The Company disclosed today the following details concerning the 50% index-based profit sharing components of its recently-announced time charters for the Genco Constantine and the Genco Titus:

- The profit sharing between the Company and the charterer for each 15-day period is calculated by taking the average over that period of the published Baltic Cape Index of the four T/C routes as reflected in daily reports.
  - If such average is more than the base rate payable under the charter, the excess amount is allocable 50% to the Company and 50% to the charterer. A third party brokerage commission of 3.75% based on the profit sharing amount due to the Company is payable out of the Company's share.
