2016 to 2101. Annual rental payments for these leases totaled approximately \$6.4 million, \$6.0 million and \$5.8 million, for the years ended December 31, 2015, 2014 and 2013, respectively. Minimum lease payments for the next five years and thereafter are as follows (in thousands):

2016	\$5,982
2017	5,981
2018	5,667
2019	5,716
2020	5,720
Thereafter	294,851
	\$323,917

Commitments to complete construction of our ongoing capital projects and other capital expenditure requirements amounted to approximately \$56.0 million at December 31, 2015. Contractual commitments for ongoing capital projects and other capital expenditure requirements related to our unconsolidated joint ventures amounted to approximately \$48.9 million at December 31, 2015, of which our portion was approximately \$24.4 million. Contractual commitments represent only those costs subject to contracts which are legal binding agreements as of December 31, 2015 and do not necessary represent the total cost to complete the projects.

We are also subject to legal proceedings and claims which have arisen in the ordinary course of our business and have not been finally adjudicated. In our opinion, the ultimate resolution of these matters is not expected to have a material effect on our consolidated financial statements. We record a liability in our consolidated financial statements for these matters when a loss is known or considered probable and the amount can be reasonably estimated. We review these estimates each accounting period as additional information is known and adjust the loss provision when appropriate. If a matter is both probable to result in a liability and the amounts of loss can be reasonably estimated, we estimate and disclose the possible loss or range of loss to the extent necessary to make the consolidated financial statements not misleading. If the loss is not probable or cannot be reasonably estimated, a liability is not recorded in our consolidated financial statements.

23. Subsequent Events

Fort Myers Property Sale

In January 2016, we sold our outlet center in Fort Myers, Florida located near Sanibel Island for net proceeds of approximately \$25.8 million. We estimate the gain to be recognized in the first quarter of 2016 to be approximately \$4.9 million. The proceeds from the sale of this unencumbered asset were used to pay down balances outstanding under our unsecured lines of credit.

Deer Park Debt Repayment

In January 2016, we repaid our \$150.0 million floating rate mortgage loan, which had an original maturity date in August 2018, and our \$28.4 million deferred financing obligation, both of which are related to our 749,000 square foot outlet center in Deer Park outlet center. These transactions allowed us to unencumber the Deer Park asset while simultaneously deferring a significant portion of the gains related to the asset sales for tax purposes.

2016 Outperformance Plan

In February 2016, the Compensation Committee of Tanger Factory Outlet Centers, Inc. (the "Company") approved the terms of the Tanger Factory Outlet Centers, Inc. 2016 Outperformance Plan (the "2016 OPP"). The 2016 OPP provides for the grant of performance shares under the Incentive Award Plan of Tanger Factory Outlet Centers, Inc and Tanger Properties Limited Partnership (Amended and Restated as of April 4, 2014). Under the 2016 OPP, the Company granted an aggregate of 321,900 performance shares to award recipients, which may convert, subject to the achievement of the goals described below, into a maximum of 321,900 restricted common shares of the Company based on the Company's absolute share price appreciation and its share price appreciation relative to its peer group, over the three-year measurement period from February 10, 2016 through February 9, 2019.

The 2016 OPP is a long-term incentive compensation plan pursuant to which award recipients may earn up to an aggregate of 321,900 restricted common shares of the Company based on the Company's share price appreciation (or total shareholder return) over three years beginning on February 10, 2016. The maximum number of shares will be earned under this plan if the Company both (a) achieves 35% or higher share price appreciation, inclusive of all dividends paid, over the three-year measurement period and (b) is in the 70th or greater percentile of its peer group for total shareholder return over the three-year measurement period. The Company expects that the value of the awards, if the Company achieves a 35% share price appreciation and is in the 70th or greater percentile of its peer group for total shareholder return over the three-year measurement period, will equal approximately \$12.8 million.

Any shares earned on February 9, 2019 are also subject to a time based vesting schedule. 50% of the shares will vest on February 15, 2019 and the remaining 50% will vest on February 15, 2020, contingent upon continued employment with the Company through the vesting dates.

With respect to 50% of the performance shares (or 160,950 shares), 20% of this portion of the award (or 32,190 shares) will be earned if the Company's aggregate share price appreciation, inclusive of all dividends paid during this period, equals 18% over the three-year measurement period, 60% of this portion of the award (or 96,750 shares) will be earned if the Company's aggregate share price appreciation, inclusive of all dividends paid during this period equals 26.5%, and 100% of this portion of the award (or 160,950 shares) will be earned if the Company's aggregate share price appreciation, inclusive of all dividends paid during this period, equals 35% or higher.

With respect to the other 50% of the performance shares (or 160,950), 20% of this portion of the award (or 32,190 shares) will be earned if the Company's share price appreciation inclusive of all dividends paid is in the 40th percentile of its peer group over the three-year measurement period, 60% of this portion of the award (or 96,750 shares) will be earned if the Company's share price appreciation inclusive of all dividends paid is in the 55th percentile of its peer group during this period, and 100% of this portion of the award (or 160,950 shares) will be earned if the Company's share price appreciation inclusive of all dividends paid is in the 70th percentile of its peer group or greater during this period. The peer group is based on companies included in the SNL Equity REIT index.

F-53

The performance shares will convert on a pro-rata basis by linear interpolation between share price appreciation thresholds, both for absolute share price appreciation and for relative share price appreciation amongst the Company's peer group. The share price targets will be reduced on a dollar-for-dollar basis with respect to any dividend payments made during the measurement period.

24. Quarterly Financial Data of the Company (Unaudited)

The following table sets forth the Company's summarized quarterly financial information for the years ended December 31, 2015 and 2014 (unaudited and in thousands, except per common share data)⁽¹⁾. This information is not required for the Operating Partnership:

	Year Ended December 31, 2015 ⁽¹⁾			
	First Quarter	Second Quarter ⁽²⁾	Third Quarter ⁽³⁾	Fourth Quarter ⁽⁴⁾
Total revenues	\$105,926	\$107,736	\$112,906	\$112,801
Operating income	32,900	36,894	36,376	38,291
Net income	36,386	25,359	46,460	113,963
Income attributable to Tanger Factory Outlet Centers, Inc.	34,512	24,481	44,075	108,132
Income available to common shareholders of Tanger Factory Outlet Centers, Inc.	34,104	24,173	43,581	106,934
Basic earnings per common share:				
Net income	\$0.36	\$0.26	\$0.46	\$1.13
Diluted earnings per common share:				
Net income	\$0.36	\$0.26	\$0.46	\$1.13

(1) Quarterly amounts may not add to annual amounts due to the effect of rounding on a quarterly basis.

(2) In the first quarter of 2015, net income includes a gain of \$13.7 million, on the sale of our equity interest in the unconsolidated joint venture that owned the Wisconsin Dells outlet center.

(3) In the third quarter of 2015, net income includes a gain of \$20.2 million on the sale of our Kittery I and II, Tuscola, and West Branch outlet centers.

(4) In the fourth quarter of 2015, net income includes a gain of \$86.5 million on the sale of our Barstow outlet center.

	Year Ended December 31, 2014 ⁽¹⁾			
	First Quarter	Second Quarter	Third Quarter	Fourth Quarter ⁽²⁾
Total revenues	\$102,783	\$102,212	\$105,189	\$108,374
Operating income	28,368	32,625	35,283	35,587
Net income	15,440	19,895	24,297	18,520
Income attributable to Tanger Factory Outlet Centers, Inc.	14,616	18,850	23,003	17,542
Income available to common shareholders of Tanger Factory Outlet Centers, Inc.	14,187	18,369	22,522	17,061
Basic earnings per common share :				
Net income	\$0.15	\$0.20	\$0.24	\$0.18
Diluted earnings per common share:				
Net income	\$0.15	\$0.20	\$0.24	\$0.18

(1) Quarterly amounts may not add to annual amounts due to the effect of rounding on a quarterly basis.

For the fourth quarter, net income includes a \$7.5 million gain on the sale of our Lincoln City outlet center and a (2) \$13.1 million loss on early extinguishment of debt related to the early redemption of senior notes due November 2015.
