Item 1.01 Entry into a Material Definitive Agreement

On December 23, 2009, Integrys Energy Services, Inc. (“Energy Services”), a wholly owned subsidiary of Integrys Energy Group, Inc. entered into a purchase and sale agreement (the “PSA”) with Macquarie Cook Power, Inc. (“MCP”) to sell substantially all of the commodity contracts comprising its wholesale electric marketing and trading business, as part of Energy Services’ intent to reduce the size and scope of its operations. In the first quarter of 2010, Energy Services expects to transfer substantially all of the market risk associated with the transaction to Macquarie Bank Limited (“MBL”), parent of MCP, by entering into trades with MBL that mirror Energy Services’ underlying commodity contracts. Energy Services then expects to transfer title to the underlying commodity contracts and close the deal with MCP by the end of the second quarter of 2010, upon which time the corresponding mirror transactions will terminate. This transaction is in line with Integrys Energy Group’s strategy to divest or significantly reduce the size of its nonregulated energy services business segment to a smaller segment with significantly reduced credit and collateral support requirements.

The transaction requires approval from the Federal Energy Regulatory Commission.

The PSA contains a number of customary representations and warranties and indemnification provisions as well as closing conditions. The parties may terminate each of the agreements under certain circumstances and may be obligated to pay a termination fee of \$10 million in connection therewith. In addition, for a two-year period Integrys Energy Group will retain counterparty payment default risk with approximately 50% of counterparties associated with this transaction.

A copy of Integrys Energy Group’s news release announcing the execution of the PSA is filed as Exhibit 99.1 to this Current Report on Form 8-K and is incorporated by reference herein.
