DIANA SHIPPING INC. REPORTS FINANCIAL RESULTS  
FOR THE THIRD QUARTER AND NINE MONTHS ENDED SEPTEMBER 30, 2016

ANNOUNCES TERMINATION OF DISCUSSIONS WITH LENDERS

ATHENS, GREECE, November 17, 2016 – Diana Shipping Inc. (NYSE: DSX), (the "Company"), a global shipping company specializing in the ownership of dry bulk vessels, today reported a net loss of \$78.3 million and net loss attributed to common stockholders of \$79.8 million for the third quarter of 2016, of which \$50.0 million relates to loss and impairment of our investment in Diana Containerships Inc. This compares to a net loss of \$17.4 million and a net loss attributed to common stockholders of \$18.8 million for the third quarter of 2015.

Time charter revenues were \$27.1 million for the third quarter of 2016, compared to \$38.9 million for the same quarter of 2015. The decrease in time charter revenues was due to decreased average time charter rates that we achieved for our vessels during the quarter and was partly offset by revenues derived from the increase in ownership days resulting from the enlargement of our fleet.

Net loss and net loss attributed to common stockholders for the nine months ended September 30, 2016 amounted to \$141.0 million and \$145.3 million, respectively of which \$54.4 million relates to loss and impairment of our investment in Diana Containerships Inc. This compares to a net loss and net loss attributed to common stockholders of \$42.2 million and \$46.5 million, respectively, for the same period of 2015. Time charter revenues were \$86.2 million for the nine months ended September 30, 2016, compared to \$119.4 million for the same period of 2015.

Termination of Discussions with Lenders

The Company has concluded, without agreement, its previously-announced discussions with its lenders with respect to certain proposed amendments of its outstanding loan facilities which were subject to the agreement of all of the Company's lenders on similar terms. The Company has also terminated its engagement of a financial advisor in connection with such discussions. The Company is current in all payments of principal and interest under each of its existing loan facilities. The Company does not currently anticipate resuming such discussions with its lenders.

Time charter equivalent rates, or TCE rates, are defined as our time charter revenues less voyage expenses during a period divided by the number of our available days during the period, which is consistent with industry standards.

Voyage expenses include port charges, bunker (fuel) expenses, canal charges and commissions. TCE is a (1) non-GAAP measure. TCE rate is a standard shipping industry performance measure used primarily to compare daily earnings generated by vessels on time charters with daily earnings generated by vessels on voyage charters, because charter hire rates for vessels on voyage charters are generally not expressed in per day amounts while charter hire rates for vessels on time charters are generally expressed in such amounts.

Daily vessel operating expenses, which include crew wages and related costs, the cost of insurance, expenses relating to repairs and maintenance, the costs of spares and consumable stores, tonnage taxes and other (2) miscellaneous expenses, are calculated by dividing vessel operating expenses by ownership days for the relevant period.
