Item 1. Business.

GENERAL DEVELOPMENT OF BUSINESS

Renaissance Capital Growth & Income Fund III, Inc. (sometimes referred to as the "Fund" or the "Registrant") is a Texas corporation formed January 20, 1994 that has elected to operate as a Business Development Company (sometimes referred to herein as a "Business Development Company" or a "BDC") under the Investment Company Act of 1940, as amended (the "1940 Act"). Through December 31, 2000, the Fund has raised \$41,489,500 through capital contributions and the public sale of its common stock, par value \$1.00 per share.

The investment objective of the Fund is to provide its shareholders with current income and long-term capital appreciation by investing primarily in privately placed securities of small public companies ("Portfolio Companies").

Renaissance Capital Group, Inc. ("Renaissance Group" or the "Investment Adviser"), a Texas corporation, serves as the investment adviser to the Fund. In this capacity, Renaissance Group is primarily responsible for the selection, evaluation, structure, valuation, and administration of the Fund's investment portfolio. Renaissance Group is a registered investment adviser under the 1940 Act and the Texas Securities Act. Its activities are subject to the supervision of the Board of Directors of the Fund ("Board of Directors") who provide guidance with respect to the operations of the Fund.

Generally, investments are and will continue to be in companies that have their common stock registered for public trading under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or companies that in the opinion of the Investment Adviser have the ability to effect a public offering within three to five years. The Fund generally invests in preferred stock or debentures of a Portfolio Company, which securities are convertible into or exchangeable for common stock of the Portfolio Company. While such common stock of the Portfolio Company may be publicly traded, the common stock acquired by the Fund is generally unregistered. Therefore, such securities are restricted from distribution or sale to the public except in compliance with certain holding periods and exemptions under the Securities Act of 1933, as amended (the "Securities Act"), or after registration pursuant to the Securities Act.

From inception through December 31, 2000 the Fund had made investments in twenty eight (28) different portfolio companies having an aggregate cost of

Edgar Filing: RENAISSANCE CAPITAL GROWTH & INCOME FUND III INC - Form 10-K

\$58,908,672. The Fund had active investments in twenty two (22) portfolio companies at December 31, 2000, and is seeking additional investment opportunities.

FINANCIAL INFORMATION ABOUT INDUSTRY SEGMENTS

The Fund has no concentrated industry segments. The Fund does not contemplate specializing in any particular industry but instead anticipates allocating its investments to a variety of industries.

NARRATIVE DESCRIPTION OF THE BUSINESS

The Fund, as a Business Development Company, is engaged primarily in investments in convertible securities of small public companies.

Under the provisions of the 1940 Act, a Business Development Company is to invest 70% or more of its funds in "eligible portfolio investments," such being generally defined as direct placements to "eligible portfolio companies" and temporary investments in "cash items" pending other investments. Under and pursuant to the provisions of the 1940 Act, a Business Development Company may invest up to 30% of its funds in "Other Investments," or "non-eligible investments," that is, investments that do not qualify as "eligible portfolio investments." In the event the Fund has less than 70% of its assets in eligible portfolio investments, then it will be prohibited from making non-eligible investments until such time as the percentage of eligible investments again exceeds the 70% threshold.

Pending investment in convertible securities of eligible Portfolio Companies or other investments as provided under the 1940 Act, the Registrant's funds are invested in "Short-term Investments" consisting primarily of U.S. Government and agency debt.

At December 31, 2000, the Fund's investment assets were classified by amount as follows:

Classification	Value	Percentage Of Assets
-----	-----	-----
Eligible Portfolio Investments (including cash and cash equivalents)	\$55,678,317	86.89%
Other Portfolio Investments	\$ 8,399,283	13.11%
	-----	-----
	\$64,077,600	100.00%

INVESTMENT OBJECTIVES

The investment objective of the Fund is to provide its shareholders with both current income and long-term capital appreciation.

The Fund seeks to provide returns to shareholders through cash dividends of net investment income and through distributions of realized gains or of securities that have appreciated in value. During 2000, no quarterly income dividends were paid as a result of conversions of debt instruments into underlying equity securities of portfolio companies. As the Fund's portfolio matures, it is expected that this trend will continue in order for the Fund to realize capital gains from the appreciation of Portfolio Company equity securities.

GENERAL INVESTMENT POLICIES

The Fund invests in Emerging Growth Company securities that are generally

Edgar Filing: RENAISSANCE CAPITAL GROWTH & INCOME FUND III INC - Form 10-K

not available to the public and which typically require substantial financial commitment. An Emerging Growth Company is generally considered to have the following attributes: (1) either a publicly held company with a relatively small market capitalization or a privately held company; (2) an established operating history but of a limited period so as to not have fully developed its market potential for the products or services offered; and (3) a provider of new product or service that allows the company an opportunity for exceptional growth. However, because the extent and nature of the market for such product or services is not fully known, there is uncertainty as to the rate and extent of growth and also uncertainty as to the capital and human resources required to achieve the goals sought.

With respect to investments in Emerging Growth Companies, the Fund emphasizes investing in convertible preferred stock or convertible debentures of publicly held companies that the Fund anticipates will be converted into common

stock and registered for public sale within three to five years after the private placement. In addition, the Fund anticipates participating in bridge financings in the form of loans which are convertible into common stock of the issuer or issued together with equity participation, or both, for companies which the Fund anticipates will complete a stock offering or other financing within one or more years from the date of the investment. The Fund will make bridge loans, either secured or unsecured, intended to carry the borrower to a private placement, an initial public offering or a merger and acquisition transaction.

The Fund has no fixed policy concerning the types of businesses or industry groups in which it may invest or as to the amount of funds that it will invest in any one issuer. However, the Fund currently intends to limit its investment in securities of any single Portfolio Company to approximately 10% (8% to 12%) of its net assets at the time of the investment.

In the event the Fund elects to participate as a member of the Portfolio Company's Board of Directors, either through advisory or full membership, the Fund's nominee to the board will generally be selected from among the officers of Renaissance Group. When, at the discretion of Renaissance Group, a suitable nominee is not available from among its officers, Renaissance Group will select, as alternate nominees, outside consultants who have prior experience as an independent outside director of a public company.

REGULATION UNDER THE INVESTMENT COMPANY ACT OF 1940

The 1940 Act was enacted to regulate investment companies. In 1980, the 1940 Act was amended by the adoption of the Small Business Investment Incentive Act. The purpose of the amendment was to remove regulatory burdens on professionally managed investment companies engaged in providing capital to smaller companies. The Small Business Investment Incentive Act established a new type of investment company specifically identified as a Business Development Company as a way to encourage financial institutions and other major investors to provide a new source of capital for small developing businesses.

BUSINESS DEVELOPMENT COMPANY

A BDC:

- I. is a closed-end management company that generally makes 70% or more of its investments in "Eligible Portfolio Companies" and "cash items" pending other investment. Under the regulations established by the Securities and Exchange Commission (the "SEC") under the 1940 Act, only certain companies may qualify as "Eligible Portfolio Companies." To be an "Eligible Portfolio Company," the Company must satisfy the following:

Edgar Filing: RENAISSANCE CAPITAL GROWTH & INCOME FUND III INC - Form 10-K

- A. it must be organized under the laws of, and has its principal place of business in, any state or states;
- B. is neither an investment company as defined in Section 3 (other than a small business investment company which is licensed by the Small Business Administration to operate under the Small Business Investment Act of 1958 and which is a wholly-owned subsidiary of the business development company) nor a company which would be an investment company except for the exclusion from the definition of investment company in Section 3(c); and
- C. satisfies one of the following:
 1. It does not have any class of securities with respect to which a member of a national securities exchange, broker, or dealer may extend or maintain credit to or for a customer pursuant to rules or regulations adopted by the Board of Governors of the Federal Reserve System under Section 7 of the Securities Exchange Act of 1934;
 2. It is controlled by a business development company, either alone or as part of a group acting together, and such business development company in fact exercises a controlling influence over the management or policies of such eligible portfolio company and, as a result of such control, has an affiliated person who is a director of such eligible portfolio company;
 3. It has total assets of not more than \$4,000,000, and capital and surplus (shareholders' equity less retained earnings) of not less than \$2,000,000, except that the Commission may adjust such amounts by rule, regulation, or order to reflect changes in one or more generally accepted indices or other indicators for small businesses; or
 4. It meets such other criteria as the Commission may, by rule, establish as consistent with the public interest, the protection of investors, and the purposes fairly intended by the policy and provisions of this title.

Therefore, the Investment Adviser believes that "Eligible Portfolio Companies" are, generally, those companies that, while being publicly held, may not have or do not have a broad based market for their securities, or the securities that they wish to offer are restricted from public trading until registered. Further, while the 1940 Act allows a BDC to "control" a Portfolio Company, it is not the general policy of the Fund to acquire a controlling position in its Portfolio Companies. The Fund only provides managerial assistance, and seeks to limit its "control" position by requiring only that a designee of the Fund be elected to the board of directors of the Portfolio Company, or be selected an advisory director. While these are the Fund's general policies, the application of these policies, of necessity, vary with each investment situation.

1940 ACT REQUIREMENTS

The BDC election exempts the Fund from some provisions of the 1940 Act. However, except for those specific provisions, the Fund will continue to be subject to all provisions of the 1940 Act not exempted, including the following:

1. restrictions on the Fund from changing the nature of business so as to cease to be, or to withdraw its election as, a BDC without the majority vote of the shares outstanding;

Edgar Filing: RENAISSANCE CAPITAL GROWTH & INCOME FUND III INC - Form 10-K

2. restrictions against certain transactions between the Fund and affiliated persons;
3. restrictions on issuance of senior securities, such not being prohibited by the 1940 Act but being restricted as a percentage of capital;
4. compliance with accounting rules and conditions as established by the SEC, including annual audits by independent accountants;
5. compliance with fiduciary obligations imposed under the 1940 Act; and
6. requirement that the shareholders ratify the selection of the Fund's independent public accountants and the approval of the investment advisory agreement or similar contracts and amendments thereto.

On September 19, 1996, the Fund and the Investment Advisor filed their Application for an order pursuant to Sections 6(c) and 57(i) of the Investment Company Act of 1940 and Rule 17d-1 thereunder authorizing certain joint transactions otherwise prohibited by Section 57(a)(4) of the Act requesting an order from the SEC permitting the Fund to co-invest with companies that are affiliated with the Investment Advisor, including Renaissance US Growth and Income Trust PLC ("RUSGIT" or "Advisor Affiliate"). The order was granted on December 30, 1996.

In order for the Fund and the Advisor Affiliate (together referred to as the "Funds") to make co-investments in the same entity, the following conditions apply:

- A. the Investment Advisor will determine if the investment is eligible for investment by the Funds;
- B. the Investment Advisor will determine an appropriate amount that the Funds should invest;
- C. the Investment Advisor will distribute written information, including the amount of the proposed investment, concerning all co-investment opportunities to the Board of Directors of both the Fund and RUSGIT. The Fund will co-invest only if a required majority of the Fund's Independent Directors conclude, prior to the acquisition of the investment, that the investment should be made;
- D. the Fund will not make an investment if any Advisor Affiliate, the Investment Advisor, or a person controlling, controlled by, or under common control with the Advisor is an existing investor in such issuer;
- E. the terms, conditions, price, class of securities, settlement date, and registration rights shall be the same for the Fund and the Advisor Affiliate;
- F. the Fund's Independent Directors will review quarterly all information concerning co-investment opportunities during the preceding quarter to determine whether the conditions set forth in the application were complied with;
- G. the Fund will maintain the records required by section 57(f)(3) of the Act as if each of the investments permitted under these conditions were approved by the Fund's Independent Directors under section 57(f) of the Act; and
- H. no Independent Director of the Fund will be a director or general partner of any Advisor Affiliate with the Fund co-investors.

Edgar Filing: RENAISSANCE CAPITAL GROWTH & INCOME FUND III INC - Form 10-K

The Fund has made numerous investments with the Advisor Affiliate and anticipates making additional investments in the future.

INVESTMENT ADVISERS ACT OF 1940 AND INVESTMENT ADVISER'S AGREEMENT

Renaissance Group is the investment adviser to the Fund pursuant to the Investment Advisory Agreement dated and approved by the Board of Directors on February 15, 1994 (the "Investment Advisory Agreement") and is registered as an investment adviser under the Advisers Act and is subject to the reporting and other requirements thereof. The Advisers Act also provides restrictions on the activities of registered advisers to protect its clients from manipulative or deceptive practices, while the Advisers Act generally restricts performance compensation of up to 20% on realized capital gains computed net of all realized capital losses and unrealized capital depreciation.

The Investment Advisory Agreement provides that Renaissance Group is entitled to receive a management fee of 1.75% of the Fund's assets which is determined and payable on a quarterly basis. In addition to the management fee of 1.75% of the fund's assets, Renaissance Group is entitled to receive an incentive fee (the "incentive fee") in an amount equal to 20% of the Fund's realized capital gains computed net of all realized capital losses and unrealized depreciation. The incentive fee is accrued and paid on a quarterly basis.

Investment advisory agreements are further subject to the 1940 Act, which requires that the agreement, in addition to having to be initially ratified by a majority of the outstanding shares, shall precisely describe all compensation to be paid, shall be approved annually by a majority vote of the Board of Directors, may be terminated without penalty on not more than 60 days notice by a vote of a majority of the outstanding shares, and shall terminate automatically in the event of assignment. The Board of Directors has determined

that the Investment Advisory Agreement shall constitute the Fund's advisory agreements and at all times be construed so as to comply with the Advisers Act and the 1940 Act.

FUND PORTFOLIO INVESTMENTS

At December 31, 2000 the Fund had active investments in the following Portfolio Companies.

Active Link Communications, Inc. (formerly Communications World International, Inc.) (ACVE)

Active Link Communications, Inc. markets a range of voice communications products and technical services to large communication companies and directly to large and small end users in the Denver, Houston and Dallas-Ft. Worth metropolitan areas.

In the fourth quarter, the Fund advanced the Company \$125,000 pursuant to an 8% Convertible Promissory Note. The Note is convertible at \$1.50 per share, calls for monthly interest payments and matures on the earlier to occur of September 30, 2002, or receipt by the Company of gross cash proceeds from an equity financing in excess of \$4,000,000, or the completion of a merger of the Company into another company in which the Company's shareholders receive a minimum of \$10,000,000. The Note also contains standard anti-dilution and registration provisions, and as additional consideration for advancing monies to the Company, the Fund received payment for all accrued and outstanding interest through October 13, 2000 on the Fund's \$250,000 Promissory Note, which represents the Fund's initial investment into the Company.

At December 31, 2000, the Fund owned \$375,000 in 8% Subordinated

Edgar Filing: RENAISSANCE CAPITAL GROWTH & INCOME FUND III INC - Form 10-K

Convertible Promissory Notes (the \$125,000 note described above together with a \$250,000 note which constituted the Fund's initial investment in the Company when made in the fourth quarter of 1999), and warrants to purchase 100,000 shares of common at \$0.60 per share on or before September 30, 2004 and having a cost basis of \$2,000. Like the \$125,000 note, the Fund's \$250,000 note accrues interest at 8%, is unsecured, and matures on the earlier to occur of September 30, 2002, or receipt by the Company of gross cash proceeds from an equity financing in excess of \$4,000,000, or the completion of a merger of the Company into another company in which the Company shareholders receive a minimum of \$10,000,000. The Note is convertible into the Company's common stock at \$1.50 per share, and contains standard anti-dilution provisions which protect the Fund in the event that common stock is issued by the Company for a price per share below the conversion price, or where the common stock issuable upon conversion of the Note is changed into the same or different number of shares of any other classes of stock by capital reorganization, reclassification, or otherwise. The Company is entitled to pay the principal amount of the note without penalty at any time upon sixty days prior notice to the Fund so long as the average closing price of the common stock for the thirty trading days prior to the notice is \$3.75 and a registration statement is in effect covering the resale of the underlying shares of common stock. The Fund is entitled to limited shelf registration rights, and the Company has a duty to use "best efforts" to register the Fund's underlying shares once a conversion is effectuated.

At December 31, 2000, RUSGIT owned \$750,000 in 8% Subordinated Convertible Promissory Notes and had warrants to purchase 200,000 shares of the Company's common stock at \$0.60 per share. Except for the amounts invested and the number of warrants owned, the RUSGIT investments have the same terms and conditions as the Fund's investments.

Bentley Pharmaceuticals, Inc. is an emerging international pharmaceutical company focused on improving drugs through new drug delivery technologies and commercializing such drugs in the U.S. and other major markets. Bentley also manufactures and markets pharmaceutical products in Spain for the treatment of cardiovascular, gastrointestinal, neurological, infectious and other diseases.

In the first quarter, the Company called all of its outstanding 12% Convertible Senior Subordinated Debentures due February 13, 2006. Upon notice of the call, the Fund had the option to convert its debentures into common stock of the Company at a rate of \$2.50 per share or to have the debentures redeemed

at a value equal to 105% of par plus accrued interest, which equaled \$1,050 per \$1,000 worth of debentures plus accrued interest. The Fund chose to convert all of its debentures, having a principal amount of \$800,000, into 320,000 shares of common stock.

In the third quarter ended September 30, 2000, the Fund purchased 52,100 shares of the Company's common stock on the open market for \$411,082, a price per share of \$7.89.

The common stock underlying the options is subject to Rule 144 of the Securities Act. The debenture contains standard anti-dilution provisions and entitles the Fund to demand and piggyback registration rights. The Company has the right to redeem the debenture with at least thirty days notice to the Fund so long as the reported closing price of the common stock equals or exceeds 2.154 times the conversion price in effect for a period of twenty consecutive trading days. In addition to the debenture, as consideration for making the investment the Fund received 125,000 warrants to purchase the Company's common stock. Half of the warrants are exercisable at \$4.00 per share on or before May 2003, and the remaining 62,500 warrants are exercisable at \$6.00 per share on or before May 2005.

In addition to the Fund's investment, RUSGIT also purchased \$250,000 worth of the Company's Convertible Subordinated Debentures and also received 125,000 warrants to purchase the Company's common stock all of which were purchased pursuant to the same terms and conditions as the Fund's investment.

In the first quarter of 2000, the Fund had the conversion price on its convertible debenture reduced from \$1.60 per share to \$1.00 per share and also agreed to take payment of interest owing on the debentures in common stock of the Company at a rate of \$1.00 per share in consideration of the Fund's allowance of an investment into the Company by third party investors. At December 31, 2000, the Fund owned \$1,500,000 of the Company's 9% Convertible Debentures having a conversion price of \$1.00 per share which are secured by all of the assets of the parent and its subsidiary but which security is subordinate to certain senior lenders. The debentures have mandatory monthly principal installments beginning December 19, 2000 which installments continue on the first day of each successive month thereafter prior to maturity on December 19, 2004. In addition to the debentures, the Fund owns \$1,000,000 of the Company's Series A Cumulative Convertible Preferred Stock, which has an 8% cumulative dividend, is payable quarterly, is convertible into the Company's common stock at \$1.56 per share, and has a liquidation preference equal to 100% of the dollar amount invested by the Fund in the preferred shares. Finally, the Fund owns 260,000 shares of the Company's common stock which are restricted pursuant to Rule 144 of the Securities Act, and options to purchase 5,000 shares of the Company's common stock at \$0.75 per share. As consideration for the Guarantee, RUSGIT received warrants to purchase 857,000 shares of the Company's common stock at \$0.125 per share and the debentures and preferred stock instruments owned by both RUSGIT and the Fund had their respective conversion prices reduced to \$2.00 per share. Previously, the debentures for RUSGIT and the Fund were convertible at \$4.31 per share and the Series A Convertible Preferred Stock for both RUSGIT and the Fund had been convertible at \$3.33 per share. The Fund did not participate in the Guarantee because the Fund is fully invested.

On a quarterly basis, Renaissance Group prepares a valuation of the assets of the Fund including Temporary Investments, Eligible Portfolio Investments, and Other Portfolio Investments, subject to the approval of the Board of Directors. The valuation principles are described below.

Generally, pursuant to the procedures established by the Investment Adviser, the fair value of each investment is initially based upon its original cost to the Fund. Costs are the primary factor used to determine fair value until significant developments affecting the Portfolio Company (such as results of operations or changes in general market conditions) provide a basis for use in the fair value determination.

Generally, the fair value of debt securities and preferred securities convertible into common stock is the sum of (a) the value of such securities without regard to the conversion feature, and (b) the value, if any, of the conversion feature. The fair value of debt securities without regard to conversion features is determined on the basis of the terms of the debt security, the interest yield and the financial condition of the issuer. The fair value of preferred securities without regard to conversion features is determined on the basis of the terms of the preferred security, its dividend, and its liquidation and redemption rights and absent special circumstances will typically be equal to the lower of cost or 120% of the value of the underlying common stock. The fair value of the conversion features of a security, if any, are based on fair values as of the relevant date less an allowance, as appropriate, for costs of registration, if any, and selling expenses.

Portfolio investments for which market quotations are readily available and which are freely transferable are valued as follows: (i) securities traded on a securities exchange or the NASDAQ or in the over-the-counter market are valued at the closing price on, or the last trading day prior to, the date of valuation and (ii) securities traded in the over-the-counter market that do not have a closing price on, or the last trading day prior to, the date of valuation are valued at the average of the closing bid and ask price for the last trading day on, or prior to, the date of valuation. Securities for which market quotations are readily available but are restricted from free trading in the public securities markets (such as Rule 144 stock) are valued by discounting the closing price or the closing bid and ask prices, as the case may be, for the last trading day on, or prior to, the date of valuation to reflect the liquidity caused by such restriction, but taking into consideration the existence, or lack thereof, of any contractual right to have the securities registered and freed

Edgar Filing: RENAISSANCE CAPITAL GROWTH & INCOME FUND III INC - Form 10-K

from such trading restrictions. The fair value of investments for which no market exists are determined on the basis of appraisal procedures established in good faith by the Investment Adviser. Fair value determinations are based upon such factors as the Portfolio Company's earnings and net worth, market prices for similar securities of comparable companies and an assessment of the Portfolio Company's future financial prospectus. In the case of unsuccessful operations, the appraisal may be based upon liquidation value. Appraisal valuations are necessarily subjective.

Competition for Investments

The Fund has significant competition for investment proposals. Competitive sources for growth capital for the industry include insurance companies, banks, equipment leasing firms, investment bankers, venture capital and private equity funds, money managers and private investors. Many of these sources have substantially greater financial resources than is contemplated will be available to the Fund. Therefore, the Fund will have to compete for investment opportunities based on its ability to respond to the needs of the prospective

company and its willingness to provide management assistance. In some instances, the Fund's requirements as to provision of management assistance will cause it to be non-competitive.

Personnel

The Fund has no direct employees, but instead has contracted Renaissance Group pursuant to the Investment Advisory Agreement to provide all management and operating activities. Renaissance Group currently has eight employees who are engaged in performing the duties and functions required by the Fund. At the present time, a substantial portion of Renaissance Group's staff time is devoted to activities of the Fund. However, because of the diversity of skills required, the Fund cannot afford to employ all these persons solely for its own needs, and therefore, these employees are not engaged solely in activities of the Fund.

The Investment Advisor currently serves as the Investment Advisor to RUSGIT. RUSGIT is a public limited company registered in England and Wales, listed on the London Stock Exchange, which invests in privately placed convertible debentures issued by companies similar to the investments of the Fund. RUSGIT will invest primarily pari-passu with the Fund. In 1996, RUSGIT raised net investment capital of approximately \$30,789,000. From inception to December 31, 2000, RUSGIT had made investments in twenty eight (28) portfolio companies, having an aggregate cost value of \$47,106,535. Twenty three (23) of the investments were active at December 31, 2000. In addition, Renaissance Group may, from time to time, provide investment advisory services, management consulting services and investment banking services to other clients.

No accurate data or estimate is available as to the percentage of time, individually or as a group, that will be devoted to the affairs of the Fund. Initially, and while the Fund's assets are in the process of being invested, a majority of the staff time of Renaissance Group is employed in functions and activities of the Fund. Thereafter, the officers and employees have and will devote such time as is required, in their sole discretion, for the conduct of business, including the provision of management services to Portfolio Companies.

Item 2. Properties

The Fund's business activities are conducted from the offices of Renaissance Group, which offices are currently leased until July 31, 2005 in a multi-story general office building in Dallas, Texas. The use of such office facilities, including office furniture, phone services, computer equipment, and files are provided by Renaissance Group at its expense pursuant to the

Investment Advisory Agreement.

NUMBER OF HOLDERS

As of December 31, 2000, there were approximately 877 beneficial holders of common stock.

DIVIDEND POLICY AND REGULATED INVESTMENT COMPANY STATUS

The investment objective of the Fund is current income and long term capital appreciation. The Fund intends to elect the special income tax treatment available to a regulated investment company ("RIC") under Subchapter M of the Internal Revenue Code (the "Code") in order to be relieved of federal income tax on that part of its net investment income and realized capital gains that it pays out to shareholders. If a RIC meets certain diversification and distribution requirements under the Code, it qualifies for pass-through tax treatment. The Fund would be unable to qualify for pass-through tax treatment if it were unable to comply with these requirements. Failure to qualify as a RIC would subject the Fund to federal income tax as if the Fund were an ordinary corporation, which could result in a substantial reduction in both the Fund's net assets and the amount of income available for distributions to shareholders.

Since the Fund was in an offering phase for all of 1994, no dividends were paid; however, the Fund paid shareholders a dividend on April 25, 1995 representing their pro rata portion of income earned by the Fund in 1994. For

Edgar Filing: RENAISSANCE CAPITAL GROWTH & INCOME FUND III INC - Form 10-K

the period from April 25, 1995 to December 31, 1999, the Fund paid out income dividends on a quarterly basis. Income dividends have not been paid since that time due to the absence of net investment income as some debenture positions have been converted into equity. Although income dividends were not paid in 2000, the Fund did pay \$1.54 per share in capital gains dividends in the second quarter of 2000.

Item 6. Selected Financial Data. (unaudited)

The following selected financial data for the period from January 1, 1995 through December 31, 2000, should be read in conjunction with the Fund's Financial Statements and notes thereto and "Management's discussion and Analysis of Financial Condition and Results of Operations" included in Item 7 of this Annual Report on Form 10-K.

Item 7. Management's discussion and Analysis of Financial Condition and Results of Operations

General

The purpose of the Fund is to provide growth capital to small and medium size public companies whose ability to service the securities is sufficient to provide a quarterly return to the shareholders and whose growth potentials are sufficient to provide opportunity for above average capital appreciation.

Sources of Operating Income

Generally, the major source of operating income for the Fund is investment income, either in the form of interest on debentures, dividends on stock, or interest on securities held pending investment in Portfolio Companies. However, the Fund also anticipates generating income through capital gains. The Fund generally structures investments to obtain a current return that is competitive with other long term finance sources available to potential Portfolio Companies. Further, the Fund may in some cases receive placement fees, draw-down fees and similar types of income. It might also receive management fee income.

Generally, management fees received by Renaissance Group (or its personnel) for services to a Portfolio Company will be paid to the account of the Fund. The exception to this rule would apply to payments to Renaissance Group or affiliate or designee thereof for unusual services performed for the Portfolio Company, which are unrelated to and not required by the Portfolio Investment in such Portfolio Company and that are beyond the fund's contemplated management

Edgar Filing: RENAISSANCE CAPITAL GROWTH & INCOME FUND III INC - Form 10-K

assistance to Portfolio companies (i.e., beyond providing for director designees and limited consultation services in connection therewith). These payments would be made to Renaissance Group or such other person only with the approval of the Board of Directors based, in part, on the determination that payments for such services are no greater than fees for comparable services charged by unaffiliated third parties, and subject to limitations and requirements imposed by the 1940 Act.

While it will be the general principle that Renaissance Group and its officers and directors occupy a fiduciary relationship to the Fund and shall not receive outside compensation or advantage in conflict with that relationship, neither Renaissance Group nor its officers and directors are prohibited from receiving other income from non-conflicting sources.

Other Investment Funds

Renaissance Group has formed other investment funds to make investments in similar Portfolio Companies and may, in the future, form additional similar investment funds. Specifically, in the Spring of 1996 Renaissance Group formed RUSGIT, which invests in privately placed convertible debentures issued by companies similar to the investments of the Fund. RUSGIT invests primarily pari-passu with the Fund. In 1996, RUSGIT raised investment capital of approximately \$30,789,000 million, and as of December 31, 2000, had made twenty eight (28) total investments having an aggregate cost value of \$47,106,535. Twenty three (23) of the investments were active at December 31, 2000.

The determination regarding the existence of conflict of interest between these affiliated investment funds and the Registrant, and the resolution of any such conflict, vests in the discretion of the Board of Directors, subject to the requirements and resolution of the 1940 Act.

Regular Quarterly Dividends

It is intended that cash dividends from operations be made to all shareholders each quarter that the Fund realizes net investment income in order to provide a cash return and also to enable the Fund to maintain its RIC status under Subchapter M of the Code. Quarterly dividends may be increased or decreased from time to time to reflect increases or decreases in current rates of investment income. The Fund's intention is to provide each shareholder a current return compatible with the then present economic condition of the Fund. Generally, this dividend is made from profits and investment income from the previous quarter. However, in the event that net profits are not adequate from time to time, the dividends may be made from capital, so long as capital is sufficient to assure repayment of all obligations of the Fund and such capital distributions are permitted by applicable corporate law and the 1940 Act.

In 2000, the Fund did not make income distributions as certain debt positions had been converted into equity with some of these positions being sold to realize capital gains. This specifically occurred in 2000 with respect to part of the Fund's investment in Simtek Corporation, in which the Fund converted and sold equity having a basis of \$555,000 and realized gains of \$8,055,675, enabling the Fund to distribute a \$1.54 dividend to shareholders in the second quarter. In certain circumstances, debt may also be converted to equity in order to facilitate a restructuring or other similar event. In such a case, the transaction may not result in capital gains on the position and in such a situation would not produce distributions to shareholders.

The accounting records are maintained on a calendar quarter basis with the fiscal year ending on December 31. Accordingly, in the event quarterly distributions are declared, they will be made to shareholders of record as of the end of each quarter and mailed to each shareholders address of record within 120 days of the end of the quarter. It is not anticipated that quarterly

Edgar Filing: RENAISSANCE CAPITAL GROWTH & INCOME FUND III INC - Form 10-K

distributions of income will be resumed until certain large stock positions are sold and the bases reinvested in coupon-bearing instruments.

Optional Distributions of Capital Gains

In addition to the regular quarterly dividends, it is intended that the Fund shall dividend out net realized capital gains. Also, capital gains dividends may replace the regular quarterly dividend where the Investment Adviser deems appropriate. Further, when deemed appropriate by the Board of Directors and subject to registration requirements, the Fund may make in-kind distribution of securities of Portfolio Companies. The timing and payment of distributions, including in-kind distributions, is at the discretion of the Board of Directors. In 2000, the Fund distributed \$1.54 per share in capital gains to the Shareholders.

Pursuant to its Investment Advisory Agreement and the amendments thereto, Renaissance Group shall be paid quarterly and at the final dissolution or liquidation of the Fund, a management incentive fee of 20% of the realized capital gains net of realized and unrealized losses. Notwithstanding the foregoing, no payment of the management incentive fee shall be made which is not permitted by the Securities Act or other applicable law.

The performance distributions cannot be adjusted without the consent of all of the shareholders, except if required by order of a regulatory agency.

Liquidity and Capital Resources

During the year ended December 31, 2000, the Fund invested \$2,262,500 in three (3) new portfolio investments and invested an additional \$5,576,211 in follow-on investments to eight (8) portfolio companies. Dividends paid to investors in 2000 amounted to \$6,380,130 or \$1.54 per share. Net income from operating activities and interest income on funds invested in U.S. Government and agency obligations, pending investment in portfolio companies, net of operating expenses and management fees, amounted to \$5,032,203. The net cash provided by operating activities was \$17,206,660. The Fund also received \$10,366,539 upon the sale of portfolio investments. Dividend reinvestments were zero. The Fund issued no shares for the dividend reinvestment plan as dividend reinvestment shares were purchased in the open market. At December 31, 2000,

the Fund was fully invested as it had just under \$1.5 million in cash and cash equivalents net of all liabilities, which is approximately 3% of net assets. Renaissance Capital Group, Inc. believes that current cash levels are sufficient to pay expenses as they come due and also to make follow-on investments if necessary.

Generally, investments in Portfolio Companies will have an initial fixed term of seven years, with payments of interest or dividends for that period. Further, investments in Portfolio Companies will be individually negotiated, non-registered for public trading, and will be subject to legal and contractual investment restrictions. Accordingly, the Portfolio Investment will generally be considered non-liquid.

Another possible source of available capital is debt, however, the Fund does not presently intend to make leveraged investments. Therefore, a lack of liquidity will generally only affect the ability to make new investments and make distributions to shareholders.

RESULTS OF OPERATIONS

2000 Compared to 1999

During the year ended December 31, 2000, the Fund made additional portfolio

Edgar Filing: RENAISSANCE CAPITAL GROWTH & INCOME FUND III INC - Form 10-K

investments aggregating \$10,366,539 compared to \$5,263,278 in 1999. The Fund's realized net income of \$5,032,203 for 2000 is due primarily to a net realized gain on investments of \$8,055,679 which resulted from the Fund's conversion of its entire investment in Simtek Corp. from debentures to common stock and the sale of 74% of that position in the open market. The net realized gain on investments from Simtek outweighed the net unrealized depreciation on investments of \$1,507,015 resulting from lower asset values for portfolio investments as well as a net investment loss of \$1,516,461. The net investment loss arose primarily due to incentive fees booked as a result of the gains realized on the Simtek investment. Absent the incentive fee, the Fund would have realized positive net investment income for the year 2000.

Interest income increased 7.77% for the year in comparison to 1999 due primarily to a higher concentration of the portfolio in interest paying debenture instruments. Dividend income in 2000 decreased 70% from \$381,498 in 1999 to \$114,455 in 2000 due primarily to a lower concentration of the Fund's investments in preferred stock instruments for the entire year. Commitment and other fee income increased from \$(24,251) in 1999 to \$112,375 in 2000 due to increased director and advisory fees, increased commitment and closing fees associated with a new investment in Laserscope, and other fees related to conversions of debentures into common stock.

General and administrative expenses increased 7.58% in comparison to 1999 due to increases in accounting and professional fees, legal expenses, and directors fees. Incentive fees decreased 30.37% from \$2,313,841 in 1999 to \$1,611,135 in 2000 due to lower realized gains achieved on investments throughout 2000. Management fees increased 20.19% to \$1,056,483 due to the increase in the value of the overall portfolio throughout the year. Net investment loss for 2000 narrowed from \$(1,978,824) for 1999 to \$(1,516,461) for 2000, a reduction of 23.37%, due primarily to lower overall expenses and slightly lower income levels.

Net income for 2000 was \$5,032,203, a decrease of 62.82% from net income for 1999. In 1999, realized gains were \$11,049,161 in comparison to realized gains for 2000 of \$8,055,679. In addition, the Fund's net unrealized depreciation on investments for 2000 was \$(1,507,015) in comparison to a net unrealized appreciation on investments for 1999 of \$4,465,591.

1999 Compared to 1998

During the year ended December 31, 1999, the Fund made additional portfolio investments aggregating \$5,263,278 compared to \$13,094,416 in 1998. The Fund's 1999 total income was \$17,234,166 consisting of the following components: (i) interest income of \$1,362,167; (ii) dividend income of \$381,498; (iii) fee income of \$(24,251); (iv) realized gains on investments of \$11,049,161; and (v) unrealized appreciation on investments of \$4,465,591.

Interest income decreased 40% in comparison to 1998 due primarily to conversions of debenture instruments into common stock. Although the conversions lowered the Fund's interest income, it enabled the Fund to increase net realized gains on investments by 253% from \$3,130,743 in 1998 to \$11,049,161 in 1999. Dividend income in 1999 rose 1,227% to \$381,498 in comparison to the 1998 period, due primarily to a higher concentration of preferred stock instruments held by the fund. Fee income decreased from \$511,988 in 1998 to \$(24,251) in 1999 primarily as a result of a reduction in the dollar value of new investments.

Aggregate 1999 income of \$17,234,166 rose 264% in comparison to aggregate 1998 income of \$4,734,193, primarily as a result of unrealized appreciation in the invested portfolio and capital gains realized on some investments in 1999. The Fund's operating expenses incurred in 1999 were \$3,698,238, an increase of

Edgar Filing: RENAISSANCE CAPITAL GROWTH & INCOME FUND III INC - Form 10-K

91% as compared to \$1,940,189 in 1998. Operating expenses increased almost exclusively due to the incentive fee paid to the Manager due to the success of the Fund in realizing gains on portfolio investments. In total, operating expense increased by a value of \$1,758,049, of which \$1,687,692, or 96% of the increase, was attributable to the incentive fee. General and administrative expenses rose less than 1% in 1999 relative to the 1998 period, and management fees rose 8% to \$878,987, due to the increase in the value of the overall portfolio.

Item 7A. Quantitative and Qualitative Disclosure About Market Risk

The Fund is subject to financial market risks, including changes in market interest rates as well as changes in marketable equity security prices. The Fund does not use derivative financial instruments to mitigate any of these risks. The return on the Fund's investments is generally not affected by foreign currency fluctuations.

A good portion of the Fund's investment in portfolio securities consists of fixed rate convertible debentures and other debt instruments. Since these instruments are generally priced at a fixed rate, changes in market interest rates do not directly impact interest income, although they could impact the Fund's yield on future investments in debt instruments. In addition, changes in market interest rates are not typically a significant factor in the Fund's determination of fair value of its debt instruments, as it is generally assumed they will be held to maturity, and their fair values are determined on the basis of the terms of the particular instrument and the financial condition of the issuer.

A portion of the Fund's portfolio consists of equity investments in private companies. The Fund would anticipate no impact on this investment from modest changes in public market equity prices. However, should significant changes in market prices occur, there could be a longer-term effect on valuations of private companies which could affect the carrying value and the amount and timing of proceeds realized on these investments.

A portion of the Fund's investment portfolio also consists of common stocks and warrants to purchase common stock in publicly traded companies. These investments are directly exposed to equity price risk, in that a percentage change in these equity prices would result in a similar percentage change in the fair value of these securities.

Renaissance Capital Growth & Income Fund III, Inc. (the Fund), a Texas corporation, was formed on January 20, 1994. The Fund offered to sell shares in the Fund until closing of the offering on December 31, 1994. The Prospectus of the Fund required minimum aggregate capital contributions by shareholders of not less than \$2,500,000 and allowed for maximum capital contributions of \$100,000,000. The Fund seeks to achieve current income and capital appreciation potential by investing primarily in unregistered equity investments and convertible issues of small and medium size companies which are in need of capital and which Renaissance Capital Group, Inc. (Investment Advisor) believes offers the opportunity for growth. The Fund is a non-diversified close-end investment company and has elected to be treated as a business development company under the Investment Company Act of 1940, as amended (1940 Act).

(2) Summary of Significant Accounting Policies

(a) Valuation of Investments

Portfolio investments are stated at quoted market or fair value as determined by the Investment Advisor (note 4). The securities held by the Fund are primarily unregistered and their value does not necessarily represent the amounts that may be realized from their immediate sale or disposition.

(b) Other

The Fund follows industry practice and records security transactions on the trade date. Dividend income is recorded on the ex-dividend date. Interest income is recorded as earned on the accrual basis.

(c) Cash and Cash Equivalents

The Fund considers all highly liquid debt instruments with original maturities of three months or less to be cash equivalents.

(d) Securities Sold Under Agreements to Repurchase

Securities sold under agreements to repurchase are treated as collateralized financing transactions and are recorded at their contracted repurchase or resale amounts plus accrued interest. The Fund is required to deliver, as collateral, securities sold under agreements to repurchase. Collateral is valued daily, and additional collateral is delivered when appropriate.

(2) Summary of Significant Accounting Policies (continued)

(e) Federal Income Taxes

The Fund has elected the special income tax treatment available to "regulated investment companies" under Subchapter M of the Internal Revenue Code (IRC) in order to be relieved of federal income tax on that part of its net investment income and realized capital gains that it pays out to its shareholders. The Fund's policy is to comply with the requirements of the IRC that are applicable to regulated investment companies. Such requirements include, but are not limited to certain qualifying income tests, asset diversification tests and distribution of substantially all of the Fund's taxable investment income to its shareholders. It is the intent of management to distribute all of its taxable investment income and long term capital gains within the defined period under the IRC to qualify as a regulated investment company. Therefore, no federal income tax provision is included in the accompanying financial statements.

(f) Net income per share

Net income per share is based on the weighted average of shares outstanding of 4,253,475 during 2000, 4,143,040 during 1999, and 4,246,163 during 1998.

(g) Use of Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions as to the valuation of investments that effect the amounts and disclosures in the financial statements. Actual results could differ from these estimates.

(h) Organization Costs

Costs of organizing the Fund were capitalized and were being amortized on a straight-line basis over five years beginning with the commencement of the Fund's activities. These costs were fully amortized as of December 31, 1999.

(3) Management and Organization Fees

Edgar Filing: RENAISSANCE CAPITAL GROWTH & INCOME FUND III INC - Form 10-K

The Investment Adviser for the Fund is registered as an investment adviser under the Investment Advisers Act of 1940. Pursuant to an Investment Advisory Agreement (the Agreement), the Investment Adviser performs certain services, including certain management, investment advisory and administrative services necessary for the operation of the Fund. In addition, under the Agreement the Investment Adviser is reimbursed by the Fund for certain administrative expenses. A summary of fees and reimbursements paid by the Fund under the Agreement, the Prospectus and the original offering document are as follows:

RENAISSANCE CAPITAL GROWTH & INCOME FUND III, INC.

Notes to Financial Statements (continued)

December 31, 2000, 1999 and 1998

(3) Management and Organization Fees (continued)

The Investment Adviser receives a fee equal to .4375% (1.75% annually) of the Net Assets each quarter. The Fund incurred \$1,056,483, \$878,987, and \$812,056, for 2000, 1999, and 1998, respectively, for such management fees. Amounts payable for such fees at December 31, 2000 and 1999 were \$208,049 and \$204,030, respectively.

The Investment Adviser was reimbursed by the Fund for administrative expenses paid by the Investment Adviser on behalf of the Fund. Such reimbursements were \$101,929, \$130,679, and \$187,988, for 2000, 1999 and 1998, respectively, and are included in general and administrative expenses in the accompanying statements of operations.

The Investment Adviser is to receive an incentive fee in an amount equal to 20% of any of the Fund's realized capital gains computed net of all realized capital losses and cumulative unrealized depreciation. At the Annual Shareholders' Meeting for the Fund held in May 1999, the shareholders approved an amendment to the Investment Advisory Agreement allowing the incentive fee to be accrued and paid on a quarterly basis in an effort to better reflect the operating results and financial position of the Fund on a quarterly basis. The Fund incurred \$1,611,135, \$2,313,841, and \$626,149 during the years ended 2000, 1999 and 1998, respectively, for such incentive fees.

(4) Investments

In the normal course of business the Fund conducts certain of its investment activities with brokers. The depository operations of these investing activities are performed pursuant to an agreement with a custodial bank.

The Fund invests primarily in convertible securities and equity investments of companies that qualify as Eligible Portfolio Companies as defined in Section 2(a)(46) of the 1940 Act or in securities that otherwise qualify for investment as permitted in Section 55(a)(1) through (5). Under the provisions of the 1940 Act at least 70% of the Fund's assets, as defined under the 1940 Act, must be invested in Eligible Portfolio Companies. In the event the Fund has less than 70% of its assets in eligible portfolio investments, then it will be prohibited from making non-eligible investments until such time as the percentage of eligible investments again exceeds the 70% threshold. These investments are carried in the statements of assets and liabilities as of December 31, 2000 and 1999, at fair value, as determined by the Investment Adviser. The convertible debt securities held by the Fund generally have maturities between five and seven years and are convertible into the common stock of the issuer at a set conversion price at the discretion of the Fund. The common stock underlying these securities is

generally unregistered and thinly to moderately traded, but is not otherwise restricted. The Fund may register and sell such securities at any time with the Fund paying the costs of registration. Interest on the convertible securities are generally payable monthly. The convertible debt securities generally contain embedded call options giving the issuer the right to call the underlying issue. In these instances, the Fund has the right of

(4) Investments (continued)

redemption or conversion. The embedded call option will generally not vest until certain conditions are achieved by the issuer. Such conditions may require that minimum thresholds be met relating to underlying market prices, liquidity, and other factors.

The Prospectus and the original offering document specify that investments held by the Fund shall be valued as follows:

Generally, pursuant to procedures established by the Investment Advisor, the fair value of each investment will be initially based upon its original cost to the Fund. Costs will be the primary factor used to determine fair value until significant developments affecting the investee company (such as results of operations or changes in general market conditions) provide a basis for use in an appraisal valuation.

Portfolio investments for which market quotations are readily available and which are freely transferable will be valued as follows:

(i) securities traded on a securities exchange or the NASDAQ will be valued at the closing price on, or the last trading day prior to, the date of valuation and (ii) securities traded in the over-the-counter market will be valued at the average of the closing bid and asked prices for the last trading day on, or prior to, the date of valuation. Convertible debt and/or warrants associated with such investments will be deemed to be investments for which market quotations are readily available and priced accordingly.

Securities for which market quotations are readily available but are restricted from free trading in the public securities markets (such as Rule 144 stock) will be valued by discounting the closing price or the closing bid and asked prices, as the case may be, for the last trading day on, or prior to, the date of valuation to reflect the illiquidity caused by such restrictions, but taking into consideration the existence, or lack thereof, of any contractual right to have the securities registered and freed from such trading restrictions.

The fair value of investments for which no ready market exists will be determined on the basis of appraisal procedures established in good faith by the Investment Advisor. Appraisal valuations will be based upon such factors as the company's earnings and net worth, the market prices for similar securities of comparable companies and an assessment of the company's future financial prospects. In the case of unsuccessful operations, the appraisal may be based upon liquidation value. Appraisal valuations are necessarily subjective.

At December 31, 2000 and 1999, all the Fund's investments, totaling \$45,367,138 (69% of total assets) and \$41,346,302 (88% of total assets), respectively, have been valued by the Investment Advisor in the absence of

readily ascertainable market values. Because of the inherent uncertainty of valuation, those estimated values may differ significantly from the values that would have been used had a ready market for the investments existed, and the differences could be material.

Notes to Financial Statements (continued)

(4) Investments (continued)

As of December 31, 2000 and 1999, the net unrealized appreciation associated with investments held by the Fund was \$5,381,352 and \$6,888,367, respectively. For 2000, the Fund had gross unrealized gains of \$13,902,385 and gross unrealized losses of (\$8,521,033). For 1999, the Fund had gross unrealized gains of \$12,907,099 and gross unrealized losses of (\$6,018,732).

(5) Restricted Securities

As indicated on the statement of investments as of December 31, 2000 and 1999, the Fund holds investments in shares of common stock, the sale of which is restricted. These securities have been valued by the Investment Advisor after considering certain pertinent factors relevant to the individual securities (note 4).

(6) Securities Sold Under Agreements to Repurchase

Securities sold under agreements to repurchase are collateralized by \$17,972,695 in Freddie Mae securities and \$2,361,250 in equity securities held by the broker and are included in cash and cash equivalents and investments on the statement of assets and liabilities as of December 31, 2000, respectively.

(7) Purchase of Additional Shares

In accordance with Fund guidelines, certain shareholders reinvested their dividends in the Fund, purchasing 218,676 Fund shares issued directly by the Fund in 2000. The Fund issued no shares in 1999 or 1998 under the dividend reinvestment plan.

3. Section 7(f) is hereby amended and restated to read as follows:

As used herein, the phrase "commercially prompt manner" shall mean within five (5) business days.

Section 9. Tax Reports and Returns.

FNB shall be under no duty to file, on behalf of Ren III, or the officers, directors, or shareholders in Ren III, tax returns, reports or statements with any governmental authority. FNB is authorized, however, in the name of and on behalf of Ren III, to execute any certificates of ownership or other reports which may be required by the United States, or any state or other jurisdiction with respect to any property being held pursuant to this Agreement. Upon any termination of this Agreement, pending appointment of a successor to FNB or a vote of the shareholders of Ren III to dissolve or to function without a custodian of its cash, securities and other property, FNB shall not deliver cash, securities or other property of Ren III to Ren III, but may, with the consent of the Board of Directors, deliver them to a bank or trust company in Dallas, Texas having an aggregate capital, surplus and undivided profits, as shown by its last published report of not less than five hundred thousand dollars (\$500,000) as a custodian for Ren III to be held under terms similar to those of this Agreement; provided, however, that FNB shall not be required to make any such delivery or payment until full payment shall have been made by Ren III of all liabilities constituting a charge on or against the properties then held by FNB or on or against FNB, and until full payment shall have been made to FNB of all its fees, compensation, costs and expenses, subject to the provisions of this Agreement. In the event Ren III's Board of Directors has not appointed a successor custodian or otherwise consented to FNB's delivery of the assets held hereunder to a bank or trust company meeting the requirements set forth above upon the expiration of sixty (60) days from the date notice of termination is given by either party, FNB's obligations hereunder shall terminate and FNB may, at its election, interplead such assets with a court of competent jurisdiction in Dallas County, Texas, and FNB shall be entitled to recover from Ren III and/or the assets deposited with the court, its attorneys' fees and costs in connection with such interpleader. Upon the delivery by FNB of any assets to a successor custodian, bank or trust company, or a Dallas County District Court, FNB shall be released of any further responsibility or liability with respect to such assets.

Section 14. Concerning Custodian.

A. FNB shall be paid as compensation for its services pursuant to this Agreement such compensation pursuant to the fee schedule attached as Exhibit I. The cash, securities and other assets held by FNB hereunder shall serve as security for all amounts owing hereunder to FNB by Ren III.

Edgar Filing: RENAISSANCE CAPITAL GROWTH & INCOME FUND III INC - Form 10-K

B. FNB shall not be liable in any respect on account of the authenticity, identity, authority or rights of the parties executing or delivering or purporting to execute or deliver this Agreement or any documents or papers or notices deposited or called for hereunder.

C. Ren III agrees to indemnify and hold harmless FNB and its nominees from all taxes, charges, expenses, assessments, claims and liabilities (including reasonable counsel fees) incurred or assessed against FNB or its nominees in connection with the performance of this Agreement, except such as may arise from FNB's or its nominee's own gross negligence or willful misconduct. In the event of any advance of cash for any purpose made by FNB resulting from orders or instructions of Ren III, or in the event that FNB or its nominee shall incur or be assessed any taxes, charges, expenses, assessments, claims or liabilities in connection with the performance of this Agreement, except such as may arise from FNB's or its nominee's own gross negligence or willful misconduct, any property at any time held for the account of Ren III shall be security therefor.
