Glencairn Gold Corporation

Management's Discussion and Analysis

For the three and nine months ended September 30, 2006

The following discussion and analysis should be read in conjunction with the Company's unaudited interim consolidated financial statements and related notes thereto for the three and nine months ended September 30, 2006 and 2005, which have been prepared in United States dollars and in accordance with Canadian generally accepted accounting principles. The reader should also refer to the Annual Information Form, audited consolidated financial statements and Management's Discussion and Analysis for the years ended December 31, 2005 and 2004. All dollar amounts are US dollars unless otherwise indicated.

Overview

Glencairn Gold Corporation (Glencairn or the Company) is a gold producer with three operating mines in Central America. The Limon Mine in Nicaragua has been in continuous production since 1941. The Bellavista Mine entered into commercial production in December 2005, more than doubling the Company's gold output. In addition, this quarter saw the acquisition of our newest mine, Libertad, which complements our existing mine in Nicaragua and a 60% interest in Cerro Quema, an advanced gold exploration project in Panama. During the quarter the Company also acquired the Mestiza exploration property in Nicaragua. The Company is focusing on optimizing its current operating mines in terms of efficiencies, operating costs and production; turning the development projects into operating mines quickly and becoming a mid-tier gold producer. This objective will be accomplished by concentrating on its current operations and development projects. The Company will also diligently consider acquisitions of operating mines and advanced development projects.

Summary of 3rd Quarter Acquisitions

Edgar Filing: Glencairn Gold CORP - Form 6-K

Libertad / Cerro Quema Acquisition and Financing

On July 6, 2006, the Company acquired a 100% interest in the Libertad gold mine in Nicaragua and a 60% interest in Cerro Quema advanced gold project in Panama. Total consideration for the Libertad and Cerro Quema acquisitions was 32 million Glencairn common shares valued at \$20,777,000 (Cdn\$22,976,000).

Glencairn has and will continue to make significant investments at the Libertad Mine to improve operations and reduce operating costs. A major pre-stripping program to allow steady-state production rates and optimum stripping ratios has already been implemented. A program of metallurgical test work is under way to determine the effect on recoveries of upgrading the crushing circuit and/or adding a grinding circuit, and using permanent heap leach pads. These actions are expected to result in improved production performance in the future. Glencairn is also preparing a technical report in accordance with National Instrument 43-101 to provide an updated estimate of mineral resources for the property that will be filed shortly.

In conjunction with the acquisition, on July 6, 2006, the Company also made a private placement of 30 million subscription receipts at a price of Cdn\$0.60 per subscription receipt for gross proceeds of \$16.2 million (Cdn\$18 million). Each subscription receipt entitled the holder to acquire one common share and one-half common share purchase warrant, without payment of additional consideration. These subscription receipts were converted to shares on closing of the acquisition. Each whole common share purchase warrant entitles the holder to purchase one common share at a price of Cdn\$0.80 until the earlier of:

2

-
- (i) July 6, 2008; or
 - (ii) At the option of Glencairn, a date that is 30 days following provision of notice to warrant holders from the Company that the closing price of its common shares on the Toronto Stock Exchange has been at least Cdn\$1.20 for 30 consecutive trading days.

Yamana Gold Inc., the seller of Libertad and Cerro Quema, also participated in the private placement. At completion of the acquisition, Yamana beneficially owned 42,022,500 common shares of Glencairn, representing 17.9% of the issued and outstanding shares of Glencairn, and warrants to acquire an additional 2,100,000 common shares. Yamana has the right to participate in future Glencairn equity financings to maintain its pro rata interest in Glencairn and has the right to appoint a representative to the Glencairn Board of Directors so long as it maintains a greater than 10% interest in the Company.

Mestiza Acquisition

On September 6, 2006, Glencairn acquired an option to purchase 100% of the Mestiza property in Nicaragua. The property represents a key block of ground covering approximately half the strike length of a 2.4 kilometre-long, gold-bearing structure known as the Tatiana Vein. The remainder of the Tatiana Vein is on the La India property already held by Glencairn. Along half its strike length, including the Mestiza portion, the Tatiana Vein hosts an inferred resource of 689,700 tonnes grading 10.3 grams per tonne gold containing 228,000 ounces of gold. The deposit

SIGNATURE

4

Edgar Filing: Glencairn Gold CORP - Form 6-K

is open in both directions and at depth. Michael Gareau, Glencairn Vice President, Exploration, and a Qualified Person within the meaning of National Instrument 43-101 has reviewed and approved these statements.

The agreement with the Mestiza property owners requires Glencairn to pay them approximately \$2.1 million in instalments. Upon payment of the final instalment on March 6, 2009, the Company will have full rights to exploit the property. If the Company chooses not to pay any of the remaining instalments, the property will revert back to the original owners.

The Company will begin a drilling program in 2007 to upgrade the resource to reserves. This will be followed by an internal feasibility study on the viability of mining and truck haulage to the Limon mill. The Santa Pancha and Talavera zones at the Limon Mine property will continue as the prime source of mill feed. The mill at the Limon mine has sufficient capacity to process the additional ore that is expected to be produced from the Mestiza property.

	4,535	4,522	13	0%
Earnings (loss) from mining operations	\$ 811	\$ (285)	\$ 1,096	385%

*Not including 339 ounces sold from the pre-production stage of the Santa Pancha underground mine.

Sales from the Limon mine increased \$1,109,000 or 26% in the third quarter of 2006 compared to 2005, although the actual quantity of gold sold decreased by 1,030 ounces or 11% from the same period in the prior year. The increase in sales was attributable to the 41% increase in average realized gold price. Lower production resulted from the lower ore grades and lower recoveries encountered in 2006 compared to 2005. The Company sold 339 ounces of gold from the Santa Pancha deposit in addition to the sales ounces reported in the table above. The revenue was applied against capitalized development costs as this deposit is still considered in the pre-production stage. Full production from this mine site is not expected until 2007.

Edgar Filing: Glencairn Gold CORP - Form 6-K

Cost of sales decreased by \$96,000 or 2% in the third quarter of 2006 compared to 2005. Production volume was 11% lower in 2006 but was offset by higher operating costs. Electricity rates in particular increased significantly mid-quarter due to changes in government regulations.

Royalties and production taxes increased \$77,000 or 28% due to the increase in the average realized gold price by \$183 per ounce or 41%. Depreciation and depletion increased by \$46,000 or 16% due to the increase in depletion rate per unit caused by the decline in reserves in 2006 and higher capital expenditures.

Nine Months

	Nine months ended September 30			%
	2006	2005	Change	Change
Gold sold (ounces)*	25,851	31,490	(5,639)	(18%)
Average realized gold price (\$/ounce)	602	432	170	39%
Cash operating costs (\$/ounce)	426	347	79	23%
Total cash costs (\$/ounce)	463	373	90	24%

Accretion	48	89	(41)	(46%)
	12,976	12,784	192	2%
Earnings from mining operations	\$ 2,575	\$ 833	\$ 1,742	209%

*This balance excludes 339 ounces sold from the pre-production stage of the Santa Pancha underground mine.

Ounces of gold sold from the Limon mine for the first three quarters of 2006 decreased 5,639 ounces or 18% over the same period in the prior year. The first quarter of 2006 saw intermittent illegal road blockades which disrupted production at the mine. The mine was able to resume normal operations by the second quarter of 2006. Ore grades mined in 2006 were also 9% lower as mining approaches the end of the Talavera deposit. Gold sales increased by \$1,934,000 or 14% despite the lower volume. This was due to the higher average realized gold price of \$602 per ounce, compared to \$432 per ounce in the previous fiscal year.

Edgar Filing: Glencairn Gold CORP - Form 6-K

Cost of sales increased \$90,000 or 1%. Higher production costs were encountered with respect to haulage costs, electricity, and fuel. Cash operating costs per ounce increased significantly due to the lower volume of gold sold and the relatively fixed cost base.

Royalties and production taxes increased by \$144,000, or 18% as a result of the higher realized prices.

Bellavista Mine

Three Months

Three months ended September 30

	2006	2005	Change
Gold sold (ounces)	8,400	* -	8,400
Average realized gold price (\$/ounce)	613	-	613
Cash operating costs (\$/ounce)	363	-	363
Total cash costs (\$/ounce)	376	-	376
Tonnes mined	404,630	-	404,630
Ore grade (g/tonne)	1.41	-	1.41

	4,257	6	4,251
Earnings (loss) from mining operations	\$ 892	\$ (6)	\$ 898

*This balance excludes 4,100 ounces sold from the pre-production stage of the mine.

Commercial production at the Bellavista Mine commenced in December 2005. Accordingly, no comparative information exists for the three month period ended September 30, 2005.

The Bellavista Mine sold 8,400 ounces of gold during the third quarter. A grinding mill to maximize ore recoveries is currently near completion but is behind its original schedule. The construction delay has delayed processing of higher grade ore that was planned for the third quarter. Processing of this higher grade ore, some of which has already been mined and stockpiled, will begin in the fourth quarter when the mill becomes operational. The finer size product from grinding of the high grade ore is expected to improve recoveries and ounces produced.

Edgar Filing: Glencairn Gold CORP - Form 6-K

During this quarter, Glencairn reviewed and revised estimates of the recoverable ounces from the heap leach pads. The estimated recoverable gold ounces on the heap leach pads have been reduced by 4,642 ounces, as at September 30, 2006 and have been accounted for on a prospective basis. Recoveries are expected to improve once the grinding mill is operational in the fourth quarter.

6

Nine Months

Nine months ended September 30

	2006	2005	Change
Gold sold (ounces)	32,000	* -	32,000
Average realized gold price (\$/ounce)	590	-	590

Accretion	29	15	14
	13,896	15	13,881
Earnings (loss) from mining operations	\$ 5,000	\$ (15)	\$ 5,015

*This balance excludes 4,225 ounces sold from the pre-production stage of the mine.

Commercial production at the Bellavista Mine commenced in December 2005; accordingly, no comparative information exists for the nine month period ended September 30, 2005.

Gold ounces produced and sold during the first three quarters of 2006 were lower than expectations. In the first two quarters of the fiscal year, Bellavista experienced a mechanical problem in the secondary crusher. There were also higher than expected costs for fuel and supplies. These cost overruns were exacerbated by the relatively fixed nature of the expenditures spread over a lower number of ounces.

SIGNATURE

9

Edgar Filing: Glencairn Gold CORP - Form 6-K

Management had expected that the grinding mill would be completed and be fully operational in the third quarter. The mill is now expected to be fully operational by the end of 2006. The mill was expected to result in ore being more finely ground thereby increasing recoveries. As the mill was not complete in the third quarter, the decision was made to defer the processing of high grade ore until such time as the mill is fully operational.

7

Libertad Mine

	Three months ended September 30 2006

Accretion	17
	6,147
Loss from mining operations	\$ (2,567)

Glencairn acquired the Libertad mine in the third quarter of 2006. The Libertad mine previously suffered significant under-capitalization which resulted in insufficient stripping of the pit walls. Glencairn made necessary investments to maintain production levels by accelerating stripping. The stripping costs and expenditures have been included in operating costs and not capitalized. Stripping costs represents approximately \$301 per ounce of the total cash costs of \$914 per ounce. These amounts are expected to decline next quarter as a more normal stripping ratio will occur.

Other Income and Expenses

Three months ended September 30, 2006

SIGNATURE

10

Edgar Filing: Glencairn Gold CORP - Form 6-K

General and administrative expenses increased by \$294,000 or 36% over the same period in the previous year. An increase of \$107,000 can be largely attributed to additional head-office staff which resulted in increased salary expense. An additional \$134,000 increase was incurred for audit, recruitment and travel.

As part of Glencairn's compensation program, stock options are granted to employees and directors from time to time. During the third quarter, a total of 5,525,000 stock options were granted resulting in an expense of \$803,000 using the Black-Scholes option pricing model.

Exploration expense was \$137,000 in the third quarter of 2006, or 41% less than the previous year. In 2005, exploration activity was focused heavily on the Limon site in Nicaragua. Since the fourth quarter of 2005, exploration activity has been minimal. In 2006, the third quarter saw the close of Libertad, Cerro Quema, and Mestiza acquisitions. During the quarter, minor expenditures were made at these new sites,

8

however, management is fully assessing these properties before developing a comprehensive exploration program.

Other expense totalled \$243,000 representing a decrease over prior year's income of \$405,000. The current year balance consists largely of interest and fees on the long-term debt. In 2005, interest and gains on the sales of marketable securities and property, plant, and equipment at the Keystone Mine totalled \$1,076,000. This income was offset by a foreign exchange loss of \$132,000, interest and finance fees of \$262,000 and a write down of accounts and note receivable of \$277,000.

Nine months ended September 30, 2006

General and administrative expenses increased \$562,000 or 21% mainly as a result of additional staffing and a general increase in salaries from the prior year.

Stock option expense increased by \$680,000 or 202% due to the granting of options during the second and third quarters of the year.

Exploration expense decreased by \$893,000 or 79%. Due to the labour disruption at the Limon operations in late 2005, all Nicaraguan exploration activities were suspended. The first quarter of 2006 saw only land holding costs incurred. During the third quarter exploration activities increased slightly but not at the levels experienced in 2005. Third quarter exploration activities and holding costs have been focused on the newly acquired Libertad and Cerro Quema properties.

Edgar Filing: Glencairn Gold CORP - Form 6-K

Other income decreased by \$645,000 or 78%. Gains in 2005 were significant due to one-time gains realized from the sale of marketable securities, the Vogel Property and mill, and certain mineral properties at the Keystone Mine. In 2006, the Company recognized a gain from the sale of equipment in the amount of \$814,000. As well, there were cost recoveries from providing management services to Blue Pearl Mining Ltd., in the amount of \$163,000. These amounts were partially negated by interest and finance fees relating to a long-term debt.

Cash Flows

Three months ended September 30, 2006

Operating activities used \$2,978,000 in 2006, compared to \$3,052,000 in 2005. Cash usage in the period was heavily skewed towards activities at the Libertad Mine. These expenditures were necessary for the mine to achieve optimal operational efficiencies in the future. As a result, cash was spent on contractors, mainly for stripping activities.

Financing activities generated \$14,431,000 of cash in 2006, compared to \$1,994,000 in 2005. In 2006, the inflows resulted from the private placement of 30 million subscription receipts for gross proceeds of \$16,191,000 less transaction fees.

Investing activities utilized cash of \$2,209,000. Of this balance, \$283,000 was attributable to payments for the Mestiza property. The remaining balance consists mainly of capitalized expenditures for Bellavista's grinding mill.

9

Nine months ended September 30, 2006

Operating activities generated cash of \$1,107,000 in 2006, compared to a cash outflow of 2,389,000 in 2005. The commencement of the Bellavista Mine in Costa Rica contributed to the Company's positive operating cash flows. Gold sales increased 32,180 ounces or 102% from the same period in the previous fiscal year. Cash flows were further enhanced by the increase of average realized gold price, by \$165 or 38% over the same period in the previous fiscal period. These positive impacts were reduced by the operating cash outflows related to expenditures at La Libertad during the third quarter. Heavy stripping activity was required in order to access future ore bodies. Other major expenditures during the quarter included cement, general maintenance, and power.

Financing activities in 2006 generated cash of \$13,658,000. This consisted of gross proceeds of \$16,191,000 less various transaction fees from the issuance of 30 million subscription receipts from a private placement. Loan repayments of \$2,500,000 were made during the first three quarters.

SIGNATURE

12

Investing activities used \$5,911,000 in 2006, compared to \$15,450,000 in the same period in the previous fiscal year. In 2006, purchases and deferred costs relating to property, plant, and equipment were made in amounts totalling \$1,390,000 and \$5,411,000 for the Limon Mine and Bellavista Mine, respectively. Bellavista Mine costs are mostly grinding mill construction costs. The Mestiza acquisition resulted in cash payments of \$283,000. There were also expenditures of \$125,000 at Libertad. In 2005, investing activities consisted of the purchase of property, plant, and equipment of \$18,235,000 (Bellavista Mine - \$15,687,000, Limon Mine - \$2,527,000 and Corporate - \$21,000) and the increase in restricted cash of \$100,000 was offset by the proceeds from the sale of assets of \$2,885,000.

Liquidity and Capital Resources

The Company had cash of \$15,653,000 and working capital of \$19,207,000 at September 30, 2006. Management believes that these amounts along with expected cash flows from operating activities are adequate to meet the Company's requirements for the remainder of the year.

The Company is in the process of evaluating the economics of the Cerro Quema Project to reflect current costs and gold prices.

With the acquisition of the Mestiza interest this brings the potential for treating its resources at the nearby Limon mill thereby increasing output and improving the economics of the Limon operation.

The Company estimates that gold sales in the fourth quarter of 2006 will be approximately 25,000 ounces at cash operating costs and total cash costs of \$485 and \$515 respectively. Improvements to both volumes and costs are expected next year with the start of the new Bellavista mill, ore production from the Santa Pancha deposit at the Limon Mine, and improvements at the Libertad Mine.

Recently Released Accounting Standards

In January 2005, the CICA issued Handbook Sections 3855 (Financial Instruments Recognition and Measurement), 1530 (Comprehensive Income) and 3865 (Hedges). The new standards apply to fiscal years commencing on or after October 1, 2006. Management is currently assessing the impact these standards will have on the Company's financial reporting.

Non-GAAP Performance Measures

The Company has included the non-GAAP performance measures detailed below in this document. These non-GAAP performance measures do not have any standardized meaning prescribed by GAAP and, therefore, may not be comparable to similar measures presented by other companies. The Company believes that, in addition to conventional measures prepared in accordance with GAAP, certain investors use this information to evaluate the Company's performance. Accordingly, they are intended to provide additional information and should not be considered in isolation or as a substitute for measures of performance prepared with GAAP. The definitions for these performance measures and reconciliation of the non-GAAP measures to reported GAAP measures are as follows:

FORWARD-LOOKING STATEMENTS: This Management's Discussion contains certain "forward-looking statements" within the meaning of Section 21E of the United States Securities Exchange Act of 1934, as amended and applicable Canadian securities legislation. Except for statements of historical fact relating to the company, certain information contained herein constitutes forward-looking statements.

Forward-looking statements are frequently characterized by words such as plan, expect, project, intend, believe, anticipate, estimate and similar words, or statements that certain events or conditions may or will occur. Forward-looking statements are based on the opinions and estimates of management at the date the statements are made, and are subject to a variety of risks and uncertainties and other factors that could cause actual events or results to differ materially from those projected in the forward-looking statements. These factors include the inherent risks involved in the exploration and development of mineral properties, the uncertainties involved in interpreting drilling results and other ecological data, fluctuating metal prices, the possibility of project cost overruns or unanticipated costs and expenses, uncertainties relating to the availability and costs of financing needed in the future and other factors. The Company undertakes no obligation to update forward-looking statements if circumstances or management's estimates or opinions should change. The reader is cautioned not to place undue reliance on forward-looking statements.

Additional information on the Company, including its annual information form is available on SEDAR at www.sedar.com.

The accompanying notes form an integral part of these unaudited consolidated financial statements.

Glencairn Gold Corporation

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2006 and 2005

(unaudited)

(US Dollars unless otherwise noted)

1. NATURE OF OPERATIONS AND BASIS OF PRESENTATION

Glencairn Gold Corporation's (the Company or Glencairn) business is gold mining including exploration, development, extraction, processing and reclamation. The Company's business also includes acquisition of gold properties in operation or in the development stage. The Company owns the Limon Mine in Nicaragua, the Bellavista Mine in Costa Rica, and the recently acquired Libertad Mine in Nicaragua. The Bellavista Mine achieved commercial production in December 2005. During third quarter 2006, the Company acquired the Mestiza exploration property in Nicaragua and, in a separate transaction, a 60% interest in the Cerro Quema exploration project in Panama. The Company is in the process of reclaiming the Keystone Mine, a depleted property in Canada.

The unaudited interim consolidated financial statements of the Company, which are expressed in U.S. dollars, have been prepared in accordance with Canadian generally accepted accounting principles for interim financial information and they follow the same accounting policies and methods of application as the audited consolidated financial statements for the year ended December 31, 2005. These unaudited interim consolidated financial statements do not include all the information and note disclosures required by generally accepted accounting principles for annual financial statements and therefore should be read in conjunction with the most recent annual consolidated financial statements and notes thereto. In the opinion of management, all adjustments considered necessary for fair and consistent presentation of interim financial statements have been included.

2. ACQUISITION OF CENTRAL AMERICAN MINE HOLDINGS AND RNC (PANAMA) LIMITED

On July 6, 2006 the Company acquired 100% of the common shares of Central American Mine Holdings Limited (CAMHL) and 60% of the common shares of RNC (Panama) Limited (RNC Panama) from Yamana Gold Inc. CAMHL indirectly owns 100% of the Libertad operating mine; RNC Panama indirectly owns 60% of the development property Cerro Quema. Consideration for the acquisition was 32,000,000 common shares of Glencairn valued at \$20,777,000.

Edgar Filing: Glencairn Gold CORP - Form 6-K

In accordance with the purchase method of accounting, the purchase price will be allocated to the underlying assets acquired and liabilities assumed based upon their estimated fair values at the date of acquisition. The Company intends to determine the final estimated fair values based on independent appraisals, discounted cash flows, quoted market prices and management estimates.

	Central American Mine Holdings	RNC Panama	Total
(in thousands)			
Number of common shares issued	26,000	6,000	32,000
Value of shares issued at \$0.72 CAN per share			
Transaction costs	\$ 16,792	\$ 3,875	\$ 20,667
	92	18	110
	\$ 16,884	\$ 3,893	\$ 20,777

(a) Limon Mine, Nicaragua

Included in cost, is \$2,012,000 of development expenditures on the Santa Pancha mine, which will not be depreciated until the commencement of gold production from that area, which is expected to be in the first quarter of 2007.

(b) Bellavista Mine, Costa Rica

In February 2006, the Company sold surplus land near the Bellavista Mine for \$900,000. The gain on the sale, net of selling expenses, was \$855,000 and has been recorded as other income.

The Company was responsible for a final purchase payment of Cdn\$1,000,000 (US\$896,000) to a former owner of the Bellavista Mine. This amount has been paid in 2006 and included in the cost of property, plant and equipment.

Glencairn Gold Corporation

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2006 and 2005

(unaudited)

(US Dollars unless otherwise noted)

Included in cost, is \$1,570,000 of expenditures related to the installation of the mill facility, which will not be depreciated until the mill has been commissioned, which is now expected to be in the fourth quarter of 2006.

(c) Libertad Mine, Nicaragua

On July 6, 2006, the Company acquired La Libertad Mine, an active mining property (see Note 2).

(d) Cerro Quema Project, Panama

On July 6, 2006, the Company acquired the Cerro Quema Project which is a development property (see Note 2).

(e) Mestiza Project, Nicaragua

On September 6, 2006, Glencairn made an initial payment of \$230,000 in connection with the acquisition of 100% of the development and exploration rights of the Mestiza property in Nicaragua. The Company has the option to complete the acquisition by making further cash instalments totalling \$1,903,000. If management chooses at any time to not make any further instalments, the property rights revert to the vendors.

29

Edgar Filing: Glencairn Gold CORP - Form 6-K

A summary of the transactions in the warrant account in 2006 is as follows:

(in thousands)	Number of	
	Warrants	Amount
At December 31, 2005	41,757	\$ 5,972
Prospectus financing (a)	15,000	2,293
Exercise of warrants	(1,024)	(17)
Exercise of agent's options	395	14
At September 30, 2006	56,128	\$ 8,262

- (a) The fair value of the warrants issued on July 6, 2006, was estimated using the Black-Scholes model with the following weighted-average assumptions:

Expected life in years:	1.2
Risk free interest rate:	4.42%
Expected volatility:	59%
Dividend yield:	0%

The following table summarizes further information about the warrants outstanding as at September 30, 2006:

Exercise Price (Cdn\$)	Number		Expiry Date
	Outstanding at September 30, 2006 (in thousands)		
\$0.55	7,271		December 22, 2006

ii) Agent's Options

A summary of the transactions in the agent's options account in 2006 is as follows:

(in thousands)	Number of Agent's Options	Amount
At December 31, 2005	1,580	\$ 163
Issue of agent's options (a)	1,800	592
Exercise of agent's options for common shares and warrants	(790)	(82)
At September 30, 2006	2,590	\$ 673

- (a) On July 6, 2006, as part of a prospectus financing, the Agents were granted an option to acquire 1,800,000 units exercisable at Cdn\$0.64 per unit expiring July 6, 2007. Each unit consists of one common share and one-half of a share purchase warrant with each full warrant entitling the holder to acquire a further common share priced at Cdn\$0.80 expiring July 6, 2008.

The fair value of the option to acquire common shares was estimated on the closing date using the Black-Scholes pricing model with the following weighted-average assumptions:

Expected life in years:	1.2
Risk free interest rate:	4.42%
Expected volatility:	59%
Dividend yield:	0%

iii) Contributed surplus

A summary of the transactions in the contributed surplus account in 2006 is as follows:

(in thousands)	Amount
At December 31, 2005	\$ 5,306
Settlement of notes receivable (a)	99
Grant of employee stock options	1,017

Edgar Filing: Glencairn Gold CORP - Form 6-K

Exercise of stock options	(112)
At September 30, 2006	\$ 6,310

- (a) On September 6, 2006, the Company settled an outstanding loan from a former director through the repossession of 333,333 common shares of the Company. The note receivable had been previously written down to its net realizable value of \$123,000, which was the market value of the pledged common shares. Due to the appreciation of the share price, a credit of \$99,000 was recognized in contributed surplus on settlement of the note receivable and cancellation of the common shares.

iv) Common shares

Authorized capital stock of Glencairn is an unlimited number of common shares.

A summary of the transactions in the common share account in 2006 is presented below:

(in thousands)	Number of	
	Common Shares	Amount
At December 31, 2005	171,207	\$ 57,132
Shares issued for assets acquired (note 2)	32,000	20,667
Prospectus financing (a)	30,000	13,898
Stock options exercised	1,115	559
Warrants exercised	1,024	520
Agent's options exercised	790	329
Less: shares cancelled	(333)	(229)
Less: share issue costs	-	(1,834)
At September 30, 2006	235,803	\$ 91,042

Edgar Filing: Glencairn Gold CORP - Form 6-K

- (a) On July 6, 2006, the Company closed a prospectus financing of 30,000,000 units at a price of Cdn\$0.60 per unit for aggregate gross proceeds of Cdn\$18,000,000 (US\$16,191,000). Each unit consisted of one common share and one-half of one common share purchase warrant. Each whole common share purchase warrant entitles the holder to purchase one common share at a price of \$0.80 until July 6, 2008. The Company allocated Cdn\$0.515 to each common share and Cdn\$0.085 to each half of one warrant.

A summary of the stock option transactions in 2006 is presented below:

	Number of Options (in thousands)	Weighted- Average Exercise Price (Cdn\$)
At December 31, 2005	12,746	\$ 0.68
Cancelled / expired	(1,114)	0.92
Exercised	(1,115)	0.45

\$1.17 to \$1.77	83	0.7	1.52
\$0.23 to \$1.77	13,892	2.8	0.68

As at September 30, 2006, there are also 3,000,000 non-vested stock options with an exercise price of \$0.68, expiring in 4.8 years.

11. STOCK - BASED COMPENSATION

The Company uses the fair value method of accounting and recognized stock option expense of \$803,000 for the three months ended September 30, 2006 (2005 - \$8,000) and \$1,017,000 for the nine month period (2005 - \$337,000) for its stock-based compensation plan.

The fair value of each option grant was estimated on the date of grant using the Black-Scholes pricing model with the following weighted-average assumptions:

Grant on April 21, 2006:

Expected life in years:	3
Risk free interest rate:	4.07%
Expected volatility:	58%
Dividend yield:	0%

Grant on July 21, 2006:

Expected life in years:	3
Risk free interest rate:	4.25%
Expected volatility:	61%
Dividend yield:	0%

Glencairn Gold Corporation

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2006 and 2005

(unaudited)

(US Dollars unless otherwise noted)

Operating activities included the following cash payments:

13. RELATED PARTY TRANSACTIONS

General and administrative expense at September 30, 2006 includes a recovery of \$163,000 (2005- \$164,000) from Blue Pearl Mining Ltd. (Blue Pearl) for administrative services. Three of the directors of Blue Pearl are also directors of the Company. Accounts receivable at September 30, 2006 includes \$nil (December 31, 2005 - \$9,000) related to these amounts.

14. SEGMENT INFORMATION

The Company is organized into four operating segments: Limon Mine (Nicaragua), Bellavista Mine (Costa Rica), Libertad (Nicaragua) and Other . The Other segment includes: Cerro Quema development project, Mestiza development project, Keystone Mine (ceased operations in April 2000), Vogel Property (sold during 2005), and corporate operations. The Company evaluates performance based on net earnings or loss. The Company's segments are summarized in the table below.

Glencairn Gold Corporation

Management's Discussion and Analysis

For the three and nine months ended September 30, 2006

The following discussion and analysis should be read in conjunction with the Company's unaudited interim consolidated financial statements and related notes thereto for the three and nine months ended September 30, 2006 and 2005, which have been prepared in United States dollars and in accordance with Canadian generally accepted accounting principles. The reader should also refer to the Annual Information Form, audited consolidated financial statements and Management's Discussion and Analysis for the years ended December 31, 2005 and 2004. All dollar amounts are US dollars unless otherwise indicated.

Overview

SIGNATURE

Edgar Filing: Glencairn Gold CORP - Form 6-K

Glencairn Gold Corporation (Glencairn or the Company) is a gold producer with three operating mines in Central America. The Limon Mine in Nicaragua has been in continuous production since 1941. The Bellavista Mine entered into commercial production in December 2005, more than doubling the Company's gold output. In addition, this quarter saw the acquisition of our newest mine, Libertad, which complements our existing mine in Nicaragua and a 60% interest in Cerro Quema, an advanced gold exploration project in Panama. During the quarter the Company also acquired the Mestiza exploration property in Nicaragua. The Company is focusing on optimizing its current operating mines in terms of efficiencies, operating costs and production; turning the development projects into operating mines quickly and becoming a mid-tier gold producer. This objective will be accomplished by concentrating on its current operations and development projects. The Company will also diligently consider acquisitions of operating mines and advanced development projects.

Summary of 3rd Quarter Acquisitions

Libertad / Cerro Quema Acquisition and Financing

On July 6, 2006, the Company acquired a 100% interest in the Libertad gold mine in Nicaragua and a 60% interest in Cerro Quema advanced gold project in Panama. Total consideration for the Libertad and Cerro Quema acquisitions was 32 million Glencairn common shares valued at \$20,777,000 (Cdn\$22,976,000).

Glencairn has and will continue to make significant investments at the Libertad Mine to improve operations and reduce operating costs. A major pre-stripping program to allow steady-state production rates and optimum stripping ratios has already been implemented. A program of metallurgical test work is under way to determine the effect on recoveries of upgrading the crushing circuit and/or adding a grinding circuit, and using permanent heap leach pads. These actions are expected to result in improved production performance in the future. Glencairn is also preparing a technical report in accordance with National Instrument 43-101 to provide an updated estimate of mineral resources for the property that will be filed shortly.

In conjunction with the acquisition, on July 6, 2006, the Company also made a private placement of 30 million subscription receipts at a price of Cdn\$0.60 per subscription receipt for gross proceeds of \$16.2 million (Cdn\$18 million). Each subscription receipt entitled the holder to acquire one common share and one-half common share purchase warrant, without payment of additional consideration. These subscription receipts were converted to shares on closing of the acquisition. Each whole common share purchase warrant entitles the holder to purchase one common share at a price of Cdn\$0.80 until the earlier of:

-
- (i) July 6, 2008; or
 - (ii) At the option of Glencairn, a date that is 30 days following provision of notice to warrant holders from the Company that the closing price of its common shares on the Toronto Stock Exchange has been at least Cdn\$1.20 for 30 consecutive trading days.

Yamana Gold Inc., the seller of Libertad and Cerro Quema, also participated in the private placement. At completion of the acquisition, Yamana beneficially owned 42,022,500 common shares of Glencairn, representing 17.9% of the issued and outstanding shares of Glencairn, and warrants to acquire an additional 2,100,000 common shares. Yamana has the right to participate in future Glencairn equity financings to maintain its pro rata interest in Glencairn and has the right to appoint a representative to the Glencairn Board of Directors so long as it maintains a greater than 10% interest in the Company.

Mestiza Acquisition

SIGNATURE

Edgar Filing: Glencairn Gold CORP - Form 6-K

On September 6, 2006, Glencairn acquired an option to purchase 100% of the Mestiza property in Nicaragua. The property represents a key block of ground covering approximately half the strike length of a 2.4 kilometre-long, gold-bearing structure known as the Tatiana Vein. The remainder of the Tatiana Vein is on the La India property already held by Glencairn. Along half its strike length, including the Mestiza portion, the Tatiana Vein hosts an inferred resource of 689,700 tonnes grading 10.3 grams per tonne gold containing 228,000 ounces of gold. The deposit is open in both directions and at depth. Michael Gareau, Glencairn Vice President, Exploration, and a Qualified Person within the meaning of National Instrument 43-101 has reviewed and approved these statements.

The agreement with the Mestiza property owners requires Glencairn to pay them approximately \$2.1 million in instalments. Upon payment of the final instalment on March 6, 2009, the Company will have full rights to exploit the property. If the Company chooses not to pay any of the remaining instalments, the property will revert back to the original owners.

The Company will begin a drilling program in 2007 to upgrade the resource to reserves. This will be followed by an internal feasibility study on the viability of mining and truck haulage to the Limon mill. The Santa Pancho and Talavera zones at the Limon Mine property will continue as the prime source of mill feed. The mill at the Limon mine has sufficient capacity to process the additional ore that is expected to be produced from the Mestiza property.

	4,535	4,522	13	0%
Earnings (loss) from mining operations	\$ 811	\$ (285)	\$ 1,096	385%

Sales from the Limon mine increased \$1,109,000 or 26% in the third quarter of 2006 compared to 2005, although the actual quantity of gold sold decreased by 1,030 ounces or 11% from the same period in the prior year. The increase in sales was attributable to the 41% increase in average realized gold price. Lower production resulted from the lower ore grades and lower recoveries encountered in 2006 compared to 2005. The Company sold 339 ounces of gold from the Santa Pancha deposit in addition to the sales ounces reported in the table above. The revenue was applied against capitalized development costs as this deposit is still considered in the pre-production stage. Full production from this mine site is not expected until 2007.

Cost of sales decreased by \$96,000 or 2% in the third quarter of 2006 compared to 2005. Production volume was 11% lower in 2006 but was offset by higher operating costs. Electricity rates in particular increased significantly mid-quarter due to changes in government regulations.

Edgar Filing: Glencairn Gold CORP - Form 6-K

Royalties and production taxes increased \$77,000 or 28% due to the increase in the average realized gold price by \$183 per ounce or 41%. Depreciation and depletion increased by \$46,000 or 16% due to the increase in depletion rate per unit caused by the decline in reserves in 2006 and higher capital expenditures.

*This balance excludes 339 ounces sold from the pre-production stage of the Santa Pancha underground mine.

Ounces of gold sold from the Limon mine for the first three quarters of 2006 decreased 5,639 ounces or 18% over the same period in the prior year. The first quarter of 2006 saw intermittent illegal road blockades which disrupted production at the mine. The mine was able to resume normal operations by the second quarter of 2006. Ore grades mined in 2006 were also 9% lower as mining approaches the end of the Talavera deposit. Gold sales increased by \$1,934,000 or 14% despite the lower volume. This was due to the higher average realized gold price of \$602 per ounce, compared to \$432 per ounce in the previous fiscal year.

*This balance excludes 339 ounces sold from the pre-production stage of the Santa Pancha underground mine.

Ounces of gold sold from the Limon mine for the first three quarters of 2006 decreased 5,639 ounces or 18% over the same period in the prior year. The first quarter of 2006 saw intermittent illegal road blockades which disrupted production at the mine. The mine was able to resume normal operations by the second quarter of 2006. Ore grades mined in 2006 were also 9% lower as mining approaches the end of the Talavera deposit. Gold sales increased by \$1,934,000 or 14% despite the lower volume. This was due to the higher average realized gold price of \$602 per ounce, compared to \$432 per ounce in the previous fiscal year.

Cost of sales increased \$90,000 or 1%. Higher production costs were encountered with respect to haulage costs, electricity, and fuel. Cash operating costs per ounce increased significantly due to the lower volume of gold sold and the relatively fixed cost base.

Royalties and production taxes increased by \$144,000, or 18% as a result of the higher realized prices.

Edgar Filing: Glencairn Gold CORP - Form 6-K

The Bellavista Mine sold 8,400 ounces of gold during the third quarter. A grinding mill to maximize ore recoveries is currently near completion but is behind its original schedule. The construction delay has delayed processing of higher grade ore that was planned for the third quarter. Processing of this higher grade ore, some of which has already been mined and stockpiled, will begin in the fourth quarter when the mill becomes operational. The finer size product from grinding of the high grade ore is expected to improve recoveries and ounces produced.

During this quarter, Glencairn reviewed and revised estimates of the recoverable ounces from the heap leach pads. The estimated recoverable gold ounces on the heap leach pads have been reduced by 4,642 ounces, as at September 30, 2006 and have been accounted for on a prospective basis. Recoveries are expected to improve once the grinding mill is operational in the fourth quarter.

Edgar Filing: Glencairn Gold CORP - Form 6-K

Commercial production at the Bellavista Mine commenced in December 2005; accordingly, no comparative information exists for the nine month period ended September 30, 2005.

Gold ounces produced and sold during the first three quarters of 2006 were lower than expectations. In the first two quarters of the fiscal year, Bellavista experienced a mechanical problem in the secondary crusher. There were also higher than expected costs for fuel and supplies. These cost overruns were exacerbated by the relatively fixed nature of the expenditures spread over a lower number of ounces.

Management had expected that the grinding mill would be completed and be fully operational in the third quarter. The mill is now expected to be fully operational by the end of 2006. The mill was expected to result in ore being more finely ground thereby increasing recoveries. As the mill was not complete in the third quarter, the decision was made to defer the processing of high grade ore until such time as the mill is fully operational.

Glencairn acquired the Libertad mine in the third quarter of 2006. The Libertad mine previously suffered significant under-capitalization which resulted in insufficient stripping of the pit walls. Glencairn made necessary investments to maintain production levels by accelerating stripping.

SIGNATURE

51

Edgar Filing: Glencairn Gold CORP - Form 6-K

The stripping costs and expenditures have been included in operating costs and not capitalized. Stripping costs represents approximately \$301 per ounce of the total cash costs of \$914 per ounce. These amounts are expected to decline next quarter as a more normal stripping ratio will occur.

Other Income and Expenses

Three months ended September 30, 2006

General and administrative expenses increased by \$294,000 or 36% over the same period in the previous year. An increase of \$107,000 can be largely attributed to additional head-office staff which resulted in increased salary expense. An additional \$134,000 increase was incurred for audit, recruitment and travel.

As part of Glencairn's compensation program, stock options are granted to employees and directors from time to time. During the third quarter, a total of 5,525,000 stock options were granted resulting in an expense of \$803,000 using the Black-Scholes option pricing model.

Exploration expense was \$137,000 in the third quarter of 2006, or 41% less than the previous year. In 2005, exploration activity was focused heavily on the Limon site in Nicaragua. Since the fourth quarter of 2005, exploration activity has been minimal. In 2006, the third quarter saw the close of Libertad, Cerro Quema, and Mestiza acquisitions. During the quarter, minor expenditures were made at these new sites,

7

however, management is fully assessing these properties before developing a comprehensive exploration program.

Other expense totalled \$243,000 representing a decrease over prior year's income of \$405,000. The current year balance consists largely of interest and fees on the long-term debt. In 2005, interest and gains on the sales of marketable securities and property, plant, and equipment at the Keystone Mine totalled \$1,076,000. This income was offset by a foreign exchange loss of \$132,000, interest and finance fees of \$262,000 and a write down of accounts and note receivable of \$277,000.

Nine months ended September 30, 2006

Edgar Filing: Glencairn Gold CORP - Form 6-K

General and administrative expenses increased \$562,000 or 21% mainly as a result of additional staffing and a general increase in salaries from the prior year.

Stock option expense increased by \$680,000 or 202% due to the granting of options during the second and third quarters of the year.

Exploration expense decreased by \$893,000 or 79%. Due to the labour disruption at the Limon operations in late 2005, all Nicaraguan exploration activities were suspended. The first quarter of 2006 saw only land holding costs incurred. During the third quarter exploration activities increased slightly but not at the levels experienced in 2005. Third quarter exploration activities and holding costs have been focused on the newly acquired Libertad and Cerro Quema properties.

Other income decreased by \$645,000 or 78%. Gains in 2005 were significant due to one-time gains realized from the sale of marketable securities, the Vogel Property and mill, and certain mineral properties at the Keystone Mine. In 2006, the Company recognized a gain from the sale of equipment in the amount of \$814,000. As well, there were cost recoveries from providing management services to Blue Pearl Mining Ltd., in the amount of \$163,000. These amounts were partially negated by interest and finance fees relating to a long-term debt.

Cash Flows

Three months ended September 30, 2006

Operating activities used \$2,978,000 in 2006, compared to \$3,052,000 in 2005. Cash usage in the period was heavily skewed towards activities at the Libertad Mine. These expenditures were necessary for the mine to achieve optimal operational efficiencies in the future. As a result, cash was spent on contractors, mainly for stripping activities.

Financing activities generated \$14,431,000 of cash in 2006, compared to \$1,994,000 in 2005. In 2006, the inflows resulted from the private placement of 30 million subscription receipts for gross proceeds of \$16,191,000 less transaction fees.

Investing activities utilized cash of \$2,209,000. Of this balance, \$283,000 was attributable to payments for the Mestiza property. The remaining balance consists mainly of capitalized expenditures for Bellavista's grinding mill.

Nine months ended September 30, 2006

Operating activities generated cash of \$1,107,000 in 2006, compared to a cash outflow of 2,389,000 in 2005. The commencement of the Bellavista Mine in Costa Rica contributed to the Company's positive operating cash flows. Gold sales increased 32,180 ounces or 102% from the same period in the previous fiscal year. Cash flows were further enhanced by the increase of average realized gold price, by \$165 or 38% over the same period in the previous fiscal period. These positive impacts were reduced by the operating cash outflows related to expenditures at La Libertad during the third quarter. Heavy stripping activity was required in order to access future ore bodies. Other major expenditures during the quarter included cement, general maintenance, and power.

Financing activities in 2006 generated cash of \$13,658,000. This consisted of gross proceeds of \$16,191,000 less various transaction fees from the issuance of 30 million subscription receipts from a private placement. Loan repayments of \$2,500,000 were made during the first three quarters.

Investing activities used \$5,911,000 in 2006, compared to \$15,450,000 in the same period in the previous fiscal year. In 2006, purchases and deferred costs relating to property, plant, and equipment were made in amounts totalling \$1,390,000 and \$5,411,000 for the Limon Mine and Bellavista Mine, respectively. Bellavista Mine costs are mostly grinding mill construction costs. The Mestiza acquisition resulted in cash payments of \$283,000. There were also expenditures of \$125,000 at Libertad. In 2005, investing activities consisted of the purchase of property, plant, and equipment of \$18,235,000 (Bellavista Mine - \$15,687,000, Limon Mine - \$2,527,000 and Corporate - \$21,000) and the increase in restricted cash of \$100,000 was offset by the proceeds from the sale of assets of \$2,885,000.

Liquidity and Capital Resources

The Company had cash of \$15,653,000 and working capital of \$19,207,000 at September 30, 2006. Management believes that these amounts along with expected cash flows from operating activities are adequate to meet the Company's requirements for the remainder of the year.

The Company is in the process of evaluating the economics of the Cerro Quema Project to reflect current costs and gold prices.

With the acquisition of the Mestiza interest this brings the potential for treating its resources at the nearby Limon mill thereby increasing output and improving the economics of the Limon operation.

The Company estimates that gold sales in the fourth quarter of 2006 will be approximately 25,000 ounces at cash operating costs and total cash costs of \$485 and \$515 respectively. Improvements to both volumes and costs are expected next year with the start of the new Bellavista mill, ore production from the Santa Pancha deposit at the Limon Mine, and improvements at the Libertad Mine.

Recently Released Accounting Standards

In January 2005, the CICA issued Handbook Sections 3855 (Financial Instruments - Recognition and Measurement), 1530 (Comprehensive Income) and 3865 (Hedges). The new standards apply to fiscal years commencing on or after October 1, 2006. Management is currently assessing the impact these standards will have on the Company's financial reporting.

Non-GAAP Performance Measures

The Company has included the non-GAAP performance measures detailed below in this document. These non-GAAP performance measures do not have any standardized meaning prescribed by GAAP and, therefore, may not be comparable to similar measures presented by other companies. The Company believes that, in addition to conventional measures prepared in accordance with GAAP, certain investors use this information to evaluate the Company's performance. Accordingly, they are intended to provide additional information and should not be considered in isolation or as a substitute for measures of performance prepared with GAAP. The definitions for these performance measures and reconciliation of the non-GAAP measures to reported GAAP measures are as follows:

FORM 52-109F2

Certification of Interim Filings

I, Peter W. Tagliamonte, President and Chief Executive Officer of Glencairn Gold Corporation, certify that:

1. I have reviewed the interim filings (as this term is defined in Multilateral Instrument 52-109 *Certification of Disclosure in Issuer's Annual and Interim Filings*) of Glencairn Gold Corporation (the issuer) for the interim period ending September 30, 2006;
2. Based on my knowledge, the interim filings do not contain any untrue statement of a material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it was made, with respect to the period covered by the interim filings;
3. Based on my knowledge, the interim financial statements together with the other financial information included in the interim filings fairly present in all material respects the financial condition, results of operations and cash flows of the issuer, as of the date and for the periods presented in the interim filings; and
4. The issuer's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures for the issuer, and we have designed such disclosure controls and procedures, or caused them to be designed under our supervision, to provide reasonable assurance that material information relating to the issuer, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which the interim filings are being prepared.

Date: November 13, 2006

President and Chief Executive Officer

FORM 52-109F2

Certification of Interim Filings

I, Derek Price, Vice President and Chief Financial Officer of Glencairn Gold Corporation, certify that:

1. I have reviewed the interim filings (as this term is defined in Multilateral Instrument 52-109 *Certification of Disclosure in Issuer's Annual and Interim Filings*) of Glencairn Gold Corporation (the issuer) for the interim period ending September 30, 2006;
2. Based on my knowledge, the interim filings do not contain any untrue statement of a material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it was made, with respect to the period covered by the interim filings;
3. Based on my knowledge, the interim financial statements together with the other financial information included in the interim filings fairly present in all material respects the financial condition, results of operations and cash flows of the issuer, as of the date and for the periods presented in the interim filings; and
4. The issuer's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures for the issuer, and we have designed such disclosure controls and procedures, or caused them to be designed under our supervision, to provide reasonable assurance that material information relating to the issuer, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which the interim filings are being prepared.

Date: November 13, 2006

Signed: *Derek Price*
